The military person is an important part of the Campus. Twenty-seven percent of the total student body is comprised of veterans.

Sams, Rubinstein articles in JGE

Dr. Henry W. Sams and S. Leonard Rubinstein, professors of English, have contributed long articles to the Summer issue of The Journal of General Education, published by the University Press, and now available from the Press at \$3 per copy.

Also in this issue, Paul T. Hopper, instructor of German and humanities at Shenango Valley Campus contributes a poem, "Tropic," as does Judith Moffett, former Penn State student, and Christopher Salverson, who was visiting professor of English during the past Winter and Spring Terms.

The article by Dr. Sams, who is also associate editor of the Journal, is titled "Maimonwiski and the Novel; or, Cultural Anthropology versus Mere Fiction," a discussion of the readings and writings of Bronislaw Maimonwiski, the social anthropologist whose writings have been translated into many languages. His early studies were made of the primitive peoples in the Trobriand Islands off New Guinea.

Rubinstein's article, "Dostoyevsky: The Identity of Crime and Punishment," begins with the proposition that "Dostoyevsky's 'Crime and Punishment' may demonstrate that punishment is the condition of crime." Discussing the crime of Raskolnikov, the article concludes: "Perhaps the punishment for crime is the nature of crime; absence of love; or worse, denial of love."

The lead article, by D. Richard Little, editor of "Liberalization in the USSR," is titled "Beyond Careerism: The Revival of General Education."

Members of the faculty may obtain the Journal at a very much reduced subscription price, by writing or calling the University Press.

French literary review available

The literary review, "Les Bonnes Feuilles," published by graduate students in the Department of French in the spring and fall is now available, and at the same time the editors are seeking manuscripts for future issues.

Included in the current (Spring) issue are articles on Sade, Gide, Rousseau, Flaubert, Joachim Du Bellay, with a comparative of two poems by Panard.

Subscriptions for four issues (two years) may be purchased at \$4, while single copies may be obtained for \$1.25 (making checks payable to Les Bonnes Feuilles) at Room S401 Burrows.

Each issue of Les Bonnes Feuilles contains articles devoted to French language, literature, culture and comparative studies, and manuscripts are welcomed from all students of language and literature.

Editor-in-chief of the publication is Paul R. Bernard.

Special exhibits

Three special exhibits, originally part of the second centennial of chemistry celebration at the University, are now open to the public.

The Rare Books Room of Pattee Library (third floor, west wing) is featuring a display of items relating to the pioneer chemist, Joseph Priestley, from the Penn State Priestley collection, one of the world's best. Included are handwritten versions of Priestley's Memoirs, his will, account books, and numerous letters. The Rare Books Room is open from 8 a.m. to 5 p.m., Monday through Friday. The exhibit will continue through this week.

(Continued on page two)

News in Brief

HUB CLOSING

Food service at the Hetzel Union Bldg. will be suspended between terms. The Snack Bar will close Friday, August 23, at 2 p.m. and reopen Tuesday, Sept. 3, at 8 a.m. The Terrace Room cafeteria will close Saturday, August 24, after serving both breakfast and lunch; it will reopen for lunch Tuesday, Sept. 3.

BERKS PROGRAM

A program aimed primarily at members of labor organizations unable to attend classes on a part-time basis and who are

involved in personnel functions is being offered by the Continuing Education at the Berks Campus. It is a program leading to a two-year associate degree in labor studies and it seeks to prepare the students for positions in labor or labor-related professions. Classes are scheduled for late afternoon and evening, and in addition to the specific labor courses, the program includes introductory liberal arts courses.

MUSICAL INSTRUMENTS

An unusual exhibit of international musical instruments is currently on display in the Kern Graduate Bldg, Commons Gallery, arranged by Mrs. Ardeth L. Frisbey, assistant director for international student affairs. The instruments, from China and Indonesia, will be exhibited during August.

RETURNING BOOKS

Cordelia W. Swinton, lending services librarian of University Libraries, urges members of the faculty to return borrowed books in person, rather than through Campus Mail.

TRUSTEE APPOINTMENTS

The president of the University's Board of Trustees, Michael Baker, Jr., made several committee appointments, including the following, recently:

George H. Deike, Jr., to fill the unexpired term of Frederick J. Close on the Executive Committee.

Walter J. Conti and Dion C. Stewart to the Committee on Educational Policy.

Mr. Conti to the Committee on Finance. Mr. Stewart to the Committee on Physical Plant.

HERSHEY AFFILIATION

The College of Medicine has affiliated with the Altoona Hospital for the purpose of joint planning and sponsorship of continuing education programs in Altoona and Hershey for practicing physicians and other health professionals. Four other hospitals are currently affiliated with the College — Harrisburg, Geisinger Medical Center, Harrisburg Polyclinic Hospital and the Lancaster Cleft Palate Clinic.

NEWCOMER'S CLUB

The Faculty Women's Newcomers' Club will begin its 1974-75 season of activities with neighborhood coffee parties, to be held in the homes of members, early in September. On September 24, the annual reception of the Faculty Women's Club, which is sponsored jointly with the Newcomers' Club, will be held in the Kern Graduate Bldg. (A complete schedule of events for the fall will appear in the Sept. 5 issue of INTERCOM). Membership in the Newcomers' Club is open to women faculty members and wives of administrators or faculty members who have been here less than two years. Further information about the Club may be obtained by calling Mrs. Stuart Forth, 238-5268, or Mrs. Keith Lantz, 237-9404.

Library space

Members of the faculty who wish to obtain "Study Space Assignments" in Pattee Library for the Fall Term should note that the assignments will be made on a first-come, first-served basis Tuesday, Sept. 3, beginning at 8 a.m. in Room 106 Central Pattee. There are only 49 such spaces. Further questions should be directed to Cordelia Swinton, 665-5420.

Calendar Aug. 22-Sept. 6

SPECIAL EVENTS

Thursday, September 5 — Open house for new students, 7 p.m., Pollock-South Undergraduate Library.

Thursday-Friday, September 5-6 — Sorority and Fraternity Rush, 8 a.m.-5 p.m., Recreation Bldg.

Friday, September 6 — Artists Series, The Tamburitzans, 8:30 p.m., University Auditorium.

OFFICIAL

Thursday-Saturday, August 22-24 — Final examinations.

Saturday, August 31 — Summer Term Commencement Exercises, 10:30 a.m., Recreation Bldg.

Tuesday, September 3 — Arrival of new students.

Tuesday-Friday, September 3-6 — Orientation and advising.

Wednesday-Friday, September 4-6 — Registration.

EXHIBITS

Museum of Art — Selections from the Permanent Collection. Gallery 2 through September 1. Milton Osborne Drawings, Gallery A, through September 1. Philadelphia Artists, Gallery C, through September 1. Free Museum tours Thursdays, 1:30 p.m.

Kern Gallery — Mary Hamilton, children's prints, through August 24. Dan Reinhold, jewelry (cases).

Walnut Building — Murry DePillars, painting. Robert Jackson, photography. Lawrence Jordan, ceramics.

Pattee Library — Rare Books Room, Joseph Priestley display. Foyer, Centennial of Chemistry, history of Priestley House displays.

Davey Laboratory — Physical Science Library, "Evan Pugh, Professor of Chemistry."

Credit union

The Penn State Federal Credit Union made three appointments recently to the Credit Union Committee.

Eugene Nebane, Jr., classification analyst in the Office of Personnel Administration.

James W. Locker, Jr., personnel assistant in the Office of Personnel Administration.

Robert R. Vaughn, maintenance inspector, Office of Physical Plant.

The Credit Union is a savings and loan organization open to all University faculty and staff members.

SPECIAL —

(Continued from page one)

In the foyer of Pattee Library, items relating to the first centennial of the Priestley celebration and the history of the Priestley house are on display. Featured in the exhibit is the 1974 Memorial Album containing the mandate for this year's just concluded second centennial celebration. The album also contains photographs and autographs of the original centennial participants as well as pictures of Priestley's scientific instruments and other photos of the area and time.

The Physical Science Library in Davey Laboratory is presenting an exhibit called, "Eugene Pugh, Professor of Chemistry," focusing on the scientific career of Penn State's first president. The exhibit includes historical documents and pieces of apparatus covering Dr. Pugh's student years in Germany, where he received the doctorate in 1856; his travels in France and England; and his acceptance of the Penn State presidency. The exhibit's central piece is the diagram Pugh used to describe his hydrogen experiment to the Royal Society in London.

The experiment, which is the foundation of the modern fertilizer industry, proved conclusively that plants derive nitrogen from ammonia and soil nitrates and not from the atmosphere as originally suggested by Priestley.

Both the Pattee foyer and the Physical Sciences Library are open from 7:45 a.m. to 10 p.m. weekdays, 7:45 a.m. to 5 p.m. on Saturday, and 1 p.m. to 10 p.m. on Sunday.

The exhibits were designed by a committee that included Dr. Robert Bernheim, professor of chemistry; Charles Mann, curator of rare books and special collections; Dr. Roy A. Olafson, professor of chemistry; and Mrs. Margaret T. Riley, a staff member in the Pattee Library Penn State Room. Cornelius McKown, physical sciences librarian, served as chairman of the committee.

WPSX highlights

"The Mark of Zorro" the 1920 adventure film that was Douglas Fairbanks' first costume drama, is featured on "The Silent Years" Friday, August 23, at 10:00 p.m. on WPSX-TV, Channel 3. The role of the famous Mexican Robin Hood gives Fairbanks the opportunity to display the acrobatic skill that was to become his trademark. Appearing with him are Noah Beery and Marguerite de la Mora. Beginning Sunday, August 25, at 10:00 p.m., and continuing at that time through Thursday, August 28, Penn State Television is presenting recorded coverage of events at the 1985 Annual Fair in Centre Hall, Pa. The half-hour specials will feature the traditional fair events as well as special events planned for the centennial celebrations. Each program may also be seen the following afternoon at 2:00 p.m.

How is America faring under its first full year with an all-volunteer army? This is the subject of a special Remembrance of the Pleasure of the hour-long "PBS Special of the Week" documentary, Monday, August 26, at 8:00 p.m. on WPSX-TV. The program examines the complex issues surrounding the changeover from the draft, looks at recruitment techniques and the civil/military relationship that results from volunteerism, and compares America's volunteer system with that of other nations. The program may also be seen Saturday, August 31, at 9:30 p.m.

The relationship between the human population and both aquatic and terrestrial life is the subject of "Man, Bacteria, Man Ostracods" Thursday, August 27, at 8:00 p.m. on WPSX-TV. Noting that 359 animal species have become extinct in less than 15 years, the program's calendar should focus on the importance to man of biological diversity.

Vol. 3, No. 49

August 22, 1974

Penn State Intercom is a weekly publication for the academic community of The Pennsylvania State University. It is published each Thursday when classes are in session. General information and items of interest should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.

Editor: W. F. Ackerman

Phone 865-7517

Department head in EMS is named

Robert L. Frantz has succeeded Dr. Thomas V. Falkie as head of the department of mineral engineering. His appointment as professor of mining engineering and department head was effective August 1. Dr. Falkie is on leave to serve as director of the U.S. Bureau of Mines.

Frantz, president of the T. Boyd Co. consulting mining engineers, Pittsburgh, received an M.S. degree in mining engineering from Penn State in 1950. He is a 1948 graduate of Virginia Polytechnic and State University.

In 1957, after nine years with various private concerns, Frantz joined the mining engineering faculty at Ohio State University, and from 1961 to 1964 was in charge of the division. He left the university to join the Boyd company and subsequently became president.

Frantz is a registered professional engineer in Ohio, West Virginia, Indiana, and Pennsylvania.

NSF makes grant for noise study

A \$50,200 National Science Foundation research grant has been awarded to Dr. Gerhard Reethof, Alcoa Professor of mechanical engineering at the University.

The grant will be used to continue a research program initiated by the Alcoa Professorship fund. The program, a cooperative effort between the University's Noise Control Laboratory and several industrial valve manufacturers, is designed to develop a better fundamental understanding of industrial valve noise mechanisms.

Control valves and regulators are major sources of noise in the power generation and chemical industries, according to Dr. Reethof. The noise produced by these valves and regulators affects workers in plants, as well as people in surrounding communities.

Many of these valves are so noisy that they violate rules which have been stipulated by the Occupational Safety and Health Act.

The program may contribute to the development of noise prediction techniques and the design of quieter valves.

Press book

The University Press has published a book by Dr. George T. Harrell, Jr., vice president emeritus for health sciences, titled "Planning Medical Center Facilities for Education, Research and Public Service." It is a "review of the experience of one new medical school with a sampling of the unique features of others."

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Office 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until: 5:00 p.m., Sept. 5, 1974.

PROGRAMMER/ANALYST, INTERCOMPREHENSIVE PROGRAMS — University Park

Analyze, design, and implement computer-oriented systems and procedures in support of a comprehensive accounting and management information system for the Computation Center. Manage material and personnel necessary to assure appropriate computer processing, implement new computer techniques. Consult with faculty regarding instructional needs of students. B.S. degree in Business Administration or Computer Science and demonstrated programming ability is required.

KITCHEN SUPERVISOR — Hershey Medical Center
Instruct employees in proper methods of food preparation and cooking; demonstrate the use of standard recipes and use of various kitchen equipment; schedule work assignments and work locations for food items for special diets as ordered by physicians; supervise cooks and other personnel in preparation of food items for patient service as well as cafeteria and coffee shop. High school graduate plus organized outside study equivalent to at least two years of college; plus tour to seven years effective experience.

PROGRAMMER A — Hershey Medical Center
Responsible for analyzing the requirements of various systems and for the development of computer programs to fulfill these requirements. Bachelor's degree with knowledge of third generation computers and programming plus two to four years related experience.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER.

Honors

Carl O. Dossin professor emeritus of poultry science extension, has been elected Fellow of the National Poultry Science Association. He retired in 1965 as chairman of the Poultry Extension section after serving on the faculty for 38 years. He received a certificate August 8 at the annual meeting of the Association, which cited him for his contributions and achievements which helped to make Pennsylvania one of the nation's leaders in poultry and egg production.

Dr. William P. Graham, III, chief of plastic and reconstructive surgery, Hershey Medical Center, has been elected president of the Robert H. Ivy Society, an organization of plastic surgeons in Pennsylvania, parts of Maryland and New Jersey.

Leaves

Dr. Donald C. Rung, professor of mathematics, for the 1974-75 academic year, to serve as senior visiting research scientist in the department of mathematics at Carleton University, Ottawa, Ontario, where he will collaborate with Dr. Walter Schneider, professor of mathematics, on research in the area of complex function theory.

Dr. Reginald A. Deering, professor of physics, will do research at Stanford University while on a leave for a year, beginning September 1. His research, in the laboratory of Dr. Philip Hanawalt, will be concerned with DNA repair systems in cells, and it will be supported in part by an NIH Research Fellowship Award.

Appointments

Dr. Rostyn P. Glazerman, as assistant professor of religious studies. She received a bachelor of arts degree in music from Spelman College and as a pianist has composed songs and accompaniment. She received an M.A. degree in English from Georgia State College and a Ph.D. in humanities from Syracuse University, She

(143-1) In order to learn of sources of capability and existing research, new research programs, the Department of Housing and Urban Development (HUD) supports unsolicited proposals through both contract and grant funds. The new HUD On-Going Policy Research Program (POGR) is responsible for initiating, coordinating, and evaluating policies and programs to clarify and improve the roles of Federal, State, and Local governments in housing and urban development. POGR programs will focus on several areas of research including: family cash assistance to obtain housing, housing management improvements, housing and health care, housing systems options, economic and housing data collection and analysis, and national and community goals. For additional information contact: Michael A. Mastaglio, Assistant Secretary for Policy Development and Research, HUD, 451 7th St., S.W., Washington, D.C. 20410 (202-465-6551) (Ref. NSP Guidelines) HUD also supports doctoral dissertation grants. Instructions may be picked up in 317 Kern Bldg. (Ref. June 27 INTERCOM 1135-5 and Fellowship Opportunities 74-4, 6/8/74).

(143-2) Nov. 15, 1974 is the closing date for submitting proposals for the NSF Scientists and Engineers Research Program. The Program is funded by the Agency for International Development (AID) through the National Science Foundation, this special program provides support for individuals in scientific and technical fields to gain experience to specific problem of development in 39 developing countries. Both research/teaching grants and international travel grants are funded. For additional information contact: Director, International Programs, NSF, Washington, D.C. 20550, Mildred Basilevic (202-438-1178) (Ref. NSP 74-13).

(143-3) The Public Health Service (PHS) has published rules and regulations for its National Heart and Lung Institute Grants for National Research and Demonstration Centers. Applicants must be public or nonprofit private hospitals or schools of medicine or other public or nonprofit private agencies or institutions. Program requirements include basic and clinical research relating to the major disease areas on which the applicants would concentrate. Demonstration of the applicability of the research findings; information and education activities pertaining to such areas; and opportunities for training, including training of allied health professions personnel. (Ref. 39FR 27902, 8/27/74).

(143-4) The Air Force Office of Scientific Research (AFOSR) supports basic investigations in chemical sciences, mathematical and informational sciences, earth and solid state sciences, aeromechanics and energetics, life sciences, and general physics, and geophysics. Research is selected for support from unsolicited proposals. Criteria for selection of formal proposals include: relevance to AF needs, technical quality and originality, exper-

has taught piano and music, has served as an evaluation analyst for the Atlanta Metro Cities Program, and has been as adjunct instructor of English at LeMoyne College. Her dissertation research was concerned with the meaning and significance of existential communication in the philosophy of Karl Jaspers, theology of Martin Buber, and the drama of Gabriel Marcel.

Dr. Gerald E. Gipp, as assistant professor of education in the Division of Educational Policy Studies. A graduate of Ellendale State College, he earned an M.Ed. and a Ph.D. degree in educational administration at Penn State. He has been serving as instructor and associate director of the Native American Program at the University.

Garry L. Burkle, as instructor of environmental science in the Alamosa Campus. He has been teaching at Western Michigan University the past three years. A graduate of Illinois State University, with a B.S. degree in geography, he received an M.S. from the same school and is now a candidate for the Ph.D. at Michigan State.

James W. Hill, as assistant professor of English. He is a graduate of Carnegie-Mellon University, with a degree in industrial management, and was supervisor of engineering administration at Westinghouse-Frye, Inc. He has also served as publications manager and manager of communications for Westinghouse Electric Corp., technical writer supervisor at the Lawrence Radiation Lab at the University of California, and editing supervisor for E.I. du Pont de Nemours, Savannah River Laboratory.

Dr. Charles C. Snow, as assistant professor of organizational behavior. A graduate of San Diego State University with the bachelor's degree in business administration, Dr. Snow received the doctorate of philosophy degree in business administration from the University of California at Berkeley. He has been a postdoctoral fellow at Stanford University.

ience of investigation, adequacy of research facilities, and reasonableness of proposed budget. Proposals may be submitted at any time. Contact AFOSR (CSC), 1400 Wilson Blvd., Arlington, VA 22209 (202-465-4751) (Ref. CBO 7117/74).

(143-5) The National Institute of Mental Health (NIMH) Division of Special Mental Health Programs (SMHP) has four programs for which there are application deadlines for 1975. These programs are: Child and Adolescent Mental Health; Child and Adolescent Mental Health; Child and Adolescent Mental Health; Child and Adolescent Mental Health. For information on these programs contact: Mental Health of Children and Families Research Grants — Dr. Edwin L. Nohel, Chief, Center for Studies of Child and Adolescent Mental Health, NIMH, 5000 Fishers Lane, Rockville, MD 20852 (301-443-3536); Metropolitan Mental Health Problems — Dr. Elliott Liebow, Chief, Center for Studies of Metropolitan Problems, SMHP, NIMH, 5000 Fishers Lane, Rockville, MD 20852 (301-443-3373); Mental Health of the Aging Research Grants — Dr. Thomas E. Anderson, Chief, Section of Geriatric Psychiatry, SMHP, NIMH, 5000 Fishers Lane, Rockville, MD 20852 (301-443-4726); and Studies of Crime and Delinquency — Dr. Saleem A. Shah, Chief, Center for Studies of Crime and Delinquency, SMHP, NIMH, 5000 Fishers Lane, Rockville, MD 20852 (301-443-3774) (Ref. OPI 44-4726).

(143-6) The National Institute of Health (NIH) has announced the following application deadline dates for the Mental Health Research Program. The program is a part of the Center for Epidemiologic Studies, Office of Extramural Research Programs, NIMH, 5000 Fishers Lane, Rockville, MD 20852 (301-443-3774) (Ref. OPI 44-4726).

Exhibit on Recent Developments in Research Methods and Instrumentation sponsored by and held at the National Institutes of Health, 5000 Rockville, MD 20852. The exhibit is open to the public.

Topic areas are: Separation Science Techniques; Modern Applications of Enzymes as Reagents; Electronic Cell Sorting; Laser Light Source Spectroscopy; Ultrasonic Diagnostic Imaging; Radiation and Radiobiologic Diagnostic Imaging; Computer for Information (program and abstracts ready September); is: Office of Administrative Services, NIH, 5000 Fishers Lane, Rockville, MD 20852, Bethesda, Maryland 20814 (301-495-2131) (Ref. NIH Notice, 7/30/74).

REMINISERS AND DEADLINE DATES
SEPT 15 for NIMH Training Grants Program (Ref. 15 INTERCOM 1412-1) — Oct. 1 for PHS Special Grants in Nursing and HRA Nursing Research Grants (Ref. 15 INTERCOM 1412-1) — Oct. 1 for NIH/ORD research and resources programs (Ref. 15 INTERCOM 1412-4) — Oct. 1 for four international studies and research programs (Ref. 15 INTERCOM 1412-5) — Oct. 1 for NSF Faculty Research Participation Program (Aug. 1 INTERCOM 1410-2) — Oct. 1 for NEH Personal Development Grants (Ref. 15 INTERCOM 1410-3) — Oct. 1 for NIH/ORD research and resources programs (Aug. 1 INTERCOM 1411-1).

PENN STATE intercom

Volume 3, Number 50

August 29, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

At Capitol Campus, 114 degrees

Commencements Saturday

Commencement exercises will be held for the Summer Term at University Park and at Capitol Campus in Middletown Saturday (August 31).

At University Park, some 1,600 graduates will receive degrees in Recreation Building; the ceremony begins at 10:30 a.m. Members of the faculty planning to be part of the procession will meet under the South Balcony at 10:15 a.m., in academic dress. President Oswald will preside, and William K. Uierlich, vice president of the Board of Trustees, will assist in conferring degrees.

Seniors to be granted baccalaureate degrees total 912; 529 master's degrees

and 148 doctorates will be conferred.

A commissioning ceremony for seniors will be held by Army, Navy, and Air Force R.O.T.C. units Saturday at 8:30 a.m. in the HUB Assembly Room. A total of 19 will receive either reserve or regular commissions at the ceremony, at which Dr. Gordon C. Godbey, associate dean of the College of Education, will be the speaker.

At Capitol Campus, 114 degrees will be conferred at exercises beginning at 11:30 a.m., including 73 baccalaureate and 41 master's degrees. Dr. Robert E. McDermott, Provost, will preside, assisted in the conferring of degrees by Walter J. Conti, member of the Board of Trustees.

For commencement and arrival day

Traffic, parking problems upcoming

Prepare for a traffic and parking problem Tuesday, Sept. 3. That is the day new students will arrive on campus.

For the past many years, the annual influx in the fall of new students took place on Sunday, and many parents brought their sons and daughters, with their luggage, then returned home the same day. With relatively few faculty and staff members on campus, there was little problem with the number of cars.

Presumably, unless many staff members decide to walk or do more car pooling, there could be a problem.

On a limited scale, a traffic problem

could occur Saturday, Aug. 31, when commencement is held in Recreation Building. To help relieve potential congestion in the general area of the building, staff members are asked to find parking in areas away from the building if they plan to be on campus that morning.

A traffic control change is instituted prior to the beginning of the ceremony (at 10:30 a.m.), with one-way traffic on Curtin and Burrows roads in a southerly direction between Fraser Rd. and Pollock Rd. Fraser Rd. will have one-way northbound traffic only.

Council responds to recommendations

The University Council has forwarded to President Oswald its response to changes in Council structure and function recommended by the Joint Senate Administrative Select Committee on Governance.

In general, the Council response takes exception to recommendations of the joint committee that its role be changed to that of a coordinating body. Rather, since it is comprised equally of students, faculty, and administrators, members feel that it brings a unique viewpoint to its role of

advising the University President and should be retained in its present form.

In responding to a request for greater flexibility in Commonwealth Campus scheduling, Council members last week agreed to study existing policy to determine if such flexibility does not already exist.

The Council also received a report on the 1974 course evaluation by graduating seniors.

The next meeting is tentatively scheduled for September 12.

Research associate needed

The College of Human Development in seeking a research associate for a social welfare services program evaluation project has asked that applicants be directed to C. Wilson Anderson, 865-1717, Room 211 South Human Development Bldg. The description of the position is as follows:

Assist in the direction and administration of an evaluation project of a comprehensive, neighborhood-based, and integrated social welfare services program. One-half of this appointment will directly involve research design, development of work plans, and facilitation of field research by project staff members. One-half time will be directly related to involvement in a selected research component of the evaluation project. Ph.D. (or near) plus experience in applied social science research related to social program administration and operation. Must locate residentially in Wilkes-Barre area.

News in brief

RETIRED STAFF CLUB

The 167th meeting of the Penn State Retired Staff Club, which is open to all retired University faculty and staff members, will be held Thursday, Sept. 5, at the Civil Engineering Camp at Stone Valley. This is the annual picnic supper meeting; the meal will be served at 5 p.m. Members should contact Mr. and Mrs. John Pepper, 237-2165, at least three days in advance, if they plan to attend.

HAZLETON CONTRACT

The General State Authority has awarded the general contract for construction of a physical education building at the Hazleton Campus to the Sutter Corporation of Pittsburgh. The building, designed by a Pittsburgh architectural firm, is expected to be completed by June, 1976. The total of the contracts let by GSA is for \$2,697,000.

PHOTO EXHIBIT

Photographs by Barry Lavery, currently a free-lance photographer and instructor of photography at the Art Institute of Pittsburgh, are on display in the Graduate Commons Gallery, Kern Building, and will remain until Sept. 7. All are priced for sale. Lavery has served as a staff photographer and cinematographer for WPHL-TV, Philadelphia, and as coordinator for the art gallery at Pittsburgh Power and Light Co. Most of the photos are of persons in an environment, straight forward, and not gimmicky.

HERSHEY GRANT

To develop a test to predict hemophilia carriers and to support clinical research

related to the factor VIII antigen, the Central Pennsylvania chapter of the National Hemophilia Foundation has provided a grant of \$5,000 to the Hershey Medical Center.

LIBRARY STUDY AREAS

Faculty members seeking a study space in Pattee Library are reminded that number just 49, will be made Sept. 3 (Tuesday) beginning at 8 a.m. on a first-come, first-served basis in Room 106 Central Pattee.

FOOTBALL BROCHURE

Copies of the 1974 Penn State Football brochure are available, containing a variety of information about the upcoming season as well as records of past years and of individual records. They may be obtained at the Ticket Office in Recreation Building at \$2 each or, if ordered by mail, at \$2.50.

DIAL TONE

A reminder concerning telephone procedure is given by Telephone Service to those who may not have yet become accustomed to recent changes in Bell Telephone Co. equipment. From University phones, after dialing 9 for local, off-campus phones and after dialing 8 for long distance calls, there will be a dial tone. If no dial tone is heard, do not proceed further.

OPEN HOUSE IN PSUL

On Thursday, September 5 at 7 p.m. in the Pollock-South Undergraduate Library, the Undergraduate Library will hold an open house. A brief slide-tape program will precede an informal question and answer period concerning library services at the

(Continued on page two)

Artists Series opens 1974-75 season with folkdance group

Colorful dances and exciting folk music of East Europe are the specialty of The Tamburitzans, the Duquesne University group which opens the 1974-75 Artists Series Friday and Saturday, Sept. 6 and 7, in University Auditorium. Curtain is 8:30 p.m.

Tickets go on sale at the University Auditorium box office and downstairs in the Hetzel Union Bldg. Tuesday, Sept. 3, at 9 a.m.; the sale continues through Friday. Tickets will also be sold at registration in Rec Hall.

In their 37 years of existence, The Tamburitzans have been given high praise not only in the U.S. but in Yugoslavia, Greece, Czechoslovakia, Bulgaria, Romania, Poland, Soviet Union, Italy, France, Mexico, and Canada.

The students in the group, from all sections of the country, are on full four-year scholarships at Duquesne, and since 1937 hundreds have received more than two million dollars in financial aid. They have

made seven trips abroad, presenting in those concerts not only East European dances and music but also songs, dances and music of the U.S. In concerts here, they have emphasized the cultural heritage of the East European people.

Beyond their own performances, The Tamburitzans have been responsible for a Pittsburgh Folk Festival, a Tamburitzan Philharmonic Orchestra, a Tamburitzan Cultural Center, and a Tamburitzan Institute of Folk Arts. In addition, many alumni have initiated or been active in junior Tamburitzan groups throughout the country.

With more than 500 authentic costumes of the East Europe area they represent, The Tamburitzans sing in a dozen different European languages and perform the dances of those countries.

The Tamburitzans is one of the Artists Series "Special Events," all of which will be held in University Auditorium, with an 8:30 p.m. curtain.

(Continued on page two)

The Tamburitzans, performing a dance of the Ose people of Romania, on Artists Series Sept. 6, 7 in University Auditorium.

REMINDEES AND DEADLINE DATES

Sept. 15 for NIMH Training Grants Program (Aug. 15 INTERCOM #142-1) . . . Oct. 1 for NIMH research and resources programs (Aug. 15 INTERCOM #142-4) . . . Oct. 1 for NSF Faculty Research Participation Program (Aug. 1 INTERCOM #140-3) . . . Oct. 1 for NEH Personnel Development Program (Aug. 1 INTERCOM #140-3) . . . Oct. 1 at a minimum for nine Food & Drug research programs (Aug. 15 INTERCOM #141-1) . . . Oct. 1 and Feb. 1 for NIMH special mental health programs (Aug. 15 INTERCOM #143-5) . . . Nov. 15, NSF Scientists and Engineers in Economic Development Program (Aug. 22 INTERCOM #143-2).

PENN STATE intercom

Volume 4, Number 1

September 5, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Announcements

Rule M-3B in effect

Provisions of a revised Rule M-3B of the University Faculty Senate, dealing with the repeating of courses, will be implemented in the Fall Term, and students, faculty, and administrators are urged to review the rule, which could have an impact on the preparation of the student's schedule for the next few years. The changes in Rule M-3B are summarized as follows:

Beginning with the Fall Term, students must obtain their adviser's signature as well as the signature of the department head of the course being repeated. Students may petition to repeat only those courses in which an "F" grade was received. The number of petitions for course repeat will be limited to four. If a student fails the same course more than once, only one "F" will be excluded from his grade-point average. The grade of the course being repeated must be a "C" or above in order to have this grade used in the calculation of the grade-point average. Course Repeat Forms will be accepted in the Records Office September 9 through September 30, 1974, only.

Speech options

General information about the course Speech 200 is provided by the department of speech to aid advisors and students themselves in pre-registering Sept. 9-30 for the Winter Term.

Three options will be available in the course and students will indicate their option at that time:

"C" sections — students prepare and present three or more individual speeches, with attention to being introduced to group problem solving. This is the message preparation program formerly known as Emphasis A.

"T" sections — emphasis on group work and interviewing; public speaking taught and evaluated but with less stress than on group problem solving. Formerly "B" option.

"W" sections — focus on interpreting and evaluating rhetorical communication; primary consideration to student as recipient of communication.

A fourth option is available for students with severe anxiety about communicating; students transfer to special sections after the term begins.

Scheduling auditoriums

Inquiries regarding the scheduling and use of University Auditorium, Schwab Auditorium, and Recreation Building for cultural/performing events should be directed to Theodore S. Glatas, manager of University auditoriums, according to guidelines effective Sept. 1. Arrangements for technical, special, custodial, and security personnel, ushers, and such related services will also be handled through Mr. Glatas' office, 105 University Auditorium, 863-0388. A list of services and charges will be available in mid-September. University auditorium management is a division of University Arts Services. Dr. Walter H. Walters, director.

Speech instruction for faculty

The Speech Communication Department will offer a service to faculty, graduate students, staff, and undergraduates who are interested in developing their communication skills in situations such as delivering lectures, participating in problem solving groups, talking with strangers, and initiating and maintaining conversation in social situations. Instruction will be given every Wednesday evening beginning September 18. Interested persons may come to room 227 Sparks at 7:00 P.M. Anyone wanting further information may call Dr. Gerald Phillips at 865-4072.

Flay wins Class of '33 award

Dr. Joseph C. Flay, associate professor of philosophy, received the Class of 1933 Award for Outstanding Contributions in the Field of Humanities at commencement exercises last Saturday.

The award, consisting of a plaque and \$500, was presented by Dr. Stanley F. Paulson, dean of the College of the Liberal Arts. It was established in 1962 by the Class of 1933.

A native of Reading, Pa., Dr. Flay obtained his bachelor of arts degree in philosophy from Penn State, joining the faculty in 1963. He holds a doctor of philosophy degree, also in philosophy, from the University of Southern California.

His research interests have centered around the philosopher, G. W. F. Hegel, and he has written on topics in social and political philosophy. In addition to teaching courses in these areas at both the graduate and undergraduate levels, he conducts introductory courses in philosophy and classes on ancient philosophy and metaphysics.

Dr. Flay has also been named associate director of the Interdisciplinary Graduate Program in the Humanities. This project, which has been underwritten by a \$471,549 four-year grant from the National Endowment for the Humanities, is responding to current problems in graduate education and the job market.

Artists Series

The New York Brass Quintet will feature works of Bach, Malcolm Arnold, Wilhelm Ramose, Anthony Holborne, Jean Louel, Gunther Schuller, and Eugene Bozza in its Artists Series program Sunday, Sept. 15, at 8:30 p.m. in Schwab Auditorium.

Tickets for the performance will go on sale at the HUB and at the University Auditorium box office Wednesday, Sept. 11.

The Quintet consists of Robert Nagel, trumpet, Alan Dean, trumpet, Paul Ingraham, French horn, John Swallow, trombone, and Thompson Hanks, tuba.

News in brief

CHORAL SOCIETY

Faculty members and their spouses, as well as other area residents, are invited to attend open rehearsals Sept. 9 and Sept. 16 of the State College Choral Society, which is directed by Dr. D. Douglas Miller, assistant professor of music. Auditions will be held after rehearsals, at St. Paul Methodist Church, 123 McAllister St.

ENROLLMENT

Final enrollment figures for the Fall Term will be announced later, but an estimate given last week placed the total of resident students at University Park at 30,300 and for all campuses combined at 49,470. The University Park figure would be about 900 more than a year ago and the total for all campuses about 1,000 above 1973.

ENTRIES DUE

Faculty members are invited to participate within the Graduate Division. In the intramural programs in touch football and tennis singles during the Fall Term; play begins about Sept. 17. Entries for both programs will be accepted at the Intramural Office, Room 206 Recreation Bldg. from Sept. 9 until Sept. 12 at 4:30 p.m. Further information may be obtained by calling 865-5401.

SPEIGHT EXHIBIT

Landscapes and cityscapes of southeastern Pennsylvania scenes will be featured in a major retrospective of the work of Francis Speight opening in Galleries A and C of the Museum of Art on Sunday, Sept. 8.

In "Manayunk and Other Places," on view through Oct. 31, the Museum staff has brought together some 60 oils, watercolors, and drawings representative of 50 years of work by the noted American artist.

The exhibit is accompanied by a catalog written by William Hull, Museum director, and illustrated by seven color and forty black and white reproductions. The Speight show is supported by a grant from the National Endowment for the Arts.

CRYSTAL PHOTOS

Marc Levey, counselor with the Educational Opportunity Program, has an exhibit of photographs of microscopic crystal composition on display in the Graduate Commons Gallery in Kern Bldg.; it will

remain until Sept. 7. The photos are of chemical crystals — ranging from common sugar to a-mercaptobenzothiazole — subjected to polarized light, resulting in an unusual form of abstract art. Many of the photos are for sale, in sizes up to 20 by 24 inches.

AIRPORT RUNWAY

The new 5,000-ft runway at the University Park Airport has been opened for use. While actual construction of the runway and taxiways was started only a year ago, completion of the project marks the end of more than five years of planning for the new runway, which will greatly improve safety conditions at the airport. The \$2.3 million project was financed by Federal, State, and University funds with Federal and State funds paying more than 80 per cent of the total.

POSTAL ART

The University is among five universities selected by the United States Postal Service to judge an art competition celebrating the 1975 bicentennial of the postal service. Open to the children of thousands of postal employees, the contest will be judged by the art departments of universities in five geographic regions of the country. Penn State's selection committee will include students and faculty from the Departments of Art and Art Education. The eastern region which the Penn State group will jury includes Pennsylvania, Delaware, New York, New Jersey, Virginia, West Virginia, and the District of Columbia.

POND EXHIBIT

Dr. George Gilbert Pond, professor and first dean of chemistry at The Pennsylvania State University, is honored for preserving the Joseph Priestley house and collecting Evan Pugh's papers and scientific memorabilia in a Penn State Collection exhibit continuing through September in the central foyer of Pattee Library.

The exhibit is one arranged in the University Libraries for the recent meeting of the American Chemical Society's division of chemical education, coinciding with the bicentennial of Priestley's discovery of oxygen and the centennial of the first national gathering of American chemists.

Dean Pond rescued the historic house at Northumberland, Pa., from threatened destruction when he purchased it at public sale in 1919 with contributions from Penn State chemistry alumni and friends.

NSF aids materials science project

The University has been named headquarters for a materials science and engineering education project supported by the National Science Foundation. The entire project contract award was for \$275,800.

The program will be guided for the entire materials science and engineering community by a national advisory committee, chaired by Dr. Morris Fine, of Northwestern University. Other committee members will be drawn from university departments, professional societies which are active in the field, and appropriate industries with continuing education programs.

Dr. Rustum Roy, director of the Materials Research Laboratory and professor of the solid state, will head the project, assisted by Dr. Herbert A. McKinsley, associate professor of solid state technology, and Clifford A. Hewitt, research assistant, as media specialist. Both are with the Materials Research Laboratory.

Primary aim of the project, Dr. Roy explains, will be the discovery, modification and preparation of modular instructional materials in all media.

It will also prepare and promote an "index" of media and encourage the utilization of such materials by enabling them to be easily located within a specific area of instructional usage. Traditional methods of teaching will benefit from many aspects of the program, but self-paced, individual instruction will be a major concern in the whole process. Hence its value to industry for training purposes will be as great as its value to universities.

It is expected that new creative efforts at media production will be generated by the project along with the new modular instructional materials. One of the aims of the project is to raise the level of professional recognition awarded for creative endeavors of this kind.

Fall Term 1974 Calendar

University Park Campus

The Pennsylvania State University

Week of Sept. 2

Thursday, September 5

Sorority and Fraternity Rush, 8 a.m.-5 p.m., Recreation Bldg.
Open house for new students, 7 p.m., Pollock-South Undergraduate Library.
New student Library orientation tours for undergraduates, 9, 10 and 11 a.m., 2, 3 and 4 p.m., Pattee.
Graduate student Library orientation tours, 10 and 11 a.m., 1 and 3 p.m., Room E105 East Pattee.
Registration, Rec Hall.

Friday, September 6

Sorority and Fraternity Rush, 8 a.m.-5 p.m., Recreation Bldg.
Artists Series, The Tamburitans, 8:30 p.m., University Auditorium.
New student Library orientation tours for undergraduates, 9, 10, and 11 a.m.; 2, 3, and 4 p.m., Pattee.
Graduate student Library orientation tours, 10 and 11 a.m., 1 and 3 p.m., Room E105 East Pattee.
Registration, Rec Hall.

Saturday, September 7

Sorority and Fraternity Rush, 8 a.m.-5 p.m., Recreation Bldg.
Artists Series, The Tamburitans, 8:30 p.m., University Auditorium.
Registration, Rec Hall.

Week of Sept. 9

Monday, September 9

Colloquy, Governor Milton J. Shapp on "Issues Affecting Colleges and Universities in Pennsylvania," 8 p.m., University Auditorium.
New student Library orientation tour for undergraduates, 7 p.m., Pattee.
Graduate student Library orientation tours, 9:35 and 11 a.m., 1 and 2 p.m., Room E105 East Pattee.
Pre-registration for Winter Term.
File for Repeat Course.
Entry for Coed Flag Football tournament, entry forms available in Room 109A, White.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room 105 East Pattee.
Classes begin, 8 a.m.

Tuesday, September 10

Pre-registration for Winter Term.
File for Repeat Course.
Seminar on the use of the card catalog, 7 p.m., Room W106, Pattee Undergraduate Library.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.
Graduate student Library orientation tours, 9:35 and 11 a.m., 1, 2 and 7 p.m., Room E105 East Pattee.

Wednesday, September 11

Sorority Rush, at sorority chapters.
Pre-registration for Winter Term.
File for Repeat Course.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.
Volunteer Service Center recruiting meeting, 7 p.m., Room 203 HUB.
Commonspace Theatre, 8 and 10 p.m., Room 112 Kern. "Guns of Navarone."
Graduate student Library orientation tours, 9:35 and 11 a.m., 1 and 2 p.m., Room E105 East Pattee.

Thursday, September 12

Pre-registration for Winter Term.
File for Repeat Course.
Seminar on the use of the Serials Holdings List, 7 p.m., Room W106 Pattee Undergraduate Library.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.

Friday, September 13

Sports: Soccer, vs. East Stroudsburg, 7 p.m., Jeffrey Field. Freshman football, vs. Milford Academy, 3 p.m., Beaver Stadium.
Pre-registration for Winter Term.
File for Repeat Course.
Arnold Air Society jammy, 8 p.m., HUB ballroom.
Library orientation for faculty, 9:35 a.m. and 2 p.m., Room E105 East Pattee.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 14

Sports: Football, vs. Stanford, 1:30 p.m., Beaver Stadium.
Pre-registration for Winter Term.
File for Repeat Course.
Bahá'í Club, 7 p.m., HUB assembly room. Social event.

Sunday, September 15

Artists Series, New York Brass Quintet, 8:30 p.m., Schwab.
Chapel Service, 11 a.m., Eisenhower Chapel.
The Reverend Charles L. Coleman, Program Director, Religious Affairs.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Sept. 16

Monday, September 16

Pre-registration for Winter Term.
File for Repeat Course.
Entry close for Coed Football tournament.
Library orientation for faculty, 9:35 a.m., Room 105 East Pattee.
Gamma Pi Epsilon program, film, "Biography of a Cancer," HUB assembly room, 8 p.m.

Tuesday, September 17

Pre-registration for Winter Term.
File for Repeat Course.
Senate Council meeting, 2:10 p.m., Room 101 Kern.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.
Deadline for entries in Touch Football and Tennis sprints, 4:30 p.m., Room 206 Rec Hall.

Wednesday, September 18

Mary Roens, violin recital, 8:30 p.m., Music Bldg. recital hall.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 Pattee.
Sports: Soccer, vs. West Virginia, 7 p.m., Jeffrey Field.
Pre-registration for Winter Term.
Deadline for filing Course Adds.
File for Repeat Course.
Artists Series Film Festival, "Modern Times," Charlie Chaplin, 8:30 p.m., University Auditorium.
Commonspace Theatre, 8 and 10 p.m., Room 112 Kern. "The Fly."

Thursday, September 19

Pre-registration for Winter Term.
File for Repeat Course.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.

Friday, September 20

Pre-registration for Fall Term.
File for Repeat Course.
Sports: Freshman football, vs. Villanova, 3 p.m., Beaver Stadium.
Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 21

Football, vs. Navy, 1:30 p.m., Beaver Stadium.
Women's golf, vs. Madison College, 10 a.m.
Pre-registration for Winter Term.
File for Repeat Course.

Sunday, September 22

Chapel Service, 11 a.m., Music Bldg. recital hall.
Captain John O'Connor, Chaplain United States Naval Academy.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Sept. 23

Monday, September 23

Pre-registration for Winter Term.
File for Repeat Course.
Coed Flag Football tournament, 6:30 p.m., East Halls Field.

Tuesday, September 24

Artists Series Film Festival, "Torrent," Ingmar Bergman, 8:30 p.m., Schwab.
Faculty Women's Club, fall reception, 7:30-9:30 p.m., Kern.
Seminar on the use of psychology reference materials, 7 p.m., Room W106, Pattee Undergraduate Library.
Sports: Soccer, vs. Hartwick, 7 p.m., Jeffrey Field.
College of Agriculture faculty meeting, 4 p.m., Room 301 Agricultural Administration.
Pre-registration for Winter Term.
File for Course Repeat.
Free-University registration, 7-10 p.m., HUB assembly room.

Wednesday, September 25

Pre-registration for Winter Term.
File for Repeat Course.
Free-University registration, 9 a.m.-5 p.m., HUB assembly room.
Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.
Commonspace Theatre, 8 and 10 p.m., Room 112 Kern. "The Dead Are Alive."

Thursday, September 26

College of Arts and Architecture faculty meeting, 4 p.m., Room 122 Music Bldg.
Commonspace Theatre, 8 and 10 p.m., Room 112 Kern. "The Dead Are Alive."
Pre-registration for Winter Term.
File for Pass/Fail.
File for Repeat Course.

Friday, September 27

Folk and Square Dance Roundup, 7:30 p.m., North Gym, White Bldg.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.
Pre-registration for Winter Term.
File for Pass/Fail.
File for Repeat Course.

Saturday, September 28

Artists Series, Marilyn Horne, soprano, 8:30 p.m., University Auditorium.
Sports: Cross country, vs. Villanova.
Pre-registration for Winter Term.
File for Repeat Course.

Sunday, September 29

Chapel Service, 11 a.m., Eisenhower Chapel.
Dr. Tony A. Mobley, chairman, Recreation and Parks.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

SEMINARS

Agromony — Thursdays, 3:55 p.m., Room 301 Agricultural Administration.
Biochemistry — Mondays and Tuesdays, 11 a.m., Room 101 Althouse Lab, starting Sept. 16-17.
Chemistry — Thursdays, irregularly, 12:45 p.m., Room 333 Whitmore, starting Sept. 19.
Comparative Literature — Tuesdays, luncheon and discussions, 12:15 p.m., HUB dining room.
Computer Science — Thursdays, 4 p.m., Room 101 Althouse Lab.

Paul Winter Concert, on Artists Series Friday, Oct. 4, in Schwab Auditorium.

Week of Sept. 30

Monday, September 30

Pre-registration deadline for Winter Term.
Deadline for filing Course Drops.
File for Pass/Fail.
Sports: Women's field hockey, vs. Slippery Rock, 2:30 p.m.
Deadline for filing Course Repeat.
Robert Tryth, baritone, 8:30 p.m., Music Bldg. recital hall.
Gamma Pi Epsilon program on "Addiction and Rehabilitation," by speakers from "On Drugs," 8 p.m., McElwain Hall piano lounge.

Tuesday, October 1

Senate Meeting, 2:10 p.m., Room 112 Kern.

Wednesday, October 2

Claremont Woodwind Quintet, 8:30 p.m., Music Bldg. recital hall.
Commonspace Theatre, 8 and 10 p.m., Room 112 Kern. "To Have and To Have Not."

Thursday, October 3

West German Woman's National Volleyball Team vs. U.S.A. Eastern Zone National Team, 9 p.m., Rec Hall.

Friday, October 4

Deadline for application for Winter Term Tuition Grants-In-Aid, Room 317 Kern.
Artists Series, Winter Consort, 8:30 p.m., Schwab.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Sunday, October 6

Chapel Service, 11 a.m., Eisenhower Chapel.
Sister Beverly Stanton, Campus Ministry, Morgan State College.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Sigma Delta Epsilon, 2:30 p.m., Room 102 Kern. Talk on job opportunities.

SURREALISM

"Surrealism — A Celebration" will be held at University Park Nov. 7, 8 and 9 with a program in literature, art, theatre, dance, film, music, symposia, and a banquet to note the 50th anniversary of the first "Manifeste du Surrealisme," published by Andre Breton in 1924. The celebration will in total be an international conference dedicated to all facets of Surrealism.

EXHIBITS

MUSEUM OF ART
Manayunk and Other Places: Francis Speight's paintings and drawings, Sept. 8-Oct. 27, Galleries A and C.
Living Artists and the Figure, Nov. 3-Dec. 22, Galleries A and C.
Selections from the permanent collection, Gallery B.
(Free public hours Thursdays, 1:30 p.m.)

ZOLLER GALLERY
SuperMud, Oct. 7-26.
Fiftieth Anniversary of the Surrealistic Manifesto, Nov. 8-10.

SACKETT GALLERY
"Light," a show of architecture student work, Sept. 9-24.

CHAMBERS GALLERY
Pennsylvania Guild of Craftsmen, crafts, Sept. 6-26.
Jeanne Stevens-Sollman, drawings and ceramics, Sept. 27-Oct. 18.
Dan Fitch, paintings, drawings, construction, Oct. 18-Nov. 15.
David Don Tiginy, ceramics, and George Zoretich, paintings, opening Dec. 2.

KERN GALLERY
Marsha and Ralph Kaleshetski, paintings, Sept. 8-26.
Bob and Susan Duncan, oil paintings, Sept. 29-Oct. 12.
D. Blumenthal, acrylics, Oct. 13-Nov. 6.
Ken Kuhn, paintings, Oct. 13-Nov. 9.
Shirley Sturtz, watercolors, drawings, Nov. 10-23.
Denise Falkow, ceramics, Oct. 1-31.

HAMMOND GALLERY
Architectural Engineering Student Projects Exhibition, Sept. 5-29.

Environmental Problem Solving (Aviation), 8 p.m., Room 105 Forum, Sept. 19, 30; Oct. 7, 14, 28; Nov. 4.

Meteorology — Thursday's, 3:55 p.m., Room 25 Mineral Sciences.

Microbiology — Thursdays, 4 p.m., Room S2 Fear Lab.

Physics — Thursdays, 3:45 p.m., Room 117 Osmond, beginning Sept. 16.

Plant Pathology — Mondays, 9:45 a.m., Room 213 Buckhout, beginning Sept. 16.

Genetics — Mondays, 4 p.m., Room 113 Tyson.

Mayfield's big 94, an all-America prospect will be back to challenge Penn State Nov. 2 in Beaver Stadium, but he won't have No. 22 (John Cappelletti) to contend with. It will be the East's top game.

Week of Oct. 7

Tuesday, October 8

Sports: Women's field hockey, vs. Bucknell, 2:30 p.m.
Artists Series Film Festival, "The Naked Night," Ingmar Bergman, 8:30 p.m., Schwab.

Wednesday, October 9

Sports: Soccer, vs. Bucknell, 7 p.m., Jeffrey Field.
University Theatre student preview, "The Seagull," 8 p.m., Pavilion Theatre.
Musica da Camera, 8:30 p.m., Music Bldg. recital hall.
Commonplace Theatre, 8 and 10 p.m., Room 112 Kern. "Chism."

Thursday, October 10

Sports: Women's field hockey, vs. Ursinus, 2:30 p.m.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Friday, October 11

Homecoming weekend.
Colloquy, George Plimpton, author, on "The Amateur Among the Pros," 9:30 p.m., University Auditorium.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.
Sports: Soccer, vs. Army, 7 p.m., Jeffrey Field.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.
Genetics Symposium, 1-5 p.m., Room 112 Kern.

Saturday, October 12

Sports: Football, vs. Wake Forest, 1:30 p.m., Beaver Stadium, Homecoming.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.
Penn State Glee Club Homecoming Concert, 7:30 p.m., HUB ballroom.

Sunday, October 13

Chapel Service, 11 a.m., Music Bldg. recital hall. The Reverend Nelson Frank, former pastor of St. Paul's United Methodist Church, State College.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Oct. 14

Monday, October 14

Gamma Pi Epsilon program, 8 p.m., McElwain Hall piano lounge. Dr. Marshall Rafe, on "The Physician and the Planning of Health Services."

Tuesday, October 15

Sports: Women's field hockey, vs. West Chester, 3 p.m.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Wednesday, October 16

Thalia Trio, 8:30 p.m., Music Bldg. recital hall.
Faculty Women's Club Nostalgia Night, 8:30 p.m., University Auditorium.
Artists Series Film Festival, "The Chaplin Review," Charlie Chaplin, 8:30 p.m., University Auditorium.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.
Commonplace Theatre, 8 and 10 p.m., Room 112 Kern. "Torn Curtain."

Thursday, October 17

University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Friday, October 18

Folk and Square Dance Roundup, 7:30 p.m., North Gym, White Bldg.
Artists Series, Anthony and Joseph Paratore, duo-pianists, 8:30 p.m., Schwab.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, October 19

Sports: Football, vs. Syracuse, 1:30 p.m., Beaver Stadium. Cross country, vs. Pittsburgh. Women's field hockey, vs. Cortland, 10 a.m.
University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.
PSU Symphony Orchestra, 8:30 p.m., University Auditorium.

Sunday, October 20

Chapel Service, 11 a.m., Eisenhower Chapel. Stanley F. Paulson, dean of the College of Liberal Arts.
Colloquy, Dr. Raymond McNally, Dracula and vampire expert, on "In Search of Dracula," 8 p.m., Schwab.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Oct. 21

Monday, October 21

Colloquy, Alan Oken, astrologist, on "The Occult Sciences: Numerology, Astrology and Tarot," 8 p.m., HUB ballroom.
Davis Brooks, violin recital, 8:30 p.m., Music Bldg. recital hall.

Tuesday, October 22

Colloquy, Dr. Raymond Buckland, witchcraft expert and high priest, on "Witchcraft," 8 p.m., Schwab.

Wednesday, October 23

Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.
Commonplace Theatre, 8 and 10 p.m., Room 112 Kern. "High Sierra."

Thursday, October 24

Faculty Women's Club Fall Lecture Series, 9:30-11 a.m., HUB auditorium.
Billiard Congress of America three-day tournament for professionals opens. HUB.

Friday, October 25

Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, October 26

Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium.

Sunday, October 27

Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Ira Reed, Pastor, First Presbyterian Church, Hershey, Pa.
The Brown's, duo-piano team, 3 p.m., Music Bldg. recital hall.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Oct. 28

Monday, October 28

First day for signing NDSL (National Direct Student Loans), SEOG (Supplemental Educational Opportunity Grants), BEOG (Basic Educational Opportunity Program), and University Long Term Loans for Winter Term.
Ante Greenlee, organ recital, 8:30 p.m., Music Bldg. recital hall.
Gamma Pi Epsilon program, 8 p.m., McElwain Hall piano lounge. Dr. Burton B. Hart, speaker.

Tuesday, October 29

Senate Council meeting, 2:10 p.m., Room 101 Kern.
Sports: Women's field hockey, vs. Shippensburg, 2:30 p.m.
College of Earth and Mineral Sciences faculty meeting, 4 p.m., Room 26 Mineral Sciences.

Wednesday, October 30

University Theatre student preview, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
Raymond Brown, baritone, 8:30 p.m., Music Bldg. recital hall.
Commonplace Theatre, 8 and 10 p.m., Room 112 Kern. "Duck Soup."

Thursday, October 31

Faculty Women's Club Fall Lecture Series, 9:30-11 a.m., HUB auditorium.
Artists Series, Agnes de Mille Heritage Dance Theatre, 8:30 p.m., University Auditorium.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.

Friday, November 1

Sports: Soccer, vs. Shippensburg, 7 p.m., Jeffrey Field.
Artists Series, Agnes de Mille Heritage Dance Theatre, 8:30 p.m., University Auditorium.
Last day for signing NDSL, SEOG, BEOG, and University Long Term Loans for Fall Term.
Folk and Square Dance Roundup, 7:30 p.m., North Gym, White Bldg.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 2

Sports: Football, vs. Maryland, 1:30 p.m., Beaver Stadium.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.

Sunday, November 3

Chapel Service, 11 a.m., Music Bldg. recital hall. Pastor, John W. Gavett.
USTFF Championships, Beaver Stadium.
Rebecca Shaw, flute recital, 3 p.m., Music Bldg. recital hall.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Nov. 4

Monday, November 4

Roger Boop, organ recital, 8:30 p.m., Music Bldg. recital hall.

Tuesday, November 5

Alpha Phi Omega bloodmobile, 9 a.m.-5 p.m., HUB ballroom.
Artists Series Film Festival, "Smiles of a Summer Night," Ingmar Bergman, 8:30 p.m., Schwab.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.

Wednesday, November 6

Alpha Phi Omega bloodmobile, 9 a.m.-5 p.m., HUB ballroom.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
University Theatre student preview, "Lemon Sky," 8 p.m., Pavilion Theatre.
Penn State Brass Choral, 8:30 p.m., Music Bldg. recital hall.
Commonplace Theatre, 8 and 10 p.m., Room 112 Kern. "On the Waterfront."

Thursday, November 7

Faculty Women's Club Fall Lecture Luncheon, 12-1:30 p.m.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
Surrealistic Concert, 8:30 p.m., Schwab.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Friday, November 8

University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 9

Artists Series, The Royal Shakespeare Company, "The Hollow Crown," 8:30 p.m., University Auditorium.
University Theatre, Surrealistic Theatre Celebration, 8 p.m., Playhouse Theatre.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Sunday, November 10

Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Charles L. Coleman, Program Director, Religious Affairs.
Artists Series, The Royal Shakespeare Company, "Pleasure and Repentance," 8:30 p.m., University Auditorium.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of Nov. 11

Tuesday, November 12

University Faculty Senate Meeting, 2:10 p.m., Room 112 Kern.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Wednesday, November 13

Artists Series Film Festival, "The Kid" and "The Idle Class," Charlie Chaplin, 8:30 p.m., University Auditorium.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Thursday, November 14

University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Friday, November 15

Last day for signing Emergency Loans for Fall Term.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 16

Sports: Football, vs. Ohio University, 1:30 p.m., Beaver Stadium.
University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Week of Nov. 18

Tuesday, November 19

Senate Council meeting, 2:10 p.m., Room 101 Kern.

Thursday, November 21

Residence Halls close for Fall Term, 3 p.m.

Week of Nov. 25

Saturday, November 30

Commencement, 10:30 a.m., Rec. Hall.

Sunday, December 1

Residence Halls open for all students.

Week of Dec. 2

Tuesday, December 3

University Faculty Senate Meeting, 2:10 p.m., Room 112 Kern.

Thursday, December 5

Sports: Women's Basketball tournament, entry open, forms available in Room 109A, White. Coed Volleyball tournament, entry open, forms available in Room 109A, White.

Saturday, December 7

Artists Series, "Don Juan in Hell," play by G. B. Shaw, 8:30 p.m., University Auditorium.

Tuesday, December 10

Sports: Men's Basketball, vs. Bucknell.

Myrna Loy, who stars with Ricardo Montalban in "Don Juan in Hell," on Artists Series Dec. 7.

Committee to seek Altoona director

University President John W. Oswald is establishing an advisory search committee to assist him in identifying candidates for the position of Director of the Altoona Campus.

According to established procedures, the committee will consist of eight members — five faculty members, two administrative personnel, and one student. Of the five faculty members, three will be from the campus involved and will be selected by the President from a panel of six nominated by the Altoona Campus Faculty Senate.

The other two faculty committee members will be from the University Park Campus and will be selected by the President from a panel of four nominated by the Senate Council. The two administrative members appointed by the President will be specifically acquainted with the Commonwealth Campus system.

The student will be the president of the Student Government Association at the Altoona Campus or his/her successor.

President Oswald will designate as chairman one of the three faculty committee members from the Commonwealth Campus.

The special charge to this advisory search committee will be to identify those candidates who can provide the shiest possible academic leadership and competent administration of the Commonwealth Campus. Nominations will be from within and outside the University, and the advisory search committee will receive suggestions and nominations from the faculty and student body, especially from the Commonwealth Campus. In accordance with these procedures, steps are now under way for the appointment of the advisory search committee.

Death

Bozidar P. Vuckovic, associate Allegheny County agricultural agent on the Cooperative Extension Service staff, died August 25 in Pittsburgh. He was 63. A native of Yugoslavia, Mr. Vuckovic had been a member of the Extension Service staff since May 1964. He received a bachelor's degree in agriculture from the University of Zagreb, Yugoslavia, and master of science degree in agronomy from Rutgers University. Prior to being named to the University staff, he was employed six years by Radio Free Europe in New York City and six years by the Croatian Fraternal Union, Pittsburgh.

Leave

Nevin B. Greninger, assistant professor of mathematics at Berks Campus, will spend a year in England, working with the British Bureau of Mines, in research on combustion, coal, mine safety and energy research. The studies are related to the suppression of dust explosions in coal mines.

Appointments

Charles G. Murphy, as reference librarian in Pattee Library. He served as reference librarian at Saint Francis College, Biddford, Me., from 1972 to 1974. A graduate of Notre Dame, with a B.A. in political science, he received an M.S. in library science from Columbia University.

John L. Sibert, as assistant professor of geography. He is a candidate for the Ph.D. in geography at the University of Michigan, received a B.A. in history from Wittenberg University and M.A. from Miami University, Oxford, Ohio. At Michigan, he was a teaching fellow and served as a computer cartographer with the Ann Arbor Community Planning and Management Program.

Dr. Bettina Z. Adelberg, as assistant professor of human development. She is a graduate of Douglass College, New Brunswick, N.J., and received an M.A. in anthropology and Ph.D. in social psychology from the University of Kansas. She has conducted psychological and ecological field work in Micronesia, Jamaica, Alaska and Nevada. She was a research associate and teaching assistant at Kansas.

Dr. George K. Gokel, as assistant professor of chemistry. He has been, for the past two years, a postdoctoral fellow and instructor at U.C.L.A. While earning his Ph.D., he was a N.A.S. Fellow. His undergraduate work was done at Tulane University.

Edward H. T. Lam, as instructor in electrical engineering. He has been an associate engineer with Sperry Systems Management, Great Neck, N.Y. He received bachelor's and master's degrees from Brooklyn Polytechnic Institute, in electrical engineering.

Dr. Jeannie L. Chenuati, as associate professor of art history. A specialist in Italian Baroque sculpture, she has served on faculties of the University of Tennessee and Finch College. A Barnard College graduate, she earned M.A. and Ph.D. degrees at the University of Michigan.

Dr. Richard W. St. Pierre, as assistant professor of health education. He has been instructor at the University of North Carolina for the past six years, receiving

his D. Ed. degree in guidance and counseling. His B.S. in health education was conferred by Ohio State University and M.S. in public health by U.C.L.A. His research has been in the fields of health behavior change related to smoking modification.

Dr. Eliezer Kamen, as professor of applied physiology and ergonomics in the Noll Laboratory for Human Performance Research. He has been associate research professor in the Graduate School of Public Health, University of Pittsburgh, for the past six years and earlier taught and did research at Illinois and at Hebrew University, Jerusalem. He is a graduate of Wingate Institute, Israel, and his advanced degrees, both in zoology, were conferred by Hebrew University. His research has been done in the areas of working physiology, acclimation to heat, and evaluation of heat stress.

Dr. Fred B. Samson, as assistant professor of wildlife management. He was a research assistant, University of Michigan, and wildlife biologist, U.S. Dept. of the Interior National Wildlife Refuge, Necedah, Wis. He has also served as a research biologist, Patuxent Wildlife Research Center, Laurel, Md. His first two degrees were conferred by Indiana University. His Ph.D. in biology was conferred by Utah State University.

Michael A. Keenan as assistant professor of mathematics at the Mont Alto Campus. He received the master of arts degree in mathematics from Penn State in 1969, and in August he was granted the master of arts in statistics and the doctor of philosophy in mathematics. He is a graduate of Virginia Polytechnic State University and has attended George Washington University. He has been a grad-ing assistant in the Department of Mathematics and has served as a statistical consultant for the Pennsylvania Department of Agriculture.

Robert G. Henricks, as instructor in humanities and religious studies. He is a candidate for the doctor of philosophy degree in Chinese language and literature at the University of Wisconsin, where he previously earned a master of arts degree in this field. His bachelor of arts degree in religious studies was conferred by Penn State.

Dr. David S. Berg, as assistant professor of psychology. His previous research on aggression models and food preferences was conducted at Temple University, where he obtained his bachelor of arts, master of arts, and doctor of philosophy degrees, each in psychology.

Michael S. Graboski, as research assistant in the Department of Chemical Engineering. He received the master of science degree in chemical engineering from the University, after receiving the bachelor of science degree in chemical engineering from Rutgers University. He previously served at the University as a research assistant during 1967-1970. He has been a supervising engineer with Bituminous Coal Research, Inc.

Dr. Michael C. Danahy, as assistant professor of French. He holds a master of arts and a doctor of philosophy degree, both in Romance languages, from Princeton University. His bachelor of arts degree in French and philosophy was conferred by Fordham University. He has been an assistant professor at Wesleyan University since 1969.

Calendar Sept. 5-15

(Note: events listed here are in addition to those listed on the Term Calendar on Pages 2 and 3.)

Thursday-Saturday, Sept. 5-7 — Registration, Recreation Bldg.
Friday, Sept. 6 — Microbiology colloquium, 4 p.m., Room 350 Frear. C. Michael Cashe, Laboratory of Molecular Genetics, NIH, on "Synthesis and Degradation of epGp (the magic P) in E. coli."

Thursday, Sept. 12 — Seminar, Meteorology, 3:35 p.m., Room 26 Mineral Sciences. Dean Charles L. Hosler, on "Influence of Man-Made Heat Sources on the Weather."

EXHIBITS

Pattee Library — Central foyer, through September, memorabilia of George Gilbert Park.

Cynthia L. Dard, as instructor in physical education at the Altoona Campus. A graduate of Ithaca College with a bachelor of science degree in physical education, she is completing requirements for the master of science degree in physical education at Penn State. While pursuing graduate studies at University Park, she served as a graduate assistant in physical education, teaching in the basic instruction program.

Dr. Detlef Wotschke, as assistant professor of computer science. A native of West Germany, Dr. Wotschke holds two degrees in mathematics from the University of Braunschweig, West Germany, and the doctor of philosophy from U.C.L.A. His fields of interest include safety against explosion, computer physics, and the advancement of foreign languages. He taught at the University of Braunschweig and was a research assistant at the University of Saarbrücken before coming to the United States. He has been a research assistant and teaching fellow in computer science at U.C.L.A. for the past three years.

Dr. Milton W. Cole, as assistant professor of physics, effective Sept. 1. He earned his bachelor of arts degree in physics from The Johns Hopkins University and his master of science and doctor of philosophy degrees from the University of Chicago. He has held postdoctoral fellowships at the University of Toronto and the University of Washington and will serve as a consultant to the Jet Propulsion Laboratory at California Institute of Technology in September. Dr. Cole's research interests focus on surface physics, low temperature, and statistical mechanics.

Altoona plans music series

The highly successful Altoona Campus Music Makers Series will be continued during 1974-75 with seven concerts by professional performers, all of whom donate their services.

The concerts add financially to a fine arts fund to support the academic aspirations of Altoona Campus students who show talent in the performing arts. The concerts also give promising young artists the opportunity to appear before critical audiences. The seven concerts will be held in either the All-Faith Chapel or the Slep Center lounge on the Altoona Campus.

The program for the year (all are on Sundays at 3 p.m.):

Sept. 8 — Charles Metz, harpsichord, and students playing recorders. Chapel.
Oct. 13 — Claremont Woodwind Ensemble (from University Park), assisted by student organist Kevin Clemens, Chapel.

Nov. 10 — Carol Ramsey, dramatic reading, assisted by students, Chapel.
Dec. 15 — Jaffa Shrine Band, assisted by student vocalists, tenor Sherman Moyer, Slep Lounge.

Feb. 9 — Clarence Fogel and family of musicians, Slep Lounge.

Mar. 16 — The Vicksburg Quartet, with student vocalist Mark Snider, Chapel.
Apr. 13 — Peggy Horner, soprano, with student flutist Dea Horton, Chapel.

Vol. 4, No. 1 September 5, 1974

Penn State INTERCOM is a weekly publication for the academic community of The Pennsylvania State University, published each Thursday when classes are in session. General information and news for the calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.

Editor: W. F. Ackerman Phone 865-7517

Funding Opportunities

Call 865-1372 for more information.

September 5, 1974

(45-1) The National Science Foundation (NSF) is seeking proposals for the 1975 Research References in the Mathematical Sciences (pure and applied mathematics, statistics, computer science, operations research and management science). A guest lecturer should be scheduled and 25 participants enrolled. Inquiries should be directed to the Conference Board of the Mathematical Sciences, 614 Joseph Horner Building, 2100 Pennsylvania Ave., N.W., Washington, D.C. 20037. Proposals should be received by Dec. 1, 1974 and would be distributed to Dr. W. H. K. Pitt, Mathematical Sciences Section, NSF, 1800 G Street, N.W., (Ref. NSF Memo 619/74).

(45-2) Young Grants in the Humanities, a program of NEH, supports student-conducted research. Grants are awarded for research, education, film, and community projects in history, philosophy, language, linguistics, literature, archeology, anthropology, history and criticism, and the humanistic social sciences. Funds may be used for stipends, adviser honoraria, clerical support, travel, supplies and materials, and rental of space and equipment. For information, contact Mr. David Kusin, Program Specialist, Humanities in the Humanities, 800 15th St., N.W., Washington, D.C. 20045. (202-382-8301) (Ref. CFFA 45/19; OIP deadline).

(45-3) Improvements in Humanities teaching is sought by NEH, which also wishes to "demonstrate to all institutions of higher education that important research in the humanities requires long-range planning, program, and development grants will be awarded. Planning funds may be used for released time, training and new personnel. The cap limit is 80% for planning and first-year development. Planning grants for one year average about \$10,000; development grants about \$30,000, and program grants about \$180,000. The next two deadlines are Nov. 1 and March 15. The program contact is Dr. Roger Rosenblatt, Director, Div. of Educ., NEH, 800 15th St., N.W., Washington, D.C. 20045. (202-392-5591) (Ref. CFFA 45/10; OIP deadline).

REMINERS AND DEADLINE OATES
Sept. 15 for NIMH Training Grants Program (Aug. 15, INTERCOM #14:13).
Sept. 1 for NIH/DOH research and resources programs (Aug. 15, INTERCOM #14:4).
Oct. 1 for all of nine FOD Drug research programs (Aug. 8, INTERCOM #14:1).

Staff vacancies

University faculty or staff members who are interested in any of the staff openings listed on this page may apply by calling Employment Division 865-1387 (New York line 4b-1387). Do not contact the area working line. Applications will be accepted until 5:00 p.m., Sept. 18, 1974.

RADIOLOGY EQUIPMENT ENGINEER

Responsible for planning, installing, maintenance, and modification of all X-ray equipment and related electronic equipment for the hospital. Bachelor's degree in Engineering and a minimum plus eight to twelve years related experience.

TRAFFIC AND CONTINUITY SPECIALIST, CONTINUING EDUCATION, DIVISION OF BROADCASTING — University Park, PA.

Responsible for translating the broadcasting station's program schedule into the daily program log, setting forth minute by minute the content of the station's broadcast schedule in accordance with FCC rules and regulations. Bachelor's degree or equivalent in Liberal Arts is desirable. No previous experience as a traffic and continuity specialist is required.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS

Responsible for the supervision of the Student Center staff and for the development and direction of the activities program. Determines to a large extent the union's goals and standards through election of personnel, guidance given to student committees, and communications with faculty and staff. Master's degree or equivalent in student personnel or related area plus two to four years related experience.

WPXS highlights

John Barrymore, Sr. America's first true motion picture star, "The Beloved Rogue," a 1927 silent film based loosely on the life of 16th century French poet and thief Francois Villon, on "TV French post and thief Francois Villon, on "TV Silent Years." Barrymore's son, John Barrymore, Jr., WPXS-TV, Channel 3. In this version of the Villon legend, the poet becomes a confidant to King Louis IX, but is exiled when he falls in love with a lady of the court. The film is tailor-made for an actor of Barrymore's versatility, giving him the opportunity to display the full range of his talents from swashbuckler to clown to tragedian.

"The Oath Goddess," a modern Japanese opera by Shin-ichiro Ikebe, is featured Monday at 8 p.m. on WPXS-TV. The hour-long opera tells of a woman undertaker who is taught the secret of restoring life to the dead. The only requirement is that he make love to the Oath Goddess each time he restores a life. His happiness is soon ended, however, when he discovers that every person who saves becomes a murderer. The opera is in Japanese with English subtitles.

"TV Quarterbacks" the popular Penn State television series highlights Matty Lion football action, returns to WPXS-TV Wednesday, Sept. 11, 7 p.m. with a special pre-season program. Football will be a filmed introduction to this TV Lion team, starring the team's head coach, a look ahead to the coming season by Coach and a scouting report on Stanford. The feature this season will be filmed by the Lion and the coaching coaches. From Fisher and Jim Terman are co-hosts.

Kelley invited to Conference on Inflation

Dr. Eugene J. Kelley, dean of the College of Business Administration, has been invited by President Gerald R. Ford to participate in the Conference on Inflation Sept. 27-28 in Washington, D.C.

He was also asked by the President to

Dean Kelley

participate in a meeting of business and manufacturing leaders Sept. 16 in Pittsburgh.

"The Conference on Inflation is a bipartisan national effort to deal with our number one domestic problem," said the President in his invitation.

According to Mr. Ford, participants in the Conference will discuss "the present economic situation, its causes, and the most appropriate policies the Government can adopt."

The meeting of business and manufacturing leaders will be chaired by Frederick B. Dent, Secretary of Commerce.

Dean Kelley, who has served as dean since July 1, 1973, is also research professor of business administration. He is a nationally known leader in the field of marketing, having been named "Marketing Educator of the Year" for 1969 by Sales and Marketing Executives-International. He is the editor of *Foundations of Marketing*, a comprehensive 18-volume series published by Prentice-Hall, Inc.

Porter to give Priestley talks

Nobel laureate Sir George Porter, director and Fulbright Professor of Chemistry, The Royal Institution, London, has been named the 48th Priestley Lecturer at the University and will offer four lectures on "Some Chemical Aspects of Light," Sept. 16 through 19.

The lectures, sponsored by Mu Chapter of Psi Chi, Lambda Upsilon and the academic departments of the University from which the chapter elects its membership, are open to the public free of charge.

The schedule of lectures is as follows: Monday, Sept. 16, at 8 p.m. in Room 108 Forum Bldg., "Joseph Priestley and Some of His Contemporaries;" Tuesday, Sept. 17, at 8 p.m. in 112 Kern Bldg., "Photosynthesis — Past, Present and Future;" Wednesday, Sept. 18, at 8 p.m. in 108 Forum Bldg., "Molecules in Microtime;" and Thursday, Sept. 19, at 3 p.m., in 112 Kern Bldg., "Chemistry of the Excited State."

Dr. Porter is probably best known for his research on fast chemical reactions for which he shared the Nobel Prize in 1967 with Manfred Eigen, and his former teacher at Cambridge, Ronald G. W. Norrish.

Parking regulations will change Sept. 23

New University Park campus parking and driving regulations for faculty, staff and visitors will go into effect Monday, Sept. 23. They are expected to ease the difficulties faculty and staff members have had at times in finding parking space in their assigned areas.

Essential elements in the new regulations include establishment of "open" parking areas for faculty and staff, designation of certain areas for visitors, and enforcement of the visitor regulations through magistrate's citations.

Regular, full-time faculty and staff members will continue to be issued parking decals (bumper stickers) and assigned to specific parking areas. Should the assigned area be filled, the faculty or staff member may then go to one of the designated "open" areas identified by signs bearing the area designation surrounded by a red triangle. This system eliminates the need to call Campus Patrol when parking in an area other than the one assigned, and it provides a parking flexibility for faculty and staff who regularly travel around the campus.

Visitors will be permitted to park only in certain designated areas between 7 a.m. and 5 p.m. Monday through Friday. These areas will be manned by attendants during that period to assist visitors in finding a parking space.

Present parking decals that are marked "Valid 9-30-74" will remain valid until new serialized decals are distributed, expected to be in November. At that time, a fee structure will be introduced for registering second vehicles for parking privileges. A faculty or staff member will be issued decals for no more than two cars, and only one of those cars may be parked on campus at a time.

If it becomes necessary to drive a car other than one having a decal, the faculty or staff member will have to go to a visitor parking area, tell the attendant he or she is a faculty or staff member, and be issued a special one-day parking permit to be used in any designated "open" faculty-staff area, which may be different from the assigned lot.

The parking problem on campus has been aggravated in the past by the parking of visitors and other unregistered vehicles. The new regulations are designed to control visitor parking. This control necessitates a mechanism by which violators can be prosecuted.

"The magistrate's citation system is really the only legal recourse open to the University," says R. E. Zilly, vice president for business. "With the help of all departments and divisions, as well as individual faculty or staff members, we hope to inform the public adequately concerning

these regulations so that no visitor will be embarrassed by having to answer a magistrate's citation.

"At each campus entrance, at key intersections, and at certain parking areas, there will be easily discernible signs directing visitors to the parking areas available to them.

"Departments will be provided with information and maps to be distributed to potential visitors explaining the rules and indicating the locations of visitor areas."

Special provisions are being made for representatives of firms doing business regularly with the University. Departments will be advised of these rules and will be provided with information to pass along to vendors or others who provide service to the University.

Violations of the rules by faculty and staff members ordinarily will be subject to penalties imposed by the University. However, vehicles without parking decals or permits, even if owned by faculty, staff or students, will be considered as visitor vehicles. If such vehicles are parked in violation of the University's rules, the faculty or staff member or student will be subject to a magistrate's citation.

Vehicles with decals or permits will not be permitted to park in visitor parking areas, unless authorized by a member of

(Continued on page 4)

Crucial year for Senate, Dr. Snyder says

Helen Snyder is considering offering a new course in the dangers of probability models.

It was an area about which she thought she knew something before she was elected chairman of the University Senate.

"I wasn't terribly eager to take on the workload that goes with being chairman," she says, "but after serving on the governance committee, I thought someone from that group should be on the slate of officers. Otherwise it would look like the cooks were unwilling to taste their own food."

"I've worked with mathematical models for years, and the odds against the Senate electing its first woman chairman seemed great enough — especially when combined with the various blocs supporting other candidates — that I had no fear of being elected. I was surprised!"

Surprised or not, Dr. Snyder has approached her job with an attitude of urgency.

"I don't intend to be melodramatic, but I believe this year will show once and for all whether or not the Senate is a viable organization for shared governance," she explains. "Those of us who served on the governance committee last spring felt a strong sense of urgency after hearing the testimony presented to us."

A member of the faculty since 1958, Dr. Snyder has had some 14 years of Senate service, including a stint as secretary in 1968-69. But certainly her most intensive experience was working with the Senate Select Committee on Faculty Participation in University Governance. The eight-member committee, which was appointed by President Oswald and then-Senate chairman Ernest L. Bergman, emerged with 35 specific recommendations. Their general

Dr. Snyder — fabled by the odds.

intent was to propose that faculty members participate in all policymaking elements of University life and that the role of the Senate in governance be strengthened. Dr. Snyder has named a 10-member steering committee, with herself as chairman, to facilitate action on the recommendations.

"The Senate must show itself responsive to faculty grievances," she continues, "in order for the faculty to perceive it as a genuine alternative. That's not to say that I think the Senate is in any way fighting for its life if the faculty should decide on unionization. It may change, but it won't die."

"On the other hand, the Senate has allowed its credibility to be eroded, and it has lost contact with some of its constituencies. There has also been criticism from the faculty that it is a creature exist-

ing at the whim of the Trustees who can gut it at any time. It's true that the Board has the ultimate legal authority for the entire University. All the Colleges exist at its sufferance. However, I don't think the Trustees are likely to abolish the Colleges, or, for that matter, the Senate."

"It's my opinion that the central administration is sincerely interested now in dealing with the Senate, although we may have disagreements about how to proceed. It's a cliché, but both sides are going to have to compromise."

"Our 35 recommendations weren't written in stone. We may wind up with 36, or there may only be 20. The Steering Committee's job is to study the implications of these recommendations, allowing for ample deliberation. The Joint Committee didn't

(Continued on page 2)

Larson to head transit group a fifth year

Dr. Thomas D. Larson has been re-designated chairman of the State Transportation Advisory Committee for the coming year by Gov. Milton J. Shapp.

A professor of civil engineering and di-

Dr. Larson

rector of Penn State's Pennsylvania Transportation Institute, Dr. Larson was appointed to the committee in 1969 by Gov. Raymond P. Shafer as its first — and only — chairman.

The Transportation Advisory Committee has 30 members, including 8 cabinet officers, 4 legislators, and 18 citizens chosen for their interest and knowledge of Pennsylvania transportation affairs. It meets four times yearly and advises the Secretary of PennDOT and the Pennsylvania Transportation Commission on a wide variety of problems.

A member of the faculty since 1957, Dr. Larson earned his B.S., M.S. and Ph.D. in civil engineering at the University. He has done extensive research in the field of concrete, studying volume stability of aggregates and also durability of concrete bridge decks.

Service credit for retirement being processed

Although all requests from University employees to add time spent in military service to their retirement credit have been processed by the University, many people have not received any acknowledgment of their petitions from the State retirement board.

The Employee Benefits Division notes that there is no reason for alarm. The board is currently working on a backlog of nearly 5,000 requests, and delays of five months in processing are not uncommon there.

Under Act 31, which became effective last March 1, several changes were made in the State Employees' Retirement Act, one of which allows retirement credit for military service.

The processing delays will not result in any additional cost to persons seeking to pick up new credit, according to Employee Benefits.

Crucial year—

(Continued from page 1)

have time to do more than scratch the surface. Too often things get introduced into the Senate, go into the pipeline and are passed. They affect the entire faculty, but the faculty never had any real input. That's what we want to avoid."

Dr. Snyder is an associate professor of educational psychology and for the last two years has also served as acting assistant dean for resident education in her College. She will give up the second job at the end of summer term, which will allow her time to devote herself to what she considers one of her most important tasks as Senate chairman — accurately determining the sentiments of the Commonwealth Campus.

"I'm going to visit each Campus this fall," she says, "to talk to them about what they want in the way of delegated authority and what they understand by 'shared governance.'"

"The Campuses are not a monolithic organization and shouldn't be lumped together. The only way I know to get a feel for what they really want is to go out there

Death

Dr. Arnold J. Currier, who retired in 1955 as professor emeritus of chemistry, died Aug. 23 in Manchester, N.Y.; he was born in 1892 in Georgetown, N.Y., and was living in Lancaster, Pa., at the time of his death. A graduate of Colgate University, he was granted an M.S. by Penn State in 1921 and a Ph.D. by Cornell University in 1923. He taught science in high school from 1915 to 1917, and two years later was named instructor in chemistry by Penn State. In 1924 he was promoted to assistant professor, becoming an associate professor in 1931 and a professor in 1950. During World War I, he served in the U.S. Army Ordnance Department, assigned to the general chemistry company.

In writing

Following on the increased interest of Americans in their ethnic roots, a new book, "On Being Jewish: American Jewish Writers from Cahan to Bellow," which was edited by Daniel Walden, associate professor of American studies.

Published by Fawcett, the paperback is divided into four sections, beginning with the experiences portrayed by Jewish im-

migrants and then turning to the beginning of the century when writers such as Abraham Cahan and Mary Antin mirrored the tensions inherent in the transition from the European religious tradition to the materialistic new world.

A second generation of writers, including Ludwig Lewisohn, Henry Roth and Robert Nathan had to reconcile the desire for Americanization with their Jewishness. Then in the 1930s and 1940s, the shock of the Nazis' mass exterminations resounded in the work of Ben Hecht and Maxwell Bodenheim.

The concluding section deals with writers such as Arthur Miller, Bernard Malamud, Philip Roth and Saul Bellow, who are indisputably American yet also intensely aware of the ages-long past of their people.

Dr. Walden previously co-edited the anthology "On Being Black" and also edited "W.E.B. DuBois, The Crisis Writings."

Appointments

Dr. Robert A. Arlew, an assistant professor of French. A native of Egypt, his B.A., M.A. and Ph.D., all in French, were granted by the University of Illinois. His research is on computer applications in teaching French language, culture and

literature and on the use of computers for literary analysis.

Dr. Roland E. Fleischer, as professor of art history. A specialist in Northern Renaissance and Baroque art, he was a faculty member at George Washington University from 1956 to the present. He holds a B.A. from Western Maryland College and an M.A. and Ph.D. from The Johns Hopkins University.

Stuart J. Glogoff, as reference librarian. He has B.A. and M.A. degrees from the University of Cincinnati and an M.L.S. from Indiana University, with whose library he has been associated.

Leigh S. Shaffer, as assistant professor of psychology. A candidate for a Ph.D. in psychology from Penn State, he earned B.A. and M.A. degrees in psychology at Wichita State University.

Floyd F. Trunzo, as instructor in human development. He is completing requirements for an M.S. in ecology at Penn State, where he obtained a B.S. in zoology. He will serve as coordinator of academic services in the Division of Man-Environment Relations.

Eugene R. White, as instructor in speech communication at Mont Alto. His B.S. was granted by Penn State and his M.A. in speech by Indiana University.

Treasurer must accept all gifts

Government, corporation and Internal Revenue Service requirements make it necessary that all contracts, gifts or grants for Penn State be accepted formally by University Treasurer Robert A. Patterson in order to avoid potential legal and tax problems.

This does not, however, preclude personal notes of acknowledgment or thanks from affected faculty and administrators, Mr. Patterson points out, and they are, in fact, encouraged.

Formal acceptance of contracts, gifts and grants is a function that is performed in the office of William F. Christoffers, vice president for fiscal affairs and assistant treasurer. The appropriate channels to be used before formal acceptance is made are:

—In the case of a gift, grant, contract, letter of agreement, etc., which deals with a research, instruction or continuing education project, refer to the publication, "Policy and Procedure in Research" for established procedures.

—Miscellaneous agreements or entertainment contracts such as the Artists Series, athletic events or Associate Student Activities should be referred to the Controller's Office for processing.

—Other gifts to departments, faculty and staff should be sent directly to the Office of Gifts and Endowments (the former Penn State Foundation), or completed Form G I. 46 may be forwarded to that office.

Any additional questions may be referred to Mr. Christoffers.

in person and talk to the faculty at each one of them."

During her years at Penn State, Dr. Snyder has had plenty of opportunities to groom herself for her present job. Name a committee of her College, and she has probably served on it, either as a member or as chairman. In addition, she spent one year as acting administrator for her department and was associate director of the State College branch of the Appalachian Educational Laboratory.

"I think the most complicated thing I ever undertook was to serve as coordinator and synthesizer of undergraduate program review in the College of Education," she notes. "My report ran about 1,000 pages, and I'm afraid it stirred up a lot of people."

Dr. Snyder came to Penn State from the University of Illinois, after earning her doctorate in educational psychology. Her master's degree in social studies was conferred by Colorado State College, where she enrolled after obtaining two degrees in social studies from Kansas State Teachers College. The latter institution is located in her hometown of Emporia.

"I found an obscure rule that made it possible to juggle credits so that a stu-

English 3 pilot program now underway

The Department of English will institute an English 3 pilot program beginning in the fall term and continuing for one year.

During fall term, a total of 15 sections at 5 different campuses are being taught. In the winter term, 5 additional campuses will be involved in the pilot.

The program was proposed to the English Department by the Inter-Campus Committee on English and is being developed under the direction of a sub-committee of Commonwealth Campus faculty members in cooperation with James F. Holahan, director of freshmen composition.

The Sub-Committee is chaired by Dennis F. Brestensky (Fayette). Other members are: Mary Heider (Berks), Ray Kearney (Berks), Pat Rivett (Schuylkill), Lawrence Suth (Hazleton), and John Timplin (Shenango). Consultants are: Robert Gillingham (Fayette) and Evelyn Hovanec (Fayette). Assisting the committee with course evaluation instruments is Frank Dwyer from University Division of Instructional Services.

According to Professor Brestensky, the pilot program is "based on the principle of investigative writing in response to some problem of the human condition. We believe that the development of problem-solving investigative writing skills is relevant and practical for every student regardless of major and College. Furthermore, the ability to investigate problems and to articulate the findings in writing is an essential characteristic of a responsible, self-reliant, self-directed learner."

Dr. Snyder recalls: "My sister and I confronted the President with our disapproval, and he agreed it could be done. I still remember him saying as I marched across the stage for a second time, 'Helen, you're getting your money's worth today.'"

All told, Dr. Snyder had some 13 years of public school teaching and counseling experience prior to becoming a university faculty member. At Penn State, she teaches graduate courses in learning with particular emphasis on contemporary learning models and also a research methods course. She is the author of a book, "Contemporary Educational Psychology: Some Models Applied to the School Setting."

When her activities allow her time, she enjoys sewing, reading and playing the piano. Her history library is almost as large as her collection of books in psychology.

She is not a person to be stampeded easily. Summing up her present direction, she says:

"I have some faculty on the left charged because I'm not moving fast enough and some administrators on the right charged because I'm moving too fast. I figure I must be about on course."

A special feature of the course will be the use of a unifying theme that will concern itself with some fundamental problem of the human condition. For the fall term, instructors will have the choice of one of three unifying themes: The American Character, The Responsible Man, or The Future.

The primary purpose of each unifying theme is Professor Brestensky explains, "to provide a body of knowledge (facts and imaginative) for frequent writing assignments that are investigative and related to a problem. The unifying theme and tasks are not ends in themselves; instead, they are only means of stimuli for generating excitement about and interest in writing assignments. The ultimate worth of each section of English 3 will be determined by how well a student has mastered the writing of problem-based investigative papers."

In addition to learning the rhetorical principles and processes of problem-solving writing, students will learn the basic skills of library usage and the techniques of note-taking, documentation and bibliography.

Professor Brestensky concludes: "The proposed English 3 is designed to be a natural, logical outgrowth of English 1. To define, validate, analyze, evaluate and solve a problem, a student will need to transfer his English 1 knowledge of validity, meaning, value and policy to his English 3 writing assignments."

"The existing purpose of the course—the writing of ideas and the writing of essays with related judgments—the writing of essays assembled—is basically unchanged. When writing about a problem, a student will make judgments from evidence assembled about the problem's existence, significance, causes, issues and solutions. However, what the course now provides is a clearly defined writing skill — investigative writing — from a clearly defined rhetorical stance — problem-solving."

Football parking

A new parking designation plan will be in effect for the 1974 home football season at Beaver Stadium.

It calls for two-color parking areas, replacing the four-color system utilized in the past. Yellow parking areas have been set aside for priority parking. Orange areas are for fans who have pre-paid parking.

Parking also will be available at a cost of \$1.00 for those who don't have pre-paid parking.

An earlier starting time for the one-way traffic pattern near the stadium, instituted two years ago because of an increase in seating capacity, will continue this year.

The one-way traffic patterns on Park Avenue and University Drive will go into effect at 10 a.m. on football Saturdays. Details on the traffic patterns and suggestions for those driving to the stadium will be issued prior to the Stanford game.

University Park Calendar

September 12-22, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday, September 12 — Seminar on the use of Serials Holdings List, 7 p.m., Room W106 Pattee Undergraduate Library.

Thursday-Friday, September 12-13 — Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.

Friday, September 13 — Sports: Soccer, vs. East Stroudsburg, 7 p.m., Jeffrey Field. Freshman football, vs. Milford Academy, 3 p.m., Beaver Stadium.

Friday, September 13 — Arnold Air Society jammy, 8 p.m., HUB ballroom.

Friday, September 13 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 14 — Sports: Football, vs. Stanford, 1:30 p.m., Beaver Stadium.

Saturday, September 14 — Baha'i Club, 7 p.m., HUB assembly room. Social event.

Sunday, September 15 — Artists Series, New York Brass Quintet, 8:30 p.m., Schwab.

Sunday, September 15 — Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Charles Coleman, Program Director, Religious Affairs.

Sunday, September 15 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, September 16 — Entry close for Coed Football tournament.

Monday, September 16 — Gamma Pi Epsilon program, film, "Biology of a Cancer," 8 p.m., HUB assembly room.

Monday-Friday, September 16-20 — Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E104 East Pattee.

Tuesday, September 17 — Deadline for entries in Tough Football and Tennis singles, 4:30 p.m., Room 206 Rec Hall.

Wednesday, September 18 — Mary Roens, violin recital, 8:30 p.m., Music Bldg, recital hall.

Wednesday, September 18 — Sports: Soccer, vs. West Virginia, 7 p.m., Jeffrey Field.

Wednesday, September 18 — Artists Series Film Festival, "Modern Times," Charlie Chaplin, 8:30 p.m., University Auditorium.

Wednesday, September 18 — Returning Women Students, 7:30 p.m., Eisenhower Chapel lounge. Panel discussion on the problems of women returning to college.

Friday, September 20 — Sports: Freshman football, vs. Villanova, 3 p.m., Beaver Stadium.

Friday, September 20 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 21 — Sports: football, vs. Navy, 1:30 p.m., Beaver Stadium. Women's golf, vs. Madison College, 10 a.m.

Sunday, September 22 — Chapel Service, 11 a.m., Music Bldg, recital hall. Captain John O'Connor, Chaplain United States Naval Academy.

Sunday, September 22 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

LECTURES

Monday, September 16 — Priestley Lecture, 8 p.m., Room 108 Forum. Sir George Porter, Nobel laureate from The Royal Institution, London, on "Joseph Priestley and Some of His Contemporaries."

Tuesday, September 17 — Priestley Lecture, 8 p.m., 112 Kern. Sir George Porter, on "Photosynthesis — Past, Present and Future."

Wednesday, September 18 — Priestley Lecture, 8 p.m., 108 Forum. Sir George Porter, on "Molecules in Microtime."

Thursday, September 19 — Priestley Lecture, 3 p.m., 112 Kern. Sir George Porter, on "Chemistry of the Excited State."

SEMINARS

Thursday, September 12 — Physics, 3:45 p.m., Room 117 Osmond. L. Esaki, Nobel Laureate, IBM Watson Research Center, Yorktown Heights, N.Y., on "Novel Tunneling."

Thursday, September 12 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dean Charles Hosler, on "Influence of Man-Made Heat Sources on the Weather."

Thursday, September 12 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Jim Eakin, Agronomy Extension, on "The Andros Forage and Livestock Production Research."

Friday, September 13 — Ceramics, 11 a.m., Room 301 Mineral Industries. Roger W. Haskell, The Watervliet Arsenal, Water-

vliet, N.Y., on "Chemical Vapor Deposition (CVD) — Theory and Practice."

Monday-Tuesday, September 16-17 — Biochemistry, 11 a.m., Room 101 Alt-house. Edward C. Heath, University of Pittsburgh, on "The Role of Complex Carbohydrates in the Organization and Function of Bacterial Cell Envelopes;" "The Role of Monosaccharide and Oligosaccharide-Dolicol Derivatives in Glycoprotein Biosynthesis."

Tuesday, September 17 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Gerald A. Regan, U.S. Environmental Hygiene Agency, Air Pollution Engineering Division, Aberdeen Proving Ground, Md., on "Analysis of Five Years of Air Quality Data Taken in the Vicinity of a TNT Manufacturing Plant."

Thursday, September 19 — Agronomy, 3:45

p.m., Room 301 Ag. Adm. John Washko and John Shenk on "Russian Forage Production and Quality Research."

Thursday, September 19 — Chemistry, 12:45 p.m., Room 333 Whitmore. Tobin T. Marks, Northwestern University, on "New Developments in Organosaccharide Chemistry."

Thursday, September 19 — Environmental Problem Solving, 8 p.m., Room 105 Forum. Charles Eastman, Carnegie-Mellon University.

Thursday, September 19 — Physics, 3:45 p.m., Room 117 Osmond. Peter Bergmann, Syracuse and Yeshiva Universities, on "General Relativity on Quantization."

Thursday, September 19 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Elliot Abrams on "Numerical Progs: Boon . . . and Bust."

MEETINGS

Monday, September 16 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, September 16 — Angel Flight and Arnold Air Society, 7:15 p.m., Room 104 and 105 Wagner.

Tuesday, September 17 — Senate Council, 2:10 p.m., Room 107 Kern.

Thursday, September 19 — Penn State University Squadron 1303 CAP, 7:30 p.m., Room 104 Wagner.

OFFICIAL

Thursday-Saturday, September 12-21 — Preregistration for Winter Term.

Thursday-Saturday, September 12-21 — File for Repeat Course.

Wednesday, September 18 — Deadline for filing Course Adds.

EXHIBITS

Museum of Art — Manayunk and Other Places: Francis Speight's paintings and drawings, Galleries A and C. Selections from the permanent collection, Gallery B. Free public tours Thursdays, 1:30 p.m.

Sackett Gallery — "Light," a show of architecture student work, through Sept. 24.

Chambers Gallery — Pennsylvania Guild of Craftsmen, crafts, through Sept. 26. Jeanne Stevens-Sollman, drawings and ceramics, opening Sept. 27.

Kern Gallery — Marsha and Ralph Kaleshski, paintings, through Sept. 28. Bob and Susan Duncan, oil paintings, opening Sept. 29.

Hammond Gallery — Architectural Engineering Student Projects Exhibition, through Sept. 29.

Pattee Library — Central foyer, through Sept., memorabilia of George Gilbert Pond.

FILM

Wednesday, September 18 — Commonsplace Theatre, "The Fly," 8 and 10 p.m., Room 112 Kern.

"Box Holder" by Francis Speight, painted in 1937, is one of the paintings now on display in the exhibit, Manayunk and Other Places, currently being shown in Galleries A and C of the Museum of Art.

HUB specials

Sunday, Sept. 15 — dinner, roast turkey w/drf, \$1.60; supper, spaghetti, \$1.17.

Monday, Sept. 16 — lunch, blueberry fritters w/bacon, \$.90; dinner, Chinese pepper steak w/lettuce, \$1.09.

Tuesday, Sept. 17 — lunch, Golumbki, \$.95; dinner, chicken, 4 waffles, \$1.35.

Wednesday, Sept. 18 — lunch, Coney Island franks, \$.85; dinner, noodle goulash, \$.90.

Thursday, Sept. 19 — lunch, lasagne, \$1.22; dinner, French meatloaf, \$.99.

Friday, Sept. 20 — lunch, turn-over w/parley sauce, \$1.07; dinner, French fried clams w/lettuce sauce, \$1.24.

Saturday, Sept. 21 — lunch, chili, \$.64; dinner, chicken steak Maryland w/cranberry sauce, \$1.24.

Monday-Friday daily lunch special — soup, chef's bowl, roll, butter, beverage, \$1.03.

Season tickets

A few season tickets are still available for the Artists Series. Subscriptions for the Fine Arts Series will be on sale until the concert next Sunday and those for the Music Series may be purchased through noon on Sept. 21. Tickets for the Film Series may be bought at any time. The Theatre-Dance Series is sold out.

Ticket vouchers may be obtained at the University Auditorium or the HUB Booth from 9 a.m. to 4 p.m., Monday through Friday; Saturday, from 10 a.m. to noon. Tickets may also be purchased at 203 Schwab.

Quintet includes: Left to right, Robert Nagel, Arlan Oesh, Paul Ingraham, John Swallow and Thompson Hanks.

Brass Quintet plays Sept. 15

The New York Brass Quintet opens the Fine Arts Series of The Artists Series Sunday, Sept. 15, at 8:30 p.m. in Schwab Auditorium.

Tickets, if available, will be sold at the HUB booth and University Auditorium from 9 a.m. to 4 p.m. through Friday and from 10 a.m. to noon on Saturday. For students, single tickets cost \$10.00 and \$15.00; for non-students, \$15.00 and \$25.00.

The story of brass chamber music as a modern concert attraction began 17 years ago with the formation of the Quintet. Its members are Robert Nagel and Allan Dean, trumpets; Paul Ingraham, French horn; John Swallow, trombone; and Thompson Hanks, tuba.

Their program includes Three Pieces by Anthony Holborne; Contrapunctus No. 1

(from "Art of the Fugue") by Johann Sebastian Bach; Quartet No. 4 in A flat major by Wilhelm Rasmose; Quintet, Opus 73 by Malcolm Arnold; Trio for Horn, Trumpet and Trombone by Jean Louel; Music for Brass Quintet by Gunther Schuller; and Sonatine by Eugene Bozza.

The last four works are by contemporary composers. Arnold wrote his score especially for The New York Brass Quintet. Louel's piece is perhaps the most difficult and yet the most brilliant work in the brass trio repertoire, and the Quintet played it for the first time during their 1973-74 concert season.

Gunther Schuller wrote his score on commission for the Gertrude Clerk Whitall Foundation for performance by the Quintet in the Library of Congress.

Priestley—

(Continued from page 1)

Dr. Porter has been director of the Royal Institution since 1967. Previously, he was professor and director of the department of chemistry at the University of Sheffield, England. In 1961, he served as visiting lecturer in chemistry at Penn State.

The Priestley Lectures were established in 1926 through the initiative of the late Professor Wheeler P. Davey in honor of Joseph Priestley. Priestley's home in Northumberland, Pa., was the scene last summer of ceremonies to mark the dual anniversary of the pioneer chemist's discovery of oxygen on Aug. 1, 1774, and of U.S. national chemical history on Aug. 1, 1874. The celebration was hosted by Penn State's Department of Chemistry.

Women's sports

A daily noon hour physical activity program, designed to meet the needs and interests of women faculty and staff, will be offered in White Bldg. this year.

A wide variety of activities, including games, water sports and physical fitness exercises, will be scheduled during the noon to 1 p.m. sessions, with actual activity time set for 12:15 to 12:45 p.m.

The program is limited to a maximum of 30 individuals who will be accepted on a first-come, first-served basis. Each participant must obtain medical clearance from her personal physician prior to the program. If they come to the University Park campus with a car not bearing such a decal, they must go to one of the visitors areas, explain their situation to the attendant, and receive a one-day parking permit for an open area.

Payment of penalties or appeals of violations, for faculty and staff members, will now be made on the ticket issued instead of waiting for a billing, as heretofore. A faculty or staff member who has 72 hours to pay the penalty or appeal the violation. The progressive penalty system for traffic and parking violations will be eliminated. A schedule of parking and traffic penalties appears in the new Parking Rules, Regulations and Information.

Parking chairmen have been provided with sufficient copies of regulations and maps to distribute to all those who have registered cars. If you have not received a copy, see your parking chairman immediately.

Parking—

(Continued from page 1)

the Department of University Safety, between 7 a.m. and 5 p.m., Monday through Friday.

Loading and unloading provisions of previous regulations have also been changed somewhat. A floating permit may be used for loading and unloading in designated loading zones if the vehicle's emergency flashers are operating and loading or unloading is actually taking place, with a 15-minute limit.

Faculty and staff members at campuses, offices or stations other than University Park may make use of the open faculty and staff parking areas. If they come to the University Park campus with a car not bearing such a decal, they must go to one of the visitors areas, explain their situation to the attendant, and receive a one-day parking permit for an open area.

Payment of penalties or appeals of violations, for faculty and staff members, will now be made on the ticket issued instead of waiting for a billing, as heretofore. A faculty or staff member who has 72 hours to pay the penalty or appeal the violation. The progressive penalty system for traffic and parking violations will be eliminated. A schedule of parking and traffic penalties appears in the new Parking Rules, Regulations and Information.

Meeting open

The Board of Trustees voted on July 19 to open its meetings to the public.

In keeping with this action, it will hold its first open meeting at 2 p.m. Friday, Sept. 20, in Room 403, J. Ovis Keller Bldg.

The meeting room will accommodate approximately 75 visitors, including a press section, and will be open at 1:30 p.m. on a first-come, first-served basis until all seats are filled.

Agendas for the Board meeting will be available at the door.

Standing and other committees of the Board of Trustees are not authorized to take action on behalf of the full Board, and as such their meetings are working sessions not open to the public.

Funding opportunities

Call 865-1372 for more information.

Sept. 5, 1974

(146-1) Vocational education will receive a boost from the Child Abuse Training, which has issued regulations for "Research and Training, Exemplary Projects and Curriculum Development." Research and Training includes demonstration and dissemination of new vocational education curricula and development of new careers and occupations. Exemplary projects include student summer work, occupational guidance, improved curricula, and personnel exchanges. Curriculum development programs include development of standards, surveys, evaluations and training. These materials have been distributed (Ref. 39FR32951, 8/17/74).

(146-2) Cooperative microbiological research with Russian scientists will be funded by the National Science Foundation (NSF). NSF is interested in Technology for production of food and food proteins by microbial means, RAO for computerized simulation, design and control of processes for microbial technology, molecular biology of industrial micro-organisms, development of ways to produce and apply enzymes for industrial and analytical goals, and microbial control of pests in agriculture. Proposals should be submitted to: Joshua L. Leise, Senior Staff Associate, OAO/R, NSF, Washington, O.C. 20505.

(146-3) Preventing child abuse and neglect and establishing sound treatment programs is the purpose of the Office of Child Development, which will fund research and training projects under a newly formed National Center on Child Abuse and Neglect. Proposals should be submitted to: NSF, Washington, O.C. 20505.

(146-4) The 1975-76 Program for U.S.-France Exchange of Scientists has a Nov. 1, 1974, deadline date. About 15 awards will be made. Copies of the announcement are available.

(146-5) The National Endowment for the Arts (NEA) has published guidelines for \$6,000 fellowships for creative writers under the NEA Literature Program. NEA announces a Sept. 1, 1975, deadline; applications will be accepted Jan. 1, 1975. Contact Leonard Randolph, Director, Literature Program, NEA, Washington, O.C. 20505 (202-634-0441) for information and application forms. The guidelines have been distributed (Ref. 39FR30991, 3/27/74).

(146-6) The Office of Education has announced on Oct. 8, 1974, received date for non-compulsory contributions under its Right to Read School Used Books Program. There will be no new awards under this program. (Ref. 39FR31339, 9/3/74).

(146-7) Regulations for Grants for Training in Emergency Medical Services have been issued by the Public Health Service. Eligible are schools of medicine and nursing, training centers for allied health professionals, and organizations which deliver emergency medical services and offer the clinical experience appropriate to the proposed training. The regulations have been distributed. (Ref. 39FR29045, 8/27/74).

REMINDERS AND DEADLINE DATES
Oct. 1 for NIH/ORG research and resources programs (Aug. 15 INTERCOM 214-24) . . . Oct. 1 or Oct. 1 for nine Food & Drug research programs (Aug. 20 INTERCOM 214-24) . . . Oct. 1 for NEH Education planning, program, and development grants (Sept. 5 INTERCOM 214-53) . . . Nov. 15 and April 1 for NEH Youth grants in the Humanities (Sept. 5 INTERCOM 214-53) . . . Nov. 15 for NSF Scientists and Engineers in Economic Development Program (Aug. 22 INTERCOM 214-32).

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below, apply by e-mail: Employment Office 865-1387 (Network Line 475-1387). Do not contact the hiree having the vacancy. Applications will be accepted until: 5:00 p.m., Sept. 19, 1974.

RADIOLOGY EQUIPMENT ENGINEER
Hershey Medical Center
Responsible for planning, installing, maintenance, and modification of all X-ray equipment and related electronic equipment for the hospital. Bachelor's degree in Engineering or equivalent plus eight to twelve years related experience.

TRAFFIC AND CONTINUITY SPECIALIST,
CONTINUING EDUCATION, DIVISION OF
BROADCASTING — University Park
Responsible for translating the broadcasting station's program schedule into the daily program log, setting up minutes by hour for the content of the station's broadcast day in accordance with FCC rules and regulations. Bachelor's degree or equivalent in Liberal Arts is desirable. No previous experience as a traffic and continuity specialist is required.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS — Behrend College
Responsible for the supervision of the Behrend College Union. Participates in the planning and direction of the activities program. Coordinates to a large extent the union's goals and standards through selection of personnel, guidance

Dr. De Leive

New offering set at Exeter

A new Foreign Studies Program has been developed with the University of Exeter, England, to be initiated during the spring term, 1975.

A general studies program open to students in all colleges, the Exeter study term is intended to provide students with the opportunity to examine the political, economic and social conditions and problems of Europe today, with particular emphasis on conditions in England.

Courses to be offered in the 10-week term include Economics 499 (British economic trends, industry and labor, the Welfare State, international economic relations); Political Science 499; and either Sociology 499 or Human Development 400. Prerequisites are 18 credits in the social sciences and three other credits in modern European history.

Currently, Penn State has 13 Foreign Studies Programs, six general studies and seven specialized. They are offered in France, Germany, Spain, England, Italy, Portugal, Norway, Mexico, Peru and Panama Canal Zone. In the winter term, 1975, a new specialized program in business administration will be inaugurated in Lima, Peru.

Initiated in 1962, Foreign Studies Programs, directed by Dr. Dagobert De Leive, will have enrolled more than 2,200 Penn State students by the end of the 1974-75 academic year.

WPSX highlights, Sept. 16-23

"The emotional, spiritual and physical crisis that confronts many middle-aged men in America is the subject of 'Male Menopause: The Pause that Perplexes,' an hour-long 'Special of the Week' presentation Monday, Sept. 16, at 8 p.m. on Channel 3. Hosted by actor William Windom and featuring comedienne Anna Maria and folksinger Oscar Brand, uses comedy, dramatic vignettes and documentary segments to explore the myths and realities of male menopause."

"The 'Title IX' could affect sports programs around the country. The discussion is on 'Talkback' Monday at 10 p.m. on WPSX-TV. Featured are host Fran Fisher, Dr. Robert Scannell of the College of Health, Physical Education, and Recreation at Penn State; and Dell Durant, assistant athletic director for the College. The discussion centers around how the controversy will affect sports programs around the country."

"America: Alistair Cooke's Emmy-winning personal view of American history, comes to WPSX-TV beginning Tuesday, Sept. 17, at 8 p.m. The series, being broadcast nationally over the Public Broadcasting Service, has been rescheduled into 26 half-hour programs. Tuesday's program looks at early exploration of America, with a focus on the West. The program is part of the In-School service of the Allegheny Educational Broadcast Council on WPSX-TV at 10:30 a.m. beginning Sept. 23.

Filmed highlights of the Penn State-Stanford games are featured on "TV Quarterbacks" Wednesday, Sept. 18, at 10 p.m. on Channel 3. Hosted by Pat Patterson, the program features interviews with Penn State team members, a scout's report on Navy, and a look at the work of an assistant coach, Fran Fisher and Jim Tarmann co-host.

given to student committees, and communications with faculty and staff. Master's degree or equivalent in student personnel or related area plus two to four years related experience.

ELECTRON MICROSCOPIST, COLLEGE OF ENGINEERING — University Park
Responsible for operation of an electron microscope and for instructing and assisting students in experiments involving the electron microscope and optical microphotograph. Maintain other departmental equipment. Select appropriate photographic specimens used for instructional and research activities. Assist in departmental research, record and interpret data. Maintain darkrooms and carry out darkroom practices. Set up, maintain, align, and calibrate instrumentation and equipment for scheduled laboratories, e.g., x-ray diffractometer, Universal Testing machines, etc. Associate degree plus eight to ten years related experience.

RESEARCH AIDE (HORTICULTURE) COLLEGE OF AGRICULTURE — University Park
Analyze plant samples, including operation of emission spectrometer, selection of basic standards, proper buffer, sample size and elements to be analyzed. Operate, maintain, and supervise the operation of the induction furnace and titration for sulfur determinations. Select appropriate plant samples from fruit and vegetable experiments and supervise the preparation of samples for analysis, including desiccation, drying, grinding and grinding. Bachelor of Science degree in Agriculture, or its equivalent plus two years related experience in general laboratory work plus some knowledge of computer science.

ASSISTANT FINANCIAL OFFICER, COLLEGE OF ARTS AND ARCHITECTURE — University Park
Responsible to the Financial Officer College of Arts & Architecture for maintaining College and

News briefs

LONDON BUS

Beginning with the Stanford game, Saturday, Sept. 14, the London Bus will start off at 10 and 11 a.m. from the iron gate at the intersection of Allen St. and College Ave. for half-hour tours of the campus. If the response is sufficient, the bus will operate at each home football game. Last summer, nearly 4,000 persons took the bus tours.

DR. OSWALD ATTENDS BICENTENNIAL

President John W. Oswald attended the opening session in Philadelphia of the Bicentennial of the First Continental Congress. The Sept. 5 event, which brought together leaders from the original 13 colonies, including all but two of the governors, commemorated the Sept. 5, 1774, meeting of colonial leaders, called to Philadelphia to write a list of grievances against the British crown. Dr. Oswald attended the affair as a guest of Gov. Milton J. Shapp.

DAVEY ORIENTATION

Students and faculty are invited to attend orientation programs presented by the Physical Sciences Library, 230 Davy Lab. Talks, each lasting one hour, will cover such topics as the use of library information sources and location of materials. The program will run from Sept. 16-22, Monday through Friday, at 10 a.m. for undergraduate students and 1:30 p.m. for new faculty and graduate students. Those unable to attend at these times may contact Mr. McKown, physical sciences librarian, at 865-7617.

CIVIL AIR PATROL

The first fall meeting of the Penn State University Squadron 1303 CAP will be held Thursday, Sept. 19, at 7:30 p.m., in Room 104 Wagner Bldg. Persons interested in CAP's program of air and ground search and rescue, aerospace education for adults and youth, and communications and volunteerism are invited. Further information may be obtained from Capt. Carl Risher 237-2138.

University Accounting Unit preparing monthly reports and performing other general accounting duties. Bachelor's Degree in Accounting or equivalent plus two to four years related experience.

COUNSELOR (CAREER DEVELOPMENT AND PLACEMENT) — Ogoniz
Responsible to the Dean of Student Affairs for the Career Development Group, operating primarily on educational/vocational concerns. Assist with pre-registration training, Summer counseling and orientation. Provides consultation to students on the Student Affairs staff and the community. Master's degree in Counseling Education or related area or equivalent plus a minimum of three years applicable experience.

RESEARCH AIDE-CHARACTERIZATION, INTERCOLLEGE RESEARCH PROGRAMS — University Park

Responsible for characterization of materials utilizing optical microscopy, X-ray powder diffraction, differential thermal analysis, scanning electron microscope, scanning electron microscope and scanning techniques. Associate degree or equivalent in chemistry, plus two to four years related experience in laboratory chemistry or related field involving materials preparation and characterization.

RESEARCH AIDE-PREPARATION, INTERCOLLEGE RESEARCH PROGRAMS — University Park
Responsible for preparation of high purity inorganic materials by controlled atmospheric synthesis, hydrothermal and high pressure synthesis and ceramic techniques; the purification and characterization of these materials. Associate degree or equivalent in chemistry, plus two to four years related experience in laboratory chemistry or related field.

News in brief

OPEN HOUSE

An open house to mark the 25th anniversary of the dedication of the Garfield Thomas Water Tunnel will be held Friday, Sept. 20, from 7 to 10 p.m. and Saturday, Sept. 21, from 8:30 a.m. until noon. The facilities of the world's largest high-speed water tunnel will be demonstrated for the public. The silver anniversary celebrations also include a program with Applied Research Laboratory and Navy personnel. Distinguished guests are Dr. David S. Potter, Under Secretary of the Navy; Admiral I. C. Kidd, Jr., Chief of Naval Material; Vice Admiral W. P. Mack, Superintendent of the U.S. Naval Academy; and Rear Admiral R. W. King, Deputy Commander for Research and Technology Directorate, and Rear Admiral W. Dedrick, Deputy Commander for Weapons, Systems and Engineering Directorate, both of Naval Sea Systems Command. Three former directors of the Tunnel will also be present. They are Dr. J. M. Robertson, Dr. G. F. Wallenous and Dr. M. M. Sevik.

NEWCOMERS' ACTIVITIES

A reception sponsored jointly by Newcomers Club and the Faculty Women's Club will be held Tuesday, Sept. 24, from 7:30 to 9:30 p.m. at Kern Bldg. Those attending will have the opportunity to sign up for various interest groups offered by both clubs. Newcomers' groups include a book exchange, bridge, tongue-twimble-and-things, dinners for eight and a couples' sports night. Membership is open to women faculty and wives of faculty or administrators who have been here less than two years. More information may be obtained from Mrs. Stuart Forth, 238-5268, or Mrs. Keith Lantz, 237-9404.

AFRICAN FILM

"Sambizanga," a highly acclaimed color, feature-length film from Africa will be

shown Wednesday, Sept. 25, at 7:30 p.m. in the Black Cultural Center, Walnut Bldg. The film, with English subtitles, is sponsored by the Center, the Liberal Arts African Studies Committee, and the Black Studies Program. Described as an African "2" by many reviewers, the film is based on events leading up to the 1961 outbreak of armed resistance to Portuguese rule in Angola.

FRASER ONE-WAY

Fraser Road extending from Pollock to Curtin between Sparks Bldg. and West Halls has been designated as a one-way street with traffic moving south to north. The change, which is now in effect, was made as a part of the new parking regulations at the University. The east lane of the street will be used for assigned parking spaces.

GAMES CLASSES

Games and gymnastic classes for children of faculty, staff and townpeople will be offered from Sept. 25 through Nov. 14 in White Bldg. Sponsored annually by the College of Health, Physical Education and Recreation, the classes meet Wednesday or Thursday afternoons from 4 to 5 p.m. and are designed for children in kindergarten through fourth grade. Registration will be held the first day of each class in White Bldg.

DAVEY DEDICATION

Davey Laboratory, providing classrooms, offices, and research facilities for the Departments of Astronomy, Chemistry and Physics will be formally dedicated Friday, Oct. 4. The activities, open to the public, will include a program in the second floor lounge of the Laboratory at 2 p.m., followed at 3 p.m. by tours of the building. The \$6.5 million structure, built by the

General State Authority, is named in honor of the late Dr. Wheeler P. Davey, a member of the Penn State faculty for almost a quarter of a century and a University alumnus. A former research professor of chemistry and physics, Dr. Davey was internationally known for his pioneering studies in the fields of x-rays and crystal structure. President John W. Oswald will unveil a portrait of Dr. Davey which will hang in the lounge. Dr. Thomas Warlik, dean of the College of Science, will preside at the dedication program which will include brief addresses by three of Dr. Davey's colleagues: Dr. David H. Rank, Evan Pugh research professor emeritus of physics; Dr. David C. Duncan, professor emeritus of physics; and Dr. Thomas S. Oakwood, professor emeritus of chemistry.

BERKS THEATRE

Berks Summer Theatre, a professional, non-equity stock company operating in a continuing education mode and giving practicum credit to participants, closed a successful season of six musical and six children's shows at the Berks Campus Sept. 1. Over 18,000 paid admissions were recorded in the 300-seat Theatre-Auditorium, assuring sufficient funds for continuance of the activity next season.

MLA PAPERS INVITED

Graduate students in modern languages, literature and linguistics are invited to submit papers to be read at the spring meeting of the Northeastern Modern Language Association next April in Montreal. Abstracts of papers should be sent by Oct. 15 either to heads of individual sections or to the head of the MLA Graduate Seminar, Abbot J. Mendelson, Dept. of English, University of Pittsburgh. Papers should run a maximum of eight pages or 15 minutes reading time.

Faculty club building plans to be shown

Pending approval by the Trustees at the Sept. 20 meeting of the Board, preliminary plans for the Penn State Faculty Club building will be displayed at the annual meeting of the Club Wednesday, Oct. 2, at 8 p.m. in Room 101 Kern.

This meeting is open to both members and non-members of the Faculty Club. Robert Gray, chairman of the Building Planning Subcommittee, will present the blueprints which were developed by the architectural firm of Venturi and Rauch. The building is to be located between the Military Lion Inn and Park Ave.

According to Dr. Richard Schein, president of the Club, the progress achieved on the plans makes it necessary to name an operations subcommittee of the Club's Facilities and Functions Committee. This group will be charged with developing the day-to-day operations and program of the Club.

With building planning well in hand, the most important task for the next year will be to prepare for the Club's opening. Dr. Schein points out.

Members may send nominations — including their own — to either Dr. Schein or Dr. Donald Oleson, vice president of the Club, for the new subcommittee.

Enrollment figures rise

Enrollment of resident instruction students at University Park at the opening of fall term classes last week totalled 30,250 while registrations for all locations reached 46,958, according to Dr. Robert E. Dunham, vice president for undergraduate studies.

The figures, still incomplete because of late registrants, are above those of a year ago when at the opening of classes there were 28,382 at University Park and 44,786 at all locations. The final figures last year were 29,597 at University Park and 48,439 at all locations.

At University Park this fall there are 25,221 baccalaureate degree candidates, 4,661 graduate students and 368 adjunct students. Among the 14,593 reported for the Commonwealth Campuses are 3,176 as associate degree candidates, 9,309 enrolled in baccalaureate degree programs and 2,108 graduate students. Behrend College, with an enrollment of 1,493, has 175 associate degree and 1,135 baccalaureate degree students as well as 33 in graduate programs and 150 adjunct students.

The Hershey Medical Center reported 395 medical and graduate students. King of Prussia Graduate Center has 227 students.

Registration at Capitol Campus, Middletown, is scheduled for Sept. 30 and Oct. 1. Commonwealth Campus enrollments, also incomplete, are: Allentown at Fogelsville, 141; Altoona, 1,740; Beaver at Monaca, 985; Berks at Reading, 745; Delaware County at Media, 1,141; DuBois, 479; Fayette at Uniontown, 1,068; Hazleton, 860; McKeesport, 1,032; Mont Alto, 860; New Kensington, 753; Ogontz at Abington, 1,710; Schuylkill at Schuylkill Haven, 600; Shenango Valley at Sharon, 673; Wilkes-Barre, 540; Worthington Scranton at Dunmore, 736; and York, 608.

Almost two-thirds of State's faculty tenured

Almost two-thirds of all faculty members teaching in the Commonwealth's colleges and universities have tenure, according to a Penn State study.

The State also appears to have an aging faculty; 56.8 percent of them are over 40.

The study, which sampled more than 1,800 teaching faculty at 118 Pennsylvania Institutions of higher education during 1972-73, was sponsored by the Center for the Study of Higher Education.

Its authors are Dr. Larry L. Leslie, chairman and professor of higher education at the University, and Dr. James Cressy, associate professor of business at Bloomsburg State College.

Other highlights of the study, which is the first in-depth report on Pennsylvania professors undertaken since 1935, include:

—The distribution of Pennsylvania faculty among the academic ranks — assistant, associate and full professors — is balanced about evenly.

—The average teaching load for Pennsylvania faculty is about 10 hours per week, which is comparable to national loads.

—Faculty in the Commonwealth are not particularly inbred. Less than 20 percent have returned to their alma maters as teachers, and more than three-fifths earned

their highest degree outside Pennsylvania. —Women compose only 21.1 percent of the faculty in Pennsylvania, and they are less likely than men to be tenured or to be at the senior academic ranks.

In commenting on their findings in a report, "The Higher Education Faculty of Pennsylvania: Selected Characteristics," Dr. Leslie and Dr. Cressy point out that there are a number of differences among the institutions which they surveyed.

Eight categories of institutions were identified for the study: Research and doctoral-granting universities; doctoral granting universities; two types of comprehensive colleges and universities, distinguished by the number of professional programs of study they offer in addition to their liberal arts curricula; two types of liberal arts colleges, differentiated by their criteria for selecting students; community colleges; and professional schools and other specialized institutions.

Among these schools, the lowest average faculty age is found in the community colleges — 39.7 years. The highest is registered by the comprehensive institutions — 44.8 years. The latter also had a significantly higher concentration of tenured teaching faculty.

Overall, Dr. Leslie and Dr. Cressy found,

Pennsylvania faculty teach an average of 9.9 hours per week. The reported general work week in the state-related universities is 57.5 hours per week, as compared to a national norm of 55.6 hours.

The survey's authors also found that the best predictors of faculty rank and tenure were not sex but the number of years faculty had spent both in higher education and at their present institution, as well as how many degrees they had earned.

Societal factors, they conclude, are principally to blame for the present status of women in academe.

"Often, women are expected to disrupt their professional careers," they write, "in order to bear and raise children, or to support their husbands in getting their professional starts. As a result, women are more likely to become placeboard, attending graduate schools wherever their husbands happen to be located, stopping out short of the doctorate as their husbands change jobs and move, and subsequently accepting a faculty position wherever commuting to a college will permit. . . .

"As long as views and conditions such as these are maintained, little progress in equality among the sexes is likely to be achieved."

University Park Calendar

September 19-29, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday-Friday, September 19-20 — Library orientation for faculty, 9:35 a.m. and 2:20 p.m., Room E105 East Pattee.

Friday, September 20 — Sports: Freshman football, vs. Villanova, 3 p.m., Beaver Stadium.

Friday-Saturday, September 20-21 — Open house to celebrate Garfield Thomas Water Tunnel's 25th anniversary. Facilities will be demonstrated, Friday, 7 to 10 p.m.; Saturday, 8:30 a.m. to noon.

Friday, September 20 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 21 — Sports: Football, vs. Navy, 1:30 p.m., Beaver Stadium.

Women's golf, vs. Madison College, 10 a.m.

Sunday, September 22 — Chapel Service, 11 a.m., Music Bldg. recital hall. Captain John O'Connor, Chaplain U.S. Naval Academy.

Sunday, September 22 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, September 23 — Coed Flag Football tournament, 6:30 p.m. East Falls Field.

Tuesday, September 24 — Artists Series Film Festival, "Tormen", Ingmar Bergman, 8:30 p.m., Schwab.

Tuesday, September 24 — Faculty Women's Club and Newcomers' Club, fall reception, 7:30-9:30 p.m. Kern.

Tuesday, September 24 — Seminar on the use of psychology reference materials, 7 p.m., Room W106, Pattee Undergraduate Library.

Tuesday, September 24 — Sports: Soccer, vs. Hartwick, 7 p.m., Jeffrey Field.

Wednesday, September 25 — Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.

Wednesday, September 25 — FSHA 410 ancient Athenian dinner. Reservations needed, 5:30 p.m., Maple room.

Wednesday, September 25 — "Sambanza", color feature-length film from Africa, 7:30 p.m., Black Cultural Center, Walnut Bldg. Sponsored by the Center, the Liberal Arts African Studies Committee, and the Black Studies Program.

Friday, September 27 — Folk and Square Dance Roundup, 7:30 p.m., North Gym White.

Friday, September 27 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 28 — Artists Series, Marilyn Horne, soprano, 6:30 p.m., University Auditorium.

Saturday, September 28 — Sports: Cross country, vs. Villanova.

Sunday, September 29 — Chapel Service, 11 a.m., Eisenhower Chapel, Dr. Torrey Mobbey, chairman, Recreation and Parks.

Sunday, September 29 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

SEMINARS

Thursday, September 19 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. John Washko and John Shenk on "Russian Forage Production and Quality Research."

Thursday, September 19 — Chemistry, 12:45 p.m., Room 333 Whitmore. Tobin T. Marki, Northwestern University, on "New Developments in Organocatalytic Chemistry."

Thursday, September 19 — Environmental Problem Solving, 8 p.m., Room 105 Forum. Charles Eastman, Carnegie-Mellon University.

Thursday, September 19 — Physics, 3:45 p.m., Room 117 Osmond. Peter Bergmann, Syracuse and Yeshiva Universities, on "General Relativity on Quantization."

Thursday, September 19 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences.

Elliot Abrams on "Numerical Frogs: Boon and Bust."

Thursday, September 19 — Computer Science, 4 p.m., Room 101 Altohouse. Arnold Schonhage, Massachusetts Institute of Technology, on "The Production of Partial Orders."

Friday, September 20 — Statistics, 4 p.m., Room 104 McClister. Henry Block, Resnais Polytechnic Institute, on "Constant Multivariate Hazard Rate and Continuous Multivariate Extensions."

Monday, September 23 — Genetics, 3:55 p.m., Room 117 Tyson. Paul Grant, professor of cytology and cytogenetics, on "The Cytoplasmic Genetics of Vertebrate Cancers."

Monday-Tuesday, September 23-24 — Biometrics, 11 a.m., Room 101 Altohouse. Dr. Elliott S. Verdu, Milton S. Hersey Medical Center, on "Isozymes," "Metabolism of Drugs."

Tuesday, September 24 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Robert L. Kabel, Ag. chemical engineering and Center for Air Environment Studies, on "Sources and Natural Removal Processes for Some Atmospheric Pollutants."

Tuesday, September 24 — Natural Disasters, 2:20 p.m., Room 220 Willard. George M. Elsey, president, American National Red Cross, on "Problems of Post-disaster Relief."

Wednesday, September 25 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Keith Grime on "Microsampling Techniques for Atom Spectroscopy."

Thursday, September 26 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. John Washko, U.S. Regional Feature Research Lab. on "Agronomic Research in the British Isles and Switzerland."

Thursday, September 26 — Physics, 3:45 p.m., Room 117 Osmond. Kenneth G. Wilson, Laboratory for Nuclear Studies, Cornell University, on "The Renormalization Group — The Physicist's St. George."

Thursday, September 26 — Computer Science, 4 p.m., Room 101 Altohouse. Dr. L. Stokmeyer, IBM Thomas J. Watson Research Center, on "Some Simplifying NF-Complete Problems."

Thursday, September 26 — Natural Disasters, 2:20 p.m., Room 220 Willard. Joseph Golden, National Severe Storms Laboratory, Norman, Okla., on "Observational Studies of Tornadoes and Water Spouts."

Thursday, September 26 — Statistics, 4 p.m., Room 75 Willard. Betty Thorne, Capitol Campus, on "Linear Estimation in General Linear Models."

MEETINGS

Thursday, September 19 — Penn State Squadron 1303 Capt, 7:30 p.m., Room 104 Wagner.

Thursday, September 19 — Penn State Society of Student Social Workers, 7:30 p.m., Room 69 Willard.

Monday, September 23 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, September 23 — Education Student Council, 7 p.m., Room 111 Chambers.

Tuesday, September 24 — College of the Liberal Arts faculty, 3:30 p.m., Room 121 Sparks.

Tuesday, September 24 — College of Agriculture faculty, 4 p.m., Room 301 Ag. Adm.

Wednesday, September 25 — Penn State Mining Society, 7:30 p.m., Room 121 Mineral Industries. Bruce L. Wilson, Division of Island Creek Coal Company, on "An Overview of the Island Creek Coal Company with Special Emphasis on Mining Engineering Possibilities."

Thursday, September 26 — College of Arts and Architecture faculty, 4 p.m., Room 122 Music Bldg.

EXHIBITS

Museum of Art — Manyunk and Other Places: Francis Speight's paintings and drawings, Galleries A and C. Selections from the permanent collection, Gallery B. Free public tours Thursdays, 1:30 p.m.

Sackett Gallery — "Light," a show of architecture student work, through September 24.

Chambers Gallery — Pennsylvania Guild of Craftsmen, crafts, through September 26. Jeanne Stevens-Solman, drawings and ceramics, opening September 27.

Kern Gallery — Ralph G. Kaleshinski, sculpture, and Mary Martha Prod, paintings. Bob and Susan Duncan, oil paintings, opening September 9 through September 28. Peggie Lawson, pottery.

Hammond Gallery — Architectural Engineering Student Projects Exhibition.

Pattee Library — Student essays, through Sept., memorabilia of George Gilbert Pond.

FILM

Wednesday-Thursday, September 25-26 — Commonsplace Theatre, 8 and 10 p.m., Room 112 Kern. "The Dead Are Alive."

LECTURE

Thursday, September 19 — Priestley Lecture, 3 p.m., Room 112 Kern. Sir George Porter, Nobel laureate from The Royal Institution, London, on "Chemistry of the Excited State."

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Services, Room 101 Old Main, 410-1387, do not contact the area having the vacancy. Applications will be accepted until: 5 p.m., Oct. 3, 1974.

SASI COORDINATOR, DIVISION OF ADMISSIONS, RECRUITING AND SCHEDULING — University Park. Responsible for coordinating the ongoing activities of the section accounting for students' and instructors' program. Bachelor's degree in Oeta Processing, data analysis, a related area or equivalent, plus 6 months to one year of related experience.

MAINTENANCE FOREMAN — Ogonitz. Responsible for the maintenance, operation, repair, and preventive maintenance of the mechanical and utilities installations, building systems, and facilities at the Ogonitz Campus. Supervise Maintenance and Operations employees. Evaluate students graduate with advanced education in mechanical and/or electrical trades plus four to eight years related experience.

STAFF PHYSICAL THERAPIST — Hershey Medical Center. Responsible for the use of various modalities of treatment to include, diathermy, ultrasound electrical, exercise, etc. Evaluate patients assigned, determine need for particular modality or modalities, physical status, range of motion, functional level, degree of pain. Administer proper treatment considering all indications and contraindications for a particular treatment in relation to the patient's condition; also predict patient status after treatment by a technician. Institute patient records, documenting patient's physical status through course of treatment at the hospital. Schedule various patients assigned including those patients being treated by a technician. Institute patients in home programs such as general exercise, etc. Bachelor's degree or equivalent plus an additional one year formal training in physical therapy and at least five years of experience in physical and occupational therapy.

SENIOR PLANNING ANALYST, OFFICE OF BUDGET AND PERFORMANCE — University Park. Responsible to the Director of Institutional Re-

search and Planning for continuous monitoring of one or more major University planning and analysis functions; to carry out negotiations on University planning policies, procedures, and study development; develop and conduct major planning studies; make recommendations on policy and strategic considerations affecting University planning; serve as staff representative of the Office of Budget and Planning with various planning and study committees within the University; and plan and supervise development of data and preparation of statistical analysis; planning programming or related field's degree or equivalent in higher education or other education fields, business administration, public administration, economics, or related fields is required. An earned doctorate in one of these areas is preferred; in such cases, a minimum of one year of appropriate and related experience is required.

PRODUCTION-OPERATION SUPERVISOR (PENN STATE RADIO) CONTINUING EDUCATION — University Park. Responsible to Special Projects, Penn State Radio, for activities including planning, production and administering assigned Penn State Radio programs. B.S. degree or equivalent in English, journalism, radio/television or related field plus two to four years related experience in radio-television programming or related areas.

BUSINESS MANAGER — Altoona Campus. Responsible for the utilization of the resources of the Business Office, initiation of sound business practices, procedures and policies; supervise the accounting and budgeting affairs of the Campus; provide reports and information which may be requested. Master's degree or equivalent with one to two years related experience.

Hub specials

Sunday, Sept. 22 — dinner, baked ham w/peach, \$12.49, supper, hot roast meat sandwich, \$10.67.

Monday, Sept. 23 — lunch, American chop steak, \$9.92; dinner, beef stew w/biscuit, \$12.25.

Tuesday, Sept. 24 — lunch, grillid cheese sandwich, \$7.76; dinner, lasagna, \$12.25.

Wednesday, Sept. 25 — lunch, Canadian meat pie, \$11.77; dinner, chicken shortcake, \$13.35.

Thursday, Sept. 26 — lunch, Jo Mazzoli, \$9.15; dinner, Chicken with potatoes, \$12.99.

Friday, Sept. 27 — lunch, searburg on bun, \$10.11; dinner, stuffed shells w/cheese Marinara, \$14.27.

Saturday, Sept. 28 — lunch, chili, \$6.47; dinner, Salisbury steak w/biscuits, \$13.38.

Death

Dr. Howard W. Dunne, 61, professor of veterinary science, died Sept. 10. Internationally known for his work on swine diseases, he was named president of the International Porcine Veterinary Society this year. In 1971, he received the 12th International Veterinary Congress prize of the American Veterinary Society. Born in Omaha, Neb., he graduated from Iowa State's School of Veterinary Medicine and earned a Ph.D. in pathology from Michigan State. A member of the faculty since 1953, he headed the veterinary science research program and the large animal diagnostic laboratory. Dr. Dunne edited the book, "Diseases of Swine," served as chairman of the Research Section of the American Veterinary Medical Assn., and was on the editorial board of the American Journal of Veterinary Research.

Alard marks 20th season

The Alard String Quartet, resident at the University since 1962, will inaugurate its 20th anniversary season in concert Wednesday, Sept. 25, at 8:30 p.m. in the Music Bldg. recital hall.

Highlighting the concert will be a world premiere of a quartet in nine short movements by composer Rudolph Shackelford, "String Quartet No. 1."

In honor of the 20th season, the group, composed of Joanne Zagst and Donald Hopkins, violin, Raymond Page, viola, and Leonard Feldman, cello, will offer two pre-mieres during its fall season. Planned for a later concert is the first American performance of a work by Lithuanian composer Vytautas Juozapaitis.

Completing the program for Wednesday's concert are Hindemith's "String Quartet No. 2, opus 16" and a Dvorak composition for string quartet and piano, with Steven Smith, assistant professor of music, joining the Quartet.

The Alard Quartet was first formed at the Juilliard School of Music in 1954.

Funding opportunities

Call 865-1372 for more information.

(147-1) The Pennsylvania Water Resources Center of the Institute for Research on Land and Water Resources is currently accepting proposals for funding. Section assure that proposals conform to the Pennsylvania Water Resources Research Act of 1964. This Act (PL 379) authorizes the Secretary of the Interior "to match, on a dollar-for-dollar basis, funds available to institutions by States or other Federal Sources to meet the necessary expenses of specific resource research projects which could not otherwise be undertaken."

The funding program emphasizes water research that is broad in scope and categorically gives preference to studies of physical and engineering geology, economic alternatives relating to water and institutional arrangements relating to water resources. Highest priority will be given to proposals which deal with problems of recognition, planning, and management of water resources. Multidisciplinary and multi-state university proposals are being encouraged. The Pennsylvania Water Resources Center maintains liaison with representatives of the Delaware, Ohio, and Susquehanna River Basin Commissions. Any one interested in becoming involved in river basin or regional research studies should contact the Center.

Investigators are requested to discuss their research interests as soon as possible with the Water Resources Center to assure that proposals are compatible with the interests and missions of the Office of Water Research and Technology. Instructions to applicants and financial forms will be obtained from Dr. Arch J. McConnell, USGS and Water Research Bldg. In order to insure that proposals can be adequately processed, complete proposals must be received by October 16, 1974.

PENN STATE intercom

Volume 4, Number 4

September 26, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Senate report

A communication to the entire faculty from the University Faculty Senate, provided by the Senate Office. Inquiries may be addressed to Room 205 Willard.

The University Faculty Senate at its meeting Tuesday will consider proposed guidelines for actions on recommendations for faculty participation in University governance.

The guidelines were developed by the Senate Steering Committee on Governance and approved by the Senate Council.

According to Dr. Helen I. Snyder, they set forth the manner in which the Senate will deal with the 35 recommendations of the Joint Senate Administrative Select Committee on Faculty Participation in University Governance.

Under the guidelines, no report from a committee requiring Senate action shall be sent to the Senate before it has been reviewed by the Steering Committee and, subsequently, placed on the Senate agenda by the Senate Council.

Items to be discussed with the Senate by President John W. Oswald shall be reviewed by the Steering Committee and Senate Council prior to presentation to the Senate.

The guidelines also provide that:—Items within the Senate's purview shall be brought to the floor for action, with the relevant committee members prepared to participate in full Senate discussion of the proposal.

—The President will periodically report to the Senate preliminary plans and progress on the recommendations of the Governance Committee for which the President has responsibility for the initiative. These reports will be accompanied by an opportunity for discussion and questions from the Senate floor following normal forensic procedure.

—Items which are in the joint purview of the Senate and the President shall be brought to the Senate floor for discussion as an informational report prior to implementation.

Under the guidelines, amendments may be made in two ways:

1. When a report is sent to the Steering Committee and, thence, to the Senate Council, any senator may request opportunity to present an amendment to that group.

If the amendment is of such a substantive nature that the report, as a whole, would be markedly changed, the report may be sent back to the initiating committee. If not, the amendment may be attached as an appendix when the Senate agenda is circulated, and action can occur at that Senate meeting.

The Steering Committee said this route is particularly intended to provide a means for minority reports from the initiating committee to be considered by the entire Senate.

2. When the report is circulated via the Senate agenda, any senator may submit in writing a proposed amendment to the Senate Office four days before the Senate meeting.

The report will be presented at the designated meeting with an appendix containing the amendment. Action will be delayed until a following Senate meeting.

Trustees approve Faculty Club sketch plans

Sketch plan shows front view of Faculty Club.

Sketch plans for the Faculty Club to be constructed at the University have received the approval of the Board of Trustees.

The building, as designed by Venturi and Rauch, Philadelphia architects, will be located adjacent to the Nittany Lion Inn, to the north of the Inn.

With an estimated 12,000 square feet of floor space, the building will have a main floor at ground level and also a floor below ground level. The exterior will be done in the shingle style of the late 19th century.

Included in the building will be a reception and lounge area, dining facilities, and a series of meeting rooms also available for use as dining facilities.

The annual meeting of the Club Corporation will be held Wednesday, Oct. 2, at 8 p.m. in 101 Kern Bldg. Club President Richard Schein will discuss the plans at that meeting which will be open to members and non-members.

Louis P. Inesra, associate professor of architecture, served as chairman of the architect selection committee, and Robert H. Gray, professor and head of the Department of Art, heads the committee working with the architect.

First Althouse lecture slated

The first annual Dr. Paul M. Althouse Memorial Lecture at the Hershey Medical Center will be delivered Wednesday, Oct. 2, by Dr. Paul Berg, nationally recognized biochemist from Stanford University.

The lecture, slated at 4 p.m. in the Hospital Auditorium, is open to all interested persons. Dr. Berg's topic will be "Molecular Anatomy of a Viral Chromosome."

The lectureship, established in February, honors Dr. Althouse, Provost of the University at his death in 1972 and previously a professor of biochemistry, director of general education and vice-president for academic affairs.

The series was made possible through contributions to the Althouse Memorial Fund and by a matching gift from the Althouse family.

Dr. Berg, who is Jack Lulu and Sam Wilson professor of biochemistry at Stanford's College of Medicine, is a 1948 graduate of Penn State and in 1972 was named a distinguished alumnus. His work on the genetic apparatus that directs the synthesis of proteins earned Dr. Berg an Eli Lilly Award in 1963.

Funds assigned

The Trustees have approved the allocation of \$50,000 in undesignated funds in the Office of Gifts and Endowments for a number of educational and campus development projects. They include:

\$30,000 to support Graduate School Distinguished Lecturers in 1974-75 and 1975-76; \$7,000 for support of an informational tape program explaining the requirements and opportunities in the various associate degree programs; \$5,000 for a pre-planning meeting for a National Conference on Sport as a Humanistic Activity to be held in Spring, 1976.

\$25,000 for a life-support vehicle for the Medical Center to implement health care for newborn patients in Central Pennsylvania; \$10,000 to develop a nature trail and/or outdoor pavilion on the Berks Campus.

New College of Education Dean named

Dr. Henry J. Hermanowicz, dean of the College of Education at Illinois State University since 1966, will become dean of the College of Education and professor of education at the University, effective Dec. 1.

Dean Hermanowicz

He succeeds Dr. Abraham W. Vander Meer, who retired on Aug. 1, 1973. Since that time, Dr. G. Lester Anderson has been serving as acting dean. Effective immediately and continuing until Dec. 1, Dr. Edwin L. Herr, professor of education and acting

assistant dean for graduate studies, will serve as interim dean.

President Oswald said he was very pleased with the appointment of Dr. Hermanowicz and expressed his appreciation to Dr. Anderson for his outstanding service as acting dean in a very important year of self-study and planning within the College.

Dr. Hermanowicz joined the faculty at Illinois State in 1959 after having served as assistant director of research at Field Enterprises Educational Corp. in Chicago, Ill.

According to Provost Russell E. Larson, under Dr. Hermanowicz, the College of Education at Illinois State moved from near total emphasis on the training of teachers to a position of strength in graduate training. Several of the master's and doctoral programs achieved national recognition, as in the case of special education and educational administration.

A graduate of Northern Illinois University at DeKalb, Dr. Hermanowicz received his D.Ed. in teacher education, curriculum and instruction at Teachers College, Columbia University. He also studied at Northwestern University, the University of Chicago, and did post-doctoral work at the University of Illinois. His professional interests are in curriculum theory, teacher education and collegiate administration.

News in brief

CORWIN AWARD

Dr. James E. Radcliffe has won the national Edward S. Corwin Award for the dissertation he submitted to obtain his 1973 Ph.D. in political science. His thesis on "The Case or Controversy Provision — How Limited is the Political Role of the Federal Courts?" was supervised by Dr. Ruth C. Silva, professor of political science. The Corwin Award was made for the best doctoral dissertation completed during 1972 or 1973 in the field of public law. Dr. Radcliffe is now associate professor of political science at Shippensburg State College.

CALCULATORS AVAILABLE

Faculty members whose students require the use of calculators are reminded that Listening-Learning Services has a new electronic desk calculator laboratory in Rooms 6 and 7 Sparks Bldg. These calculators are available for use, free of

charge, by faculty and students. They may be used for class meetings or individual study; however, in Room 7, class meetings will be given priority. To allow sufficient time for distributing schedules, instructors wishing to use the 28 stations in 7 Sparks for group meetings should contact Listening-Learning Services (865-1325), preferably at least one week in advance. Calculators available are the Monroe Models 1930 and 1920. Rooms 6 and 7 Sparks are open Monday through Friday from 8:30 a.m. to noon and from 1 to 4:30 p.m. Both rooms will also be open Sunday through Friday evenings from 7 to 10 p.m.

BUSINESS SURVEY

The "Pennsylvania Business Survey," a periodical report of economic conditions in the Commonwealth, is available free to interested faculty and administrators at University Park and the Commonwealth Campus.

(Continued on page 2)

Deaths

Robert S. Clark, retired Huntingdon County agricultural agent, died Sept. 15 in Huntingdon. He was 78. A native of Richlandtown, he was appointed to the University's Cooperative Extension Service staff in 1919 as Huntingdon County agent and served in that position until his retirement in 1956. Mr. Clark was graduated from Penn State in 1918 with a degree in agriculture. In 1925 he was awarded a master's science degree from the University of Minnesota. He received a distinguished service award in 1949 from the National Association of County Agricultural Agents in recognition of outstanding service to agriculture.

John H. Seeton, a member of the Board of Trustees, died Sept. 12 at his home in Springfield. He was 61. President of the Pennsylvania Manufacturers Association, he was elected to the Board in June, 1973, by delegates from industrial societies. Mr. Seeton, who attended Penn State, was involved in employment of the handicapped and had served as president of the Pennsylvania Rehabilitation Association. He also was an active member of the Governor's Committee on Employment of the Handicapped and the President's Committee on Occupational Safety.

Appointment

Frederick J. Close II, of North Madison, O., who served until last June as a Trustee of the University, has been appointed to the Board to fill the unexpired term of John H. Seeton. Mr. Close, who will serve until June 30, 1976, is a 1928 graduate of the University and was named a Distinguished Alumnus in 1961. He served as chairman of the Board of Directors of the Aluminum Company of America from 1966

until his retirement in 1970, pioneering many of the world's architectural uses of aluminum.

Honors

Dr. John O. Altmquist, professor of dairy physiology, has been presented the Animal Physiology and Endocrinology Award of the American Society of Animal Science. He received \$1,000 and a plaque. Internationally known for his work in artificial breeding and reproductive physiology of dairy and beef cattle, Dr. Altmquist has been in charge of the Dairy Breeding Research Center since its establishment in 1949.

Dr. Barton W. Browning, assistant professor of German, has been appointed to the Editorial Board of "Colloquia Germanica," an international journal for Germanic studies published in Bern, Switzerland. Dr. Browning's duties will include reviewing articles submitted to the publication in the field of both Baroque and 19th century Austrian literature. He will also review new publications in these areas. The Editorial Board includes scholars in the field of German literature from nine different countries.

Dr. William E. Caldwell, executive director of the Pennsylvania School Study Council and professor of education, has been appointed to membership in the National Labor Panel of the American Arbitration Association. He has been active in the area of collective bargaining and impasse resolution for the past 15 years. His services have been used by the Pennsylvania Labor Relations Board and the Pennsylvania Bureau of Mediation as a fact-finder and arbitrator under Act 195, and he has been successful in resolving conflicts between teachers and government workers and their employers.

Dr. James M. Slocum, Jr., professor of organizational behavior, was elected president of the 800-member Organizational Behavior Division of the Academy of Management at the Academy's 34th annual meeting in Seattle, Wash. He is also president-elect of the Academy's Organizational Theory and Management Division.

In writing

The second edition of "Strategies for Political Participation," co-authored by **Dr. James Eisenstein**, associate professor of political science, has been issued by Winthrop Publishers, Inc. The paperback attempts to provide students in introductory American government courses with an explicit discussion of political participation as it relates to them. Both theory and practice are illuminated, and the costs and benefits of involvement assessed. In addition to Dr. Eisenstein, the book was co-authored by Frank Kendrick, University of Akron; Theodore Fleming, Wayne State University; and James Burnhart, Stephens College.

Dr. Frederick R. Eisele, assistant professor of social policy, is editor of the September volume of "The Annals of the American Academy of Political and Social Science." The volume, which is devoted to the "Political Consequences of Aging," contains articles contributed by academicians in fields relating to aging and public policy. Dr. Eisele also contributed a preface.

The first issue of a new journal, "Cahiers Césaires," founded and co-edited by **Dr. Thomas Hale**, assistant professor of French at the University, has just been published. Its other editor, Lilian Kesteloot, currently UNESCO professor of African literature at the University of Dakar, Senegal, is the

world's leading scholar on Aimé Césaire, to whose life and works the journal is devoted. Césaire is an Afro-Caribbean poet, playwright, and essayist from Martinique, where he also engages in political activities, serving as mayor of Fort-de-France and as a representative to the French National Assembly in Paris. He invented the term "negritude" to describe the Black cultural movement launched by Africans and West Indians in Paris in the 1930's and is considered by many scholars to be the leading Black writer of French expressionism in the world today.

Howard R. Lawrence, assistant professor of architecture, is the author of "Basic Design Process and Visual Communication Products," the first book of a two-volume text written under the sponsorship of the University's Department of Architecture and the Laboratory of Environmental Design. A second book, consisting of a bibliography of sources on the same subject, is expected to be published early next year. The current volume is organized with a schedule for instruction and many of illustrations. To facilitate opaque projection and provide space for notes, it is printed on only one side of each page. The appendix presents a computer grading format for the course.

"A Random Walk in Science" by **Dr. Robert L. Weber**, associate professor of physics, has been selected by Britain's National Book League as one of the year's 76 best books for design and function. An anthology of scientific humor, the book was originally published for the scientific community by Crane, Russak & Co., Inc., and was selected by the Macmillan Library of Science Book Club. A second printing is scheduled for the general public.

NEWS IN BRIEF—

(Continued from page 1)

puses. Published by the Center for Research on the College of Business Administration, it is based on a statistical analytical program supervised by **Dr. Ned Shilling**, associate director of the Center. Monthly analyses of significant changes in Pennsylvania's economy are compared with national changes. Also featured are quarterly analyses of changes in the "little economies" of 13 major Pennsylvania metropolitan areas. Annual reviews and short-run forecasts are prepared for Pennsylvania and each metropolitan area. The "Survey" may be obtained from the Center, 801 Business Administration, University Park. Present subscribers must indicate their desire to have their subscriptions renewed.

CAPITOL COURSE

With the opening of fall classes Oct. 2 at Capitol Campus, a new undergraduate course of studies, Law and Society, will be offered. The curriculum, according to coordinator **Dr. Robert Bresler**, will cover the criminal justice system, urban studies, discrimination and minority groups, and law and social problems.

SCHUYLKILL SHOWS

A series of public exhibits by local craftsmen and artists will be held at the Schuylkill Campus during the next four months. Sponsored by the Cultural Affairs Committee and the Campus Library, the exhibits will feature 15 individuals who will show weavings, sculpture, paintings, photography, etchings and pottery.

BOWLERS WANTED

The University's Faculty and Staff Bowling League is looking for bowlers (individuals or teams) who would like to bowl Friday nights at 6:30 p.m. Anyone interested should call **Bob Woods** or **Mike Billett** at 865-1741. The current season runs through April at the Recreation Bldg. lanes.

SPEIGHT FILM

A 30-minute color film on the life and work of painter Francis Speight will be shown every Thursday in conjunction with the free public tours at 1:30 p.m. in the Museum of Art at the University. What the painter sees and how he paints his visualizations are considered in the film on Speight, the subject of "Manyakun and Other Places" on view in Galleries A and C of the Museum through Oct. 27.

CHILDREN'S CLASSES

Two creative drama classes for children enrolled in either morning kindergarten or

fifth and sixth grade will be offered in the Department of Theatre and Film beginning Monday, Sept. 30. The seven-week course, which provides a laboratory experience for students preparing to be creative drama teachers, will be held every Monday and Wednesday. Kindergarten age children may attend the class in Room 6 Arts Bldg. from 2:30 to 3:15 p.m.; children in fifth and sixth grades, from 3:45 to 4:45 p.m. An equal number of girls and boys may be registered by calling the Theatre and Film Department, 865-7586. Enrollment is limited and there is no fee.

QUINTET CONCERT

A varied selection of wind quintets by five composers are planned for the first fall concert by the Claremont Woodwind Quintet Wed., Oct. 2, at 8:30 p.m. in the Music Recital Hall. Quintet members **Smith Toulson**, clarinet, **Overda Page**, flute, **Christen Dole**, French horn, **Gregory Donovetsky**, oboe, and **William Dole**, bassoon, all of the music faculty, will perform an early quintet by Beethoven con-temporary Anton Reicha. Also scheduled are works by contemporary composers **Bozza**, **Persichelli**, and **Bergama**, including the latter's "Concerto for Wind Quintet" which features interesting solo passages and portions for groupings within the basic quintet scheme.

RENAISSANCE DIRECTOR

Arthur M. Wellington, professor of counselor education, has been named director of the Renaissance Scholars Program of the University. He had previously served on the Committee on Renaissance. The Renaissance Fund was initiated in 1970 by five members of the Board of Trustees to signify a "rebirth" of effort to provide financial aid for capable disadvantaged students. Seventy students have benefited from the Fund since its inception.

INTERCOLLEGE PROGRAM

An intercollegiate graduate program on energy sources and utilization has been approved by the Trustees as a joint venture of the College of Earth and Mineral Sciences and the College of Engineering.

The program, leading to the master's of science degree, is designed to make use of established graduate programs directly involved in some technical aspects of the energy problem. Its primary appeal will be to those who have the bachelor of science degree and see the value of another year of study to develop technical expertise in the energy field.

VADD insurance options opened

Since 1964, the University has offered a voluntary plan of accidental death and dismemberment insurance to all regular faculty and staff members. The plan provides optional amounts of insurance ranging from \$10,000 to \$150,000 and also provides accidental death and dismemberment coverage for dependents.

The month of October is the period when membership in this plan may be changed. One or more of the following actions may be taken during the month: (1) change the dollar amount of insurance coverage; (2) change from individual coverage to family coverage or vice-versa; (3) enroll in the plan as a new member; (4) withdraw from the plan.

To accomplish any of the above changes, obtain and complete a new VADD enrollment card from your dean or administrative office and send it to the Employee Benefits Division, 133 Willard Bldg., by

October 31. All changes received by that date become effective November 1.

If you should wish to check your present coverage, examine the section of your paycheck stub marked "VADD." The deduction will indicate the amount of coverage you have.

Coverage	Monthly Deduction	Diversity Deduction
\$ 10,000	\$.50 single	\$.23 single
	\$.75 family	\$.33 family
\$ 25,000	\$ 1.25 single	\$.57 single
	\$ 1.75 family	\$.80 family
\$ 50,000	\$ 2.50 single	\$ 1.15 single
	\$ 3.50 family	\$ 1.61 family
\$ 100,000	\$ 5.00 single	\$ 2.30 single
	\$ 7.00 family	\$ 3.23 family
\$ 150,000	\$ 7.50 single	\$ 3.46 single
	\$ 10.50 family	\$ 4.89 family

If you are unable to check in this manner, information about your coverage may be obtained from the Employee Benefits Division.

Berks Campus organizes Institute

A notable, new step toward involving a Commonwealth Campus in community affairs has been taken at Berks with the organization of an Advisory Council for the recently formed Institute of Community Affairs (ICA).

A cross section of 72 Berks County residents has been invited to join the Council, including representatives from education, business, industry, labor, and religious and civic groups. Elected officials from Berks County townships and boroughs, along with State legislators, members of the Reading City Council, and Berks County Commissioners have also been asked to serve.

The Institute hopes to undertake a three-fold mission of public service, applied research and continuing education to benefit

all the citizens of Berks County, according to its program director, **Dr. Douglas J. Grandquist**.

Its primary public service function will come in the area of research and community organization, including conferences, workshops and seminars aimed at assisting citizens and elected officials in community planning and development.

Plans also call for developing task forces consisting of community representatives with knowledge of a particular area to assist ICA in undertaking selected projects of significant benefit to Berks County.

ICA will serve, in addition, as a clearinghouse for information and as a convenor of meetings, collecting information which bears on local issues from studies undertaken in various parts of the country.

1,100 students now enrolled by EOP

There are now 1,100 students, 60 percent of whom are black, enrolled in the Educational Opportunity Program (EOP) at the University, according to a report by **Ralph Hetzel**, chairman of the Trustee Committee on Educational Policy.

Of these students — 600 enrolled at University Park, 500 at the Commonwealth Campuses — 30 percent are white, 5 percent have Spanish surnames, and 5 percent are listed as "other." In addition to the 60 percent who are black.

Other information concerning the student includes:

- The overall academic average of EOP students during the Spring Term was 2.35, out of a possible 4.00.
- The 90 EOP students who were graduated in June marked the first significant number of EOP graduates at Penn State.
- The Colleges of Education, the Liberal Arts and Human Development enroll the largest numbers of EOP students.
- EOP students admitted for the current Fall Term number 407, with 151 enrolled at University Park.

University Park Calendar

September 26-October 6, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Friday, September 27 — Folk and Square Dance Roundup, 7:30 p.m., North Gym, White.

Friday, September 27 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, September 28 — Artists Series, Marilyn Horne, soprano, 8:30 p.m., University Auditorium.

Saturday, September 28 — Sports: Cross country, vs. Villanova.

Sunday, September 29 — Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Tony

A. Mobley, chairman, Recreation and Parks.

Sunday, September 29 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, September 30 — Women's field hockey, vs. Slippery Rock, 2:30 p.m.

Monday, September 30 — Gamma Pi Epsilon program on "Addiction and Rehabilitation" by speakers from "On Drugs," 8 p.m., McElwain Hall piano lounge.

Tuesday, October 1 — "Emilia," color feature-length film from Senegal, 7:30 p.m., Black Cultural Center, Walnut Bldg. Sponsored by the Center, the Liberal

Arts African Studies Committee and the Black Studies Program.

Wednesday, October 2 — Claremont Woodwind Quintet, 8:30 p.m., Music Bldg. recital hall.

Wednesday, October 2 — Reception to honor Dr. Luis Albert Sanchez, 3-5 p.m., Rare Books Room, Pattee. Public invited.

Wednesday, October 2 — Free-University course registration, 9 a.m.-10 p.m., HUB ballroom.

Thursday, October 3 — Sports: West German Women's National Volleyball Team vs. U.S.A. Eastern Zone National Team,

8 p.m., Rec Hall.

Friday, October 4 — Artists Series, Winter Consort, 8:30 p.m., Schwab.

Saturday, October 5 — Paul Winter, Ives program, 8:30 p.m., HUB ballroom.

Sunday, October 6 — Chapel Service, 11 a.m., Eisenhower Chapel. Sister Beverly Stanton, Campus Ministry, Morgan State College.

Sunday, October 6 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 6 — Sigma Delta Epsilon, 2:30 p.m., Room 102 Kern. Talk on job opportunities.

SEMINARS

Thursday, September 26 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Gerry Jung, U.S. Regional Feature Research Lab, on "Agronomic Research in the British Isles and Switzerland."

Thursday, September 26 — Physics, 3:45 p.m., Room 117 Osmond. Kenneth G. Wilson, Laboratory for Nuclear Studies, Cornell University, on "The Renormalization Group — The Physicist's St. George."

Thursday, September 28 — Computer Science, 4 p.m., Room 101 Althouse. Dr. L. Stockmeyer, IBM Thomas J. Watson Research Center, on "Some Simplified NF-Complete Problems."

Thursday, September 26 — Natural Disasters, 2:20 p.m., Room 220 Willard. Dr. Joseph Golden, National Severe Storms Laboratory, Norman, Okla., on "Observational Studies of Tornadoes and Water Spouts."

Thursday, September 26 — Mathematics, 4 p.m., Room 102 McAllister, N. Grossman, on "On the Problem of Atmospheric Refraction."

Thursday, September 26 — Statistics, 4 p.m., Room 75 Willard. Betty Thorne, Capital Campus, on "Linear Estimation in General Linear Models."

Thursday, September 26 — Nuclear Engineering, 4 p.m., Room 111 Breazeale Nuclear Reactor. John L. Wise, chief engineer, Field Startup and Test Department, Gilbert Associates, Inc. Reading, Pa., on "Startup and Testing of Nuclear Power Plants."

Monday, September 30 — Environmental Problem Solving, 8 p.m., Room 105 Forum. Mike Brill, architect and environmental design, State University of New York at Buffalo, on "Everything You Always Wanted to Know about Systems, but Were Afraid to Ask."

Monday, September 30 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Richard Woodward on "The Symbiotic Theory:

One Explanation of Mitochondria and Chloroplast Origin in the Eukaryotic Cell."

Monday-Tuesday, September 30-October 1 — Biochemistry, 11:10 a.m., Room 101 Althouse. Thomas Smyth, entomology, on "Chemical Synapses — In Retrospect," "Chemical Synapses — Prospectus."

Tuesday, October 1 — Comparative Literature, 12:15 p.m., Beaver Room, Hotel State College. Dr. Luis Albert Sanchez, writer-political-educator.

Tuesday, October 1 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Douglas M. Whelpdale, Atmospheric Environment Service, Downsview, Ontario, on "Pollutant Removal at the Earth's Surface."

Wednesday, October 2 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Robert Goldberg, National Bureau of Standards, on "Bioanalytical Applications of Heat Measurements."

Thursday, October 3 — Natural Disasters,

2:20 p.m., Room 220 Willard. Dr. Barry L. Myers, business law, on "Legal Controls in Flood-Prone Areas."

Thursday, October 3 — Agronomy, 3:45 p.m., Room 111 Tyson. Dr. Rulus Cheney, USDA, Washington, D.C., on "Heavy Metal Contamination in Soils via Waste Disposal."

Thursday, October 3 — Physics, 3:55 p.m., Room 117 Osmond. Helmut Fritzsche, James Frank Institute, University of Chicago, on "Amorphous Semiconductors."

Thursday, October 3 — Chemistry, 12:45 p.m., Room 333 Whitmore. John Ross, M.I.T., on "Chemical Instabilities."

Thursday, October 3 — Acoustical Society and Engineering Acoustics Graduate Program, 4 p.m., Room 71 Willard. Dr. Francis Frenkel, Westinghouse Corp., on "Present Trends in Nonlinear Acoustics."

Thursday, October 3 — Mathematics, 4 p.m., Room 102 McAllister, N. Grossman, on "Examples of Bang-Bang Controls in Infinite Dimensions."

LECTURE

Wednesday, October 2 — First annual Paul M. Althouse Memorial Lecture, 4 p.m., HUB ballroom, Hershey Medical Center. Dr. Paul Berg, Stanford University, on "Molecular Anatomy of a Viral Chromosome."

Thursday, October 3 — Dr. Luis Alberto Sanchez, Peruvian writer-political-educator, 8 p.m., Room 101 Kern, on "Literature and Politics of the APRA Political Party."

MEETINGS

Thursday, September 26 — College of Arts and Architecture faculty meeting, 4 p.m., Room 122 Music Bldg.

Thursday, September 26 — USG Senate, 7 p.m., Room 213 HUB.

Thursday, September 26 — Student Affairs, 4 p.m., HUB assembly room.

Monday, September 30 — Council of Exceptional Children, 7 p.m., Room 169 Willard.

Monday, September 30 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, September 30 — Colloquy, 8:15 p.m., Room 203 HUB.

Tuesday, October 1 — Faculty Senate, 2:10 p.m., Room 112 Kern.

Tuesday, October 1 — ARHS, 7:30 p.m., Room 309 Bouck.

Wednesday, October 2 — AWS, 7 p.m., Room 203 HUB.

Wednesday, October 2 — Penn State Faculty Club Annual Meeting, 8 p.m., Room 101 Kern.

OFFICIAL

Thursday-Saturday, September 26-28 — Preregistration for Winter Term.

Thursday-Saturday, September 26-28 — File for Repeat Course.

Monday, September 30 — Preregistration deadline for Winter Term.

Monday, September 30 — Deadline for filing Course Drops.

Monday, September 30 — File for Pass/Fail.

Monday, September 30 — Deadline for filing Course Repeat.

Friday, October 4 — Deadline for application for Winter Term Tuition Grants-in-Aid, Room 317 Kern.

EXHIBITS

Museum of Art — Manyunuk and Other Places: Francis Speight's paintings and drawings, Galleries A and C. Selections from the permanent collection, Gallery B. Free public tours Thursdays, 1:30 p.m.

Chambers Gallery — Jeanne Stevens-Solman, drawings and ceramics, opening September 27.

Kern Gallery — Ralph G. Kaleschski, sculpture, and Mary Martha Proud, paintings, through September 28. Peddie Lawson, pottery, through September 30. Bob and Susan Duncan, oil paintings, opening September 29.

Hammond Gallery — Architectural Engineering Student Projects Exhibition, through September 29.

Pattee Library — Central foyer, memorabilia of George Gilbert Bond, through September 30.

FILM

Thursday, September 26 — Commonsplace Theatre, 8 and 10 p.m., Room 112 Kern. "The Dead Are Alive."

Wednesday, October 2 — Commonsplace Theatre, 8 and 10 p.m., Room 112 Kern. "To Have and Have Not."

Artists Series offers Horne, Winter

Two Pennsylvania natives, Marilyn Horne and Paul Winter, are featured in Artists Series events this week and next.

Miss Horne, soprano star of the Metropolitan Opera, La Scala, Covent Garden, and the Chicago Lyric, will sing Saturday night, Sept. 28, at 8:30 p.m., at University Auditorium as the first performer in the 1974-75 Music Series. Her program includes a Handel aria from "Semele," another aria to be announced, and pieces from Henry Purcell, Schumann, Debussy, and Dvorak.

The Paul Winter Consort, co-sponsored by the Artists Series and the Penn State Jazz Club, will be here for a three-day visit, Thursday through Saturday, Oct. 3-5. They will present free workshops, a section of improvisation open to "anyone who plays

any instrument, no matter how well," an evening of Charles Ives music Oct. 5 at 8:30 p.m. in the HUB ballroom, and a more formal Artists Series concert Oct. 4 at 8:30 p.m. in Schwab Auditorium.

Winter's group uses more than 100 musical instruments from dozens of cultures in the performance of music that has elements of rock, jazz and classical music. This season, the Altona native is using a combination of alto saxophone, keyboard, cello and "drums and things" for much of his music.

Tickets for the Horne concert or the entire Music Series will be available weekdays from 9 a.m. to 4 p.m. and Saturday from 10 a.m. to noon at University Auditorium and the HUB, or at the door one hour before the performance if not sold out beforehand.

Campus to host Danish gym team

The internationally acclaimed Danish Gym Team will appear Tuesday, Oct. 8, at 8 p.m. in the gymnasium of the Worthington Scranton Campus, under the sponsorship of the Art and Lecture Series at the Campus.

The performers on the team were selected from among the many skillful gymnasts Denmark produces. Their demonstrations include a variety of modern Danish gymnastics for women and men and a selection of Danish folk dances, for which they wear colorful native costumes. Most of the program is accompanied by music.

Tickets for the performance may be reserved by contacting Richard N. Barshinger, assistant professor of mathematics and chairman of the Art and Lecture Series, at (717) 861-4784 or (717) 563-2205. A limited number of tickets will be available at the door on the evening of the performance.

Tickets for Paul Winter's Schwab Auditorium concert go on sale Oct. 1 in the HUB at the same hours. All other events in the Winter residency are either free or cost 50 cents at the door.

The Artists Series has announced that its 1974-75 Theatre/Dance Series is sold out. However, persons who wish to see Agnes De Mille's Heritage Dance Theatre, the Royal Shakespeare Company, "Don Juan in Hell" or the Martha Graham Dance Company may buy tickets to second performances, which are classed as Special Events. These tickets will go on sale shortly after each event.

HUB specials

Sunday, Sept. 29 — dinner, roast pork/ apples, \$1.71; supper, lasagne, \$1.22.

Monday, Sept. 30 — lunch, grilled cheese sandwich, \$1.76; dinner, beef liver w/onions, \$1.23.

Tuesday, Oct. 1 — lunch, spaghetti w/meat sauce, \$3.92; dinner, meatloaf w/potato bake, \$1.08.

Wednesday, Oct. 2 — chicken skewe main w/rice, \$9.11; dinner, Salisbury steak w/blue cheese dressing, \$1.33.

Thursday, Oct. 3 — lunch, stuffed french w/bun, \$3.83; dinner, stuffed frank steak, \$1.66.

Friday, Oct. 4 — lunch, fishweek w/bun, \$1.05; dinner, French fried calves, \$1.34.

Saturday, Oct. 5 — chili, \$5.4; dinner, spaghetti w/meat sauce, \$1.17.

Funding opportunities

Call 865-1372 for more information.

September 26, 1974

(14-1) Engineering faculty at the assistant or associate professor level with no prior substantial research support may apply for research funds to the College Research Initiative Program of the National Science Foundation. Those faculty who have earned their doctorates in 1913 or 1914 or have completed all requirements by Dec. 31, 1974, are eligible for campus-based research or for cooperative work with industrial, governmental or private research units. Special opportunities are available in key scientific areas such as energy, environment, food, natural hazards, natural resources and productivity, although proposals are accepted in any area of engineering. Awards of up to \$35,000 will be made for two-year, nonacademic projects. The application deadline is Oct. 2, 1974, with a mid-March, 1975, award announcement. The program is administered by the Engineering Research Initiative Program, NSF, Washington, D.C. 20505 (DD-032-5851).

(14-2) Teachers of undergraduate students in the natural and social sciences, mathematics and engineering are eligible to enroll in National Science Foundation Challenge-Type Short Courses conducted by the American Association for the Advancement of Science. The sessions are in two parts of two days each. The first session is in October and November and the second in February and March. A list of courses, field centers and class schedules is available for the three circuits—Eastern, Central and Western. Each circuit has four field centers. Application forms are available from field center coordinators.

(14-3) Materials for grant applications under Title I of the Higher Education Act of 1965 for Continuing Education, Community Service and Adult Education are available from George Speerly, Jr., or J. William Jacobs, 505 Keller, 865-0455. Programs should be designed to provide continuing education to adult citizens enabling them to gain new knowledge to rejoin the community. Present priorities are manpower shortage in the allied health field, adult counseling needs, improvement in local government and environmental protection. Funding requests 1/3 institutional matching. The Pennsylvania Dept. of Education deadline is Nov. 1, 1974. Early contact with Speerly or Jacobs is recommended. Materials are available distributed (Ref. E.B.T. Memo, Title I FY 1975, 8/20/74).

(14-4) Institute of International Education has announced several awards for U.S.S.R.-related study-abroad programs. The U.S.S.R. program is opened to end-of-career-music scholars as well as preclerical artists. Belgium is particularly attractive to students with degrees related to the American Bicentennial, modern media tools, and evaluation of educational systems. The application deadline for Fulbright Awards is Sept. 30, 1974. Interested persons should consult Gen. B. F. Howell, Jr., 317 Kern Bldg.

(14-5) Danforth Foundation (222 S. Central Ave., St. Louis, Mo. 63105) will again offer 3-year fellowships for 1975-76 to exceptionally qualified seniors and recent graduates planning graduate study as preparation for a teaching career. Applicants must be nominated by the Graduate

School. Applicants are evaluated on intellectual ability and breadth, teaching potential and evidence of a concern for the relations of ethical or religious values to disciplines, the educational process and to academic and social responsibilities. Preference is given to students in the humanities, arts and to academic and social responsibilities. Preliminary and fees plus discretionary allowance. GRE scores are required no later than the Oct. 26 examination (Oct. 3 registration deadline). A preliminary application including complete college transcripts, three letters of recommendation, a vita, and a statement of career and lifetime goals must be submitted to the Fellowship Office, 317 Kern Graduate Bldg., by Oct. 29, 1974, to be considered for nomination. For further information, consult the fellowship office or write to the address above.

(14-7) A New Research Tools Program has been announced by the National Endowment for the Humanities to support the development of new research references for the humanities such as bibliographies, indexes, directories, and catalogs. Small grants in the \$10 to \$15,000 range are awarded prior to formal proposals for surveys and feasibility studies. There are no deadline dates for small grant proposals. Regular proposal deadlines are Nov. 18, 1974, and May 6, 1975, with a request for advance draft proposal submission requested when possible. For information and application procedures, contact: Research Tools Program, Division of Research Grants, NEH, Washington, D.C. 20505 (202-363-9359) (Ref. NEH memorandum 8/28/74).

(14-7) The National Cancer Institute's Cancer Control Program (CCP) supports grant programs to identify, field test, evaluate, demonstrate and promote the widespread application of methods and techniques for reducing cancer incidence, morbidity and mortality. CCP does not support basic

and clinical research, except in rehabilitation. Program activity is divided into: (1) prevention (including making people responsive to prevention efforts); (2) detection, diagnosis, and pre-treatment evaluation; (3) treatment, including diagnostic design and assessment of screening-detection systems; and (3) treatment, rehabilitation and continuing care (including psychosocial, counseling and nutritional). Research in the areas of epidemiology, statistics and techniques to refine same are desired. Applications (NIH 398) must be received by Nov. 1, 1974. Subsequent deadline dates are Feb. 1, 1975, and June 1, 1975. Direct inquiries to: Dr. Diane Kirk, Assoc. director for cancer control, Room 732, Biostat Building, 8300 Colesville Rd., Silver Springs, Md. 20912 (301-677-7998) (Ref. NIH Guide Announcement 8/14/74).

(14-7) The Office of Education has announced an Oct. 15, 1974, final closing date for receipt of applications for competitive continuation grants under its Handicapped Physical Education and Recreation Training (CFDA 13-481) and its Handicapped Teacher Education (CFDA 13-451) programs (Part 0 of the Education of the Handicapped Act, 20512). This information has been distributed (Ref. 39FR32570, 9/9/74).

(14-7) The WAS-CAS General (320 S. 19th St., Philadelphia, Pa. 19107, phone 215-245-2430) invites applications for Marshall Scholarships for two years of graduate study in Great Britain starting in 1975. Applicants must be U.S. citizens and have a B.A. degree. Expenses include a monthly stipend of 76 pounds, tuition, a small book and travel allowance, round trip fare, and (sometimes) a dependency allowance. For further information and application forms, write to the above address or to the British Embassy, Information Dept., 3000 Massachusetts Ave., Washington, D.C. 20008. Office line is Oct. 22.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1387). Do not call the office having the vacancy. Applications will be accepted until 5 p.m., Oct. 3, 1974.

ASSISTANT HERDSMAN, COLLEGE OF AGRICULTURE — University Park

Oversee the feeding, watering and general care and maintenance of the college's sheep and cattle. Feeding of feed, bedding of pen areas and cleaning; determine modification of feeding rates and management practices in accord with individual animal performance; responsible for maintenance of health programs; attend animals at parturition and newborn animals; treat or refer sick animals to veterinarian; administer proper preventive health programs; prepare and exhibit animal for shows and sales. This is a sheep herdsman position. An associate degree, or equivalent, in animal sciences plus one to two years related experience are preferred.

ELECTRON MICROSCOPIST, COLLEGE OF AGRICULTURE — University Park

Prepare specimens for electron microscope examination; include fixing, embedding, sectioning, shadowing, mounting and other phases of photography; perform minor maintenance on electron microscope; instruct faculty and students in the operation, preparation of specimens, and use of electron microscope; and supervise operation and assume responsibility for microscopy laboratory and equipment. Bachelor's degree or its equivalent in agriculture or one of the life sciences, plus a large amount of experience, or two to four years experience, or an associate degree or its equivalent plus two to four years of experience.

RESEARCH AIDE, COLLEGE OF AGRICULTURE — University Park

Perform chemical analysis for various mineral elements in sewage sludge, plant and animal tissues; perform biochemical analysis for various amino acids, tissue fraction and body fluids; collect tissues and body fluids and properly prepare for analysis; and summarize and report the results obtained in investigation. Bachelor of science degree in or related to the field of chemistry, or chemistry or biochemistry, plus 6-12 months of related experience are preferred.

ASSISTANT SPORTS INFORMATION DIRECTOR — WOMEN'S SPORTS, COLLEGE OF HEALTH, PHYSICAL EDUCATION & RECREATION — University Park

Responsible to the Sports Information Director for writing original features and reports on women's athletic teams and individuals; prepare original material for brochures and coverage of athletic events on and off campus and maintain contact with various media representatives interested in women's sports information. Also responsible for assisting in general public relations work and serving as spokesperson for women's intercollegiate athletics. Bachelor's degree or equivalent in journalism and one to two

William Elliott to be awarded medal Oct. 3

William Elliott, chairman of the Executive Committee of the Philadelphia Life Insurance Co., who has made it possible for Penn State's first endowed chair will be awarded the Penn State Medal of the University.

The Medal was established by the Board of Trustees in 1957 "to recognize and honor achievements of persons who perform continued dedicated service toward the betterment of higher education in Penn State."

William Elliott Chair is designated to the College of Business Administration and will in its beginning provide special emphasis on the insurance industry and business management. Until the appointment is made, portions of the endowment income are being used under the direction of the dean for special lectures, seminars, and symposiums for the enrichment of educational benefit particularly of the students and faculty in the College.

The first of the 1974 lectures will be held on Oct. 3, and on that occasion the Penn State Medal will be presented by President John W. Oswald to Mr. Elliott.

years experience in sports writing for whom athletic programs are preferred. Advanced research preparation is desired.

POLICE SERVICE OFFICER, DEPARTMENT OF UNIVERSITY SAFETY — University Park

Responsible for carrying out the functions of police service in the University Park area. Must be a graduate of a police academy with a good and good order of the community, excellent knowledge of the laws, public safety and investigation. A bachelor's degree, or equivalent academic hours, and appropriate law enforcement experience are required.

AREA REPRESENTATIVE, CONTINUING EDUCATION — Allentown, Campus

Responsible for the functions of development, organization, operation, and administration of Continuing Education programs and services within a designated geographic district. Must have a bachelor's degree, or equivalent, and two to three years of experience in business, industry or education are preferred.

STUDENT ACTIVITIES COORDINATOR — Carlisle Campus

Responsible for the development of activity programs to be planned and carried out by student organizations. Social and cultural programs are also connected with this position. Work done with all campus organizations. Evening or weekend work is necessary for full implementation of campus programs. Serve as a member of the Student Affairs Council involved in all areas of the student life program. Must possess the equivalent in an appropriate area of student personnel work and two to four years of experience in student activities or related area are preferred.

Program review offers chance for 'faculty development'

Editor's Note: With undergraduate program review now in process, Dr. Robert E. Dunham, vice president for undergraduate studies, has passed along this letter from a Penn State faculty member. It points up Dr. Dunham's hope that all faculty will become actively involved in the process of program review to take advantage of this unique opportunity to ask searching questions about what they are doing.

Stimulated by our conversation Monday evening, I'd like to pass along to you some of my reflections on Undergraduate Program Review as they have developed in my own thinking and in my observations of and participation in the early stages of the department evaluation.

As I consider the document charging us to conduct a review of our programs, I realize how we may best do that. I recognize a need of my own and of other faculty which has not yet been spoken to: our need of evaluation procedures to ensure the most productive outcome. It has been suggested that the Program Review Subcommittee members might receive special training, a procedure in our College which would involve many individuals, a number sought to see a healthy review process throughout the College. However desirable addressing this group may be, though, their entrance into the review process comes a little late to ensure maximum return on investment of faculty time. What I mean is that a lot of floundering may be then have needlessly occurred, and so, it seems to me, we should attempt to assist faculty in each of the programs in the College prior to the Subcommittee stage.

Whether formal or informal, to take, and some instances none may be needed,

ed, the spirit of the correspondence program to review themselves is to me a helpful and suggestive one. If we are "to encourage the process of continuous review of academic quality and relevance or appropriateness of undergraduate programs, we must first encourage the result in an assessment which is primarily characterized by candor, brevity and straightforwardness," then widespread, grass-roots faculty participation seems to be necessary.

A program review conducted by a committee, even when that committee invites broad faculty participation and even when draft reports of the committee are subject to individual faculty review, is not what seems to be called for. As I see it, the responsibility for the evaluation of a program faculty is to spur participation in the evaluation process, by anticipating as many of the problems as can be anticipated, by suggesting procedures to be employed, by assembling and articulating the findings, and throughout, by being the conduit through which procedural Review information gets to the faculty and finally from this review, I see back to the faculty. In other ways, then, I see undergraduate teachers working together to evaluate a program and thereby to renew it as their understandings of and commitments to undergraduate instruction are regenerated. It would be easy, and meaningless, to warn over traditional statements of objectives, for example, but it will be difficult and rewarding to join with a group of colleagues to conduct this inquiry, reassessment and re-education.

For instance, on the item of program objectives, the important job is not simply to state the aim of a requirement or the

principle which dictates it may be a requirement. The needful thing is to show in our review how a principle is manifest in each requirement. That showing, I maintain, will require a discovery or rediscovery of some of our assumptions, assumptions which we as immediate members of a department may share but which others, including students, may not and which must therefore be articulated for our and their benefit as a basis for continuing evaluation and strengthening of undergraduate programs.

Well, I see I'm capable of getting rhetorical about this, but I believe that the call for Undergraduate Academic Review is timely, and I'd like to help see it conducted thoroughly and profitably within my department, College and throughout the University.

When I think specifically about the form which assistance to program faculty from the College or University level might take, a number of possibilities occur:

1. As the Review proceeds, term-by-term, what has been learned about helpful evaluation procedures while conducting one program review may be shared.
2. The College of Education has already been asked to evaluate recent review of undergraduate programs. Could people there be of help to us?
3. Are there experienced evaluators who could be employed as consultants to small groups within the College? Shouldn't program faculty be encouraged to make use of known experts in this business?
4. Encouragement by you of extensive and grass-roots discussion of and participation in the review process would help to distinguish perfunctory or merely formal evaluation.

5. A convening and instructing of the membership of the Program Review Subcommittee might be useful. They can help to inform, enlighten and educate the Review process beyond its first stages.

6. A College meeting of program faculty involved in each term of the Review could be employed to initiate contact and to share ideas. Perhaps, though, an address at the individual program level would be more effective. Wherever addressed, such meetings would help to create a sharp profile for the Review process. This meeting could help in many specific ways, e.g., by providing an explanation of the timetable of the Review. November it seems awfully early to require the completion of program faculty review in the department when we've scheduled for winter 1975. I think I and others may come to understand the mechanism by which a Program Review Subcommittee may communicate with a program faculty during the winter term. But still, I personally think that deadline is too early if I am to believe that "the review process . . . is more important than the product. And I do."

I'm sure there are many other avenues of assistance we could discover, but whatever they are, they are acknowledged as assistance in conducting a meaningful undergraduate program evaluation. We are entered upon an educational process, one which will enlarge and clarify our understanding of our professional selves and thereby permit greater growth and change of the kinds we've recently been talking about. That is what I understand "development" to be, and there may also be lessons in governance in it, too. To me and to many, the Review is a challenge.

Retirement law amendments noted

University employees who are presently members of the State Employees' Retirement System and who were former members of the Public School Employees' Retirement System in Pennsylvania should be aware of new legislation presently being considered in Harrisburg. This proposed piece of legislation (House Bill 2522) contains changes similar to those found in Act 31, the recodification of the State Employees' Retirement Code.

Under present retirement law, a University employee is permitted to reinstate any former credit in the Public School Employees' Retirement System by making a lump sum repayment of the amount refunded when he or she terminated from the public school system. Interest charges have not been required in the past. If House Bill 2522 becomes law in its present form, however, interest charges will be included in the repurchase price. If interest is calculated from the date of termination from the school system, it could substantially increase the cost of reinstating former school credit.

University employees with former credit in the school system may obtain additional information about their old account and the new proposed legislation by corresponding directly with Mr. Frank Cashman, Secretary, Public School Employees' Retirement System, Box 125, Harrisburg, 17108.

PLIMPTON AS AMATEUR

George A. Plimpton, author and lecturer best known for his personal stories of professional athletics, will be the Colloquy speaker Friday, Oct. 11, at 9:30 p.m. in the new University Auditorium.

He will speak on "The Amateur among the Pros."

A contributing editor to the "Paris Review" since 1953, Plimpton has written a number of books, including "Paper Lion," perhaps his best known. He was also editor of "American Journey: The Times of Robert Kennedy" and of various volumes of "Writers at Work." He is a special contributor to "Sports Illustrated."

A graduate of Harvard University in 1948, Plimpton earned an M.A. degree at Cambridge (England) and an L.H.D. at Franklin Pierce College. He taught at Barnard College in 1956-58.

Admission to Colloquy events is free.

WOMEN'S VOLLEYBALL

A West German national women's volleyball team will match skills this evening (Thursday, Oct. 3) with an Eastern Regional U.S. women's team in Rec Hall, at 8 p.m. Tickets, priced at \$2 for non-students and \$1 for students, may be purchased at Rec Hall before the event begins. The Penn State Volleyball Club is sponsoring the match.

The West German team is enroute to World Cup games at Mexico City and played St. John's University in New York last evening and will play in Baltimore Saturday.

PRINT GIVEN MRL

"Succubus," a photo silkscreen print by Donald E. Emery, has been presented to the Materials Research Laboratory by the artist. Entered in the recent "Beauty in Science; Science in Art" exhibition at MRL, the print was given an honorable mention. Emery is an instructor in fine arts at Santa Monica College and has exhibited nation-wide and abroad.

BEHREND ATHLETIC AID

A Warren Behrend Athletic Fund will benefit student athletes at Behrend College. Established by friends, faculty and alumni, the Fund honors the memory of the son of the late Mary and Ernest Behrend, who donated the estate in Erie which made possible the founding of the College. Warren was a promising athlete at Deerfield Academy when he died at the age of 19 in December, 1930, in an automobile accident.

CAPITOL FUNDS

The Harrisburg Branch of A.A.U.W. has

(Continued on page four)

Faculty to contribute to Press book

Publication planned for bicentennial

A cross-section of life as it was in the Keystone State at the time of the Declaration of Independence will be described in words and pictures by Penn State faculty in a book scheduled for publication in 1976 by the University Press.

"Pennsylvania 1776," authorized by the University's Bicentennial Commission, will deal not only with historical events of the period but also with everyday life among the people of the Commonwealth.

How and where they worked, on farms and in cities, the famous and obscure, men and women, young and old — the intent is to recreate their milieu as vividly as possible, according to Dr. Robert A. Secor, associate professor of English at the University and general editor of the project under the auspices of the American Studies Program.

Approximately 100 faculty members from throughout the University will contribute their specialized knowledge to the book, which will contain about 60,000 words and some 60 pictures.

Assisting Dr. Secor will be John Pickering, editorial director of the Press. The picture editor is Irvin Richman, chairman of American studies at Capital Campus. An editorial board, comprising six faculty members, includes: Philip S. Klein, emeritus professor of American history; John B.

Frantz, associate professor of American history; Bruce A. Rosenberg, professor of English and comparative literature; Hugo A. Meier, associate professor of history; Irwin Feller, professor of economics; and Dr. Richman.

In addition, the editors will consult with a number of associate editors and contributing authors drawn from the various Colleges and Campuses of the University. Those who have already agreed to contribute in their area of specialty are:

Heleen E. Bell, associate professor of home management extension; Leo A. Bressler, retired associate professor of English; Ira V. Brown, professor of American history; Robert L. Butler, professor of biology; Donald M. Croft, assistant professor of rural sociology; Harold E. Dickson, emeritus professor of art history; Ronald L. Filippelli, associate librarian; Robert J. Graham, associate professor of humanities and American studies (Capitol); Theodora Graham, instructor in humanities and education (Capitol); Dale B. Harris, professor of psychology; Luther H. Harshbarger, professor of humanities and religious studies; Warren W. Hasterer, Jr., professor of American history; Thomas Jable, instructor in physical education (McKeessport); Arthur O. Lewis, Jr., associate dean and professor

(Continued on page four)

U. Council endorses summer change

The University Council meeting last week endorsed a recommended calendar for the 1975 Summer Term at the University.

Council and the University Faculty Senate are among several University bodies being asked to respond to the proposal made by the President's Calendar Commission.

Dr. Asa J. Berlin, chairman of the President's Calendar Commission, described the plan in detail at the Council meeting. He said the proposal is for Summer Term, 1975, only and does not represent a continuing recommendation.

In other business, Council heard a report from student members Mark Single

and Thomas Amrhein on the transferability of meal tickets by Commonwealth Campus students visiting University Park. They reported that a pilot program is being planned for the Spring Term. Under the proposal, students at the Commonwealth Campuses which have food service may purchase a transfer meal ticket at the Campus. The transfer ticket, available at reduced cost, would be honored with an identification card at University Park.

On a recommendation from graduate student member Kenneth Novak, Council decided to examine the University policy on confidentiality of records. The matter is to be placed on the agenda for Council's next meeting on Oct. 17.

GSA bills approved total \$5.6 million

Bills asking for appropriations totalling more than \$5,582,000 for General State Authority projects at the University were approved in the State Senate at Harrisburg Sept. 24.

One would provide \$3,750,000 for air-conditioning various buildings, primarily older buildings with classrooms heavily used during the summer months, and another would provide \$650,000 for expansion of utilities at the University Park Campus. Both were introduced by Sen. Joseph S. Ammerman, Curwensville, 34th Dist., and Sen. Thomas M. Nolan, Turtle Creek, 44th Dist.

Another bill for \$1,182,000, introduced by Sen. James E. Ross, of Beaver, 47th Dist., and Senator Nolan, would provide for construction of a laboratory building at the Beaver Campus at Monaca.

The utilities program includes a number of projects, involving water, heating, and electrical lines that need to be improved or constructed to improve efficiency of utilities operations.

Clarence Walton is Elliott lecturer

Dr. Clarence C. Walton, president of the Catholic University of America, will deliver the William Elliott Lecture today (Oct. 3) at 4 p.m. in Room 101 Kern Graduate Bldg. The lecture is sponsored by the College of Business Administration.

His subject is "Historical Perspectives on Contemporary Business."

Dr. Walton became the first lay administrative head of Catholic University in 1969. Earlier, he had been dean of the School of General Studies at Columbia University from 1964 to 1969, after serving as associate dean of Columbia's Graduate School of Business. He was dean of the School of Business Administration of Duquesne University from 1954 to 1958.

A native of Scranton, he received the bachelor of arts degree from the University of Scranton, the master of arts from Syracuse University, and the doctor of philosophy from Catholic University. In 1951-52 he held a fellowship at the Institute of Advanced International Studies, Geneva.

News in brief

LE TRETEAU

Eugene Ionesco's tragic play, "Le Roi Se Muert," will be performed October 14 by the French theatrical troupe, Le Treteau de Paris, which since 1958 has toured American colleges and universities.

The performance will be given in Schwab Auditorium, beginning at 8 p.m. Tickets are now available from Dr. Isabelle Armitage, department of French, 5404 Burrows Bldg., and after Oct. 7 will be on sale at the HUB desk Monday through Friday, 8 a.m. to 5 p.m. They will also be sold at the door.

Called by Clive Barnes "Ionesco's most moving play," "Le Roi Se Muert" opened in New York in 1968. It is a parable on the death of power.

RENAISSANCE SCHOLARS

Members of the Board of Trustees and Renaissance scholars of the University met at an informal luncheon Sept. 20. There are currently 49 such scholars, two of them at Commonwealth Campuses, the others at University Park. The Renaissance Fund, started four years ago by five members of the Board, has been aided by contributions of alumni and friends and by gifts of the Class of 1971 and corporations.

ARTISTS SERIES

The Paul Winter Consort continues the current Artists Series Friday, Oct. 4, with a program in Schwab Auditorium at 8:30 p.m. If tickets remain, they are on sale at University Auditorium box office. It has been announced that the Agnes de Mille dance company, cancelled the rest of its tour and will not appear here later in the month. Instead, the Senegalese Dance troupe will perform Oct. 13. It has also been announced that future showings of the Ingmar Bergman film series will be made in University Auditorium because of the great interest shown.

APPROPRIATION BILL

A bill introduced in the State Senate at Harrisburg last week would appropriate \$17 million dollars to the University to enable the University to pay the employer's share of the additional mandated contributions to the State Retirement System.

The additional costs were placed in effect after the request for the 1974-75 appropriations had been submitted.

The bill introduced Tuesday was sponsored by Sen. Joseph S. Ammerman, of Curwensville, 34th Dist.; Sen. Henry J. Clairman, Philadelphia, 1st Dist.; and Sen. Richard C. Frame, Franklin, 25th Dist.

Deaths

Dr. N. Bedford, assistant professor of engineering at Behrend College, died suddenly in his home in Erie Thursday evening, September 19. Bedford was a graduate of the University of Missouri with a bachelor of science degree in electrical engineering and held a master's degree from the University of Notre Dame. He had completed all the course work toward the Ph.D. in electrical engineering at Carnegie Mellon University. He joined the University staff in September, 1961, teaching a variety of engineering courses until the time of his death. He is survived by his wife and three daughters; he was 48 years of age.

Dr. Edward H. Dusham, professor emeritus of entomology, died on Wednesday, Sept. 25, at the age of 87. He served as a member of the faculty from 1913 until his retirement in 1951, except for a period between 1916 and 1918 while he was working toward the doctor of philosophy degree at Cornell University. In 1918 he became head of the department of zoology and entomology. He received his bachelor of arts degree in 1910 from Dartmouth College and his master of science degree in 1915 from Penn State. The doctor of philosophy degree was conferred on him by Cornell University in 1924.

Honors

The late Dr. Darrell Walker, who was head of the department of horticulture until his death in July, 1973, was honored posthumously by All-American Selections, for "his tireless work in maintaining a strong horticulture department at Penn State and for excellence in teaching horticulture." The medallion awards were presented during the recent International Seed Conference at Penn State.

Leave

Dr. J. Dean Jansma, professor of agricultural economics, began a leave last week, which will extend until mid-June, 1975, to teach at the University of Florida as a visiting professor.

Retirement

Col. Thomas J. Collins, Jr., U.S. Army Corps of Engineers, professor and head of the department of military science at the University, retired Sept. 30. He served in the position from 1971. He had been stationed at Penn State ten years earlier as assistant professor of military science and director of instruction with the Army Reserve Officer Training Corps unit, serving from 1961 to 1964. A graduate of Johns Hopkins University with a bachelor of engineering degree, he also holds the bachelor of science degree in civil engineering from the University of Missouri and the master of science degree in civil engineering from Penn State. He was a Distinguished Military Graduate at Johns Hopkins in 1950. He also holds diplomas in military education from the Engineer School, Officers Advanced Course; the U.S. Army Command and General Staff College, Operations and Logistics; and the U.S. Navy Post Graduate School, Defense System Management Course. He is a registered professional engineer in Missouri and Pennsylvania. His 24 years experience with the U.S. Army Corps of Engineers includes service as a company commander in Korea; chief of engineering, 7th Engineer Brigade, in Europe; senior design and engineering advisor to ARVN chief of engineers and facilities planning advisor to the Director of Logistics, RVNAF, in Vietnam; staff officer and director of Army General Staff in the Pentagon; and civil engineering officer, Directorate for Logistics, Joint Staff, Organization of the Joint Chiefs of Staff at the Pentagon, Washington, D.C.

Century of service noted in four faculty awards

Dr. Thomas Wark, dean of the College of Science, presented 25-Year Service Awards to Dr. James F. Wright, Jr. (left photo) and Dr. James J. Fritz. Dr. Wright, professor of genetics, has special research interests in the genetic control of blood types and of enzymes and other soluble proteins in trout, and in the hybridization and speciation in the trout and pike families of fish. A graduate of the University of Georgia, with a plant pathology major, he received a Ph.D. from Cornell University in 1950. He joined the Penn State botany department faculty in 1949 and was named professor of genetics in 1960. He received a citation for excellence in teaching in 1960. He was chairman of the interdisciplinary graduate program in genetics in 1956-59. In 1970, he took a leave to serve as consultant to Marine Protein Corporation, on the ap-

plication of cultural and breeding techniques on commercial production of fish protein. Dr. Fritz, professor of chemistry, has specialized in low temperature research working in the Cryogenic Laboratory. He joined the faculty in 1949 after receiving his Ph.D. at the University of California and serving as a research associate for a year at Ohio State. He is a 1939 Penn State graduate with an M.S. degree from the University of Chicago. He was a Guggenheim Fellow at Ohio State University in 1961-62 for low temperature research and studies in the theory of magnetism. In 1971-72 he was on leave to serve as visiting lecturer at Osaka and Kyoto Universities in Japan, to visit the physical chemistry department at Oxford, and to do research at the Magnetism Laboratory, Grenoble, France.

Dr. Hugh Chapman, Jr., center in right photo, is professor of Romance languages interested especially in the relationships between French, Spanish, German and English literature. He is a graduate of Oberlin University, receiving advanced degrees from Harvard, and has taken additional work at the Sorbonne, University of Mexico, U. of Freiburg at Breisgau, and U. of Lausanne. He was an instructor in Romance languages at Rutgers for two years before coming to Penn State in 1949. In 1971-72 he was on leave to do research in connection with a volume on La Rochefoucauld. He has had a variety of offices in three sections of the Modern Language Association and locally has served as president of Phi Eta Kappa.

Appointments

Dr. Helen M. Thal, as professor of home economics education. She was director of educational services of the Institute of Life Insurance, with which she has been associated since 1945. She was assistant professor of English at Hood College from 1945 to 1945. A graduate of St. Olaf College, she received an M.A. degree in journalism from State University of Iowa and O.E.D. degree in home and family living from Teachers College, Columbia University, where she was an instructor while earning her degree. She is a member of the Board of Regents of St. Olaf College and a past president of the American Home Economics Association.

Dr. Thomas J. Jech, as professor of mathematics. He has been serving since 1959 as associate professor of mathematics at SUNY at Buffalo. He received his degrees from Charles University, Prague; Czechoslovakia, and has been a member of faculties at the University of Bristol, England, U.C.L.A., and Princeton University. He was a member of the Institute for Advanced Study at Princeton in 1972-73.

Dr. John D. Lewis, as visiting professor of political science for the Fall Term. A specialist in political theory, he taught at Oberlin College 1935-72, at one time serving as acting chairman of the political science department. A graduate of Oberlin, he received advanced degrees from the University of Wisconsin. During the past two years he has been a visiting professor at Colorado College and at Case Western Reserve University. **Dr. Matthew J. Bruman**, as visiting professor of education for the Fall Term. He is director of the Grinter Environmental Center, Milford, Pa., and is international director of the UNESCO Conservation Curriculum Development Project for Venezuela; environmental editor of J. G. Ferguson Publishing Co. (Doubleday); and consultant for the Office of Environmental Education, U.S.O.E., and the U.S. National Commission for UNESCO. At Penn State, he is serving in the Department of Academic Curriculum and Instruction in the College of Education. He has taught at Manhattan, Columbia, Jersey City State, Rutgers, and Fitchburg (Mass.) State College. From 1963 to 1970, he was director of the Pinchot Institute for Conservation Studies and adjunct professor of conservation and education at the University of Pittsburgh.

Dr. Peter R. Adams, as associate professor of chemistry at the York Campus. He received his B.S. and Ph.D. from Queen Mary College, London. An organic chemist, he has been an assistant professor of pediatrics at The Johns Hopkins University School of Medicine since 1971.

Dr. Kevin O. Anderson, as associate professor of German. He was formerly assistant professor of Southern Illinois University and the University of Colorado. He is a University of Minnesota graduate with advanced degrees from the University of Colorado.

Dr. William L. Eck, as associate professor of health education. A graduate of Springfield College, he has an M.S. from the University of Massachusetts and a O.E.D. from New York University in school health administration. He has been associated with the Great Neck, N.Y., public schools for the past 24 years.

Dr. Winand K. Hock, as associate professor of plant pathology and extension pesticides specialist. A plant pathologist with the Maryland Dept. of Agriculture, he was a research plant pathologist at the U.S. Dept. of Agriculture. He has an M.S. from Penn State and an M.S. and Ph.D. from the University of Maryland in plant pathology.

Vol. 4, No. 5 Oct. 3, 1974
Penn State INTERCOM is a weekly publication for the academic community of The Pennsylvania State University, published each Thursday when classes are in session. General information and items for this calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.
Editor: W. F. Ackerman Phone 865-7517

University Park Calendar

October 3-13, 1974

SPECIAL EVENTS

Thursday, October 3 — Sports: West German Women's National Volleyball Team vs. U.S.A. Eastern Zone National Team, 8 p.m., Rec. Hall.

Friday, October 4 — Artists Series: Paul Winter Consort, 8:30 p.m., Schwab.

Friday, October 4 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, October 5 — Paul Winter Consort, program of Charles Ives music, 8:30 p.m., HUB ballroom.

Sunday, October 6 — Chapel Service, 11 a.m., Chapel 15.

Sunday, October 6 — Chapel Stelver Stanton, Campus Ministry, Morgan State College.

Sunday, October 6 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 6 — Sigma Delta Epsilon, women in science society, 2:30 p.m., Room 101 Kern. Dr. Richard C. Cunningham, vice president for research and graduate study, on "Women's Role in Research at Penn State." New graduate students in science welcomed.

Monday, October 7 — Robert Trehy, voice recital, 8:30 p.m., Music Bldg. recital hall.

Tuesday, October 8 — Sports: Women's field hockey vs. Bucknell, 2:30 p.m.

Tuesday, October 8 — Artists Series Film Festival, "The Naked Night," Ingmar Bergman, 8:30 p.m., Univ. Auditorium.

Wednesday, October 9 — Sports: Soccer vs. Bucknell, 7:30 p.m., Jeffrey Field.

Wednesday, October 9 — University Theatre student preview, "The Seagull," 8 p.m., Pavilion Theatre.

Wednesday, October 9 — Musica da Camera, 8:30 p.m., Music Bldg. recital hall.

Thursday, October 10 — Sports: Women's field hockey vs. Virginia, 8 p.m.

Thursday-Saturday, October 10-12 — University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Friday, October 11 — University Readers, 8 p.m., Room 102 Kern.

Friday, October 11 — Colloquy, George Plimpton, author, on "The Amateur among the Pros," 9:30 p.m., University Auditorium.

Friday, October 11 — Groove Phi Groove, 8 p.m., Room 220 Willard.

Friday, October 11 — Sports: Soccer vs. Army, 7 p.m., Jeffrey Field.

Friday, October 11 — Genetics Symposium, 1-5 p.m., Room 102 Kern.

Friday, October 11 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, October 12 — Sports: Football vs. Wake Forest, 1:30 p.m., Beaver Stadium, Homecoming.

Saturday, October 12 — Penn State Glee Club Homecoming Concert, 7:30 p.m., University Auditorium.

Sunday, October 13 — Chapel Service, 11 a.m., Music Bldg. recital hall. The Reverend Nelson Frank, former pastor of St. Paul's United Methodist Church, State College.

Sunday, October 13 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 13 — Artists Series, Senegalese dance group, 3:00 and 8:30 p.m., University Auditorium.

SEMINARS

Thursday, October 3 — Natural Disasters, 2:20 p.m., Room 220 Willard. Dr. Barry L. Myers, Business Law, "Legal Control of Flood-Prone Areas."

Thursday, October 3 — Agronomy, 3:45 p.m., Room 111 Tyson. Dr. Rufus Cheney, USDA, Washington, D.C., on "Heavy Metal Contamination in Soils via Waste Disposal."

Thursday, October 3 — Physics, 3:55 p.m., Room 117 Osmond. Helmut Fritzsche, James Frank Institute, University of Chicago, on "Amorphous Semiconductors."

Thursday, October 3 — Chemistry, 12:45 p.m., Room 333 Whitmore. John Ross, M.I.T., on "Chemical Irreversibilities."

Thursday, October 3 — Acoustical Society and Engineering Acoustics Graduate Program, 4 p.m., Room 711 Willard. Dr. Francis Frenn, Westinghouse Corp., on "Present Trends in Nonlinear Acoustics."

Thursday, October 3 — Mathematics, 4 p.m., Room 102 McAllister. N. Grossman, on "Examples of Bang-Bang Controls in Infinite Dimensions."

Thursday, October 3 — Philosophy, 4 p.m., Room 351 Willard. Dr. John Anderson on "Philos."

Thursday, October 3 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. A. K. Blackadar on "Progress on a Comprehensive Theory of Turbulence in the Atmosphere: Surface Layer." **Friday, October 4 — Computer Science, 4 p.m., Room 101 Altohouse.** Dr. S. C. Johnson, Bell Laboratories, Murray Hill, N.J., on "Code Generation on a Machine with Direction."

Friday, October 4 — Physical Chemistry, 4 p.m., Room 333 Whitmore. L. Batt, University of Aberdeen, on "Decomposition of Methyl Nitrate and Dimethylperoxide: Thermal Sources of Methoxy Radicals."

Monday, October 7 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Joe Hill, on "Studies in the Occurrence of Ecological Races within 'Helminthosporium maydis' race T."

Monday, October 7 — Environmental Problem Solving, 8 p.m., Room 105 Forum.

Monday-Tuesday, October 7-8 — Biochemistry, 11:10 a.m., Room 101 Altohouse. Dr. Harold Farrell, Jr., Eastern Regional Res. Center, U.S. Department of Agriculture, Phila., on "Phosphoproteins of Milk — I. Casein Micelle Structure and Formation." "II. Phosphorylation of Casein by a Protein Kinase from the Golgi Apparatus of Lactating Mammary Glands."

Tuesday, October 8 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Alice M. Gitchell, Environmental Protection Specialist, Department of Environmental Resources, Bureau of Community Environmental Control, York, Pa., on "The Realities of Enforcement in Air Pollution Control."

Tuesday, October 8 — Natural Disasters, Meteorology and Geosciences, 2:20 p.m., Room 220 Willard. Dr. Larry Voight, geology, on "The Valpud Dam Landslide."

Wednesday, October 9 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Dr. Reed Williams, duPont, on "New Developments in Liquid Chromatography."

Wednesday, October 9 — Remote Sensing, 4 p.m., Room 204 Electrical Engineering. West. David P. Gold, geology, and Wilina Kowalik, on "Lineaments from ERTS images and their correlation with Mineral Occurrences in Southwestern Pennsylvania."

Thursday, October 10 — Natural Disasters, Meteorology and Geosciences, 2:20 p.m., Room 220 Willard. Dr. Larry Voight, meteorology, on "Hurricane Disasters."

Thursday, October 10 — Physics and Chemistry, 3:35 p.m., Room 117 Osmond. P. A. Egelsstaff, University of Guelph, on "Theory of the Liquid State."

Thursday, October 10 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. F. Pasquill, Meteorological Office, Bracknell, Berks, England, on "Recent Activities in Boundary Layer Research in the Biological Office."

Thursday, October 10 — Biophysics, 4 p.m., place to be announced. Jack Groski, University of Wisconsin, on "The Evolution of a Model of Steroid Hormone Action."

Thursday, October 10 — Nuclear Engineering, 4 p.m., Breazeale Nuclear Reactor. Dr. Robert A. Shaw, Clarkson College of Technology, Potsdam, N.Y., on "Corrosion Product Radioisotope Concentration in BWR."

Thursday, October 10 — Agronomy, 3:45 p.m., Room 301 Ag. Adam, Dr. Dan Knievel on "Crop Physiology Research at WILPA Castalar."

Friday, October 11 — Ceramic Science, 3 p.m., Room 301 Mineral Industries. Dr. F. L. Kennard, General Motors Corp., on "ZrO₂ Sensors."

Friday, October 11 — Physical Chemistry, 4 p.m., Room 333 Whitmore. Harold G. Munson, on "The Effect of Collisions on Molecular Reorientation Correlations from Depolarized Rayleigh Scattering of Dense Fluids."

LECTURES

Thursday, October 3 — College of Business Administration William Elliott Lecture, 4 p.m., Room 101 Kern. Dr. Clarence C. Walton, president, Catholic University of America, on "Historical Perspectives on Contemporary Business."

Thursday, October 3 — Dr. Luis Alberto Sanchez, Peruvian writer-politician-educator, 8 p.m., Room 101 Kern. on "Literature and Politics of the APRA Political party."

Monday-Wednesday, October 7-9 — John Brooke-Little, Richmond Herald at the College of Arms in London, will deliver three public lectures on heraldry, 9 p.m., Room 112 Kern. Monday on "Heralds, Their Origin and Duties through the Ages," Tuesday on "The Development of Army under the Heralds," and Wednesday on "Heraldry as a Living Science and Art Form." The lectures are sponsored by the Interdisciplinary Graduate Program.

Wednesday, October 9 — Division of Environmental Design and Planning, Department of Architecture, 8 p.m., Room 102 Forum. Clifford Stewart, Perry Dean and Stewart Architects, Boston and Washington, D.C., on "Computer Graphics in the Real World." The lecture is cosponsored by the Department of Architectural Engineering, Landscape Architecture, and the Division of Man-Environmental Relations.

FILM

Friday-Sunday, October 4-6 — GSA films, "Animal Farm" and "1984," 8 p.m., Room 112 Kern.

Wednesday, October 9 — Commonsplace Theatre, 8 and 10 p.m., Room 112 Kern. "Chism."

MEETINGS

Saturday, October 5 — American Institute of Planners section meeting, sponsored by Graduate Program in Regional Planning, beginning at 10 a.m. in Room 101 Kern. Session in afternoon with speakers. General section meeting, public invited, 1 p.m., Nittany Lion.

Monday, October 7 — OTIS, 6:30 p.m., Room 203 Hill.

Monday, October 7 — Education Student Council, 7 p.m., Room 111 Chambers.

Tuesday, October 8 — ARHS, 7:30 p.m., Room 309 Boucke.

Tuesday, October 8 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

Wednesday, October 9 — USG Academic Assembly, 7:30 p.m., Room 311 Boucke.

Wednesday, October 9 — Biological Society, 7:30 p.m., Room 8 Life Sciences. Geza Teloki, anthropology, and Lori Baldwin on "Field Research on Wild Chimpanzees."

OFFICIAL

Friday, October 4 — Deadline for application for Winter Term Tuition Grants-In-Aid, Room 317 Kern.

EXHIBITS

Museum of Art — Manayunk and Other Places: Francis Speight's paintings and drawings, Galleries A and C. Selections from the permanent collection, Gallery B.

Zoller Gallery — Super Mud '74, opening October 7.

Chambers Gallery — Jeanne Stevens-Sollman, drawings and ceramics.

Kern Gallery — Bob and Susan Duncan, oil paintings.

Funding Opportunities

For procedural and funding source information, call 865-1372.

October 3, 1974

(147-5) The Eighth Annual Report for the National Endowment for the Humanities contains a list of Awards by States for FY1973 calling for the institutions, individuals and projects on or project title in each NEH program area. Single copies are available by calling the NEH public information office (202-382-5721).

(149-1) The National Science Foundation (NSF) has announced competition for National Fellowships in Science for U.S. citizens or nationals. Senior staff may study new scientific techniques and methods, interdisciplinary science fields, and interdisciplinary science fields. Closing date for receipt of applications are Nov. 20, 1974 for a Feb. 15, 1975 award date. For program announcements and application materials contact Dr. Douglas Chapin, Fellowships and Traineeships Section, Office of Higher Education in Science, NSF, Washington, D.C. 20555 (202-252-5595). (Info. NSF Memo 9/9/74)

(149-2) Both preliminary and in-depth comprehensive technology assessments in selected areas will be supported by the National Science Foundation (NSF).

(149-3) The Office of Environmental and Planning (OE) has announced October 18, 1974 as the closing date for the Supplemental Education Opportunity Grant, College Work-Study, and National Direct Student Loan programs (Parts A, C, and E of Title IV) (Info. Ref. 39FR-33015, 9/13/74). The program categories are: Leonard Spearman, Director, Office of Student Assistance, Bureau of Higher Education, U.S. Washington, D.C. 20022 (202-415-2177).

(149-4) INTER-AMERICAN FOUNDATION (1515 Wilson Blvd., Rosslyn, Va. 22209) offers Latin American and Caribbean Learning Fellowships on Social Change at the pre- and post-doctoral level. Fellows affiliate with a host-country institution in Latin America and the Caribbean. Applicants must be interested in the process of social change from a problem-oriented perspective. Occasional centers must have passed a comprehensive examination by the staff of their fellowships. The size of the awards varies. The application deadline is Oct. 1, 1974. For application forms and further information write to the address given above. (Info. Ref. F074-19)

(149-5) AMERICAN ASSOCIATION OF UNIVERSITY WOMEN (Fellowships Office, 2401 Virginia Ave., Washington, O.C. 20037) has 70 dissertation-year fellowships for U.S. women paying \$3000-\$5000 for one year of research and writing. The application deadline is Jan. 2, 1975. Forms are available from the address given above and will be sent only to persons providing the following information with their request: (1) Statement of U.S. citizenship or evidence of permanent U.S. residence; (2) Date of planned or completed date of comprehensive examination (must be on or before Jan. 2, 1975); (3) Institution.

Period for which you wish financial aid (July 1975 for July 1976 or some portion thereof). Awards are based on student's promise and accomplishments as a scholar with special emphasis on significance of his or her contribution to knowledge. Post-doctoral fellowships paying up to \$7500 are also available. (Info. Ref. F074-19)

(149-6) WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS (Smithsonian Institution Building, Washington, D.C. 20540) offers post-doctoral appointments for persons wishing to conduct research in Washington. Appointments are normally from four months to one year in duration. Substantial stipends may be supplemented up to the level of normal salary. Research facilities are provided in Smithsonian Institution. For further information, write to the address given above. (Info. Ref. F074-19)

(149-7) ROCKEFELLER FOUNDATION (111 W. 50th St., New York, N.Y. 10020) announces the next deadline for Environmental Affairs post-doctoral studies is Jan. 15, 1975. For further information see Fellowship Opportunities No. 74-14 or write to the address given above. (Info. Ref. F074-19)

(149-8) AMERICAN WATER WORKS ASSOCIATION (American Achievement Award Committee, 6666 W. Quincy Ave., Denver, CO 80235) invites applications for three achievement awards of \$200, \$250 and \$125 for the best graduate theses on a water-supply subject. Application forms may be obtained at the office listed above. Application must be accompanied by a publication manuscript based on the thesis. The application deadline is Oct. 31, (Info. Ref. F074-20)

The Arts: theatre, music, exhibits

The first production of University Theatre will be the Anton Chekhov classic, "The Seagull," opening Wednesday, Oct. 9, at Pavilion Theatre. It will be performed Oct. 9-12 and Oct. 15-20.

The box office in the Arts Building will open October 7 for this and other plays to be offered during the Fall Term.

Two French surrealist plays will be performed in Playhouse theatre, opening Oct. 31, continuing Nov. 1-2 and Nov. 5-9. The plays are "The Breasts of Tiresias," by Guillaume Apollinaire and "The Wedding on the Eiffel Tower," by Jean Cocteau. "Lemon Sky," by Lanford Wilson, will open Nov. 7 at Pavilion Theatre.

Schubert's "Die Winterreise," considered perhaps the greatest song cycle ever written, will be performed by baritone Robert Trehy, associate professor of music, Monday, Oct. 7, at 8:30 p.m. in the Music Bldg. recital hall.

The work, which translated means "The Winter Journey," is a setting of 24 poems by Wilhelm Mueller written by Schubert in 1827.

Accompanying Mr. Trehy will be the noted piano accompanist John Wustman of the University of Illinois, who will also give master classes for students during his campus visit.

Mr. Trehy most recently appeared with the Detroit Symphony. Next spring he will sing with the Pittsburgh Symphony in Heinz Hall in a concert devoted to the work of Rogers and Hammerstein.

Works ranging from Baroque to modern will be performed by Musica da Camera, University chamber orchestra, Wednesday, Oct. 9, at 8:30 p.m. in the Music Bldg. recital hall.

Performing "Sintonia Concertante for Contrabass and Viola," a late 19th century piece by Karl Ditters von Dittersdorf, will be graduate students Paul Yarborough and Janet Conway. The Baroque "Concerto in B Minor for Four Violins" by Vivaldi will be played by Lynn Ritzenhaller, Laura Sardinas, Davis Brooks, Mary Roens and Peter Brye, also graduate students. Mendelssohn's "Sintonia IX" and Hindemith's "Five Pieces" complete the program.

Musica da Camera, directed by Dr. D. Douglas Miller, assistant professor of music, plans concerts throughout the State in the coming academic year.

Twenty photographs of children by noted photographer and Penn State graduate Bruce Horowitz will be shown through October from 1 to 5 p.m. daily in Room 212, Arts Bldg. The exhibit is sponsored by the Department of Art.

Mr. Horowitz will visit the University Oct. 10 and 11, and a public reception is planned on Thursday, Oct. 10, at 8 p.m. in 212 Arts Bldg.

A 1970 graduate of the University, the artist is a youth worker with a community association project in Rochester, N.Y. His photographs are included in such collections as New York's Museum of Modern Art, and he holds an M.F.A. from SUNY at Buffalo.

Super Mud '74, the annual student invitational ceramics show sponsored by the Department of Art, will open Monday, Oct. 7, in Zoller Gallery.

Students from five guest schools will contribute work to be shown with that of Penn State ceramics students, totalling about 40 works expected for exhibit. Invited participant schools this year are the Universities of Chicago, Georgia, Delaware, and Montana, and Ohio State University.

Super Mud is scheduled each year to coincide with the Ceramics Arts Conference at the University, planned this year for Oct. 25 and 26.

Gallery hours for the Super Mud show are 8 a.m. to 5 p.m. Monday through Saturday and noon to 5 p.m. Sunday, through Oct. 26.

The Annual Glee Club Homecoming Concert will be presented Saturday, Oct. 12, at 7:30 p.m. in the University Auditorium, the first a cappella choral group to sing in the new facility.

Directed by Bruce Trinkle, assistant professor of music, the Glee Club's program will include songs by Anton Bruckner and Charles Ives, folksongs and spirituals, a medley of Penn State football songs and the premiere of "Desecration," a composition by music graduate student Richard Victor.

Admission to the annual event, highlighted each year by the collaboration of returning Glee Club alumni in the final Penn State medley, is free of charge.

NEWS —

(Continued from page one)

Established a loan fund for students at Capitol Campus, providing for both long and short term loans, with a maximum amount of \$1,000 per year per student. A Mildred Ride Dunlap Grant Fund has also been established by the Penn State Alumni Club of the Greater Harrisburg Area. The fund, named to honor Penn State's first May Queen who now resides in Camp Hill, will provide \$300 for one year to a full-time student whose residence is in the Greater Harrisburg area and who has a satisfactory academic record and evidence of financial need.

FACULTY SCHOLARSHIPS

Dr. Thomas P. Hettmansperger, associate professor of statistics, and Dr. John L. Bruno, associate professor of computer science, have been awarded National Science Foundation faculty fellowships. Dr. Hettmansperger began his fellowship year as visiting scholar at the University of California at Berkeley, continuing his research in statistics. Dr. Bruno will be at Berkeley beginning in September next year, studying problems of security, privacy and reliability in computer systems.

IN MOSCOW SYMPOSIUM

Dr. John Waber, professor of marine geology, was invited by the U.S.S.R. Academy of Sciences to take part in an All-Union Symposium on Stable Isotope Geochemistry Sept. 30-Oct. 4 in Moscow. He spoke concerning his research on carbon and oxygen isotope fractionation in reef coral skeletons.

NLI ALTERATION PLANS

Final plans for alteration and renovation of the Nittany Lion Inn were approved by the Board of Trustees Sept. 20. The conversion of the coffee shop into two function rooms, improvement of the assembly room, installation of new rest room facilities, and improvement of the lower floor public areas are the principal alterations approved.

Final plans for a multi-purpose building at Capitol Campus have been approved by the Trustees. The \$2,480,500 structure will be used for academic purposes, for assemblies, and for recreational activities.

CAPITOL GALLERY

Three Harrisburg artists will exhibit their works in the newly remodeled Gallery Lounge at Capitol Campus. The exhibit opened Sept. 30 and will continue through Oct. 3. A reception is being held today (Oct. 3) at 7 p.m. to honor the artists, all of whom have exhibited widely. They are Sheron Amment, a Penn State graduate, Gene Suchma, University of Dayton graduate, and Toni Truesdale, a special art instructor in the Harrisburg school system.

LA VIE BOARD

La Vie, the student yearbook, is soliciting applications from faculty and staff members for positions on its Board of Directors. Applicants should have a background or interest in journalism, photography, art, marketing, finance or other fields related to publication. Any interested persons are asked to contact John Black in the Alumni Office, 105 Old Main, 865-6516.

AUCTION

An auction sale at the Salvage and Surplus Warehouse on north campus Saturday, Oct. 5, will feature many items of possible interest to faculty and staff members, including eight executive style electric typewriters (a minimum bid will apply), desks, and other office equipment, and seven or more Econoline vans. The auction starts at 10 a.m.; the vans will be sold beginning at 12 noon.

HUB SPECIALS

Sunday, Oct. 6 — Dinner, pork chop Hawaii, \$1.39; supper, apple-sausage pattie, \$1.05.
Monday, Oct. 7 — Lunch, barbecue on bun and soup, \$2.75; dinner, lamb pot pie, \$13.35.
Tuesday, Oct. 8 — Lunch, ham and lima beans, \$1.85; dinner, spaghetti, \$1.17.
Wednesday, Oct. 9 — Lunch, creamed oiled beef on English muffin, \$1.01; dinner, Canadian bacon with hot potato salad, \$1.29.
Thursday, Oct. 10 — Lunch, lasagne, \$1.22; dinner, \$1.90.
Friday, Oct. 11 — Lunch, grilled ham and cheese sandwich, \$1.10; dinner, baked ham and cheese, \$1.24.
Saturday, Oct. 12 — Lunch, chili con carne, \$6.64; dinner, Chinese pepper steak with rice, \$6.64.

Behrend faculty members abroad

Two Behrend College professors are in Germany and a German professor is at Behrend for the year under Fulbright Commission programs.

Under an International Educational and Cultural Exchange Program, Dr. David P. Daniel, assistant professor of history, is to teach history at Lutherschule Gymnasium in Hannover. Coming from Lutherschule he taught at Behrend in Dr. Helmut Schnitter.

Dr. Daniel, who came to Behrend in 1970 at the completion of another exchange program in Germany, specializes in the history of the Renaissance and Reformation.

Dr. Edwin Masteller, associate professor of biology at Behrend, has received a senior Fulbright Research Fellowship to spend ten months as a researcher at the Max Planck Institute fur Limnologie, at Schilf.

The Max Planck Institute is one of the leading research facilities in the world in the study of limnology — study of aquatic organisms — and Dr. Masteller is studying there with Dr. Joachim Illies. He began his work in August.

Much of his work will center on the study of techniques of determining productivity in lotic systems and in particular techniques which can be applied to the study of the streams in Erie County and their quality of productivity.

Dr. Schnitter, a graduate of the Free University of Berlin which also granted him a D. Phil. was also studied at the University of Zurich. He has taught at various levels in Germany and has also taught at the New University of Ulster, in Northern Ireland. He arrived in Erie in late August.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 42-1387). Do not contact the area having the vacant. Applications will be accepted until:

5 P.M., Thursday, October 17

BUILDING INSPECTOR, PHYSICAL PLANT —
Hershey Medical Center
Responsible to the Chief Inspector for the inspection of construction projects, and for the day-to-day related coordination to assure that the projects are completed in accordance with plans and specifications. High school education plus years of effective experience on building projects at a supervisory level or equivalent. Applicant should have a solid background in building construction along with a knowledge of the applicable building codes.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER.

Service center needs help of volunteers

The Volunteer Service Center at the University is seeking area residents and high school students to assist its student volunteers.

More than 300 University students visited the Center office during the first week of Fall Term classes to volunteer their time and energy.

However, a spokesman said the increased role of the Center in many diverse areas has created a need for volunteers with special skills, knowledge and experience that can't always be found in the student population.

Future plans for the Center involve continuation and expansion of the present programs, with a focus on reaching people in outlying communities.

Transportation is the primary obstacle in reaching outlying communities. The Center, which deals with an average of 350 to 450 volunteers each term, has only one vehicle for transporting volunteers.

Persons who can assist with the transportation problem or provide other assistance, such as entertaining the Mount Union playground children on a visit to University Park, are urged to contact the Volunteer Service Center, located in Room 215, Hetzel Union Bldg.

Volunteers may visit the center from 8 a.m. to 5 p.m. Monday through Friday or call 865-4341 or 865-3432.

Three lectures in heraldry planned

John Brooke-Little, Richmond Herald at the College of Arms in London, will deliver three illustrated public lectures on heraldry Monday through Wednesday, Oct. 7, 8 and 9, at 8 p.m. in Room 112 Kern.

He will speak on "Heralds, Their Origin and Duties Through the Ages" Oct. 7. The following evening, Oct. 8, his topic will be "The Development of Arms Under the Heralds," explaining the connection between heraldry and social history. The concluding talk, Oct. 9, will be "Heraldry as a Living Science and Art Form," dealing with the art and abuses of modern heraldry, both legally and artistically.

The lectures are being sponsored by the University's Interdisciplinary Graduate Program in conjunction with a course entitled "Artist, Herald, and Poet in the Thirteenth Century," to be taught on campus next spring by Dr. Gerard J. Brault, professor of French.

Sykes appointed

A Division of recreational sports has been established in the College of Health, Physical Education, and Recreation and Clarence M. Sykes, professor of physical education and head of men's intramural athletics, has been named director.

Establishment of the division recognizes the continuing growth and scope of intra-University recreational, intramural, and sports club activities.

Sykes has been a member of the faculty since 1935 and has worked with intramural activities since 1946.

Title changes in physical education

In the College of Health, Physical Education and Recreation, the following personnel changes have been announced:

Martha A. Adams has been named assistant dean for resident instruction. She is professor of physical education.

Dr. James D. Gallagher, assistant professor of physical education, has been appointed associate dean of Commonwealth Campuses.

Dr. E. James Kelley, instructor of physical education, has been named assistant dean for continuing education.

Dr. Karl G. Stoenefels, professor of physical education, has been named associate dean for academic affairs.

PUBLICATION —

(Continued from page one)

of English; Peirce F. Lewis, professor of geography; William J. Mahar, assistant professor of humanities and music (Capitol Campus); Harrison T. Meserole, professor of English; John E. Searies, professor of education; Philip E. Stebbins, associate professor of history; Kenneth A. Thigpen, assistant professor of English; Daniel Walden, associate professor of American studies; and Philip Young, research professor of English.

Approximately 60 faculty members will be asked to prepare 350 to 400 word vignettes to accompany pictures which will be selected by the editorial board. Any faculty member who wishes to contribute to the book, particularly ideas for pictures and vignettes, should contact Dr. Secor at 2265 Burrows Bldg., University Park.

News in brief

HUMAN DEVELOPMENT

A convocation, a panel discussion, an alumni coffee hour, and tours of the main building will be features of the College of Human Development alumni homecoming program this weekend.

Today (Thursday), the College's "Alumni Recognition Award" will be given to 1971 graduate Thomas E. McKemey at a convocation at 8 p.m. in room S209 Human Development. Dr. Charles Newman, professor of law enforcement and corrections, will make the presentation to McKemey, who is probation and patrol officer in Center City, Philadelphia. Joseph Kileen, agent for the Community Task Force for the State of Maryland, will give the address at the convocation.

Friday's feature program is a panel discussion on student field experiences at 1:30 p.m. in the Human Development Living Center. Saturday's program includes an alumni coffee hour beginning at 8:15 a.m. following which tours of the Human Development Bldg. will be conducted.

STATE DIRECTORY

A new Commonwealth Directory, containing the addresses and telephone numbers of many State employees in Harrisburg and elsewhere, is now available and may be useful to many University departments. Considered quite complete, it is about as

thick as a University undergraduate catalogue. The University's General Services will order these directories in bulk if interest is shown by various offices, and L. R. Robb, director of the department, asks that those wishing to obtain one or more directories, at a cost of \$1, call 865-8311 prior to Oct. 25 (at 5 p.m.). The individual State employee's name, his title, his department, location and telephone are listed in the directory.

PHOTOGRAPHY EXHIBIT

The work of Latvian photographer, Jan Kreicisbergs, will continue on exhibit on the second floor of Carnegie Bldg. through Oct. 31, sponsored by the School of Journalism. The 27 black-and-white prints were assembled from the collection of Robert Jaskovskis of Shippensburg, friend of Kreicisbergs. In his native Riga, Kreicisbergs is a photographer for a fashion magazine.

HEALTH CENTER

Ground breaking will take place this month for the Evelyn G. Frederick Health Center in Millersburg, an ambulatory health care center which will be owned by the Howard G. Frederick Trust and operated by the Hershey Medical Center. Named for the late daughter of the late Mr. Frederick, the building is viewed by federal and state officials as a demonstration project which may serve as a national prototype for delivery of health care in small towns and rural areas. Occupancy is

scheduled for one year from the day construction begins. The center, which will provide out-patient medical, dental and 24-hour emergency care, will be staffed by Hershey faculty in the department of family and community medicine located permanently at Millersburg.

GENETICS SYMPOSIUM

Four scientists will participate in a Genetics Symposium Friday, Oct. 11, in 112 Kern Bldg., beginning at 1 p.m. Dr. Robert Selander of the University of Rochester will speak first on "Population Structure and Mating Systems." At 2 p.m., Dr. Paul Todd, Penn State biophysicist, will talk on "Genetic Repair Modes in Mammalian Cells Exposed to Ultraviolet Light." Dr. Carol Moore, also of Rochester, talks on "Genetic versus Physical Distances" at 3:30 p.m., followed at 4:30 p.m. by Dr. Leslie Bullock, Hershey, on "Genetic Regulation of Androgen Receptors in the Mouse." Dr. J. E. Wright, Penn State biologist, will preside.

WORKSHOPS SCHEDULED

The first in a series of annual workshops on the physical state of aqueous cytoplasm will be held at the University Oct. 13-16. Five of the world's top authorities will discuss the latest ideas and developments concerning the physical and chemical state of water inside cells and near biological surfaces. They include Dennis Chapman, Sheffield University, England; Ernest Pol-

Balaban wins Lamont prize

John Balaban, assistant professor of English, has received the 1974 Lamont Poetry Selection for his book of poems, "After Our War."

One thousand copies of the book will be purchased by the Academy of American Poets, sponsor of the prize for the best first book of poetry. They will be distributed to its members.

A native of Haboro, near Philadelphia, Balaban was graduated from Penn State in 1966 and the following year began a two-year period of alternative service in South Vietnam as a conscientious objector. He served as an instructor in English literature and linguistics at the University of Can Tho in the Mekong Delta.

Injured during a bombing attack, he later returned to the Far East as a field representative for the Committee of Responsibility to Save War-Injured Children.

During his stay in South Vietnam, Balaban became interested in "Ca-Dao," the ancient Vietnamese folk poetry. In 1971, he received a \$9,000 National Endowment for the Humanities grant for further study of this poetry.

Balaban also holds a master of arts degree in English literature from Harvard University.

"After Our War" will be published by the University of Virginia Press.

Senate approves summer calendar

The University Faculty Senate has approved a 1975 Summer Term calendar proposal which provides a six-week session within the regular ten-week term. The plan, developed by the President's Calendar Commission, was approved last week by the University Council.

At the Oct. 1 Senate meeting, Dr. Asa J. Berlin, Commission chairman, emphasized that the plan is an experimental one for the 1975 Summer Term only and does not represent a long-range recommendation. The Commission currently is studying the overall Penn State calendar.

The 1975 Summer Term plan provided for a standard six-week session to be added in the middle of the term. The ten-week term would be intended primarily for continuing University students who wish to take the maximum number of credits, while the six-week session would be of primary interest to particular groups of students such as public school teachers.

Prior to Senate consideration of the calendar change, Pres. John W. Oswald noted that the plan was experimental and said that if there was to be a six-week session in the 1975 Summer Term, "the decision has to be made almost immediately."

In discussion of the proposal, several senators raised questions concerning operating details of the six-week session. Dr. Oswald said that work would begin immediately to set up administrative guidelines to implement it.

Earlier, the Senate, after more than an hour's discussion, approved an amended guideline for Senate consideration on recommendations for faculty participation in University governance.

The guidelines, developed by the Senate Steering Committee on Governance, detail

(Continued on page four)

Leaner days over since emergence of food problems

Ag research grants easier to come by, says Nelson

Historically, urban societies have offered little encouragement and limited funding to their agricultural researchers, according to Dr. Richard R. Nelson.

"We've been the wetbacks of science," Penn State's Evan Pugh Professor of Plant Pathology points out. "Now, however, people are beginning to realize that if we don't swim, they won't eat."

The origin of the lean times — from which agricultural science is definitely emerging — paralleled the Sputnik era of the mid-fifties, when America's need to outdo the Russian space program ushered in a period of pure or basic research.

"This attitude filtered down to the biological and agricultural sciences, and it became increasingly difficult to obtain grants to work on applied problems," Dr. Nelson explains. "At the same time, there was a feeling in Government that we were a land, if not a world, of agricultural surpluses. After all, we were spending millions of dollars a day storing surplus wheat and a variety of agricultural products.

"In the early sixties, programs designed to increase yields were deemphasized and research on new uses for crop plants was stimulated. I can remember giving a talk in Washington where I discussed the future food crisis which I saw looming as a result of population pressures. The audience did not appear to be overly impressed.

"In the past two years, the cycle has come full about, and everyone recognizes the obvious food crisis. Agricultural science is on the upswing, and since I can't visualize a long range solution to world food problems, I don't foresee any short range decline in the importance of agriculture."

Dr. Nelson's entire career has been

spent studying plant diseases caused by fungi. Because fungi are notorious for their capacity to vary, new races continually arise to threaten currently grown varieties of crops.

The 1970 Southern corn leaf blight was caused by a fungus Dr. Nelson has been investigating for 15 years, and he is currently studying the epidemiology of the blight under a \$150,000 grant from the USDA.

"Disease and pest management have top priority now in Washington," he points out. "In the past, most of our research on disease control was after the fact, and since most of our major crops are grown as monocultures with identical major varieties,

they have been highly vulnerable to such epidemic disasters as stem rust, corn blight or coffee rust. Because of the turn-around in attitude of the people holding the purse strings, scientists will now be able to try to develop techniques for early detection of existing plant diseases and of new races with the capacity to attack present crop varieties."

While Dr. Nelson has authored over 175 scientific papers and edited the recent book, "Breeding Plants for Disease Resistance," the reason he came to Penn State in 1966 was not to improve his research situation but to have more contact with students.

(Continued on page four)

Dr. R. R. Nelson — a career studying plant diseases caused by fungi.

Death

Charles K. Hallowell, the county agricultural agent for Philadelphia for 32 years, died October 3 at the age of 81. He was appointed county agent in 1923 and became well known for his work in lawn and turf development. In 1953 he received a distinguished service award from the National Association of County Agricultural Agents. He retired in 1955 and became director of the U.S. Golf Association's Regional Greens Service. He also served as legal representative of the U.S.G.A. He was graduated from Penn State in 1917, with a B.S. in agronomy.

Honors

Dr. James F. Tammen, head of the department of plant pathology, took over as president of the American Phytopathological Society at its 66th annual meeting in Vancouver, B.C., recently. He was president-elect in 1973-74 and previously had served the Society as counselor and counselor-at-large. The Society has a membership of 2,700 throughout the world.

Dr. James D. Hammond, professor of business administration, has been elected president of the American Risk and Insurance Association, the foremost learned society in insurance, devoted to fostering risk and insurance education and research. It has an international membership of 2,000.

Dr. Robert D. Pashek, associate dean of the College of Business Administration, has been elected president of the American Society of Traffic and Transportation, which is devoted to the furtherance of transportation and logistics through education and research. The Society conducts a certification program of a series of examinations for practitioners in the field.

Dr. Dean E. Arnold, assistant professor of biology, has been given the W. F. Thompson Award of the American Institute of Fishery Research Biologists, for the best published research paper on aquatic ecology based on work done while the author was a student. Dr. Arnold's paper, based on 1966-69 research while he was a Ph.D. candidate at Cornell University, was titled "Ingestion, Assimilation, Survival and Reproduction of *Daphnia Pulex* Fed Seven Species of Blue-Green Algae." It was published in the November, 1971, issue of the Journal of Limnology and Oceanography.

Dr. Roland M. Leach, Jr., professor of poultry science, has received the 1974 Calcium Carbonate Campus Travel Fellowship Award in Trace Mineral Research. The \$1,000 grant is to be applied toward the recipient's travel expenses to overseas research centers and experimental stations. Selection is made by the National Feed Ingredients Association Awards Committee.

Dr. Leach's research centers around the requirements and functions of mineral elements in animal nutrition.

Kirkwood named Army ROTC head

Col. Clifford T. Kirkwood has been appointed professor and head of the Department of Military Science in the Reserve Officers Training Corps program, succeeding Col. Thomas J. Collins, Jr., who retired Sept. 30.

A native of Wilton, Me., Colonel Kirkwood is a graduate of the University of Maine, where in 1952 he received the bachelor of arts degree in business administration and his commission as a second lieutenant in the U.S. Army.

Colonel Kirkwood first served as Platoon Leader and Battery Commander at Philadelphia Defense Battalion, 1952-54, and during 1955-56 he was stationed in Japan as Air Defense Battery Commander. After other assignments, he became assistant professor of military science at Central Michigan University from 1962 to 1966.

He was stationed in Bangkok, Thailand, 1966-68, and in Saigon, Vietnam, 1969-70. He was assigned to Fort Bliss, Tex., in 1970 as Battalion Commander until 1971 until his appointment at Penn State. He was Staff Officer, Deputy Chief of Staff for operations, Department of the Army, in the Pentagon.

In writing

Dr. Frank P. Chaplin, professor of mineral processing and assistant of the metallurgy section of the Department of Material Sciences, is co-editor of a new book, "Solution Mining Symposium," published recently by the American Institute of Mining, Metallurgical, and Petroleum Engineers (AIME). Other co-editors were W. A. McKinney, of the U.S. Bureau of Mines, and A. D. Pernichele, of Dames and Moore, Washington, D.C. The volume is the result of a major symposium held at the 1974 annual meeting of AIME and contains 31 technical chapters by 57 experts in the field.

Dr. William R. Schmaltz, professor and head of the Department of Slavic Languages, is the author of "An Old Prussian Grammar," published by the University Press. The book is the first grammar of the Old Prussian language ever to appear in English, and the first Old Prussian grammar to appear in any language since 1944. Old Prussian, a Baltic language, is one of the most conservative of Indo-European languages, yielding up ancient Sanskrit for importance in historical and comparative linguistics.

De Jong appointed PIRO director

Dr. Gordon F. De Jong, professor of sociology, has been named director of the Population Issues Research Office (PIRO) at the University, succeeding Dr. Wilbur Zelinsky, professor and head of the department of geography.

PIRO is an inter-college research unit organized in 1971 to bring together faculty and students from academic departments with an active interest in demographic problems.

Dr. De Jong has had numerous publications in the area of demography and the sociology of religion. He is currently conducting a study to assess the basic factors influencing decisions on population redistribution policies in Great Britain, Israel and The Netherlands.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt positions listed below may apply by calling Employment Office, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until:

5 P.M., Thursday, October 17

PROJECT COORDINATOR, COLLEGE OF HUMAN DEVELOPMENT — University Park

Responsible for coordinating staff trainers; extensive contacts with Child Welfare Agencies; supervision of the evaluation process; systems intervention work with the Pennsylvania Department of Public Welfare; and public relations. Public relations work as a spokesman for the Director and the Project. A.B.S. in Human Development, or equivalent, plus three to five years experience in working with social service agencies and/or organization are preferred.

RESEARCH AIDE, COLLEGE OF HUMAN DEVELOPMENT — University Park

Responsible to the Field Manager of the Governor's Action Center Project for computer data analysis, coding, preparation and maintenance of computerized case record data on the activities of the Governor's Action Center. Bachelor's Degree in Community Development or a related human service-oriented field; familiarity with computer work with computer programming and SPSS; one year's effective experience in citizen's advocacy, or human service programs, or research.

ASSISTANT MANAGER — HOUSING AND FOOD SERVICES — COMMONWEALTH CAMPUSES — McKeesport Campus

Responsible to Manager, Housing and Food Services — Commonwealth Campus for assisting supervisor in the overall operation of the Housing and Food Service units. Associate Degree in Institutional Management, or equivalent, plus two years' effective experience in food supervision.

JANITOR FOREMAN — McKeesport Campus

Responsible to the Maintenance Foreman for supervision of all janitorial and custodial work. Supervise all janitorial and custodial employees in performing required duties to meet University standards. High School education or equivalent and two to four years' experience in custodial or housekeeping work. Supervisory experience highly desirable.

MAINTENANCE FOREMAN — McKeesport Campus

Under the direction of the Business Manager, perform duties necessary for the maintenance, repair, and upkeep of the McKeesport Campus Physical Plant and facilities. Supervise and direct all maintenance employees in the performance of their assigned duties. High School education or equivalent with two years' vocational training or equivalent and two to four years experience in building and grounds maintenance or construction. Supervisory experience highly desirable.

Le Troupe de Paris actors (l. to r.) O. Helmut Duc, Oliver Hussell, and Christiane Desobles are featured as Queen Marguerite, the King, and Queen Marie in the Espone Tenace play "Le Roi Se Meurt" to be performed Monday, Oct. 14, in Schwab Auditorium, at 8 p.m. Tickets remain on sale for the play, performed in French, and will be sold at the door. Le Troupe de Paris, the French acting company, has performed at Penn State for a number of years.

Ph.D. in factuality appointments announced

Dr. Charlotte F. Fischer, as professor of computer science. Since 1968, she as professor of applied mathematics and computer science at the University of Waterloo, Ontario, she has also taught at the University of British Columbia and has had summer appointments as scientist for the Pacific Oceanographic Group Fisheries Research Board, research engineer for Boeing, consultant to the Pacific Oceanographic Group, and research associate at Harvard College Observatory. She earned B.A. and M.A. degrees at the U. of British Columbia. In applied mathematics at Cambridge University. She was the first woman to receive a Sloan Fellowship, which she held in 1964-67. She is author of "Introduction to Programming the IBM 7090" and has a book in progress on the Hartree-Fock Method for Atoms.

Dr. Roland E. Fleischer, as professor of art history. A member of the faculty of George Washington University, he joined in 1966. Dr. Fleischer is a specialist in Northern Renaissance and Baroque art. He obtained a B.A. in art from Western Maryland College and M.A. and Ph.D. in art history from The Johns Hopkins University. He did graduate work at the University of Amsterdam and the University of Wisconsin.

M. Knox Fowler, as professor of theatre and film. A member of the Rochester College faculty from 1961 until this year, he was previously director of Theatre Studio and Players' Ring Theatre and associate director of Leontovich Studio, Hollywood, Ca. He is a graduate of the University of Colorado and received an M.A. from U.C.L.A. He was a Fulbright Scholar at the Royal Scottish Academy of Drama.

Dr. John B. Hovumail, as adjunct professor of meteorology. He served on the faculty from 1967 until last April and is now associated with the U.S. Weather Bureau, Sulland, Md., as research meteorologist in the development of a Weather Bureau Numerical Weather Prediction Model.

Dr. William G. Irons, as professor of anthropology. Formerly assistant professor of The Johns Hopkins University, he is a graduate of the University of Michigan, receiving advanced degrees there also. He has done post-doctoral work at London School of Economics.

Dr. James P. Iwanicki, as associate professor of engineering in the department of industrial and management services engineering. He has taught at the University of Alabama since 1967. He was graduated from the University of Akron, holds an M.S. from Alabama, and obtained a Ph.D. from Virginia Polytechnic and State University.

Omel M. Landers, as associate professor of physical education. He taught at the University of Washington for the past two years, serving as acting director of Summer Session there just completed. He is a Sen. Jose College graduate with an M.S. degree from the University of Illinois.

Dr. James F. Repalle, as associate professor of nursing. He has been assistant administrator of South Side (Pittsburgh) Hospital. A graduate of the Pennsylvania Hospital School of Nursing for Men, he received an M.S. in education from Temple University, M.S. from Penn, and Ph.D. in higher education administration from Pitt.

Dr. James F. Scotland, as associate professor of journalism. He was assistant professor of journalism at York College of CUNY, and in 1973-74 at the University of Lagos, Nigeria, as dean of the School of Mass Communication. He is a Boston University graduate with advanced degrees from Wisconsin.

Dr. Calvin Spator, as associate professor of biology. He earned his M.S. and Ph.D. in advanced degrees from U.C.L.A., where he was a doctoral fellow for two years. In 1973-74 he was visiting assistant professor at West Virginia University, co-ordinating the biology core program.

Dr. Ira Welinsky, as associate professor of nutrition in the College of Human Development. He is a graduate of City University of New York, with advanced degrees in biochemistry from the University of Kansas. For the past four years he has been a member of the faculty of Hebrew University's School of Nutritional and Domestic Science, Rehovot, Israel.

Dr. Mian-Chang Wang, as associate professor of civil engineering. He was assistant professor at engineering school at Tsinghua University, Beijing, and is a registered professional engineer in the state and a professional civil engineer in China. He received his bachelor's degree from Cheng King University, Taiwan, and advanced degrees

from the University of California, Berkeley.

Dr. Harry J. Berman, as assistant professor of individual and family studies. He received a B.A. degree in psychology at the University of Chicago and the Ph.D. at Washington (St. Louis) University, where he served as instructor and research assistant.

Dr. Roger N. Conish, as assistant professor of theatre arts. Formerly assistant professor of theatre arts at the University of West Florida at Tallahassee, he is a graduate of the University of Connecticut at Storrs, received an M.F.A. degree from Catholic University, and was granted the Ph.D. by the University of Minnesota. He has written 13 plays produced or published in university, community and professional theatres.

Dr. G. D. Davenport, as assistant professor of physical education. She was an instructor at the Creative Learning Center, Palos Verdes, Ca. She is a graduate of U.C.L.A., which she attended for her M.A. degree.

Dr. Susan M. Bennett, as assistant professor of psychology at Beaver Campus. She earned a bachelor's degree in liberal arts and education at Oberlin College, M.Ed. at the University of Pittsburgh and Ph.D. in educational psychology at the University of Hawaii.

Arthur S. Cantrill, as assistant professor of film. He taught film making at Swinburn College of Technology in Australia and at the University of Oklahoma and was an art teacher in film editing in Australia and England.

Dr. Corinne R. DeKeshamp, as assistant professor of philosophy. She was granted an M.A. degree by the University of Tuebingen, in Germany and the Ph.D. by the University of Bonn. In the past year, she calloqued the Home Collector at McGill University, Montreal.

Leura M. Olf, as assistant professor of English at Hazelton Campus. She obtained a B.A. degree in English literature and a doctor of arts degree from Idaho State University, where she practiced as a registered nurse in California, Hawaii and light from 1953 until this year.

Dr. Johnathan Goldstein, as assistant professor of computer science. He is a graduate of Swarthmore College, where he received his M.S. in mathematics from the University of California at Berkeley. He has been on the University of Chicago faculty for the past three years.

Waiting Opportunities

For procedural and funding source information, call 865-1372.

October 10, 1974

(149-9) THE AMERICAN SCANDINAVIAN FOUNDATION, established since 1926 at New York, N.Y. (10021) has announced its program of fellowships and grants for study in Scandinavia in 1975-76. Fellowship deadlines differ for different awards. Title I-V of the Higher Education Act of 1965, this program supports the administration of cooperative education programs, including planning, implementation, and evaluation. It also supports training programs for persons involved in the planning, establishment, administration or coordination of cooperative education programs and research programs concerned with the methods of improving, developing or promoting these programs. Both two- and four-year institutions are eligible for the awards. A \$7500 stipend is imposed for the administration of cooperative education programs. The annual deadline is Dec. 1, 1974 (Ref. OE Instructions for Submittal AY 71/73-63/3076).

(150-1) Through its cooperative student programs, the Office of Education allows full time students to alternate periods of academic study with off-campus employment closely integrated with the educational and career goals of the students. Title I-V of the Higher Education Act of 1965, this program supports the administration of cooperative education programs, including planning, implementation, and evaluation. It also supports training programs for persons involved in the planning, establishment, administration or coordination of cooperative education programs and research programs concerned with the methods of improving, developing or promoting these programs. Both two- and four-year institutions are eligible for the awards. A \$7500 stipend is imposed for the administration of cooperative education programs. The annual deadline is Dec. 1, 1974 (Ref. OE Instructions for Submittal AY 71/73-63/3076).

University Park Calendar

October 10-20, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday, October 10 — FSHA 410 dinner, "Mexico," 5:30 p.m., Maple Room. Reservations required.

Thursday, October 10 — Sports: Women's field hockey, vs. Ursinus, 2:30 p.m.

Friday-Saturday, October 10-12 — University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Thursday, October 10 — College of Human Development Alumni Recognition Award ceremony, 8 p.m., Room S209 Human Development. Honored: Thomas E. McKerny '71; speaker: Joseph Killen, agent for Community Task Force for the State of Maryland.

Friday, October 11 — College of Human Development panel discussion on "Human Service — How We Found It," 1:30 p.m., Human Development Living Center.

Friday, October 11 — Colloquy, George Plimpton, author, on "The Amateur among the Pros," 9:30 p.m., University Auditorium.

Friday, October 11 — Groove Phil Groove, 9 p.m., HUB ball room.

Friday, October 11 — Sports: Soccer, vs. Army, 7 p.m., Jeffrey Field.

Friday, October 11 — Genetics Symposium, 1-5 p.m., Room 112 Kern.

Friday, October 11 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Entertainment by Marty and Buddy.

Saturday, October 12 — Sports: Football, vs. Wake Forest, 1:30 p.m., Beaver Stadium. Homecoming.

Saturday, October 12 — Penn State Glee Club Homecoming Concert, 7:30 p.m., University Auditorium. Traditional works for men's voices, old American songs arranged by Aaron Copland, folksongs and spirituals. Hy-Los featured.

Saturday, October 12 — Human Development Alumni Coffee Hour, 8:15 a.m. Tour of Human Development Building, 9 a.m., beginning at foyer.

Sunday, October 13 — Chapel Service, 11 a.m., Music Bldg. recital hall. The Reverend Nelson Frank, former pastor of St. Paul's United Methodist Church, State College.

Sunday, October 13 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 13 — Artists Series, Senegalese dance group, 3 p.m. (special event tickets) and 8:30 p.m. (series tickets only), University Auditorium. (Change in schedule.)

Monday, October 14 — Le Treteau de Paris performance (In French) of Inesocsa's "Le Roi Se Meurt," 8 p.m., Schwab.

Monday, October 14 — Gamma Pi Epsilon program, 8 p.m., McElwain Hall piano recital. Dr. Marshall Raffel on "The Physician and the Planning of Health Services."

Tuesday, October 15 — Dedication of Labor Archives Search Rooms, Pattee Library, 3 p.m., Rare Books Room.

Tuesday, October 15 — Sports: Women's field hockey, vs. West Chester, 9 p.m.

Tuesday-Saturday, October 15-19 — University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Wednesday-Thursday, October 16-17 — FSHA 410 dinner, "Ghina," "America 1800's Riverboat Dining," 5:30 p.m., Maple Room. Reservations required.

Wednesday, October 16 — Thalia Trio recital, 8:30 p.m., Music Bldg. recital hall. Works by Josef Soplroni (first U.S. performance), Dvorak, and Haydn.

Wednesday, October 16 — Artists Series Film Festival, "The Chaplin Review," 8:30 p.m., University Auditorium.

Thursday, October 17 — Two Cultures Dialogue, noon, Room 189 Materials Research Lab. Kenneth P. Wilkinson, rural sociologist, on "Food and Man."

Friday, October 18 — Folk and Square Dance Roundup, 7:30 p.m., North Gym, White.

Friday, October 18 — Artists Series, Anthony and Joseph Paratore, duo-pianists, 8:30 p.m., Schwab.

Friday, October 18 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Entertainment by David and Denrexi, Rose Bohr.

Saturday, October 19 — Sports: Football, vs. Syracuse, 1:30 p.m., Beaver Stadium. Cross country, vs. Pittsburgh. Women's field hockey, vs. Cortland, 10 a.m.

Saturday, October 19 — PSU Symphony Orchestra concert, 8:30 p.m., University Auditorium. Brahms's Academic Festival Overture, Beethoven's Emperor Concerto, Mendelssohn's Reformation Symphony.

Sunday, October 20 — Chapel Service, 11 a.m., Eisenhower Chapel. Stanley F. Paulson, dean of the College of Liberal Arts.

Sunday, October 20 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 20 — Colloquy, Dr. Raymond McNally, Dracula and vampire expert, on "In Search of Dracula," 8 p.m., Schwab.

Sunday, October 20 — Graduate Commons Evening Concert Series by Claremont Windwind Quintet, 8 p.m., Room 112 Kern.

SEMINARS

Thursday, October 10 — Natural Disasters, Meteorology and Geosciences, 2:20 p.m., Room 220 Willard. Dr. John Lee, meteorology, on "Hurricane Disasters."

Thursday, October 10 — Physics and Chemistry, 3:35 p.m., Room 117 Osmond. P. A. Egolfstaj, University of Guelph, on "Theory of the Liquid State."

Thursday, October 10 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. F. Pasquill, Meteorological Office, Bracknell, Berkshire, England, on "Recent Activities in Boundary Layer Research in the British Meteorological Office."

Thursday, October 10 — Biophysics, 4 p.m., place to be announced. Jack Gross, University of Wisconsin, on "The Evolution of a Model of Steroid Hormone Action."

Thursday, October 10 — Nuclear Engineering, 4 p.m., Brazaleze Nuclear Reactor. Dr. Robert A. Shaw, Clarkson College of Technology, Potsdam, N.Y., on "Corrosion Product Radiolysis Concentration in BWR."

Thursday, October 10 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Dr. Dan Knevel on "Crop Physiology Research at INTA, Castalar."

Thursday, October 10 — Statistics, 4 p.m., Room 75 Willard. William Cleveland, Bell Telephone Labs, Murray Hill, N.J., on "Time Series — Estimation of Coherence, Frequency Response and Envelope Delay."

Friday, October 11 — Ceramic Science, 3 p.m., Room 301 Mineral Industries. Dr. L. E. Kinnard, General Motors Corp., on "ZrO₂ Sensors."

Friday, October 11 — Mechanical Engineering, 4 p.m., Room 103 Mechanical Engineering. Dr. E. V. Schlunder, University of Karlsruhe, West Germany, on "Mass Transfer to Granular Materials and Prediction of Design Data for Active Carbon Filters Applied in Water Purification."

Monday, October 14 — Genetics, 4 p.m., Room 111 Tyson. Edgar H. Palpat, School of Forest Resources, on "Ecological Genetics of Douglas Fir and Its Implication in a Breeding Program."

Monday-Tuesday, October 14-15 — Biochemistry, 11:10 a.m., Room 101 Althouse. Dr. H. G. O. Wood, Penn State University, Cleveland, on "Transcarboxylase. The Structure of Transcarboxylase. Role of Metals, Biotin and Subunits in Transcarboxylation." "Formation of P-enolpyruvate from Pyruvate and ATP with a Pyrophosphoryl Enzyme as an Intermediate."

Monday, October 14 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. R. B. Bernstein, W. T. Doherty Professor of Chemistry and Physics, University of Texas, Austin, on "Information — Theoretical Approach to Reactive Molecular Collisions. Entropy Deficiency and Supralocal Analysis."

Monday, October 14 — Microbiology, 4 p.m., Room 350 Frear. Dr. Robert H. Kelly, The Mathilda and Terence Kennedy Institute of Rheumatology, London, on "Aberrant Immunoregulation during Immune Responses to Toxic Antigens."

Tuesday, October 15 — Physiology, 3:55 p.m., Room 8 Life Sciences. Dr. Rosemary Schraer, "Aspects of Mitochondrial Function in Calcium Movement and Calcification."

Tuesday, October 15 — Physics, 3:35 p.m., Room 117 Osmond. J. Eberly, physics and astronomy, University of Rochester, on "Self-Induced Transparency."

Wednesday, October 16 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. R. B. Bernstein, W. T. Doherty Professor of Chemistry, University of Texas, on "Detailed Molecular Beam Study of the Dynamics of Elementary Reaction: Comparative Anatomy of a Direct — Versus a Complex — Mode Reaction."

Tuesday, October 15 — Air Pollution Conference, 2:20 p.m., Room 140 Fenske. William M. Moyer on "Design of an Air Quality Monitoring Data Retrieval System."

Wednesday, October 16 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Dr. T. S. West, Imperial College, London University.

Thursday, October 17 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Dr. John C. F. Tedrow, Rutgers University, on "Soils of the Solar Regions."

Thursday, October 17 — Microbiology, 4 p.m., Room S2 Frear. Donald B. Clewell, oral biology and microbiology, University of Michigan Dental and Medical School, on "Structure, Function and Maintenance of Plasmids in Streptococci."

Thursday, October 17 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Toby N. Carlson on "Extinction of Solar Radiation by Dense Haze Over the Tropical Atlantic."

Thursday, October 17 — Nuclear Engineering, 4 p.m., Brazaleze Nuclear Reactor. Dr. Robert A. Shaw, Clarkson College of Technology, Potsdam, N.Y., on "Corrosion Product Radiolysis Concentration in BWR."

Thursday, October 17 — Computer Science, 4 p.m., Room 101 Althouse. Dr. J. Ian Munro, applied analysis and computer science, University of Waterloo, on "Sorting and Searching in Multisets."

Friday, October 18 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. R. B. Bernstein, W. T. Doherty Professor of Chemistry and Physics, University of Texas, on "Detailed Molecular Beam Studies of the Dynamics of Elementary Reaction: Comparative Anatomy of a Direct — Versus a Complex — Mode Reaction."

Friday, October 18 — Physical Chemistry, 4 p.m., Room 333 Whitmore. Harold G. Munson, on "The Effects of Collisions on Molecular Reorientation Correlations from Depolarized Rayleigh Scattering of Dense Fluids."

MEETINGS

Thursday, October 10 — College of Education faculty meeting, 3:30 p.m., Room 112 Kern.

Monday, October 14 — OTIS, 6:30 p.m., Room 203 HUB.

Tuesday, October 15 — ARHS, 7:30 p.m., Room 303 Bruckey.

Tuesday, October 15 — Penn State Mining Society, E. J. Korber, Cambria Division Superintendent, Bethlehem Mines, on "Management Structure of a Large Materials Corporation," 7:30 p.m., Room 121 Mineral Industries.

Tuesday, October 15 — Graduate Student Association Council, 7 p.m., Room 102 Kern.

Wednesday, October 16 — Biological Society, 7:30 p.m., Room 8 Life Sciences. Dr. Robert Butler, on "Fish and Man as Animals."

Wednesday, October 16 — AWS, 7 p.m., Room 203 HUB.

EXHIBITS

Museum of Art — Manyangut and Other Places. Francis Spaight's paintings and drawings. Galleries A and C. Selections from the permanent collection, Gallery B. 20th Century Master Pottery, Galleries B, opening Oct. 20.

Zoller Gallery — Super Mud '74.

Chambers Gallery — Jeanne Stevens-Soliman, drawings and ceramics, until October 18. Dan Fitch, paintings, drawings and ceramics, opening October 18.

Kern Gallery — Bob and Susan Duncan, "Corrosion Product Radiolysis Concentration in BWR," until October 12. Blumenthal, acrylics, opening October 13.

Carnegie Bldg. — Photos by Jan Kreibergs, Latvian photographer, arranged by School of Journalism.

On the Artists Series program, Oct. 13, in the new University Auditorium, the Senegalese National Company will include this battery of drummers from various regions of Senegal among its program features. The program at 9 a.m. is open to the general public, and tickets, if any remain, are currently on sale at the HUB and at the University Auditorium. The performance at 8:30 p.m. is sold out. The Senegalese dancers were at Penn State in 1971, scoring a hit.

FILMS

Friday-Sunday, October 11-13 — South Halls, "What's Up, Doc?" 7:30 and 10 p.m., Redler "D."

Friday-Sunday, October 11-13 — Centre Halls, "A Clockwork Orange," 7:30 and 10 p.m., Room 102 Forum.

Friday-Sunday, October 11-13 — East Halls, "Sometimes a Great Notion," 7:30 and 10 p.m., Finck Room.

Friday-Sunday, October 11-13 — North Hall, "Bullitt," 7:30 and 10 p.m., Room 105 Forum.

Friday-Sunday, October 11-13 — Pollock Theatre, "Torn Curtain," 8 and 10 p.m., Room 112 Kern.

Friday-Sunday, October 11-13 — West Halls, "Godspell," 7:30 and 10 p.m., Waring lounge.

Wednesday, October 16 — Commonsplace Theatre, "Torn Curtain," 8 and 10 p.m., Room 112 Kern.

Friday-Sunday, October 18-20 — Centre Halls, "Mary, Queen of Scots," 7:30 and 10 p.m., Room 102 Forum.

Friday-Sunday, October 18-20 — North Halls, "A Man Called Horse," 7:30 and 10 p.m., Room 105 Forum.

Friday-Sunday, October 18-20 — Pollock Theatre, "West World," 7:30 and 10 p.m., PUB.

Friday-Sunday, October 18-20 — West Halls, "Valachi Papers," 7:30 and 10 p.m., Waring lounge.

Artists Series has crowded week

The piano duo of Anthony and Joseph Paratore.

Singers, dancers, drummers, musicians, acrobats, still-walkers, and other performers will be part of the Senegalese National Dance Company's troupe at University Auditorium Sunday, Oct. 13, in two performances.

The show at 3 p.m. is a "Special Event" of the Artists Series for which tickets have been available at the Auditorium this week. A performance at 8:30 p.m. is for holders of Theatre/Dance Series tickets only. This series was sold out completely, so that no seats are available by general sale.

The Company is celebrating its 15th year of performance and is featuring a new program quite different from that presented

in 1971 when the troupe was last here on its U.S. tour. The program will include batteries of drummers from different regions of Senegal; still-walking acrobats; a "talking drum"; high-energy dances; along with the acrobats and the harvest dance from its previous tour.

Next on the Artists Series Fine Arts Series, in Schwab Auditorium, will be the piano duo of Anthony and Joseph Paratore, Friday, Oct. 16, at 8:30 p.m. Tickets will go on sale both at the HUB and at University Auditorium Tuesday, Oct. 15.

The Paratores, Boston natives from a family with a strong musical tradition, made their professional debut with the Boston Pops orchestra in 1968-69; last month they won first prize in the piano division of the Munich International Competition. Their teacher at Juilliard was Mme. Rosina Lhevinne.

In their program, the Paratores will play Mozart's Sonata in D Major, K. 448; Schumann's Andante and Variations in B flat major, Op. 46; Lutoslawski's Variations on a theme by Paganini; Debussy's "En Blanc et Noir" for two pianos; and Rachmaninoff's Suite No. 2 for two pianos, Op. 17.

The Charlie Chaplin Film Series will continue Wednesday, Oct. 16, with "The Chaplin Review," containing three of his earliest films, "A Dog's Life," "Shoulder Arms," and "The Pilgrim." The films are at 8:30 p.m.; tickets are available at the door.

AG RESEARCH—

(Continued from page one)

His desire to do so he attributes in large part to the influence of his own research preceptor, Dr. E. C. Stakman, former head of the University of Minnesota's department of plant pathology and one of the world's leading researchers in this field.

Dr. Nelson's own passage to Minnesota is an interesting story.

He was a phys ed major with a science minor at St. Olaf College, Minn., leaving after three years to obtain emergency certification as a teacher during World War II.

"It was a small town," he recalls, "and I taught biology, chemistry, math and physics; coached football, basketball and baseball; directed the junior class play; served as health director for the school; and taught all the boys' phys ed classes. I refereed football and basketball games to supplement my \$2,600 a year salary. When the school board only offered me a five percent raise for the next year, I decided to go back to college."

Since the job market for unemployed football coaches was not terribly exciting, Dr. Nelson began to take more science courses and graduated from Augsburg College as a biology major. One of his professors suggested he talk to Dr. Stakman about graduate school.

"I went to see him almost as a joke," Dr. Nelson continues, "but it turned out that he had also started out as a high school football coach in the early 1900s and had maintained a deep interest in athletics. I think it was my athletic background as much as anything that got me my first assistantship."

Dr. Nelson earned his master's degree and doctorate in three years and remained at Minnesota as a Rockefeller Foundation post doctoral fellow before going with the USDA for 12 years at North Carolina State.

"During that entire period, I had only two graduate students, and I had to bootleg much of my teaching on nights or weekends," he says. "I had always believed that despite his eminence in research, Dr. Stakman's greatest contribution lay in teaching and his deep interest in his students' education. I decided that I wanted to find an environment where I could spend more time with students in teaching and as an advisor. Penn State offered that opportunity."

"I believe that universities have done a reasonably good job in training students but have fallen short in educating them. We devote considerable time to teaching them how to use sophisticated equipment and

procedures of statistical analysis but not enough time helping them learn how to make broad use of their factual knowledge."

"In science, the amount of factual knowledge doubles every seven years, but the number of principles and concepts remains fairly constant. Much of our effort as scientists is spent in verifying or supplementing existing concepts; only rarely do we develop new ones."

"From the standpoint of education, we should help our students acquire a broader understanding of what these principles and concepts really mean. The factual knowledge they acquire can then be applied to them. As a teacher, I try to work with these concepts rather than just facts."

Dr. Nelson presents his point of view in a graduate level course in Principles of Plant Pathology, where he also tries to help students develop some sort of personal philosophy of what science is all about. "One thing I dread," he says, "is the idea of a student coming back after several years in the field and telling me that he feels cheated because he wasn't given enough at Penn State. I want to help every student recognize his potential and then encourage him to strive a little bit beyond it."

Hockey club needs coaches, managers

The Penn State Ice Hockey Club, which is open to students, faculty and staff, needs help in coaching and administration.

Organized in 1971 the first game was played Dec. 4 of that year, the Ice Hockey Club was initially pushed by Dr. Lawrence B. Hendry, then instructor in chemistry, who was an NCAA ice hockey referee and who had seen collegiate hockey at Cornell where he studied. Other faculty members, Dr. Robert Bernheim, Dr. Fred Lampe, Dr. Joseph MacNeill, Dr. James L. Hodgson, and Dr. George Guthrie, came out to play or to help.

Now, with a great amount of student interest, the Club limits its yearly membership to 300, with three different levels of competition: intramural, junior varsity and

Dr. Luis Alberto Sanchez (right), one of Latin America's foremost essayists and writers, was guest of honor, with his wife, at a reception in the Rare Books Room of Pattee Library last Thursday. Dean of Libraries Dr. Stuart Forth conversed with Dr. Sanchez whose personal correspondence and manuscripts, 14,000 items in all, were added to the collection of the University Libraries several years ago. Dr. Sanchez visited the campus last week for public lectures, talks to several classes, a discussion with the Comparative Literature Luncheon Group and other activities. Twice the president of the University of San Marcos, Lima, Peru, Dr. Sanchez held various diplomatic and governmental positions and played a role in the development of the Peruvian APRA political party.

lard, Evan Pugh Research Professor Emeritus of Biophysics; Walter Drost-Hansen, University of Miami; Edward Finch, Naval Research Laboratories, Bethesda, Md.; Harold Friedman, SUNY at Stony Brook; and Gilbert Ling, Pennsylvania Hospital, Philadelphia. Program organizers include Penn State biophysicists Alec D. Keith, Wallace Snipes and Dr. Pollard.

LABOR DECLARATION

The Labor Affairs Search Rooms in the Special Collections area of Pattee will be dedicated Tuesday, Oct. 15, at 3 p.m. in the Rare Books Room. The public is invited to attend, and a reception will follow. Speaking at the event will be Les Orear, president of the Illinois Labor History Society. The two rooms were furnished with funds given by the United Steelworkers of America.

SEN. SCHWEIKER MARSHAL

U.S. Sen. Richard S. Schweiker will be the marshal at the 1974 Homecoming Parade at the University on Friday, Oct. 11. Senator Schweiker is a 1950 graduate of the University and in 1970 was named a Distinguished Alumnus of Penn State. Featured in the 6 p.m. parade will be the Penn State Blue Band, local bands and fraternity-sorority floats. The parade will start at the University Drive overpass on College Ave., proceed west on College Ave. to Burrows Rd., turn right onto the campus, continue on Burrows Rd., past Recreation Bldg., heading east on Curtin Rd., and terminate at Parking Lot 80, near East Halls at the University.

BOOK BARGAINS

The Pennsylvania State University Press is distributing copies of its Fall, 1974, catalog to the faculty. Both new and recently published books are listed.

The back of the catalog bears a stamp, which offers faculty and staff 25 percent off on all books provided payment accompanies their orders. Books may be purchased at Room 215 Wagner Bldg.

WPSX highlights

Friday, Oct. 11 — Film, 11 p.m., "Blood on Sand."
Saturday, Oct. 12 — Film, 10 p.m., "The Big Parade."
Sunday, Oct. 13 — Film, 6 p.m., "The Untouchables."
Monday, Oct. 14 — 8 p.m., Beverly Sills in "The Daughter of the Regiment," in series, "Performance at Wolf Trap."
Wednesday, Oct. 16 — 8 p.m., film director Vicente Minnelli featured on series, "The Who Made the Movies."
Thursday, Oct. 17 — Pennsylvania Magazine presents a special report on current subjects for the news.

SENATE—

(Continued from page one)

Senate (consideration of 35 recommendations on governance made by a special committee.

Several senators objected to a proposal that all reports on the matter be sent through the steering committee before going to the Senate, while others were concerned that the reports would be "viewed" by the steering committee.

An amended version of the guideline, in which the steering committee would act as a coordinating mechanism, was finally approved. A second guideline, involving procedures for amending governance items brought to the Senate, was put aside for consideration at the next Senate meeting.

In other action, the Senate approved amendments to a previously approved motion from the Subcommittee on Fringe Benefits "to clear up some misunderstanding."

The amended motion calls on the Fringe Benefits Subcommittee and the External Affairs Committee to investigate the possibility of changing the State Employees Retirement System to lower the retirement age to 55 and provide an automatic yearly cost-of-living adjustment in retirement income.

Senator Guy E. Rindone expressed his resentment of a letter which he said was sent to faculty members and described as Faculty Senate as "dominated by the administration and acting as a company union."

"It is time the faculty rise up, speak out and object to such a letter," he said.

He urged Senate members to write to the University administration and local newspapers expressing the feeling that the Senate "is an effective organization representing of faculty and students and doing its job well."

PENN STATE intercom

Volume 4, Number 7

October 17, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Community affairs institute at Berks

An Institute of Community Affairs, based at Berks Campus and directed generally by Dr. Harold Perkins, has been initiated at the urging of Berks County civic leaders to render a public service in the form of research and continuing education for the benefit of the county.

Dr. Douglas J. Granquist has been appointed program director for the ICA.

The Institute, Dr. Granquist says, hopes to undertake a three-fold mission of public service, applied research, and continuing education for all the citizens of the county. The public service function will include not only research but conferences, workshops, and seminars to aid in community planning and development.

ICA plans also call for developing task forces of area citizens having a knowledge of a specific subject to assist ICA in undertaking selected projects. It is also hoped that ICA will be able to assist in the analysis and implementation of solutions to various problems in planning and developing the community.

A third major role, Dr. Granquist points out, is to serve as a clearing house for information, and as a convener of meetings, and to serve as a central collecting point for local studies as well as those of other communities in the nation having a bearing on local issues.

More active participation by area residents in community planning and problem solving is anticipated.

An Advisory Council, which will help to implement programs, is being formed; elected officials from Berks County boroughs and townships, State legislators, Reading City Council members, County Commissioners, and representatives of industry, labor, education, business and religious and civic groups will be invited to join. Local businesses and foundations will finance the ICA.

UN Day discussion on food and man

"Man and Food in the Late Twentieth Century: An International Perspective" will be discussed by a faculty panel Thursday, October 24, United Nations Day, at 8 p.m., in the KUOB assembly room.

Dr. Wilbur Zelensky, professor and head of the department of geography and former director of the University's Popula-

(Continued on page four)

Reserve lists needed

Reserve reading lists for Winter Term, 1975, should be submitted to the Main Undergraduate Library no later than Oct. 21. After this date, lists will be accepted only if material requested is not needed until the beginning of the third week of classes. Lists are processed strictly in the order received.

Only required readings, which will circulate either for two-hour or overnight loan periods, can be placed on reserve.

Typewritten lists should be submitted on reserve forms available from the Undergraduate Library, W-11 Pattee. Faster service can be provided for books to be ordered if the publisher, date of publication and price are specified.

Occupational tax to be withheld in November

As was the case last year, the University will withhold the Occupational Privilege Tax of \$10.00 from all employees who are based at University Park and are liable for the tax. Since the University will be able to obtain a 2% discount for prompt payment, it will pass this savings on to each employee.

Accordingly, for Faculty and Staff members who are paid on a monthly basis, the tax of \$9.80 will be withheld from their pay checks, dated November 29, 1974. For all other employees (Technical Service, Graduate Assistants, and Wage) the deduction will be made from their paychecks dated November 22, 1974.

If any employee wishes to appeal his liability for this tax, he should apply directly to Mr. Paul D. Bender, Tax Collector, 250 East Beaver Avenue, State College, Pa. 16802.

Department Heads are asked to make sure that their wage earners are aware of this tax.

Conceived "two cultures" concept

Lord Snow, Pamela Johnson to lecture

C. P. Snow, the novelist and scientist who created the "two cultures" concept, will deliver a public lecture Tuesday, Oct. 29, at 8 p.m. in the University Auditorium. Lord Snow, who will be visiting the campus from Oct. 28 to Oct. 31 with his wife, author Pamela Hansford Johnson, will speak as Graduate School lecturer on "The Flight from Reason."

Lady Snow will address the English Colloquium Wednesday, Oct. 30, at 8 p.m. in Room 101 Kern Bldg. The Snows' appearance is being sponsored by Penn State's Institute for the Arts and Humanistic Studies. Lord Snow is also scheduled to meet with members of the University's Two Cultures Dialogue luncheon group, the Science Policy group and the Comparative Literature Luncheon.

Lord Snow — he was made a life peer

in 1964 — began his career as a physicist, taking a doctor of philosophy degree at Christ's College, Cambridge. In 1934, he published his novel "The Search," which foreshadowed his later preoccupation with scientific ethics, politics and power. Between 1935 and 1970, he worked on a sequence of 11 novels under the general title of "Strangers and Brothers." These books, narrated by a semi-autobiographical figure, Lewis Eliot, portray the concerns of a generation from the early 1930s through the 1960s.

During this period, Lord Snow also worked as a scientific manpower expert in World War II and as a Civil Service Commissioner from 1945 to 1960. For Labour, he served as Under-Secretary of State in the Ministry of Technology.

To break down stereotypes about human behavior

Baltes seeks to bridge disciplines in studies on aging

Paul B. Baltes doesn't like artificial barriers.

His impatience with that is one of the reasons he's at Penn State instead of teaching in his native Germany, and in his work, he constantly strives to bridge disciplines and to break down widely held stereotypes about human behavior.

This youthful professor, who heads the Division of Individual and Family Studies in Human Development, originally came to the U.S. in 1963 to spend a year as an exchange student at the University of Nebraska.

"I came primarily to learn English," he recalls, "and found myself strongly attracted to this country. American society is much more pragmatic and open than Germany's. Here, personal values and professional success are something to strive for rather than to approach in indirect, albeit socially approved, ways."

"In middle Europe, if your goals are oriented toward material rewards and personal success, you tend not to admit it publicly. If you attain them, you feel obliged to hide your happiness and satisfaction."

"Again, in Germany in the sixties, the prevailing system often made young professors the servant of the senior faculty. It took several years before they were allowed to supervise graduate students and dissertations. Universities in this country provide far greater opportunities to young, aspiring scholars. Research support is also more readily available."

Dr. Baltes notes, however, that during a recent visit to a number of German uni-

versities, he found the status of younger faculty had greatly improved in the last decade.

Dr. Baltes's decision to pursue a career in the U.S. was also strongly influenced by an exciting program which began at West Virginia University in the middle sixties, one which stressed a life-span developmental approach to psychology.

At the time, this was extremely innovative. The idea of viewing the development of behavior in the life cycle in one program (instead of studying it separately among infants, adolescents, adults or the elderly) was originally conceived by German

China talk by career diplomat

Alfred le S. Jenkins, the only American diplomat at any level to have served in China before and after the revolution, will give a public lecture on "The Chinese Connection" Thursday, Oct. 24, at 8 p.m. in Room 112 Kern Bldg.

Mr. Jenkins held the advance party to Peking in April, 1973, to open the U.S. Liaison Office there and afterward served as senior deputy to Ambassador David Bruce. He was the first foreign service officer in 23 years to cross the border into The People's Republic.

In 1948, Mr. Jenkins was serving as political officer at the Consulate General in Tientsin at the time of the take-over by the People's Liberation Army, and he remained there for eight months afterward.

His Far Eastern experience made him Officer-in-Charge of Chinese Political Affairs in the Department of State during the McCarthy era. He negotiated with the Chinese communists in Geneva in 1954 over the release of Americans detained in China. Later he served as advisor at the Warsaw Talks with the Chinese.

He was a member of the senior staff of the National Security Council, acting as President Johnson's "China watcher." He also worked closely with Henry Kissinger as director of People's Republic of China and Mongolian Affairs in the Department of State. He helped with the preparations for the entire United States-China rapprochement, journeying to China as Kissinger's advisor on his several trips.

scholars in the 1920s and 1930s. A few people in the U.S., most of them German-born, fostered the approach, and one of them, was K. Warner Schaale at West Virginia.

Dr. Baltes came to this country for good in 1970. He had been a scientific assistant at the University of Saarland, where he also earned his B.A., M.A., and, in 1967, a Ph.D. in psychology. After four years at West Virginia, he joined Penn State's faculty.

"It was the interdisciplinary component in the College of Human Development which attracted me," he points out. "Its focus on cross-disciplinary relationships and on socially relevant issues of human life makes it one of the most advanced colleges in the U.S. in this regard. It's very hard to break down the barriers between disciplines in traditional institutions of higher education. Yet when you do research with a population such as the elderly, their needs can't be isolated. They should be studied in terms of many disciplines, including biology, psychology, sociology, economics and architecture."

"Personally, I am trying to integrate sociological and psychological research in my work on human development and aging. The unnatural administrative separation of these two disciplines, in my opinion, has really prevented a generation of needed research at all stages of the human life cycle."

Dr. Baltes has studied young children and adolescents as well as the elderly, principally, he likes to emphasize, in collabora-

(Continued on page four)

Dr. Baltes — came four years ago to study.

First floor plan of the proposed Faculty Club — design of an English great hall.

Late winter groundbreaking for club

The interior of Penn State's Faculty Club will have a very spacious feeling, recalling old English great halls, according to Robert H. Gray, professor and head of the Department of Art who heads a committee working with the club's architects, Venturi and Rauch.

Sketch plans, as approved by the Trustees, show a first floor with a kitchen which will initially share facilities with the Nuttall Lion Inn. However, all utilities necessary for eventual independent operation will be installed, and two meeting rooms now occupying the kitchen area can be converted to greatly enlarge its serving capacity.

Over 100 people can be seated in the

dining room, from which doors will open onto terraces for outdoor dining in warm weather. Above the lobby area, Professor Gray explains, there will be a balcony, which the architects have planned as a retreat. It will have magazines and newspaper racks and probably an area for bridge. For large functions, a band or combo can be placed on the balcony to play for persons in the dining room.

According to club president, Richard D. Schein, director of environmental quality programs and professor of botany, groundbreaking is possible by late winter. Applications for club membership are being accepted and forms may be obtained from Dr. Schein at Room 109 Carnegie, 863-0371.

Death

Dr. John D. McCurdy, who was a part-time assistant professor of philosophy, died October 6; he was 34 years old. A 1961 graduate of Duke University, he came to the University as a graduate assistant after receiving an M.A. degree at Princeton University. Until September, 1970, he was variously a graduate assistant or teaching assistant while working on M.A. and Ph.D. degrees in philosophy. He became a part-time instructor in philosophy and ultimately assistant professor at DuBois Campus. He took a leave in 1972-73 to write articles in the field of philosophy and to begin a series of drawings. In his studies and interests he had combined the arts with philosophy.

Honors

Alice M. Hoffman, assistant professor of labor studies at King of Prussia, has been elected vice president and president-elect of the Oral History Association, which has a membership of more than a thousand oral historians in the U.S., Canada and Mexico and which represents more than a hundred institutional oral history projects.

Joe S. Taylor, who was professor and chairman of dairy science extension until his death July 19, was inducted into the Hall of Fame of the National Dairy Shrine Club at the organization's annual meeting in Harrisburg. He was cited for his pioneering efforts in the area of brucellosis control in dairy herds, for inauguration of the State's forage testing service, and for dairy recordkeeping systems.

Exhibit planned

An Important Bicentennial exhibition, "The Black Presence In the Era of the American Revolution, 1770-1800," will be shown from Nov. 2 through Dec. 1 at the Cultural Center in Walnut Bldg. It is a Smithsonian Institution traveling exhibit.

The aim of the exhibition is to restore to the national memory the living presence of black men and women during the 30 years that stretched from the martyrdom of Crispus Attucks to the Boston Massacre of 1770 and the conspiracy of Gabriel Prosser in Virginia at the turn of the century.

Forty handsome exhibit panels present the story of blacks in both words and pictures. Their contributions as soldiers and sailors, to the church, school and lodge, as scientists, writers, artists, physicians, frontiersmen and rebels are all depicted.

The show was researched by Sidney Kaplan and organized by the National Portrait Gallery.

Appointments

Dr. Katsuno Hitomi as visiting professor of industrial engineering for two months beginning March, 1975. Internationally known for his writings on machine tool optimization, he is professor and head of mechanical engineering at Osaka University, Japan. Dr. Hitomi received an M.S. from Penn State in 1961. His O.S. and O.Eng. were granted by Kyoto University.

Dr. William G. Hills as associate professor of management at Capital Campus. A graduate of Brigham Young, he has an M.S. in political science from Eastern New Mexico University and an M.A. and Ph.D. in public administration from the University of Oklahoma. He was director of the Rehabilitation Research Institute at Oklahoma, and his research interest is in vocational rehabilitation and public assistance projects.

Dr. Mian-Chang Wang as associate professor of civil engineering. He has a M.S. in engineering from Cheng Kung University, Taiwan, and his M.S. and Ph.D. by the University of California at Berkeley. Formerly an assistant professor of engineering at the University of Rhode Island, he is a member of the Transportation Research Board of the National Research Council.

Dr. Rupert F. Chisholm Jr. as assistant professor of management at Capital Campus. A graduate of Washington and Lee, he has a master's of industrial and labor relations from Cornell and a Ph.D. in organizational behavior from Case Western Reserve.

Dr. Michael A. Grella as assistant professor of education at Capital Campus. His baccalaureate degree is from St. Mary's Seminary and University, Baltimore, and his M.A. in reading and learning disabilities from the University of West Virginia, as is his O.E. In reading and teacher education.

Garry L. Lewis as assistant professor of accounting at Capital Campus. He holds a B.S. in business administration and an M.S. in accounting from the Wharton School, University of Pennsylvania.

Dr. Louis L. Meisel as assistant professor of social science and psychology at Capital Campus. His B.S. is from McGill and his M.A. in psychology from the University of Toronto. Michigan State granted him a Ph.D. in social and personality psychology. He has been an assistant professor of psychology at the University of Detroit.

Yvonne J. Milspaw as instructor in American studies and folklore at Capital Campus. A graduate of Mary Washington College in English, she received her M.A. in folklore at the University of Maryland. Since 1971, she has been instructor in English and folklore at the University of West Virginia.

Stuart J. Glogoski as reference librarian. A graduate of the University of Cincinnati, where he earned both B.A. and M.A. degrees, he holds an M.L.S. from Indiana University. He has taught history at the University of Cincinnati and was previously with the library at Indiana University.

David L. Ambruster as instructor in business and academic coordinator for continuing education in the College of Business Administration. A graduate of Southern State College, Magnolia, Ark., in business administration, he also holds an M.Ed. from the State College of Arkansas.

Ernest K. Kraus, Jr. as instructor in chemistry at the Mary Campus. A graduate of Valparaiso University where he earned a B.S. in chemistry, he has done doctoral work at the University of Virginia.

Charles W. Gibbons as instructor in art at the New Kensington campus. He holds a B.F.A. from the Maryland Institute College of Art and an M.F.A. from Penn State. He has previously an assistant professor of art at Salisbury State College, Md.

News in brief

HALLOWEEN PARTY

A Halloween Party for children of faculty, staff and graduate students will be held from 7-9:30 p.m. on Tuesday, Oct. 29, in the Commons of the Kern Graduate Bldg. The event is sponsored by the Graduate Student Association and will include costume judging, games, cartoons and refreshments.

WOMEN'S LIBERATION

All faculty and staff, as well as students, are invited to participate in "Women's Liberation," the local chapter appealing to feminists seeking to serve the needs of women working for equality. The next meeting will be held Monday, Oct. 21, at 8 p.m. in Room 220 Boucke. Meetings include a discussion of individual problems and of ways to develop action to further the place of women in the University community.

OPEN FIRE AREAS

Open fire areas are not permitted on University farms at any time and are permitted in only designated picnic areas on other University property. Representing a potential danger to forests and ecosystems, fires are an especial hazard in the dry fall season, but at other times as well.

PLUMBER AT BERKS

The head of the "Watergate Plumbers," Egli Krogh, will speak on "Prison: The Great Equalizer," Monday, Oct. 21, at the Berks Campus. The lecture is scheduled for 8 p.m. in the auditorium of the Community-Student Learning Center. Krogh completed his prison term for the Watergate conviction in June.

CHESS TOURNEY

The Penn State Chess Club will act as host for the annual Pennsylvania Intercollegiate Chess Team Championships Saturday and Sunday, Oct. 26 and 27, to be played in Room 102 Kern. Some 30-35 four-man teams are expected to take part, with daily sessions beginning at 8 a.m. Observers are welcome.

PLAY PUBLISHED

Dr. Lillian E. Preston, associate professor of speech communication, has had a one-act play, "Services Rendered," published by the W. H. Baker Co., the fourth of her plays which they have accepted. All told, 13 of her plays have been published. Last summer, three radio dramas by Dr. Preston were selected for production by the Actor's Radio Theatre for a new series, "After Dark." One of the plays, "No Colors for Emotion," won an award at the Birmingham Festival of the Arts.

In writing

Richard L. Garner, assistant professor of history, and Dr. Donald C. Henderson, Jr., associate librarian for Hispanic programs, are the authors of "Columbus and Related Family Papers, 1451-1902: An Inventory of the Boal Collection." The volume is part of the Penn State Studies Series.

In the course of plowing through some 165,000 pages of family papers of the last descendants of Christopher Columbus, the authors have indexed a continuous set of papers spanning four-and-a-half centuries. Almost half relate to three descendants of Columbus from the late 18th and 19th centuries. According to Dr. Garner, they furnish a unique glimpse into the concerns of the large Spanish landowners of that period and their tenants.

Microfilms of the Columbus family papers have been filed in Penn State's Paffee Library, and the original documents are housed in the Columbus Family Chapel in nearby Boalsburg. Theodore Boal, a descendant of the town's founder, married a relative of the Columbus family who had inherited the materials. When they settled in Central Pennsylvania, she brought them with her.

The three Columbus whose fortunes dominate the documents are Joseph Joaquin Columbus; his son, Diego Mariano; and his grandson, Diego Santiago. Joseph married a woman from the wealthy Sierra family, and the remainder of the documents in the collection deal with the affairs of her relatives.

"The papers are important," Dr. Garner explains, "both because of the long period

COCTEAU

A film of the play "Orpheus" by the French dramatist Jean Cocteau will be shown to the Comparative Literature 100 class Monday, Oct. 21, and the public may also attend. The film will be shown at 7:30 p.m. in Room 101 Chambers. A donation of 50 cents will be accepted. The film is a modern and poetic version of the story of the descent of Orpheus into Hades.

CRAFTS DISPLAY

Work by John Runner, Janna Longacre and Thom and Sal Lauer from Winfield House, a Lewisburg antique and crafts shop, is on display through October in Kern Bldg. Gallery. Runner, who obtained a B.S. from the University in 1971, won in stained glass. Miss Longacre, a graduate of Rhode Island College of Design has won several awards for her Egyptian paste ceramics. The Lauvers are resident silversmiths at Winfield House. They served an apprenticeship in the Southwest, learning American Indian craftsmanship techniques.

LIBRARY TOURS

For those unable to attend earlier bringings, the Reference Department of Palae will again offer library tours on Friday afternoons from 2 to 3:30 p.m. Reservations should be made with Bruce Bonta, 865-6368, for this time period or for a separate appointment.

HANDBALL CLUB

A meeting to organize a Penn State Handball Club will be held Oct. 22, at 7 p.m., in Room 267 Recreation Bldg. Film of national handball championships will be shown.

The club would be open to all area handball players, and its goals would be to promote handball, improve communication among area players, and stimulate interest among prospective players and non-players. Robert Sherwin, acting chairman of a steering committee formed recently to organize a club.

Other steering committee members are Bob Eisenbraun, Craig Millar, Harlan Berger, and Dick Nelson.

Dues for the club have been set tentatively at \$2 per year. At the meeting, governance of the club, program planning, competition, and club meeting dates will be discussed.

FREE TUTORING

Pennsylvania Beta chapter of Tau Beta Pi, national engineering honor society, offers a free tutoring service from 7 to 8:00 p.m. in 212 Hammond every Tuesday throughout the year. Students in mathematics, physics, chemistry and engineering courses may avail themselves of this service.

of history which they cover and because of their completeness. As scholars examine them, they will be able to develop a picture of what kind of people these wealthy grandees were, how they lived, and their relationship to the society around them."

The work of Dr. Garner and Dr. Henderson was assisted by a grant from the title for the Arts and Humanistic Studies at Penn State.

"Language, Learning, and Cognitive Processes," by Dr. Francis J. Di Vesta, professor of psychology and psychology at the University, has been published by Brooks/Cole Publishing Company, a Division of Wadsworth Publishing Company. Intended for students in educational psychology, school psychology, and the education of exceptional children, the book is an introduction to the study of language as it affects the way learners store and use information. The first three sections of the book provide the reader with an understanding of the theoretical foundations of language, how language affects thinking ability, and development of the way language affects comprehension. The remainder of the book provides implications of research on language to instruction and related applications. The fourth section deals with the facilitation of learning through reading and learning from the use of visual materials. The fifth section is a discussion of how language functions in control status and power in various cultures and of some problems in bilingualism and teaching a second language. The book is one of nine paperbacks in the Basic Concepts in Educational Psychology series published by Brooks/Cole.

University Park Calendar

October 17-27, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday-Saturday, October 17-19 — University Theatre, "The Seagull," 8 p.m., Pavilion Theatre.

Thursday, October 17 — FSMA 410 dinner, "America 1800's Riverboat Dining," 5:30 p.m., Maple Room. Reservation required.

Thursday, October 17 — Two Cultures Dialogue, noon, Room 109 Materials Research Lab. Kenneth P. Wilkinson, rural sociology, on "Food and Man."

Friday, October 18 — Folk and Square dance Roundup, 7:30 p.m., North Gym, White.

Friday, October 18 — Artists Series, Andy and Joseph Paratore, duo-pianists, 8:30 p.m., Schwab.

Friday, October 18 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Entertainment by David and Denxeri, Rose 60th.

Saturday, October 19 — Sports: Football, vs. Syracuse, 1:30 p.m., Beaver Stadium. Cross country, vs. Pittsburgh. Women's field hockey, vs. Cortland, 10 a.m.

Saturday, October 19 — PSU Symphony Orchestra concert, 8:30 p.m., University Auditorium. Brahms's Academic Festival Overture, Beethoven's Emperor Concerto, Mendelssohn's Reformation Symphony.

Sunday, October 20 — Chapel Service, 11 a.m., Eisenhower Chapel. Stanley F. Paulson, dean of the College of the Liberal Arts.

Sunday, October 20 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, October 20 — Colloquy, Dr. Raymond McNally, Dracula and vampire expert, on "In Search of Dracula," 8 p.m., Schwab.

SEMINARS

Thursday, October 17 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Dr. John C. F. Tedrow, Rutgers University, on "Soils of the Solar Regions."

Thursday, October 17 — Microbiology, 4 p.m., Room 52 Frear. Donald B. Clewell, oral biology and microbiology, University of Michigan Dental and Medical School, on "Structure, Function and Maintenance of Plasmids in Streptococci."

Thursday, October 17 — Microbiology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Toby N. Carlson on "Extinction of Solar Radiation by Dense Haze Over the Tropical Atlantic."

Thursday, October 17 — Nuclear Engineering, 4 p.m., Breazeale Nuclear Reactor. Dr. Robert A. Shaw, Clarkson College of Technology, Potsdam, N.Y., on "Corrosion Product Radioisotope Concentration in BWR."

Thursday, October 17 — Computer Science, 4 p.m., Room 101 Altshuler. Dr. Ian Munro, applied analysis and computer science, University of Waterloo, on "Sorting and Searching in Multisets."

Thursday, October 17 — Anthropology, 3:30 p.m., Room 107 Social Science Bldg. Dr. Michael Steffy, on "Anthropology, the O. Ed. and What's Happening to Anthy 1."

Thursday, October 17 — Geosciences, 4 p.m., Room 22 Deike. Dr. T. Jordan, Princeton University, on "Deep Structure of the Continents."

Thursday, October 17 — Statistics, 4 p.m., Room 75 Willard. Gerry Tobbs, State University College of Potsdam, New York, on "Rank Tests and Categorical Data."

Friday, October 18 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. R. B.

LECTURES

Thursday, October 17 — John Hejduk, architect, chairman division of architecture, The Cooper Union, "About Architecture." The lecture is illustrated and co-sponsored by the Department of Architecture.

Thursday, October 24 — Alfred S. S. Jenkins, American diplomat, on "The Chinese Connection," 8 p.m., Room 112 Kern.

FILMS

Thursday-Sunday, October 17-20 — Centre Cinema, "Mary Queen of Scots," 7:30 and 9 p.m., Thursday, Simmons Lounge, Friday-Sunday, Room 105 Form.

Friday-Sunday, October 18-20 — North Halls, "A Man Called Horse," 7:30 and 10 p.m., Room 102 Form.

Sunday, October 20 — Graduate Commons Evening Concert Series by Claremont Woodwind Quintet, 8 p.m., Room 112 Kern.

Monday, October 21 — Colloquy, Alan Oberhelman, on "The Occult Sciences: Numerology, Astrology and Tarot," 8 p.m., HUB ballroom.

Monday, October 21 — Color Slide Club, 7:30 p.m., Room 112 Kern. Dr. Alistair Fraser, associate professor of meteorology, illustrated talk on atmospheric phenomena. Slide judging by Donald Semenek. Public welcome.

Monday, October 21 — Violin recital by David Brooks, music major, 8:30 p.m., Music Building recital hall. Music by Bach, Chausson, Prokofiev, and Mozart.

Tuesday, October 22 — Museum of Art gallery talk by William Hull, director, 10:30 a.m., Gallery B, on master potters exhibited in gallery.

Tuesday, October 22 — Colloquy, Dr. Raymond Buckland, witchcraft expert and high priest, on "Witchcraft," 8 p.m., Schwab.

Wednesday, October 23 — Alard String Quartet recital, 8:30 p.m., Music Bldg. recital hall. Music includes American premiere of quartet by Valentes Juzepkavicius; also a Brahms quartet and Tchaikovsky sextet, with Paul Yarbrough, viola, and Peter Brye, cello.

Wednesday-Thursday, October 23-24 — FSMA 410 dinner, "Sicily," "Germany," 5:30 p.m., Maple Room. Reservation required.

Thursday, October 24 — Faculty Women's Club Fall Lecture Series, 9:30-11 a.m., HUB auditorium. Dr. Samuel Bayard, on "Folk Song and Music."

Bernstein, W. D. Doherty Professor of Chemistry and Physics, University of Texas, on "Detailed Molecular Beam Studies of the Dynamics of Elementary Reaction: Comparative Anatomy of a Direct Versus a Complex Mode Reaction."

Friday, October 18 — Physical Chemistry, 4 p.m., Room 333 Whitmore. Harold G. Munson, on "The Effects of Collisions on Molecular Reorientation Correlations from Depolarized Rayleigh Scattering of Dense Fluids."

Monday, October 21 — Plant Pathology, 5:45 a.m., Room 213 Buckhout. W. D. McIlveen on "Understanding the Biology of Soil Systems: Prelude to Biological Control."

Monday-Saturday, October 21-22 — Biochemistry, 11:10 a.m., Room 101 Altshuler. Dr. Harry P. Broquist, Vanderbilt University, on "Role of Lysine in Carnitine Biosynthesis: Biochemical and Nutritional Significance." Aspects of Lysine Metabolism in Yeast and Fungi.

Tuesday, October 22 — Physiology, 3:55 p.m., Room 8 Life Sciences. Dr. Alan Claremont, Rockford School of Medicine on "Comparison of Ventilatory, Heart Rate, Metabolic and Temperature Responses to Exercise at Extreme Ambient Temperatures (0 and 35 deg. C)."

Tuesday, October 22 — Geosciences, 4 p.m., Room 26 Mineral Sciences. Dr. George J. McMurtry, remote sensing, electrical engineering, on "Interdisciplinary Interpretation of ERTS Data."

Tuesday, October 22 — Philosophy, 8 p.m., Laurel Room, Nittany Lion Inn. Dr. David Pears, Christ Church, Oxford University, on "The Paradoxes of Self-Deception."

Tuesday, October 22 — Population Research Office, 12 noon (brown bag lunch), Room 22 Deike. Dr. Craig

Thursday-Sunday, October 17-20 — Pollock, "West World," 7:30 and 10 p.m., PUB.

Thursday-Sunday, October 17-20 — West Hall, "High Sierras," 7:30 and 10 p.m., Waring lounge.

Monday, October 21 — For Comparative Lit 100 class, open to public, 7:30 p.m., Room 101 Chambers. Jean Cocteau's "Orpheus."

Tuesday, October 22 — Graduate Commons Mid-Day Cinema, "The American Wilderness," 12:30 p.m., Room 112 Kern.

Wednesday, October 23 — Commonsplace Theatre, "High Sierra," 8 and 10 p.m., Room 112 Kern.

Thursday-Sunday, October 24-27 — Centre Cinema, "The Godfather," and 10 p.m., Thursday, Simmons Lounge, Friday-Sunday, Room 105 Form.

Friday-Sunday, October 25-27 — South

Thursday-Saturday, October 24-26 — Billiard Congress of America tournament for professionals, sessions at 1:30 and 7 p.m. Thursday and Friday; 1:30 and 8 p.m. Saturday; admission charge per session, \$1.50.

Thursday, October 24 — United Nations Day panel discussion, "Man and Food in the 20th Century: An International Perspective," 8 p.m., HUB assembly room. Participants: Dr. Wilbur Zelensky, Dr. Lynn G. Brinkman, Dr. E. E. Hunt, Jr., Dr. Paul D. Simkins, and Ralph R. Sell.

Friday, October 25 — Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium. Music Series performance.

Friday, October 25 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Entertainment by John Davide.

Friday, October 25 — OTIS Casino Night for benefit of Centre County Day Care Center, 7:30 p.m., HUB ground floor.

Saturday, October 26 — Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium. Special event performance.

Saturday-Sunday, October 26-27 — Pennsylvania Intercollegiate Chess Team Championship, rounds beginning at 8 a.m., Room 102 Kern. Observers welcome.

Sunday, October 27 — Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Ira Reed, Pastor First Presbyterian Church, Hershey.

Sunday, October 27 — Brown and Howells, duo-piano team, 3 p.m., Music Bldg. recital hall.

Sunday, October 27 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

R. Humphrey, on "The Demographic Impact of Controlled Access Highways on Nonmetropolitan Communities, 1940-1970."

Tuesday, October 22 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Eugene Koczkar, manager, Environment Division, James F. MacLaren, Ltd., Ontario, on "A Consulting Engineer's Approach to Air Pollution Control."

Wednesday, October 23 — Remote Sensing, 4 p.m., Room 204 Electrical Engineering. Donald Henninger, remote sensing, and Mark L. Stauffer, forest resources, on "The Use of Remote Sensing and Natural Indicators to Delineate Floodplains."

Wednesday, October 23 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Dr. Maurice Grier, University of Strasbourg, on "Polarography of Metallic Cryptates."

Thursday, October 24 — Microbiology, 4 p.m., Room 52 Frear. Christopher S. Humphrey on "Leukocyte-Mediated Cytotoxicity: An In Vitro Analogue of Homograft Rejection."

Thursday, October 24 — Physics, 3:35 p.m., Room 117 Osmond. Gerald D. Mahan, Indiana University, on "Superionic Conductors."

Thursday, October 24 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Dr. John Witly, on "Suitability of Centre County Soils for Waste Disposal."

Thursday, October 24 — Chemistry, 12:45 p.m., Room 333 Whitmore. Richard D. Sacks, University of Michigan, on "Analytical Applications of High-Temperature Radiation Sources Based on Shock-Wave Phenomena."

Friday, October 25 — Statistics, 4 p.m., Room 104 McAllister. Dr. William Strawderman, Rutgers University, on "Minimax Estimation of the Location Vector for Certain Non-Normal Distributions."

Halls, "A Touch of Glass," 7:30 and 10 p.m., Redler D.

Friday-Sunday, October 25-27 — East Halls, "They Shoot Horses," 7:30 and 10 p.m., Findlay Rec Room.

MEETINGS

Monday, October 21 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, October 21 — Education Student Council, 7 p.m., Room 111 Chambers.

Tuesday, October 22 — ARHS, 7:30 p.m., Room 309 Boucke.

Tuesday, October 22 — Penn State Handball Club, 7 p.m., Room 267 Recreation Bldg. Organizational meeting, films of national and international championships.

Wednesday, October 23 — AWS, 7 p.m., HUB assembly room.

Artists Series

The piano duo, Anthony and Joseph Paratore will perform works by Mozart, Schumann, Debussy, Rachmaninoff, and Lutoslawski in the Artists Series program in Schwab Auditorium tomorrow (Friday, Oct. 18) at 8 p.m. The program is part of the Fine Arts Series.

The next Artists Series event in University Park will be the

Kazuyoshi Akiyama, one of two conductors for program by the New Japan Philharmonic, Oct. 25-26, on the Artists Series.

sity Auditorium will be the two performances by the New Japan Philharmonic Friday and Saturday, Oct. 25 and 26, with pianist Minoru Nollima as soloist.

Tickets for the two performances will go on sale Monday, Oct. 21, at the Auditorium box office (hours 9 a.m. to 4 p.m. weekdays and 10 a.m. to noon Saturday). However, many of the seats for the Friday performance are held by season ticket holders, so that the very best seats will be available for Saturday.

Nojima will play the Prokofiev Piano Concert No. 2 in G Minor, op. 16.

The program for Friday will be conducted by Kazuyoshi Akiyama and will include the Berlioz Overture to the Roman Carnival, Debussy's Prelude a l'apres-midi d'un laune; and Cesar Franck's Symphony in D minor. Saturday's program will substitute the Berlioz "Symphony Fantastique" for the Debussy and Franck works and will be conducted by Nanao Yamamoto.

WPSX highlights

(CHANNEL 3)

Friday, Oct. 18 — Film, 10 p.m., "The Hunchback of Notre Dame," 1923 version with Lon Chaney.

Saturday, Oct. 19 — Film, 10 p.m., "A Woman of Affairs," 1929 film with Greta Garbo, John Gilbert, and Douglas Fairbanks.

Sunday, Oct. 20 — Film, 6 p.m., "The Scarlet Letter," 1926 version with Lillian Gish.

Monday, Oct. 21 — "Drink, Grank, Drunk," hour-long series on alcoholic families, 8 p.m., followed by half-hour local program on Central Pennsylvania agencies.

Wednesday, Oct. 23 — Play, "The Chinese Prime Minister," with Gail Judit Anderson, 9 p.m.

Thursday, Oct. 24 — Two-hour, statewide program with candidates for governor and U.S. Senate, 8 p.m.

EXHIBITS

Museum of Art — Manyunk and Other Places: Paintings and drawings by Francis Speight, Galleries A and C. Twentieth Century Master Pottery, Gallery B, opening October 20.

Zoller Gallery — Super Mud '74, student ceramics invitational, through October 26.

Chambers Gallery — Jeanne Stevens-Sollman, drawings and ceramics, until October 18. Dan Patch, paintings, drawings and ceramics, opening October 18.

Kern Gallery — D. Blumenthal, acrylics. Ken Kuhn, paintings. Winfield House, jewelry, pottery and stained glass, through October.

Garnegie Bldg. — Photos by Jan Kreicbergas, Latvian photographer, arranged by School of Journalism.

Elliott receives Penn State Medal

William Elliott, chairman of the Executive Committee of the Philadelphia Life Insurance Co., received the "Penn State Medal" from President Oswald recently, recognizing Mr. Elliott's "continued dedicated service toward the betterment of higher education in Pennsylvania." For more than a decade Mr. Elliott has shown a deep interest in the University's business administration program and recently endowed a chair in the College of Business Administration, the first such chair to be announced in a new University program.

BALTES —

(Continued from page one)

tion with other researchers. Much of his work on aging, for example, has been conducted with Dr. Schaie, Dr. Gisela V. Lalouvie, of Wisconsin, and Dr. William J. Hoyer of Syracuse. At Penn State, he recently finished a study on personality development in adolescents with Dr. John R. Nesselrode, associate professor of human development.

Another facet of his research deals with developmental methodology, designing statistical models to help chart the course of human development. The author of a number of papers and articles, he co-edited the book, "Life-span Developmental Psychology — Personality and Socialization," which was released this spring. However, his major research focus is on the study of psychological aging.

"I originally became involved in psychological research on aging because I had methodological questions I wanted to solve, and the aged population provided meaningful answers," Dr. Baltes says. "I'm interested in the relationship between cultural change and human development, and the aged are the group most distant from what's happening right in society in terms of their initial, prime socialization period."

"It was only while doing this research that I became attracted to some of the issues and problems the aged face. I am persuaded that the potential of the elderly

LORD SNOW —

(Continued from page one)

Out of his background as a scientist who pursued both political and literary careers, Lord Snow developed the concept of "The Two Cultures and the Scientific Revolution," which was the title of the Rede Lecture that he delivered at Cambridge in 1959. In it, he stressed the importance of giving scientists a place in formulating government policy and of improving public understanding of science.

In 1950, Lord Snow married Pamela Harford Johnson, a novelist and critic. Her works of fiction include "This Bed Thy Centre," "Too Dear for My Possession," "An Avenue of Stone," "A Summer to Decide," "Catherine Carter," "The Last Refuge," "The Unspeakable Skipton," "Night and Silence Who is Here," and "Cork Street, Next to the Hatter's." Among her critical works are "On Iniquity," "Thomas Wolfe" and "Ivy Compton Burnett," and she has finished an autobiography, "Important to Me," which will be published in November.

Lord Snow's most recent books include "Public Affairs," "The State of Our State," on science, research and public policy, and a novel "The Malcontents." Another novel, "In Their Wisdom," will be published this fall and is already being dramatized for the London Theatre.

is largely unexplored. It is the extremely negative stereotype that our society holds about the aging process which, in my judgment, dictates to a large degree why aging often leads to undesirable outcomes."

One of Dr. Baltes's studies (conducted with Dr. Schaie and Dr. Nesselrode) has accumulated some very strong evidence to suggest that the stereotype that intellectual performance declines with aging is at least partially a myth. The aged may perform poorly on standardized intelligence tests, not because they are old but for a great number of other reasons that are only accidentally related to age. Their education, for example, may have been less effective than that available to most young people today. They are less familiar with test situations and often do not find it interesting to cooperate in achievement-oriented tests. In addition, most tests are constructed with a view to the young rather than the old.

Dr. Baltes's collective research on the aging process has also led to study of the relationship between culture changed and human development in other age groups. Thus, Dr. Nesselrode and Baltes have completed a ten-year longitudinal study examining the impact of cultural change in the U.S. on adolescent personality from 1970 to 1972.

"Most studies focus on what age does to people," Dr. Baltes points out. "We are focusing on the cultural moment, and we have found that age is less important in

linguistics; jurisprudence; comparative religion; ethics; archaeology; the history, theory, and criticism of the arts and the social sciences concerned with human values and aesthetics. Total cost, \$5,000. Contact: Robert M. Giannelli, Exec. Dir., The Public Committee for the Humanities in Pa., Bucknell Univ., Lewisburg, Pa. 17037 (717-324-3337). Application deadline: Nov. 11 and Dec. 16, 1974, and Feb. 3, May 5 and Aug. 19, 1975. (Ref. PCPH announcement — GAS).

(195-4) The National Science Foundation (NSF) is making research grants to institutions capable of conducting project assessment and impact assessment studies related to education in the sciences (including social sciences), mathematics and/or technology. Grants will run the gamut from elementary through adult education. This information has been distributed. Contact: James L. Vitto, Head, General Contracts Section, NSF Contract Branch, Room 630, 1800 G Street, N.W., Wash., D.C. 20550 (202-632-5892). Ref. CBO 9/23/74.

(195-3) The Social Science Research Council has announced Fellowships and Grants for 1974-75. Programs include, post-doctoral research fellowships, fellowships and grants for training and research on foreign areas. Research training fellowships have a Dec. 2, 1974, deadline. Foreign areas programs deadlines range from Nov. 1, 1974, through March 1, 1975, depending upon the area. (Ref. SSCRC announcement).

(195-4) The American Psychological Assn. will offer 1975 doctoral fellowships. Write to the Assn., Alt., R. 8, Kurt L. McKinstry Bldg., Univ. of Educational Affairs, 1200 17th St., N.W., Wash., D.C. 20035 (202-633-7692).

(195-1) Matching funds for equipment to be used in undergraduate science courses will be granted by the National Science Foundation. The Instructional Scientific Equipment program will accept applications from both two- and four-year institutions, "including semi-autonomous units sep-

Search committee named for Altoona director post

President Oswald has appointed an Advisory Search Committee to assist him in identifying candidates for the position of Director for the Altoona Campus. Members of the committee are drawn from faculty, administration and the student body at the University.

The Advisory Search Committee is chaired by Altheim S. Shaw, Associate Professor of Biology (Altoona). Other committee members are Richard Hart, Instructor in History (Altoona); Ronald Hoshour, Professor of English (Altoona); Walter G. Braun, Associate Dean for Instruction in the College of Engineering; Edward R. Fagan, Professor of Secondary Education (University Park); Stephen M. Fricke, Assistant Professor of Education (University Park); Robert G. Gorman, Director of Administration and Field Services, Continuing Education (University Park); and Michael E. Cassidy, President of the Altoona Campus Student Government Association.

The Advisory Search Committee is to identify those candidates who can provide the ablet post-graduate academic leader in the field of Continuing Education and who can provide the leadership, possess a doctoral degree, or equivalent, and several years experience in teaching at the University level and/or experience in the administration of higher education. The committee will receive suggestions and nominations from all sources both within and outside the University. These should be forwarded to: Dr. Robert G. Quinn, Dean of Continuing Education, Instructional Services Building, Old Main, University Park, Pennsylvania 16802, no later than November 15, 1974.

UN DAY —

(Continued from page one)

tion Issues Research Office, will serve as moderator for the program.

Other speakers will be Dr. Lynn B. Brinkman, assistant professor of nutrition science; Dr. Edward E. Hunt, Jr., professor of health education; Dr. Paul D. Simkins, professor of geography; and Ralph R. Sell, a research assistant in the Population Is-

lands Research Office. UN Day this year observes the 29th anniversary of the founding of the United Nations. This program is sponsored by the University's College of Earth and Mineral Sciences and the Centre County Chapter of the United Nations Association.

human development than people have assumed."

"For example, adolescents as a whole were shown to decrease in what is technically called super ego strength, social-emotional anxiety, and achievement during the period of 1970-72, independent of their age level. Similarly, all adolescents from 1970-72 increased in independence during the same historical period. These data suggest that there is not a fixed sequence of adolescent development, but that its rate and direction is largely defined by the cultural context. In a way, these recent results on the impact of cultural change on adolescents nicely parallel our data on adult intelligence, where it was also shown that age per se is less important than the cohort or generation of which one is a member."

Working with Dr. Sherry Willis, assistant professor of early childhood education, and graduate students Judy Ravizza and Elizabeth Barton, Dr. Baltes is currently designing a series of projects aimed at exploring new educational technologies for maintaining and improving intellectual performance in older adults. "The most intensive research is, as he puts it "at least encouraging."

Dr. Baltes also collaborates occasionally rather closely to home. His wife, Margret, an assistant professor of human development at Penn State, was one of the authors of the intellectual behavior in old age study.

arated geographically and administratively from the main campus." Proposals are due by NSF by Oct. 15, 1974. Guidelines have been distributed (Ref. E-75-10).

(195-2) Research areas which have a close relationship to the solution of energy problems are supported by NSF's Research Directorate. Through the Directorate, research proposals for research proposals will be judged on their scientific merit, without special competitions or reviewing. Proposals should be prepared according to the instructions in NSF's "Guidelines for Research Proposals" available from R. Kohler, 865-1372. Also available are preliminary definitions of areas of research considered to be energy-related. NSF also holds short workshops to delineate research opportunities. (Ref. NSF announcement ERS-52-274.)

(195-3) NSF's Office of Science Information Services is soliciting proposals for improved dissemination of Use of Scientific and Technical Information. Nine subject areas are featured: (1) industrial settings, (2) science communication systems and services, (3) marketing strategies and techniques, (4) economic characteristics, (5) services and systems performance evaluation, (6) energy R&D information, (7) data logging, (8) editorial processing and (9) condition of system. In program contact is Carole Gann (202-632-5590) (Ref. NSF Bulletin October, 1974).

(195-4) The next deadline for NSF Energy-Related Graduate Fellowships is Dec. 1, 1974. If institutional proposals are accepted, graduate students may apply to the institution. Grants are \$2500 monthly to the student, and administrative and operational cost allowances are paid to the institution. Coal and oil shale, solar energy and geothermal research is emphasized. The proposal guide is available from ERG, Education and Research Manager, Fellowship and Training Section, Office of Higher Education in Science, NSF, Washington, D.C. 20550 (202-682-7595). (Ref. NSF Bulletin, October, 1974)

Staff vacancies

University faculty or staff members who are interested in any of the above or staff positions listed below may apply by filling out and mailing to the Personnel Office, University Employment Division, 865-1387 (Networks Link to 1387). Do not contact the area having the vacancy. Applications will be accepted on a first-come, first-served basis. S.p.m.

October 31, 1974

LANDSCAPE ARCHITECT, OFFICE OF PHYSICAL PLANNING — University Park
Design and develop landscape plans and specifications for new and existing facilities utilizing current and historic landscape planning and development, considering such aspects as aesthetic and function design. Bachelor's degree or equivalent in landscape architecture with two to three years of related experience.

RESEARCH AIDE (JAIL RESOURCES STUDY) COLLEGE OF HUMAN DEVELOPMENT — University Park

Conduct computer data analysis as directed by the Jail Resources for Drug Treatment project staff. Assist in the preparation of reports and other written reports. Coordinate administrative functions of the Jail Resources project. Utilize programs utilizing the statistical packages for the Social Sciences and other pre-packaged programs. Bachelor's degree or equivalent in a human services field, with computer programming and statistical analysis for the Social Sciences, plus experience in human services programs or research.

COUNSELOR (COOPER DEVELOPMENT AND PLACEMENT) — New Kensington
Responsible to the Dean of Student Affairs in planning and group counseling focusing primarily on students of vocational concerns. Responsible for pre-registration testing; assisting with career counseling and orientation. Provides consultation to other members of the Student Affairs staff on campus community. Master's degree in Counselor Education or related area or equivalent plus a minimum of three years applicable experience. **RESEARCH AIDE, COLLEGE OF SCIENCE — University Park**

Responsible for the separation, purification, and analysis of proteins and enzymes. Prepare, prepare, and maintain cultures of microorganisms in experimental use. Prepare culture media and reagent solutions as needed. Separate and purify subcellular fractions by ultracentrifugation. Operate a computerized spectrophotometer, a gas-liquid chromatograph, a mass spectrometer, and amino acid analyzer. Determine enzyme activities and reaction products by radiochemical analyses. Utilize processes such as electrophoresis, chromatography, and immunology for the analysis and purification of proteins. Bachelor's degree or equivalent in Biochemistry, Chemistry, or Biology with two to three years related experience plus a minimum of 60 chemical techniques and instrumentation.

RECORDER, COLLEGE OF HUMAN DEVELOPMENT — University Park
Coordinate and maintain a data system to fulfill the requirements of various agencies and departments. Prepare and maintain enrollment statistics and materials needed for decision making in the College of Human Development. Prepare registration and graduation information for advisors and students. Answer admissions correspondence and inquiries. Bachelor's degree or equivalent with six to ten months effective experience in administration. **WRITER, COLLEGE OF HUMAN DEVELOPMENT — University Park**

To assist in the preparation of scientific reports, journal articles, research proposals and other publications which are necessary for the dissemination of research information. Bachelor's degree or equivalent with six to ten months effective experience in administration. **WRITER, COLLEGE OF HUMAN DEVELOPMENT — University Park**

The UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

HUB specials

OCTOBER 20-26
Sunday, Oct. 20 — Omelet, stuffed mushroom, \$1.00; beef, beef stew, \$1.00.
Monday, Oct. 21 — Beef, beef stew, \$1.00; hot roast beef sandwich, \$1.07; dinner, beef stew, \$1.00.
Tuesday, Oct. 22 — Lunch, \$1.25; dinner, \$1.25.
Wednesday, Oct. 23 — Lunch, \$1.25; dinner, \$1.25.
Thursday, Oct. 24 — Lunch, \$1.25; dinner, \$1.25.
Friday, Oct. 25 — Lunch, \$1.25; dinner, \$1.25.
Saturday, Oct. 26 — Lunch, \$1.00; dinner, \$1.00.

Funding Opportunities

For procedural and funding source information, call 865-1372.

October 17, 1974

(150-2) Submission of Title II Water Resources Research Project proposals for FY 1975 must be made by Jan. 10, 1975. This program supports grants, contracts and matching or other arrangements. The newly reorganized Office of Water Research and Technology (OWRT) — Aug. 29 (NTERCOM 2147-4) accepts unsolicited technical proposals, but emphasizes support of research in the following fields: inland water resources planning and management, encouraging Indian self-determination and improvement in the quality of life in Indian reservations, solving of energy-related water problems, promotion of water use efficiency and protection of the environment. Proposal materials and procedure from OWRT (OWRT Procedures Manual #74-2) are available from Dr. A. J. McDonnell, Director, PSU Water Resources Center (865-3933). Early contact is suggested. (Ref. OWRT proposal letter 9/13/74 and CBO, 9/10/74 distributed).

(195-3) A program of community-oriented discussion program to bring the public into contact with humanities professors is funded by the Public Committee for the Humanities in Pennsylvania. The program theme will be, "The People of Pennsylvania and Their Institutions: Who Does What?" The Public Committee is an independent organization affiliated with the National Endowment for the Humanities (NEH), and this program is to bring the humanities professor into meaningful dialog with the out-of-school adult. Humanities include philosophy, history, literature, language,

Distinguished scholars to attend

Surrealism conference here Nov. 7-9

Drama, music, films, literature, and art will all be explored in "Surrealism: A Celebration," Nov. 7-9, a Continuing Education service of the College of Arts and Architecture, College of the Liberal Arts, and the Institute for the Arts and Humanities Studies.

The celebration is the 50th anniversary of the publication in Paris of Andre Breton's "manifeste du Surrealisme," from which the movement in the various forms of art stemmed.

The three-day conference, attracting scholars from far and wide, will be opened with the introduction of distinguished guests and an address by M. Gilles Pouget, Conseiller Culturel Adjoint, Ambassade de France, at 1 p.m., Thursday.

Among the distinguished American and foreign visitors who will lecture during the conference are Julien Levy, who in the 1930s introduced Surrealism to the U.S. through his New York gallery; Marcel Jeun, from France, Surrealist painter since 1933 and author of "The History of Surrealist Painting"; and Jorge de Sena, Portuguese Surrealist. There are many others.

In addition to formal lectures of the Conference, there will be exhibitions, music programs by faculty members and area residents and by the University Symphony;

a ballet performed by local dancers; films; Surrealist art exhibited in Zoller Gallery; two Surrealist plays in the Playhouse; and a banquet in the HUB ballroom Saturday, Nov. 9.

Registration for the Conference is taking place in Room 409 Keller Bldg., where additional information may be obtained. The general registration fee is \$35, which includes a banquet ticket and admission to theatre, music, and ballet performances. A special student registration fee of \$10, which does not include the banquet, has also been set.

As part of the celebration, papers presented at the conference will be published in the Journal of General Education. A program-catalog is being published, and a color film of the occasion is being planned for production by WPSX-TV.

Dr. Robert F. Lima, head of the comparative literature program, has organized the conference.

Among the events open to the general public are the plays at Playhouse theatre (see calendar); the music program and ballet Thursday, at 8:30 p.m., in Schwab Auditorium; the Zoller Gallery art exhibits; and the displays of rare books, manuscripts, etc., in the Pattee Library Rare Books Room.

"However," the revised policy states, "the University recognizes that there are, in some instances, circumstances such as specialized educational background and experience where employment by two members of the family in a single work area is desirable even though a supervisory relationship results."

In such special situations, placement of relatives may be made in the same area even though one of the related employees is in a supervising capacity.

This is provided, however, that satisfactory arrangements are outlined and approved in advance, either by the provost of the University or by the provost of the

(Continued on page four)

Lord, Lady Snow to lecture next week

British novelist and scientist C. P. Snow and his wife, author Pamela Horsford Johnson, will be on campus Oct. 28-31. Lord Snow will speak as Graduate School Lecturer of 8 p.m. Tuesday, Oct. 29, in University Auditorium on "The Flight from Reason." He will discuss the resurgence of anti-science and anti-reason and the attempts to escape the limits of rationality. This includes current vogues for various forms of scientific charlatanism, including astrology and various paranormal philosophies. Lady Snow will address the English Colloquium at 8 p.m. Oct. 30 in Room 101 Kern Bldg.

Student records affected by legislation

U. Council considers confidentiality

University Council, concerned about confidentiality of records pertaining to students, and also about how such records might be affected by the Buckley amendment, now enacted into law as a part of the Elementary and Secondary Education Act, heard Dr. Raymond O. Murphy, vice-president for student affairs, outline records his office maintains on students last week.

Council, wishing to continue the study of recordkeeping, will ask Ralph E. Zilly, vice-president for business, and David E. Stormer, director of University Safety, to discuss records in the Division of University Safety at the next meeting, scheduled for noon on Thursday, Nov. 7. Two associate deans also will be invited to discuss academic records maintained in the Colleges.

Dr. Murphy listed the student records maintained by his office, including the Biographical Folder, completed when the student applies for admission; the Medical Record, initiated with the physical examination forms the student submits prior to enrolling, which also may include a psychiatric record if one exists for the student; student aid files, providing financial

aid is involved; placement credentials only in the case of students in the College of Education or those planning to enter the field of teaching; and disciplinary records, if such records exist for a student.

He outlined policies for destruction of the records, except for the medical record, on the graduation of a student, and procedures for maintaining the strict confidentiality of records.

The Buckley amendment, it is noted, provides, among other things, for opening the records of a student to the student and his parents if the student is under 18 years of age; and to the student, if he is over 18 years of age, as well as to certain Federal agencies, regardless of the age of the student.

It was pointed out that University officials, concerned about the provisions of the amendment, which is the basis for guidelines now in preparation by the Department of Health, Education, and Welfare, has registered concern through the National Assn. of State Universities and Land-Grant Colleges about these provisions.

Among the concerns are the assumption that total revelation of a student's medical and psychiatric records is always in his best interest; the fact that campus security departments, often required to function in accordance with state laws, may conflict with requirements of the new Federal law; and that the new law, written in the context of public and elementary schools, will need implementing guidelines to reflect the context of higher education.

The matter of retroactivity of application also is a concern because information now in student files may have been obtained under conditions of assured non-disclosure, greater precision of terminology is needed in the law; and guidelines should be clearly supportive of the institution's need to charge fees for record release and record transfer activities.

University officials also expressed the hope for a 60-day "grace period" before access activity would begin so they could develop appropriate institutional procedures.

A preliminary report on the graduating student instructional evaluation questionnaire completed by graduating seniors last Spring also was made, and a complete report will be received later.

Policy changes announced

Employment of relatives affected

Changes have been made in University policies which in the past have disallowed the employment of members of the same family where one is in a position to supervise or influence certain personnel actions of the other, Ralph E. Zilly, vice-president for business, has announced. The policy revision has been made as a part of the University's continued updating of its program of Affirmative Action.

Normally, placement will not be made where one employee is in a position to supervise or to influence the related employee's rate of pay, promotion or granting of tenure, or where the handling of confidential information could create awkward work situations.

SENATE REPORT

The Academic Affairs Committee of the University Faculty Senate is a broad committee which considers matters in all three major areas of University activities — instruction, research and continuing education.

As a policy-making committee concerned with all educational policies of the University except admissions, its major function is to maintain the academic quality of the University.

In line with this responsibility, an Academic Affairs subcommittee developed guidelines for reviewing and evaluating external degree programs to be offered by the University. The subcommittee recommended establishment of an external degree in nursing, which was approved by the Senate last December, and presently is considering external degree programs in sociology and general arts and sciences.

According to Dr. Thomas E. Daubert, Academic Affairs Committee chairman, a number of other subcommittees have been authorized under Senate rules.

They include:

—Physical Plant Planning, which acts in advisory role to the administration.

—Division of Undergraduate Studies, which advises in the development of the newly-created academic division. The subcommittee currently is studying some of the division's problems, including programmatic research support for testing ac-

tivities, the advising of adjunct students, standards for transfer between colleges and departments, and its relationship to other academic and administrative units.

—Policy Basics for Senate. This subcommittee is examining the general education policies of the University as seen by the Faculty Senate and comparing these with the academic master plan of the Board of Trustees.

—Resident Education — Continuing Education, which is working on revising Senate definitions for resident education and continuing education and the rules governing their interaction.

—Student Evaluations — In rejecting most of the recommendations of a committee in March, the Senate established this permanent subcommittee to be responsible for developing comprehensive policy statements on evaluation of courses, programs and instructors.

—Grade Distributions — Noting that the tendency of grades to be inflated has been shown throughout the country, Dr. Daubert said this subcommittee was established in an effort to correlate the University's experience with national studies to determine reasons for the trend and whether any actions should be taken locally to alleviate the situation.

Besides the work of the subcommittees, Dr. Daubert said the

University Park Calendar

October 24-November 3, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday, October 24 — Black Christian Fellowship Religious Emphasis Week worship service, 7:30 p.m., Walnut Bldg. Elder Ravanel, pastor, Church of God in Christ, Mount Union.

Thursday, October 24 — Faculty Women's Club Fall Lecture Series, 9:30-11 a.m., HUB assembly room. Samuel Bayard, on "Folk Song and Music."

Thursday, October 24 — Penn State Chaplains' collective bargaining discussion, 11:45 a.m.-1:45 p.m., HUB dining room C.

Thursday-Saturday, October 24-26 — Billiard Congress of America tournament for professionals, sessions at 1:30 and 8 p.m. Thursday and Friday; 1:30 and 8 p.m. Saturday; admission charge per session, \$1.50.

Thursday, October 24 — United Nations Day panel discussion, "Man and Food in the 20th Century: An International Perspective," 8 p.m., HUB assembly room. Participants: Dr. Wilbur Zelensky, Dr. Lynn G. Brinkman, Dr. E. E. Hunt, Jr., Dr. Paul D. Simkins, and Ralph R. Sell.

Friday, October 25 — Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium. Music Series performance.

Friday, October 25 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Entertainment by John David.

Friday, October 25 — OTIS Casino Night for benefit of Centre County Day Care Center, 7:30 p.m., HUB ground floor.

Saturday, October 26 — Artists Series, New Japan Philharmonic, 8:30 p.m., University Auditorium. Special event performance.

Saturday-Sunday, October 26-27 — Pennsylvania Intercollegiate Chess Team Championship, round beginning at 8 a.m., Room 102 Kern. Observers welcome.

Sunday, October 27 — Gospel Festival program for Religious Emphasis Week, 3 p.m., Schwab Chapel. Tickets at door \$3.00, in advance, \$2.50.

Sunday, October 27 — Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Ira Reed, Pastor First Presbyterian Church, Hershey.

Sunday, October 27 — Stephen Brown and Eleanor Howells, duo-piano team, 3 p.m., Music Bldg. recital hall. Works for two pianos by Schumann, Poulenc, Copland, and Rachmaninoff.

Sunday, October 27 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, October 28 — Gamma Psi Epsilon program, 8 p.m., McElwain piano lounge. Dr. Burk B. Hart, speaker.

Tuesday, October 29 — Halloween party for children of faculty staff and graduate students, sponsored by Graduate Association, 7 to 9:30 p.m.

Tuesday, October 29 — Sports: Women's field hockey, vs. Shippensburg, 2:30 p.m.

Wednesday, October 30 — Equestrian Club, 7:30 p.m., Room 111 Animal Industries. Horse Judging Team Demonstration.

Wednesday, October 30 — University Theatre preview, Surrealist Theatre Celebration, 8 p.m., Playhouse Theatre.

Wednesday-Thursday, October 30-31 — FSHA 410 dinner, "Poland," "Classical French," 5:30 p.m., Maple Room. Reservations required.

Wednesday, October 30 — Dean Stanley F. Paulson, College of the Liberal Arts, on "Current Attitudes about the Academic Process in the People's Republic of China," 8 p.m., Chapel lounge, sponsored by Travel Study Group, A.A.U.W.

Thursday, October 31 — Faculty Women's Club Fall Lecture Series, 9:30 a.m., HUB auditorium.

Thursday-Saturday, October 31-November 2 — University Theatre, Surrealist Celebration, "The Breasts of Tiresias and 'The Wedding on the Eiffel Tower,'" 8 p.m., Playhouse Theatre.

Friday, November 1 — Sports: Soccer, vs. Shippensburg, 7 p.m., Jeffrey Field.

Friday, November 1 — Folk and Square Dance Roundup, 7:30 p.m., North Gym, White.

Friday, November 1 — Free University Jammy, 7 p.m., HUB ballroom.

Saturday, November 2 — Sports: Football, vs. Maryland, 1:30 p.m., Beaver Stadium.

Sunday, November 3 — USTFF Championships, Beaver Stadium.

Sunday, November 3 — Chapel Service, 11 a.m., Music Bldg. recital hall. President John W. Oswald.

Sunday, November 3 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Artists Series

Minoru Nojima, pianist.

Minoru Nojima, brilliant young pianist, will play Prokofiev's Second Piano Concerto with the New Japan Philharmonic on Thursday, October 31 in University Auditorium, at 8:30 p.m. It is the same work he played two years ago on campus, when the audience cheered his solo performance. Nojima plays concerts on both sides of the Pacific now, and critics continue to praise his performances highly. Since 1969, when he won the Van Cliburn competition in Fort Worth, he has had a busy schedule. Now 26 years old, Nojima began his studies at the age of three, at 15 entered the famous Toho Music School, and at 18 won the first grand prize in Japan's Nationwide Music Concours. He studied in Moscow under a special two-year scholarship awarded by the Soviet Union.

The next event in the Artists Series is an Ingarman Bergman film, "Smiles of a Summer Night," Tuesday, Nov. 5, at University Auditorium.

FILMS

Thursday-Sunday, October 24-27 — Centre Cinema, "The Godfather," 7 and 10 p.m. Thursday, Simmons Lounge, Friday-Sunday, Room 105 Forum.

Friday-Sunday, October 25-27 — South Halls, "A Touch of Glass," 7:30 and 10 p.m., Redler D.

Friday-Sunday, October 25-27 — East Halls, "They Shot Horses," 7:30 and 10 p.m., Findlay Rec Room.

Friday-Sunday, October 25-27 — North Halls, "Easy Rider," 7:30 and 10 p.m., Room 102 Forum.

Friday-Sunday, October 25-27 — West Halls, "Romeo and Juliet," 7:30 and 10 p.m., Winfield lounge.

Tuesday, October 29 — Commons Mid-Day Cinema, 12:30 p.m., Room 112 Kern. "Cave People of the Philippines."

Wednesday, October 30 — Commonsplace Theatre, "Duck Soup," 8 and 10 p.m., Room 112 Kern.

HUB specials

Oct. 27-Nov. 2

Oct. 27-28 — Dinner, roast turkey, \$1.66 (supper, spaghetti with meat sauce, \$1.17).

Monday, Oct. 28 — Lunch, franks and kurt, \$.98; dinner, Chinese paper area, \$1.09.

Tuesday, Oct. 29 — Lunch, golomobi, \$1.21; dinner, chicken and waffles, \$1.25.

Wednesday, Oct. 30 — Lunch, soup, blueberry infers, sausage, \$2.90; dinner, noodle zoulash, \$1.34.

Thursday, Oct. 31 — Lunch, spaghetti, \$1.17; dinner, Salisbury steak, \$1.43 (Halloween candle).

Friday, Nov. 1 — Lunch, seafood cakes, \$1.06; dinner, baked stuffed Hubbard, \$1.49.

Saturday, Nov. 2 — Lunch, chili con carne, \$.64; dinner, Maryland chicken steak, \$1.24.

WPSX highlights

Friday, Oct. 25 — Series of interviews with area Legislature candidates begins, 9 p.m. Also Oct. 26, 29, and 30, 9 p.m.

Thursday, Oct. 31 — Four interviews at 8 p.m.

Sunday, Oct. 27 — 1929 Film, "West of Zanzibar," 10 p.m. Chancy, Lionel Barrymore, Warner Baxter, 6 p.m.

Sunday, Oct. 27 — Half hour concert by Steven Smith, associate professor of music, 10:30 p.m.

Tuesday, Oct. 29 — Series begins on Techniques of Hunting Safety, 8:30 p.m.

SEMINARS

Thursday, October 24 — Microbiology, 4 p.m., Room S2 Frear. Christopher S. Henney on "Lymphocyte-Mediated Cytotoxicity: An In Vitro Analogue of Homologous Interference."

Thursday, October 24 — Physics, 3:35 p.m., Room 117 Osmond. Gerald D. Mahan, Indiana University, on "Superionic Conductors."

Thursday, October 24 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Dr. John Witly, on "Suitability of Centre County Soils for Waste Disposal."

Thursday, October 24 — Chemistry, 12:45 p.m., Room 333 Whitmore. Richard D. Sacks, University of Michigan, on "Analytical Applications of High-Temperature Radiation Sources Based on Shock-Wave Phenomena."

Thursday, October 24 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Mark Donelson, Physical Processes Unit, Canada Centre for Inland Waters, Burlington, Ontario, on "Some Curious Atmospheric Boundary Layer Profiles and their Implications for Air-Water Interactions."

Friday, October 25 — Statistics, 4 p.m., Room 104 McAllister. Dr. William Strawman, Rutgers University, on "Minifac Estimation of the Location Vector for Center Normal Distribution."

Friday, October 25 — Physical Chemistry, 4 p.m., Room 333 Whitmore. Howard B. Palmer, fuel science, on "Electronic Excitation in Products of Some Gaseous Systems."

Monday, October 28 — Inter-Science Series, 4 p.m., Room 333 Whitmore. David Wilson, U. of Pennsylvania Johnson Research Foundation, on "Mitochondrial Oxidative Phosphorylation and Respiratory Control."

Monday, October 28 — Entomology, 4 p.m., Room 204 Patterson. Dr. Rimg T. Carde, Cornell University, on "Chemical Communication in Moths."

Monday, October 28 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. S. C. Dalmacio on "Biology and Control of Corn of Corn Downy Mildew."

Monday, October 28 — Genetics, 4 p.m., Room 111 Tyson. Dale Baker, soil chemist, Rutgers University, on "Time Dependent Effects in Superconductivity."

Monday, October 28 — Architecture, 8 p.m., Room 105 Forum. Peter Hourihan, president of Building Science Inc., Buffalo, on "The Construction Management Issues." The seminar is co-sponsored by the Department of Architectural Engineering, Landscape Architecture and the Division of Man-Environment Relations.

Monday-Tuesday, October 28-29 — Biochemistry, 11:10 a.m., Room 101 Althouse. Dr. J. V. Maizel, Jr., Laboratory of Molecular Genetics, NIH Child Health and Human Development.

Tuesday, October 29 — Physiology, 3:55 p.m., Room 104 Fenske. Dr. R. Mumma, Plastic Research Laboratory, on "Ascorbic Acid, Cholesterol and Atherosclerosis."

Tuesday, October 29 — Air Pollution Control, 8 p.m., Room 140 Fenske. Christine J. Bystron, Planning Analyst, Bureau of Advanced Planning, Pa. Dept. of Transportation, Harrisburg, on "Air Pollution Evaluation in Transportation Planning."

Tuesday, October 29 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. T. R. Anthony, General Electric Company, on "Liquid Droplet Migration in Solids."

Wednesday, October 30 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. Bruce Begnoche on "Analysis of Particulate Metals in Ambient Air by Low-Volume Sampling."

Wednesday, October 30 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Dr. John Witly on "Suitability of Centre County Soils for Waste Disposal."

Thursday, October 31 — Mathematics, 4 p.m., Room 104 McAllister. Hendrickson on "Sums of kth Power Series in the Ring of Polynomials with Coefficients."

Thursday, October 31 — Physics, 3:55 p.m., Room 117 Osmond. William L. McGuire, Rutgers University, on "Time Dependent Effects in Superconductivity."

Thursday, October 31 — Microbiology, 4 p.m., Room S2 Frear. Gary Pearson on "The Role of Antibody Dependent Lymphocyte Cytotoxicity in Tumor Immunity."

Thursday, October 31 — Chemistry, 12:45 p.m., Room 333 Whitmore. Robert C. West, U. of Wisconsin, on "Aromatic Properties of Cyclopolyisylanes."

Thursday, October 31 — Nuclear Engineering, 1:30 p.m., Room 111 Breazeale Nuclear Reactor. Dr. Gene L. Woodruff, Director, Nuclear Engineering Labs, University of Washington, Seattle, on "Fast Neutron Spectroscopy with Proton Recoil Proportional Counters."

Thursday, October 31 — Engineering Science and Mechanics, 2 p.m., Room 215 Hammond. John Simmons, University of Toronto, on "Properties of Interfaces in Semiconductor-Semiconductor Systems."

Thursday, October 31 — Meteorology, 3:30 p.m., Room 541 Deike. Dr. J. J. Olivero on "An Upper Atmospheric Pourpourri."

Thursday, October 31 — Statistics, 4 p.m., Room 75 Willard. Dr. David K. Allen, Cornell University, on "A Linear Models Algorithm with Very Low Storage Requirements."

Thursday, October 31 — Computer Science, 4 p.m., Room 101 Althouse Lab. Jeffrey J. Ullman, Princeton University, on "Operations on Sparse Relations and Applications to Grammar Problems."

Thursday, October 31 — Engineering Acoustics, 4 p.m., Room 71 Willard. Dr. Thomas Frank, speech pathology and audiology, on "Impedance Audiometry."

MEETINGS

Tuesday, October 29 — Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, October 29 — College of Earth and Mineral Sciences faculty, 4 p.m., Room 26 Mineral Sciences.

Tuesday, October 29 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

Wednesday, October 30 — Association for Childhood Education International meeting, Murray Dellulis, children's book illustrator, 7:30 p.m., Black Cultural Center.

Wednesday, October 30 — USG Academic Assembly, 7:30 p.m., Room 311 Boucke.

Thursday, October 31 — Penn State Mining Society, 7:30 p.m., Room 121 Mineral Industries Bldg. R. Lindsay Mundell, supervisory mining engineer, U.S. Mine Enforcement and Safety Administration, on "MESA and Respirable Dust Control."

LECTURES

Thursday, October 24 — Alfred Le S. Jenkins, American diplomat, on "The Chinese Connection," 8 p.m., Room 112 Kern.

Friday, October 29 — C. P. Snow, novelist and scientist, on "The Flight from Reason," 8 p.m., University Auditorium. The lecture is sponsored by the Institute for the Arts and Humanistic Studies.

Wednesday, October 30 — Pamela Hansford Johnson will address the English Colloquium, 8 p.m., Room 101 Kern.

Wednesday, October 30 — Dr. Kevin F. Collis, University of New Castle, Australia, and the University of Nottingham, England, on "Research in the Development of Formal Reading." The lecture is sponsored by the College of Education and Phi Delta Kappa Professional Society.

Wednesday-Thursday, October 30-31 — 1974 Nelson W. Taylor Lectures by Dr. Herman Mark, Polytechnic Institute of

New York, Wednesday, 4 p.m., Room 26 Mineral Sciences, on "Polymers as Materials." Thursday, 8 p.m., Military Lion Inn assembly room, on "Polymers in the Next Decade." Wine and cheese party following is open to public.

Thursday, October 31 — Dr. Tomislav Marasovic, co-director of the joint American-Yugoslav excavations in Diocletian's Palace, on "Precise Surveys — An Indispensable Method in Archaeological and Architectural Research," 3:30 p.m., Room 102 Social Science Bldg. The lecture is sponsored by the Institute for the Arts and Humanistic Studies.

OFFICIAL

Monday, October 28 — First day for signing NDSL (National Direct Student Loans), SEOG (Supplemental Educational Opportunity Grants), BEOG (Basic Education Opportunity Program), and University Long Term Loans for Winter Term. Last day, Friday, Nov. 1.

News in brief

TWO AT PLAYHOUSE

"The Wedding on the Eiffel Tower," by Jean Cocteau, and "The Breasts of Tiresias," by Guillaume Apollinaire, will open at Playhouse Theatre Thursday, Oct. 31, continuing Nov. 1 and 2 and 5-9. Curtain time is 8 p.m. Knox Fowler is director of both plays, both French Surrealist dramas. Tickets may be reserved by calling 865-1884 between 1 p.m. and 6 p.m. daily.

MARINE CORPS BALL

All active duty, reserve, retired, and former U.S. Marines are invited to the dinner-dance Nov. 8, sponsored by the Marines of the Penn State ROTC staff. The occasion is the celebration of the 199th birthday of the Corps. The dinner-dance will be held at the Elks Country Club, and questions about attending may be referred to the Marine Officer Instructor, 865-4052 during the day, and at 237-5666 in the evening.

CANCER WING OPENS

Ribbon cutting ceremonies to open the \$3,200,000 Basic Sciences-Cancer Research Wing at The Milton S. Hershey Medical Center are slated for 4 p.m. Wednesday, Oct. 30. The National Cancer Institute awarded Hershey \$2 million to help build the eight-story addition. The University committed an additional \$1 million from non-State funds previously earmarked for expansion at the Medical Center.

CHINA VISITOR

Dr. James O. Whittaker, professor of psychology at Capitol Campus returned last month from a three-week study trip to The People's Republic of China. He made the tour with a group of 17 university professors from New Zealand where he served as a visiting professor last year. The group saw Canton, Shanghai, Hangzhou, Nanjing and Peking.

BAYARD SPEAKS

Samuel P. Bayard, professor emeritus of English and comparative literature, will give a public lecture as part of the Faculty Women's Club Lecture Series at 9:30 a.m. today (Thursday) in the HUB Auditorium. He will discuss folk music and his experiences in collecting songs and tunes, particularly those from Pennsylvania.

ENGLISH TRIP

A two-week trip to England is tentatively planned as part of an education course to be offered from June 16 through July 1, 1975, during the summer term at Capitol Campus. Arrangements for the trip, which will permit participants to explore British teaching methods and open classroom practices, are being made in conjunction with Millersville State College. Dr. David Ongiri, assistant professor of education at Capitol Campus, is handling planning at the Penn State end.

FRENCH SHOW

A new radio program, "Echoes of

France," is being aired every Saturday from 11 a.m. to noon over WDFM. Sponsored by the French Club, the show will feature French popular music and poetry. Both live and taped shows will be presented.

CONSTRUCTION PROGRESS

The General State Authority has approved additional funds totaling \$1,541,565 for construction of the Environmental Sciences Building. An initial allocation of \$5,445,000 was well below the bids opened August 28, the second time bids had been received.

Last week, GSA awarded the contract for general construction of the building to J. C. Orr and Son, Inc., of Altoona.

Intended to provide classrooms, labs, and office space in research and other activities related to the energy crisis and especially in the field of coal use and technology, the building will serve the College of Earth and Mineral Sciences. The six-story building will be located along N. Atherton St., just south of the Pollock Road entrance to the campus.

Sen. Henry J. Clannan, of Philadelphia, has introduced Senate Bill 1085 in the Legislature asking for \$3,140,000 for construction of a library-learning center at the Delaware County Campus.

Enrollment at the Campus, now at 1,707, far exceeds initial projections. Enrollment in daytime classes is 1,175 this term, where the present three-story classroom building was designed for only 850 students.

CHINA ACADEMICS

College of the Liberal Arts dean, Dr. Stanley Paulson, will discuss "Current Attitudes about the Academic Process in the Republic of China" Wednesday, Oct. 30, at 8 p.m. in the Helen Eakin Eisenhower Chapel lounge. The travel study group of the American Association of University Women invites the public to hear this slide-illustrated lecture.

SWIM MEET

The annual Penn State Swimming and Diving Relay Championships, which attract some of the best collegiate swimmers in the East, will be held at the Natatorium Saturday, Dec. 7. So far, 18 teams have indicated they will send entrants for diving and swimming team events. No individual titles are decided.

NO WEAPONS

University Safety reminds that firearms and other dangerous weapons are prohibited on campus. They (including bows and arrows) are not permitted in residence halls or in parked vehicles. Faculty and staff members may not bring such weapons to campus. Copies of the University's Weapons Regulations are available at the dispatcher's desk at Police Services, in Grange Bldg. Questions pertaining to the regulations will be answered by Police Services.

Hazleton has dedication ceremony

All Hazleton Campus recently, four shovels were used to break ground for the new physical education building, the scene was a "re-enactment" of the groundbreaking ceremony held 40 years ago at the Hughes Campus, complete with appropriate headgear. Participants in the 1974 ceremony were President Oswald, Pennsylvania Senator L. Murray, Hazleton Campus director O. William J. Ovid, and Dr. R. G. Quinn, dean of academic instruction for Commonwealth Campus. (Photo by Hazleton Standard-Speaker)

Gospel festival in Schwab Sunday

The Black Christian Fellowship "Religious Emphasis Week" is currently in progress at University Park, with worship services, Bible study groups, rap sessions, prayer services, and workshops, culminating in a Gospel Festival Sunday, Oct. 27, from 3 to 6 p.m. in Schwab Auditorium.

Tickets for the Gospel Service are \$2.50 in advance at the Walnut Bldg., the Helen Eakin Eisenhower Chapel and the HUB. If available, they may be purchased at the door for \$3.00.

Featured in the Gospel Festival will be The Soul Stirrers, from Chicago; the Gospel Kings, from Port Matilda; Little Scott White and Singers from Harrisburg; and the United Soul Ensemble, singing group from University Park.

A worship service will be held in Walnut Bldg. today at 7:30 p.m., with Elder Ravanell, pastor of the Church of God in Christ, of Mt. Union, Pa., and a communion service. Saturday, at 7 p.m. in the Walnut Bldg., a reception will be held for the Gospel Festival Singers.

Parking violation

The new faculty and staff driving and parking rules, regulations and information which became effective September 23, 1974, provide for a less complicated procedure for payment or appeal of parking violations. The new procedures, Section H of the rules and regulations, specify that payment or written appeal of violations shall be forwarded to the Bureau's Office within 72 hours of placement of the violation ticket on the vehicle. The old procedure said that when a violation ticket was placed on a vehicle, no action was to be taken until that ticket was followed up with a traffic violation bill. The new procedure streamlines the payment or appeal process because no longer will a bill be sent. The progressive penalty system which was integral with the old billing procedure is also eliminated. A listing of faculty and staff violations and penalties appears under Section I of the new rules and regulations.

Call-In procedure

As an improvement in the faculty and staff parking system, the call-in procedure has been eliminated. Under this previously used system, if your parking lot was filled and you parked in another area, it was necessary for you to report it immediately. Many faculty and staff members found this cumbersome because of the difficulty in arranging to make an immediate phone call. In addition, unfortunately, some individuals misused the call-in procedure as a device to improve their personal parking situation.

In place of the call-in procedure, the new parking rules and regulations provide for the use of designated open faculty-staff parking areas as alternate parking areas when the assigned area is filled. In addition, the open faculty-staff parking area system provides a parking flexibility for faculty and staff members to be able to park at different parts of the campus without using a floating permit.

Alternate parking areas are designated with a red triangle on the parking map and on the parking signs.

Archaeology talks by Dr. Marasovic

Dr. Tomislav Marasovic, co-director of the joint American-Yugoslav excavations in Diodetian's Palace in Split, Yugoslavia, will deliver two public lectures on archaeology Thursday, Oct. 31, and Monday, Nov. 4, at the University.

"Precise Surveys. An Indispensable Method in Archaeological and Architectural Research" is the topic of the first talk, which will be presented at 3:30 p.m. in Room 107 Social Sciences Bldg. Slides will illustrate Dr. Marasovic's thesis that precise measurements have been invaluable in research on the historic monuments of Split.

The Nov. 4 talk will deal with "The Palace of the Emperor Diodetian in Split" at 8 p.m. in Room 101 Kern Graduate Bldg. The application of modern archaeological research and restoration techniques will be discussed.

Dr. Marasovic has surveyed monuments and planned their restoration throughout almost all of Central Dalmatia in Yugoslavia.

At Penn State, he is a visiting fellow of the Institute for the Arts and Humanistic Studies during the Fall Term.

Halloween party

State College Mayor Jo Hays will serve as costume judge at the Children's Halloween Party, from 7 to 9 p.m. on Tuesday, Oct. 29, in the Commons of the Kern Graduate Bldg.

The party is sponsored by the Graduate Student Association and is open to children of graduate students, faculty and staff. Highlighting the event will be magicians, fortune tellers, cartoons, and a puppet show. There will also be a Haunted House and games for the children.

Refreshments, donated by local merchants, will be served, and the Nittany Lion and "Pappy" will be on hand to meet the guests.

Sponsors are seeking for contributions of apples and pumpkins. Anyone wishing to contribute should contact Barb White, 112 Kern Graduate Bldg., 865-1878.

POLICY —

(Continued from page one)

Milton S. Hershey Medical Center, as appropriate, which restrict any supervisory family member from making decisions that will directly affect a relative and also pertains to access to confidential information as necessary to avoid awkward work situations. Disqualification arrangements shall be made when such occasions arise.

Mr. Zilly said the conditions of the policy apply, also, if two faculty and staff members become related through marriage after they are employed.

O'Hara room in Pattee is completed

John O'Hara's study, with everything from the ancient typewriter on which he wrote "Appointment in Samarra" to a horseshoe he kept over the door, has been set up in Pattee's Rare Books Room, the gift of his widow, Mrs. Katharine G. O'Hara. The walnut-paneled room has been reconstructed just as it was in the author's home in Princeton, N.J.

PENN STATE intercom

Volume 4, Number 9

October 31, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Six-week summer term approved for 1975

A special six-week term as well as the standard ten-week Summer Term will be offered by the University next summer for resident education students.

President Oswald announced the plan this week following a recommendation of the President's Calendar Commission and endorsement by the Faculty Senate, University Council, and the Council of Academic Deans. Guidelines were formulated by the Administrative Committee on Resident Education Procedures.

The plan for the six-week term in 1975 is experimental, he emphasized, and the decision does not in any way prejudice long-range planning now in progress by the Calendar Commission, which Dr. Asa J. Berlin, professor of speech pathology, serves as chairman.

The ten-week session will open on Wednesday, June 11, while the special six-week term will begin on July 10. Both will end on Aug. 20. Registration for both terms will be held on June 10 with a mini-registration scheduled for July 9 for the six-week term students who do not register on June 10. Pre-registration dates for the ten-week Summer Term also will

apply for the six-week term for students who are in attendance at Spring Term classes.

The special six-week session, explains Dr. Robert E. Dunham, vice-president for undergraduate studies, will offer only 400-level and graduate-level courses, except where a lower-division course may be necessary to provide a reasonable program of study for an identifiable group of six-week session students. It is expected to meet the needs of certain upper-division and graduate students, among them teachers in elementary and secondary schools, extended degree candidates with limited time for attending school in summer, adult education groups with no specific degree plans, students taking degrees in other institutions, and other well-defined groups of Penn State students for whom it can be demonstrated that their academic calendar needs are not adequately met through the regular ten-week Summer Term.

The ten-week term, on the other hand, will serve continuing University students wishing to take the maximum number of credits; entering freshmen; regular graduate students; and accelerating under-

graduates.

Three-credit courses in the six-week session will typically meet five times per week for 75-minute periods. The maximum credit load within the six-week session will be seven credits for undergraduates and six for graduate students. It is not recommended that students schedule courses in both the ten-week and the six-week terms. Exceptions may be granted, however, by deans of the Colleges or the student's Graduate School advisors if a student enrolled in a ten-week term has a special educational need that can be satisfied only with a course offered in the six-week session and if the student's academic workload during the six-week period will not exceed normal standards for the student.

Because of the nature of the courses to be offered in the six-week program, it is expected that the program will be offered only at the University Park Campus, but it is noted that Commonwealth Campus directors with special program needs may offer courses of shorter than ten-weeks duration in accordance with University policies that have been in effect since Feb. 1, 1973.

News in brief

HUB DINNER

A Halloween Candlelight Dinner will be held in the HUB Terrace Room cafeteria today (Oct. 31) featuring an entree val cordon bleu, roast turkey, prime rib of beef, stuffed pork chop, crab meat on half shell, and Salisbury steak. Desserts include pumpkin pie and strawberry short cake. Suitable decorations and a hospitality table will add to the occasion.

STUDY PREPARED

A study on American expropriation policy in South Asia, to be submitted to the Joint Presidential-Congressional commission established by the Foreign Relations Authorization Act of 1972, has been prepared by Dr. Stanley A. Kochanek, professor of political science. The commission's purpose is to provide a more effective system for the formulation and implementation of U.S. foreign policy. Dr. Kochanek's study, one of a number being prepared by full-time staff of the Commission and by outside contractors, will be included in a report on the conduct of foreign policy toward the Indian subcontinent from 1965 to the present.

CULTURAL CENTER EXHIBIT

"The Black Presence in the Era of the American Revolution, 1770-1800," is the title of a Bicentennial exhibition opening at the Cultural Center, Walnut Bldg., Saturday, Nov. 2, and continuing for a month. Being circulated nationally by the Smithsonian Institution Traveling Exhibition Service, the exhibit seeks to "restore to the national memory an historic fact . . . the living presence of black men and women during the thirty years" between the martyrdom of Crispus Attucks in the Boston Massacre to the conspiracy of Gabriel Prosser in Virginia at the turn of the century.

PATTEE EXHIBIT

An exhibit of books, prints, posters, drawings, sculpture, candles and jewelry, all of which are properties of Dr. Robert Lima (prof. of Spanish and Comparative Literature), Michael Miller (student), and Ellen Lanyon (visiting fellow in art) is currently being shown in the Main Lobby, West Side, Pattee Library, to continue through November 6, 1974. A bibliography on the occult "for anyone interested in pursuing these bewitching subjects through the mysterious medium of the Penn State Libraries," is available at the main entrance of Pattee and in the main Undergraduate Library.

VETERANS' POST

A post of the American Legion, organized by the student veterans, will be presented a charter November 4 in ceremonies to be attended by officials of the American Legion's State Department. To be designated Post 888, it will be named for a former student, Julius Amici, and the late William H. Cox and Morgan C. Wright, both University administrators who worked closely with veterans and who died in 1973. Cox was admissions director for veterans and freshman counselor; Wright was fee assessor.

OSBORN CHAIRMAN

Dr. E. F. Osborn, who retired in 1970 as vice president for research emeritus, has been named chairman of the National Research Council's Board of Mineral Resources for a three-year term. He is currently distinguished professor at the Geophysical Laboratory of the Carnegie Institution.

Giusti chairs Beaver council

Dr. J. P. Giusti, director of the Beaver Campus, has been named chairman of the Beaver County Council of Higher Learning.

The Council includes the county's three institutions of higher learning: The Community College of Beaver County, Geneva College, and the Beaver Campus of Penn State.

The formal organization includes an Executive Council and a Board of Delegates. The Executive Council is comprised of Dr. Giusti; Dr. Richard T. Adams, President of the Community College; Dr. Edwin Curke, President of Geneva College; and John P. Milanovich, executive director of Beaver Valley Intermediate Unit, an ex-officio member. The Board of Delegates is comprised of the member institutions' administrative officers.

The Council provides a potential for effective and efficient programming in the Beaver Valley area by acknowledging that each institution is unique and therefore has a unique contribution to make while at the same time recognizing the community that exists among the three institutions.

Playhouse opens

The audience for the two plays opening at Playhouse today (Oct. 31) and continuing Friday and Saturday, Nov. 1 and 2, and also Nov. 5-9, should "be prepared to expect the unexpected, the bizarre and that which may be foreign to us" says director Knox Fowler, new member of the theatre arts faculty.

"The Breasts of Tiresias" by Guillaume Apollinaire and "The Wedding on the Eiffel Tower" by Jean Cocteau are both French Surrealist plays, being performed as part of the 50th anniversary celebration on campus of Surrealism's birth.

Tickets may be reserved for the production by calling 865-1884 or in person at the University Theatre box office in Arts Bldg.

Animal behaviorists to meet

"Social Systems and Evolution" is the theme of the regional meeting of the Animal Behavior Society to be held at the University Park Campus Nov. 22-24. The meeting will attract internationally known scholars in the field; locally, many faculty members in related fields but not members of the Society will also attend.

The work of animal behaviorists has taken on added significance in the last few years and especially since the 1973 Nobel Prize was awarded to Lorenz, Tinbergen and von Frisch for work in the field.

The Society is accepting papers on the meeting theme at this time, with a Nov. 15 deadline for receipt of abstracts. Those wishing to participate, either in presenting papers or in organizing round table discussions, should contact Dr. H. B. Graves, 865-3411, Room 204 Animal Industries.

A broad spectrum of interests in the life sciences, psychology, sociology and human development is represented among the speakers, who include Steven T. Emlen, Cornell University; Robert L. Trivers, Harvard; John Fentress, Delhousie University; Richard D. Alexander, Michigan; and John F. Eisenberg, Smithsonian Institution, who will give the banquet address on the subject, "The Question of Limits: the Role of Phylogeny."

The major sessions will be held Saturday, Nov. 23, in the J. O. Keller Conference Center, with roundtable discussions Sunday, Nov. 24.

Two reading rooms, with furnishings supplied by the United Steel Workers of America, opened officially Oct. 16 in Petrie Library. George Buskie (right), U.S.W.A. education director, presented this photograph of Philip Murray, first U.S.W.A. president, to Owen at Libraries Stuart Forth at the dedication. Tables, comfortable chairs, and study carrels are provided for scholars using the extensive archives which the U.S.W.A. donated to the Library.

Four 25-Year Service Awards

Allen R. Gray, left above, professor of health and physical education, shown receiving the University's 25-Year Service Award from Dr. Robert Scametti, dean of the College of Health, Physical Education and Recreation, joined the faculty as instructor in 1949, after serving as a graduate assistant for a year. A graduate of West Chester State College, he earned an M.Ed. degree from Penn State. He served in the U.S. Army in 1942-46, then taught at Shippensburg High School for two years. He has been involved in such administrative work in the College in addition to teaching.

Dean Stanley Paulson), is professor of psychology. Gulhrich (at his right) is professor of nutrition. Both have long and distinguished records in research in the Philippines, and from various sources have received numerous awards and honors. Dr. Gulhrich's book, "Rural Modernization in the Rural Philippines," published by the University of Western Ontario in 1948, has earned him a D. Sc. from the University of Minnesota in 1949, the year he joined the faculty of the University of Minnesota. Dr. Gulhrich is married to Dr. Merrill E. Noble, professor and head of the department of psychology.

Similar screening programs have been carried out in the area for several years, with considerable success and significant public acceptance of the benefits from the program.

REMINDEES AND DEADLINE DATES

Nov. 11 (changed) for NSF/NATO Postdoctoral Fellowships II Science (Oct. 3 Funding Opportunity No. 74-24). . . . Nov. 15 and 29 and Oct. 19 for NSF technology assessments in selected areas (Oct. 10 INTERCOM 215-14). . . . Nov. 15 for NSF Research Training Program (Sept. 26 INTERCOM 2147-2). . . . Oct. 1 for OE Cooperative Education Programs (Oct. 10 INTERCOM 2150-1). . . . Dec. 2 for NSF Engineering Research Initiation Program (Sept. 26 INTERCOM 2148-1). . . . Dec. 2 for OE Student Research Program (Oct. 10 INTERCOM 2152-2). . . . Oct. 13 for NSF Graduate Instructional Program (Oct. 10 INTERCOM 2151-1). . . . Jan. 6 for OE Field Initiated Studies (Oct. 24 INTERCOM 2152-2). . . . Jan. 8 (changed) for NSF Energy-Related Graduate Trainings Oct. 17 INTERCOM 2151-4). . . . Jan. 10 for OE Water Research projects (Oct. 10 INTERCOM 2151-1). . . . Jan. 31 for NSF/RANN Research (Oct. 10 INTERCOM 2152-2). . . . Jan. 31 for NSF/RANN Research (Oct. 10 INTERCOM 2152-2).

The Advisory Search Committee is to identify those candidates who can provide the ablest possible academic leadership and competent administration of the Altoona Campus. Candidates should possess

University Park Calendar

October 31-November 10, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPORTS EVENTS

Thursday, October 31 — Meeting, with talks and round table discussions, of University ombudsmen, 9:30 and 1 p.m., Nittany Lion Inn assembly room.

Thursday, October 31 — FSHA 400 dinner, "Classical" French, 5:30 p.m., Maple Room. Reservations required.

Friday, November 1 — Faculty Women's Club Fall Lecture Series, 9:30 a.m., HUB auditorium. Dr. L. L. Wilson, on "An Agriculturalist's Impressions of the U.S.S.R."

Friday-Saturday, October 31-November 2 — University Theatre, Surrealistic Celebration, "The Breasts of Tiresias" and "The Wedding on the Eiffel Tower," 8 p.m., Playhouse Theatre.

Friday, November 1 — Sports: Soccer, vs. Shippensburg, 7 p.m., Jeffrey Field.

Friday, November 1 — Folk and Square Dance Roundup, 7:30 p.m., North Gym, White.

Friday, November 1 — Free University Jammy, 10 p.m., HUB ballroom. Featuring Steve, sponsored by Hetzel Union Board and Keystone Society.

Friday, November 1 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Featuring Stan Shepherd and Mason Dixon Blue Grass Band.

Saturday-Sunday, November 2-3 — Penn State Players, "Indulgences in Louisville Harem," 8 p.m., Room 112 Kern.

Saturday, November 2 — Sports: Football,

vs. Maryland, 1:50 p.m., Beaver Stadium. (Television broadcast at 1:30 p.m.)

Sunday, November 3 — USTFF Championships, Beaver Stadium.

Sunday, November 3 — Chapel Service, 11 a.m. Music Bldg. recital hall, President John W. Oswald.

Sunday, November 3 — Public Reception, "Living Artists and the Figure," 3-5 p.m., Museum of Art.

Sunday, November 3 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, November 4 — Roger Soop, organ recital, 8:30 p.m., Music Bldg. recital hall. Music by Franck, Regier, Couperin, Veirne, and Poulenc.

Tuesday, November 5 — Artist Series Film Festival, Inghar, Bergman, "Smiles of a Summer Night," 8:30 p.m., University Auditorium.

Tuesday-Saturday, November 5-9 — University Theatre, Surrealistic Celebration, "The Breasts of Tiresias" and "The Wedding on the Eiffel Tower," 8 p.m., Playhouse Theatre.

Tuesday-Saturday, November 5-6 — Alpha Phi Omega bloodmobile, 9 a.m.-5 p.m., HUB ballroom.

Wednesday, November 6 — University Theatre student preview, "Lemon Sky," 8 p.m., Pavilion Theatre.

Wednesday, November 6 — Penn State Brass Choral, 8:30 p.m., Music Bldg. recital hall. Music by McKay, de Lorenz, Haydn, Mozart, Burt Fenner, Blikk and Leonard Bernstein.

Wednesday-Thursday, November 6-7 — FSHA 400 dinner, "South America," "Austro-Hungarian Empire," 5:30 p.m., Maple Room. Reservations required.

Wednesday, November 6 — Two Cultures Dialogue, noon-2 p.m., Room 189 Materials Research Lab. Robert G. Price, philosophy, on "Wilderness: Values, Politics, and Decisions."

Thursday, November 7 — Faculty Women's Club Fall Lecture Luncheon, 12:30-1 p.m., Room 101 Kern. Frank Patrick, on "Recruiting Policies and Academic Counseling of Football Players at Penn State."

Thursday, November 7 — Surrealistic Concert of music and dance, 8:30 p.m., Schwab.

Thursday-Saturday, November 7-9 — University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Friday, November 8 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 9 — Artists Series, The Royal Shakespeare Company, "The Hollow Crown," 8:30 p.m., University Auditorium.

Sunday, November 10 — Artists Series, The Royal Shakespeare Company, "Pleasure and Repentance," 8:30 p.m., University Auditorium.

Sunday, November 10 — Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Charles L. Coleman, Program Director, Religious Affairs.

Sunday, November 10 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Artists Series

Tickets for the Royal Shakespeare Company's performance Sunday, Nov. 10, of "Pleasure and Repentance" will go on sale Monday, Nov. 4, at University Auditorium box office and in the HUB, 9 a.m. to 4 p.m. weekdays and 10 a.m. to noon Saturday.

The Company will give a performance

Richard Todd, on Artists Series.

Saturday, Nov. 9, of "The Hollow Crown," but tickets for that event are taken by season ticket holders.

"Pleasure and Repentance," termed a lighthearted look at love, is a "treatment of all the aspects of love, utilizing scenes with many of the best known lovers in literature." For example, the program begins and ends with "A Description of Love" by Sir Walter Raleigh, and in between are the words of Tennyson, Ogden Nash, Keats, Dickens, Shaw, Shakespeare, and Lennon and McCartney and The Rolling Stones. It is a program of words and music featuring actors Richard Todd, Ann Firbank, Hugh Sullivan, and Clifford Rose with the songs, guitar and lute of Martin Best.

"The Hollow Crown," on the other hand, is "an entertainment by and about the Kings and Queens of England," composed of the letters, speeches, poems, songs and music of their times.

Both performances are at 8:30 p.m. in University Auditorium. Tickets for children and the students cost the same as those of Penn State students for "special events."

FILMS

Thursday, October 31-November 3 — Centre Cinema, "Midnight Cowboy," 7:30 and 10 p.m., Thursday, Simmons lounge; Friday-Sunday, Room 105 Forum.

Friday-Sunday, November 1-3 — South Halls, "Dirty Harry," 7:30 and 10 p.m., Redifer.

Friday-Sunday, November 1-3 — East Halls, "One Day," 7:30 and 10 p.m., Findlay Rec Room.

Tuesday, November 5 — Hetzel Union Board, 11 a.m., HUB assembly room, "The American Alcoholic."

Wednesday, November 6 — Commonsplace Theatre, "On the Waterfront," 8 and 10 p.m., Room 112 Kern.

Thursday-Sunday, November 7-10 — Centre Cinema, "Slaughterhouse Five," 7:30 and 10 p.m., Thursday, Simmons Lounge, Friday-Sunday, Room 105 Forum.

Friday-Sunday, November 8-10 — South Halls, "Butch Cassidy," 7:30 and 10 p.m., Redifer "D."

Friday-Sunday, November 8-10 — East Halls, "Effect of Gamma Rays," 7:30 and 10 p.m., Findlay Rec Room.

Friday-Sunday, November 8-10 — North Halls, "Bonnie and Clyde," 7:30 and 10 p.m., Room 102 Forum.

Friday-Sunday, November 8-10 — West Halls, "Camelot," 7:30 and 10 p.m., Waring lounge.

SEMINARS

Thursday, October 31 — Agronomy, 3:45 p.m., Room 301 Ag Administration, Dr. John Wirth, on "Sustainability of Centre County Soils for Waste Disposal."

Thursday, October 31 — Mathematics, 4 p.m., Room 102 McAllister, M. Hendrickson on "Sums of kth Power Series in the Ring of Polynomials with Coefficients."

Thursday, October 31 — Physics, 3:55 p.m., Room 117 Osmond, William L. McLean, Rutgers University, on "Time Dependent Effects in Superconductivity."

Thursday, October 31 — Microbiology, 4 p.m., Room 52 Frear, Gary Pearson on "The Role of Antibody Dependent Lymphocyte Cytotoxicity in Tumor Immunity."

Thursday, October 31 — Chemistry, 12:45 p.m., Room 333 Whitmore, Robert C. West, U. of Wisconsin, on "Aromatic Properties of Cyclopolyisilanes."

Thursday, October 31 — Nuclear Engineering, 1:30 p.m., Room 111 Breazeale Nuclear Reactor, Dr. Gene L. Woodruff, Director, Nuclear Engineering Laboratory of Washington, Seattle, on "Fast Neutron Spectroscopy with Proton-Recoil Proportional Counters."

Thursday, October 31 — Engineering Science and Mechanics, 2 p.m., Room 215 Hammond, John Simmons, University of Toronto, on "Properties of Interfaces in Metal-Insulator-Semiconductor Systems."

Thursday, October 31 — Meteorology, 3:30 p.m., Room 541 Deike, Dr. J. O. Jiverson on "An Upper Atmospheric Potpourri."

Thursday, October 31 — Statistics, 4 p.m., Room 75 Willard, Dr. David M. Allen, Cornell University, on "A Linear Models Algorithm with Very Low Storage Requirements."

Thursday, October 31 — Computer Science, 4 p.m., Room 101 Altohouse Lab. Jeffrey D. Ullman, Princeton University, on "Operations on Sparse Relations and Applications to Grammar Problems."

Monday, November 4 — Plant Pathology, 9:45 a.m., Room 213 Buckhout, D. H. Lambert on "Mycotoxins and Saprophyte Allergens from Plants."

Monday, November 4 — Architecture, 8 p.m., Room 105 Hammond, Henry Sanoff, North Carolina State University, on "Community Development and Design."

Monday, November 4 — Genetics, 4 p.m., Room 111 Tyson, Richard R. Hill, Jr., U.S. Regional Pasture Research Laboratory, on "Role of Genetics and Breeding in Solving Mineral-Related Problems in Agriculture."

Monday, November 4 — Inter-science, 4 p.m., Room 333 Whitmore, W. W. Cleveland, U. of Wisconsin, on "Chromosomal ATP, Lysoxos and the Mechanism of West Nile Encephalitis."

Monday-Tuesday, November 4-5 — Biochemistry, 11:10 a.m., Room 101 Altohouse, Dr. Roger M. Herlihy, Johns Hopkins University, on "Genetic Transformation in Bacteria." Tuesday, "An Electrophoretic Reactivation of Irradiated DNA."

Tuesday, November 5 — Psychology, 1:15 p.m., Room 351 Moore, Dr. Paul Dennis, Elizabethtown College, on "Selective Attention in Perceptual Vision."

Tuesday, November 5 — Computer Science, 4 p.m., Room 325 Whitmore, Dennis A. Van Dusen, on "The CSAR System."

Tuesday, November 5 — Air Pollution Control, 2:20 p.m., Room 140 Fenske, Thomas M. Heelan, Allied Chemical Corporation, Morrisstown, N.J., on "Industrial Odor: Its Measurement and Control."

Tuesday, November 5 — Physiology, 3:55 p.m., Room 8 Life Sciences, Dr. D. D. Krieger, Biophysics and Laboratory for Human Performance Research, on "Electrophysiology of the Mammalian Visual System."

Tuesday, November 5 — Solid State Physics, 1 p.m., Room 339 Davey, Brian Sawatzky, M.I.T., on "Response of a Ferromagnetic Electron Gas and of the Surface of Ferromagnetic Metals."

Tuesday, November 5 — Chemical Engineering, 3:45 p.m., Room 140 Fenske, Turner Alloy, DuPont Chemical Company, on "The Construction and Properties of Multilayer Polymer Films."

Tuesday, November 5 — Geosciences, 4 p.m., Room 26 Mineral Sciences, Dr. E. K. Graham, geophysics, "On the Composition of the Mantle."

Wednesday, November 6 — Remote Sensing, 4 p.m., Room 204 Electrical Engineering, Benjamin Merembeck, Forest Resources, on "Reformatting of Multispectral Scanner Data for Display on the Colorized Cathode Ray Tube (Gage Image 100 System)."

Wednesday, November 6 — Analytical Chemistry, 11:30 a.m., Room 333 Whitmore, Hayden Clark on "Pattern Recognition of Petroleum Samples."

Thursday, November 7 — Engineering Acoustics, 4 p.m., Room 71 Willard, Leslie D. Frank, on "The Contributions of Bark and Ground Absorptions to the Attenuation of Radiated Vehicle Noise Within a Forest."

Thursday, November 7 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences, Dr. J. H. E. Clark, "The Propagation of Planetary Wave Energy in the Winter Stratosphere."

Thursday, November 7 — Agronomy, 3:45 p.m., Room 301 Ag Administration, Chicago American Society of Agronomy Paper Presentation Reviews.

Thursday, November 7 — Physics, 3:55 p.m., Room 117 Osmond, James L. Friar, Brown University, on "Recent Developments in Nuclear Physics."

Thursday, November 7 — Microbiology, 4 p.m., 52 Frear, Austin Newton on "Development in 'Caulobacter Crescens'."

Thursday, November 7 — Chemistry, 4 p.m., Room 101 Altohouse, Dr. Philip M. Lewis, General Electric Research and Development Center, on "Approximate Algorithms for the Traveling Salesperson Problem."

LECTURES

Thursday, October 31 — Dr. Tomislav Marasovic, co-director of the joint American-Yugoslav excavations in Diocletian's Palace, on "Problems in Archaeology: A dispensable Method in Archaeological and Architectural Research," 3:30 p.m., Room 107 Social Science Bldg. The lecture is sponsored by the Institute for the Arts and Humanities.

Thursday, October 31 — 1974 Nelson W. Taylor Lecture, 8 p.m., Nittany Lion Inn Assembly Room, Dr. Herman Mark, Polytechnic Institute of New York, on "Polymers in the Next Decade." Wine and cheese party following is open to public.

Monday, November 4 — Dr. Tomislav Marasovic, co-director of the joint American-Yugoslav excavations in Diocletian's Palace, on "The Palace of the Emperor Diocletian in Spili, Yugoslavia," 8 p.m., Room 101 Kern. The public is invited to informal reception preceding the lecture in Room 101 Kern at 7:30 p.m.

Tuesday, November 5 — American Chemical Society, Central PA. Section, 8 p.m., Room 101 Altohouse, Dr. Emerson Verable, Pittsburgh, on "The American Chemical Society — Where Is It Going?"

MEETINGS

Thursday, October 31 — Penn State Mining Society, 7:30 p.m., Room 121 Mineral Industries, R. Lindsay Muldrew, supervisory mining engineer, U.S. Mine Enforcement and Safety Administration, on "MESA and Respirable Dust Control."

Thursday, October 31 — Central PA. Section American Institute of Aeronautics and Astronautics, 4 p.m., Room 232 Hammond, B. P. Miller, director, Systems Engineering ECOR Corporation, Princeton, New Jersey, on "The Scientific and Economic Potential of Satellite Based Oceanographic Research."

Thursday, October 31 — AAUP collective bargaining discussion, 11:45 a.m.-1:45 p.m., dining room C, HUB. All faculty.

Monday, November 4 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, November 4 — Education Student Council, 7 p.m., Room 111 Chambers.

Tuesday, November 5 — College of Liberal Arts Faculty, 3:30 p.m., Room 121 Sparks.

Tuesday, November 5 — ARHS, 7:30 p.m., Room 309 Boucke.

Wednesday, November 6 — AWS, 7 p.m., Room 203 HUB.

EXHIBITS

Cultural Center, Walnut Bldg. — "The Black Presence in the Era of the American Revolution, 1770-1800," a Smithsonian Traveling Exhibit, through Dec. 1. Museum of Art — Twentieth Century Master Pottery, Gallery B. Living Artists and the Figure, Galleries A and C, opening November 2.

Zotter Gallery — Graduate Show. Surrealist paintings and other art objects, opening November 7.

Kern Gallery — Ken Kuhn, wall reliefs, through November 8. D. Blumenthal, paintings, through November 9. Winfield House, jewelry, pottery and stained glass, through October 31. Shirley Sturtz, watercolors, drawings, opening November 10.

Public information director being sought

The University is accepting applications from current staff members for the position of Director, Department of Public Information. The Director reports to the Vice President for Public Affairs, with responsibility for informing the public through mass media concerning the activities of the University in all its aspects, and for informing, through internal publications, the faculty, staff, and students. The applicant should have at least a bachelor's degree, and preferably a master's degree, with extensive journalistic and administrative experience, with proven ability in public relations, newspapers, radio, or advertising. Applications, with complete vita, or inquiries should be sent to the Employment Division, Room 117 Willard Building before Nov. 15.

Surrealism celebration next week

Among the events open to the public during the three-day conference on "Surrealism: A Celebration" next week is a music and dance program in Schwab Auditorium Thursday, Nov. 7, beginning at 8:30 p.m.

Titled "Homage to Erik Satie," the program will include music for piano, violin and voice performed by Evelyn Triole, Raymond Patrick Kline, Patricia Lloyd and Cynthia Schein, orchestral music by the University Symphony Orchestra conducted by Douglas Miller, and "Parade," a ballet choreographed by Patricia Heigel, with the Symphony providing musical support.

Major Surrealist paintings, objects, sculpture and other items on loan from museums, galleries, and private collections are to be exhibited in the Zoller Gallery in the Visual Arts Building. Displays of rare books, manuscripts, photos, letters, journals, etc., related to the Surrealist movement will be displayed in the Rare Books Room of Pattee Library, beginning Nov. 1. This exhibit will continue through November.

The Conference, which has been arranged by Dr. Robert Lima, head of the comparative literature program, will include as speakers such distinguished visitors as J. H. Matthews, professor of French at Syracuse University who has written nine books and many articles on Surrealism; Gloria Orenstein, Douglass College, Rutgers University, author of "The Theatre of the Marvelous"; and Anna Balakian, New York University, who has in press a definitive study of the life and works of Andre Breton.

education, who will talk on "Recruiting Policies and Academic Counseling of Football Players at Penn State," at 12 noon in Room 101 Kern Bldg. Because of the potential interest in the topic to faculty members, the Club extends a special invitation to those interested.

Reservations, which must be made today (Oct. 31), will be accepted by phone; call Mrs. Chauncey Morehouse, 238-0398. The luncheon is \$2.50, and checks should be made out to the Faculty Women's Club.

Faculty women to hear lectures

The Faculty Women's Club Fall Lecture Series continues today (Thursday, Oct. 31) with a talk by Dr. Lowell L. Wilson, professor of animal science, at 9:30 a.m. in the HUB assembly room.

Dr. Wilson will give a slide-illustrated talk on "An Agriculturalist's Impressions of the U.S.S.R."

Reservations are being accepted currently for the luncheon-lecture next week (Thursday, Nov. 7) by Frank Patrick, associate professor of health and physical

Telephone numbers

Pity the student (we'll call John Scholarios) with the telephone number 863-0225. Day after day he answered calls for the Career Development and Placement Office, which is a very busy office. It has a telephone number of 863-0225. But many campus callers don't bother to look up the number or, if it can be surmised, can't remember from the moment of looking it up until they dial. Result, John, at an 865 number gets many calls that should be dialed 863. He's not alone, because the number of 863 phones is increasing rapidly, say Telephone Service, and soon there will be many duplications of the last four digits, and soon many people will be making the mistake that John Scholarios's callers did, unless they look up the number.

Honors

Dr. Kenneth D. Frandsen, professor of speech communication, was elected president of the Speech Communication Association of Pennsylvania at the annual convention in mid-October at Pittsburgh. The Association includes members of the speech profession in colleges and universities, secondary and elementary schools, community and junior colleges, and in business and the Pennsylvania Department of Education.

In writing

Dr. Charles C. Snow, assistant professor of organizational behavior, is co-editor of "Organizational Behavior: Research and Issues," which is published by the Industrial Relations Research Association. He is also contributing author of the volume.

Dr. Joseph Jordan, professor of chemistry, is editor-in-chief of "New Developments in Titrimetry," the second in a series, "Treatise on Titrimetry" published by Marcel Dekker, Inc.

Exhibit opens

John Winslow's "In the Studio III," a large oil painting on loan from nearby Ladner Gallery, Washington, D.C., is one of nearly a hundred works on view through December 22 in the Museum of Art, in an exhibit titled "Living American Artists and the Figure."

All-U day Nov. 2

The tenth annual All-University Day, expected to be the largest ever, will be observed Saturday, Nov. 2, at University Park.

An estimated 3,400 students from the Commonwealth Campuses will attend a series of special events here, including the Penn State-Maryland football game.

Activities are being coordinated by the Office of Student Affairs and the Arch Chapter of the Keystone Society as part of the Society's program to promote "one universeness."

At 10 a.m. defending champion Ogontz Campus will meet the Berks Campus in the Commonwealth Campus Soccer Championship on the football practice field. The Capitol Campus soccer club will meet the Penn State soccer club at 11 a.m.

A buffet luncheon is scheduled, following the football game, in the Terrace Room of the Hetzel Union Bldg. A 7 p.m. concert in Recreation Bldg. will feature "Loggins and Messina," while a jammy, featuring the group, "Skye," is scheduled for 10 p.m. in the ballroom of the HUB.

Dr. John W. Oswald, University president, will speak at the All-University chapel service at 11 a.m. Sunday in the Rectal Hall of the Music Bldg.

The Keystone Society, organized in 1964, has chapters at 12 of the 18 Commonwealth Campuses and its Arch Chapter at University Park. The student organization annually sponsors and organizes many service programs at the University.

Thesis policy committee asks help

A Subcommittee on Thesis Policy has recently been formed by the Committee on Academic Standards of the Graduate School. The general nature of the charge is that the Subcommittee recommend policy for theses submitted to the Graduate School. Specific areas to be considered are the appropriate nature, content, and quality of the thesis; definition of the obligations of the student, advisor, and Graduate School; and operational problems related to format, etc.

The Subcommittee is quite interested in determining the attitudes of faculty and students toward present thesis policies, any problem points that should be considered, and proposals for change that would improve the formal structure of the thesis activity.

Comments relating to any of these areas should be directed to the Subcommittee Chairman, Dr. T. M. York, 233 Hammond Bldg., (865-9021).

The 2000th student to take part in the Foreign Studies Program of the University is Joseph S. Zagorski, a horticulture major who has been listed in his entire college career and who will study at the University of Cologne, Germany during the Spring Term. Dr. Robert E. Ounheim, vice president for undergraduate studies, right, presents Zagorski with a Michal Gude while Dr. Osogobor de Levie, director of the Office of Foreign Studies Programs, looks on. The Programs were initiated in April, 1962, when 23 students enrolled for study at Cologne and the University of Strasbourg, France. Now there are six general studies programs and seven specialized programs in operation in 12 different countries.

Computer workshop

Two computer programming workshops, teaching basic concepts and programming techniques, are planned for the end of November by the Computer Center.

An introductory workshop teaching the PL/I computer language and a workshop teaching the FORTRAN language will be held Thursday and Friday, Nov. 21 and 22, and Monday through Wednesday, Nov. 25 through 27. The PL/I workshop will be held in Room 213 Buckhout and the FORTRAN workshop in Room 112 Buckhout.

The workshops, open to all faculty, staff, and graduate students, will be oriented toward those who have had no previous computer experience. Each morning session will start at 9:00 a.m. and each afternoon session at 1:30 p.m.

Sample programs will be studied and practice programs will be assigned throughout the week. In order to gain the maximum benefit, participants should plan to devote the entire week to the workshop.

Registrations will be accepted by Linda Yarnell, Room 229 Computer Building, immediately before the start of cash or interdepartmental transfer for course materials will be made for each registrant. Computer charges will be borne by the Computer Center, and participants can use the computer for practice purposes free of charge for the Winter Term.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt positions may wish to call the Employment Division, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m. NOVEMBER 7, 1974

AUDITING ASSISTANT, CONTROLLER'S OFFICE - University Park

Assist the University Auditor in analyzing University bank accounts by type of transaction in order to determine if there may be discrepancies between University and bank transactions to determine differences requiring corrections and those differences which are proper reconciling items; compare and check balances after reconciliation with Bureau's daily report of bank balances, analyze accounts receivable transactions in general ledger and in custodians' records by type and analyze and record payroll by transactions in the general ledger on a monthly basis. A business school graduate with three to four years of experience.

LANDSCAPE ARCHITECTURAL DRAFTSMAN, OFFICE OF PHYSICAL PLANT - University Park

Under the direction of the Senior Landscape Architect, develop drawings to allow landscape scope projects to be completed within budget or scope limitations. Duties include gathering information and measurements at the job site, viewing shop drawings and consultations with customers. Associate degree in Landscape Architecture or equivalent, plus five to ten years related experience in landscape drafting work.

RESEARCH COUNSELOR (EOP), STUDENT AFFAIRS - University Park

Responsible for the conduct of research activities in the E.O.P. program and to provide value services to individual students to enable them to effectively adjust to the University environment. Bachelor's degree or equivalent, preferably in a program which was research oriented. Two years related experience in counseling of students.

COUNSELOR (EOP), STUDENT AFFAIRS - University Park

Responsible to provide various services to individual students to enable them to effectively adjust to the University environment socially, personally, and academically to the extent at which other services are indicated. A master's degree or equivalent in sociology or counselor education is required. Over two years and up to and including four years experience in a directly related area is necessary.

AREA REPRESENTATIVE - Ogontz

Responsible for the functions of development, organization, operation, and administration of training Education programs and services within assigned geographical district. Bachelor's degree or equivalent with three to four years experience in business, industry or education.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

WPSX highlights

Friday, Nov. 1 — One-act play, "The Phantom of the Subway and How He Grew," by John Galsworthy in Theatre and film, 10 p.m.
Saturday, Nov. 2 — Premiere of dramatic series, "A Family at War," produced by England's Grand Television, 9 p.m.
Saturday, Nov. 2 — Film, "The Crowd," 10 p.m.
Sunday, Nov. 3 — Film, "The Who Gals Step," with Lon Chaney, Sr., 8 p.m.
Monday, Nov. 4 — "Inheritance," traditional folk music, 8 p.m.
Monday, Nov. 4 — Philadelphia Orchestra, music by Copland, Williams, Sibelius, Grieg, etc., 8 p.m.
Tuesday, Nov. 5 — Beverly Sills, in Richard Strauss's "Ariadne auf Naxos," 10 p.m.

News in brief

IPAC PRESIDENT

The new president of the Industrial and Professional Advisory Council (IPAC) of the College of Engineering is Robert G. Warden, founder and president of R. G. Warden and Associates, Jenkintown. IPAC, established 15 years ago, is a means to provide direct communication between the engineering faculty and personnel in industry, governmental agencies and in private practice. Warden succeeds Franklin T. Eilford, of Oak Ridge National Laboratory.

BEAVER SYMPOSIUM

Beaver Campus was host to the First

Annual Symposium of the Beaver County Historical Research and Landmarks Foundation recently, which included, in addition to talks, eight exhibits and presentation of research papers. Along with Beaver Campus, the symposium was sponsored by the Community College of Beaver County and Geneva College, and ten local historical societies were represented among the attendees. Dr. Joseph Makarewicz, assistant professor of history at Beaver Campus, was symposium chairman.

SNOW REMOVAL

Beginning Friday, Nov. 15 and continuing through the winter, parking regulations require that certain areas be free of

(Continued on page four)

Academic program review reports near

The first step in the Undergraduate Academic Program Review involving 16 programs at the University is scheduled for completion on Nov. 16, and already the self-assessment report for the program in speech communication has been filed.

The Undergraduate Academic Program Review is designed to encourage the process of continuous review of academic quality and relevance of undergraduate programs. It starts with the self-assessment phase during which time the faculty looks at its undergraduate program.

Upon completion of this first step, a Program Review Sub-Committee will study the self-assessment and prepare a report based on guidelines established by the Program Review Coordinating Committee.

Programs for which the self-assessment is scheduled for completion on Nov. 16 and the chairman of the Program Review Subcommittee are: Animal Science/Animal Industry, Dr. Herbert Cole, Jr.; Architecture, James R. DeTurck; Art, Dr. George L. Mauner; Architectural Engineering, Howard D. Bartlett; Aerospace Engineering, Dr. Carl Volz; Chemical Engineering, Dr. Herman G. Richey, Jr.; Industrial and Management Systems Engineering, Dr. Alan M. Jacobs; Nuclear Engineering, Dr. J. William Holl; Nursing, Dr. Edward E. Hunt; Journalism, Dr. Gerard A. Hauser; Advertising, Dr. Irwin Feller; English, Dr. Murray A. Martin; Speech Communication, Dr. Robert LaPorte, Jr.; German, Dr. R. W. Carrubba; Russian, Dr. D. H. Stewart.

They face all kinds of problems

Ombudsman's role outlined in meeting

Ombudsmen at the University have been urged to use their imagination and knowledge of the personalities involved in disputes in attempting to resolve problems.

"There are all kinds of problems and there is no standard formula we can provide," G. Edward Phillips, chairman of the Senate Faculty Affairs Committee, said at an all-day meeting of ombudsmen and their alternates last week.

"The role of the ombudsman is conciliatory," he said. "He is in a position to try and use his skill and good judgment in resolving disputes as much as possible to the satisfaction of all parties as early as possible."

"The longer or higher a dispute goes, the more difficult it is to resolve."

Noting that an ombudsman has no power or authority to force parties to meet, Phillips said he also "has no limitations to speak of. While the ombudsman doesn't have any enforcement power, he does have unlimited ability to imaginatively bring about resolutions."

Ombudsmen for each college and campus of the University were appointed under procedures for faculty rights and responsibilities approved in May, 1973, by the University Faculty Senate.

Phillips served as a member of a panel which addressed the ombudsmen and their alternates at the meeting in the Nittany Lion Inn.

Dwight E. Younkis, chairman of the rights and responsibilities subcommittee

of the Senate's Faculty Affairs Committee, chaired the session. Other speakers were Ernest L. Bergman, past Senate chairman; Patricia Farrell, University affirmative action officer; Richard Craig, chairman of the Faculty Rights and Responsibilities Committee, and Nicholas Gavrilis, McKeesport ombudsman.

Gavrilis defined the main job of the ombudsman as attempting to resolve a problem at the first stage "and, more important, attempting to resolve them before they arise."

"Our task," he said, "isn't so much to channel problems as quickly as possible to the different grievance organizations, but is to have them not reach that stage. We're not in a position to solve problems, but rather to create an environment or atmosphere in which people themselves resolve the difficulties."

"Ultimately, what we'd like to see in the University is a situation where we don't need these grievance procedures, and people can approach one another to resolve difficulties. We'd like to create an atmosphere in a unit where individuals, after seeing the operation of the ombudsman, can face the issues and problems themselves."

Craig outlined the procedures followed by the Rights and Responsibilities Committees, noting that the ombudsman is the first line of defense in handling grievances.

"We are required by the standing rules," he said, "to consult with the ombudsman before we have a preliminary review of a grievance. When a case comes to our committee, it is, to some extent, because people are not communicating in good trust. Happiness for the Rights and Responsibilities Committee would be if we had no cases."

After an exchange of ideas and examination of problems at an open discussion session, Younkis said recommendations regarding the role of the ombudsman in the future will be forthcoming.

Homage to Satie

Tickets (free) are required for the "Homage to Erik Satie" to be performed today (Nov. 7) at 8:30 p.m. in Schwab Auditorium by musicians and dancers of the University and community.

Satie composed music in France around the turn of the century and later was adopted as their standard bearer by a group of young French musicians in 1910-20, among them Poulenc, Honegger, Georges Auric, Louis Durey and Gernmale Tailleferre, who, later with Milhaud, were known as "Les Six." The group was united in its reaction to impressionism.

The program today will include works for voice, piano and violin, with performance of "Gymnodies," orchestrated by Debussy, to be played by the University Symphony. Satie's "Parade" will be the music for a dance by members of the Contemporary Dance Co. of the College of Health, Physical Education and Recreation. The dance was choreographed by Patricia Heigel, and Dr. D. Douglas Miller will conduct the orchestra.

Tickets have been distributed this week at the HUB and at the J. O. Keller Bldg. reception desk; if any remain, they will be distributed at the door of Schwab.

SENATE REPORT

Rank and tenure

A Senate Faculty Affairs subcommittee to review academic rank and tenure has been working on a document expressing rank and tenure policies for the University. The following subcommittee progress report will be presented to the Senate for discussion at its Nov. 12 meeting. It is expected that the subcommittee's final report will be presented at the January Senate meeting. Co-Chairmen of the Sub-committee are George E. Andrews and Marvin E. Rees. Chairman of the Faculty Affairs Committee is G. Edward Phillips.

In this brief progress report, we have two objectives: to review the principles underlying our work, and to sketch some persistently troubling and difficult issues. Discussion regarding particular items could be more fruitfully pursued later, when the completed document is in hand. The underlying principles can be summarized as follows:

1. **THE PRINCIPLE OF ACADEMIC FREEDOM AND PROFESSIONAL RECOGNITION.** We sought to emphasize that the basis for tenure is academic freedom; the institution makes a permanent commitment to the faculty member in recognition of both earned academic achievement and future contribution through unhindered inquiry. Likewise, promotion involves a well-defined process of peer evaluation to encourage, through appropriate rewards and recognition, scholarly excellence. Taken together, a well-designed tenure and promotion system can provide the right combination of stability and stimulus.
2. **THE PRINCIPLE OF PARTICIPATION AND PEER EVALUATION.** We have stressed the importance and desirability of enhanced faculty participation, at all levels, and reliance upon reasoned and informed peer evaluation rather than a laundry list of criteria and mechanical judgment.
3. **THE PRINCIPLE OF SEQUENTIAL REVIEW AND FUNCTIONAL COMPETENCE.** We have responded, on the one hand, to interdependence among the constituent parts of the University by involving all segments in a process of sequential review, starting with the smallest self-contained academic unit and terminating at the all-University level. On the other hand, we responded to uniqueness and specialization within the University by proposing review pro-

cedures that at each level reflect the functional competence of the reviewing body.

4. **THE PRINCIPLE OF SHARED RESPONSIBILITY.** We have recognized the need for joint participation by faculty and academic administrators and the parallel requirement to demarcate their respective domains. The review committees are advisory at all levels, and their recommendations carry the force only of moral authority. Ultimate legal responsibility continues to be borne by academic administrators. Where differences emerge, both parties share an obligation to explore jointly the reasons for divergence.

The troublesome issues can perhaps best be summarized by the following questions:

1. Should tenure be defined in terms of geographic location, college affiliation, academic specialization, functional role, or various combinations of these attributes?
2. How is the permanence of the tenure commitment coordinated with the inevitably changing character of the University over time?
3. How is participation encouraged and strengthened without creating an excessively formalized and bureaucratic structure?
4. How, in a University of this size, complexity, and diversity, can a tenure and promotion system be sufficiently flexible to accommodate a potentially wide spectrum of contingencies and yet also be reasonably uniform and unambiguous to provide operationally meaningful guidelines?

Capitol Campus authority

Delegation of authority to the faculty at the University's Capitol Campus would be reviewed at least every five years under a recommendation made by the Faculty Senate's Capitol Campus Review Committee.

(Continued on page four)

Deaths

John B. McCool, Jr., who served as Clinton County agricultural agent for 32 years, died October 24. He retired from the Extension Service staff in 1955, then served for eight years as director of the Pennsylvania Farm Show. A 1922 Penn State graduate with a B.S. in agronomy, he obtained an M.S. in agricultural economics in 1939.

Kenneth R. Davenport, 58, associate professor of mechanical engineering, died Monday, Oct. 28, at Geisinger Medical Center, Danville. A native of Baldwinville, N.Y., he joined the University faculty in 1949. He was a 1938 graduate of Syracuse University, with a B.S. degree in mechanical engineering. From 1941 to 1947, Mr. Davenport was a design engineer with Avco, Williamsport, and he also held engineering positions with Continental Can Corp., Syracuse, N.Y., in 1940-41, and Lamson Co., also in Syracuse, N.Y., 1939-40. He was the co-builder of the Roughtometer, a device used by the Pennsylvania Department of Highways to measure road roughness.

Appointments

Woodrow W. Bierly has been named acting head of the department of public information, filling the vacancy created by the death Oct. 24 of A. Dixon Johnson, who was department head for 12 years. Bierly, a 1938 graduate of the University, joined the staff in 1945 and became news bureau manager in 1962.

Rishal Ray, an visiting research associate in aerospace engineering, to work with Dr. B. Lakshminarayana, professor of aerospace engineering, in research funded by NASA concerning compressor or turbine aerodynamics, will receive a Ph.D. at Fall Term commencement. He is a graduate of The Punjab University, India, and received a master's degree in power engineering at the People's Friendship University of Moscow, U.S.S.R.

Dr. Karon W. Leub, as assistant professor of child development. A graduate of Mukwonago College, she obtained advanced degrees in human development of the University of Kentucky, where she was a psychologist in the Infants' Program, Western Carolina Center, Morgantown, N.C.

Dr. John Lee, an assistant professor of meteorology. He earned three degrees in meteorology at Florida State University and was a postdoctoral fellow at the National Center for Atmospheric Research, Boulder, Colo. He was director of the Trinidad and Tobago Meteorological Service, 1963-67.

Dr. James E. O'Hara, as assistant professor of English, York Campus, received B.A. and M.A. degrees at Penn State and a Ph.D. in English literature of the University of Michigan. He was a newspaper for the Pottsville "Republican."

Dr. Richard M. Pfeiffer, as assistant professor of chemistry, Behrend Campus. He is a graduate of California State University, Northridge, received an M.S. of U.C.L.A., and was granted a Ph.D. in chemistry by Wesleyan University, Middletown, Conn.

Dr. Nick J. Reckoff, as assistant professor of engineering. He obtained all three degrees at Ohio State University and was a manufacturing liaison engineer with Ford Motor Co. and a self-employed consulting operations analyst.

Dr. Joel I. Seiferas, as assistant professor of English, Harrisburg Campus. He earned all three degrees at Massachusetts Institute of Technology, where he was a National Science Foundation Graduate Fellow.

Dr. Marie J. Secor, as assistant professor of English. A graduate of the College of New Rochelle, she earned advanced degrees in English at Brown University.

Karl C. Steiner, as assistant professor of forest resources. A graduate of Colorado State University with an M.S. from Michigan State, he is currently a candidate for the Ph.D. in forest genetics at Michigan State, where he is an instructor. He was director of the dendrology herbarium at Colorado State and served with the U.S. Forest Service.

Dr. Mary Therese Strauss, as assistant professor of English at the Berks Campus. A graduate of Carlow College, she earned both an M.A. and Ph.D. in English at the University of Pittsburgh. She was previously assistant professor of English at Robert Morris College.

Dr. James R. Sweeney, as assistant professor of history. A specialist in medieval ecclesiastical history, he is a graduate of Trinity College. He earned his Ph.D. at Cornell University. He is currently studying the growth of Papal power within the church during the 12th and 13th centuries and works with the Eastern European Center.

Robert Gannon, as lecturer in English. A freelance writer, he has been writing magazine articles and books for the past 15 years and is currently assistant editor of "Popular Science."

Kenneth R. Van Gorder, as lecturer in English; he has been a part-time lecturer since 1972. He received both bachelor's and master's degrees from Penn State and has worked for U.D.I.S. as television production assistant cameraman.

Honors

Dr. Betty van der Smitten, professor of recreation, was honored by the Society of Park and Recreation Educators at its annual banquet at the National Recreation and Park Congress held in Denver recently. She was given the "Distinguished Fellow Award" and cited "for recognized excellence and outstanding service in the field of Park and Recreation Education," especially in the areas of graduate education and research. For a number of years she chaired the National Task Force for the development of both undergraduate and graduate curriculum standards and evaluation criteria and was instrumental in preparing national credentials for accreditation of the Recreation and Parks professional curriculum. In addition to being cited for the contribution of her own research in the field, she was also honored for her stimulation and facilitation of research nationally. Particularly cited in presentation of the Award were her continuing efforts toward excellence in the profession and the high standards of quality required of her students and evidenced in her own work. The professional responsibilities assumed by her students and their quality performance have made significant contributions to the field of recreation. She is one of fewer than a dozen persons to have received this award since it was established.

Ribbon cutting for Hershey addition
At Hershey Medical Center, ribbon-cutting ceremonies were held Oct. 30 for the new cancer research wing, costing \$3.6 million. President Oswald, who did the cutting, got a lot of help from Dr. Harry Pflaum, provost of the Medical Center and dean of the College of Medicine; Dr. Guy D. Newell, Jr., deputy director of the National Cancer Institute of N.I.H.; Dr. Fred Rapp, associate provost of the Medical Center; and Guy D. Newell, Jr., president of the Board of Trustees. The Hershey research in cancer is known internationally, and the new facility will expand the research effort and provide additional space for training other research scientists.

She served at Penn State for 19 years

Mary B. Allgood honored in south

Appalachian State University at Boone, N.C., has dedicated the Allgood Living Center, honoring the memory of Mary Brown Allgood, former professor of home equipment and chairman of the undergraduate program of commercial consumer services at Penn State.

Professor Allgood in 1961 resigned her post at Penn State after 19 years of service to become chairman of the Home Economics Department at Appalachian State University in Boone, N.C. Under her leadership, the Appalachian Department of Home Economics grew in both programs and number of faculty and students. Professor Allgood also worked with planners on the Home Management House and the Lucy Brock Nursery School.

She died in 1972, a year before she planned to retire.

In conjunction with the dedication of the Allgood Living Center, the Mary Brown Allgood Memorial Seminar was conducted Oct. 17-19. The theme for the seminar, sponsored by Appalachian's Department of Home Economics and its Artists and Lectures Programs, was "Home Economics: Focus on People and Their Needs."

Dr. Ruth L. Pike, professor of nutrition science at Penn State, conducted a session on "Nutrition: From Cell to Organism." David B. Van Dommelen, associate professor of art education spoke on "Man and Aesthetics in a Changing Environment."

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 478-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

NOVEMBER 14, 1974

SECURITY OFFICER — Beaver Campus

Responsible to the Campus Director for the overall security of the Beaver Campus, for hiring, training, instructing, and scheduling patrol officers, and for administrative operation of the security and traffic programs of the Campus. Requires training and education in an area such as law enforcement, police and security work, military intelligence work, or similar education, equivalent to two years of college education; plus four to six years experience in the area of law enforcement.

GRAPHIC ARTIST, COLLEGE OF EDUCATION — University Park

Responsible to the Manager of Operations, Computer Assisted Laboratory, for the visual construction of aids and lettering in the production of visual aids and displays, as requested. Associate degree, a graduate of a two-year program from an art institute or equivalency and over one year up to and including two years of effective experience in any phase of graphic arts is required. Knowledge of audio-visual aids and techniques is helpful.

QUOTA BAKERY — Hershey Medical Center

Responsible to the Operations Engineer at the Milton S. Hershey Medical Center for the development of drawings and specifications for maintenance, operations, alterations and selected new projects for the Medical Center buildings, yards, mechanical systems and electrical systems. Associate degree, or equivalent, plus 2 to 4 years related experience.

DATA BASE COORDINATOR, MANAGEMENT SERVICES — University Park

Under the general direction of the Director, Management Services, the Data Base Coordinator will publish, distribute and maintain data element dictionaries; will document data base policies and guidelines for the control of each data base; will assure that data base policies and guidelines are correctly administered. A Bachelor's degree or equivalent in Information Science or Business Administration plus one to two years of administrative and business experience in record keeping activities.

ASSISTANT COMMUNITY USE COORDINATOR, COMMUNITY EDUCATION — University Park

Responsible to the Community Use Coordinator for the coordination of WPS-TV Community Use Projects and for assistance in the development and implementation of community use projects for the Pennsylvania Public Television Network. Bachelor's degree or equivalent in journalism, communications, education, English or related discipline; two to four years of related experience in media utilization, continuing education field or related field.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

He is French political scientist

Exchange grad student begins study

Guy DuFour, a French graduate student studying political science, is attending the University this term as part of a new foreign exchange program with the University of Strasbourg in France.

During the other half of the exchange, Alan Manning, a doctoral candidate in French at Penn State, is studying at the University of Strasbourg.

The new exchange program operates on a fellowship basis, with the universities paying tuition, room and board for the students; funding at Penn State for the fellowship program is through the vice president for undergraduate studies.

Next year, in addition to the fellowship program, an exchange of teaching assistants is planned. A Penn State graduate student will go to Strasbourg to study French and teach English, and a Strasbourg graduate student will come to the University to study English and teach French.

DuFour, who holds a degree from the University of Strasbourg and has done advanced work in political science and taxation, says he wanted to study in the United States partly to improve his English, and partly "to study what we cannot in Europe."

"Some programs here are much more

advanced than what is available in Europe," he said. "The field of political science, for example, is relatively new in France and more generally encompasses economics, international relations and public administration."

Specialized areas such as fiscal policy and taxation systems, he said, are not developed as well in Europe as in the United States.

DuFour, who will attend Penn State until the end of next May, is presently studying to improve his proficiency in English, and is sitting in on courses in political science and economics.

"I studied American foreign policy at Strasbourg," he said, "and now it is interesting to me to see it presented from the American viewpoint."

Influenced by the image of the United States, and particularly American big cities, projected by the mass media, DuFour said he was apprehensive at first during his first trip to this country.

"I was surprised by the kindness shown me," he said. "Everyone was helpful."

With the completion of his study term, DuFour plans to return to Europe, although he has not decided yet whether to return to school or begin a career in government or business.

Harrisburg business gets Capitol help

Small business owners in the Greater Harrisburg area are receiving advice and management assistance from seniors and graduate students at Capitol Campus under the Small Business Administration's "Small Business Institute Program."

For example, 17 Capitol Campus students under the direction of Dr. Harold Gilmore, associate professor of management, are working in consulting teams to supply small businesses in the area with up-to-date knowledge and practices in exchange for work experience. Michael Roddy is consultant to Pope Engineering; Ray Kasper and Amar Bhajandas,

work with Center City Storage of Harrisburg; and Clark Baker, Guy Davenport and Mike Rayner all do consulting work with Harrisburg Taxicab and Baggage Co. From the standpoint of the businesses themselves, owners are provided with custom-tailored financial and managerial advice; from the students' angle, they keep in touch with the realities of the marketplace through their work experience.

In the current Fall Term, ten area businesses are prototyping by the program. Dr. Gilmore hopes to extend the benefits to other businesses during the course of the year.

University Park Calendar

November 7-17, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday, November 7 — Faculty Women's Club Fall Lecture Luncheon, 12:15-1:30 p.m., Room 101 Kern. Frank Patrick on "Recruiting Policies and Academic Counseling of Football Players at Penn State."

Thursday, November 7 — FSHA 410 dinner, "Austro-Hungarian Empire," 5:30 p.m., Maple Room, reservations required.

Thursday, November 7 — "Homage to Erik Satie," Surrealist Concert of dance and music, 8:30 p.m., Schwab.

Thursday-Saturday, November 7-9 — University Theatre, Surrealist Celebration, "The Breasts of Tiresias" and "The Wedding on the Eiffel Tower," 8 p.m., Playhouse Theatre.

Thursday-Saturday, November 7-9 — University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Friday, November 8 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 9 — Artists Series, The Royal Shakespeare Company, "The

Hollow Crown," 8:30 p.m., University Auditorium.

Saturday, November 9 — Sports: Cross Country, vs. Pittsburgh, 11 a.m., White golf course.

Sunday, November 9 — Artists Series, The Royal Shakespeare Company, "Pleasure and Repentance," 8:30 p.m., University Auditorium.

Sunday, November 10 — Chapel Service, 11 a.m., Eisenhower Chapel. The Reverend Charles L. Coleman, Program Director, Religious Affairs.

Sunday, November 10 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Tuesday-Saturday, November 12-16 — University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Tuesday, November 12 — Gallery Talk on "Living American Artists and the Figure" by William Davis, assistant director of the Museum of Art, 10:30 a.m., Museum of Art.

Wednesday, November 13 — Artists Series Film Festival, "The Kid" and "The Tide

Class," Charlie Chaplin, 8:30 p.m., University Auditorium.

Wednesday, November 13 — "Hawaii," color slide show by H. Thomas Halliwell, 7:30 p.m., Room 101 Chambers.

Wednesday, November 13 — Slide-illustrated talk on the Penn State Chorus European tour through seven countries, presented by assistant director Tommie Irwin, 8 p.m., Helen Eakin Eisenhower Chapel lounge, sponsored by AAUW travel study group.

Wednesday-Saturday, November 13-14 — FSHA 410 dinner, African indoor picnic on, Thursday, "First-Presidential Inaugural Dinner," 5:30 p.m., Maple Room. Reservations required.

Friday, November 15 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, November 16 — Sports: Football, vs. Ohio University, 1:30 p.m., Beaver Stadium. Band only.

Sunday, November 17 — Sports: Cross Country, Eastern USTFF Championships, White golf course, 11 a.m.

Artists Series

Ann Firbank is one of the featured members of the Royal Shakespeare Co. which will perform "The Hollow Crown" Saturday, Nov. 9, and "Pleasure and Repentance" Nov. 10 in University Auditorium, at 8:30 p.m.; some tickets remain for the Nov. 10 performance.

SEMINARS

Thursday, November 7 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. J. H. E. Clark on "The Propagation of Planetary Wave Energy in the Winter Stratosphere."

Thursday, November 7 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Chicago American Society of Agronomy Paper Presentation Previews.

Thursday, November 7 — Physics, 3:55 p.m., Room 117 Osmond. James L. Filar, Brown University, on "Recent Developments in Nuclear Physics."

Thursday, November 7 — Computer Science, 4 p.m., Room 101 Althouse. Dr. Philip M. Lewis, General Electric Research and Development Center, on "Approximate Algorithms for the Traveling Salesperson Problem."

Thursday, November 7 — Microbiology, 4 p.m., S2 Frear. Austin Newton on "Development in 'Caulobacter Crescentus'."

Thursday, November 7 — Philosophy, 4 p.m., Room 351 Willard. Jonathan Eroid, NEH Interdisciplinary Post-Doctoral

Fellow, on "More Than Humean Skepticism."

Thursday, November 7 — Statistics, 4 p.m., Room 75 Willard. James H. Matis, visiting professor, "On a Compartmental Model for the Safety of Carcinogenic Agents."

Friday, November 8 — Physical Chemistry, 4 p.m., Room 333 Whitmore. James B. Anderson on "A Random Walk Game. Competition for LCAO-MO-SCF-CI Etc.?"

Friday, November 8 — Fuel Science, 1:30 p.m., Room 244 Delke. Roger A. Strehlow, aeronautical and astronautical engineering, University of Illinois, on "Coal Dust Combustion and Suppression."

Monday, November 11 — Entomology, 4 p.m., Room 244 Patterson. Dr. Jim V. Fitcherson on "The Sexual Behavior of the Gypsy Moth" (film).

Monday-Tuesday, November 11-12 — Biochemistry, 11:10 a.m., Room 101 Althouse. Dr. Robert C. Krueger, University of Cincinnati Medical Center, on "Studies on a Compact Type of Mammalian Chromatin;" Tuesday, "Nuclear Ribonu-

cleoproteins as Inhibitors of Mammalian RNA Polymerase."

Monday, November 11 — Genetics, 4 p.m., Room 111 Tyson. Dr. Sally Dachter, biology, on "Reverse Transcriptase: A Review."

Tuesday, November 12 — Engineering Acoustics, 4 p.m., Room 71 Willard. Leslie D. Frank on "The Contributions of Bark and Ground Absorptions to the Attenuation of Radiated Vehicle Noise Within a Forest."

Tuesday, November 12 — Physiology, 3:55 p.m., Breazeale Nuclear Reactor. Dr. W. Jester, on "Biological Applications of Neutron Activation Analysis."

Tuesday, November 12 — Psychology, 7:30 p.m., Room 101 Chambers. Dr. James Martin on "Value: Its Place in a Unified Theory of Mind."

Wednesday, November 13 — Joint Physical and Analytical Chemistry, 11:30 a.m., Room 333 Whitmore. M. S. B. Munson, University of Delaware, on "Chemical Ionization Mass Spectrometry."

Thursday, November 14 — Chemistry, 12:45 p.m., Room 333 Whitmore. Stuart A. Rice, University of Chicago.

Thursday, November 14 — Microbiology, 4 p.m., Room S2 Frear. Gerald R. Fink on "The Integration of Amino Acid Biosynthesis into the Cell Cycle of Yeast."

Thursday, November 14 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Dr. Henry Fortmann, Agr. Exp. Sta., on "Agronomic Regional Research of the Northeast."

Thursday, November 14 — Statistics, 4 p.m., Room 75 Willard. A. M. Gross, Bell Laboratories, Murray Hill, N.J., on "Confidence Interval Robustness with Long-Tailed Symmetric Distributions."

Thursday, November 14 — Astronomy, 2:30 p.m., Room 445 Dewey Lab. Sabina Sofia, U. of South Florida, U. of Rochester, on "Gamma Ray Bursts: Are They Matter-Antimatter Events?"

Friday, November 15 — Engineering Acoustics, 4 p.m., Room 362 Willard. Dr. J. Srilal, Loughborough University, England, on "Ultrasonic Research at Loughborough University."

MEETINGS

Thursday, November 7 — A.A.U.P., collective bargaining discussion, 11:45 a.m.-1:45 p.m., dining room C, HUB. All faculty.

Monday, November 11 — OTIS, 6:30 p.m., Room 203 HUB.

Tuesday, November 12 — ARHS, 7:30 p.m., Room 308 Boucke.

Tuesday, November 12 — University Faculty Senate, 2:10 p.m., Room 112 Kern.

Wednesday, November 13 — USG Academic Assembly, 7:30 p.m., Room 311 Boucke.

EXHIBITS

Museum of Art — Living American Artists and the Figure. Galleries A and C. Twentieth Century Master Pottery, Gallery B.

Zoller Gallery — Fiftieth Anniversary of the Surrealist Manifesto, Nov. 7.

Rare Books Room, Patten Library — Rare books, manuscripts, letters, journals related to Surrealist Movement.

Cultural Center, Walnut Bldg. — "The Black Presence in the Era of the American Revolution, 1770-1800," a Smithsonian traveling Exhibit.

Kern Gallery — Ken Kuhn, wall reliefs, through November 9. D. Tracy Blumenthal, paintings, through November 9. Shirley Sturtz, watercolors, drawings, opening November 10.

FILMS

Thursday-Sunday, November 7-10 — Centre Figures, "Slaughterhouse Five," 7:30 and 10 p.m., Thursday, Simmons Lounge, Friday-Sunday, Room 105 Forum.

Friday-Sunday, November 8-10 — South Halls, "Butch Cassidy," 7:30 p.m., Redifer D.

Friday-Sunday, November 8-10 — East Halls, "Effect of Gamma Rays," 7:30 and 10 p.m., Findlay Rec Room.

Friday-Sunday, November 8-10 — North Halls, "Bonnie and Clyde," 7:30 and 10 p.m., Room 102 Forum.

Friday-Sunday, November 8-10 — West Halls, "Camelot," 7:30 and 10 p.m., Waring lounge.

Tuesday, November 12 — Helzel Union Board, "Search for Ulysses," 11 a.m., HUB assembly room.

Friday-Sunday, November 15-17 — South Halls, "Sleeper," 7:30 and 10 p.m., Redifer D.

OFFICIAL

Friday, November 15 — Last day for signing Emergency Loans for Fall Term.

WPSX highlights

Saturday, Nov. 9 — Film, "Love" (1927) with Greta Garbo, John Gilbert, 8 p.m.

Sunday, Nov. 10 — Film, "The Monster," comedy thriller, with Lon Chaney, Jr., 6 p.m.

Sunday, Nov. 10 — "How Much Do You Smell," documentary on communication by sense of smell, 7:30 p.m.

Monday, Nov. 11 — Yehudi Menuhin performance, "Al Wall Trap," 8 p.m.

Wednesday, Nov. 13 — Berlin Philharmonic playing Bach's "Suite No. 2" and Beethoven's "Symphony No. 5," 9 p.m.

Thursday, Nov. 14 — Pennsylvania Magazine, 7:30 p.m. and documentary at 9 p.m., on "The Elders."

HUB specials

Sunday, Nov. 10 — Oliner, chopped steak, \$1.59; supper, lasagna, \$1.29.

Monday, Nov. 11 — Lunch, grilled cheese sandwich, soup, \$1.75; supper, chicken Brunswick stew, \$1.25.

Tuesday, Nov. 12 — Lunch, hot roast meat sandwich, \$1.07; dinner, sweet and sour pork with rice, \$1.09.

Wednesday, Nov. 13 — Lunch, bar-b-q on bun, soup, \$1.75; dinner, sautéed steak, \$1.25.

Thursday, Nov. 14 — Lunch, creamed beef on mullin, soup, \$1.11; dinner, stuffed flank steak, \$1.60.

Friday, Nov. 15 — Lunch, fishwich with slaw, soup, \$1.05; dinner, Italian shrimp and macaroni, \$1.23.

Saturday, Nov. 16 — Lunch, Chili con carne, \$6.44; dinner, spaghetti, \$1.17.

CALENDAR DEADLINE
Information is being collected now for the Winter Term Calendar which will appear in the issue of December 5. The deadline for receipt of this material is in Room 312 Old Main is November 20. Departments should consider listing their seminars and colloquia (date, time and place) even though final details have not been developed.

Fifteen miles from Hana, on the Isle of Maui, Hawaii, are the historic seven pools, which are shown in the slide collection of H. Thomas Halliwell, University trustee. The color slides will be shown Wednesday, Nov. 13, at 7:30 p.m. in Room 101 Chambers Bldg.

University, HEW sign memorandum on Affirmative Action Plan

A memorandum of understanding describing final steps to be taken for formal approval of the Affirmative Action Plan of the University has been signed by the University and the Department of Health, Education and Welfare.

Among other things, the agreement calls for the submission prior to Nov. 15 of an updated Affirmative Action Plan based on current employee data and incorporating corrections suggested last July. The agreement also requires the Department of Health, Education, and Welfare to respond to the University prior to Jan. 15, 1975.

Again, the University confirms its policy of nondiscrimination set forth earlier which prohibits discrimination against any employee or applicant for employment because of race, color, religion, sex or national origin.

Also confirmed again is the Affirmative Action program under which the University actively encourages minority group members and women to seek employment and under which the University takes affirmative actions necessary to significantly increase the number of minority group members and women in University positions where they have not traditionally been employed.

The Affirmative Action policies necessary to correct any identified practices which have a discriminatory impact on minorities or women also are again confirmed.

The Office of Civil Rights, Department of Health, Education and Welfare, according to the Memorandum which was co-signed by Dr. John W. Oswald, presi-

dent of the University, and Dewey E. Dadds, director of Region III, Office of Civil Rights, confirms the eligibility of the University for Federal government contracts from the equal employment opportunity standpoint and will continue the University in that status as long as it carries out its obligations under the Memorandum of Agreement and does not otherwise violate the requirements of Executive Order 11246, as amended.

Failure of the University to carry out this understanding, without good cause, will constitute grounds for the institution of sanctions in accordance with procedures set forth in the rules and regulations adopted by the Department of Health, Education, and Welfare, it is explained.

NEWS —

(Continued from page one)

cars and other vehicles from 2:30 to 6 a.m. so that crews may remove snow. All such areas are designated as snow removal areas and will have signs, "No Parking, 2:30 a.m. to 6 a.m." The regulation is in effect whether snow has fallen or not.

RETIRED STAFF CLUB

The 166th meeting of the Retired Staff Club will be held Thursday, Nov. 14, at 7:30 p.m. in the St. Andrews Episcopal Church Life Center, and newly retired faculty and staff members are invited to attend, as well as those who have been retired for some time but did not join the Club. The speaker will be Dr. Philip S. Klein, professor emeritus of history, who

This Memorandum of Understanding is a final step culminating three years of efforts by Penn State officials in plan submission and Office of Civil Rights review, points out Dr. Patricia A. Farrell, who heads the Affirmative Action Program at the University.

Among the materials to be included in the new Affirmative Action Plan will be work profiles indicating by number the sex, rank, degree, and minority group of all faculty members employed in the four full-time job classifications: instructor, assistant professor, associate professor, and professor. The rate of utilization by the University of women and minorities in each of the job classifications also will be indicated and will be presented by college,

department or other organizational unit.

The University Park Campus, Capitol Campus, Hershey Medical Center, and Behrend College will be reported as separate units while the faculty and staff at the Commonwealth Campuses will be included as a part of the University Park profile.

Similar profiles will be prepared for executive and administrative personnel, staff exempt and staff non-exempt personnel, technical service personnel, clerical personnel, and part-time personnel.

Where problem areas are identified in the revised plan, in-depth analyses will be conducted, and where appropriate affirmative actions will be taken to correct deficiencies.

will talk on "My Country, by the Name of Pennsylvania," which is taken from a letter written by William Penn in 1681. If you wish to attend, contact Mr. and Mrs. Ray Conger, 237-2393.

SENATE OFFICE

The office of the executive secretary of the University Faculty Senate, Oscar Barkman is currently listed incorrectly in the new telephone directory; the correct address is Room 205 Wilford. Sometime in the future a move to Birch Bldg. is contemplated.

FSHA DINNER

A South African indoor picnic will be staged by the FSHA 410 class Wednesday, Nov. 13, at 5:30 p.m. in the Maple Room

of the Human Development Bldg., in the program of international and special meals organized by the class. Thursday, Nov. 14, will be a First Presidential Inaugural Dinner. For more information and reservations call 865-7441.

CYCLISTS COLLECT

To aid the Children's Hospital in Pittsburgh, Alpha Kappa Lambda fraternity and Alpha Sigma Alpha sorority staged a bicycle ride from Pittsburgh to State College recently, with 15 cyclists riding the 160 miles in shifts of 20 or 25 miles each. By collecting in towns along the way, and in State College before the ride, a total of \$2,289 was obtained in the three-day trip. Overnight stops were made in Altoona and Johnstown.

Funding Opportunities

For procedural and funding source information, call 865-1372.

November 7, 1974

(154-1) An International Competition for Research in the Soviet Union and Eastern Europe has been announced by the Ford Foundation. Grants will range from \$30,000 to \$80,000 for research projects which are problem-oriented and may include the disciplines of economic history, political science, sociology, literature, linguistics, law, art, and anthropology. A brief outline of proposals must be submitted by Jan. 1, 1975 as a prerequisite for consideration in the final competition. Final proposals will be due March 15, 1975 with awards expected by the end of May. The announcement and guidelines have been distributed. (Ref. 10/18/74, Announcement)

(154-2) Applications for research in subjects which are relevant to the protection and conservation of marine mammals must be received by the U.S. Fish and Wildlife Service, U.S. Dept. of Interior by Jan. 1, 1975 for both the current fiscal year (1974-75) and FY 1976 (1975-76). Therefore, proposals must be submitted by Sept. 1, 1974 to the U.S. Fish and Wildlife Service. Final proposals will be due March 15, 1975 with awards expected by the end of May. The announcement and guidelines have been distributed. (Ref. 39FR 37394, 10/21/74)

(154-3) The Energy Reorganization Act of 1974 (PL 93-680) established the Energy Research and Development Administration (ERDA) bringing into one organization all major federal programs of research and development for all forms of energy. A new Nuclear Regulatory Commission (NRC) now performs all licensing and regulation previously done by the Atomic Energy Commission which has been abolished. A new Energy Research Council coordinates energy policy among all federal agencies and includes the Secretary of Interior (Chmn.), Secretary of State, Administrators of both ERDA and the Federal Energy Administration and the Director of OMB. The Management and Budget. ERDA will continue all phases of energy research including for FY 1975 \$2.3 billion for nuclear (AEC), \$372 million for coal (DOE), \$27 million for solar and geothermal (NSF), and \$5 million for alternative (EPA). (Ref. Information Report, OIS, 10/15/74)

(154-4) The Office of Education (OE) has announced a Jan. 15, 1975 closing date for receipt of applications for Continuation Grants under its Graduate and Undergraduate International Studies program. (Ref. 39FR 37664, 10/23/74)

(154-5) Faculty Fellowships for research on the role of women in society will be awarded by the Ford Foundation. Recipients will devote full time to research, and will be exempt from academic salary lost by accepting such awards. The faculty member must be nominated by the department head or college dean, and only one nomination per department may be submitted. Write to the Ford Foundation, 320 E. 43rd St., New York, N.Y. 10017.

(154-6) Latin-American Teaching Fellowships are available to pre- and post-doctoral scholars through a program managed by the Fletcher School of Law and Diplomacy, Tufts University, Medford, Mass. 02155. Most appointments are for 24 months. Bursaries require full-time. Applicant should speak host-country language. Preference for pre-doctoral appointments are people who have passed their dissertation and are currently involved in a corporation or government agency are also available. Further stipends are \$400-\$700/month. For typical information write to the address given above.

SENATE REPORT —

(Continued from page one)

The committee also recommends that the Faculty Senate review be made at the time of the recently inaugurated five-year academic program review.

The recommendations are among those developed by the review committee in its first review of the delegation of authority which was granted to the Capitol Campus Faculty Organization by the Senate in March, 1972.

Its report, with four specific recommendations, will be presented to the Senate for action at its Nov. 12 meeting.

While recommending that the delegation of authority to the Capitol Campus faculty be reviewed at intervals not exceeding five years, the committee also provides for an earlier review if requested by the Senate.

It said that meshing of the two review programs — delegation of authority and academic program review — would provide a more thorough evaluation of the entire operation of the Capitol Campus.

According to the review committee, the constitution of the Capitol Campus Faculty Organization, modeled on the constitution of the University Faculty Senate, has served as "a solid basis for the operations of the campus."

In its study of the delegated responsibility, the committee cited a communications problem.

"Although the Senate's 1972 action called for the Senate as a whole to be aware of actions of the Capitol Campus Faculty Organization so that the Senate may exercise its review authority as needed," the report says, "there was no way in which the Senate as a whole could know what was going on at Capitol Campus."

"This lack of communication growing out of the inexperience in all quarters in implementing the reporting process has been in the committee's view largely responsible for the sense of uneasiness about Capitol Campus that has existed in the minds of many senators during the past three years."

To remedy the situation, the review committee recommends that all legislative actions by the Capitol Campus Faculty Organization must be reported in summary form in the next monthly "Senate Record." The Senate chairman would be charged with establishing procedures for efficiently reporting such matters.

It also recommended that a special section of the "Senate Record" be labeled "Action by Bodies with Delegated Responsibility."

Reports in this action would include legislative actions of the Graduate School Council, legislative actions of the Faculty Organization of the Capitol Campus, and legislation from any other body to which authority may be delegated by the Senate.

According to the review committee, present established procedures at the Capitol Campus provide input to the Senate Academic Affairs Committee from all appropriate areas at the campus prior to Academic Affairs making its decisions on course and curricula proposals.

However, the committee said the procedures appear to be somewhat inadequate in that, following approval of courses and curricula, the report to the Senate as a whole on the "Bluesheets" has been headed "For Information Only."

"This has been an obstacle to the Senate's exercise of its proper review authority. Although obviously any senator could bring to the floor of the Senate a question in regard to any action by the Capitol Campus Faculty Organization, it has

not been possible for an individual senator or other faculty member to enter into discussion about Capitol Campus actions in the same way which he could enter into such discussions for all other academic actions of the University.

"As a result, either no discussion could take place or such discussion as might be insisted upon would be escalated immediately to the floor of the Senate where similar discussions almost never occur in regard to actions of the Senate Curricular Affairs Committee."

The review committee recommends that undergraduate curricular matters, including 400-level courses, proposed by Capitol Campus shall appear on the Senate "Bluesheets" in a separate section. The items will become available for implementation or scheduling 31 days after the posted date of the "Bluesheets" unless written objection is directed to the chairman of the Academic Affairs Committee at Capitol Campus via the Senate office.

Objections will be resolved by the Academic Affairs Committee of Capitol Campus and reported back to the Senate office. Graduate programs and courses will continue to be handled according to current University-wide Graduate School procedures.

"This recommendation," the committee said, "should not be viewed as a lessening of the delegation of authority to the Capitol Campus Faculty Organization, but rather as a means of expediting and clarifying whatever problems may arise."

"It is not intended as a substantive change in the delegation, but rather as a change in the mechanics of placing information before the Senate."

While examination of the competence of the faculty or the quality of the programs offered at Capitol Campus was not part of the review committee's charge, it noted in its report that it was involved to some extent in such matters.

The committee found the program established at Capitol Campus to be of "the quality and nature needed to carry out the University's mission of the campus." The faculty, the committee report said, is clearly capable to offer the specific programs and has a great deal of expertise to offer the University in these areas.

While detecting some desire on the part of the Capitol Campus faculty to have greater independence from the University than it now has, the committee also said there was too little knowledge of the progress made at other campuses of the University, and especially at University Park, in areas which should be of great interest and concern for the faculty at Capitol Campus.

And, it found that faculty members from other campuses have too little knowledge of the academic gains at Capitol.

In an effort to correct the situation, the committee "strongly recommends" that a greater reciprocal exchange of views on matters relating to programs and courses be initiated between the Capitol Campus faculty and counterparts throughout the University system.

"Because of the unique mission of Capitol Campus," the review committee said, "the Capitol Campus Faculty Organization is an ideal mechanism to demonstrate multi-disciplinary approaches to others within the University who have been concerned chiefly with disciplinary matters."

"Further, since Capitol Campus began, interdisciplinary projects have multiplied throughout other parts of the University, and it may well be that input from these areas would be useful to Capitol in carrying out its unique mission."

Replaces Committee on Resident Education

Administrative council on undergrad instruction formed

An Administrative Council on Undergraduate Instruction (ACUI) has been organized at the University, replacing the Administrative Committee on Resident Education, which for more than two decades has been concerned with assisting in the implementation of academic policies of the University Faculty Senate and of the Board of Trustees.

The reorganization, it is explained, was prompted by a number of factors, among them the unwieldy size of the original committee of nearly 30 members, the diverse diversity of organizational units that were represented, and a need to relate to recent organizational and personnel changes within the University as well as a growing need for closer administrative liaison with the University Faculty Senate Committee structure.

While the old Committee was limited to resident education matters and devoted much of its time to procedural matters, the new Council will be concerned with all credit instruction and degree programs and become more deeply involved with the undergraduate instruction program, explains Dr. Robert E. Dunham, vice president for undergraduate studies, who serves as chairman of the Council.

The Council will have University-wide responsibilities for:

- Developing recommendations for approval by the Provost regarding administrative policies required in the review and implementation of academic degree programs and credit courses of the University.

- Formulating, adopting, and implementing procedures and practices to facilitate, coordinate and manage the flow of students within and among academic credit courses and programs, colleges and campuses and to insure the quality and integrity of academic credit courses and programs of the University.

- Coordinating the interpretation and application of administrative policies and procedures required in the review and implementation of academic credit programs of the University.

- Serving as the academic administrative agency for maintaining liaison with the University Faculty Senate and with the faculty organizations of individual academic units on matters relating to the academic degree programs of the University.

Providing advice and fostering administrative understanding and cooperation toward the effective provision of highest quality academic credit programs within the University.

To fulfill these responsibilities, the Council is organized to include a structure of two standing committees: Academic Services and Academic and Curricular Affairs. They may also be ad hoc task forces.

Each committee includes as members persons representing administrative offices within the University appointed by the Council upon consultation with the respective administrative officers. Leslie P. Greenhill, director of the Division of Instructional Services, will chair the Academic Services Committee, and Dr. Eugene R. Melander, assistant vice president for undergraduate studies, will head the Academic and Curricular Affairs Committee.

Generally, each committee participates in the development of recommendations to the Council regarding administrative policies and procedures relating to its areas

of responsibility and assists the Council in coordination and implementation. Each committee serves as a forum for administrative units to introduce, discuss and clarify operational issues and concerns. Committees may meet individually, in combination with each other, or in joint with the Administrative Council on Undergraduate Instruction, as determined by the Council, depending on the nature of the agenda items under consideration.

Membership of the new Council will include an associate or assistant dean dealing with undergraduate instruction from each of the ten colleges, Behrend College, and Capitol Campus; assistant dean of the Graduate School; associate dean of Academic Instruction for Commonwealth Campuses; director of the Division of Undergraduate Studies; director of the Division of Admissions, Records and Scheduling; the assistant vice presidents for academic services and for undergraduate studies; and the vice president for Continuing Education (or his designate).

The Council will maintain administrative liaison with five committees of the University Faculty Senate: Academic Admis-

sions Standards, Academic Affairs, Academic and Athletic Standards, Awards and Scholarships, Curricular Affairs and Intra-University Relations. Where legislative authorities of the University Faculty Senate have been delegated to faculty organizations of individual colleges or campuses, the Administrative Council on Undergraduate Instruction will also maintain liaison with these organizations.

The Committee on Academic Services as an agency of the Council will be concerned with matters relating to University administrative policies and procedures to accomplish the admission, enrollment, registration, transfer, program audit and graduation of degree students, the scheduling of resident education courses and the provision of instructional services to resident education faculties.

The Committee on Academic and Curricular Affairs as an agency of the Council will have as its concern University administrative policies and procedures related to the review and implementation of the curriculum, advising, and academic affairs of undergraduate education.

U. Council considers confidentiality

Records maintained in the Department of University Safety at the University are records of incidents, not of people, David E. Stormer, director, told University Council last week.

He was one of three administrators invited to meet with Council as it continues its discussion of confidentiality of records and also the matter of how student records may be affected by the Buckley amendment.

Also attending the meeting were Ralph E. Zilly, vice-president for business, and Dr. N. J. Palladino, dean of the College of Engineering.

Stormer told the Council that since people nearly always are related to incidents, the Department maintains an index card file of names that appear in incident reports, including both persons reporting or witnessing incidents, as well as those who may be responsible for the incidents, and the file number of the incident report is entered on the index card.

He said that in the case of students, a synopsis of the incident as an act of misconduct is forwarded to the office of the vice-president for student affairs, and if faculty or staff members are involved, to the office of personnel administration. Student records, it had been explained, are destroyed on graduation of the student.

The index card may be examined by the student, Mr. Stormer explained, but not the incident file, which is a confidential record.

He said the recordkeeping system in his Department is in accordance with approved procedures for University security operations. He said records in his office are viewed as law enforcement records, rather than official University records, and that it is doubtful they would be covered under the provisions of the Buckley amendment.

Dean Palladino listed records maintained on students in his office, which it was agreed are similar to those in the office

(Continued on page two)

MEM chamber presentation on Milford

Today through Sunday (Nov. 19) a documentary on the town of Milford, Pa., and its environmental problems, titled "On the Road to Dingman's Ferry," is being featured in the MEM Chamber, an unusual and distinctive method of using television, slide projectors, and quadrophonic sound to present a program.

Robert Fisher, now an instructor in art, designed the MEM Chamber, which has toured the Midwest and West, in colleges and public facilities, and was featured last week during the Surrealism Conference.

The program is being shown in the HUB ballroom, today from 10 a.m. to 10 p.m., Friday and Saturday from 10 a.m. to 11 p.m., and Sunday from noon to 7 p.m. There is no admission charge.

Sixty people can be accommodated in the carpeted room that has walls of 10

ft. by 15 ft. rear projection screens. The documentary, which Fisher produced and which Hal Fischer wrote and directed, tells of the massive environmental problems faced by the town of 1200 situated near Dingman's Ferry on the Delaware River, where Tocks Island Dam is being planned. The production is about the entire town, and virtually all the residents contributed in some way or other to it.

"Threatened by construction plans for Tocks Dam and outraged by the noise and disruption of 20,000 trucks a week going down its main street, Milford refuses to follow its neighboring communities into submission and extinction," Fischer says. "At this time, Milford exists as an example of what imagination, co-operation and self-reliance can accomplish in changing attitudes from one of pessimism to that of determination and resolve."

Calendar

Nov. 14-24, 1974

Special events

Thursday, November 14 — FSHA 410 dinner, "First-Presidential Inaugural Dinner," 5:30 p.m., Maple Room. Reservations required.

Thursday-Saturday, November 14-16 — University Theatre, "Lemon Sky," 8 p.m., Pavilion Theatre.

Friday, November 15 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Saturday, November 16 — Sports: Football vs. Ohio University, 1:30 p.m.; Brassery Stadium, Band Day.

Sunday, November 17 — Sports: Cross Country, Eastern USTFF Championships, White golf course, 10:45 a.m.

Seminars

Thursday, November 14 — Chemistry, 12:45 p.m., Room 333 Whitmore. Stuart A. Rice, University of Chicago.

Thursday, November 14 — Microbiology, 4 p.m., Room 52 Fear, Gerald R. Fink on "The Integration of Amino Acid Biosynthesis into the Cell Cycle of Yeast."

Thursday, November 14 — Agronomy, 3:45 p.m., Room 301 Ag. Administration, Dr. Henry Fortmann, Agr. Exp. Sta., on "Agronomic Regional Research of the Northeast."

Thursday, November 14 — Statistics, 4 p.m., Room 75 Willard, A. M. Gross, Bell Laboratories, Murray Hill, N.J., on "Confidence Interval Robustness with Long-Tailed Symmetric Distributions."

Thursday, November 14 — Astronomy, 2:30 p.m., Room 445 Davey Lab. Sabatino Sofia (U. of South Florida, U. of Rochester), on "Gamma Ray Bursts: Are They Matter-Antimatter Events?"

Thursday, November 14 — Nuclear Engineering, 4 p.m., Breazeale Nuclear Reactor, Dr. Edgar F. Bennett, Argonne National Laboratory, Applied Physics Division, on "Neutron Spectrometry."

Thursday, November 14 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Lloyd Todd Crawford, Savannah River Laboratory, Aiken, South Carolina, on "Mesoscale Research at the Savannah River Laboratory."

Friday, November 15 — Engineering Acoustics, 4 p.m., Room 382 Willard, Dr. J. Sliard, Loughborough University, England, on "Ultrasound Research at Loughborough University."

Friday, November 15 — Ceramic Science, 3 p.m., Room 301 Mineral Industries. Dr. P. H. Hasselman, Lehigh University, on "Fracture and Thermal Shock."

Meetings

Thursday, November 14 — A.A.U.P., collective bargaining discussion, 11:45 a.m.-1:45 p.m., dining room C, HUB. All faculty.

Friday, November 15 — Board of Trustees, 2 p.m., Room 403 J. Keller Bldg. (Limited seating for public.)

Lectures

Thursday, November 14 — Dr. John Wiltall, education, on "Possible Strategies for Improving Instruction and Learning," 7:30 p.m., Room 101 Kern. Sponsored by graduate students in art education.

Films

Friday-Sunday, November 15-17 — South Hill "Sleeper," 7:30 and 9:30 p.m., Redler D.

Official

Friday, November 15 — Last day for signing Emergency Loans for Fall Term. Saturday, November 16 — Classes end, 12:25 p.m.

Monday-Wednesday, November 17-19 — Final examinations.

Thursday, November 21 — Residence Halls close for Fall Term, 3 p.m.

Saturday, November 30 — Commencement, 10:30 a.m., Rec Hall.

RESEARCH AIDE (BIOCHEMISTRY), COLLEGE OF SCIENCE — University Park

Prepare and isolate heavy meromyosin from various tissue sources and test for its ability to distinguish between normal and malignant tissue. Systematically test traditional and non-traditional methods of cell dissociations for their applicability to specific tissues. Prepare antibody to heavy meromyosin. Test antibodies with fluorescent dye, noting degree of fluorescence with combination of normal and malignant tissue. Develop a rapid, simple, and sensitive technique for preparing cell suspensions from surgical specimens. Bachelor's degree in Biochemistry, Chemistry or its equivalent. Minimum 2 years experience in laboratory plus two to four years effective experience in position.

News in brief

KERN CAFETERIA

The cafeteria in Kern Graduate Bldg. will be open during the term break Monday through Friday, 7:30 a.m. to 5 p.m., with the exception of Thanksgiving Day, when it will be closed entirely.

WHO'S WHO

The 1974-75 "Who's Who Among Students in American Universities and Colleges" will contain the names of fifty Penn State student leaders when it is published in the near future.

INN FOOD SERVICE

The Nittany Lion Inn food service will be closed completely on Thanksgiving Day, Nov. 28, but will resume full service Nov. 29.

WINE CONFERENCE

The seventh annual Pennsylvania Wine Conference will be held Dec. 5 and 6 at the J. O. Keller Conference Center. One feature of the event will be a wine tasting session before the annual banquet. The variety of problems faced by wine growers may be suggested by the topics to be discussed during the Conference: protein stability in wines; mechanical harvesting of grapes; establishment of prices for wine grapes; the legal and practical aspects of bird control in vineyards; grape insect pests; weed control in the vineyard; sampling grape vines for plant analysis; characteristics of ideal vineyard soil; and the desiccation of white wines. The Extension Service and Experiment Station of the College of Agriculture are cooperating with the Pennsylvania Grape Council and Pa. Dept. of Agriculture in the conference.

OGONTZ DESIGN AWARD

The Pennsylvania Society of Architects presented a distinguished building award to

the architectural firm of Dagitt/Saylor, of Philadelphia, for its design of the Ogontz Campus physical education building. The citation was given for the building's "structural tour de force, expressive monolithic concrete walls, and the steel trusses supporting the roof." The jury also commented on the building's "machine-like precision and handsome elevations." The building was completed in January of this year.

WISE SELECTED

University Trustee, Dr. Helen Wise, has been appointed by Gov. Shapp to the Education Commission of the States. She has recently stepped down as president of the National Education Association.

FRIENDS OF ART MUSEUM

The Friends of the Museum of Art (at University Park) is currently in the midst of a membership drive. Formally chartered earlier in the year, the organization rose from a group that has supported the Museum since it opened in 1972. The membership is already more than 150. Its principal purpose is to provide overall support of the Museum and its programs. A brochure giving more details on membership may be obtained from the Museum of Art, University Park, Pa. 16802, telephone 814-863-0111.

HUB ARCHITECTURE EXHIBIT

Buildings, interior decorations, and town planning designs by the noted Finnish architect, Alvar Aalto, are shown in a photographic exhibit which has opened in the HUB lounge and will continue on display until Dec. 15.

A Smithsonian Institution Traveling Exhibition Service display, the panels of photos show briefly ten of the architect's buildings, 32 panels show eleven structures in detail, one panel demonstrates his ideas in furniture and light fixture design, and the final panel shows a town plan.

CROSS COUNTRY

Among the faculty who competed in the cross country races at the White Golf Course last Sunday were Dr. Herschel Leibowitz, professor of psychology; Dr. Truman V. Hersherberger, associate professor of animal nutrition; Dr. G. P. Glyde, assistant professor of economics and human resources; and George A. Etzweiler, associate professor of electrical engineering. They competed in the Master's Division in the U.S. Track and Field Federation championships, in which a staff member, Dave Colton, of the Penn State Office of Gifts and Endowments, won the 40-49 age division race. Glyde was second in the total Master's field.

COTTON BOWL TICKETS

Faculty and staff members may purchase tickets for the January 1 Cotton Bowl game between Penn State and yet-to-be determined opponent at half price — for themselves. Any other tickets they wish to purchase will be priced at \$10 and \$6, depending on the location of the seat.

Tickets are on sale now at the Rec Hall Ticket Office (Room 237). Some proof of University employment will be required to obtain the half price privilege. Students may also purchase tickets at half price by presenting their current I.D. card.

If ordering tickets by mail, add 50 cents for postage and handling.

ARTISTS SERIES

The next program in the Artists Series will be performances Saturday, Dec. 7, of "Don Juan in Hell," the G. B. Shaw third act of "Man and Superman."

While the evening performance of the play has been sold out to series ticket buyers, the afternoon tickets will go on sale Tuesday, Dec. 3, at 9 a.m. at the HUB and University Auditorium. The matinee

(Continued on page two)

Calendar

Nov. 21-Dec. 5, 1974

Special Events

Saturday, November 30 — Fall Term Commencement, 10:30 a.m., Rec Hall.

Friday-Saturday, December 6-7 — Sports: Second annual Penn State Invitational Wrestling Tournament, Rec Hall, Friday at 8 p.m., Saturday at 2 and 8 p.m. Saturday, Penn State Swimming and Diving Relay Championships, Natatorium, starting at 8:30 a.m.

Seminars

Thursday, December 5 — Microbiology, 4 p.m., Room S2 Frear. James P. Rolls on "The Use of Carbon-13 NMR Spectroscopy and ¹⁴C-Enriched Precursors in Biosynthetic Studies."

Thursday, December 5 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Alfred K. Blackadar on "A Simple Model of the Atmospheric Planetary Boundary Layer."

Film

Thursday-Saturday, December 5-7 — West Halls, Waring Cinema, "The Ruling Class," 7:30 and 10 p.m.

Official

Thursday, November 21 — Residence Halls close for Fall Term, 3 p.m.

Sunday, December 1 — Residence Halls open for all students.

Tuesday-Wednesday, December 3-4 — Registration.

Meeting

Faculty Senate meeting changed from December 3 to December 10.

Exhibits

Museum of Art — Living American Artists and the Figure, Galleries A and C, Twentieth Century Master Painters, Gallery B.

Cultural Center, Walnut Building — "The Black Presence in the Era of the American Revolution, 1770-1800," a Smithsonian Traveling Exhibit, through December 1.

The exhibit of Surrealist art in the Zoller Gallery, scheduled originally to conclude Nov. 23, has been concluded (Nov. 19).

Chambers Gallery — David Don Tigney, ceramics, and George Zorelich, paintings, opening December 2.

HUB Main Lounge — Photographic exhibit of major building, interior decorating, and planning designs of Finnish architect, Alvar Aalto (traveling Smithsonian exhibit).

WPSX highlights

Saturday, Nov. 23 — Film, "The Tempest," with Greta Garbo (1929), 10 p.m.

Sunday, Nov. 24 — Film, "Flash and the Devil," with Garbo and John Gilbert (1927), 6 p.m.

Monday, Nov. 25 — The Preservation Hall Jazz Band (in performance at Wolf Trap), 8 p.m.

Monday, Nov. 25 — "The Changing Family," with faculty members Helen Maahl, Graham Speller, and Gerard Gueney, 10 p.m. Also Tuesday, Nov. 26, at 3 p.m. and Saturday, Nov. 30, at 1:30 p.m.

Thursday, Nov. 28 — Soul group Gladys Knight and the Pips, 9 p.m.

Library space

Members of the faculty who wish to obtain "Study Space Assignments" in Pattee Library for the Winter Term should note that the assignments will be made on a first-come, first served basis Monday, Dec. 2, beginning at 8 a.m. in Room 106 Central Pattee. There are only 48 such spaces. Further questions should be directed to Cordelia Swinton, 865-5420.

Senate Report

Proposed changes in the bylaws and standing rules of the University Faculty Senate center on four areas:

1. Election of Senate officers.
2. Development of a Senate Advisory Committee to the President.

3. Redefinition of responsibilities of the Senate Council.
4. Redefinition of responsibilities of the Senate Committee on Committees and Rules.

The changes, developed by a subcommittee of the Committee on Committees and Rules in accordance with recommendations on faculty participation in University governance, will be acted on at the Dec. 10 Senate meeting.

"Through these proposed amendments," said Dr. Robert S. Friedman, subcommittee chairman, "we hope to make the Senate more effective in its internal operations and in representing the entire faculty."

"The subcommittee tried to remain true to the six recommendations concerning Senate operation in the Governance Committee report and tried to respond to the main thrust of these recommendations."

The subcommittee's proposal on Senate officers calls for election of a chairman-elect, who, after a year of studying the issues facing the Senate chairman, would serve a one-year term as chairman and another as past-chairman. It also proposes

that during the year a senator serves as chairman and upon completion of the cycle from chairman-elect to past-chairman, the individual should be given some free time.

"We felt that by having a three-year cycle for Senate leadership," Dr. Friedman said, "that we could provide a more effective group of people to represent the faculty and deal with the administration of the University. We also know it's hard to get people to make this kind of commitment and that's why we encourage re-election time."

The proposed Senate Advisory Committee to the President would be made up of the four Senate officers and three elected faculty senators. Noting that the Senate Council has served as a general advisory group to the president and the provost, the subcommittee said the size of that group and the manner of its selection "may have impeded it in its consulting role."

Dr. Friedman said the subcommittee felt that a group which would advise and consult with the president would be more effective if they were smaller.

"We agreed that the advisory group should include the Senate officers and felt that by having three faculty members elected from the Senate we would get a responsive body. Electing them to

The information below is provided by the Office of the University Faculty Senate, and inquiries regarding this report may be addressed to the Executive Secretary of the Senate, Room 204 Willard, 863-0221.

a three-year term also will enable them to get a feel for the position."

While the Senate Council would no longer serve in an advisory role to the president under the proposals, it would continue to be an advisory group to the Senate officers. It would serve as a coordinator of legislation from Senate committees and would continue to meet with the president and provost in developing the Senate's agenda and program.

It also is recommended that the Senate Council no longer perform the role of nominating to the administration of the University candidates for various University-wide committees. This function would be shifted to the Committee on Committees and Rules.

"The Committee on Committees and Rules," Dr. Friedman said, "presently nominates senators for various committees and appointments in the Senate, and we felt it would be the logical group to make University-wide nominations."

Under the proposals, the Committee on Committees and Rules also would serve a "watchdog" function "to make certain that decisions of the Senate conform to the rules and procedures of that body."

Because of the committee's added responsibilities, it is recommended that members be elected to two-year staggered terms by the entire Senate.

Heart Risk Screening Exam

Some openings remain for examinations in the afternoons of Nov. 25 and 26 in the Heart Risk Screening Program (morning schedules are rather well filled).

These examinations are conducted by the Central Pennsylvania Heart Association, and for a modest donation of \$3 an examination is made that includes blood pressure, cholesterol level, blood sugar, skin fold, height and weight. Combined with information on medical history, heredity, smoking habits, and exercise, a profile is made which suggests the relative risk of heart trouble. A similar examination and data summary obtained privately would cost considerably more than the donation being suggested by the Association.

The examinations, given by appointment, will be made Nov. 25 and 26 in Room 301A Agricultural Administration Building (corner of Shortridge and Curtin Roads). The afternoon hours are 1-5 p.m.

Appointments may be made by calling 238-1301. This schedule is intended primarily for faculty and staff members, although it is not restricted to them.

Can save money, aid planning

Soil testing for homeowners urged now

From Robert J. Thomas, supervisor of the Soil and Forage Testing Laboratory, comes the suggestion that this is a good time of the year to have garden or lawn soil analyzed.

"Sampling now," points out Thomas, "will enable you to plan your soil management program for the spring of 1975. You may be able to buy fertilizer at discount prices during the winter."

There are some signs, also, that fertilizer may be hard to get in the spring.

A soil test tells what to buy, and in what quantities to apply it. Few home owners really know the correct kinds of fertilizers to use for their soil conditions,

because it can't be done by guess work. A soil test is necessary, to prevent applying the wrong fertilizer or applying too much or too little.

The Soil Testing Service is available at the Merkle Laboratory at University Park from 8 a.m. to noon and 12-3:30 p.m. A complete report, including chemical analysis plus lime and fertilizer recommendations, will be provided for a fee of only \$3 per sample. At the University Park campus, you can get sampling instructions and a container for the sample at the Merkle Lab (north of Beaver Stadium). Staff members at Commonwealth Campuses may get kits at their County Agricultural Agent Offices (see the Yellow pages.)

Agriculture organizes to seek research aid

The nation's land-grant universities have launched an all-out effort to get more support for agricultural research programs.

The organized effort is tied to the centennial year of the first state agricultural experiment station opened in New Haven, Connecticut, in 1875. And it comes at a time when agricultural problems and world food supplies are front page news.

"There's no better time to seek support for the research efforts we consider vital to the nation's future," said Dr. James M. Beattie, Dean of the College of Agriculture and Director of the Agricultural Experiment Station.

The effort doesn't lack support. Its backbone is an Experiment Station National Communications Committee made up of editors, broadcasters and commentators from every agricultural experiment station in all 50 states, Guam, and Puerto Rico.

It has the blessing of the Experiment Station Committee on Policy (ESCOMP), the policy-makers for the agricultural experiment station system — the world's largest

agricultural research organization with over 10,000 scientists. Present chairman of ESCOMP is Dr. Walter L. Thomas, associate director of Penn State's station.

"As big as the system is, most people don't know about the contributions these scientists are making to solve world food problems and the energy crisis," Dr. Beattie observed.

"Ironically, success is part of our problem. Our research has helped make American farmers so efficient that relatively few farmers produce this nation's food and fiber. Only 5 per cent of the people in the U.S. are actively involved in producing agricultural goods, compared to over 50 per cent in Asia, Africa, and Latin America."

"That means we can't count on support only from farmers, and have had to turn more and more to the non-farm segment. With rising prices, and food shortages in some cases, we've found that audience very attentive. Consumers are beginning to realize that investments in agricultural research may be their best possible insurance of future food supplies."

To individuals with potential for a career in independent research institutions may apply for awards on behalf of faculty with three or more years of relevant postdoctoral experience. Nominees must not be more than 10 years beyond the last health professional doctoral degree. The support period is limited to 5 years. May 1 and Sept. 1, 1975 are the next two proposal deadlines. (Ref. NIH Guide Announcement, 11/17/74).

(156-4) Graduate research fellowships for undergraduates are invited to submit proposals for awards of up to \$1,000 for research in broadcasting. Sponsored by the National Association of Broadcasters (NAB), this research should relate to the social, cultural, political, and economic aspects of American commercial broadcasting. Research projects concerned with radio are particularly encouraged. The current research proposals may pertain to either basic or applied problems, and methodological development and model-building research will be welcomed. Proposals must be received by Jan. 1, 1975. For application forms write to: Mr. John A. Dimling, Jr., Vice President, Director of Research, NAB, 1771 N. Dixie, N.W., Washington, D.C. 20006. (202-865-2575).

(156-5) Systematic collections, centers for stocking research plants and animals, and field station facilities that constitute a national resource for the research community may find support through the Biological Research Resources Program funded by the National Science Foundation (NSF). For further information call William E. Sievers, Program Director, Ecology and Systematic Biology Section, Div. of Biological Resources, NSF (202-632-5846). (Ref. NSF Bull., Nov. 24).

(156-6) Ohio awards the following teaching program in competitive arts and graduate teaching assistantships and scholarships. Stipends for the associate awards range from \$2400 to \$4000 for three quarters; scholarships cover tuition and fees. For information write to Robert Weisman, Chairman, Dept. of Comparative Arts, Ohio University, Athens, Ohio 45701. (Ref. Announcement).

(156-7) Eighty NSF Faculty Fellowships

NEWS—

(Continued from page one)

begins at 3 p.m.; the evening performance at 8:30 p.m.

An all-star group of Myrna Loy, Ricardo Montalban, Edward Muhare, and Kurt Kasner will present the work, which draws its characters from the Mozart opera, "Don Giovanni."

The Charlie Chaplin and Ingmar Bergman series will resume in mid-December. CAPITOL PLAY

Students at Capitol Campus, members of the drama club, will perform a two-act tragic-comedy drama, "The Disintegration of James Cherry," Friday and Saturday, Nov. 22 and 23, at 8 p.m. in the auditorium of the main building. "The Strolling Muggers" drama club is sponsor of the production, which involves a cast of 17.

SPEAKER AVAILABLE

The Assistant Secretary of Commerce for Science and Technology in the U.S. Department of Commerce, Dr. Betsy Ancker-Johnson, is available to speak on college campuses, on a variety of subjects ranging from the energy problem to the impact of technology-transfer abroad on America's balance of payments. Now the highest ranking woman in the federal research and development area, she is responsible for the activities of six separate agencies in the science and technology field. She is a physicist by profession, with a Ph.D. in physics from Tuebingen University, Germany, in 1953. Department members interested in considering her as a speaker may obtain more information from the editor of INTERCOM, 312 Old Main, 865-7517.

Some people know how much agricultural research has contributed to a continuous, healthy food supply. But many are surprised to find out that experiment station scientists are also responsible for discovering vitamins (Connecticut and Wisconsin), and the antibiotics streptomycin (New Jersey) and aureomycin (Missouri).

Improved animal breeds, crop varieties, new uses and concepts — to mention a few developments — have given Americans the highest standard of living in the world. Dr. Beattie pointed out. He said a description of research achievements at Penn State, published under the title of "Impacts of Agricultural Research," will be issued in 1975.

"While we're proud of accomplishments, we know that too many people are still going hungry. If agriculture is to feed these people and all the billions expected in the future, we must have financial and moral support for agricultural research as an investment in developing and conserving energy," he affirmed.

will be awarded April 1975 to "help teachers broaden their perspectives in the applications of science to social problems of U.S. citizens or nationals with five or more years of full time teaching experience in science, math, or engineering at universities, colleges, and junior and community colleges, and who hold a baccalaureate degree, are eligible and may apply before Jan. 7, 1975. Faculty fellowships must be used within nine to nine and one-half months and salary paid during the preceding year. Travel is paid by an institutional allowance to meet tuition and other costs. Application forms can be obtained from the Faculty Fellowship in Science, NSF, Division of Higher Education in Science, NSF, Washington, D.C. 20550.

(156-8) Under its new Senior Foreign Entry Scholars Program, the National Science Foundation (NSF) is seeking distinguished foreign scientists to come to the U.S. to help increase the scope and depth of energy-related research, development, and educational activities. The maximum award is \$25,000 for up to 12 months. The proposal deadline is January 15, 1975 with an April awards date. (Program contact, DOE-202-7593). (Ref. NSF Memo 11/12/74, E75-38).

REMINERS AND DEADLINE DATES

Dec. 1 for cooperative Education Programs (Oct. 10 INTERCOM #155-9) . . . Dec. 1 for USA Bicentennial Student Film Making Program (Nov. 14 INTERCOM #155-2) . . . Dec. 10 (announced) for NSF Research Program in Localized Education (Oct. 24 INTERCOM #152-4) . . . Dec. 13 for NSF Instructional Scientific Equipment Program (Oct. 17 INTERCOM #151-1) . . . Dec. 19 for NSF National Research for Graduate Teaching Assistantships (Oct. 14 INTERCOM #155-3) . . . Dec. 20 (per questionnaire) for NEA Visual Arts Program (Oct. 31 INTERCOM #152-2) . . . Jan. 1 for Ford Foundation Research on the Energy and East-West Program (Nov. 10 INTERCOM #154-1) . . . Jan. 6 for OE Field-Initiated Studies (Oct. 24 INTERCOM #152-2) . . . Jan. 6 (extended) for NSF Energy-Related Graduate Traineeships (Oct. 17 INTERCOM #151-4)

Deaths

Lois F. Mark, instructor of elementary education at Capitol Campus, died of October 21. She was 47. A 1948 graduate of West Chester State College, she obtained a Master of Education degree from Temple University in 1956. She taught in Philadelphia elementary schools from 1946 to 1968 and was a team leader in a program at Temple University in 1967-68. She joined the Penn State faculty in 1969, after having served as a cooperating teacher for the University in 1962-67.

Carl T. Kendall, assistant professor of microbiology in Continuing Education at Schuylkill Campus, died November 1. He had taught anatomy, physiology and microbiology in the program for diploma schools of nursing since 1963. He obtained both B.S. and M.S. degrees from Indiana State College at Terre Haute, and had previously taught at Bloomsburg State College and had been employed by various pharmaceutical companies.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by filling out and mailing a resume to: Mr. Lyle 445 (156-7). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

FRIDAY, NOVEMBER 22, 1974
DIRECTOR, AGRICULTURAL COMMUNICATIONS, COLLEGE OF AGRICULTURE — University Park
Administrator total program of agricultural communications for College of Agriculture. Includes all forms of mass media (press, publications, radio, television and visual aids) and provides technical advice and assistance on research and teaching functions in cooperation with Department of Agricultural Education. Evaluate agricultural communications programs. Research and evaluate budgets, personnel, professional improvements, media programs, production costs, etc. Review all media projects and activities and summarize and report to appropriate disciplines. No degree or equivalent in Agricultural Journalism or Agricultural Communications; Ph.D. preferred. Twelve to fourteen years experience with mass media of agricultural communication primarily in an educational institution, industrial, and commercial media. Administrative experience in communications and public relations is preferable.

PROGRAM ASSISTANT, GRADUATE SCHOOL — University Park
Responsible to the Dean of Graduate School for implementing procedures to insure the most functioning of the divisions of the Graduate School. Two years of college or equivalent plus four to eight years administrative experience. Knowledge of University organizational structure is highly desirable. Ability to implement sound present practices essential.

PROGRAMMER TRAINEE, OFFICE OF GUNNET AND PLANNING — University Park
Responsible to the Senior Programmer or Systems Planning Specialist for programming assistance and general project support in areas where work is being done. Tasks include: prepare all levels of block diagrams and machine logic flow charts; assist in preparing test data and testing and debugging programs; and support the Senior Programmer in the development of systems development and modification. Bachelor's degree or equivalent, plus at least six months to one year of data processing experience as required.

GRAPHIC ARTIST, UNIVERSITY DIVISION OF INSTRUCTIONAL SERVICES — University Park
Prepare art work in the form of graphs, charts, illustrations, displays and technical drawings to be used as slides, flipcharts, TV, overhead transparencies, etc. for use primarily in the instruction of students. Associate degree or equivalent in a two year college program or its affiliate or equivalent. Knowledge of television techniques and audiovisual aids is helpful.

MANAGER, RESIDUAL AFFAIRS — Harrisburg
Responsible for cost control, billing, acquiring third party reimbursement. A Bachelor's degree or equivalent in Business Administration with a minor in Accounting, plus broad working knowledge of the insurance industry, emphasis on financial systems and third party reimbursements, equal to six to seven years of related experience.

UNDERGRADUATE STUDENT ASSISTANT, COLLEGE OF EDUCATION — University Park
Responsible for the planning and management of an undergraduate Studies Academic Institute Center within the College of Education. Provide professional advising assistance to the Division of Undergraduate Studies during registration and pre-registration counseling program. Assist in the development of student's career and education discipline. Advising experience demonstrated knowledge about the academic programs and opportunities of the College of Education highly desirable.

In addition to the above vacancies, there are positions that frequently are available because of the mobility of our staff. These are listed below and will not be listed on an individual basis. Application for such positions may be made by mail to the Personnel Office for further consideration when vacancies occur. These positions are:

Reading Hall Coordinator, Student Affairs Assistant Coordinator, Student Affairs

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

Funding Opportunities

For procedural and funding source information, call 865-1372.

November 21, 1974

(156-1) To improve access to use of scientific and information, NSF's Office of Science Information Service (OSIS) has established three priority areas: research studies to improve management of U.S. scientific and technical information sources; experimental projects to provide assured, cost-effective access to scientific information; and operational activities to promote information use among scientists, engineers, and others. Seventeen new future planning grants have been announced including: measurement of benefits from information use, faster publication of research results, improvement of college and graduate-level awareness of scientific and technical information, promotion of on-the-job education and training of scientists and engineers, and revision of guidelines for information services management within large organizations. There are no proposal deadlines. (Ref. NSF74-39).

(156-2) The Metropolitan Life Insurance Company has announced a program of educational grants geared to create a better understanding between business and the academic world. Ten grants of up to \$15,000 will annually be offered to colleges and universities for courses designed to improve business-academic relationships, to speed communication between the two communities, and to conduct exploratory studies. Proposal deadline of Jan. 31, 1975 is anticipated with announcement of awards in April. (Ref. NYT, 11/27/74, F.R.E.).

(156-3) Salary contributions of up to \$25,000 per year will be awarded to people qualifying for the NIH Research Career Development Program. The next deadline is Jan. 2, 1975, awards will be announced June 1975.

PENN STATE intercom

Volume 4, Number 13

November 28, 1974

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in brief

BOARD RECOMMENDS

The State Board of Education has recommended an appropriation of \$105.7 million for the University, the recommendation for the consideration of the Governor in preparing his budget presentation.

COMMENCEMENT

Commencement exercises for the Fall Term will be held in Rec Hall at 10:30 a.m. Saturday, Nov. 30. Earlier, ten seniors will be given commissions in the Army, Navy, Marine Corps, and Air Force in a ceremony in the Heien Eakin Eisenhower Chapel, at 8:30 a.m.

Six men will be commissioned as second lieutenants in the U.S. Army Reserve; one as ensign, U.S. Navy Reserve; one as second lieutenant, U.S. Marine Corps; one enrolled in the Marine Corps Platoon Leader Class as a second lieutenant, U.S. Marine Corps Reserve; and

JGE features China trip essays

The reflections of those who made the "Penn State to China" trip are contained in a special issue of the Journal of General Education now available from the University Press (215 Wagner Bldg.) at \$3.00 per single copy.

Titled "Education in China," the issue contains first-hand reports of the trip by: E-Tu Zen Sun, professor of Chinese history and chairman of the East Asian Studies Program, on "Chinese Schools in a Revolutionary Century."

Parris H. Chang, associate professor of political science, on "The Cultural Revolution and Chinese Higher Education: Change and Controversy."

Jan S. Prybyla, professor of economics, on "The Life of a Chinese Professor."

Thomas F. Magner, professor of Slavic languages and associate dean for research and graduate study, College of the Liberal Arts, on "The Latin Alphabet and

the Languages of China."

Vernon V. Aspaturian, research professor of political science and director of the Slavic-Soviet Center, on "Chinese and Soviet Perceptions of One Another."

Fred Rapp, professor and chairman of the department of microbiology and associate provost and dean for health affairs, College of Medicine, on "The Pioneering Effort of the People's Republic of China in Medical Education and Medical Care."

R. G. Cunningham, vice president for research and graduate studies, on "Science and Technology Education: Mao's Priorities, Policies and Results."

Thomas Warlik, dean of the College of Science, on "Reasons for the Chinese Attitude toward Research and Education in Science."

Barbara J. Smith, senior assistant librarian, Pattee Library, on "Reference Tools for the Study of Modern China."

Calendar

NOV. 28 to DEC. 7, 1974

Special events

Thursday, Nov. 28 — Thanksgiving Day, offices closed. Teakast of Penn State-Pitt football game, 9 p.m., ABC.

Friday-Saturday, Nov. 29-30 — Penn State Open Fencing tournament, Rec Hall.

Saturday, Nov. 30 — Commencement, 10:30 a.m., Rec Hall.

Monday, Dec. 2 — New students arrive. Orientation and advising begin. Registration Tuesday and Wednesday, Dec. 3-4.

Thursday, Dec. 5 — Classes begin, 8 a.m.

Friday-Saturday, Dec. 6-7 — Penn State Invitational Wrestling Tournament, 8 p.m. Friday, 2 and 8 p.m. Saturday.

Saturday, Dec. 7 — Artists Series, "Don Juan in Hell," by G. B. Shaw, with Myrna Loy, Ricardo Montalban, Kurt Kasznir, and Edward Mulhare, 3 p.m. and 8:30 p.m., University Auditorium.

Saturday, Dec. 7 — Penn State Swimming Relays, beginning at 8:30 a.m., Natarium.

Seminars

Thursday, December 5 — Microbiology, 4 p.m., Room 52 Frear. James P. Rolls on "The Use of Carbon-13 NMR Spectroscopy and ¹⁵C-Enriched Precursors in Biosynthetic Studies."

Thursday, December 5 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Alfred K. Blackadar on "A Simple Model of the Atmospheric Planetary Boundary Layer."

Exhibits

Museum of Art — Living American Artists and the Figure, Galleries A and C through Dec. 22. Gallery B, selections from the permanent collection.

Chambers Gallery — Ceramics by David DonTigny and paintings by George Zoretich, opening Dec. 2.

HUB Main Lounge — Architectural works of Finnish architect Alvar Aalto.

Ombudsman's role to be made clear to faculty

What is an ombudsman? What can he do for the individual faculty member?

In an effort to answer these and other related questions, elected ombudsmen at the University will take steps to inform faculty concerning their role.

At a meeting of ombudsmen and their alternates at University Park, it was decided to recommend to all ombudsmen that they explain their role and outline procedures at college and campus faculty meetings.

"We want to make more of an effort to keep the faculty better informed on what's going on in this area," said Dwight E. Younklin, meeting chairman.

"If a faculty member has something really bothering him that involves the administration or another faculty member and doesn't want to take it to that individual directly, he should talk it over with his ombudsman and see what can be done."

"There is some feeling that the faculty in general doesn't understand the role of the ombudsman. It's one in which they can talk to him about any type of misunderstanding or grievance and he then will try to help the individual reconcile the difference."

Ombudsmen for each college and campus of the University were appointed under procedures for faculty rights and responsibilities approved in May, 1973, by the University Faculty Senate.

Younklin said the ombudsmen decided they now operate because "they offer flexibility for the ombudsman to deal with any type of problem at the local level."

According to the guidelines, functions for the ombudsman are:

- 1) Clarification of misunderstanding;
- 2) Advising faculty and administrators as to appropriate courses of action;
- 3) Assisting in the informal resolution of differences;
- 4) Assuring that appropriate department, college and/or campus procedures are exhausted before referring the case to higher levels;
- 5) Informing the University Provost's office and appropriate college or campus officials if a matter cannot be resolved at the lower level and the case is to be referred to the Commit-

tee on Faculty Rights and Responsibilities.

The guidelines specify that the ombudsman shall not:

- 1) Hold hearings;
- 2) Exceed the role of conciliator and advise;
- 3) Substitute his or her judgment for that of appropriate administrative and/or faculty bodies;
- 4) Serve as counsel for either party to a complaint before the hearing board.

The Rights and Responsibilities Subcommittee of the Faculty Affairs Committee is to serve as the coordinating group for the ombudsmen. The ombudsman requests the subcommittee to call two meetings during the next calendar year.

OMBUDSMEN AND ALTERNATES

COMMONWEALTH CAMPUSES

Allentown Campus — Jane Schooley (Ombudsman); Peter Behrens (Alternate)

Altoona Campus — Valerie Sirelton (Ombudsman); Albert Carney (Alternate)

Beaver Campus — Raymond Lunney (Ombudsman); Leo Takahashi (Alternate)

Behrend College — Ernst Weckesser (Ombudsman); Norman Patterson (Alternate)

Berks Campus — Russell A. Read (Ombudsman); Arthur R. Hill (Alternate)

Capitol Campus — Roger A. Saylor (Ombudsman); Lloyd W. Woodruff (Alternate)

Delaware County Campus — Edward S. J. Tomczko (Ombudsman); Hilda F. Duncan (Alternate)

Outdo Campus — Marie U. Fox (Ombudsman); Samuel A. King (Alternate)

Fayette Campus — David R. Anderson (Ombudsman); Evelyn Hovance (Alternate)

Hazleton Campus — M. Leonard Sheoval (Ombudsman); James J. Conaghan (Alternate)

McKeesport Campus — Nicholas Gavrilis (Ombudsman); Robert Hauser and Richard Reynolds (Alternates)

Mont Alto Campus — Duane L. Thomas (Ombudsman)

New Kensington Campus — Robert E. Canahan (Ombudsman); Marshall Wilcher (Alternate)

Opotz Campus — Robert A. Bernoff, Muelen C. Mills and Ingeborg Schuster (Ombudsmen)

Schuykill Campus — James W. Geach, Robert J. Purdy and Ronald Dietz (Ombudsmen)

Shenango Valley Campus — Thadd Praetzer (Ombudsman); Fredrick Leeds (Alternate)

Wilkes-Barre Campus — Robert L. Sabatino (Ombudsman); Walter A. Sowa (Alternate)

Worthington Scranton Campus — Austin D. Hall (Ombudsman); Robert S. Hyde (Alternate)

York Campus — Leonard J. Berkowitz (Ombudsman); Bruce S. Babcock (Alternate)

Milton S. Hershay Medical Center — Robert Greer (Ombudsman); William Graham (Alternate)

King of Prussia Graduate Center — Richard Lorens (Ombudsman); Margaret Geitzer (Alternate)

COLLEGES

Agriculture — Frank Anthony, 113 Armsby Bldg. (Ombudsman); Donald Crider, 205B Weaver (Alternate)

Arts and Architecture — George Zoretich, 302 Visual Arts (Ombudsman); George Guewman, 103 Arts Bldg. (Alternate)

Business Administration — John J. Coyle, 509L Business Adm. (Ombudsman); Arthur L. Williams, 539F Business Adm. (Alternate)

Earth and Mineral Sciences — Frank Ochline, 221 Mineral Science (Ombudsman)

Education — John Withall, 220 Social Sciences (Ombudsman); Yur Chomicki, 272 Chambers (Alternate)

Engineering — Arnold Adelman, Applied Science Bldg. (Ombudsman); George J. McMurtry, 228 Elec. Eng. West (Alternate)

Health, Phys. Ed., and Recreation — Tom Tall, 270 Recreation Bldg. (Ombudsman); John Doolittle, 103 Recreation Bldg. (Alternate)

Human Development — Charles Taylor, 5102 Human Development (Ombudsman)

Liberal Arts — Robert W. Green, 812 Liberal Arts (Ombudsman); Henry Kaskas, 8161 Burrows (Alternate)

Science — Paul H. Cullis, 330 Ovey Lab (Ombudsman); Geo. M. Rosenbilit, 128B Ovey Lab (Alternate)

Library — Ronald Filippelli, W342 Pattee (Ombudsman); Cordella Swinton, C105 Pattee (Alternate)

Western campuses have symposium

The first Western Commonwealth Campuses Symposium for Regional Development will be held on December 4, at the Howard Johnson's Motor Inn in Monroeville.

The program is designed to provide closer unity among the campuses and provide a forum for academic enrichment and scholarly activity.

Three sessions will be held in the afternoon portion of the program, and during each session presentations will be made by faculty and staff members of the University family on topics dealing with teaching skills, academic disciplines, and University governance.

The climax of the evening will be a dinner address by President Oswald.

The program is being sponsored by the Council of Associate Deans for Academic Affairs and Assistant Directors for Resident Instruction.

Anthony J. Meta, assistant director at the Beaver Campus, is the general chairman for the program and Joseph F. Douglas, associate dean for Academic Instruction for Commonwealth Campuses, is co-chairman. Campuses participating in the Symposium are: Altoona, Beaver, DuBois, Fayette, McKeesport, New Kensington, and Shenango Valley.

Capitol and U.P. in joint program

A cooperative graduate program, designed to provide training for school administrators in the Harrisburg area, will be offered beginning in the Winter Term.

The program, which will require no additional University resources, will be offered jointly at University Park and at Penn State's Capitol Campus at Middletown, says Dr. Russell E. Larson, provost.

Students will be admitted to the graduate program under existing criteria and will begin their studies at the Capitol Campus. Twelve of the minimum of 30 credits required in the program can be taken at Capitol Campus.

During the summers, students will take a minimum of 18 credits at University Park. Students who wish to achieve certification

as principals may register at Capitol Campus for up to 16 of the 45 credits required by the Commonwealth.

Students enrolled in the cooperative program will be advised by faculty members at both campuses and each student will have a duplicate set of records which will be maintained at both campuses.

The graduate educational administration curriculum is not new, having been offered at the University Park Campus since 1931.

"The cooperative program," Dr. Larson said, "is, however, a new delivery package which fundamentally makes it easier for students who have interests in furthering their education to receive a well articulated graduate program in educational administration."

A gift of retiree Hans Freund

Heidegger manuscript in library

Dr. E. Hans Freund, professor emeritus of philosophy, has presented his personal copy of a manuscript by Martin Heidegger, the great German philosopher, to the Rare Books Room of Pattee Library.

The manuscript, which consists of 705 typed pages, contains the text of a series of lectures presented by Heidegger at the University of Freiburg during the winter of 1929-30. It is one of 12 copies made in one typing and is based upon word-for-word shorthand notes taken by several of Heidegger's students, including Dr. Freund, and coordinated into an exact version of Heidegger's spoken words.

In Writing

Dr. Barbara Anderson, lecturer in English, is the author of "Kierkegaard: A Fiction," published recently by the Syracuse University Press. She has recreated some of the many voices that coursed through Kierkegaard's consciousness, his life and his writings, by imagining a biography written by the women in his life — his mother, his first prostitute, his fiancée.

The author has used an unorthodox style and original focus to develop the fundamental dilemma in the life and thought of the 19th century Danish existentialist. Most of the works on Kierkegaard are concerned with his religious thought, but the author tries through fiction to allow the human dimension of his life to emerge.

Dr. Ralph F. Nielsen, professor emeritus of petroleum and natural gas engineering, is co-author of "Dynamics of Petroleum Reservoirs under Gas Injection," published recently by Gulf Publishing Co. Dr. Rafael Sandra, who received his M.S. and Ph.D. from Penn State in the middle 'sixties and who is now affiliated with the National Council for Scientific and Technological Research in Venezuela, is the other author. The book resulted from short courses taught by the authors in Venezuela, Trinidad, and Mexico.

A Japanese printing company is publishing a book by Dr. Peter B. Plaf, associate professor of floriculture, entitled "The Retail Florist Business." The book is in its second edition in the U.S. and will soon be available in Japan in three bound volumes, eight booklets to a volume.

First published in 1968, "The Retail Florist" is the only textbook of its type. It is used by most colleges and universities where floriculture is taught, as well as in vocational-technical schools with programs in floriculture.

The English version was published by the Interstate Printers and Publishers, Inc. of Danville, Ill. The Japanese reprint is being published by Hokuto Tsusho, Inc., of Tokyo.

The Japanese edition is being promoted by the Japanese Florist Transworld Delivery (JFTD) and the Japan Florists Academy of Tokyo.

Honors

Dr. Chauncey A. Morehouse, professor of physical education, will receive the Elmer B. Cottrell Award of the Pennsylvania State Association for Health, Physical Education and Recreation at the annual awards banquet December 7. This is the highest award given by the Association. He has been a member of the faculty since 1962 and holds advanced degrees from Penn State.

Dr. Arnulf Muan, professor of mineral sciences, was installed as president of the Mineralogical Society of America at its annual meeting in Miami Beach, Fla., last week.

Appointments

Dr. Frank B. Guadagnolo, as assistant professor of recreation and parks, College of Health, Physical Education and Recreation. He recently received the doctor of philosophy degree from Oregon State University. He attended Stockton Junior College and earned the bachelor of arts and master of arts degrees from Sacramento State College.

He served as administrator of city parks and recreation department and supervisor of municipal recreation services in El Cerrito, Calif., and received the town's Distinguished Citizen Award in 1972.

Robert B. Anderson, as associate professor of mining engineering. He was chief mine inspector for U.S. Steel Corp. at Gary, W.Va. He was associated with U.S. Steel at Gary for more than 20 years, serving as assistant superintendent and then superintendent for the company's No. 2 mine, and for the last three years he was chief mine inspector. He holds two bachelor of science degrees from Virginia Polytechnic Institute, one in mining and one in electrical engineering.

Dr. William R. DeTar, as associate professor of agricultural engineering at the University. His appointment is effective Dec. 1. He has been on the faculty of Western Illinois University since 1970 and previously taught at Fresno State College and at Purdue University. During the years 1967 to 1970 he was associated with the AID-Purdue program in Brazil. He is a graduate of the University of California at Berkeley, where he earned both the bachelor of science and master of engineering degrees. His doctor of philosophy degree was conferred by Purdue University.

Dr. Gerhard Reethof, left, Alcoa professor of mechanical engineering, witnesses ceremony as a representative of the Aluminum Co. of America, Jack Prohaska, second from right, presents a check to Provost Russell E. Larson for continuing the support of the Alcoa professorship for another year. College of Engineering, Dean N. J. Palladino is at right.

Alcoa extends professorship again

The Alcoa Foundation has announced a one-year extension of the Alcoa professorship at the University, held by Dr. Gerhard Reethof, Alcoa professor of mechanical engineering.

The extension is the eighth awarded by the Foundation since Penn State was first designated in 1967 as one of 15 institutions to receive Alcoa professorships in engineering design.

The Foundation's program to strengthen engineering design education is partially carried out by the professorships, which provide the opportunity for experienced engineers to infuse their industrial experience

and technical knowledge into instruction and research.

Dr. Reethof is the University's first Alcoa professor of mechanical engineering, holding the chair since it was established. During this period, he has developed and taught undergraduate and graduate level courses in the fields of mechanical design, reliability engineering and acoustics and noise control.

Acoustics and environmental noise control have been his major areas of research, and he is director of the Noise Control Laboratory in the College of Engineering.

Fund council membership approved

The Penn State Fund Council has been activated with the approval by the Board of Trustees of the appointments of 21 individuals as charter members of the Council.

The Council was established by the Board last July as part of a reorganization of the University's development program, including the Office of Gifts and Endowments.

Commenting on the role of the development program in the University, President Oswald emphasized that "development of strong support from alumni and friends continues to be of crucial importance to Penn State. This support can spell the difference between having merely a good university with a proud past and nurturing a great university with an even brighter future."

Council members will serve as counselors and advisors to the president of the University and the Board of Trustees. The University's development program provides scholarships for students, support for the scholarly endeavors of the faculty, program enrichment and innovation and enhancement of the campus environment. Such efforts ultimately enable the University to increase the quality of educational service to the Commonwealth.

Personnel approved recently as charter members of the Council include: Mrs. Claude G. Aikens, State College; Edward

R. Book, Hershey; Samuel B. Casey, Jr., Chicago, Ill.; William Elliott, Collegeville; Robert L. Elmore, Fort Lauderdale, Fla.; Lawrence G. Foster, Jr., Westfield, N.J.; Mrs. Barbara Hackman Franklin, Washington, D.C.; J. Lloyd Huck, Doylestown; Walter F. Rockwell, Jr., Pittsburgh; Stanley G. Schaefer, Pittsburgh; Charles W. Shaeffer, Baltimore, Md.; and Judge Roy Wilkins, Jr., Bellefonte.

Others who had been serving on the Penn State Foundation Board, discontinued with the establishment of the Penn State Fund Council, also named as charter members are: Edward R. Brown, Altoona; Frederick J. Close II, North Madison; Drs. Wallace H. Dunlap, York; Robert E. Eberly, Unintown; Robert E. Kirby, Pittsburgh; Roland W. Oberholtzer, Jr., Wilmington, Del.; and Donald D. Smith, Dallas, Pa.

Walter J. Conti, of Doylestown, and Charles P. Neidig, of Haverford, have been named to the Council as representatives of the Board of Trustees while ex officio members are Michael Baker, Jr., of Beaver, as president of the Board; William K. Ulrich, of Clearfield, as vice-president of the Board; and Dr. Oswald, as president of the University.

Charles Lupton serves as executive director of the Office of Gifts and Endowments.

Engineering job offers on increase

There has been a 31 percent increase in job offers to engineering seniors over last year, according to the 1974 College Placement Council Survey, and 68 percent of all job offers this year came from employers in the manufacturing and industry categories.

Of the overall job offers to men seniors, 62 percent were in engineering disciplines, 28 percent in business areas, six percent in natural sciences, and four percent in humanities and social sciences.

Because of the scarcity of women in the more technical disciplines, only 12 percent of the women's volume was in engineering as compared to 34 percent in business, 28 percent in the humanities and social sciences, and 26 percent in natural sciences.

Engineering seniors at Penn State were also offered some of the highest starting salaries, along with seniors who majored in the earth and mineral sciences and business. The monthly salaries for graduating seniors in engineering ranged from \$556 to \$1,086, according to the University Placement Service, whereas the salaries for liberal arts majors averaged about \$755.

Despite the increasing demand for engineers, however, the graduating classes in engineering are expected to be smaller each year from now through at least 1978, according to the Engineering Manpower Commission.

"The smaller classes are the result of the 'engineering scare' during the late sixties when the cutback in defense funding left a number of engineers unemployed," says Dr. Nunzio J. Palladino, dean of the College of Engineering.

This situation, Dean Palladino thinks, unnecessarily frightened away prospective engineering students. He points out that the present energy problem is only one of the areas where solutions demand the expertise of engineers, and that the continual advance of technology requires the skills of more technically trained men and women.

"High school seniors, both men and women, who are proficient in mathematics and the sciences should look into the possibility of going into engineering," urges Dr. Palladino. "Not only should this career choice prove to be rewarding to the individual, but it would also be of great help to society."

Envelopes needed

Recycling of interoffice envelopes at the University Park Campus saves many dollars. In a period of paper limitations of all kinds, it helps to make fullest use of the available supplies. Departments, and individuals, are therefore urged to send excess supplies of used envelopes to all kinds of mailing Service Bldg. This includes, but is not limited to, the following type of envelope that might conceivably be reused — letter size; No. 10 lined or unlined, manila, or white; even up to 11 by 15 inch envelopes. These will then be sent to those departments that have expressed a need for envelopes; at the present time, the expressed need is far greater than the available supply.

Library tours

Graduate student tours of Pattee Library will be offered on Tuesday through Thursday, October 2-4, at 9:30 a.m. and 1:00 p.m. All graduate tours begin in the Reference Department, Room E105, East Pattee. Arrangements for class instruction by the Reference Department for upper-division and graduate classes may be made by calling Jack Pontius at 865-6398.

The Undergraduate Library staff will give tours of Pattee Library on Tuesday, Wednesday, and Thursday, October 3 and 4, at 9:00, 10:00 and 11:00 a.m., and at 2:00, 3:00 and 4:00 p.m. An evening tour will be offered on October 4 at 7:00 p.m.

Parking decals

The issuance of new parking decals for University Park Campus is under way, but because of the term break, holidays, and the beginning of a new term, present decals will be valid until January 14, 1975. Wage payroll and special windshield perking permits with a valid date of Nov. 30, 1974, are also valid to January 14.

The new decals may be displayed when they are received, but they must be displayed by January 15, 1975.

Airport safety

Further improvements in the safety conditions of the University Airport are indicated in the Airport Study by the Board of Trustees. The installation of a visual approach slope indicator and runway end identification lights for the new runway at the airport.

Training aids

A group of training aids in the form of slide/tape presentations which are valued at \$3,000 was presented recently to the Department of Mineral Engineering by the mining machinery division of Joy Manufacturing Co., Pittsburgh.

They will be used in the Department's mining curriculum, primarily in an undergraduate course in mine power systems.

Gary W. Schrock, vice president for sales of the division and a 1954 Penn State mining engineer graduate, arranged the gift.

Funding Opportunities

For procedural and funding source information, call 865-1372.

NOVEMBER 28, 1974

(157-1) October 20, 1974 is the deadline for the Vocational Education Curriculum Development Committee to submit recommendations to the Board of Trustees. Two projects will be supported for 1975. Initiating a rotation plan, which will coordinate curriculum efforts among the various departments, and a network for curriculum coordination in the vocational and technical education fields. (Ref. WST 11/4/74)

(157-2) A number of awards will be made by the application of the following criteria: economic activity to evaluate the effects of legislation on productivity and provide information to enable legislators, government bodies, and industry to increase their social effectiveness. This U.S. Government procurement information program is being distributed. Contact National Science Foundation, Contract Processing Section, Room 220, 1800 G Street, NW, Washington, D.C. 20585 (202-632-4128) (Ref. WST 11/18/74).

(157-3) Notice of Foreign Language and Area Study Fellowships criteria for funding and a closing date of December 17, 1974 has been issued by the Office of Education. This information is being distributed. Program Information forms may be obtained from the International Studies Branch, Division of International Education, Room 202, 2022 Second Street, NE, Washington, D.C. 20002 (202-245-2683) (Ref. WST 11/12/74).

(157-4) The National Endowment for the Arts (NEA) has published guidelines for three programs: The Dance Training Program (State Arts Agencies), The Music Training Program (State Arts Agencies), and the Music Training Program (State Arts Agencies). Guidelines distribution has been made. (Ref. 39FR 39917, 11/12/74).

(157-5) Methods to stimulate research

Rent increases, construction plans among items

Trustee actions on a variety of subjects noted

The University on Jan. 16 will increase by \$10 per month the rental charges for apartment units in Eastview Terrace and in Graduate Circle on the University Park Campus. Rapidly escalating costs were cited in announcing the increase.

The Board of Trustees has approved an increase from \$85 to \$95 per month for one-bedroom and \$95 to \$105 per month for two-bedroom units in Eastview Terrace, and in Graduate Circle the increase approved is from \$95 to \$105 per month for one-bedroom and \$105 to \$115 per month for two-bedroom units.

Nominating for rental increases at University Manor, the student-house officer apartment complex at the Milton S. HERSHEY Medical Center, the first since 1971, also were approved, effective Feb. 1, 1975.

The Human Performance Laboratory has been renamed the Sports Research Building, to better describe the actual use of the structure and to avoid confusion between the facility and the Noll Laboratory for Human Performance Research recently opened.

The building, constituting the old locker room building on the former site of Beaver Field, south of the J. Orvis Keller Bldg., houses the offices of the Sports Research Institute, research space for graduate students, and offices for some of the on-going projects of the Institute.

Formal designation of a Regional Mining Education Center at the Fayette Campus of the University in Uniontown was approved by the Board.

The Center will serve as a focal point for specialized training and education programs designed to assist the Commonwealth in taking a leading role in meeting energy demands.

President Oswald said the Center "will provide a vehicle for consolidating facilities and faculty in an organized and systematic manner to efficiently and effectively develop the many new programs which will be needed in the future."

The designation of a "center" he added, "emphasizes the University's commitment to continue its leadership in mining education and research and to strengthen and broaden its services to the people of the Commonwealth and the Nation as a whole."

Under the plan, the Center will be an integral part of the Fayette Campus and will be administered by Hugh M. Barclay, director of the Campus.

Preliminary plans for the Faculty Club

to be constructed near the Nittany Lion Inn were approved by the Board, the approval subject to further studies of possible alternatives.

The Board in September gave approval to sketch plans for the building which will be constructed with privately contributed funds specially designated for the Faculty Club. No State funds will be involved.

It is expected final plans will be submitted for approval in March, 1975.

To help ease a critical space problem on the Delaware County Campus, Trustees have approved purchases and erection of six modular structures at an estimated cost of \$275,000.

The present 1,700 enrollment, including 1,175 enrolled for daytime classes, far exceeds initial projections for the Campus, where the three-story classroom building now in use was designed to accommodate 735 students.

"The acquisition of these temporary facilities is not intended to expand campus enrollments, or change the University's priorities with respect to the acquisition of permanent facilities on the Campus, but rather to provide space for existing students and programs," President Oswald said.

Each of the six modular units, it was explained, is 24 by 60 feet and together they will provide a total of 8,640 square feet of space. With trustee approval to ask bids and award contracts granted, it is expected the units could be ready for occupancy by March 1, 1975, or shortly thereafter.

John D. Vairo, Campus director, said 10 of the units will be joined together to serve as a student center and will include food-vending machines. Classrooms and faculty offices will be established in two of the units, while another will serve as the Campus bookstore, freeing current space in the general purpose building to establish study and classroom areas.

The trustees authorized the expenditure of \$656,517, the amount required to award contracts to the lowest bidder, for construction of the Cardiovascular Research Laboratory at the Milton S. Hershey Medical Center.

The funds for the project come from a Kresge Foundation grant and from other grants and other contract commitments.

The action, ratifying the approval of the \$656,517 amount, also rescinds action taken last July in which \$500,000 was authorized for the project. The Board

earlier had approved final plans for the project and authorized the asking of bids and awarding of contracts.

Construction work on the laboratory, which will provide expanded facilities for work with large animals, is expected to start later this month.

The Trustees have approved final plans for the first building on the new site of the Allentown Campus. Designed in accordance with the new campus academic plan, it is to be an innovative, flexible, multiple use-type building providing space for continuing education activities and a limited baccalaureate degree program.

In addition to large rooms for use in continuing education programs and classrooms and seminar rooms for baccalaureate work, the 1,500-sq. ft. structure will contain a large library learning resource center and administrative and faculty offices.

The naming of an all-purpose room in Tyson Building in honor of the late Dr. Darrell E. Walker was approved by the Board. Dr. Walker, who served on the faculty for 19 years until his death in 1973, and for 10 years as dean of the department head, is also honored in a memorial scholarship fund that was established last January and in a small planting area in the proposed Penn State Allentown.

Staff vacancies

Universally faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling the Personnel Office, Room 100, University Park, PA 16802. Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, DECEMBER 5, 1974

RESIDENCE AREA COORDINATOR —

Bohrer College

Responsible to the Dean of Student Affairs through the Assistant to the Dean of Student Affairs-Residence Community Coordinator for assisting in carrying out the mission of the Office of Student Affairs by providing administrative, educational, cultural, and personal services for the total residence hall program. Master's degree, or equivalent, in college student personnel or a related field of study or Bachelor's degree, or equivalent, in relevant undergraduate major with at least one year of residence hall supervisor experience.

BUYER, BUSINESS SERVICES — University Park

Responsible to the Director of Purchases for the efficient and economical procurement of required items to best serve the interests of the University and the individual department involved. Specifically to evaluate specifications, giving consideration to quantity, quality, cost, and delivery requirements; solicit quotations; interview vendors, expedite deliveries, handle adjustments, and perform all necessary record keeping, purchasing services, and other related duties. Bachelor's degree, in Business Administration or related field and three to five years of experience in the procurement of furniture, furnishings, and related items is preferred.

RESEARCH PROGRAMMER —

Hershey Medical Center

Responsible to a Research Associate for the development of computer programs to fulfill the requirements of data acquisition systems. Operation of the computer system with some course work in the Sciences, plus two years of experience.

COORDINATOR FOR VETERANS AFFAIRS,

STUDENT AFFAIRS — University Park

Responsible to the Assistant Vice President for Student Affairs for Student Services for coordinating all veterans affairs and services on the University Park Campus and to provide assistance to the veterans affairs organization on the various Commonwealth Campuses. Master's degree in Student Personnel Administration or a related field or equivalent of a master's degree is required. Four to six years experience is necessary. The employee should be an honorably discharged veteran with active duty experience.

COUNSELOR, PSYCHOLOGIST, STUDENT AFFAIRS —

University Park

Responsible to the Director of the Mental Health Center for providing mental health services for students of the University Park. In clinical or counseling psychology or equivalent training including a one year APA approved internship, or Master's degree in clinical or counseling psychology or equivalent training, plus a minimum of three to four years of applicable clinical experience.

PRODUCER-DIRECTOR, CONTINUING

EDUCATION — University Park

Responsible for the planning and coordination of all phases of production projects to which requests for technical assistance are made. Bachelor's degree or equivalent with two to four years of related experience in general education or information broadcasting. Candidates must be capable of performing on the job.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

Innovation in the U.S. are "under consideration" by the National Science Foundation using closer inquiry/university research. The NSF Research Advisory Committee for Research proposed several methods including: joint university/industry sponsorship of research projects; exchanges of university and industry personnel over varying periods of time up to three years; re-entry fellowships for academic researchers returning from industry for summer positions; and a grant program for students working in industry for government, joint R & O facilities for industries, and other information dissemination methods like workshops, extension courses, use of university facilities like libraries, and use of industry advisors. (Ref. WST 11/4/74)

(157-4) A new national fire prevention and control organization has been established by the Commerce Department to aid local and state fire-fighting agencies through grants and research and development programs. The new administration was created under the Federal Fire Prevention and Control Act of 1974 (PL 93-488) which also included provisions for creating a National Academy for Fire Prevention and Control, a National Fire Training Academy, development of a National Fire Data Center (collect, analyze, disseminate information); developing, testing, and evaluating fire-fighting equipment; and establishing a Fire Research Center; and public education. (Ref. WST, 11/4/74).

(157-7) The President's Commission on White House Fellows (1950 & Street NW, Washington, D.C. 20415) invites applications from U.S. citizens 23-36 years old who have demonstrated unusual ability, high moral character, outstanding motivation, a broad background in leadership, dedication to the institutions of the U.S. and promise of future development. The application deadline is October 2, 1974. Fellows receive frashard appointment to the process governing the U.S. Silver ends are up to \$30,147 per year depending on the experience of the applicant. For further information and application forms, write to the address given above.

(157-8) Woodrow Wilson National Fellowship Foundation (Box 642, Princeton, N.J. 08540) invites applications for 25 doctoral dissertation fel-

lowships on women's studies. Applicant must have passed comprehensive examination by September 1975. The application must be submitted by the Graduate School. Interested persons should send a brief autobiography, a brief dissertation prospectus, copies of all transcripts, and letters of recommendation from the thesis advisor and the department head to 317 Kern Graduate Building by October 5. Nominations will be sent application forms to the Graduate School by November 15. A dependency allowance plus the dissertation fee plus a \$500 research expense allowance. Further information is available at 317 Kern Graduate Building. The award must be on woman's role in society, particularly in contemporary America.

(157-9) National Science Foundation ERG Post-Doctoral Fellowships: Forms are available in 317 Kern Graduate Building. A new application deadline of December 20, 1974 has been announced.

(157-10) National Institutes of Health (Grants Inquiries Division of Research Grants, Bethesda, Maryland 20814) is instituting a new program of service awards for post-doctoral fellowships. Applicants must submit a written plan of study to prepare him for a research career. Application deadlines are January 2 and May 1, 1975. For further information write to the address given above.

REMINERS AND DEADLINE DATES

Jan. 1 for Ford Foundation Research on the Environment and Energy (Nov. 15, 1974 INTERCOM #154-1) Jan. 2 (May 1 & Sept. 2) for NIH Research Career Development Program (Nov. 21 INTERCOM #153-1) Jan. 6 for OE Field Researcher Study Program (Nov. 21 INTERCOM #152-1) Jan. 6 (changed) for NSF Energy-Related Graduate Fellowships (Oct. 17 INTERCOM #151-1) Jan. 10 for OWRU Water Research projects (Oct. 10 INTERCOM #150-2) Jan. 10 for Nuclear Science and Engineering Research (Oct. 31 INTERCOM #153-1) Jan. 15 for NSF Senior Foreign Exchange Program (Nov. 21 INTERCOM #156-1) Jan. 31 for NSF/NARR Research on General Research Sharing (Oct. 24 INTERCOM #152-1) Jan. 31 for Metropolitan Life Education Grants (Nov. 21 INTERCOM #156-2)

Deferred annuity plan is available

Approaching a new calendar year is a time when many people begin thinking about income taxes, and how to reduce them legally. One method is available to faculty and staff members through a tax deferred annuity plan sponsored by the University. Here is how it works to the advantage of many.

A provision of the Federal Income tax law gives employees of certain tax-exempt, non-profit organizations such as Penn State the opportunity to obtain a special current tax benefit under certain circumstances. All full-time regular employees of the University are eligible to participate. When an employee decides to enroll in the plan, he or she elects the amount of a monthly premium (not less than \$40.00) and this amount is not considered or treated as current income for tax purposes. The dollars being saved are then used to purchase a retirement annuity. The net result is a unique opportunity for employees to accumulate a fund for their future security with before tax dollars.

Christmas tree orders being taken

The Penn State Forestry Society will be providing fresh-cut Christmas trees for the University Park Campus again this year.

All trees are priced at \$1.50 per foot and will be delivered to offices on campus between Dec. 9 and Dec. 11. Available will be Scotch pine and Douglas fir. The smallest trees will be four feet tall.

Orders can be placed between Nov. 25 and Dec. 6 by calling Kristeen Karas at 865-4237 during the normal working hours, specifying the size and type of tree and the date and the location of delivery. Payment may be made by an Interdepartmental Transfer (804-14) or by cash or check, payable to the Penn State Forestry Society, on delivery of the tree.

Artists Series has schedule change

The Artists Series has announced it will engage Czechoslovakian's Prague Chamber Orchestra for a January 17 concert in University Auditorium, in place of the Feb. 21 performance of the Moscow Chamber Orchestra.

The Soviet orchestra recently cancelled its entire six-week U.S. tour.

Eighteen teams in swim relays

Eighteen teams will compete in the Penn State Swimming and Diving Relay Championships at the Natatorium Saturday, Dec. 7. It's an unusual kind of championship in that results are calculated for teams, rather than individuals; for example, the swimming events are all relays, of three or four men. Since it's the first meet of the season for most teams, it gives the coaches a chance to see a lot of their swimmers in action in a real competition for the first time. Spectators are welcome; a charge of \$1 for trials and \$1 for finals is made. The trials start on the morning (starting starts at 8:30 a.m.) and finals start at 3:30 p.m.

WPXS highlights

Sunday, Dec. 1 — "Henry Kissinger and the Press," with Harrison Salisbury, 10:30 p.m.
Monday, Dec. 2 — "Cuba: The People," documentary on Cuban lifestyle today, 8 p.m.
Monday, Dec. 2 — Author C. P. Snow, in talk with Stanley Weintraub, 10 p.m., and also Tuesday, Dec. 3, at 3 p.m. and Saturday, Dec. 7, at 1:30 p.m.
Thursday, Dec. 5 — Ninety-minute special, "Education Exchange: Where the Buck Stops," on the state's public schools, 7:30 p.m.
Thursday, Dec. 5 — "Primate: A documentary on research laboratories' uses of primates in research, 10 p.m. (two hours).

HUB specials

Monday, Dec. 1 — Lunch, stuffed peppers, \$3.91; dinner, meatloaf, \$8.00.
Tuesday, Dec. 2 — Lunch, bar-b-que on bun and soup, \$7.80; dinner, beef steak, \$1.25.
Wednesday, Dec. 3 — Lunch, spaghetti with meat sauce, \$1.77; dinner, Salisbury steak, \$1.30.
Thursday, Dec. 4 — Lunch, turkey turnover, peas, \$1.07; dinner, lasagne, \$1.22.
Friday, Dec. 5 — Lunch, Congo Island frenks, soup, \$7.80; dinner, french fried chicken, \$1.34.
Saturday, Dec. 7 — Lunch, chili con carne, \$5.64; dinner, frank and beans, \$5.98.
Sunday, Dec. 8 — Dinner, chopped steak with mushrooms, \$1.59; supper, beef chop suey, with rice, \$3.91.

The fund being accumulated may also grow faster than ordinary savings or investments since earnings on the invested money are not subject to current annual taxes. It should be remembered that if the money is withdrawn in a lump sum or as monthly income, the entire amount becomes ordinary income in that year and would be subject to tax.

Since January will begin a new tax year, it would be advantageous for interested employees to enroll in the tax deferred annuity program as early in the tax year as possible. Application forms and other printed matter are available in the Employee Benefits Division, 133 Willard Building. When an employee enrolls on or before the 20th of a given month, the plan goes into effect the first of the following month.

Although many different companies sell tax deferred annuities, the University's program is offered through the Teachers Insurance and Annuity Association (TIAA) and the Equitable Life Assurance Society.

able to the Penn State Forestry Society, on delivery of the tree.

For safety reasons, University officials suggest that artificial greens and trees be used on campus, but if natural materials are used, certain precautions should be taken to insure the safety of persons and property.

If plastic artificial trees are used, it should be determined that they are of noncombustible materials. If aluminum trees are obtained, no electric lights should be used on the trees themselves.

Due to the energy crisis, departments are requested to refrain from using electrically illuminated decorations.

The 36-member Prague Chamber Orchestra gave two sellout performances in Schwab Auditorium ten years ago. This January's concert will take place in University Auditorium at 8:30 p.m.

A few tickets will be available for this program; details on their sale will be available later.

NEWS —

(Continued from page one)

one man as second lieutenant U.S. Air Force Reserve.

The commissioning address will be delivered by Col. Elwood M. Wagner, president of the Retired Officers Association, Nittany Lion Chapter, and former professor of aerospace studies at the University.

CAPITOL ESSAYIST

A 1972 graduate of the Capitol Campus, William Russell Bitner, Jr., is author of a collection of essays, "A Ship of Dreams," to be published by Dorrance and Co., Philadelphia, to be distributed in both the U.S. and Canada. He said that "much of my inspiration came from the study of philosophy and psychology at Penn State-Capitol Campus." Most of the essays were written while he was attending Penn State.

HUB FOOD SERVICE

Beginning with the Winter Term, there will be no breakfast service in the Hetzel Union Building on Saturdays and Sundays, effective December 2.

HUB VIDEO TAPES

With some spare time at lunch time, you might try the video tape showings almost daily (beginning Dec. 6) in the HUB reading room, sponsored by the Hetzel Union Board. (Some of these tapes may also be shown at Kern Graduate Bldg.; no schedule is as yet available.) The first week's tape, shown from 10 a.m. to 4 p.m., is a series of cartoon comings. Other programs will include "The Song of Christmas" Jan. 13-19 and a Harry Chapin concert Jan. 6-10. There is no admission charge.

STUDENT AID

The New York-Penn Chapter of the American Institute of Undergraduate Engineers has made possible a grant-in-aid for in-

Engineers study riding comfort

Using a special dummy instead of live models, two Penn State mechanical engineers have come up with a new way for determining human riding comfort in various transportation systems.

Dr. James C. Wambold and Dr. William H. Park have completed the first year of a project during which they have fabricated and instrumented a "ride quality dummy" and developed data reduction methods. The project is sponsored by the U.S. Department of Transportation.

The work on ride comfort that has been done in the past according to the researchers, has two limitations — it has often been hampered by a lack of proper equipment, and in many cases, has used the subjective responses of the passengers as a basis for evaluation.

"Most prior comfort studies have been done with live models, whose feelings vary from day to day," said Dr. Wambold, "so we thought if we could simulate man and measure a comfort parameter, we could come up with an objective method rather than a subjective one."

"The comfort parameters we are using," added Dr. Park, "is the absorbed power criterion developed in the late 1960s."

Human response investigations to ride comfort began about 25 years ago, but there have been few investigations until recently. The need for experimental evaluation of comfort became apparent during World War II, when military personnel sustained major physical injuries while riding in military vehicles.

The researchers explained that as speeds become higher, transportation systems must be designed to eliminate vibrations and other motions that are detrimental to the vehicle, the operator, the passenger, the cargo of the environment.

The International Standards Organization's standard defining human tolerance to whole-body vibration has been under development for a number of years, according to Dr. Wambold, and suggests methods of dealing with broad frequency band linear vibration in a given direction, but does not deal adequately with combined effects of different directional vibration components or effects of rotational vibration. The technique developed by Dr. Park and Dr. Wambold does assess

dustrial engineering students. The grant, which will amount to \$150 a year, will be made to a student who has completed two years of the industrial engineering curriculum and has maintained a 2.5 or higher grade-point average. The recipient may receive the grant for a total of two years if he or she remains eligible.

CONTINUING ED POPULAR

During the past year, 134,903 people were enrolled in continuing education courses offered by the University, says Floyd B. Fischer, vice president for Continuing Education. More than 74,000 of these were enrolled in non-credit programs, highly specialized, such as conferences, institutes, workshops, and short courses, but some 39,000 were enrolled in credit, 1,476 in unit programs, and nearly 20,000 in correspondence courses. In addition, Continuing Education reaches the public through Audio-Visual Services, PENNTAP, and, of course, WPXS-TV, Channel 3.

ENGINEERING WOMEN

Seven years ago, only five freshman women were enrolled in engineering at the University; this year this number has jumped to 96, says the dean of the College of Engineering, Dr. N. J. Palladino, pointing out the increasing interest of women in what was once almost entirely a man's field.

PRESS BOOK

All scholarly work on Matthew Arnold published between 1932 and 1970 is presented in "A Bibliography of Matthew Arnold," published by the University Press.

The book was compiled by Vincent L. Tollers, a member of the English faculty at the State University of New York College at Brockport.

Major monographs and periodical bibliographies as well as critical works are listed, as are general works containing sections on Arnold. The book includes a brief discussion of Arnoldian scholarship of the last four decades.

these additional effects.

The Penn State researchers originally hoped to use standard crash dummies, but found that their behavior in response to vibrations is not very good because they act as dead weight at these frequencies. Their present dummy consists of two sets of masses suspended with springs and dampers, which give it two degrees of freedom or modes of vibration in the vertical direction to effectively match a seated human. Eventually, the researchers plan to redesign the model to give it a life-like appearance.

During the next two years of the proposed three-year project, Dr. Wambold and Dr. Park plan to expand the dummy's measuring capability to include lateral and fore-aft movement, angular body motion and motion of the limbs or head for comfort assessment, as well as the assessment of other senses such as sight, hearing and smell.

Plans for the second experimental part of the program also include the gathering of comfort data from various transportation environments and the identification of significant motion directions with the four major directions of motion — vertical, lateral, and fore-aft — as well as pitch and roll modes. Measurements on a human passenger, using equipment from previous research, will also be obtained for correlation with the dummy.

Higher education

The University of Pennsylvania is facing a deficit in 1974-75 finances larger than the \$500,000 "built into" the budget, according to President Myerson, who cited a \$1.5 million loss in portfolio, failure of the New Jersey legislature to provide support for a regional school of veterinary medicine, and low rate of support for the University's hospitals. But the president believes the deficit condition is "temporary," and that the question is only "how long."

At Michigan State University, various aspects of Academic Governance are currently under consideration including a committee recommendation that would limit a chairman of a department or director of a school to no more than two successive five-year terms. The University Provost, John Canton, said the restriction is a mistake, the problem lying not in the length of service but in the lack of a formal structure to review that service.

The "Chronicle of Higher Education" in a story by Philip M. Boffey, reports that Senate Bill 32, "National Policy and Priorities for Science and Technology Act of 1974," introduced by Sen. Edward M. Kennedy, went through the Senate with virtually no opposition. It would rewire the science advisory mechanism from the White House to state and local governments, establishing a three-member Council of Advisers on Science and Technology within the executive office of the President. The council would "recommend the desired level of federal investment in science and technology, and it would recommend priorities for allocating federal funds among the broad technical areas." The council would therefore have greater voice in federal funding than previous organizations that were advisory to the President. One aspect of the bill would provide for a new program of continuing education for scientists and engineers.

Student returns

Peggy Kowing, a graduate student in the Linguistics Program, who received her first travel grant provided by Alliances Française de State College de l'Université, Paris, has returned after traveling through France.

Selected for the award by the Graduate School, Miss Kowing traveled to Geneva region, for research on a French dialect that is disappearing rapidly.

Alliance raised money for the grant by sponsoring two concerts of French music in 1973 and 1974, in which the French-American students were featured. The organization plans to continue the grant program in 1975.

New parking decals needed by Jan. 15

A faculty or staff member at University Park may receive parking privileges for no more than two vehicles. However, only one vehicle may be parked on campus at a given time. Parking decals for the first vehicle are provided free by the University. There is a \$10 fee for second vehicle parking decals. New parking decals are now being issued. They may be displayed immediately, and they must be displayed by January 15, 1975.

During this initial distribution period, faculty and staff members wishing to register a second vehicle may do so by paying the \$10 fee to the Financial Officer assigned to his or her area or to the Bursar in Shields Building. After January 15, 1975, the second vehicle fee may be paid only to the Bursar.

When payment is made, a serialized receipt is provided for the faculty or staff member to give to his or her parking chairperson who will then issue second vehicle decals.

International festival Dec. 9-15

An International Holiday Festival, with a variety of activities scheduled for the week of Dec. 9-15, is being sponsored by the University Committee on International Programs, Community Awareness, Office of International Student Affairs, the Kern Graduate Building, and the HUB.

The goal of the program is "to foster a spirit of broader understanding and sharing in a celebration of life in many cultural moods." It is hoped that the interaction of American and international communities here will expand the cultural awareness of the entire campus community.

The program of events includes:

KERN GRADUATE BUILDING — Holiday wall decoration competition in the Commons Gallery, Dec. 9-21; display of international banners in Commons Gallery, Dec. 9-21; nighttime entertainment Monday, Wednesday and Friday, 12 noon; Christmas decorations workshop, Dec. 10 and 12 (Tuesday and Thursday) nighttime, lobby; French film, "The Grand Illusion," Wednesday, Dec. 11, 7 and 9 p.m., Room 112; International Coffeehouse, featuring international decor and talent, Friday, Dec. 13, 8 p.m.; madrigal dinner and celebration (old English), Saturday and Sunday, Dec. 14 and 15, 6:30 p.m., Room 102; international tree, Dec. 9-21; and international background music daily.

HETZEL UNION BUILDING — exhibits in first floor display cases; architectural exhibit, Aalto, first floor, daily; workshop on decorative objects, main lounge, noon, Dec. 9-15; international dinner, Terrace Room, Wednesday, Dec. 11, 6-8:15 p.m.; and international music on tape system.

COMMUNITY AWARENESS — children's party, Saturday, Dec. 14, 1-4 p.m., Findlay Rec Room, with songs and games and refreshments; children's art of Christmas around the world, Dec. 9-21, Cultural Center.

INTERNATIONAL CENTER — McKee Hall, decorations in traditional American Christmas; Christmas clearinghouse for international students; Christmas tea for international students, Wednesday, Dec. 18, 2-4 p.m., sponsored by International Hospitality Council.

The Madrigal Dinner, Saturday and Sunday, Dec. 14 and 15, in the Kern Graduate Building (Room 102), will feature an Old English meal and entertainment typical of 14th-century ages, along with contemporary music. The Phi Mu Alpha brothers will play, a jester will give an old English reading, and a minstrel and trumpeters will be featured during dinner. After dinner, the Hy Los group will sing madrigals and other Old English songs. The dinner, which is being catered by the hotel and Restaurant Society, will cost \$5.50 each, and tickets can be purchased at the Kern Information Desk prior to the dinner.

News in brief

FREE-U REGISTRATION

Registration for the courses offered by Free-U will take place Wednesday and Thursday, Dec. 11-12, in the Hetzel Union Bldg. The registration on Wednesday will take place in the ballroom, from 7 p.m. to 10 p.m.; Thursday's registration will be held in the assembly room, from 10 a.m. to 4 p.m. These are non-credit, general interest courses taught by students, staff or faculty, and in some cases area residents not otherwise connected with the University. They cover a wide variety of interests and activities, generally not available in regular University programs. Any student, staff or faculty member may enroll. Booklets listing the courses were made available this week and on Sunday,

Dec. 8, from 1-4 p.m. in the Wesley Foundation, demonstrations and explanations of the courses will be given by many of the teachers involved.

IMPELLITTERI SCHOLARSHIP

The Joseph T. Impellitteri Memorial Scholarship has been established, honoring the late professor of vocational education, by members of Iota Lambda Sigma, Industrial education honorary, and other organizations and individuals. The scholarship plan supersedes the Joseph T. Impellitteri Memorial Awards Program. Dr. Impellitteri, who joined the University faculty in 1961, died in an automobile accident on May 7, 1972.

INTERNATIONAL NIGHT

A special candlelight dinner at the HUB terrace room Wednesday, Dec. 11, will include entertainment by the United South American Singing group and Oriental music provided by international students at Penn State. Special decorations will also be hung by the students. The menu will feature a variety of items which had their origin in foreign countries, such as Armenian beef kabob, stuffed Italian shells, Irish boiled dinner, chicken Polynesian, Danish pork chop, shrimp chorizo, with Russian borscht and Norwegian potato salad. Among the desserts will be apple strudel and ricotta pie.

BETA SIGMA PHI SALE

The local chapter of Beta Sigma Phi will conclude its full season sales, proceeds of which benefit local charities, with its annual "Sugar Plum" sale Saturday, Dec. 14. Since 1969, the members of this women's

For interdisciplinary developments in research

Delaware has behavioral colloquium

A Colloquium for Behavioral Research has been established at the Delaware County Campus among faculty in economics, human development, political science, psychology, and sociology.

The colloquium, says Dr. R. G. Quinn, dean of Academic Instruction for Commonwealth Campuses, will emphasize interdisciplinary developments in research methodology and theory within the framework of a continuing seminar and other activities. Applied research on the learning problems of students, using behavioral

approaches and concepts, will also be a focus of the colloquium.

Faculty at other campuses who are interested in this effort should contact Dr. Stephen J. Cimbal, associate professor of political science, Delaware County Campus, Media, Pennsylvania 19063.

Several other Commonwealth Campus faculty groups are presently at work forming other types of workshops and seminars of an academic nature.

Details concerning those groups will be announced by Dr. Quinn in early 1975.

Senate Report

Two reports presented to the University Faculty Senate at its November meeting will be acted on at the Dec. 10 Senate meeting.

The first involves proposed changes in Senate bylaws in accordance with recommendations on faculty participation in University governance.

The second report is that of the Capitol Campus Review Committee.

* * *

The University Faculty Senate's Standing Subcommittee on External Degrees will present two reports at the Dec. 10 Senate meeting.

The reports, dealing with supplying information for external degree programs and a proposed name change for the subcommittee, follow:

Informational Report of the Standing Subcommittee on External Degrees, Committee on Academic Affairs

Supplying information for External Degree Programs

Documented as Appendix "A" of the Agenda for the Senate Meeting of November 13, 1973 are eleven guidelines that should be applied to proposals of programs by the "external" route. These guidelines can serve two purposes, that of telling the Subcommittee in a succinct way the pertinent details of the newly proposed program and, if the program materializes, that of giving a prospectus to a would-be student. There are two very distinct advantages in complying with all eleven guidelines when the proposal is first submitted. First, you will need to write the proposal only once, and, secondly, you will enjoy action by the Committee in a minimum of time. Lack of full compliance to these guidelines initially can generate many committee meetings rather than

just one or two; also, in order for us to stand behind the statement, "The full text of the program is on file in the Senate Office," we may require that the proposer rewrite the proposal.

Compliance with each guideline needs to exist, to be adequate, and to be identifiable.

Miles T. Pilgoff,
Chairman

Standing Subcommittee on External Degrees, Committee on Academic Affairs Proposal for Changing the Name of this Standing Committee

The University and the Senate have been utilizing two terms, "External Degrees" and "Extended Degrees," to refer to specific programs that extend degree opportunities to students in new combinations of traditional residential forms of instruction and other non-resident modes. These programs represent an extension of the degree programs of the academic colleges and are controlled and operated within the college structure. They are not programs external to the colleges or University. Some confusion has resulted from the use of both of these terms. It is recommended, therefore, that the Standing Subcommittee on External Degrees, a Subcommittee of the Committee on Academic Affairs, be renamed as the Standing Subcommittee on Extended Degrees. It would continue to have the same responsibilities. The programs it would consider would be identified as extended degree programs.

All previous documents carrying the word "external degree" shall be changed to read "extended degree."

Miles T. Pilgoff,
Chairman

The following informational report of the Division of Undergraduate Studies Advisory Subcommittee of the Senate Committee on Academic Affairs will be presented at the Dec. 10 Senate meeting:

The OUS Advisory Subcommittee has been in existence for one year. During this first year, most of the work dealt with 1.) issues related

to the initiation of the Division's operation, and with 2.) editing the Policies and Rules for Students necessitated by the creation of OUS. As the Division begins its second year, the Subcommittee has turned its attention to specific matters related to the continuing operation of OUS.

1.) Representation for the staff of the Division of Undergraduate Studies on the Faculty Senate is a question which has concerned the Subcommittee, and it remains an unresolved issue. The Subcommittee has written to the Chairman of the Senate requesting consideration of the matter.

2.) Transfer policies of certain programs which require academic performance in excess of minimum standards courses OUS particular programs. Increasing numbers of degree programs are making it difficult if not impossible for students to transfer from OUS or from other programs or colleges into those degree programs by establishing standards for transfer-admissions significantly above the minimum university standards for initial-admission or retention. After consideration of the issue the Subcommittee recommends that the Academic Affairs Committee consider the following proposals: a.) Degree programs should be prohibited from elevating transfer-admissions standards (cumulative average) significantly above minimum university graduation standards (2.0) without the specific authorization of the Curricular Affairs Committee of the Senate and implementation by the Provost. b.) There should be no difference between grade standards for retention in or transfer into any degree program. However, we recognize that limitations of faculty and/or facilities may require some degree programs to restrict total enrollment. We recommend that the Academic Affairs Committee take this issue under advisement.

3.) Current Senate policy limiting length of time of enrollment in OUS (U-3, U-4) is under examination by our Subcommittee. Changes will likely be recommended.

4.) OUS needs a continuing readily available research support program to provide the data-base

(Continued on page four)

Winter Term 1974-75 Calendar

University Park Campus

The Pennsylvania State University

Thursday, December 5

Classes begin, 8 a.m.
West Halls, Waring Cinema, "The Ruling Class," 7:30 and 10 p.m.

Friday, December 6

West Halls, Waring Cinema, "The Ruling Class," 7:30 and 10 p.m.
Commonsplace Coffeehouse, Scott Stripling, 8 p.m., Room 102 Kern.
Penn State Invitation Wrestling Tournament, 8 p.m., Rec Hall.

Saturday, December 7

Second annual Penn State Invitational Wrestling Tournament, 2 and 8 p.m., Rec Hall.
Penn State Swimming and Diving Relay Championships, Natatorium, starting at 8:30 a.m.
Artists Series, "Don Juan in Hell," 3 and 8:30 p.m., University Auditorium.
West Halls, Waring Cinema, "The Ruling Class," 7:30 and 10 p.m.

Week of Dec. 8

Sunday, December 8

Chapel Service, 11 a.m., Eisenhower Chapel, Rebbl Robert Kaufman, Jewish Community Center, State College.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
"Instant Fashions," fashion show sponsored by Penn State Fashion Council in cooperation with Butterick, Inc., 3 p.m., HUB lounge.

Monday, December 9

Steven Smith, piano recital, 8:30 p.m., Music Bldg. recital hall.
USG Senate meeting, 7:30 p.m., HUB assembly room.
College of Education Student Council meeting, 7 p.m., Room 365 Willard.
OTIS meeting, 8:30 p.m., Room 203 HUB.
International Festival, International talent, 12 noon, lobby, Kern.
Colloquy, "On Comix," 8 p.m., Schwab.
Sten Lee, on "The Marvel of Marvel."

Tuesday, December 10

Seminar on the use of the card catalog, 7 p.m., W-110 Pattee, Undergraduate Library.
University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.
VSC, 7 p.m., Room 203 HUB. Lecture, recruiting for Laurenton State School and Hospital.
College of Agriculture faculty meeting, 4 p.m., Room 301 Ag. Administration.
Women's bowling, vs. Edinboro, 3:30 p.m.
Men's basketball, vs. Bucknell, 8 p.m.
International Festival, Christmas workshop, 12 noon, lobby, Kern.

Wednesday, December 11

Artists Series Chaplin Film, "The Circus," 8:30 p.m., University Auditorium.
Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.
Commonsplace Theatre, "Grand Illusion," 7 and 9 p.m., Room 112 Kern.
International Festival, International talent, 12 noon, lobby, Kern.
"Europe '74, A Slide Odyssey," 8 p.m., HUB main lounge.

Thursday, December 12

VSC, 7 p.m., Reading Room HUB. Lecture, recruiting for Laurenton State School and Hospital.
International Festival, Christmas workshop, 12 noon, lobby, Kern.
Colloquy, "On Comix," 8 p.m., HUB ballroom.
Jim Dobbins, Boston Herold, on "Caricatures and Cartooning Today," 8 p.m., HUB main lounge.

SEMINARS

Agronomy, Thursdays, 3:55 p.m., Room 301 Agricultural Administration.
Chemical Engineering, Tuesdays, 3:45 p.m., Room 140 Fenske.
Chemistry, Thursdays, 12:45 p.m., Room 333 Whitmore.
Competitive Literature, luncheon end discussion, Tuesdays, 12:15 p.m., Presidential Room in the Corner Room.
Computer Science, Thursdays, 4 p.m., Room 101 Altohouse.

Friday, December 13

Colloquy lecture, 8 p.m., University Auditorium. Vaughn Bode, National Lampoon, on "Bode's Cartoon Concert."
Commonsplace International Coffeehouse, 8 p.m., Room 102 Kern.
International Festival, International talent, 12 noon, lobby, Kern.

Saturday, December 14

Penn State Singers Christmas Concert, 8:30 p.m., Schwab.
Wrestling, vs. Indiana State, 8 p.m., Rec Hall.
Men's swimming, vs. Lehigh, 2 p.m.
Madrigal Dinner, 8:30 p.m., Room 102 Kern.

Week of Dec. 15

Sunday, December 15

Penn State Glee Club and Penn State Brass Choral Christmas Concert, 3 p.m., Music Bldg. recital hall.
Chapel Service, 11 a.m., Music Bldg. recital hall. University Choir's Christmas Music.
Tommy Irwin, director.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Madrigal Dinner, 8:30 p.m., Room 102 Kern.

Monday, December 16

Shirley Foster Donovan, soprano recital, 8:30 p.m., Music Bldg. recital hall.
USG Senate meeting, 7:30 p.m., HUB assembly room.
OTIS meeting, 8:30 p.m., Room 203 HUB.
Gamma Pi Epsilon, Women's Pre-Medical Society, 8 p.m., McElwain Hall piano lounge.
Steven Wright on "Medical School Admissions and Interviews."

Tuesday, December 17

Artists Series Bergman Film, "The Seventh Seal," 8:30 p.m., University Auditorium.
ARHS meeting, 7:30 p.m., Room 203 HUB.
College of Business Administration Christmas party, 7:30 p.m., HUB lounge.
Senate Council meeting, 2:10 p.m., Room 101 Kern.

Wednesday, December 18

Ciaramont Woodwind Quintet and Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.
Commonsplace Theatre, "All Quiet on the Western Front," 7 and 9 p.m., Room 112 Kern.

Friday, December 20

Round and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.
Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, December 21

Christmas vacation begins, 12:25 p.m. Offices closed Dec. 23-26.
Residence Halls close for Christmas recess, 3 p.m.

Week of Dec. 29

Wednesday, January 1

New Year's Day, offices closed. Cotton Bowl game, TV broadcast, NBC, 2 p.m.

Friday, January 3

Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, January 4

Men's basketball, vs. Boston College, 8 p.m., Rec Hall.

Genetics, Mondays, 4 p.m., Room 111 Tyson.

Geosciences, Tuesdays, 4 p.m., Room 26 Mineral Sciences.

Meteorology, Thursdays, 3:55 p.m., Room 26 Mineral Sciences.

Microbiology, Thursdays, 4 p.m., Room 32 Frear.

Physics, Thursdays, 3:45 p.m., Room 117 Osmond.

Plant Pathology, Tuesdays, 9:45 a.m., Room 113 Buckhout.

Solid State Physics, Tuesdays, 1 p.m., Room 339 Davey.

Statistics, Thursdays, 4 p.m., Room 75 Willard.

Penn State's captain, John Fritz, will be among those competing in the invitational Wrestling Tournament in Rec Hall Dec. 6-7.

Week of Jan. 5

Sunday, January 5

Residence Halls open after Christmas Recess, 8 a.m.

Monday, January 6

USG Senate meeting, 7:30 p.m., HUB assembly room.
OTIS meeting, 8:30 p.m., Room 203 HUB. Classes begin, 8 a.m.

Tuesday, January 7

ARHS meeting, 7:30 p.m., Room 203 HUB.
University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.

Wednesday, January 8

Evening of Student Chamber Music, 8:30 p.m., Music Bldg. recital hall.
Penn State Mining Society meeting, 7:30 p.m., Room 26 Mineral Sciences. Dr. Thomas V. Falkie, director, U.S. Bureau of Mines, on "Outlook for Minerals and Energy in the U.S."
Men's and Women's gymnastics. Women, vs. Towson State, men vs. Pittsburgh, 8 p.m., Rec Hall.
Commonsplace Theatre, "The Big Sleep," 7 and 9 p.m., Room 112 Kern.

Thursday, January 9

College of Liberal Arts faculty meeting, 3:30 p.m., Room 121 Sparks.
International Affairs Lecture, Don Luce on "Vietnam: The Prospects of Reconciliation," 7:30 p.m., Room 101 Kern.

Friday, January 10

Men's basketball, vs. West Virginia, 8 p.m., Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, January 11

Artists Series, Juilliard String Quartet, 8:30 p.m., Schwab.
Women's Rifle, vs. Carnegie Mellon, 2 p.m.
Men's fencing, vs. Johns Hopkins, 2 p.m.
Men's basketball, vs. West Virginia, 8 p.m., Rec Hall.
Wrestling, vs. Kentucky, 2 p.m., Rec Hall.

Week of Jan. 12

Sunday, January 12

Julia Huff piano recital, 3:30 p.m., Music Bldg. recital hall.
Chapel Service, 11 a.m., Black Cultural Center.
Martin Luther King Memorial Service, Rev. Vernon M. Heron, National Ministries, American Baptist Churches, Valley Forge, Pa.
University Readers, 7 p.m., Room 112 Kern.

Monday, January 13

Anita Greenlee, organ recital, 8:30 p.m., Music Bldg. recital hall.
USG Senate meeting, 7:30 p.m., HUB assembly room.
Gamma Pi Epsilon, Women's Pre-Medical Society, 8 p.m., McElwain Hall piano lounge.
Richard R. Bishop, electrical engineering, on "Bio-medical Engineering," 7 p.m., Room 365 Willard.
OTIS meeting, 8:30 p.m., Room 203 HUB.

Tuesday, January 14

ARHS meeting, 7:30 p.m., Room 203 HUB.
GSA Workshop, 7:30 p.m., Room 101 Kern.
Commonsplace Theatre, "Barbarella," 7 and 9 p.m., Room 112 Kern.
Film, "A Man Called Bee," produced by Dr. Napoleon Chagnon, 7:30 p.m., Room 102 Forum.

Wednesday, January 15

Thalia Trio, 8:30 p.m., Music Bldg. recital hall.
Artists Series Chaplin film, "City Lights," 8:30 p.m., University Auditorium.
Commonsplace Theatre, "Barbarella," 7 and 9 p.m., Room 112 Kern.

Friday, January 17

University Children's Theatre, "Oloft," 2:30 and 7:30 p.m., Pavilion Theatre.
Women's Conference, jammy, "The Oeady Nightshade," 9 p.m., HUB ballroom.
Round and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.
Artists Series, Prague Chamber Orchestra, 8:30 p.m., University Auditorium.
Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, January 18

Women's Conference, workshops, 11 a.m. 5:30 p.m., HUB ballroom.
Women's Conference, feminist speaker, Rita Mae Brown, 8 p.m., Schwab.
Women's fencing, vs. Jersey City, University of Pennsylvania, and Randolph-Macon, 9 a.m.
Wrestling, vs. West Chester, 2 p.m., vs. North Carolina, 8 p.m., Rec Hall.

Wrestling, vs. Lehigh, 3:30 p.m., Rec Hall.
Men's swimming, vs. Indiana (Pa.), 3:30 p.m.

Week of Feb. 16

Sunday, February 16

William Dole, saxophone, and Christen Dole, French horn, 8:30 p.m., Music Bldg. recital hall.
Chapel Service, 11 a.m., Music Bldg. recital hall. Bishop Dean T. Stevenson, Episcopal Bishop of Central Pennsylvania, Harrisburg.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, February 17

Philip Deltra, piano recital, 8:30 p.m., Music Bldg. recital hall.
USG Senate meeting, 7:30 p.m., HUB assembly room.
OTIS meeting, 6:30 p.m., Room 203 HUB.
Men's basketball, vs. Colgate, 8 p.m., Rec Hall.

Tuesday, February 18

Gallery Talk, "Carlo Fontana and the Jesuit Sanctuary at Loyola," Dr. Helmut Hager, 10:30 a.m., Museum of Art.
ARHS meeting, 7:30 p.m., Room 203 HUB.
Senate Council meeting, 2:10 p.m., Room 101 Kern.
Women's bowling, vs. Maryland, 3:30 p.m.
Women's swimming, vs. Maryland, 4 p.m.

Wednesday, February 19

Penn State Brass Chorus, 8:30 p.m., Music Bldg. recital hall.
Men's fencing, vs. Lafayette, 3:30 p.m.
Commonplace Theatre, "What's Up, Tiger Lily?" 7 and 9 p.m., Room 112 Kern.

Thursday, February 20

Artists Series films, Paul Robeson, "Emerson Jones," 8:30 p.m., Schwab.
Women's basketball, vs. Millersville, 3 p.m.

Friday, February 21

Artists Series films, Paul Robeson, "Song of Freedom," 8:30 p.m., Schwab.
Free U. Jammy, 7:30 p.m., HUB ballroom.
Round and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.
Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, February 22

Artists Series films, Paul Robeson, "Jericho," 8:30 p.m., Schwab.
PSU Chapter Phi Delta Kappa, Ladies Night, dinner and dance, Banquet, Nitany Lion Inn, 6:30 p.m., dance, 8:30 p.m.
Men's fencing, vs. Brocklyn, 2 p.m.
Men's basketball, vs. Pittsburgh, 8 p.m., Rec Hall.

Week of Feb. 23

Sunday, February 23

Karen Bundy, soprano recital, 3:30 p.m., Music Bldg. recital hall.
Artists Series films, Paul Robeson, "Proud Valley," 8:30 p.m., Schwab.
Chapel Service, 11 a.m., Eisenhower Chapel, Rev. Charles L. Coleman, Program Director of Religious Affairs.
Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, February 24

Romond Page, violin recital, 8:30 p.m., Music Bldg. recital hall.
College of Education Student Council meeting, 7 p.m., Room 365 Willard.
OTIS meeting, 6:30 p.m., Room 203 HUB.

Tuesday, February 25

ARHS meeting, 7:30 p.m., Room 203 HUB.
College of Liberal Arts faculty meeting, 3:30 p.m., Room 121 Sparks.

Wednesday, February 26

Composers' Concert, 8:30 p.m., Music Bldg. recital hall.
Last day for signing Winter Term Emergency Loans.
Classes end.

Thursday, February 27

Final examinations.

Friday, February 28

NCAA Eastern Independent Wrestling Tournament, Rec Hall.
NJAA Swimming Championships, Natatorium.
Final examinations.

Saturday, March 1

Final examinations.
Women's rifle, vs. Kutztown, 2 p.m.
NCAA Eastern Independent Wrestling Tournament.
NJAA Swimming Championships, Natatorium.

Sunday, March 2

Residence Halls close for Winter Term, 3 p.m.

Saturday, March 8

Commencement, 10:30 a.m. Rec Hall.

Calendar

Dec. 5-15, 1974

Meetings

Wednesday, Dec. 11 — Joint meeting, Penn State American chapter, Society for Metals and American Foundrymen's Society, 7:30 p.m., Room 21 Deike. Dr. John M. Samuels, Jr., on "Low Pressure Die Casting of Ferrous Metals."

Wednesday, Dec. 11 — Central Penna. chapter, Association of Computing Machinery, 8 p.m., Room 102 Kern. David M. Smith, Exon Mathematics and Systems, on "Data Processing in the Time Period, 1980-85."

Colloquy lectures

Colloquy will sponsor a series of three lectures next week, all related to the comics and cartoons. Three speakers will discuss various aspects of the comics craze. On **Monday, Dec. 9**, at 8 p.m. in Schwab Auditorium, Stan Lee, publisher of Marvel Comics, will speak on "The Marvel of Marvel." Lee has been the creative guide of Marvel Comics, which sells more than 70 million magazines yearly, for three decades.

Thursday, Dec. 12, at 8 p.m. in the HUB ballroom, Jim Dobbins, editorial cartoonist for the Boston Herald who has received two Freedom Foundation grand prizes and 13 Freedom Foundation honor medals for his caricatures, will speak on "Caricatures and Cartooning Today."

And finally on **Friday, Dec. 13**, at 8 p.m. in University Auditorium, Vaughn Bode, cartoonist for National Lampoon, will speak on "Bode's Cartoon Concert."

Seminars

Thursday, December 5 — Microbiology, 4 p.m., Room S2 Frear. James P. Hollis on "Use of Corbin-13 NMR Spectroscopy and ¹³C-Enriched Precursors in Biosynthetic Studies."

Thursday, December 5 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Albert K. Blackadar, "A Simple Model of the Atmospheric Planetary Boundary Layer."

Thursday, Dec. 5 — Chemistry, 12:45 p.m., Room 333 Whitmore. T. Oka, National Research Council, Ottawa, on "High Resolution and High Sensitivity Spectroscopy Using Infrared Lasers."

Thursday, Dec. 5 — Computer Science, 4 p.m., Room 325 Whitmore. Dr. Robert P. Daley, University of Chicago, "On the Interference of Optical Descriptions."

Friday, Dec. 6 — Joint seminar, Acoustical Society of America and Engineering Acoustics, 4 p.m., Room 173 Willard. Herbert Uberall, physics, Catholic University of America, Washington, D.C., on "Surface Waves in Solids."

Monday, Dec. 9 — Genetics, 3:55 p.m., Room 111 Life Science. Horst Waisenger, Institute for Forest Planning, West Germany, on "Poplar Breeding and Silviculture in Central Europe."

Tuesday, Dec. 10 — Sensitivity Modeling, 1:15 p.m., Room 351 Moore. Dr. Merrill Noble, on "Experiments on Serial vs. Parallel Processing of Information."

Tuesday, Dec. 10 — Chemical Engineering, 3:45 p.m., Room 105 Fenske. Roger B. E. Franks, E. I. duPont de Nemours & Co., on "Practical Application of Dynamic Computer Simulations."

Tuesday, Dec. 10 — Operations Research, 3:45 p.m., Room S-131 Human Development. Dr. Peter J. Buehler, "Attitudes Toward Risk and the Theory of Expected Utility Maximization."

Wednesday, Dec. 11 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Eugene W. White, on "Quantitative SEM Characterization of Particles, Microstructures, and Fracture Surfaces."

Thursday, Dec. 12 — Physics, 3:45 p.m., Room 17 Osmond. Barry Voight, geology, on "Large Scale Disruptive Phenomena in the Rocky Mountains."

Thursday, Dec. 12 — Statistics, 4 p.m., Room 69 Willard. Joseph W. McKean, on "Tests of Hypotheses in the General Linear Model Based on Ranks."

Thursday, Dec. 12 — Acoustics, 4 p.m., Room 67 Willard. Dr. J. Robert Ashley, electrical engineering, University of Colorado, Colorado Springs, on "Signal Flow Graphs and State Variable Analysis of Electroacoustic Transducers."

Thursday, Dec. 12 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Michael Hantel, University of Bonn, on "A Stream Function Representation of Zonally Averaged Atmospheric Transports."

Thursday, Dec. 12 — Chemistry, 12:45 p.m., Room 333 Whitmore. R. K. Skogerboe, Colorado State University, on "Atomic and Molecular Excitation with Microwave Induced Plasmas."

Arts in Series

On the **Arts in Series Saturday, Dec. 7**, at 3 and 8:30 p.m., the four lead actors above — Edward Mulhern, Ricardo Montalban, Myrna Loy, and Kurt Kasznar — will do G. S. Shaw's "Don Juan in Hell." Tickets for the afternoon performance are currently on sale at the HUB desk and at the University Auditorium where the performance will be given.

Mentzer named

Dr. John R. Mentzer, professor of engineering science, has been named head of the Department of Engineering Science and Mechanics. He has served as acting head of the department since it was created in July, combining the engineering science program and the Department of Engineering Mechanics. Previously he had served as head of the engineering science program. A member of the University faculty since 1954, he received the bachelor of science and master of science degrees in electrical engineering from Penn State and the doctor of philosophy degree in physics from Ohio State University.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-5387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, DECEMBER 12, 1974
LEAD PROGRAMMER, MEDICAL COMPUTER CENTER — Hersey Medical Center

Responsible for the development and control of the hardware programming and project leader within the specifications of the project schedule. Participate in project organization and scheduling. Perform the duties of programmer as required. Bachelor's degree or equivalent and four to eight years of effective experience in programming is required. A demonstrated ability to provide leadership to programmers or to work independently is also required.

SUPERVISOR, FIRMS DEVELOPMENT CONTROL, CENTRAL SERVICES — Hersey Medical Center
Responsible for the development and control of a firm's system for the institution and for developing and maintaining economics in term usage. An associate degree in the field of systems analysis or its equivalent. Should have two to three years experience of firms development, control, systems and inventory.

COORDINATOR, COMPUTER CENTER — Capital Campus

Responsible for the effective and efficient operation of the Computer Center. Recruit, train and supervise the Computer Center employees. Assist faculty in the development and control of computer programs. Coordinate campus computer work with University Park locations. Reports to Oregator, Computer Services. Bachelor's degree in Computer Science or equivalent to four years of college level training with organized training IBM computer systems, plus over two years and up to and including four years of effective experience.

ADMISSIONS AND FINANCIAL AID COUNSELOR — Capital Campus

Inform and advise present and potential undergraduate and graduate students on types of financial aid available and procedures for obtaining same. Coordinate Work-Study and On Campus Employment Program. Process various State and Federal student aid forms. Reply to correspondence and telephone inquiries and interview applicants for admission. Bachelor's degree or equivalent with four to six years current experience.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

HUB specials

Monday, Dec. 9 — Lunch, hot roast meat sandwich, \$1.07; dinner, beef stew, \$1.25.

Tuesday, Dec. 10 — Lunch, scalloped ham and cabbage, \$.89; dinner, roast turkey with dressing, \$1.66.

Wednesday, Dec. 11 — Lunch, soup and double beefburger with cheese, \$1.29; dinner (International Candlelight), stuffed Italian shells, \$1.27.

Thursday, Dec. 12 — Lunch, meatball sandwich, \$1.00; dinner, Maryland chicken cake, \$1.29.

Friday, Dec. 13 — Lunch, soup and fishhead, \$1.05; dinner, baked chicken, \$1.29.

Saturday, Dec. 14 — Lunch, chili con carne, \$1.64; dinner, meatloaf with potato bake, \$.80.

Sunday, Dec. 15 — Lunch, spaghetti with dressing, \$1.71; supper, Swedish meatballs, \$1.12.

ETS test changes

New procedures for the administration of the Graduate School Foreign Language Tests (GSFLT) have become necessary to accommodate changes in test administration initiated by Educational Testing Services, Princeton, New Jersey.

It should be noted that application dates and test dates, set by Educational Testing Services, differ from those published in the 1974-75 Graduate School Bulletin.

For the test date February 1, 1975, the application closing date is December 19, 1974; for the April 12, 1975 test date, March 7, 1975, is the closing date; and for the June 28 test date, May 23 is the closing date.

Applications for tests may be obtained at the Office of Examination Services, 207 Michell Bldg., University Park. The test fee is \$12.00, payable at the time of application. Times and places of tests will be announced when the test application is filed.

Christmas mail

During the time that offices are closed (at University Park Campus) for the Christmas period, 5 p.m. Friday Dec. 20 to 8 a.m. Friday Dec. 27, Interdepartmental mail service and U.S. mail service will be suspended.

However, if a department has a special need for delivery of incoming U.S. mail on Dec. 23, 24 and 25, please call University Mail Service, 665-5602, before 5 p.m. Dec. 13, so that arrangements can be made with U.S. Postal Service for delivery.

A department requesting this service is responsible: (1) for assigning an employee to be at work in the building at a specified time to receive the mail; and (2) for receiving all incoming mail for the building in which the department is housed. This is required because U.S. Postal Service sorts incoming mail by building, not by department.

Data processing at ACM meeting

David M. Smith, of Exon Mathematics and Systems, will speak on "Data Processing in the time period 1980-1985" at the second meeting of the Central Pennsylvania Chapter of the Association of Computing Machinery on Wednesday, December 11, at 8:00 p.m. in Zoller Gym.

Smith is a consultant in the Computer Sciences and Training (CST) Function of Exon Corporation's Mathematics, Computing and Systems Department, where he is responsible for the technological forecasts in computing and long range planning. Other duties include evaluation and selection of hardware. He is best known for his work in the design and/or implementation of major linear programming systems for the IBM 705, 7090/44, System 360, the GE 600 series, and the CDC 6600 series computers while working with small independent quality of service firms. Mr. Smith is a past president of SHARE Inc., and was the initial chairman of the SPARC Study Group on Data Base Systems for the American National Standards Institute (ANSI).

SENATE—

(Continued from page one)
necessary for the test batteries and essential for determining changes in the preparation testing and counseling program. Such programmatic research is also needed to enable OUS to carry out its evaluative mission and to assess fully the quality of existing programs. OUS at present does not have adequate support in this area. The Subcommittee is aware that the Academic Affairs Committee has discussed academic research support organization and urged the Academic Affairs Committee to proceed with this matter as quickly as possible.

Other items which the Subcommittee has not yet discussed but which are included on its agenda are:

5) The establishment of Academic Information Centers in each of the Colleges at University Park should be achieved as quickly as possible. The appointment of Undergraduate Studies Consultants in most of the Colleges has been initiated. At the Commonwealth Campuses, however, the progress in establishing such centers has not been altogether encouraging and OUS representation through sufficient number of advisors at more than one campus has been inadequate. Without sufficient staff, Centers cannot be established and cannot function.

NEWS—

(Continued from page one)

service sorrowfully have held sales in front of the People's National Bank downtown before each home football game, with a final sale just before Christmas, to raise money for local charitable groups. Virtually all of the members are members of the University staff or faculty (although this is not a requirement for membership) and they do all the work of preparing cookies, sandwiches (their hoagies are famous) coffee and other drinks, etc. Easter Seals and Meals on Wheels benefited from last year's sales. They will be on hand Dec. 14 from 10 a.m. to 2 p.m.

Honored

The College of Agriculture and the Coopers Extension Service, through Letard H. Bull (past assistant director of Extension, honored Robert W. Boyer, right, managing editor of the *Altoona Mirror*, presenting him with a certificate of appreciation for his outstanding service and contributions to the programs and objectives of the College.

ALARD CONCERT

The Alard String Quartet's concert Wednesday, Dec. 11, will include Mozart's "Quartet in D Minor," the "Voices Inland" by Sibelius, and a 1954 sextet by Jon Orrego-Salas, to be performed with John Toulson, clarinet, and Philip Dettra, piano. The concert is at 8:30 p.m. in the Mads Bldg. recital hall.

PIANO RECITAL

Steven Smith, assistant professor of music, will feature works by Schumann, Mozart, Chopin and Barber in his recital Monday, Dec. 9, at 8:30 p.m. in the Mads Bldg. recital hall.

PENN STATE SINGERS

The Penn State Singers will present their annual Christmas program Saturday, Dec. 14, in Schwab Auditorium at 8:30 p.m., but a special open dress rehearsal has also been scheduled, for Friday, Dec. 13, at 7 p.m. in the auditorium. Bach's "Magnificat" will be performed with four guest soloists and a chamber orchestra composed of members of Musica da Camera and music faculty and students. Christmas carols will also be sung.

ART SHOW AND SALE

The annual Student Art Show and Sale is planned by students in the art department for Dec. 9 through 14 in Zoller Gallery in the Visual Arts Bldg. Graduate and undergraduate students from the departments' print-making, photography, sculpture, painting, ceramics, and graphic design areas are expected to exhibit works and offer them for purchase.

6) The responsibility of OUS in advising student requires clarification: For which adjusted students does OUS have responsibility? What academic standards apply? Should a pre-enrollment testing and counseling program be developed for adjusted students to provide a data-base upon which to evaluate abilities, aptitudes and interests? What policies should OUS follow in regard to the admission of adjusted students to degree programs? These and related questions are ones which the Subcommittee must raise in trying to clarify the role of OUS in advising students.

7) The Subcommittee has endorsed the concept of periodic evaluation of undergraduate academic advising. OUS was given this specific responsibility at the time the Division was established but carrying out such a function requires additional resources.

The Subcommittee is convinced that OUS is serving the needs of growing numbers of students. The enrollment of nearly 1,500 students in OUS is a time of decision on a particular major. We believe OUS can perform its services better than most its objectives completely as the above items receive attention and appropriate action.

W. L. Kopp
Chairman

PENN STATE intercom

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in brief

GYM MEET TICKETS

Tickets for the gymnastics meet January 24 and 25 between a selected U.S. team and a West German team will go on sale Sunday, Dec. 15, at noon in Room 237 Rec Hall. Reserved seat tickets are \$8, which covers both evenings of competition.

SINGERS CONCERT

Christmas "Magnificat" to carols, will be sung by the Penn State Singers Saturday, Dec. 14 in Schwab Auditorium, at 8:30 p.m. An open dress rehearsal will be held Friday at 7 p.m. at the same location. The 48-voice group is directed by Raymond Brown, associate professor of music, who is director of the University Choirs, which has also planned a series of carol concerts in the residence halls Dec. 16, 17 and 18, appearing in five areas in the three evenings. Also, a service of scriptural lessons and carols will be conducted by the All-Faith Choir Sunday, Dec. 15, in the Music Bldg. recital hall. No tickets are required for any of these programs and services which are open to everyone.

GLEE CLUB, BRASS CHORALE

An afternoon of family Christmas music will be played and sung Sunday, Dec. 15, in the Music Bldg. recital hall, with the Penn State Glee Club, directed by Bruce Trinkley, and the Brass Chorale, directed by James Benshoof, providing the music. Traditional carols, two Christmas works by Charles Ives, and two Christmas suites arranged by Trinkley will be featured.

GAMES CLASSES

The College of Health, Physical Education and Recreation will once again offer games and gymnastics classes for children of staff, faculty and other State College area residents during the Winter Term.

Beginning Thursday, Jan. 9, the classes will be given each Thursday from 4 to 5 p.m. in the White Building. Children in kindergarten through fourth grade are invited.

Registration for the class will be held on the first day of class in White Bldg.

GIFT IDEA

You may find a gift suggestion in the Art Student Shop and Sale, Dec. 12-14, and Art Faculty Shop and Sale, Dec. 17-20, in the Zoller Gallery. At moderate prices, ceramics, photography, sculpture, painting, printmaking, and graphic designs will be on sale between 8 a.m. and 5 p.m. (except Saturday, Dec. 14, 8 a.m. to noon.)

NITTANY LION INN

Food service at the Nittany Lion Inn will be closed in the Christmas recess period from Sunday, Dec. 22, to Wednesday, Jan. 1.

FRENCH FILM SERIES

The first in a series of French films will be shown Monday, Dec. 16, at 7 and 9 p.m. in Room 102 Forum. It is the highly acclaimed film "Jules and Jim." The films are sponsored by the French Department. A donation of 75 cents will be accepted.

ALTOONA EXHIBIT

Two members of the art department at the Altoona Campus, associate professor Ken Kuhn and assistant professor Roger Zellner, are currently exhibiting their work in the Campus's Iydsie Gallery. The display of wall relief and ceramics will continue until Dec. 31. The Blair County Arts Foundation, the Office of Student Affairs, and the Department of Art are co-operating in the exhibit.

MEM CHAMBER SHOW

The multi-media presentation of the documentary "On the Road to Dismal Ferry," which was given in the MEM Chamber in the HUB recently, will return for a second run Wednesday and Thursday, Dec. 18-19. The show will be given hourly from 10 a.m. to 10 p.m. in the HUB ballroom, to accommodate many who were unable to see the show previously.

ENGINEERING SCHOLARSHIPS

Scholarships and grants-in-aid from the Foundry Educational Foundation have been given to sixteen engineering students; the awards were made at a banquet honoring the students recently. The Foundation, composed of representatives from industry and college faculties, promotes the interests of the foundry industry through special programs at colleges throughout the country.

COLLEGE VISITATION

The Beaver County Council of Higher Learning, which includes Penn State's Beaver Campus in its membership, initiates a "College Visitation Days" program today (Dec. 12). High school seniors from Ambridge, New Brighton and Hopewell, in Western Pennsylvania, will visit either the Beaver Campus, the Community College of Beaver County, or Geneva College to observe and participate in an actual classroom session or a seminar with faculty and administrators, then take part in evaluative sessions and question-answer periods.

WHY NUCLEAR POWER?

John Gordon, of the Westinghouse Water Reactor Division, will speak on "Electrical

Energy Alternatives — "Why Nuclear Power?" at the December meeting of the Central Pennsylvania Section of the Institute of Electrical and Electronic Engineers on Monday, December 16, at 7:30 p.m. in 115 Electrical Engineering-West Building.

He will speak to the question — Do we really need additional electrical generating facilities? And, if yes, what are the alternatives facing our electric utilities? Gas, oil, coal, nuclear fission, solar, hydro-electric and geothermal power sources will be discussed, with emphasis placed on solar and offshore nuclear electric generating plants.

NEW KENSINGTON EXHIBIT

A display of woodcuts by Japanese-born artist Naoko Matsubara will continue at New Kensington Campus through December. Her prints are in many private and public collections, including the Carnegie Institute, Philadelphia Museum of Art, The White House, the Boston Museum of Art and the United Nations. She has had many one-woman shows in this country, Canada, Europe, and Japan.

YORK AWARD

For the second time in as many years, the York Campus has been cited for outstanding service in promoting equal opportunity in employment of the handicapped.

The York County Committee for Employment of the Handicapped, in cooperation with the Industrial Management Club of York County, has recognized the campus's support with a special citation signed by presidents of both organizations.

Commenting on the citation, which recognizes employees hired through the physical plant, York Campus business manager Voni B. Grimes said, "These citations further illustrate the York Campus's continued efforts to provide employment opportunities for handicapped persons and those from minority groups."

LEGION GIVES ASSISTANCE

A professional service officer of the American Legion is on campus (University Park) today to give assistance to veterans, widows and dependents of veterans, and to provide information about benefits, government insurance, Pennsylvania bonus, and other matters. The Legion provides the service without charge, and no appointments are needed. The service officer will be in the HUB from 10 a.m. to 4 p.m.

SLIDE SHOW

A selection of slides from some 7,000 taken by students in the Foreign Studies Program in Architecture during the Spring

(Continued on page four)

High energy costs worry University

Faced with sharply rising fuel and energy costs, President John W. Oswald this week asked the cooperation of all University personnel in conserving fuel and electricity, in a letter which reads:

"Approximately one year ago I wrote you outlining a series of steps to be taken to conserve fuel during a period of extreme fuel shortages. Those steps included: (1) lowering the maximum daytime temperature in University buildings to 68°F with even lower nighttime and weekend settings where possible, (2) setting temperatures in infrequently used buildings at 50-55°, (3) refraining from opening of windows to relieve overheating during the winter, (4) avoiding the use of portable heaters, and (5) setting a maximum speed of 50 m.p.m. in the use of University-owned motor vehicles.

"Through your cooperation, the University was able to effect a savings in fuel costs estimated to be between \$300,000 and \$400,000.

"We are now faced with the need to conserve energy for an entirely different reason; that of fiercely rising fuel and energy costs. During the past 18 months the price of coal has risen from the \$8.00-\$10.00 per ton range to about \$35.00 per ton (we burn approximately 50,000 tons per year); number 2 heating oil has increased 20 cents per gallon (we burn a million gallons per year); natural gas has risen 13 cents per thousand cubic feet (we burn 400,000 MCF per year); and electricity has risen from less than one cent to 2.14 cents per kilowatt-hour (we consumed over 120,000 kilowatt hours last year).

"The result of all this is an anticipated increase in fuel and electricity costs of over three million dollars in 1974-75. This is based on present costs and does not reflect the higher costs of coal and electricity which will result from the recent coal miners' contract settlement.

"It is obvious we must all work together to reduce further the consumption of fuel and electricity.

"During the past year, the majority of suggestions regarding ways to conserve energy were originated by the Office of Physical Plant Energy Conservation Committee (OPPECC). They were responsible

(Continued on page four)

CHRISTMAS CARDS

A few University Christmas cards remain for sale at 18 cents each, with envelope, and may be obtained from the Department of Publications, Room 215 Wagner Bldg. They may be ordered, in small or reasonably large quantities, by telephone (865-1327) or by mail, and they may be purchased through petty cash or I.D.T.

CHRISTMAS MAIL

Departments are reminded that the deadline for making arrangements to obtain mail deliveries during the Christmas period (specifically Dec. 21-Dec. 26) is tomorrow (Friday, Dec. 13) at 5 p.m. Referring to INTERCOM, Dec. 5 issue, it is noted that both U.S. Mail and Campus mail deliveries will be eliminated in that period unless special arrangements are made.

SCHEDULE

INTERCOM will be issued December 19, then suspend operations until the Jan. 9 issue. It is suggested that information concerning events in the first week of classes in January be included in the Dec. 19 issue; the information should be sent to the Editor, 312 Old Main, immediately.

Libraries begin management review program

The University Libraries have embarked on a searching management review and analysis program to increase their effectiveness in meeting faculty and student teaching and research needs.

The year-long study, which will involve a broad cross-section of staff, will also help the Libraries to make maximum use of available resources, according to Stuart Potts, dean of the Libraries.

An eight-member team has been appointed to lead the self-study of management policies and practices. Its chairman is Dr. Edward R. Johnson, assistant dean of Libraries for technical operations.

Other members are: Barbara Burke, monograph acquisitions assistant; Dr. Ronald L. Filippelli, historical collections and library architect; William E. Hepler, serials order librarian; Emilio T. McWilliams, earth and mineral sciences librarian; Marjorie F. Quigley, Altoona Campus librarian; Dr. Robert M. Smith, assistant provost; and Cordelia W. Swinton, lending services librarian.

The study is being made under the supervision of the Association of Research Libraries' Office of University Library Management Studies, which developed the management review program. Thus far, 14

academic libraries have completed the program. Penn State's self-study is being undertaken in connection with six other university libraries, including Utah, Indiana, Massachusetts, Toronto, Kentucky and the University of California at Los Angeles.

Training and orientation sessions for task forces from these institutions are provided bi-monthly by the Office of University Library Management Studies.

"Since most university libraries have essentially the same problems, we can gain a lot by talking together and comparing solutions," Dr. Johnson points out.

(Continued on page four)

Dr. Wilbur W. Ward (center above) was one of many to receive the 25-Year Service Award from College of Agriculture Dean, Dr. James M. Beattie. Dr. Ward, director of the School of Forest Resources and professor, received both bachelor's and master's degrees at Penn State (end doctor of forestry from Yale), and he joined the staff as instructor in 1948. He became a full professor in 1955, having in the meantime served as resident director of Mont Alto branch (1953 to 1959). His teaching has been primarily in the area of dendrology and melioration; his research has focused on forest management. He has been Penn State's representative to the Forestry Consortium of Universities at the Pinchot Institute. Dr. Weller I. Thomas, associate dean of the College, is at left.

Dr. John S. Boyle (second from left above) is professor of plant pathology who for many years was the only plant virologist in Pennsylvania and, as Dean Beattie (right) pointed out at the Awards ceremonies, has developed an uncanny ability to view a virus disease symptom once and recall it many years later when exposed to it. Many vegetable crop growers have come to depend on him to solve their virus problems. Dr. Boyle pioneered in work in mechanical transmission of viruses from woody to herbaceous hosts and has contributed greatly to the knowledge of a variety of virus problems in fruits and vegetables. With him in photo is his wife, Nellie, and (at left) Dr. J. R. Bloom, assistant head of the department of plant pathology.

James M. Eskin, Jr., (second from right, next to Dean Beattie), is professor and chairman of agronomy extension who came to Penn State in July, 1949, as assistant professor to develop and establish a soil testing laboratory. He also established a soil test pilot farm, now a unit demonstration term program which involves more than 100 farms in 14 counties and is carried out in cooperation with the Tennessee Valley Authority. He has devoted much of his efforts in the past years to the lime and fertilizer programs, in cooperation with industry. He was honored by the American Society of Agronomy in 1970 by being named Fellow. With him are his wife Peggy and (at left) Dr. Thomas B. King, associate dean for Extension in the College of Agriculture.

Louise W. Hamilton, professor of foods and nutrition extension, has been an extension specialist for more than two decades, and through leaflets, circulars, 4-H projects, correspondence courses, and talks, she has been a leader in the State in nutrition work. She has been responsible for a major nutrition program, the Expanded Nutrition Education Program, since 1969, reaching more than 46,000 families and youth in 1973. She has been a leader in the American and Pennsylvania Dietetic Associations, and locally she has been a leader as well in the Meals-on-Wheels program and Centre Area Health Council, and other programs. With her are Dr. King (left) and Dean Beattie.

Edith J. Resler, center, flanked by Dean Beattie and Catherine E. Holt, assistant director of Agriculture Extension, is Extension home economist and since 1950 has assisted the adults and youths of Potter County in a variety of ways. She began her University service as assistant home economist in Somerset County, transferring a year later. She initiated the Expanded Nutrition Program in Potter County and in recent years has worked closely with the local salable craft group. She has had preschool radio programs for young children and aided senior citizen groups. She is a graduate of Wheeling College. In 1946 she received a distinguished service award from the national Extension Association.

Service Awards in Agriculture

Robert F. Fletcher, professor of vegetable crops extension, with his wife Madelyn, and (at left) Dr. R. H. Hepler, head of the horticulture department, earned both B.S. and M.S. degrees from Penn State. He has been honored often for his work in vegetable crops, including receiving the Carl S. Bittner Award of the American Society of Horticulture Science in 1971. He has been instrumental in the development of cultural systems for the mechanization of vegetable crops.

Francis C. Turner, with the Service Award plaque, began his University career in 1949 as assistant county agent in Tioga County, developing 4-H programs, working on an animal health education and lamb marketing program and assisting in community development programs. He became Area Community Resource Development Agent in 1958. He is a Penn State graduate, receiving a Master's degree from the University of Arizona. With him are Dean Beattie (right), Dr. King (left) and Dr. John W. Bergstrom, assistant director.

Dr. George P. Barron, Jr., seated, is director of the Pesticides Research Laboratory and of the Graduate Study Center. Standing above, are his wife and Dr. Richard G. Cunningham, vice president for research and graduate study. Dr. Barron joined the faculty as instructor in October, 1948, attaining full professor status in 1964. He was head of Foods and Nutrition department from 1963 to 1968. He has conducted research in protein, energy and mineral metabolism.

Dr. Kenneth R. Bennett, shown with his wife Evelyn, Dean Beattie (right) and Dr. William M. Smith, professor of rural sociology, came to Penn State in November, 1949, as Experiment Station horticulturist. He is now professor of agricultural economics and has taught courses in both statistics and agricultural pricing, and has been advisor to many graduate students. With him are Dean Beattie (right), Dr. King (left) and Dr. John W. Bergstrom, assistant director.

Dr. Grant W. Sherritt, associate professor of animal science, is congratulated by Dean Beattie, with animal science department head Dr. B. R. Baumgardner in ceremony. Dr. Sherritt came to Penn State in 1949 to work on a swine project, continuing his graduate studies here and receiving a Ph.D. in 1961, when he was named assistant professor. Since then his swine research has emphasized breeding and management and he has been a teacher and advisor.

Leland H. Bull, assistant extension director, Southern Allegheny Region, (seated) was deputy secretary of agriculture, 1955-58, during the Leader administration, served in Extension 1958-63, was secretary of Agriculture under Gov. Scranton and Gov. Shiflet, returning to the campus in 1971 as special assistant to the dean of Agriculture. He joined the Extension Service originally in 1937, just after graduation, serving as assistant county agent and then from 1948 to 1955 as Centre County agent. With him at the ceremony for his service award were his wife Helmut and Dr. King.

Clarence E. Craver, McKean County Agent, with his wife Pauline (left) and Catherine Holt, assistant director of Extension, began his service in Lancaster County as assistant agent, transferring to Blair County in 1954, and to McKean County in 1956, as agent. He has won a number of awards for his work in mass media, with radio and television programs and weekly newspaper columns. He has been particularly interested in the swine mastitis problem in his county and in lime-fertilizer programs.

Dr. E. Brewer Hale, seated, professor of animal behavior, came to the campus as assistant professor of animal behavior in the department of poultry science, in 1949. He has since become a full professor, has served as assistant to the vice president for research for five years, and as assistant dean of the Graduate School for three years. His research has dealt with the sociobiology of domestic animals and he has taught many courses, ranging from comparative psychology to animal behavior. With him in the photo are his wife Vinette, and Dr. Kenneth Goodwin.

University Park Calendar

December 12-22, 1974

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

SPECIAL EVENTS

Thursday, Dec. 12 — VSC, 7 p.m., Reading Room, HUB. Lecture, recruiting for Laureate State School and Hospital.

Thursday, Dec. 12 — International Festival, Christmas workshop, 12 noon, lobby Kern.

Thursday, Dec. 12 — Colloquy, "On Com-ick," 8 p.m., HUB ballroom. Jim Dobbins, Boston Herald, on "Caricatures and Cartooning Today."

Thursday-Friday, Dec. 12-13 — "Europe 74, A Slide Odyssey, 8 p.m., HUB main lounge; 50-minute color-slide show of European culture, produced by students in Foreign Studies Program in architecture.

Friday, Dec. 13 — Colloquy lecture, 8 p.m., University Auditorium. Vaughn Bode, Na-

tional Lampoon, on "Bode's Cartoon Concert."

Friday, Dec. 13 — Commonsplace International Coffeehouse, 8 p.m., Room 102 Kern.

Friday, Dec. 13 — International Festival, International talent, 12 noon, lobby Kern.

Friday, Dec. 13 — Penn State Singers Christmas Concert, dress rehearsal, 7 p.m., Schwab.

Saturday, Dec. 14 — Penn State Singers Christmas Concert, 8:30 p.m., Schwab. Program: Bach's "Magnificat," carols, with guest vocal soloists and instrumentalists.

Saturday, Dec. 14 — Sports: Wrestling, vs. Indiana State, 8 p.m., Rec Hall. Men's swimming, vs. Lehigh, 2 p.m., Natatorium.

Saturday-Sunday, Dec. 14-15 — Madrigal Dinner, 6:30 p.m., Room 102 Kern.

Sunday, Dec. 15 — Penn State Glee Club and Brass Chorus Christmas Concert, 3 p.m., Music Bldg. recital hall. Traditional Christmas carols, works by Charles Ives, and two suites arranged by Bruce Trinkle.

Sunday, Dec. 15 — Chapel Service, 11 a.m., Music Bldg. recital hall. University Choir's Christmas music, Tommie Irwin, director.

Sunday, Dec. 15 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Dec. 16 — Shirley Foster Donovan, soprano recital, accompanied by Marcus Chubbuck, a program of works by Faure, Strauss, Duparc, Puccini and others.

Tuesday, Dec. 17 — Artists Series film, Ingmar Bergman, "The Seventh Seal," 8:30 p.m., University Auditorium.

Tuesday, Dec. 17 — College of Business Administration Christmas party, 7:30 p.m., HUB lounge.

Wednesday, Dec. 18 — Claremont Woodwind Quintet and Alard String Octet, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Dec. 18 — Special Advent devotional service, 12 noon to 12:30 p.m., Eisenhower Chapel. The Christmas story according to Luke.

Friday, Dec. 20 — Round and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.

Friday, Dec. 20 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

SEMINARS

Thursday, Dec. 12 — Population Issues Research, 12 noon (bag lunch), Room 265 Willard. Richard A. Helman, U.S. Senate Committee on Public Works, on "National Growth, Environmental Quality, and Governmental Policy."

Thursday, Dec. 12 — Agronomy, 3:45 p.m., Room 111 Tyson. Donald Henninger, on "Delineation of Floodplains using Aircraft Multispectral Scanner Data."

Thursday, Dec. 12 — Physics, 3:45 p.m., Room 117 Osmond. Barry Voigt, geology, on "Large Scale Disordering Phenomena in the Rocky Mountains."

Thursday, Dec. 12 — Statistics, 4 p.m., Room 69 Willard. Joseph W. McKean, on "Tests of Hypotheses in the General Linear Model Based on Ranks."

Thursday, Dec. 12 — Engineering Acoustics, 4 p.m., Room 67 Willard. Dr. J. Robert Ashley, electrical engineering, University of Colorado, Colorado Springs, on "Signal Flow Graphs and State Variable Analysis of Electroacoustic Transducers."

Thursday, Dec. 12 — Philosophy, 4 p.m., Room 167 Willard. Alfonso Gomez-Lobe, University of Puerto Rico, on "Plato's Description of Dialectic in the 'Sophist,' 233a."

Thursday, Dec. 12 — Chemistry, 12:45 p.m., Room 333 Whitmore. R. K. Skogerboe, Colorado State University, on "Atomic and Molecular Excitation with Microwave Induced Plasmas."

Thursday, Dec. 12 — Anthropology, 3:30 p.m., Room 113 Social Science Bldg. Jeffrey A. Kurland, Harvard University, on "Aspects of Kinship and Kin Selection in Primates."

Thursday, Dec. 12 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Michael Hantel, University of Bonn, on "A Stream Function Representation of Zonally Averaged Atmospheric Transports."

Tuesday, Dec. 17 — Water Pollution Control, 2:20 p.m., Room 124 Sackett. A. Silvio Odasso, Allegheny Ludlum Steel Co., on "Dual Medium Water Filters."

Tuesday, Dec. 17 — Psychology, 1:15 p.m., Room 351 Moore. Dr. Don Trumbo, on "Amphetamines, Barbiturates, and Human Performance."

Wednesday, Dec. 18 — Ceramic Science, 11 a.m., Room 541 Deike. P. K. Gupta, Catholic University, on "Spinoal Decomposition in Glasses."

Wednesday, Dec. 18 — Ecology, 3:55 p.m., Room 101 Electrical Engineering East. Dr. Robert C. Anthony, forestry, on "Ecological Relationships between Mule Deer and White-tail Deer in the Desert Southwest."

Thursday, Dec. 19 — Agronomy, 3:45 p.m., Room 301 Agricultural Administration, William Stout, on "The Role of Magnesium in Human, Animal Nutrition."

Thursday, Dec. 19 — Statistics, 4 p.m., Room 69 Willard. Dr. Shelby J. Haberman, University of Chicago, on "Product Models for Frequency Tables Involving Indirect Observation."

Thursday, Dec. 19 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. T. L. Sourkes, McGill University, on "Dopamine and Parkinson's Disease."

Thursday, Dec. 19 — Physics, 3:35 p.m., Room 117 Osmond. Thomas H. Edwards, Michigan State University, on "Acquiring and Processing Spectra by an On-Line Computer."

MEETINGS

Monday, Dec. 16 — Central Pennsylvania Section I.E.E.E., 7:30 p.m., Room 115 Electrical Engineering West. John Gordon, Westinghouse Water Reactor Division, on "Electrical Energy Alternatives — Why Nuclear Power?"

Monday, Dec. 16 — UGS Senate, 7:30 p.m., HUB assembly room.

Monday, Dec. 16 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, Dec. 16 — Gamma Pi Epsilon, Women's Pre-Medical Society, 6 p.m., McElwain Hall piano lounge. Steven Wright on "Medical School Admissions and Interviews."

Tuesday, Dec. 17 — ARHS, 7:30 p.m., Room 203 HUB.

Tuesday, Dec. 17 — Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, Dec. 17 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

David DonTigny, associate professor of art, is one of those preparing for the Art Faculty Show and Sale, Dec. 17-22, at Zeller Gallery. The student show and sale begins today, continues through Sunday.

EXHIBITS

Museum of Art — Living American Artists and the Figure, Galleries A and C. Selections from the Permanent Collection, Gallery B.

Zoller Gallery — Annual art student show and sale, December 12-14. Art faculty show and sale, December 17-20.

Playhouse Gallery — "Scenic Design Reflections," 53 scenic and costume designs by Robert Burroughs and Dennis Sporre, December 9-20.

Chambers Gallery — David DonTigny, ceramics, and George Zorelich, paintings, through December 20.

Hammond Gallery — Second-year architectural students, "Special Constructs," continuing until Dec. 20.

E.J. Anderson dies

Edwin J. Anderson, who retired from the faculty in 1965 as professor emeritus of apiculture, died at his home Tuesday, Dec. 3. He was 74. His teaching career began when he was a freshman at Penn State, when he was engaged to teach World War I veterans. It was the first course in beekeeping to be taught at the University.

He received his bachelor of science degree in 1924 from the University and his master's degree in apiculture from Cornell University the following year. He taught entomology at Clemson College before returning to Penn State in 1926 as an extension specialist worker in beekeeping and entomology.

In 1943 Professor Anderson gave up extension work to become assistant professor of apiculture; he was named a full professor in 1950.

Hershey dedicates Gittlen cancer lab

The Jake Gittlen Cancer Research Lab at The Milton S. Hershey Medical Center was dedicated Nov. 24.

A plaque at the entrance to the laboratory was unveiled by members of the Gittlen family, including Mr. Gittlen's widow, Pauline; his son, Warren; daughter-in-law, and granddaughters, Sharon and Nancy, all of Harrisburg. (Warren was captain of the 1955 Penn State golf team.)

Dr. Harry Prytosky, provost and dean at Hershey, who presided, said, "This is a very meaningful event for several very important reasons. One, of course, is that the funds from the Jake Gittlen Memorial

In Writing

Dr. William A. Steele, professor of chemistry, is the author of "The Interaction of Gases with Solid Surfaces," published by Pergamon Press. It is part of the one hundred volume International Encyclopedia on Physical Chemistry and Chemical Physics.

The third volume in the series on the topic, properties of interfaces, the book contains discussions of the major theories of surface interaction and the properties of the resulting adsorbed films.

In the introduction, Dr. Steele points to "a resurgence of interest in various aspects of surfaces and thin films" due, in part, to increased application of gas-sold theory. Among the areas in which these theories are important are miniaturization, high vacuum techniques, space travel, corrosion studies, and catalysis.

Golf Tournament are contributed to this laboratory and will support significant research into the causes and treatment of cancer. Two, the existence of this laboratory represents a unique tribute to the man whose name it bears for his son has been fit to remember his father in this way, a gesture which speaks well of Jake Gittlen as a father.

"It is a further tribute that his friends at the Blue Ridge Country Club chose to name their tournament in his memory, are willing to spend considerable time and effort to hold the tournament; and, contribute and

Women in the media is topic

Delaware instructor co-author of book

An instructor of journalism at Delaware County Campus is one of 65 contributors to a book entitled "Rooms With No View: A Woman's Guide to the Man's World of the Media," published recently by Harper and Row.

Lynn Martin Haskin is the author of an article entitled "A Media (Pa.) Look at Newspaperwomen," a study of 167 women who work on news and editorial staffs of Pennsylvania's 111 daily newspapers. The article was based on a research study she conducted for a graduate course at Temple University, where she is a doctoral candidate.

The article reports on the discontent and frustration felt by a majority of the women reporters who feel they are paid less than their male counterparts for equal work, have less chance for advancement, and are discriminated against in terms of the kinds of assignments they draw from male editors.

As an example, only two women in Haskin's survey reported that they would refuse to cover "bloody accidents" or "dangerous assignments," while 19 of the male editors indicated they would not assign such stories to a woman reporter.

Haskin's article appears in the "Wide Angle Views" section of the 333-page book. Most of the other pieces were written by women — many anonymous — detailing their experiences as employees in television networks, magazine publishing, newspapers, wire services, and book publishing houses.

The manuscript for the book, originally

scheduled to be published in 1972 by another New York City-based publishing firm, had some problems reaching the printed page, Haskin said. It seems that the publisher's representative assigned to the manuscript — a woman — did not share the decidedly feminist point of view of the contributors, and after many difficulties and differences of opinion, the contract between the Media Women's Association, the compilers of the book, and the publisher was mutually cancelled, she said.

One of the members of the association, who works at Harper and Row, showed the manuscript to editors there and they agreed to publish the book. The articles were updated to include changes which had occurred since 1972, according to the book's editor, Ethel Strainchamps.

Royalties from the book will be donated to KNOW, Inc., a Pittsburgh-based women's cooperative, which had offered to publish the book in condensed form before Harper and Row accepted it.

The book will be used in an experimental course at Penn State entitled "Women and the Media." Haskin developed and teaches the course at the Delaware County Campus, where she has been teaching journalism since 1969.

She has a B.S. in journalism and an M.S. in communications from Temple University and is a former reporter for The Green, a northeast Philadelphia weekly newspaper, and The Doylestown Daily Intelligencer. She is executive vice president of the Philadelphia Professional Chapter of Women In Communications, Inc.

The University Libraries' Management Review and Analysis Program committee includes (seated l. to r.) Cordelia W. Swinton, Edward J. Johnson, Barbara Ouka, Marjorie M. Guley; standing, Robert M. Smith, Ronald L. Filippelli, Emille T. McWilliams, and William E. Hepler.

LIBRARIES —

(Continued from page one)

The review, which was begun in September, will take a year to complete, and implementation is expected to occur a second year. There are seven phases in the study. The first three focus on organization and data-gathering. The study team examines major trends in higher education and their implications for the library. Mechanisms employed by a library to keep abreast of important technological, educational and professional trends are evaluated.

At the conclusion of Phase III, tangible results are expected to include a broad statement of library mission and objectives, statements of long- and short-range concerns for the various library departments and the emergence of staff teams to conduct the self-study.

Time management

A Time Management Seminar for Management will be held Thursday, Dec. 19, at the Conference Center in the J. O. Keller Bldg.

The seminar is for those who plan, organize, staff, and manage projects, and for the executives to whom they report. Types of projects could include research and engineering projects, development and introduction of new products, computer installations, maintenance overhauls, facility expansion relocation, sales campaigns, first production runs, budget system implementation, and all types of con-

During the second half of the program, organizational preparation gives way to analysis of specific functions of library management. This includes planning, budgeting, policy formulations and management information systems.

While Phase IV evaluates the systems that operate to guide and monitor library activities, Phase V examines how the library staff is organized, motivated and directed in these activities. Phase VI deals with personnel and general management policies. The final phase is the production of a management analysis report.

"Libraries in the past conducted reviews using outside accreditors," Dean Forth notes, "but there is real merit in addressing one's management concerns in one's own way. Studies like ours will help us to develop new analytic and management skills within our own staff."

seminar Dec. 19

struction, personnel, and industrial relations affairs.

Seminar chairman is T. Kenneth White, president of Ken Enterprises, a management consulting firm specializing in developing and presenting short, customized in-house seminar and speech programs in sales and management.

A brochure and further information may be obtained from the Conference Center, Room 410 Keller Bldg., 855-7557.

The seminar is a continuing education service of the College of Business Administration.

NEWS —

(Continued from page one)

Term, 1974, in all of the west European countries will be shown Thursday and Friday, Dec. 12 and 13, at 8 p.m. in the HUB main lounge.

Titled "Europe '74: A Slide Odyssey," the 50-minute show will include about 750 color slides of the people, culture, rural and urban areas, and other subjects from Italy to Norway and Austria to England.

Some 25 architecture students were involved in the Foreign Studies program in Architecture last year, and the slides are the result of the photography of about half of them.

No formal commentary will be provided at the show, but an explanation is given in a pamphlet to be distributed in the HUB.

PRESIDENT —

(Continued from page one)

for over seventy-five suggestions alone. Many of these have been implemented; some will soon be, while others are under consideration.

"Now, to escalate our efforts, I have asked Ralph E. Zilly, Vice President for Business, to name an Executive Energy Conservation Committee to aid in the implementation of suggestions on its own. Mr. Zilly has responded by naming Dr. Donald Olson, Head of the Department of Mechanical Engineering, Professor Robert Eichenhigh in Fuel Science, Professor Thomas Wiggins, in Physics, Henry L. Yeagley, Assistant Vice President for Physical Plant, Otto E. Mueller, Assistant Vice President for Housing and Food Service Operations, and George R. Lovette, Assistant Vice President for Business, as members of this Committee. Mr. Zilly will serve as Chairman.

T. R. Ferguson to retire; successor sought

T. Reed Ferguson, vice president for public affairs at the University, plans to retire in May, 1975, after 32 years of service as a faculty and staff member of the University.

In announcing the retirement, President John W. Oswald said "I accept Mr. Ferguson's decision to retire at this time with great reluctance. Though he has indicated for some time his desire to be released to enjoy his retirement years, we realize how very much his skilled services will be missed."

President Oswald went on to say "Mr. Ferguson has given very superior service to Penn State and has worked in a most effective way not only in Harrisburg but throughout the Commonwealth in informing the public of the role of Penn State in higher education. He has indicated that he would extend his service beyond age 60, but he has decided to exercise his option to retire now. We will miss him sorely but he has our very best wishes and deepest appreciation."

President Oswald announced also that recruitment of a successor to Mr. Ferguson is under way. Dr. Stanley G. Ikenberry, senior vice president for University development and relations, will be assisted in the search effort by an advisory and screening committee chaired by Dr. Richard E. Grubb, vice president for administrative services, and including three members of the University Faculty Senate Committee on Personnel Affairs: Dr. Thomas G. King, School of Agriculture, and associate director of Agricultural and Home Economics Extension and chairman of the Senate committee; Dr. Nunzio J. Palladino, dean of the College of Engineering; and Dr. Vernon Asparulian, Evan Pugh professor of political science.

Also on the committee are Dr. Gormis M. Seward, executive assistant to the President, and Frank J. Muraco, of Ommore; a junior in business administration, former vice president of undergraduate Student Government, and presently chairman of the Board of Directors, The Pennsylvania Student Lobby.

A 1938 graduate of the University, Mr. Ferguson joined the faculty in 1942 as an instructor in fine arts at the Schuylkill Campus, then the Pottsville Campus at Pottsville. He was named in 1948 as director of the Behrend Campus, now Behrend College, Erie, and in 1954 became head of the Conference Center at the University Park Campus. He was named director of University relations in 1959 and to his present position in 1969.

Free-U branches out, seeks aid

Free-University, increasing its community service constantly, is experiencing growing pains, particularly in finding open course people willing and able to teach a Free-U course. But officers are equally concerned that the number of non-University "students" in Free-U courses increase also.

Which has no bearing on the fact that for the first time Free-U courses are being offered in the Centre County jail. Two courses in Law and Friendship Skills are underway and plans are to increase to five or more the number of offerings in the Spring Term. Anyone, on or off campus, who wishes to work with this program should contact Mike Monahan, 865-0038, or send a note to the Free-U office, 203c Hetzel Union Building.

Faculty members currently leading Free-U courses like the experience, they say,

because the meetings are freewheeling, sincere, but often lighthearted. There are no grades, credits, or tuition. But the courses succeed because they bring to gather people who want to learn with people who want to share their knowledge and skills. Meetings may be held in private homes, in business establishments, in churches, and on campus; they can start anytime, but they usually follow the term calendar.

Another teaching method currently employed is the Listening-Learning Service; programs in weight loss, memory improvement, Morse code, and understanding chiropractic are currently available from 10 listening stations on campus.

Comments and suggestions on methods of developing increased community participation in Free-U will be welcomed by the officers.

Married couples helped by Center

Several new Conjugal Relationship Enhancement groups, designed to teach marriage enrichment skills to married couples, are being formed by the Individual and Family Consultation Center.

A Center spokesman said that more than 100 couples have participated in the program during the last several years it has been in operation.

Couples are trained in groups of no more than three couples to use certain communication and problem-solving skills in their relationship. Groups meet one evening each week at a time convenient to the participants.

The Center also is offering a relationship enhancement program for families with adolescent children. The program, in which family members meet once a week, is designed to be beneficial to families that have satisfactory relationships as well as to those experiencing severe difficulties.

The Consultation Center, located at the eastern end of the campus on Elm Street, is part of the training program of the Division of Individual and Family Studies of the College of Human Development.

Additional information on programs may be obtained by calling 865-7751.

"This new committee will be referred to as the Executive Energy Conservation Committee (EECC) to distinguish it from other helpful energy conscious groups that have been organized throughout the University system. The EECC will regularly publish directives or suggestions on ways to reduce our fuel and energy costs. In addition, they will be instigating studies into such areas as the operation of the University's water system, power plant, and wastewater treatment plant. They need and urge your suggestions and ideas on ways to reduce costs in these areas.

"During this highly critical period I ask for your complete cooperation and compliance with directives to be issued by the EECC. Some of these may represent significant changes, while others may seem insignificant. But, I assure you that cooperation shown by all of us can add up to significant dollar savings."

"Please help save valuable dollars for better uses throughout the University."

HERSHEY —

(Continued from page three)

raise the money which is turned over to the Medical Center through the American Cancer Society."

The laboratory will be devoted to tumor immunology research in the division of cancer biology of the department of pathology.

Dr. John Kreider, associate professor of pathology and microbiology said, "The Gitten Lab is the principal facility, actually the keystone, of the pathology department's tumor immunology program. This is where the tumor cells will be produced, identified and subjected to treatment by a variety of drugs. Our long term goal is to improve the immune responses which will provide an advantage over other treatment methods because of the high specificity in the attack on the tumor. We hope to prevent the tumor, but first we must be satisfied with being able to treat it."

Staff vacancies

University faculty or staff members who are interested in any of the staff openings or staff exempt jobs listed below may apply by calling Employment Division, 865-1387 (Area Line 47-1387). Do not contact the area having the vacant Applications will be accepted until 5 p.m.

DECEMBER 19, 1974

NUCLEAR EDUCATION SPECIALIST, (RADIOISOTOPE LABORATORY-NUCLEAR ENGINEERING) — University Park

Responsible for presenting various Nuclear Science and Radioisotope Programs to secondary school students, teachers, and members of the community throughout the Commonwealth of Pennsylvania. Bachelor's degree or equivalent in Nuclear Science plus two to four years related experience. Candidate must be able to qualify for a valid Pennsylvania teacher's certificate.

SOCIAL WORKER, MEDICAL —

Hershey Medical Center

Responsible to Director, Social Service by providing patient and family support and services within the hospital and serve as part of the health care team in providing practical and emotional support to patients and families. Bachelor's degree or equivalent in Social Work is required, plus two to four years of related experience. Medical experience is preferred.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

Mail rules changes

The U.S. Postal Service has issued new regulations regarding mail that arrives at a post office for mailing with either no postage or insufficient postage. These are regulations 146.121 and 146.122.

1. Any class of mail, even mail for which special services are indicated, that arrives at the office of mailing or the office of address without any postage will be returned to the sender without any attempt being made to deliver it to the addressee. If there is no designated sender, the mail will be disposed of in the dead letter office.

2. In the case of mail arriving (at either office) with insufficient postage, the mail will be delivered to the addressee on payment of the amount due. If quantity mailings (ten or more pieces) arrive at the office of mailing without enough postage, the mailer will be notified by telephone so that postal charges may be adjusted before mailing takes place.

For University mailings, these matters are taken care of generally by University Mail Service, but individuals sending materials out without going through Mail Service should be aware of the change in regulations because inevitably a delay in delivery is involved if either no postage or insufficient postage is indicated.

PENN STATE intercom

News in brief

CAPITOL CAMPUS

Some 90 graduates will receive degrees at Capitol Campus Saturday, Dec. 21, at exercises in the Middletown Area high school, at 1 p.m. (Capitol Campus is on a different calendar than most of the campuses.) Sixty-nine bachelor's degrees and 28 master's degrees will be awarded by Capitol Campus Provost Robert E. McDermott and Board of Trustees member Harry R. Ulrich, of Hummelstown.

HIRE THE VETERAN

A "Hire the Veteran" campaign is underway in State College, with University student-veterans looking for part-time work. "We have approximately 2,000 student-veterans at University Park. More than 70 per cent of this population needs part-time employment to meet educational expenses," says John P. Swords, assistant to the vice president for student affairs. Anyone with questions or suggestions should call Swords at 863-0467.

MEM CHAMBER SHOW

Today (Thursday) is the final day of the presentation of "On the Road to Dingman's Ferry" in the MEM Chamber, an unusual visual and aural method of education. The same show was presented in November, with considerable success, but many people missed it at that time. The MEM Chamber uses slide projectors, television, quadraphonic sound, and other techniques, the whole package having been developed by Rob Fisher, now a member of the art department faculty. A presentation will be made every hour from 10 a.m. to 10 p.m. in the HUB ballroom, with no charge.

PRESS BOOK

The University Press has published "In This Most Perfect Paradise," by Illinois professor Carroll William

Westfall. It is a study of the early Renaissance papacy and its architectural policy, exploring the efforts of Pope Nicholas V and architect Leon Battista Alberti to convert Rome into a "magnificent and visible representation of the newly constituted Church." Through examination of painting, sculpture, architecture, treatises on the arts and other literature, the author demonstrates architecture's traditional role in the representation of ideology.

SCHUYLKILL EXHIBIT

Paintings by artist Nicholas Bervinchak, of Minersville, whose etchings and paintings have been exhibited in the Whitney Museum of Art, National Academy in New York, and in Milan, Stockholm and other cities abroad, will be displayed during December in the Library of the Schuylkill Campus. Self-taught, Bervinchak has become recognized as a recorder of the American scene, but he is also in demand as a church painter, having decorated more than a score of churches in Neo-Byzantine style.

VIETNAM TALK

Donald Luke, director of Clergy and Laymen Concerned, New York City, who has recently returned from his third visit to Hanoi, will speak on "Vietnam: The Prospects of Reconciliation," Thursday, January 9, at 7:30 p.m. in Room 101 Kern. Some slides will be included in the talk.

Open to the public, the lecture is sponsored by the Southeast Asia Studies Council and the International Affairs Committee.

YORK GROUNDBREAKING

Ceremonies to mark groundbreaking for the new \$1.2 million classroom building at York Campus were held last Friday, with Dr. Robert G. Quinn, dean of academic instruction for Commonwealth Campuses, as principal speaker. The building will provide 30,000 square feet of additional space in the form of seven multipurpose

classrooms, an electrical engineering lab, computer center, instructional media center, seminar rooms, offices, and a large lecture room. Target date for completion is Summer, 1976.

OLDEST STUDENT?

Nomination for the oldest student at Penn State is made by Capitol Campus, which reports that 72-year old Russell Charles, a retired executive vice president of Bowman's Department Store, Harrisburg, is enrolled as a graduate student in the Community Psychology option of the Psychosocial Science Master's Program. He got his bachelor's degree from Elizabethtown College just a year ago. For Charles, who is one of only 58 students in this new Capitol program, a master's degree would enable him to help people plan a productive life after retirement. He is looking forward to graduation next year.

WPSX SPORTS SCHEDULE

WPSX-TV, Channel 3, will present a heavy schedule of recorded sports events during the indoor season, most of them Penn State events, to be broadcast Sundays at 4 p.m. The complete schedule:

Dec. 22 — Penn State-Indiana State wrestling.

Dec. 29 — Lehigh-Iowa wrestling.

Jan. 5 — Collegiate soccer.

Jan. 12 — Penn State-West Virginia basketball.

Jan. 19 — Penn State-West Chester wrestling.

Feb. 9 — Penn State-Massachusetts gymnastics.

Feb. 16 — Penn State-Lehigh wrestling.

Feb. 23 — Penn State-Pitt basketball.

Mar. 2 — Penn State-Indiana State gymnastics.

Mar. 9 — Penn State-Villanova swimming.

NEXT ISSUE

INTERCOM will be silent for two weeks, the next issue being scheduled for Jan. 9.

Senate approves by-laws changes

Responding to recommendations on faculty participation in University governance, the University Faculty Senate has approved extensive changes in its bylaws and standing rules.

At its meeting Dec. 10, the Senate approved a 34-page report detailing the changes which stem from six of 35 recommendations of the Joint Senate-Administrative Select Committee on Faculty Participation in University Governance.

The changes center on four areas — election of Senate officers, development of an advisory committee to the President, redefinition of responsibilities of the Senate Council, and redefinition of responsibilities of the Senate Committee on Committees and Rules.

Dr. Robert S. Friedman, chairman of the subcommittee which proposed the amendments, said they were designed to make the Senate more effective in its internal operations and in representing the entire faculty.

Discussion focused on the proposal to establish an advisory committee to the President. In one amendment, the group's name was changed from Senate Advisory Committee to Faculty Advisory Committee.

The committee is to include the four Senate officers and three faculty members selected by the Senate. Under other amendment, the faculty members are not required to be members of the Senate. The proposal also was amended to provide that at least one of the committee members must always be from a location other than University Park.

The four Senate officers provided for under the amendments include a chairman, a chairman-elect, a past chairman and a secretary. The Senate chairman would be relieved of some of his academic duties while in office.

In other action, the Senate approved a report of the Capitol Campus Review Committee. A committee recommendation on procedures for handling undergraduate curricular matters at Capitol Campus was amended.

Other committee recommendations approved were:

—All legislative actions by the Capitol Campus Faculty Organization must be reported in summary form in the monthly Senate Record.

—A greater reciprocal exchange of views on matters relating to programs and courses should be initiated between the Capitol Campus faculty and counterparts throughout the University system.

—Delegation of authority to the Capitol Campus faculty shall be reviewed at intervals not exceeding five years, although the Senate may request an earlier review.

United Way goal surpassed by staff

The University surpassed its goal in the 1974-75 Centre County United Way.

Penn State employees contributed some \$8,200 more than last year, giving the University 101 per cent of its goal. University personnel contributed \$70,804.06 toward the County's overall total of \$233,586.74, which was 102 per cent of the County goal of \$226,000.

(Continued on page four)

Senate Report

The University Faculty Senate's Committee on External Affairs was established by the Senate in December, 1973. It was charged with maintaining an interest in current events, reporting to the Senate on external issues which may have present or future impact on the University, and advising the Senate on proposed statements to officials outside the University.

Thomas B. King is Committee chairman. Members are Vernon Aspinarian, Robert A. Conover, T. Reed Ferguson, Mervin J. Hostetter, Nunzio J. Palladino, Marvin E. Rozier, George H. K. Scheuch, Dion C. Stewart, and C. Edward Phillips, chair of the Senate Faculty Affairs Committee.

The following report was prepared by the chairman of the External Affairs Committee: Legislative workshops. Science and Technology Referral System. Speakers Bureau: What relationship do they have with the University Faculty Senate? These kinds of activities are among the many subjects being explored by the Senate's newest committee, the Senate Committee on External Affairs.

Initially appointed this past year by Senate Chairman Ernest Bergman, the External Affairs Committee has been meeting regularly to seek ways of carrying out the charge given it by the Senate. For instance, the Committee has compiled a roster of Penn State faculty who have had professional contact with Commonwealth legislative and executive officials.

This report is provided by the University Faculty Senate for the general information of the faculty. Inquiries concerning the report should be addressed to the Executive Secretary, Room 204 Willard, 863-0221.

Another aspect of the Committee's role is advising and assisting the Senate and other Senate committees. The committee also has taken preliminary steps, in cooperation with the Fringe Benefits Subcommittee and the External Affairs Committee, regarding possible legislative changes in the retirement system.

A major undertaking of the Committee is the development of an ongoing series of workshops for legislative legislators. Helping the University create more positive relationships with our legislative bodies is one of the primary goals of the Committee. Many ways of making legislators and other elected officials better acquainted with Penn State have been explored. The legislative workshop approach allows a two-way interaction between faculty and legislators in areas of mutual interest and complementary perspectives. The special talents and expertise of faculty members may prove helpful to legislators; likewise, faculty members will better understand the needs of legislators and the complex considerations underlying public policy actions in their professional areas. The External Affairs Committee will assume responsibility for contacting individual faculty members and arranging for the organization of each event. It is anticipated that most sessions will be half-day in length and in the Harrisburg Area.

Seeking ways by which the University might develop a more positive image with

the legislature as well as the general public is an objective the Committee has set for itself. However, the initial charge to the Committee by the officers of the Senate was also to perform a watchdog function. It is to maintain an interest in current events and report to the Senate on those issues which occur external to the University but which may have present or future impact on the University. Reed Ferguson is a member of the Committee, and together with his staff — Newton Cattell, Frederick Ciletti, Frank Forni, and David Schuckers — will alert the Committee to many events and pending legislation that are of concern to the University.

Examples of Pennsylvania legislation that are of vital concern to the University are SB 1960, SB 1472, and SB 1743. Senate Bill 1960 authorizing \$1,700,000 to be appropriated to Penn State's trustees for the purpose of providing funds for retirement cost increases passed the legislature November 21, 1974. SB 1472 and 1743 are presently in the Education Committee. SB 1472 is an act creating for a temporary period the Pennsylvania Open College to provide public non-traditional post-secondary educational opportunities for an adult student body. SB 1743 is an act amending the "Public School Code of 1949," establishing the Pennsylvania Commonwealth University and designating its institutions; creating and defining the powers and du-

McClay, Bryner announce retirements

Dr. David McClay (left), receives retirement gift from College of Agriculture Dean, Dr. James Seattle.

Dr. David R. McClay, head of the department of agricultural education since 1959 and acting dean of the College of Agriculture for 15 months during 1972-73, will retire on Dec. 31.

A member of the Penn State faculty since 1946, Dr. McClay earned B.S. and M.S. degrees here and obtained doctor of philosophy degrees at Cornell University.

Early in his career, Dr. McClay was a teacher of high school agriculture and adviser for vocational education in agriculture in Washington and Greene Counties. As a lieutenant in the U.S. Navy during 1944-46, he was officer-in-charge of instructor training at Little Creek, Va., and commanding officer of an amphibious ship, the U.S.S. LSM 543.

From 1954 to 1956, Dr. McClay was director of short courses and assistant director of resident instruction for the College of Agriculture. Later he served

as acting associate dean and director of resident education. He has taught as a visiting professor at the Universities of California, New Hampshire and Vermont, and at Virginia Polytechnic Institute.

Dr. McClay planned and established the Winter Course Program in the College of Agriculture, served as a leader in a U.S. Office of Education project on "Competencies Needed for Entry Employment in Natural Resources and Related Environmental Occupations in the U.S., 1971-74," and is national chairman of a current study, "National Project for Identifying Competencies in Agriculture-Agribusiness Operations."

Dr. Clarence S. Bryner, professor of agronomy extension, will retire December 31, with 29 years of service to the University. A 1938 graduate in agronomy from Penn State, he served six years with the Soil Conservation Service in three southeastern Pennsylvania counties. In 1945, he was appointed assistant professor of agronomy extension and two years later received the Coke Oven Ammonia Research Fellowship for graduate study. In 1948 he was appointed to the research and resident staff in agronomy. His research was related to small grains in this period. In 1957, he received his doctorate and was named associate professor of agronomy extension, conducting crop improvement work throughout the State. In 1967-69, he was a member of the U.S. AID team of the College of Agriculture which served in Maharashtra State, India. Since 1969, he has been responsible for Extension's potato and small grain programs.

Faculty notes . . .

Dr. G. P. Patil, professor of mathematical statistics, will present a paper in Calcutta, India, Dec. 16, at an Invitational Memorial Conference honoring Academician Y. V. Linnai, Prof. P. C. Mahalanobis, and Prof. S. N. Bose. The paper is titled "Certain Problems and Models for Distorted Observations and Related Characterizations." The conference is sponsored by the Indian Government and the U.S.S.R. Academy of Science. On this trip abroad, Dr. Patil will also give the keynote address at the All-India Rally of Youth for Integration and Integrity, near Nagpur, Central India.

Robert F. Fletcher, professor of vegetable crops extension, has received the 1974 Ruby Award given annually by the Alpha Omicron chapter of Epsilon Sigma Phi, national honorary extension fraternity. He was cited for his educational programs dealing with commercial vegetable crop production. He was a pioneer in developing soil testing procedures for horticultural crops.

Dr. Hans A. Panofsky, Evan Pugh research professor of atmospheric sciences, lectured recently at Princeton Univ. and at City University of New York Graduate Center. The first subject was "Stratospheric Mixing" and the second, "Environmental Problems of Supersonic Transports."

Dr. James W. Keltz, professor of education in counselor education and assistant director of the Rehabilitation Education Programs, has been elected president-elect of the National Vocational Guidance Association, to assume the presidency of the 10,000-member organization at the national convention of the American Personnel and Guidance Association, of which the NVGA is a major division, next March in New York.

Dr. L. W. Hu, professor of engineering mechanics, presented a paper on "Linear Compressibility of Polyester PSM-1 under High Hydrostatic Pressure" at the Fourth International Conference on High Pressure, in Tokyo, Japan, last week.

Dr. Rustum Roy, director of the Materials Research Laboratory, conducted "Non-Crystalline Solids: Their Preparation, Structure, and Potential in Solid State Science and Technology," as featured speaker in a solid state science lecture series at Arizona State University recently.

Appointments

Dr. Robert C. Mitchell, as associate professor of sociology. He is a graduate of the College of Wooster, Ohio, and obtained advanced degrees from Northwestern University. He has served as visiting professor in the College of Thematic Studies, University of Pennsylvania, and as associate professor of sociology at Swarthmore College. With research interests in religion and social change, he has traveled widely in Africa and specifically has studied the sociology of religious change in Ibadan, Nigeria.

Dr. Yupo Chan, as assistant professor of civil engineering. He was transportation consultant with Peat, Marwick, Mitchell and Co., Washington, D.C. He received all three degrees from the Massachusetts Institute of Technology.

Dr. Bertrand M. Davezac, as associate professor of art history. He was assistant professor of art history at Indiana University, Bloomington. His degrees were granted by Columbia University, all in art history.

Kenneth M. Marin, as community development specialist and instructor in rural sociology, to conduct educational programs under Title V of the Rural Development Act of 1972 in Indiana, Armstrong and Butler counties. He holds a B.S. in agricultural economics and M.S. in rural sociology from Penn State.

Dr. Ann L. Overback, as assistant professor of social welfare. She was formerly director of the Outpatient Division, Altona Hospital Community Mental Health Center. A graduate of Cornell University, she obtained advanced degrees from Smith College and is a licensed clinical social worker. Her research interests are in alcoholism, after care of schizophrenics, and stress adaptation.

Promotion

Homer F. Mazer, Clearfield County agricultural agent, has been named to succeed Herbert K. Anders as assistant director of the Northwest Region, Cooperative Extension Service. Anders retired recently. Mazer began his Extension career in 1955 in Greene County and moved to Clearfield County in 1961. The counties in which he will supervise Extension programs are Clarion, Crawford, Erie, Forest, Lawrence, Mercer, Venango, and Warren.

Roy Buck receives Service Award

Dr. Roy C. Buck (center above), professor of social science and sociology and associate director of the Center for Continuing Liberal Education, was honored for 25 years of service to the University recently, and a great many faculty and staff attended the party in the Nittany Lion Inn, because Dr. Buck has acquired a host of friends over these years in many areas of the University. College of the Liberal Arts Dean Stanley F. Paulson presented the Service Award plaque and Penn State Chair to Dr. Buck, with an assist from Dr. Roland J. Pallograph, head of the sociology department. A 1942 graduate of Penn State, with a B.S. in agricultural education, Dr. Buck served as a vocational agriculture teacher for two years and in 1947 obtained a master's degree in rural sociology and in 1949 was appointed assistant professor of rural sociology. His Ph.D. was conferred by the University of Minnesota in 1951. He did a great deal of work in the field of rural youth and problems of rural communities. In 1952 he was appointed to the C.C.L.E. post for the work in social sciences, and much of his effort has been directed to urban as well as rural communities and their social problems.

Peace Corps openings are available

Opportunities to work with the Peace Corps in Jamaica were announced this week by Dr. Robert E. Swope, of the College of Agriculture.

Dr. Swope heads up arrangements whereby Penn State faculty and staff members serve as technical "backstops" for volunteers in the Jamaican project, a cooperative effort begun in February, 1974.

A search is underway to locate U.S. individuals to work with the Jamaica program in 1975. As of next July, individuals with the following skills and interests are needed in the Jamaica Peace Corps: eight

agricultural education teachers, four forestry development officers, a farm manager experienced in vegetable and livestock production and marketing, an Ag Extension officer in horticulture, three Ag Extension officers experienced in production of beans and tomatoes, such officers in grain production, one who specializes in potatoes and other tuberous crops, five in horticulture, one agronomy researcher experienced in legume research.

Dr. Swope, who is also a point of contact for Peace Corps volunteers for other areas of the world, may be reached in Room 217 Ag Administration, 865-7521.

Computation center aids college

A remote computer terminal linked to the computer at the University's Computation Center has been installed at Williamsport Area Community College.

The terminal, consisting of a card reader and a printer, will permit students and faculty at the community college to have access to the computing facilities available to Penn State students and faculty.

According to Daniel L. Benitt, research associate at the Computation Center, these facilities include use of the computer and a large library of programs, data bases, and language processors.

The terminal is to be used for instruction in data communications, as an industrial device which allows simulation and gaming exercises for various courses, and for faculty and student research, special projects, and instructional support.

The remote terminal is similar to those located at the University's Commonwealth Campuses, the Capitol Campus, and Hershey Medical Center, and at various locations on the University Park Campus. It is the first outside the University system to tie into the Computation Center.

Weight losers helped by two programs

There is no question that losing weight is one of the most talked-about problems human beings have, and many people also do something about it. But it isn't easy.

At least two aids to weight-losers are available on the University Park Campus, one being the Free-Ut machine which you can hear on the Listening-Learning Service campus-wide system. There are about a dozen stations around the campus that have listening devices so you can hear this tape, which is intended to be used frequently to help you develop the will to lose weight.

Another service is provided by the Individual and Family Consultation Center of the College of Human Development.

Families in which at least one parent and one teen-ager wish to lose weight are eligible for the eight-week program, beginning in mid-December.

According to Dr. Anthony R. D'Augelli, assistant professor of human development, the program will utilize the most effective techniques from the field of behavioral psychology to give participants information and experience in changing a persistent bad habit — overeating.

"This is not a 'dieting' program, but a program to help people to change their eating habits. It is not a 'crash' weight

loss method, but a set of lessons designed to promote long-term weight maintenance of the loss."

According to Dr. D'Augelli, research on weight loss programs has generally shown that it is in the long-term maintenance of weight loss that most individuals experience failure and go back to their original eating habits.

He said the Consultation Center program, based on techniques found to be effective in many recent studies, is designed with this problem in mind.

"We also feel that the involvement of several family members in a joint effort to lose weight has many advantages. There simply are no ways of losing weight which don't call for strong commitment. Sharing this experience with someone else will enable each person to continue the process."

"If two family members know the methods of sensible weight loss, it is likely that they will continue on the program, even after the meetings are over. Finally, they can then discuss eating habits and nutrition with other members of the family."

Families interested in the program, for which there is no fee, may contact the Consultation Center at 865-1751 for further details.

University Park Calendar

December 19, 1974-January 11, 1975

Special events

Friday, Dec. 20 — Round and Square Roundup, 7:30 p.m., White Bldg. south

Wednesday, Jan. 1 — Cotton Bowl game, TV broadcast, CBS, 2 p.m.

Saturday, Jan. 4 — Sports: Men's basketball vs. Boston College, 8 p.m., Rec Hall

Wednesday, Jan. 8 — Evening of Student Chamber Music, 8:30 p.m., Music Bldg, recital hall

Wednesday, Jan. 8 — Sports: Men's and women's gymnastics. Women vs. Towson State, men vs. Pittsburgh, 8 p.m., Rec Hall

Friday, Jan. 10 — University Readers, 7 p.m., Room 112

Friday, Jan. 10 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern

Saturday, Jan. 11 — Artists Series, Juilliard String Quartet, 8:30 p.m., Schwab

Saturday, Jan. 11 — Sports: Women's riflery, vs. Carnegie Mellon, 2 p.m. Men's football vs. Johns Hopkins, 2 p.m. Men's basketball vs. West Virginia, 8 p.m., Rec Hall. Wrestling vs. Kentucky, 2 p.m., Rec Hall

Official

Saturday, Dec. 21 — Christmas vacation begins, 12:25 p.m. Offices closed Dec. 22-26

Saturday, Dec. 21 — Residence Halls close for Christmas recess, 3 p.m.

Wednesday, Jan. 1 — New Year's Day, offices closed

Sunday, Jan. 5 — Residence Halls open after Christmas recess, 8 a.m.

Monday, Jan. 6 — Classes begin, 8 a.m.

Seminars

Thursday, Dec. 19 — Meteorology, 3:55 p.m., Room 126 Mineral Sciences. Dr. H. A. Panofsky, on "Vertical Mixing in the Stratosphere"

Thursday, Dec. 19 — Agronomy, 3:45 p.m., Room 301 Agricultural Administration, William Stout, on "The Role of Magnesium in Human and Animal Nutrition"

Thursday, Dec. 19 — Statistics, 4 p.m., Room 69 Willard. Dr. Shelby J. Haber-man, University of Chicago, on "Product Moments for Frequency Tables Involving Indirect Observation"

Thursday, Dec. 19 — Chemistry, 12:45 p.m., Room 333 Whitmore. Dr. T. L. Sourkes, McGill University, on "Dopamine and Parkinson's Disease"

Thursday, Dec. 19 — Physics, 3:35 p.m., Room 117 Osmond. Thomas H. Edwards, Michigan State University, on "Acquiring and Processing Spectra by an On-Line Computer"

Thursday, Jan. 7 — Water Pollution, 2:20 p.m., Room 124 Sackett. Robert L. Johnson, civil engineering, Lehigh University, on "Dual Medium Water Filters"

Tuesday, Jan. 7 — Analytical Chemistry, 1 p.m., Room 333 Whitmore. T. H. Risby on "Thesis Topics in Analytical Chemistry"

Tuesday, Jan. 7 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Ellen Brislin on "Modes of Action of Heterocyclic Systemic Fungicides"

Wednesday, Jan. 8 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. W. B. White, mat. science and geo. science, on "Crystal Chemistry of Solids"

Wednesday, Jan. 8 — Fuel Science, 4 p.m., Room 301 Min. Ind. Dr. E. S. Fleming on "Reaction Kinetics of Low Pressure Hydrocarbon / Fluorine and H₂ / Cl₂ / F₂ / H₂"

Thursday, Jan. 9 — Chemistry, 12:45 p.m., Room 333 Whitmore. Robin M. Hoch-sheimer, University of Pennsylvania, on "Chemical Dynamics and Spectroscopy in the Picosecond Regime"

Thursday, Jan. 9 — Physics, 3:35 p.m., Room 117 Osmond. Martin C. Gutzwiller, IBM Watson Research Center, New York, on "Ferromagnetism in Transition Metals"

Thursday, Jan. 9 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Lance Bos-sart, SUNY at Albany, on "Observations of Mesoscale Circulations"

Thursday, Jan. 9 — Statistics, 4 p.m., Room 69 Willard. Gary Simon, Princeton University, on "Kendall's Tau in Multivariate Situations"

Thursday, Jan. 9 — Biophysics, 4 p.m., Room 617 Life Science. Dr. H. Clarke Anderson, Downstate Medical Center, State University of New York, on "The Role of Matrix Vehicles in the Cellular Mediation of Calcification"

Thursday, Jan. 9 — Agronomy, 3:45 p.m., Room 301 Ag. Admin. Jim Hinko, on "Wastewater Nitrogen — Hindrance to Disposal of N-fertilizer Source"

Lecture

Thursday, Jan. 9 — International Affairs Lecture, Don Luce on "Vietnam: The Prospects of Reconciliation," 7:30 p.m., Room 101 Kern

Meetings

Monday, Jan. 6 — USG Senale, 7:30 p.m., HUB assembly room

Monday, Jan. 6 — OTIS, 8:30 p.m., Room 203 HUB

Tuesday, Jan. 7 — ARHS, 7:30 p.m., Room 203 HUB

Tuesday, Jan. 7 — University Faculty Senate, 2:10 p.m., Room 112 Kern

Wednesday, Jan. 8 — Penn State Mining Society, 7:30 p.m., Room 112 Kern

Wednesday, Jan. 8 — Biological Society, 7:30 p.m., Room 8 Life Sciences. Dr. Stuart Patton, food science, on "British Columbia and Spawning Salmon"

Thursday, Jan. 9 — College of Liberal Arts Faculty, 3:30 p.m., Room 121 Sparks

Exhibits

Museum of Art — Living American Artists and the Figure, Galleries A and C, through December 22. Selections from the University Collection, Gallery B. Free public tours Thursdays at 1:30 p.m.

Zoller Gallery — Marsicano Show, opening January 6

Chambers Gallery — Kitch, opening January 6

Films

Friday, Dec. 19 — "Al the Circus," with the Marx Brothers, 7:30 and 9:30 p.m., FUB Rec Room

Funding Opportunities

For procedural and funding source information, call 865-1372.

December 5, 1974

(NSF-1) NSF has clarified objectives of its Ethnic & Human Value Implications of Science and Technology Program (EHVIST). First announced in 1973 March 22, 1973 INTERCOM #72-1, the program is supported by NSF and the National Endowment for the Humanities (NEH). Project should emphasize ethnic or human values, focus on value systems and their impact. Studies include the biological sciences and medicine are encouraged this fiscal year. Supported activities include: research and other scholarly investigation, conferences and similar activities, course and curricular development, and a combination of these activities. Supported activities may apply to more than one individual or a small group. People whose existing work fits program objectives are encouraged to apply. Interaction among such groups is encouraged. The program contact is Robert A. Baum, Manager, EHVIST, Program Assessment and Special Studies Groups, NSF, Washington, O.C. (205) 526-7947 (Ref. RJU letter vs. NSF Imp. Policy No. 10)

(NSF-2) Studies and experimental projects aimed to careers in science for women will be supported by the National Science Foundation. NSF's objective is to provide the educational community with mechanisms for increasing the number of women in science and technology. The application deadline date is Jan. 1, 1975. The program contact is Mrs. M. Joan Gollan, NSF, National Office of Experimental Projects and Education Outreach, NSF, 2225 Wisconsin Ave., N.W., Washington, O.C. 20555 (202-282-7974) (Ref. RJU letter vs. NSF Imp. Policy No. 10)

(NSF-3) The Office of Education has announced a Dec. 27, 1974 closing date for applications for the National Science Foundation Graduate and Postdoctoral Fellowship Studies Program. (Ref. 39PR 40807, 11/20/74) Continuation grants for this program have a Jan. 15, 1975 closing date.

(NSF-4) The NSF Faculty Fellowships in Science program deadline has been extended to Feb. 1974 (Nov. 21 INTERCOM #166-7). These awards are for 1974-1975. NSF telephone contact is (202-282-7595). Application materials will be available soon. (Ref. NSF Memo)

(NSF-5) The new NSF Senior Foreign Entry Scholars Program is complete for 1974-1975. It has an extended deadline to Feb. 28, 1975. Applications for program preparation have been distributed. NSF telephone contact is (202-282-7595) (Ref. NSF #7538)

(NSF-6) U.S. biomedical scientists who wish to conduct 1975-1976 research or clinical studies in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-7) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-8) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-9) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-10) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-11) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-12) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-13) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-14) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-15) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-16) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-17) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-18) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-19) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-20) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-21) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-22) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

(NSF-23) American students who wish to study in Sweden may complete for 1975 postdoctoral research fellowships to be awarded by the Swedish Research Council. The National Institutes of Health acts for the Council; the NIH address is: NIH, Executive Plaza North, Room 10A, Bethesda, Md. 20814.

write to the German Academic Exchange Service, 1 Fifth Ave., Suite 1100, New York, NY 10011. Stipend is 2300 marks; application deadline is Jan. 31, 1975.

(NSF-24) Postdoctoral fellowships and research associateships in the field of the National Research Council of Canada are available to Canadians and other nationals. Science applicants must hold a doctorate or be awaiting award of one. Engineers must hold a masters degree and research experience. Fellowships pay \$10,500/year; associate stipends compare to starting salaries in the laboratory where the associate works. Program brochures can be read in 317 Penn Bldg. Write to the National Research Council of Canada, Research Associates Office, Ottawa, Canada, KIA-0R6 for application forms and additional data.

(NSF-25) Pharmaceutical Manufacturer's Association Fellowship (AII, T. E. Manahan, 1155 15th St. N.W., Washington, O.C.) has announced a limited student fellowship program for students interested in research and teaching careers in Pharmacology and a two-year post-doctoral pharmacology-morphology fellowship for research on the pharmacology of drugs. Further information and application forms, write to address given above. For other pre-doctoral fellowships see Memorandum 74-5.

(NSF-26) National Institute for Law Enforcement and Criminal Justice (At: Winston Reid, Law Enforcement Assistance Administration, Dept. of Justice, Washington, O.C. 20530 (202-386-6581)) offers visiting fellowships to develop innovative approaches to law enforcement crime and justice. People with justice system involvement research in Washington, O.C. Stipends are based on the experience of the fellow. For further information, write to address given above.

(NSF-27) Environmental education proposals must be sent to the Office of Education before January 23, 1975. Priorities are: (1) resource materials; (2) parent and community development projects; (3) community education projects; and (4) elementary and secondary education projects. Non-priority proposals should have been submitted by Dec. 15, 1974. For further information, write to address given above.

(NSF-28) Health research related to energy production and conservation will be funded by the National Institute of Environmental Health Sciences. Applications have been extended and associated with energy technologists and conservation projects is the primary goal. Projects will be funded by early 1975. Priorities include: suspected health impact of nuclear energy on specific population groups; gaps in health-effects knowledge and projected time frames for new energy technologies. This information has been distributed. Project contact is: Dr. Robert G. Owens, External Programs, National Institute of Environmental Health Sciences, NIH, P.O. Box 12233, Research Triangle Park, North Carolina 27709-1233 (276-545-5811) ext. 2058. (Ref. NIH Guide Announcement, Vol. 3, No. 19)

(NSF-29) National Research Service Awards to individuals for predoctoral or postdoctoral training in specified areas of biomedical and behavioral research will be made by the PHS Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA). Applications must have been completed two or more years of graduate work

and have a doctoral prospectus. Applicants must be sponsored by the Institution having the staff and facilities for training. Postdoctoral applicants may also be sponsored by ADAMHA. Priority areas are grouped under each of the ADAMHA's three institutes. Applications must be received by January 15, 1975 and May 1, 1975. (Ref. ADAMHA Announcement, Nov. 1974)

(NSF-30) Regulations for the Fund for the Improvement of Postsecondary Education have been issued by the Office of Education for three program categories (Ref. 39FR14746-15, 56-57; 12/27/74). Pre-applications for the Comprehensive Program must be mailed before Jan. 16, 1975 as must regular applications for the Special Focus Program. National Projects, a new program, has a Feb. 17, 1975 deadline, and includes three activities: educational needs of new achievers, strengthening faculty roles, and education information to prospective students. Institution sponsoring exemplary activities will receive awards averaging \$25,000. Guidelines for the National projects program are to be issued Dec. 15, 1975. Guidelines for the comprehensive program and special focus activities will be issued earlier. (Ref. CFDA 13-558) (Ref. OGP Program Notes 12/4/74)

(NSF-31) NEA Once program guidelines and deadline dates have been issued for: choreography, Feb. 1, 1975; design, Feb. 1, 1975; and resident professional design companies management and administrative services to the field — June 1, 1975, and general programs — Feb. 1, 1975. For further information, write to address given above.

(NSF-32) The National Institutes of Health (NIH) has several programs for the next three deadline dates are Feb. 1, June 1, and Oct. 1, 1975. The programs are: Research Project Grants — contact Dr. Luis G. (202-496-7447); Special Clinical Research Grants — Dr. William R. De Cesare (202-496-5590); Biotechnology Research Grants — Dr. William F. Raub (202-496-5411); Projects to Support Animal Resources and Research — Dr. William F. Raub (202-496-5411); Charles McPherson (202-496-5451); Nutrition Research — Mr. Paul O. Frazer (202-496-7809); Research in Health and Family Development — Dr. Bernard Wortman (202-496-5301); and Clinical Cancer Education Grants — Dr. Margaret A. Edwards (202-496-7762). Contact addresses for each of these are also available. (Ref. OGP deadline dates)

(NSF-33) The National Institute of Mental Health (NIMH) has six programs with Feb. 1, June 1, and Oct. 1, 1975 deadline dates. They are: Mental Health Research Grants — Dr. William R. De Cesare (202-496-5590); Research Grants — Dr. Edwin J. Nichols (202-496-3556); Minority Group Mental Health Program — Dr. James R. (202-496-7447); Metropolitan Mental Health Problems — Dr. Ellison Lebow (202-496-3373); and Studies in Health and Delinquency — Dr. Eileen A. Shaw (202-496-3728). Contact addresses for each of these are available. (Ref. OGP deadline dates)

(NSF-34) The National Science Foundation (NSF) has issued criteria for the selection of research projects. As approved by the National Science Board, the U.S. public policy supports both basic and applied research programs to strengthen scientific research potential, and scholarship and

graduate fellowships. Selection criteria are grouped into four categories: competent performance of the research; originality and economy of method; potential, relevance, and contribution to long-term scientific potential. Features encouraged include: participation by graduate students, publication, and dissemination of information, and maintenance of symposia and scientific meetings. Specific NSF approved areas are discussed relative to the Board's approval selection criteria. This information has been distributed. (Ref. 39FR42654-56, 12/9/74)

(NSF-35) People of Scottish descent may apply for \$3750/year grants to support study in that country. Application deadline is Feb. 1, 1975; for more information write to St. Andrews Society of the State of New York, 281 Park Ave. S, New York 10010

(NSF-36) National Safety Council (265 N. Michigan Ave., Chicago, Ill. 60611) offers the Howard Pyle Fellowship Award for an already enrolled graduate student studying for the Ph.D. in a safety-related discipline. The stipend is \$2500 plus tuition and fees and a \$450 allowance for dependent children. Fellowship is renewable for up to 3 years. Applicant must be nominated by the Graduate School. Further information, write to the Graduate School at 317 Kern Graduate Building or to the address given above.

(NSF-37) Graduate Women in Science (Dr. A. K. Miller, Brook Park Institute of Therapeutic Research, Highway, N.Y. 47055) offers a \$750 grant-in-aid to a woman, preferably over 35, who holds a degree from a recognized university and has demonstrated outstanding ability in mathematics or natural science to increase knowledge in these fields and to encourage research by women. The application deadline is March 15, 1975. Further information and application forms, write to address given above.

(NSF-38) Undergraduate students can compete for a \$1000 prize by submitting a technical paper on instrumentation, systems, or automation. Write to Instrument Society of America, Student Paper Coordinator, 400 Stevens St., Princeton, N.J. 08540, for more information. Application deadline is March 15; the paper must be submitted before May 1. (160-10)

(NSF-39) The American Association for the Advancement of Science (AAAS) will accept applications for its Mass Media Intern Program for the summer of 1975. A letter of nomination must be submitted by a faculty member on behalf of the student. Up to 10 outstanding science graduate students in the natural and social sciences will be selected to spend the summer of 1975 as intern reporters, researchers, or production assistants in a variety of media. (Quintessence, Nov. 1974) Applications must also be considered. Applications must be received by February 1, 1975. Contact: Nancy W. Johnson, AAAS, 1776 Massachusetts Avenue, N.W., Washington, O.C. 20036. (Ref. AAAS Announcements)

REMINISERS AND DEADLINE DATES
1. Extended for U.S.A. Bicentennial Student Film Making Program (Nov. 14 INTERCOM #155-2)
2. Jan. 1 for Ford Foundation Research on the Soviet Union and Eastern Europe (Nov. 7 INTERCOM #154-4)
3. Feb. 2 (May 1 & Sept. 1) for NIH Research Career Development Program (Nov. 21 INTERCOM #157-10)
4. Jan. 2 (May 1) for NIH sample of media. (Quintessence, Nov. 1974)
5. Jan. 6 for O.E. Field Initiated Studies (Oct. 24 INTERCOM #152-2) . . .

Juilliard Quartet, on Artists Series Jan. 11.

Artists Series

The "finest string quartet in the world" has been used to describe the Juilliard String Quartet which will be featured on the Artists Series Saturday, Jan. 11, at 8:30 p.m. in Schwab Auditorium.

The early announcement (in INTERCOM) of this program is made because tickets for the performance will go on sale Tuesday, Jan. 7, at the HUB, and not many tickets are available because many season tickets were sold for the Fine Arts Series, of which this program is a part.

Juilliard's program will include Mozart's "Quartet in D Major, K. 575"; Bartok's "Quartet No. 6," and "Beethoven's "Quartet in F major, op. 135".

The instrumentalists are Robert Mann and Early Carliss, violins, Samuel Rhodes, viola, and Joel Kronnick, cello.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division 465-5387 (Network Line 475-1387). Do not contact the area having these positions. Applications will be accepted until 5 p.m.:

THURSDAY, JANUARY 2, 1975 SENIOR RESEARCH AIDE, COLLEGE OF AGRICULTURE — University Park

Supervise employees in seed preparation, fertilization, seeding, spraying, maintenance work on forage crop and pasture experiments. Instruct and assist graduate students in the practical aspects of forage crop harvesting, seeding, fertilization, seedbed preparation, etc. Design and establish field experiments to determine the effect of management variables on the performance of forage and pasture species and livestock. Bachelor's degree or equivalent in animal science or agronomy with minor or strong interest in the related area, plus one to two years experience, or an associate degree in animal science or agronomy with two to four years of related experience.

SERGEANT — Capitol Campus

Responsible for the supervision of the evening or night patrol, as well as various checks, details, and related duties, to assure the safety and security of the personnel and property of the Capitol Campus. High school education with courses in Police Officer Training, plus two to four years related experience with part of this experience in a supervisory capacity.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

WPXS highlights

Sunday, Dec. 22 — Recorded, Penn State-Indiana State wrestling meet, 4 p.m. (Meal on Dec. 14).

Sunday, Dec. 22 — Scientists who developed use of anesthesia, on "Now," 7:30 p.m.

Monday, Dec. 23 — Jean Sebatine, director of Jazz Dance Theatre, on "Talkabout," 10 p.m. Also Tuesday, Dec. 24, 3 p.m., Saturday, Dec. 29 at 1:30 p.m.

Tuesday, Dec. 24 — 1972 (recorded) Christmas Concert by Concert and Chapel Choirs, 9 a.m.; also Wednesday, Dec. 25, 1 p.m.

Wednesday, Dec. 25 — Leonard Bernstein and Boston Symphony, 8 p.m.

Thursday, Dec. 26 — Jaccinto Theatre concert, 9 p.m.; also Saturday, Dec. 28, at 8 p.m.

Art classes

The Department of Art Education will provide ten art classes for children and teen-agers in the Winter Term.

The classes will be held each Saturday, 8:45 to 10:45 a.m. from January 11 to Feb. 22. From this week until Jan. 6, enrollment of the child can be done by calling 865-6570 between 8 a.m. and 5 p.m.

Classes to be offered are: arts and crafts, ages 6-7; drawing and painting, 6-7; 3-D art, 8-12; sculpture and crafts, 8-12; drawing and painting, 8-12; ceramics for teens; sculpture for teens; drawing and painting for teens; printmaking for teens; and jewelry for teens.

Gerontology training project gets aid

The Gerontology Center in the College of Human Development has received a one-year renewal grant of \$103,000 from Old Americans Act funds for a project entitled "Social Gerontology — Training and Community Service."

Dr. Tom Hickey, associate professor of human development and associate chairman of the Center, said the long-range goal of the subject is "the improvement of services to the State's elderly by implementing a program of research and continuing education focused on the providers of gerontological services to older people."

The project was examined recently at a national meeting as a possible model for the development of statewide educational consortia in gerontology.

Dr. Hickey said specific objectives of the 1975 project year include:

—Continued development of the community-based intern and degree programs for service providers to the elderly, and the development of the resource and referral center in gerontology, under the direction of Dr. Dennis Harmeister and Paul J. Axinn.

—Continuation of the "Society and Aging" series for practitioners and areawide agency personnel, and expansion of developmental work begun in the "Faculty Seminar Series" with various interested educational institutions in the Commonwealth. This work is being directed by Sally White and Michael Greenfest.

—Research in various areas of adult learning in the human services context, directed by Betty Fatula and William Rakowski.

Ice skating lessons available at rink

Ice skaters of all ages, and potential skaters as well, may receive instruction in the Pennsylvania State University Ice Skating School to be conducted on a variety of schedules at the Ice Rink to accommodate the faculty, staff, other area residents and students who can benefit from group instruction.

The first session will be held Saturday, Dec. 21, from 1 to 2 p.m., with Kurt Oppelt, instructor in physical education and former Olympic figure skating pairs champion, in charge.

Each school will consist of five one-hour sessions, in consecutive weeks at the stated time. These sessions will be held in the new year, beginning Tuesday, Wed-

nesday and Thursday, January 7, 8 and 9 at 7:30 p.m.

And also scheduled is a special Christmas school Dec. 23, 24, 26, 27, and 28 at 1 p.m. (Monday, Tuesday, Thursday, Friday and Saturday).

A charge of \$20 for the five sessions is made, payable at registration. Registration for the school can be accomplished at the Ice Rink at any time the rink is open.

These schools have proved tremendously popular in past years. Oppelt is a nationally-recognized teacher of ice-skating, having developed special programs for the handicapped who frequently obtain a psychological lift from their success in learning to skate.

Wilkes-Barre has bio-med program

A new two-year associate degree program in Biomedical Equipment Technology has been established at the Wilkes-Barre Campus.

The program is designed to prepare specialists knowledgeable in the installation, operation, calibration, inspection and maintenance of biomedical and related technical equipment.

George W. Bieri, Wilkes-Barre Campus director, said funding sources for the first year of the program include a grant from the Greater Delaware Valley Regional Medical Program.

"The program objective," he said, "is to provide a continuing supply of persons educated and trained in the rapidly ex-

panding technology of medical equipment by upgrading the skills of current selected hospital employees and developing new skills and capabilities in recent high school graduates, military veterans, and other persons interested in becoming members of the health care delivery team."

Course work for the first year of the program, being offered under the Department of General Engineering, will be the same as that for Electrical Engineering Technology students. Courses in the second year will include specialized aspects of biomedical equipment.

Following completion of the course work, students will undergo a ten-week internship in a hospital.

UNITED —

(Continued from page one)

"The average gift of 1,118 contributing University employees was more than \$9 above last year's average gift," Charles Lupton, executive director of the Office of Gifts and Endowments and University division chairman, said, pointed out.

He said this is commendable considering the inflationary cost of living and overall tighter family budgets.

"This is evidence that those who gave recognize the worthiness of community activities supported by the United Way," he declared. "A quality community is one that provides needed services or essentials for the maintenance of adequate living standards for all."

Lupton said he was proud that so many members of the University Community had fulfilled their community obligations. He is confident the 25 member agencies which provide a variety of worthwhile community services will be able to perform more effectively with this fine support.

Serving as University sub-chairman this year were: Howard W. Thoele, Agriculture; Carroll D. Price, Arts and Architecture; Richard D. Twark, Business Administration; Shelton S. Alexander, Earth and Mineral Sciences; Keith A. Hall, Education; MacDonald Heister, Engineering; J. E. Ward, Health, Physical Education, and Recreation; and Margaret Bastuscheck, Human Development.

Also John Romano, the Liberal Arts; Eugene S. Lindstrom, Science; John A. Domroski, Housing and Food Services; Joseph Kilian, Administration; J. Williams Jacobs, Continuing Education; Robert Marboe, Intercollegiate Programs; Jerry Boyles, Maintenance and Operations; and David L. Colton, publicity.

SENATE —

(Continued from page one)

ties of a Board of Regents; establishing the office and duties of a chancellor of the University; defining the powers and duties of presidents and the council of trustees of the University institutions; relating the power and duties of the State Board of Education with the University; and making certain reports. If passed, both SB 1472 and 743 would have far-reaching effects on Penn State.

Of course, many educationally related bills are introduced which have slim chance of being passed by the legislature. Knowing which are going "to move" and keeping track of them is a responsibility of the External Affairs Committee, working in concert with Vice President Ferguson and his staff. At times the University Faculty Senate may be helpful in delineating policy issues before the Legislature which are of considerable concern for the University. The Committee feels, moreover, that in most instances the image and advancement of the University will be enhanced if individual faculty, the University Senate, and the University administration are knowledgeable about what the other is doing and each endeavors to complement the efforts of the other.

Achieving this goal will require communication and cooperation. This is one of the jobs of the Senate External Affairs Committee. Developing ways of acquainting the faculty with legislative needs and how the legislature operates is an objective in the months ahead. The Committee encourages all faculty and staff to become better acquainted with his/her legislator. In most cases, this relationship will have positive results for the total University. In a way, that's what external affairs is all about.

Books on sale

For a last-minute Christmas shopping idea, consider the sale of University press titles, including art books, which are available at 25 per cent off until the end of the year. You can buy them from 215 Wagner during usual office hours.

Council considers confidentiality

A suggested Interim University Policy on Confidentiality of Student Records was considered December 5 by University Council, one of several governing groups asked to study the proposal.

Because of the need to finalize policy by Jan. 1, Council members delegated to a sub-committee appointed Nov. 7 to propose guidelines and recommendations on recordkeeping the task of studying the proposal and making recommendations regarding it.

Kenneth M. Novak, graduate student, is chairman of the subcommittee, which was to make its report earlier this week to the chairman of the Council, Provost Russell E. Larson.

The Council also heard a report on his response of academic department heads to the survey made among graduating seniors last Spring in which the seniors evaluated courses they had taken during their college years.

Where more than three comments were made on a specific course, a report was forwarded to the department head concerned. Of the 100 department heads receiving reports, 82 responded.

The responses indicated that the evaluation of courses identifies instructors who have superior teaching ability as well as those who need to be more closely counseled; that it identifies courses needing to be more closely evaluated; that benefits of the evaluations outweigh disadvantages; that the evaluation should be made every Spring Term; and that data from successive years (a similar survey was made in 1973) are much more meaningful than the data from a single year.

After hearing the report, made by Laurie P. Greenhill, director, and Dr. David W. Stickle, supervisor of examination services, both of the Division of Instructional Services, Council voted to have a similar survey conducted of graduating seniors when they register for the 1975 Spring Term, which will provide data for the third successive year.

Take-home pay will change with taxes

Take-home pay of University faculty and staff members in 1975 will be affected by changes in Social Security and by changes in the Pennsylvania Income tax rate.

Although the Social Security tax rate of 5.85 per cent remains the same as it has been in 1974, the "base" of \$13,200 will be raised to \$14,100 in the coming year. Employees earning less than \$13,200 will be unaffected by the change, but those with salaries above that amount will pay more in the year; that is, the monthly deduction will remain the same but the percentage deduction will be made over a longer period. The maximum additional amount to be paid in 1975 is \$5. The increase will go to pay for increased SS benefits.

Last Spring, the Legislature reduced the State income tax rate, retroactive to January 1, 1974, and adjusted withholding rates for the remainder of the year to compensate for the difference. Since May 1, 1974, the State income tax has been withheld at the rate of 1.85 per cent. In January, 1975, the deduction will be made at the rate of two per cent and remain so for the year, unless further changes are made by the Legislature. The difference in take-home pay is only 0.15 per cent of gross salary.

TV quarterbacks

A post-Cotton Bowl TV Quarterback program, with Joe Paterno, Jim Tarmann and Fran Fisher, will be broadcast over WPXS and WOED in Pittsburgh, Sunday, Jan. 5, at 7 p.m. The same program will be broadcast by WLTV, Allentown, Tuesday, Jan. 7, at 9:30 p.m. and over WYAT, Scranton-Wilkes-Barre, Thursday, Jan. 9, at 9 p.m.

A Merry Christmas and Happy New Year

To provide economic support, security for present faculty, staff

President announces controls on budget commitments

To help to insure maximum security for faculty and staff of the University at a time when the University faces serious financial needs and limited resources, President John W. Oswald on Tuesday outlined Procedures to Control Permanent Budget Commitments in a letter addressed to members of his staff, the Council of Academic Deans, and the Council of Commonwealth Campus Directors.

BACKGROUND

As you know, Governor Shapp has found it necessary to veto Senate Bill 1960 which would have provided \$1.7 million to cover legislatively mandated employee costs of State Retirement. Act 31, enacted last March, provided further improvements in retirement benefits for members of the retirement system including faculty, staff, and other employees of the University. As a result, the employer's contribution, paid by the University budget, was further increased. We have not been able to absorb this new obligation into our budget together with escalating costs of inflation and have been seeking appropriate relief from the State Government. We now have been officially notified that a substantial additional increase in the Employer's share will be required in fiscal 1975-76 in order to insure financial soundness of the Retirement Fund. We already have amended our 1975-76 Appropriation Request upward by \$2.9 million to reflect this.

We will continue to seek supplemental

State support for this mandated and greatly increased continuing budget cost for important staff benefits. As you all are aware, the problem of obtaining additional State support is made much more difficult because State revenues are limited and the numerous state supported Agencies are also subject to inflationary cost increases.

Our direct costs of Physical Plant operations have increased this fiscal year to \$3 million above the initial budget. Prospects are for further increases next year, due almost entirely to increases in fuel and utilities costs. Previously announced conservation measures, and others we may find necessary and possible in the future can help to hold down the rate of physical plant cost increases somewhat, but we nevertheless continue to experience unavoidable cost increases.

The Midyear Budget Review, which has just been completed, confirmed the existence of a number of urgent situations requiring prompt attention, particularly in mitigating teaching overloads caused by increased enrollments in a few departments. In many cases, enrollments can be handled with existing numbers of faculty and graduate assistants. In some cases, however, this does not appear to be reasonable to expect.

Faced with these serious financial needs and limited resources, I am determined, to the extent of our ability, to devise measures that will provide maximum economic support and security for persons now employed by the University.

Finally, we continue to be aware of the need for appropriate salary adjustments next year, to assist in coping with the increased prices of family necessities and to maintain equitable compensation levels for Penn State's faculty and employees.

It is vital, therefore, that measures be taken to permit future internal budget reallocations and to hold down expenses in order to meet most essential needs.

I have already directed even greater emphasis on energy conservation measures, through the Executive Energy Conservation Committee chaired by Vice President Ralph E. Zilly. In the near future, I will communicate with you regarding further measures we may need to take to seek further economies in the areas of travel, supplies, communications, and other operating expenses. In the meantime, I am instituting as a first step the position control procedures described below. These measures are designed to increase our budget flexibility for 1975-76 in a manner that will be least disruptive of essential operations.

PROCEDURES

A. Hiring Restrictions on all classes of Employees. Effective January 6, 1975, no continuing regular positions are to be filled until further notice. Letters of offers mailed prior to January 6 will be honored, but no additional offers may be made unless ap-

(Continued on page two)

Parking stickers

Clone Barr, of the U.O.I.S. staff, reminds all faculty and staff members that the deadline for applying the new parking decals for the University Park Campus is Jan. 15, when enforcement will begin. If you are eligible for a decal and have not yet received one, see your parking chairman.

News in brief

RETIRED STAFF CLUB

The Retired Staff Club will hold its 16th meeting today (Thursday, Jan. 9) at the St. Andrews Episcopal Church Life Center at 7 p.m. Dr. Napoleon Chagnon (associate professor of anthropology who is subject of a feature story in this issue of INTERCOM) will show slides and discuss his experiences among the Yanomamo Indians.

YORK WORKSHOP

A management planning and controlling (Continued on page four)

Field research among Yanomamo gave Chagnon many problems

After your parents have christened you Napoleon, what can you do for an encore? You may not want to go quite as far as anthropologist Napoleon A. Chagnon did to get a new name. He acquired the title of "Shaki" after spending three years in the wilds of the Venezuelan jungle with the Yanomamo Indians, as the first outsider many of them had ever seen.

Dr. Chagnon, an associate professor, has thus far written two books about his experiences and documented them further with some 100,000 feet of film, from which he and his partner, Timothy Asch, will produce at least 50 ethnographic movies. Copies of their original prints are

placed to repose in the Smithsonian Institution as the record of a culture ultimately doomed to vanish under the jangling of missionaries and the ravages of civilization-induced disease.

Three of Dr. Chagnon's award-winning

FILM SHOWING

Dr. Napoleon Chagnon's film, "A Man Called Ben," concerning his research with the Yanomamo Indians noted in the accompanying article, will be shown Tuesday, Jan. 14, at 7:30 p.m. in Room 102 Forum. There is no admission charge.

films are already in classroom service, puncturing completely the myth of the

noble savage leading a carefree, happy life in the wild.

Dr. Chagnon himself had a certain romantic bias when he made his first trip to Venezuela in 1964. He describes his hopes in his book, *The Fierce People*, at the moment of his initial contact with the tribe:

In just a few moments I was to meet my first Yanomamo, my first primitive man. What would it be like? I had visions of entering the village and seeing 125 social facts running about calling each other kinship terms and sharing food, each waiting and anxious to have me collect his genealogy. . . .

Reality, alas, was quite different. The Indians were covered with dirt, boastful, and frequently "high" as the result of inhaling hallucinogenic snuff. They nagged continually for food and gifts, lied — often very ingeniously — about their kinship patterns, beat their wives, and warred incessantly on one another. The level of warfare was a particular shock.

"It has been widely assumed among anthropologists that warfare is a recent development," Dr. Chagnon notes, "that given their natural bent, primitive peoples would not fight, or if they did, it would only be as a result of a shortage of calories or land. This is simply not true. The warfare level of the Yanomamo is very high by world ethnographic standards, yet they have more land than they know what to do with and plenty of food. During my first 15-month stay with them, I witnessed innumerable club and ax fights and regularly visited a village which had been raided 25 times."

Dr. Chagnon believes there are about 10,000 to 15,000 Yanomamo living in some 125 widely scattered villages of from 40

to 250 inhabitants. Many of these villages have never been contacted by outsiders, so any estimate must depend to a certain extent on word-of-mouth and guesswork. Although there may be larger uncultivated tribes still living in New Guinea and other parts of Melanesia, the Yanomamo are the largest group left in South America.

Their days are numbered, however. Missionaries are trying to convert them, and contact with outsiders produces devastating effects. A common cold or measles can wipe out half a village.

Field research with the Indians posed many problems. Dr. Chagnon's goal was to chart the tribe's social organization by establishing marriage and kinship patterns. The Yanomamo, however, have a taboo on mentioning the names of the dead, which obviously constitutes a great obstacle to someone interested in tracing their genealogy. It was many months before Dr. Chagnon realized that they were simply making up outrageous names for him to record conscientiously in his field notebooks. Finally, he located a few trusted informants, usually outsiders in the village where he was working, to give him facts which he could cross-check in the next village.

The Yanomamo settlements are tiny clearings set in the midst of dense jungle usually with adjacent gardens where they cultivate plantains, a member of the banana family; sweet manioc, a root crop that can be refined into flour; potatoes; maize; and peach palms. Tobacco and cotton are also grown. Housing is simple. Each family builds itself a section of a common, circular shabono, made from poles thatched with leaves. When it begins to leak or the bugs in the roof get too much for them, they simply burn it down and start anew.

(Continued on page four)

Dr. Napoleon Chagnon, associate professor of anthropology, is known as "Shaki" to the Yanomamo Indians of Venezuela, where he spent three years studying the Indians, finding a number of facts that discount commonly held beliefs about such peoples.

University Park Calendar

January 9-19, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Friday, Jan. 10 — University Readers, 7 p.m., Room 112 Kern.
Friday, Jan. 10 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern. New talent.
Saturday, Jan. 11 — Artists Series, Julliard String Quartet, 8:30 p.m., Schwab.
Saturday, Jan. 11 — Sports: Women's rifle, vs. Carnegie Mellon, 2 p.m. Men's fencing, vs. Johns Hopkins, 2 p.m. Men's basketball, vs. West Virginia, 8 p.m., Rec Hall, Wrestling, vs. Kentucky, 2 p.m., Rec Hall.
Saturday, Jan. 11 — Special Martin Luther King birthday observance program, 7 p.m., Chapel Main Lounge, with Rev. Vernon M. Herron and Dr. Roslyn P. Glazerman.

Seminars

Thursday, Jan. 9 — Chemistry, 12:45 p.m., Room 333 Whitmore. Robin M. Hochstrasser, University of Pennsylvania, on "Chemical Dynamics and Spectroscopy in the Picosecond Regime."
Thursday, Jan. 9 — Physics, 3:35 p.m., Room 117 Osmond. Martin Gutzwiler, IBM Watson Research Center, New York, on "Ferromagnetism in Transition Metals."
Thursday, Jan. 9 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences, Lance Bosart, State University of New York, Albany, on "Observations of Mesoscale Circulations."
Thursday, Jan. 9 — Statistics, 4 p.m., Room 69 Willard. Gary Simon, Princeton University, on "Kendall's Tau in Multivariate Situations."
Thursday, Jan. 9 — Biophysics, 4 p.m., Room 617 Life Science I, Dr. H. Clarke Anderson, Downstate Medical Center, State University of New York, on "The Role of Matrix Vehicles in the Cellular Regulation of Calcium."
Thursday, Jan. 9 — Agronomy, 3:45 p.m., Room 301 Ag. Adm. Jim Hook on "Wastewater Nitrogen — Hindrance to Disposal of N-Fertilizer Source."

Meetings

Thursday, Jan. 9 — College of Liberal Arts faculty, 3:30 p.m., Room 121 Sparks.
Monday, Jan. 13 — USG Senate, 7:30 p.m., HUB assembly room.
Monday, Jan. 13 — Gamma Pi Epsilon, Women's Pre-medical Society, 8 p.m., McElwain piano lounge. Richard R. Bishop, electrical engineering, on "Biomedical Engineering."
Monday, Jan. 13 — OTIS, 6:30 p.m., Room 203 HUB.
Tuesday, Jan. 14 — ARHS, 7:30 p.m., Room 203 HUB.
Tuesday, Jan. 14 — Returning Women Students, 7:30 p.m., Room 102 Kern.
Dr. Erlise Snyder, professor of sociology, speaker, with group discussion to follow.
Wednesday, Jan. 15 — Association for Women Students, 7 p.m., Room 203 HUB.
Thursday, Jan. 16 — English Department faculty, 3:45 p.m., Nittany Lion Inn, Fire-side Room.

Exhibits

Museum of Art — Paintings, Drawings and Prints of Bruce Shobaken, Gallery A. Carlo Maratti and His Contemporaries. Drawings from the Italian Baroque, Gallery C. opening Jan. 19. Selections from the Permanent Collection, Gallery B.
Zoller Gallery — Works by new art faculty members Sue Hettmansperger and Christine Manchester (prints); Robert Dieckes, David Rubelle, John Schmidt, and Walter Hamilton (paintings); Rolf Koppel (photos); Anessa Strong and Andrew Vargo (graphic design); Steve Porter, John Spaulding, Ronald Gallas and Rob Fisher (sculpture). Until Jan. 18.
Hammond Gallery — 95 panels of photographs of architectural works by Donato d'Agostino Bramante (1444-1514), architect for St. Peter's basilica; three models.
Chambers Gallery — Kirsch, media.
Kern Gallery — Penn State Press exhibition of the 1974 Book Show of the Association of American University Presses, Jan. 13-15, from 10 a.m.-4 p.m.
Chambers Bldg., Bridge, 2nd floor — 18 Window Panels by art education undergraduates, until Jan. 10.

Lecture

Thursday, Jan. 9 — International Affairs Lecture, Don Luce on "Vietnam: The Prospects of Reconciliation," 7:30 p.m., Room 101 Kern.

Sunday, Jan. 12 — Chapel Service, 11 a.m., Black Cultural Center. Martin Luther King Memorial Service, Rev. Vernon M. Herron, National Ministries, American Baptist Churches, Valley Forge.
Sunday, Jan. 12 — University Readers, 7 p.m., Room 112 Kern.
Monday, Jan. 13 — Anita Greenlee, organ recital, 8:30 p.m., Music Recital hall. Music by Pascheibel, Bach, Franck, and Messiaen.
Tuesday, Jan. 14 — GSA Workshop, 7:30 p.m., Room 101 Kern.
Wednesday, Jan. 15 — Thalia Trio, 8:30 p.m., Music Rec. hall. Beethoven's Trio No. 1 and Tschalkowski's Trio, Op. 50.
Wednesday, Jan. 15 — Artists Series Chapel film, "City Lights," 8:30 p.m., University Auditorium.

Thursday, Jan. 9 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences, Lance Bosart, State University of New York, Albany, on "Observations of Mesoscale Circulations."
Friday, Jan. 10 — Statistics, 4 p.m., Room 102 McAllister. John Wellner, mathematics, University of Washington, on "Inequalities for Empirical Processes."
Monday, Jan. 13 — Architecture, 7:30 p.m., Room 128 Sackett. Frederick Fensler, Architects and Engineers Collaborative, State College, on "Side-Track Approach to Architectural Practice."
Monday, Jan. 13 — Genetics, 3:55 p.m., Room 111 Life Science, Dr. Robert P. Pfeiffer, agronomy, on "Procedures and Experiences Concerning Patent Applications for Genetic Materials."
Monday, Jan. 13 — Biophysics, 4 p.m., Room 617 Life Science I, Dr. Klaus Weber, Cold Spring Harbor Laboratories, Cold Spring Harbor, N.Y., on "Visualization of Structure in Mammalian Cells Using Specific Antibodies."
Monday, Jan. 13 — Ecology, 4 p.m., Room 112 Kern. Dr. Herman Klerkepool, Texas A. & M. University, on "Orientation Mechanisms in Fish and Sharks."

Friday, Jan. 17 — Women's Conference, jammy, "The Deadly Nightshade," 9 p.m., HUB ballroom.
Friday, Jan. 17 — Folk and Square Dance Roundup, 7:30 p.m., White Bird, south gym.
Friday, Jan. 17 — Artists Series, Prague Chamber Orchestra, 8:30 p.m., University Auditorium.
Friday, Jan. 17 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern. New talent.
Friday-Sunday, Jan. 17-19 — University Children's Theatre, "Otoi," Pavilion Theatre, Friday at 2:30 and 7:30 p.m.; Saturday at 10:30 a.m. and 2:30 p.m.; Sunday at 2:30 p.m.
Friday, Jan. 17 — Sports: Men's fencing, vs. Notre Dame, 3:30 p.m., Rec Hall.

Saturday-Sunday, Jan. 18-19 — Women's Conference, workshops, Saturday from 11 a.m.-5:30 p.m., Sunday 10 a.m.-5 p.m., HUB ballroom.
Saturday, Jan. 18 — Women's Conference, feminist speaker Rita Mae Brown, 8 p.m., Schwab.
Saturday, Jan. 18 — Sports: Women's fencing, vs. Jersey City, University of Pennsylvania, and Randolph-Macon, 9 a.m. Wrestling, vs. West Chester, 2 p.m., vs. North Carolina, 8 p.m., Rec Hall.
Sunday, Jan. 19 — Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Russell Larson, Provost.
Sunday, Jan. 19 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Thursday, Jan. 16 — Chemistry, 12:45 p.m., Room 333 Whitmore. Donald Jerffe, National Institutes of Health.
Thursday, Jan. 16 — Physics, 3:35 p.m., Room 117 Osmond. H. K. Hentsh on "Beginnings of Photography: The Invention of the Photographic Process, Its Reception by the Public and Its Uneasy Relationship with Graphic Arts."
Thursday, Jan. 16 — Biophysics, 4 p.m., Room 617 Life Science I, Dr. William Catterall, National Heart and Lung Institute, Laboratory of Biochemical Genetics, NIH, on "Activation of the Action Potential Sodium Ionophore by Neurotoxins."
Thursday, Jan. 16 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. John J. Cahir on "AFOS."
Thursday, Jan. 16 — Statistics, 4 p.m., Room 69 Willard. Professor K. Ruben Gabriel, Hebrew University, Jerusalem, on "The Biplot — a Graphical Aid to Interpretation of Multivariate Data."
Friday, Jan. 17 — Ceramic Science, 11 a.m., Room 301 Mineral Industries, V. S. Ban, RCA, Princeton, on "Mass Spectrometric Probing of CVD Gases."

Films

Thursday-Sunday, Jan. 9-12 — USG film, "Journey through the Past," 6:30, 8:15, and 10 p.m., HUB assembly room.
Friday-Sunday, Jan. 10-12 — Centre Cinema, "The Owl and the Pussycat," 7:30 and 9:30 p.m., Room 111 Forum.
Monday, Jan. 13 — French film series, "The Soft Skin," 7 and 9 p.m., Room 102 Forum.
Monday-Tuesday, Jan. 13-14 — Simmons lounge film series, "Jane Eyre," 7 and 9:15 p.m., Simmons lounge.
Tuesday, Jan. 14 — "A Man Called Bee," produced by Dr. Nelson Chagnon, 7:30 p.m., Room 102 Forum.
Tuesday-Wednesday, Jan. 14-15 — Commonsplace Theatre, "Barbarella," 7 and 9 p.m., Room 112 Kern.

Artists Series

One of the most famous of Charlie Chaplin's films will be featured Wednesday, Jan. 15, on the Chaplin Film Festival (in University Auditorium, 8:30 p.m.) when "City Lights" will be shown. This 1931 film, considered one of the most melancholy and beautiful of Chaplin's efforts, concerns the little tramp's love for a blind girl who sells flowers on the street corner. Tickets for the film will be sold at the door one hour before showing.

Tickets for the Artists Series program by the Prague Chamber Orchestra Friday, Jan. 17, will go on sale Monday, Jan. 13, at the University Auditorium, where the performance will be given, and at the HUB. The orchestra will play Haydn's "Symphony in C Major, No. 48" (called the "Mute Theresa symphony"); Janacek's "Sule for Strings"; and Mozart's Symphony in E-flat Major, No. 39.

Other events in January on the Artists Series are: Tuesday, Jan. 21, Bergman film, "Wild Strawberries"; Sunday, Jan. 26, "River Niger," the Negro Ensemble drama production of the Joseph Walker hit play; and Friday, Jan. 31, the Matteo and Indo-American Dance Co.

Tickets are currently on sale at the HUB for the Artists Series performance Saturday (Jan. 11) by the Julliard String Quartet in Schwab Auditorium, beginning at 8:30 p.m.

These Federal Republic of Germany gymnasts will compete against women gymnasts of the U.S., as will a team of men, in Rec Hall Jan. 24-25.

Avenir to compete against W. Germans

One of the highlights of the January sports scene in Rec Hall is the gymnastics competition between a team from West Germany and a selected team of outstanding U.S. gymnasts. Both men and women. Among the American gymnasts to be competing Friday and Saturday, Jan. 24-25, are: Marshall Avenir, former Penn State star, and John Crosby, Olympian.

Tickets for the two nights are current-

ly on sale in Rec Hall (Room 237), at \$9 per ticket. The first evening's events include women's vaulting and uneven bars and men's floor exercises, pommel horse and rings. The second evening (Saturday) will have women's balance beam and floor exercises and men's vaulting, parallel bars and horizontal bar. The Penn State Blue Band, directed by Dr. James Dunlop, will entertain.

Theatre opens with children's play

John Wheatcroft's "Otoi" will open the University Theatre's Winter Term program. A Children's Theatre production, directed by Helen Maruff, assistant professor of theatre arts, the play is the story of a boy's search for a troll, a creature living in his imagination that both frightens and fascinates him.

"Otoi" will open Friday, Jan. 17, at Pavilion Theatre, with performances at 2:30 and 7:30 p.m. Other performances will be given Saturday, Jan. 18, at 10:30 a.m. and 2:30 p.m.; Sunday, Jan. 19, at 2:30 p.m.;

Friday, Jan. 24, at 2:30 and 7:30 p.m.; Saturday, Jan. 25, 10:30 a.m. and 2:30 p.m.; and Sunday, Jan. 26, 2:30 p.m. Tickets for "Otoi" will go on sale at the University Theatre box office (reservations, call 865-1884) January 13 and will be available at the Pavilion box office on performance days from 6 to 8 p.m., and on days of afternoon performances tickets will be available one hour before curtain.

methods workshop for engineers and managers will be held at York Campus Jan. 17-18. The two-day workshop on PERT/CPM (Program evaluation and review technique and the critical path method) will include fundamentals of the methods as well as applications in planning, scheduling and cost control. Merrill W. Buckley, Jr., administrator of planning and measurement in the Missile and Surface Radar Division of RCA Corp., Moorestown, N.J., will be the workshop leader.

KING REMEMBRANCE

A special hour of remembrance and reflection to celebrate the birthday of Martin Luther King will be held Saturday, Jan. 11, in the large lounge of the Helen Eakin Eisenhower Chapel, beginning at 7 p.m. Dr. King will be present during the informal discussion. They are the Rev. Vernon M. Herron, secretary of the Division of Social Ministries of National Ministries, a national agency of the American Baptist Church, and Dr. Roslyn P. Glazerman, assistant professor of religious studies at Penn State. Dr. Herron will be the Sunday chapel speaker the next day.

Anyone may attend this gathering, which is symbolic of the need expressed by Dr. King for people of all persuasions and races to talk together.

CHAGNON —

(Continued from page one)

One of Dr. Chagnon's in-depth studies was made in the large village of Mishimaboweli, which he first contacted in 1968 and describes in his second book, *Studying the Yanomamo*. He had long wanted to visit this previously uncontacted village, but had been put off by rumors that it might cost him his life. He finally decided to attempt the trip guided by Karina, a 12-year-old boy who had been born there, and accompanied by a second, older boy to help with the gear. Their journey took them up the completely uncharted Mavaca River. On reaching the dropping-off point for the village, the older boy refused to go any farther, announcing he would remain with the canoe. He not only remained with it; he stole it, stranding Dr. Chagnon in a completely unexplored wilderness with natives whose intentions could only be guessed at.

There were very few palatable alternatives, and, perforce, Dr. Chagnon set to work and built his first — and only — canoe, which he hacked out of a tree trunk with the help of a rusty ax which had fortunately made its way to the village. As a canoe-builder, however, he had something to learn. His progress down the river was a series of capsize before Karina and he finally made it back to their base camp.

One night, as he later learned, three natives planned to kill him while he lay ill in a village he was visiting for the first time. Awakening periodically during the night, he shined his flashlight around the village, remembering earlier advice that it was always a good idea to show you were *moyawe* — alert. The natives who had been creeping up on him with axes were dissuaded by the light — and the knowledge that he kept his loaded shotgun by his hammock.

What makes an anthropologist take these risks, not to mention the physical conditions most people would not endure for five minutes — heat, dirt, marginal

BOOK SHOW EXHIBIT

An exhibition of the 1974 Book Show of the Association of American University Presses will be held January 13, 14 and 15 in the Kern Graduate Bldg. Commons exhibit area from 10 a.m. to 4 p.m. The Penn State Press is sponsoring the local showing, which includes 26 books that were chosen from more than 100 submitted by the 55 members of the Association to represent the highest level of design and production in bookmaking. The jacket of a Penn State Press Book, designed by Marilyn Shobaken, art director of the Publications Department, won special recognition in this year's show. The book, by the late Dr. Frank D. Kern, is titled "A Revised Taxonomic Account of Gymnosporangium."

MATH AT CAPITOL

A mathematics lecture series for Harrisburg-Middletown area schools has been initiated by the Capitol Campus department of mathematical science. Dr. Frank Swetz, associate professor of mathematics and education, is coordinator of the program, which is designed for students of junior and senior high schools, mathematics clubs, teacher groups, and parents' organizations. The lectures will be such topics as Game Theory, Why Statistics, and Modern Mathematics — What Went Wrong?

diet, dangers from snakes and wild animals, and a frequently noticed, rarely lovable people?

Dr. Chagnon grew up in a town of 500 in Michigan, one of 12 children. (The name "Napoleon," which he recalls cost him quite a few black eyes in childhood, came from his French Canadian family. Both his paternal and maternal grandparents bore it. His native nickname, "Shaki," was simply a corruption of Chagnon.)

"My mother's hearing was not the best condition," he muses. "I always spent a lot of time in the outdoors and enjoyed hunting and fishing. But I am also a compulsive achiever; I have to get right to the head of the pack. So I went to work for a year after high school to earn money for college, and because it was around the time that Sputnik was launched, I decided to go into what was then a glamor field — physics."

He started out at Michigan College of Mining and Technology (now Lake Superior State College), then transferred to the University of Michigan in his sophomore year. As part of his degree requirements, he took a course in anthropology and found out what he really wanted to do. He stayed on at Michigan for his master's degree and doctorate, beginning his fieldwork with the Yanomamo in 1964 and returning each year through 1972.

"If you want to become prominent in your profession, it helps to pick the kind of field situation no one else wants to touch," he continues in explanation of his drive. "Of course, I started out in anthropology with the Yanomamo. I realized what an exceptionally rare opportunity it was to study a pristine social organization, and that knowledge encouraged me to stay longer in the field than I'd planned."

On his first visit to the Yanomamo, Dr.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 885-1387 (Network Line 475-192). Do not contact the Employment Division. Applications will be accepted until 5 p.m.

THURSDAY, JANUARY 16, 1975

LIBRARY SYSTEMS SPECIALIST, UNIVERSITY LIBRARIES, UNIVERSITY PARK

Responsible to the Chief of Systems Development for supervision of system programming (research, planning, implementation and testing) on Library's Sigma 9 computer; responsible for management and coordination of Systems staff, for the development, presentation and justification to Administration of comprehensive project documentation. Bachelor's degree or equivalent in appropriate field, four to five years project related experience with medium and large scale time-share computer systems and/or significant experience in large university of special libraries.

RESEARCH AIDE (BIOCHEMISTRY), COLLEGE OF MEDICINE, UNIVERSITY PARK

Inject biochemical materials into laboratory animals; isolate cellular structures from animal tissues by centrifugation; assay for enzymes and biochemical components; make and perform chromatographic separations of biochemical materials; isolate and characterize enzymes. Conduct experiments with radioactive samples. Aid minimal animal surgery. Bachelor's degree or equivalent is required. Research biochemical literature related to the laboratory work as directed. Bachelor's degree or equivalent in Biochemistry or related biological field with up to two years' related experience.

Chagnon took a Bolex movie camera with him. He had been interested in still photography ever since high school but had no experience with motion pictures.

"There really has been very little attempt to document native cultures with motion picture films that are academically useful as well as aesthetically pleasing," he says.

"What you get is either a highly technical film, say 30 minutes on how to insert a flip plug, or something artistically significant but not ethnographically sound."

"After I had shot my first footage, I became convinced that film could be used as a valuable adjunct to writing to make a culture more intelligible both to one's professional colleagues and to students. It gave me the capacity as an anthropologist to document very small but highly complex incidents and to bring out their complexity in a way that words simply can't convey."

Dr. Chagnon struck up a partnership with Timm Asch, a filmmaker who has also studied anthropology with Margaret Mead. Together, carrying a canoe of film and more sophisticated equipment (an Arriflex camera which synchronizes sound), the two men journeyed to Mishimaboweli. Asch did the bulk of the actual filming; Dr. Chagnon, in essence, contributed the scenario, determining which incidents were of anthropological significance. Their first three films, *The Feast*, *Magical Death*, and *Yanomamo: A Multidisciplinary Study*, have captured first prizes at film festivals around the world. "It's a little bit like the sophisticated theoretical statements in a film," Dr. Chagnon maintains. "The Feast, for example, is a 16 mm. documentation of reciprocity theory: People are linked to each other in reciprocal obligations to give women, goods, and services. Most film-

Knowledge of biochemical techniques and skill in operating biochemical instruments.

EDITORIAL ASSISTANT, DIVISION OF UNDERGRADUATE STUDIES — UNIVERSITY PARK

Responsible for assistance in the writing and editing of one of the Division's continuing publications and reports generated by the Division of Undergraduate Studies Academic Information Center. Assist the director and administrative staff with the collection, maintenance and distribution of information pertinent to several areas of the Division's responsibility. Bachelor's degree or equivalent in English, Journalism or a related area plus six to nine months' experience in editing, report preparation and writing.

SUPPLY SPECIALIST, UNIVERSITY BOOKSTORE — UNIVERSITY PARK

Responsible for the non-book operation of the University Park Bookstore. Associate degree or two years' experience in retail sales and/or the operation of a significant size store, including operation. Completion of the National Association of College Stores Management Seminar is desirable.

PROGRAM ADMINISTRATOR — HERSHY MEDICAL CENTER

Responsible to the Director of the Medical Program for various administrative responsibilities involving the Medex Grant to include preparation of various reports, maintaining control of the budget and maintaining liaison with various state and federal governmental agencies. A Bachelor's degree or equivalent preferably in Business, plus four to six years of related experience.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

makers simply don't have enough anthropological sophistication to divine this principle. To them, the feast would simply be some 'first fruit' ceremony."

Although it would seem obvious the film is a valuable adjunct to the written word in fieldwork, there is a strong resistance to its use in the anthropological classroom. Dr. Chagnon is eager to turn the situation around by starting a course at Penn State to train anthropology graduate students in the techniques of film making.

"I am concerned about anthropology as a profession, and I don't want to jeopardize the written documents just because it's more fun to make films," he points out. "But good sophisticated films not only make your teaching job easier, they are invaluable records in themselves."

He is not quite through with the Yanomamo. Accompanied by three graduate students, he will return to Venezuela next year to pursue studies of social organization, demography, ecology and warfare in some hitherto uncontacted villages.

Dr. Chagnon admits that it is getting harder and harder to leave his family and the field.

"My threshold of 'fed-upness' gets lower and lower," he comments. "A few years ago, I could spend six months down there untroubled. Now the feeling of having to get out comes on much sooner."

"As a professional anthropologist, one is bound by an obligation not to be disturbed by the fact that one is not much. So when you're pushed around by someone very tyrannical, a not uncommon characteristic among the Yanomamo, you are supposed to bend with the blows. I'm not that kind of person. I did it for three years, and now it's more and more difficult."

15, 1975; and Thesis Papers Appointments for graduate students — one month before starting date. Group 1975-76: Graduate students who have been designated for admission to the College Library Resources Program, Library Research and Demonstration Program, and Library Training Program. (Ref. 39FR46872.73, 12/26/74).

(161-4) New Office of Health Grants (Grants) and Office, Div. Research Grants, Bethesda, MD 20514 invites applications for departments for pre-doctoral and post-doctoral research grants to be awarded to individuals selected by the department. The application deadline is Feb. 15, 1975. Awards are to support research-oriented training in biomedical and behavioral research. The National Research Service Awards. For further information write to the address given above enclosing a questionnaire addressed either for the return of the questionnaire or for the return of the questionnaire (Boucke) is available. **Quarterly Grants** — one-half of tuition for 1975-76 for Penn State graduate students who are undergraduate students. A demonstrated interest in participation in public research. The application deadline is April 1, 1975. The student must be full-time and must be a U.S. citizen. For further information, application forms and further information go to 135 Boucke or the Student Affairs Office on your campus.

Aliens note

Gov. Shapp has proclaimed January as 'Alien Address Report Month,' noting that the Immigration and Naturalization Act requires that all aliens report their current addresses in January of each year.

Some confusion may have occurred. It was pointed out, because aliens that have recently, perhaps in December, reported a change in address, were told that they were not required to comply with the January reporting. Such is not the case however; the January address report is made to a different office.

All aliens, therefore, should obtain an "Address Report Card" from the U.S. Post Office (or nearest Immigration and Naturalization Service office in Pittsburgh or Philadelphia) and return it to the post office, during January.

Funding Opportunities

For procedural and funding source information, call 865-1372.

January 9, 1975

(161-1) Proposals are invited by NSF for Applied Research on Public Regulation and Economic Productivity. The effects of regulation upon economic productivity are to be evaluated, according to program objectives, and information for regulatory legislation, industry, and government regulatory bodies in order to "increase the overall social effectiveness and equity of regulation." Twenty awards will be made covering one or more of five categories: degree and type of regulation, organization of the regulatory process, service and product quality, subsidization, and pricing policies. Projects will be limited to two years with up to \$14 million in total funding. The application deadline date is Feb. 19, 1975. This information has been distributed. Program contact is: Div. of Advanced Productivity Research and Technology (APRTR), Research Applications Directorate, NSF, 1800 G Street, N.W., Washington, D.C. (202-632-4061) (Ref. NSF 74-46).

(161-2) The Office of Education (OE) has announced a Jan. 19, 1975 deadline for the four Fullbright-Hays Act programs. Programs and contacts are: Faculty Research Abroad; Ms. Nell Jackson, International Studies Branch, Office of International Education, OE, The A.O. Streets, SW, POB 23,

Washington, D.C. 20002 (202-245-9808); Doctoral Dissertation Research Abroad, Mr. John Paul Nord, (202-245-2754); Group Project Abroad, Dr. Virginia Knowles (202-245-2794); and Foreign Curriculum Consultants (202-245-2794). Forms and applications may be obtained from the International Studies Branch (39FR43415, 12/13/74 and OFF Program Notes).

(161-3) Sixty-one summer seminars (1975), primarily for faculty of two-year colleges and smaller state and private institutions, have been funded by the National Endowment for the Humanities (NEH). Applicants to the two-month June-to-August seminars to be held in 26 states will receive a \$2000 stipend. The seminars are designed to travel allowance. A list of states, seminar directors, locations, and topics is available. Application forms and information are available from the Division of Fellowships, NEH, Washington, D.C. 20506 (202-237-771) (Ref. NEH News 226).

(161-4) An offer of research faculty appointments in the field of anthropology to members and graduate students at the Argonne National Laboratory has been announced by the Argonne Center for Educational Affairs. The appointments programs and their deadlines are: Faculty Research Participation — Feb. 1, 1975; Laboratory Graduate Partnerships — Feb. 1, and Aug. 1, 1975; Biology Research Institute for graduate students — Feb. 1, 1975; Mathematical and Computer Science Research Institute for graduate students — Feb. 15, 1975; Experimental Research Institute for graduate students — Feb. 1, 1975; Materials Science Research Institute for graduate students — Feb.

News in brief

ARTS MANAGEMENT

A conference to review two proposed programs in arts management will be held on January 29 and 30 at the University.

Sponsored jointly by the Colleges of Arts and Architecture and Business Administration and the Division of Continuing Education, the conference will be attended by University personnel and by some 25 invited participants from across the nation, including directors of arts service organizations and visual and performing arts units and representatives of the Pennsylvania Council on the Arts and the National Endowment for the Arts.

Chairing the conference are William E. Crocken, general manager of the Penn State Festival Theatres and assistant professor of theatre arts, and Dr. George Heitmann, associate professor of management science.

To be reviewed are a proposal to establish an interdisciplinary graduate program in arts management and a plan to conduct a two-week executive program in arts management designed for experienced managers in the arts. The conference setting will provide the opportunity for the sponsoring organizations to obtain professional scrutiny and critiques of the proposals.

VICTORIAN BANQUET

A Victorian Banquet, featuring entrees of fried fish with shrimp sauce, roast beef, and roast saddle of mutton, will be staged by the Food Service and Housing Administration 410 (Human Development) class Wednesday, Jan. 22 in the Maple Room of

the Human Development Bldg. Service is at 5:30 p.m. This is one in a series of banquets featuring foods of other lands being planned by the class. Cost is \$4.25 per person and reservations are advised; they may be made by calling 865-7441 in the daytime and 238-2992 in the evening.

PRESIDENT ELECTED

President Oswald has been elected vice president of the Association of American Universities, and next October he will become president. The Association is made up of 48 leading universities in the country; Penn State was accepted for membership in 1958.

CREDIT UNION MEETING

The Penn State Federal Credit Union, whose membership consists entirely of University staff and faculty members, will hold its annual shareholder's meeting Wednesday, Jan. 29, at 8 p.m. in Room 101 Kern Bldg. Election of officers and a review of the services offered to the CU's members during 1974 will be on the agenda. All members are invited.

AG EXTENSION GROWS

The Cooperative Extension Service, in the College of Agriculture, which prides itself on the service it provides for the people of the Commonwealth, reports that its service is reaching more and more people all the time. Last year, for example, Extension held 46,374 meetings attended by 1,552,802 people, and individual help was given to 1,009,079 people by staff members. More than two and a half million publications and circular letters were distributed and more than 22,500 news articles, 3,000 television programs, and 85,000 radio programs were prepared.

And, contrary to what many people seem inclined to think, many of the people served by Extension live in cities and larger towns, not just in rural areas.

INTERNATIONAL DINNER

The HUB Terrace Room cafeteria will feature an International Dinner Wednesday, Jan. 22, with a menu of entrees and desserts from other lands, including: Irish lamb stew; shrimp scampi; South Sea style ribs; veal cutlet Romano; beef Bourguignon; deep fried chicken; and apple strudel, ricotte pie, Dutch apple pie, and walnut torte. Service begins at 4:45 p.m.

PROJECTS APPROVED

Gov. Milton J. Shepp has signed legislation authorizing four capital improvement projects for the University but vetoed one Penn State project in the bill.

Approved are a library-learning center at the Delaware County Campus at Media at an estimated cost of \$3,140,000; laboratory building at the Beaver Campus, Monaca, \$1,182,000; airconditioning for some of the older buildings at University Park which have heavy usage during the summer months, \$3,750,000; and expansion of utilities at University Park, \$650,000.

Alt will be General State Authority projects.

The Governor vetoed a library building planned for Behrend College at Erie, estimated to cost \$5,412,000, which was considered necessary to enable the College to accommodate the 3,500 student enrollment projected for 1985.

The structure at the Delaware County Campus will alleviate a crowded situation where 1,175 daytime students now are using

(Continued on page three)

Women's meeting features feminist

Women's Liberation at the University Park campus is sponsoring a women's conference this weekend, open to all campus and off-campus women whether students or not. Representatives from college campuses throughout the state have been invited to participate.

Entertainment is scheduled for Friday evening in the HUB ballroom, beginning at 9 p.m.

Saturday's program includes both a series of workshops and a presentation at 8 p.m. in Schwab by Rita Mae Brown, poet, novelist, and writer of magazine articles on individualism and feminism. The Saturday workshop topics are:

- 11 a.m. — Self defense.
- 12:30 p.m. — Alternate Life Styles.
- 1:30 p.m. — Theatre.
- 2:30 p.m. — Women and Madness.
- 4 p.m. — Keeping your own name.
- 4 p.m. — Women in the Labor Force.

Sunday's program will include a general meeting at 11:30 a.m. in the HUB ballroom, to be concerned with the advancement of feminism on campuses of Pennsylvania. At 1 p.m., Janet Cooper will speak on "Unity Now — We Lesbians Are Your Sisters." At the same time, a session will be held in the HUB on feminism in sororities. At 2:30 p.m., Dr. Dorothy Harris, of the College of Health, Physical Education and Recreation, will speak on the changing role of women in sports. At 2:30 p.m., the Benedict House will conduct a session on self-examination and contraceptives. And at 3:30 p.m., a session on feminist therapy will be held.

Vienna music lives in books of Mont Alto's Gartenberg

"I consider myself a very fortunate man. The three things I always wanted to do in life were to teach, write and collect medieval manuscripts. I've managed to do all three."

Music is the medium that has enabled Egon Gartenberg to make this statement. It has been part of his life ever since he was a boy in Vienna and a companion and solace during the many years when he was forced to earn his living in less compatible fields.

Now an associate professor of music at Mont Alto, Gartenberg is celebrating the publication this fall of his second book by Penn State's Press. "Johann Strauss, the End of an Era" is a study of Vienna's great waltz king. It was preceded in 1968 by "Vienna, Its Musical Heritage."

"The first book took me nine years to write," Gartenberg recalls, "and I really started it because I missed Vienna so much and despaired of ever seeing the city again. Writing about it was the closest thing to being there."

Gartenberg grew up in the Vienna of the 1920s and 1930. Although his father insisted that he study the piano, he was also a businessman. So while Egon went on to obtain a master of music degree from the Austrian State Academy of Music (where he studied the history of music, piano and conducting), he graduated from the Vienna Academy of Commerce as well.

For a number of years, Gartenberg worked for his father, a hardware wholesaler and "the toughest boss I ever had." But he readily admits that it was his father who introduced him to Beethoven sonatas

and Schubert Lieder, to the drama of Goethe and Schiller, and to the opera and symphony. He received his first instruction in piano from his mother.

While working for his father, Gartenberg had the foresight to apply at the American Embassy in Vienna for a quota number which would allow him to emigrate. When war broke out in Europe, he managed to get a job with Standard Oil, which sent him to Aruba in the Dutch West Indies. It was there that he received his U.S.

visa. It could hardly have come at a better time, since he had been interned by the Dutch as the holder of a German passport. (Austria was now in German hands.)

"While I was in a prisoner-of-war camp on the island of Bonaire," he continues, "I met an opera singer from Berlin, and together we gave several concerts for charity. Perhaps this helped make the Dutch authorities more receptive to my argument that it was foolish to keep me in prison

and feed me when I had a valid U.S. visa. I was the only person released from that camp during the war."

Gartenberg arrived in the U.S. in 1940 knowing no one. His first job took him to Syracuse, N.Y., where he was paid \$20 a week. His facility with languages — he speaks English, French and German — and his business background soon put him into a managerial role. He moved on to Albany and later to Altoona, where he met his wife Belle.

"It was giving a lecture, and she was sitting in the first row," he recalls.

The Gartenbergs settled in Chambersburg in 1946, and Egon became active in musical circles. He taught music appreciation at Hagerstown Junior College and under the auspices of Pennsylvania's Department of Education. In Chambersburg, he had conducted a weekly Sunday radio show on classical music and for 10 years served as conductor of the Cumberland Valley Symphony.

His introduction to Mont Alto occurred, as he likes to say, "through the back door." He had become friendly with the Charles Coxes who were teaching there. Mrs. Cox was also preparing a doctoral thesis on "Beowulf," and since her command of German was imperfect, she asked Gartenberg to help her with certain translations. This, in turn, led to her inviting him to give a talk at Mont Alto. Soon after that lecture, "The Composer in American Society," he was offered a teaching position. That was in 1967, and he has been there ever since.

"In a way, I started writing as a result

(Continued on page two)

Egon Gartenberg reached Mont Alto by circuitous route; he now calls it home.

Death takes three retirees

Fred J. Holben, 86, who retired in 1953 as assistant professor of soil technology, died Wednesday, Jan. 8, at Valley View Haven, Belleville. A 1912 graduate of Penn State, with a master's science degree in 1925, he joined the Penn State faculty in 1913. Working as a soil chemist, he conducted much of his work on the Jordan Soil Fertility Plots of the University. He was the author of 18 professional papers and articles on soil chemistry and the response of crops to long-term rotation.

Ralph C. Blaney, who served in Agricultural Extension Service for 40 years and six months, from 1922 until Jan. 1, 1963, died Monday, Dec. 30; he would have observed his 75th birthday on Jan. 16. Born in Perryopolis, Pa., he was graduated from Penn State in 1922, with a bachelor's degree in animal husbandry. He first served as an assistant county agent in Somerset

County, then as acting Delaware Co. agent, before being appointed county agent for Centre County in 1924. He continued in that post until October, 1946, when he was made assistant director of Extension, the position he held at the time of his retirement. He was very active in national extension work and in Kiwanis, in which he held the post of lieutenant governor at the time. He was also active in Bellefonte education matters while he was county agent for Centre County.

Dr. Henry W. Thurston, Jr., 81, of Stratford, retired professor of plant pathology, died at his home Dec. 19. A native of Lake Forest, Ill., he was graduated from the University of Illinois in 1916 and received his Ph.D. degree from Columbia University in 1922. For 35 years he taught plant pathology at Penn State, retiring in 1954, after which he was for 10 years a consultant in agricultural chemicals for the Union Carbide Company.

Four on faculty are honored

Dr. Herman Cohen, professor and head of the department of speech communication, was named president of the Speech Communication Association during its 60th annual meeting in Chicago, Ill. He served as first vice-president in 1973-74.

The Association has more than 6,000 members of the profession in colleges, universities, secondary and elementary schools, community and junior colleges, and in business and industry. Its purpose is to promote study, research, teaching, and application of the artistic, humanistic, and scientific principles of communication.

Dr. Tom Hickey, associate professor of human development, has been named a Fellow of the Gerontology Society. The appointment of Dr. Hickey, who serves as associate chairman of the Gerontology Center in the College of Human Development, was made at the Society's annual meeting in Portland, Ore.

Dr. Richard G. Cunningham, professor of mechanical engineering and vice president for research and graduate studies at the University, and a former mechanical engineering graduate student, **Raymond J. Dopkin**, have been named the recipients of the Lewis F. Moody Award of the fluids engineering division of The American Society of Mechanical Engineers. The award is given to Dr. Cunningham and Mr. Dopkin, who is now an engineer with DuPont in Martinsburg, W.Va., for an "outstanding original paper on the practices of mechanical engineering," which was presented last May at the Joint Fluids Engineering and Canadian Society of Mechanical Engineers Conference in Montreal, Canada. Research for the paper, "Jet Breakup and Mixing Throat Lengths for the Liquid Jet Gas Pump," was supported by the Department of Mechanical Engineering. The award will be presented in May at the Fluids Engineering Conference in Minneapolis, Minn.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (network line 475-1387). Do not contact the person having the vacancy. Applications will be accepted until 8 a.m.

THURSDAY, JANUARY 23, 1975

ACCOUNTANT, COST REIMBURSEMENT AND BUDGET — Harshay Medical Center

Responsible to Director of Fiscal Affairs and Assistant Manager of Fiscal Affairs for the supervision and preparation of all cost reports and studies and the preparation and supervision of budgets and budget reports. Initiate entries to the hospital general ledger accounting system. BS degree and equivalent in accounting. Business Administration plus two to four years of hospital accounting experience with emphasis on cost and budgetary reports and control.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

Vol. 4, No. 18 Jan. 16, 1975
Penn State INTERCOM is a weekly publication for the academic community of The Pennsylvania State University, published each Thursday when classes are in session. General information and items for the calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.
Editor: W. F. Ackerman Phone 865-7517

Dr. Britton's Service Award

Dr. Joseph H. Britton, professor of human development, Division of Individual and Family Studies, College of Human Development (at right) received not only a Penn State chair and 25-Year Service Award from College Dean Donald H. Ford at a pre-Christmas party in the Living Center of the Human Development, but he also received a great deal of information about himself, some very accurate, some rather suspect but appropriate. The entire late-afternoon affair was attended by faculty, staff, students and some visitors, including Dr. Britton's wife and father-in-law. Some of the information included: the fact that Dr. Britton was born in Michigan, militarily served at Alton College, entered military service, and returned to receive his B.A. degree in 1945. Some facts were also brought out about his University of Chicago days, including the information that he received an M.A. degree in 1948 and a Ph.D. in 1949. Then there was some information about the negotiations which brought Dr. Britton to Penn State as assistant professor of psychology, with notes on the startling salary bargaining. In 1962, he became associate professor and in 1960 professor of child development and family relationships. He served as acting head and head of the same department. With his wife, Dr. Jean O. Britton, professor of education and psychology, he has made a number of studies in the field of psychology on Aging, and his research has resulted in many articles and papers on changes in people of all ages. In addition to Dean Ford, a number of faculty and staff members commented, and gifts, including an imported product not otherwise identified, were given him.

Dr. Paul Welliver, associate professor of education, has been elected to the office of 1975-76 President of the Pennsylvania Learning Resources Association. The Pennsylvania Learning Resources Association brings together educators, media specialists, librarians, teachers, and administrators with professional interest in educational technology, instructional development, teacher education, instructional television, and individualized instruction at all levels of education. The PLRA provides all members the opportunity for implementation of innovative instruction both in Pennsylvania and nationally.

Special series on educational t.v.

A thought-provoking 13-part television series, "The Channel of Man," created by Dr. Jacob Bronowski, has begun on WPXS-TV, Channel 3, and on WTJB-TV, Channel 13, Harrisburg, and other educational stations throughout the country.

On WPXS, each segment of the series will be shown three times weekly, Tuesdays at 10 p.m., Saturdays at 8 p.m., and the following Monday at 8 a.m. WTJB will carry the Tuesday and Saturday broadcasts. The series began Jan. 7.

A college credit course is available to viewers through Continuing Education at Penn State, the University of Pittsburgh, Temple University and other colleges and universities.

The series was filmed in 27 countries, focussing on the actual places where great evolutionary, cultural, and intellectual events took place. The first program was concerned with man's origins and innate gifts, and discussed how man moved around the earth during and after the Ice Age. The second program deals with the development of agriculture and the end of the nomadic period.

The course also includes study guides, texts, and other teaching materials. At Capitol Campus, three workshops will be held in conjunction with the course, with Dr. Michael Barton, assistant professor of social science and anthropology, and Dr. Thomas Knight, associate professor of social science and history, as directors.

WPXS highlights

Monday, Jan. 20 — The Mormon Youth Symphony and Chorus are featured in a special 90-minute tribute to Sergei Rachmaninoff at 8:00 p.m. Featured selections include "The Song," "Vocalise in C Sharp Minor," the third movement from Rachmaninoff's Second Piano Concerto, and "The Gells."

Tuesday, Jan. 21 — Bill Meyer's Journal: International Report premieres at 7:00 p.m. with an hour-long interview with Secretary of State Henry Kissinger.

Thursday, Jan. 23 — Alcoholism in Pennsylvania's labor, business, and industry, and how these three forces are working to establish effective in-house alcoholism recovery programs are explored on "A Drink at Lunch," at 7:30 p.m. **Thursday, Jan. 23** — "Hiss of Burns," director John Ichikawa's 1955 film about the spiritual odyssey of a Japanese soldier sickened by war, is featured on "The Japanese Film," at 9:00 p.m. The film tells of a private soldier who finds himself in the clothes of a Japanese Buddhist monk and in doing so finds his life deeply changed.

EMS faculty aided by new fund

Young faculty in the College of Earth and Mineral Sciences will be aided by the "Gladys Snyder Faculty Enrichment Fund."

The fund, which was recently established through the generosity of Mrs. Snyder, of Canandaigua, N.Y., makes a variety of activities available to younger academic staff members.

Consideration for awards will be given to young faculty for the following: instructional innovation grants for new and improved courses; travel to professional meetings, special courses and seminars; grants to assist junior faculty members broaden their studies; or awards to faculty.

Folklore study interest grows

Folklore is currently enjoying great popularity among college undergraduates, says Dr. Bruce Rosenberg, professor of English and comparative literature, and the reason may be that it harks back to simpler, more primitive times and has an affinity with student interest in ecology, natural foods and traditional handicrafts.

Dr. Rosenberg, who is director of the new folklore option being introduced at Penn State, says that this country has done very little until recently in the way of folklore research, although European governments have actively supported such research for many years. He has spent several years investigating the universality of the myths surrounding the death of General Custer at the Little Big Horn.

"Folklore is usually defined as culture transmitted orally," Dr. Rosenberg says, so it may include witty verses about "roses

are red" or, in their first five years, have made significant contributions in their research efforts.

Recipients of these awards will be selected by the dean of the College, Dr. Charles L. Hosler, Jr., and a special selection committee.

Mrs. Snyder established a previous award in 1955 in honor of her father, John G. Miller. Named the "John G. Miller Memorial Scholarship," this fund aids students in the College of Earth and Mineral Sciences with priority given to freshmen.

are red" or the riddle "What's black and white and red all over?"

One of the appeals of folklore studies, he notes, is the opportunity it gives the student to get out and do, instead of merely reading about the subject. After students have a basic course in theory and technique, they actually collect materials around the State, preserving a heritage that can be too easily lost.

"Although the Pennsylvania Dutch have probably been overdone," Dr. Rosenberg concludes, "there is a great deal of information yet to be gathered about the many other ethnic groups in the Commonwealth. Thousands of Pennsylvanians have parents or grandparents who were born abroad. The changes that occurred in their folklore after they came to this country ought to be recorded."

VIENNA —

(Continued from page one)

of the negative aspects of togetherness," Gartenberg jokes. "We have three children, and whenever I sat down to practice the piano, they pleaded with me to stop because I was interrupting one of their television programs. I related this to my study to read, and eventually I conceived the idea for my first book."

"Vienna, Its Musical Heritage" traces the history of the city from Roman times to the reopening of the opera on Nov. 5, 1955. Accounts of the lives of the famous musicians who flocked to Vienna — from Mozart, Haydn and Beethoven to Schonberg and Mahler — are interwoven with the panoply of the Hapsburg court. From this overall view, Gartenberg was led to focus on Johann Strauss and the times which formed him. "There's been very little written about Strauss in America, and much of what exists in European sources is wrong," he says. "Along with Schubert, he was the incarnation of Vienna. The Straussian presence and con-

tribution to 19th century Europe are significant because they foreshadow the collision of the old order with the new. Johann Strauss 'fiddled' as the Hapsburg empire sank into a quagmire, mostly of his own making."

His second book took Gartenberg only five years to write, and he is now well along on a third. Research grants from the University have enabled him finally to revisit his beloved Vienna. Next summer, he intends to go back a third time to examine a treasure trove of newly discovered Mahler material. The visit will also give him a chance to exercise his passion for collecting, particularly in the area of old music manuscripts.

"I have always been captivated by the antique," he notes. "Our house no longer has any walls, only pictures."

The Gartenbergs' house in Chambersburg may be a long way from Vienna, but Egon no longer minds. He sums up his feelings for his adopted home in a few words:

"I'm in love with Mont Alto at all times of the year."

University Park Calendar

January 16-26, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Friday, Jan. 17 — Folk and Square Dance Roundup, 7:30 p.m., White Blgd, South Quad.

Friday, Jan. 17 — Artists Series, Prague Chamber Orchestra, 8:30 p.m., University Auditorium.

Friday, Jan. 17 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.

Friday, Jan. 17 — Sports: Men's fencing, vs. Notre Dame, 3:30 p.m., Rec Hall.

Friday-Sunday, Jan. 17-19 — University Children's Theatre, "Ofotl," Pavilion Theatre, Friday at 2:30 and 7:30 p.m., Saturday at 10:30 a.m. and 2:30 p.m., Sunday at 2:30 p.m.

Saturday, Jan. 18 — Sports: Women's fencing, vs. Jersey City, University of Pennsylvania, and Randolph-Macon, 9 p.m.; Wrestling, vs. West Chester, 2 p.m., vs. North Carolina, 8 p.m., Rec Hall.

Saturday, Jan. 18 — Women's Conference, feminist speaker Rita Mae Brown, 8 p.m., Schwab.

Saturday-Sunday, Jan. 18-19 — Women's Conference, workshops, Saturday from 11 a.m.-5:30 p.m., Sunday from 10 a.m.-5 p.m.

Sunday, Jan. 19 — Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Russell Lewis, Provost.

Sunday, Jan. 19 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Jan. 20 — Student Gallery Talk on "Carlo Maratti and His Contemporaries," Robert and Jean Westin, 11 a.m., Museum of Art.

Monday, Jan. 20 — Karen Cain, soprano recital, 8:30 p.m., Music Bldg. recital hall. Works of Berlioz, Schubert, Vivaldi.

Tuesday, Jan. 21 — Gallery Talk on "Carlo Maratti and His Contemporaries," Robert and Jean Westin, 10:30 a.m., Museum of Art.

Tuesday, Jan. 21 — Artists Series, Bergman film, "Wild Strawberries," 8:30 p.m., University Auditorium.

Tuesday, Jan. 21 — Sports: Women's basketball, vs. William Paterson, 7 p.m.

Wednesday, Jan. 22 — Claremont Woodwind Quintet, 8:30 p.m., Music Bldg. recital hall. Music by Milhaud, Samuel Barber, Francaix and Danzi.

Wednesday, Jan. 22 — Sports: Men's basketball, vs. Muhlenberg, 8 p.m., Rec Hall.

Thursday, Jan. 23 — Sports: Women's bowling, vs. West Chester, 3 p.m.; Women's gymnastics, vs. Clendon and West Chester, 3:30 p.m.

Thursday, Jan. 23 — "Who Killed J. F. K.?" Lecture-demonstration by Bob Katz, newspaper reporter, 8 p.m., Schwab, sponsored by Undergraduate Political Science Association.

Thursday, Jan. 23 — GSA Workshop, 7:30 p.m., Room 102 Kern.

Friday, Jan. 24 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.

Friday-Saturday, Jan. 24-25 — University Children's Theatre, "Ofotl," Pavilion Theatre, Friday at 2:30 and 7:30 p.m., Saturday at 10:30 a.m. and 2:30 p.m.

Friday, Jan. 24 — Sports: Men's Rifle, vs. Indiana (Pa.), 2 p.m.; Men's basketball, vs. St. Francis (Pa.), 8 p.m., Rec Hall. Wrestling, vs. Maryland, 2 p.m., Rec Hall.

Sunday, Jan. 26 — Artists Series, Negro Ensemble Company Production of "The River Niger," 8:30 p.m., University Auditorium.

Sunday, Jan. 26 — Alpha Chi Omega Greek Lyre Sing, 2:00-4:00 p.m., HUB ballroom. Benefit Cystic Fibrosis Foundation.

Sunday, Jan. 26 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Robert A. Heydenreich, pastor, Pine Hall and Gatesburg Lutheran Church, State College.

Sunday, Jan. 26 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Jan. 18 — Chemistry, 12:45 p.m., Room 333 Whitmore. Donald Jerina, National Institutes of Health.

Thursday, Jan. 18 — Physics, 3:35 p.m., Room 117 Osmond. H. K. Henrich on "Beginnings of Photography: The Invention of the Photographic Process, Its Reception by the Public and Its Uneasy Relationship with Graphic Arts."

Thursday, Jan. 18 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. William Caternall, National Heart and Lung Institute, Laboratory of Biochemical Genetics, NIH, on "Activation of the Action Potential Sodium Ionophore by Neurotoxic Agents."

Thursday, Jan. 16 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. John J. Cahill on "AFOS."

Thursday, Jan. 16 — Statistics, 4 p.m., Room 69 Willard. Professor K. Ruben Gabriel, Hebrew University, Jerusalem, on "The Biplot — a Graphical Aid to the Interpretation of Multivariate Data."

Thursday, Jan. 16 — Agronomy, 3:45 p.m., Room 301 A. Administration. Wesley Masche on "Agricultural Research in Canada," part I; Don Bashore on "Environmental Science Education for Youth," part II.

Thursday, Jan. 16 — Philosophy, 4 p.m., Room 167 Willard. Aaron Druckman on "The Sabbath: a Philosophical Approach."

Thursday, Jan. 16 — Plant Pathology, 8 p.m., Room 213 Buckhout. Dr. Lowry T. Denker, Geneva Experiment Station, Geneva, N.Y., on "Studies on the Overwintering and Primary (Ascospore) Production of Venturia inaequalis (Cke.) Wint."

Friday, Jan. 17 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. V. S. Ban, RCA, Princeton, on "Mass Spectrometric Probing of CVD Gases."

Monday, Jan. 20 — Remote Sensing, 4 p.m., Room 401 Electrical Engineering West. M. Dennis Krohn, on "Relation of Lineaments to Geochemical Anomalies and Lead-Zinc Occurrences Along Bald Eagle Mountain."

Monday, Jan. 20 — Genetics, 3:55 p.m., Room III Life Science. Mike Capage on "Plant Protoplasts: Their Isolation, Cultivation, and Applications in Biological Research."

Tuesday, Jan. 21 — Analytical Chemistry, 1:00 p.m., Room 333 Whitmore. John A. Lynch on "Thermometric Titrations of an IgM Immunoglobulin."

Tuesday, Jan. 21 — Chemical Engineering, 3:40 p.m., Room 140 Fenske. Jennings H. Jones on "Why Combine Oxygen and Hydrocarbons?"

Tuesday, Jan. 21 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Dr. Milton Zaitlin on "Replication of Tobacco Mosaic Virus."

Wednesday, Jan. 22 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. T. D. Denker, IBM, Yorktown Heights, on "Raman Spectroscopic Probing of CVD Gases."

Wednesday, Jan. 22 — Fuel Science, 4 p.m., Room 301 Mineral Industries. Dr. R. K. Jordan, private consultant, Pittsburgh, on "Industrial CO Chemistry."

Wednesday, Jan. 22 — Ecology, 3:55 p.m., Room 111 Life Sciences. Dr. Robert Shipman, Forestry, on "Ten Year Successional Changes Following Clearcutting in Pennsylvania Mixed-Oak Forests."

Thursday, Jan. 23 — Agronomy, 3:45 p.m., Room 111 Tyson. George May on "Land Use Mapping Using Multispectral Scanner Data."

Thursday, Jan. 23 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Kenneth Mitchell, on "Investigation of Thunderstorm Gust Fronts Using a Non-Hydrostatic Numerical Model."

Thursday, Jan. 23 — Chemistry, 12:45 p.m., Room 333 Whitmore. Mark S. Wrighton, M.I.T., on "The Role of Primary Photoprocesses in Transition Metal Photoanalysis."

Thursday, Jan. 23 — Physics, 3:35 p.m., Room 117 Osmond. Fereza Ursay, Yale University, on "Relativistic Position Operators and Patron Operators."

Thursday, Jan. 23 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Daniel Goodenough, anatomy, Harvard Medical School, on "Biochemical and X-ray Diffraction Studies of Hepatocyte Gap Junctions."

Thursday, Jan. 23 — Statistics, 4 p.m., Room 69 Willard. Dr. Eugene Kilian, mathematical sciences, State University of New York, Binghamton, on "Optimal Search Strategies for Wiener Processes."

Friday, Jan. 24 — Forest Resources, 4 p.m., Room 310A Agricultural Administration. Dr. Richard Lee, West Virginia University, on "Biophysical Evaluation of Rest Site Potential."

Exhibits

Museum of Art — Paintings, Drawings and Prints by Bruce Shobaken, Gallery A, through Mar. 16. Carlo Maratti and His Contemporaries. Drawings from the Italian Baroque, Gallery C, opening Jan. 19 through Mar. 16. Selections from the Permanent Collection, Gallery B.

Chambers Gallery — Kitsch, all media.

Kern Gallery — Ann Vandervelde Bergemann oil and watercolors, through Jan. 23. Laurel Buskirk Wiegand, photographs, through Jan. 23. Grace Pilato, ceramics.

Zoller Gallery — Works by new art faculty members Sue Hellman-Sperger and Christine Manchester (prints); Robert Dercks, David Rubello, Lynn Schmidt, and Walter Hamilton (paintings); Rob Koppel (photos); Anessa Strong and

Andrew Vargo (graphic design); Steve Porter, Jeff Spaulding, Ronald Gallas and Rob Fisher (sculpture); until Jan. 18. Drawings by Harold Altman, opening Jan. 20.

Playhouse Gallery — "Scenic Design Relections," Robert Burroughs and Dennis Sporre, through Jan. 31.

Hammond Gallery — Through Jan. 29, 96 photo panels and three models of works of Donato Bramante, architect.

Films

Monday-Tuesday, Jan. 20-21 — Simmons lounge film series, "Blockheads," 7:30 and 9:30 p.m., Simmons Lounge.

Wednesday, Jan. 22 — Commonsplace Theatre, "Film Flam Man," 7 and 9 p.m., Room 112 Kern.

Friday-Sunday, Jan. 24-26 — Centre Cinema, "Bambi," 7:30 and 9:30 p.m., Room 111 Forum.

Meetings

Monday, Jan. 20 — Penn State Sigma Xi special meeting to vote on proposed changes in By-Laws, 4 p.m., Room 101 Kern.

Monday, Jan. 20 — USG Senate, 7:30 p.m., HUB assembly room.

Monday, Jan. 20 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, Jan. 20 — Education Student Council, 7 p.m., Room 123 Chambers.

Tuesday, Jan. 21 — ARHS, 7:30 p.m., Room 203 HUB.

Tuesday, Jan. 21 — College of Agriculture faculty, 4 p.m., Room 301 Ag. Administration.

Tuesday, Jan. 21 — Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, Jan. 21 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

Wednesday, Jan. 22 — Mining Society, 7:30 p.m., Room 121 Mineral Industries. W. B. Williams, N. American Zinc Co. Sterling Plant, on "A Modern Underground Metal Mine Cut-and-Fill Operation."

Wednesday, Jan. 22 — Pre-Vet-Club, 8 p.m., HUB assembly room. Dr. Joseph Skelly, associate dean of admissions and continuing education, University of Pennsylvania School of Veterinary Medicine, on "Admissions Policies."

NEWS

(Continued from page one)

ing one building which was designed to accommodate 750 students.

The governor also approved allocations for movable equipment for eight General State Authority projects, as follows: Worthington Scranton Campus, student study-learning center, \$120,714; McKeesport Campus, utilities, \$42,000; Alleghenon Campus, academic building, \$147,118; Mont Alto Campus, science building, \$208,340; and University Park Campus, student recreation building, \$393,282; Environmental Sciences Bldg., \$576,425; conversion of Diamond Laboratory, \$31,792; and utilities, \$17,000.

TO STRASBURG

Victoria Spendel, graduate student in chemistry at the University departed for France Jan. 12 as part of a cooperative research effort between Penn State and the University of Strasburg. Research teams at the two universities are engaged in a bioelectrochemical modeling project

in which they are seeking to chemically mimic important life processes. Dr. Joseph Jordan, professor of chemistry, heads the Penn State program. During the two weeks she will spend at the University of Strasburg, Mrs. Spendel will coordinate the efforts of the two research teams. The research exchange program is supported by a grant from the North Atlantic Treaty Organization.

PLANTS GIVEN

The University has received a gift of ten American holly bushes and ten hybrid rhododendron plants from an alumnus, Orlando S. Pride, of Butler. The materials are intended for planting on the University Park Campus. Mr. Pride, who received his degree in "Bambi" from the University of Strasburg in 1928, operates a nursery in Butler, specializing in hollies, azaleas, and rhododendrons. He presented plant materials valued at \$1,400 to the University in 1969 and adds more plants to his initial gift each year. Plants have been placed at the Herman B. Fisher Plaza, near the Lion Shrine and the Nittany Lion Inn,

and at various other locations on the campus.

KENNEDY PLOT

The Undergraduate Political Science Association will sponsor a multi-media presentation on "Who Killed J.F.K.?" Thursday, Jan. 23, at 8 p.m. in Schwab Auditorium. The lecture is free.

Bob Katz, a newspaper reporter, who has been lecturing on the subject of President Kennedy's assassination since 1972, will show slides and film clips, including the Zapruder film, in attempting to demonstrate that a conspiracy existed to kill the president in Dallas in 1963 and that Oswald was not alone in the assassination. Katz will present evidence that, it is said, was not used by the Warren Commission in its determinations as well as other evidence developed since that time.

ARTISTS SERIES

Tickets are still available for the Artists Series program to be given Friday, Jan. 17, by the Prague Chamber Orchestra. The program, to be played in University Auditorium, beginning at 8:30 p.m., will include

a Haydn symphony, a Janacek suite for strings, and a Mozart symphony.

The next program on the Artists Series will be on Sunday, Jan. 26, when the Negro Ensemble Company will perform "The River Niger," in University Auditorium at 8:30 p.m.

PRESS BOOK

"The Poetry of Richard Aldington: A Critical Evaluation and an Anthology of Uncollected Poems" is the most recent publication of the Pennsylvania State University Press. The book was prepared by Norman T. Gates, of Rider College, and it offers a critical discussion of Aldington's contribution to modern poetry as a central figure in Imagism. It also provides bibliographic details for all of the poet's first editions, texts of 117 uncollected poems and 87 early poems omitted from Aldington's "Complete Poems." The first full-length study of Aldington's poetry since his death in 1962, the book is also a source of information on many of his contemporaries in English literary life, including Yeats, Eliot, both Lawrences, Joyce and others.

Office of the President

January 3, 1975

TO: The Pennsylvania State University Community

I am releasing today the University's Interim Policy on Confidentiality of Student Records to be effective immediately. This interim policy was developed in response to the Family Educational Rights and Privacy Act of 1974 ("The Buckley Amendment") which became law on November 19, 1974. In addition, it reflects changes resulting from amendments to that law signed by President Ford on December 31, 1974.

This interim policy also reflects the results of consideration by the following University groups: The University Faculty Senate; Council, the University Council; the University Student Advisory Board; the Council of Academic Deans; the Council of Commonwealth Campus Directors; the Council of Commonwealth Deans of Students; and the Student Affairs Committee of the University Faculty Senate. In addition, numerous individuals forwarded their comments on the matter.

When guidelines are completed by the Department of Health, Education and Welfare (presumably by April, 1975) changes to the policy will be revised again in light of those guidelines and final policy will be established for the University.

A broad informational program will be developed immediately so as to inform fully the entire University Community of the rights afforded students by this revised interim policy statement.

I ask that each individual in the University involved in the implementation of this policy do so in the spirit of protecting the privacy of records of individual students while at the same time maintaining and utilizing those records and information as required.

John W. Gonalad
President

I. Preamble

The Pennsylvania State University collects and maintains data and information about students for designated periods of time for the expressed purpose of facilitating the student's educational development. The University recognizes the privacy rights of individuals in exerting control over what information about themselves may be disclosed and, at the same time, attempts to balance that right with the institution's need for information relevant to the fulfillment of its educational missions. The University further recognizes the need to clearly inform the student of the existence and location of records as well as to define the purposes for which such information is obtained; to provide security for such material; to permit student access to, disclosure of, and challenge to this information as herein described; and to discontinue such information when compelling reasons for its retention no longer exist.

The Family Educational Rights and Privacy Act of 1974, a part of the Education Amendments of 1974, became law on November 19, 1974. This law has caused the University to modify somewhat its previous policies on the confidentiality of student records. Since federal guidelines have yet to be issued relative to this law, the following policy statement is to be regarded as interim.

During the intervening months before a final policy statement is issued, comments and suggestions will be welcomed. All such communications should be addressed to Dr. Robert Smith, Assistant Provost, 205 Old Main.

II. Interim Student Record Policy

No information from records, files, and data directly related to a student shall be disclosed to individuals or agencies outside the University without the consent of the student in writing, except pursuant to lawful subpoena or court order, or except in the case of specifically designated educational and governmental officials as required by Public Law 93-380 ("Education Amendments of 1974"). Information contained in such records may be shared within the University. Records originating at another institution will be subject to these policies.

III. Student Educational Records

Student educational records are defined as those records, files, documents, and other materials which contain information directly related to a student and are maintained by The Pennsylvania State University or by a person acting for the University pursuant to University, college, campus, or departmental policy.

Student educational records do not include records of instructional, supervisory, and administrative personnel and ancillary educational personnel which are in the sole possession of the maker and which are not accessible or revealed to any other person except a substitute. Notes of a professor/staff member concerning a student and intended for the professor/staff member's own use are not subject to inspection, disclosure and challenge. Other exclusions include:

1. Records of the Security Division, ex-

cept in those instances where they are transmitted within the University for administrative purposes.

2. Student employment records.
3. Records on students which are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting or assisting in that capacity are not subject to the provisions of access, disclosure, and challenge. Such records, however, must be made, maintained, or used only in connection with the diagnosis or treatment of the student and are not available to anyone other than the persons providing such treatment or a substitute. Such records may be personally reviewed by a physician or other appropriate professional of the student's choice.

IV. Definition of Student

For the purpose of this policy a student is defined as an individual currently or previously enrolled in any academic offering of the University.

It does not include prospective students (applicants to any academic program of the University).

V. Public Information

Regarding Students

The following is a list of public information which may be made available regarding students of the University without their prior consent and is considered part of the public record of their attendance:

1. Name
2. Address (Local and Home Permanent)
3. Telephone Number
4. Date and Place of Birth
5. Major
6. Student Activities Including Athletics
7. Weight/Height (Athletic Teams)
8. Dates of Attendance
9. Date of Graduation
10. Degrees and Awards Received
11. Most Recent Educational Institution Attended

The student is entitled to request that any or all of this information not be made publicly available to organizations. The Records Office prior to the end of the registration period for any given term.

VI. University Officers Responsible for Student Records

The following University officers are designated as responsible for student records within their respective areas: the Vice President for Undergraduate Studies; the Vice President for Student Affairs; the Vice President for Continuing Education; the Vice President for Research and Graduate Studies; the University Budget and Planning Officer; the Vice President for Business; the Deans of the Colleges; the Dean of the Graduate School; the Directors of the Commonwealth Campuses; and the Provosts of the Capitol Campus and the Milton S. Eisenhower Medical Center. Each of these officers is responsible to make available a listing of student records within his area of responsibility indicating the purpose, storage, security, and disposition of each student record. The Vice President for Student Affairs will be responsible for maintaining a University-wide listing of the records, files, and data collected on individual students.

Interim University policy on Confidentiality of student records

The Pennsylvania State University, January 3, 1975

VII. Policies in Disclosure of Student Records

The following guidelines will be utilized with respect to the disclosure of student records:

NOTE: IN NO CASE WILL LETTERS OF RECOMMENDATION AND OTHER INFORMATION OBTAINED OR PREPARED BEFORE JANUARY 1, 1975, WHICH WERE WRITTEN ON THE ASSUMPTION OF EXPRESSED PROMISE OF CONFIDENTIALITY TO THE AUTHORS BE AVAILABLE FOR INSPECTION, DISCLOSURE, OR CHALLENGE. LETTERS OF RECOMMENDATION AND OTHER INFORMATION WRITTEN AN/O OR COMPLETED AFTER JANUARY 1, 1975, ARE AVAILABLE TO STUDENTS IN ACCORDANCE WITH GUIDELINES WHICH FOLLOW.

A. Disclosure to the Student:

The student is accorded the right to inspect, in the presence of a staff member, official University records, files, and data primarily and directly related to himself/herself. This right includes an explanation of any information contained in these sources. The student is entitled to such rights within 45 days of the time that he/she personally appears in the appropriate University office to initiate such a request in writing. If the student cannot personally appear, he/she must submit a notarized request to the appropriate office.

Additionally, a student is entitled to inspect all instructional material, teaching materials, films, tapes, and other supplementary instructional material used in connection with any research or experimentation program of which he/she is a part and which is designed to explore or develop new or unproved teaching methods.

A student may waive his/her right to access to confidential letters of recommendation which he/she seeks for admission to any educational agency or institution; for employment; or for application for an honor or other recognition. The student must be notified on request of all such individuals furnishing recommendations and the letters must be solely for the stated purpose of which the student was notified and for which he waived his right of access. Such waivers may not be required as a condition for admission to, receipt of financial aid from, or receipt of any other services or benefits from such agency or institution.

Where any such records, files, or data contained information relative to a third person the student is entitled to be informed of only so much of that record as pertains to himself/herself. Each record-keeping unit of the University will establish procedures for accommodating requests for access to student records. An administrative charge not exceeding the actual cost to the University of providing access may be initiated in certain areas for access to record information.

While public law does not require copy privilege this may be done at the discretion of the responsible administrative officer and at a cost to the student.

B. Disclosure of Information to Third Parties:

Disclosure of information contained in student records, files, and data is normally controlled by the student. Such disclosures will be made to a third party only on the condition that written consent of the student is obtained. The student and only on the condition that the third party will not permit additional access to the information by an additional person without further written consent of the student prior to such additional transfer of information.

When information on a student must be shared outside the University all persons, agencies, or organizations desiring access to the records of a student shall be required to sign a written form to be kept permanently with the file of the student indicating specifically the legitimate educational or other interest in seeking this information. This form will be available solely to the student and to the University officer responsible for the record as a means of auditing the operation of the record system. Exceptions to this are (C) through (I).

C. Disclosure to Other Educational Institutions:

Disclosure of appropriate academic records may be made to officials of other educational institutions to which the student has applied and where he/she has been enrolled. Files and data collected on the student shall be entitled to notification

of such transfer and a copy of such record.

D. Disclosure Pursuant to Judicial Order:

Information concerning a student shall be released if properly subpoenaed pursuant to a judicial, legislative, or administrative proceeding. Effort will be made to give advance notice to the student of such an order before compliance by the University.

E. Disclosure Pursuant to Request for Financial Aid:

Necessary academic and/or financial student records may be disclosed without the student's prior consent in connection with the student's application for, or receipt of, financial aid.

F. Disclosure to Federal and State Authorities:

This policy shall not preclude access to student records by authorized federal and state officials in connection with the audit and evaluation of federally supported education programs or in connection with the enforcement of federal and state legal requirements which relate to such programs. Exact method of collection of personally identifiable data is specifically authorized by federal and state law, any data collected and reported with respect to an individual student shall not be used for purposes (including Social Security number) which would permit the personal identification of such student.

G. Disclosure Under Emergency Conditions:

In an emergency basis information about a student may be released by a designated officer of the University when that information is necessary to protect the health or safety of a student.

H. Disclosure to Educational Agencies or Institutions:

Information which will not permit the individual identification of students may be released to organizations of educational agencies or institutions for the purpose of developing, validating, and administering predictive tests and measurements. Similarly, information may be released to accrediting organizations in order to carry out their accrediting functions.

I. Disclosure to Parents of Dependent Students:

Information concerning a student who is dependent (as defined in the Internal Revenue Code of 1954) may be released to that student's parents. The Internal Revenue Service defines a dependent student as one who attended an educational institution full-time for any five (5) calendar months of a tax year and who was provided more than one-half of his/her support as claimed by the parents. Therefore, if such a student, for purposes of this policy the assumption, unless individually certified to the contrary under the criteria above, will be that undergraduate students of the University are dependent students.

VIII. Challenge of Record Entry

The student is entitled to challenge entry or add to the factual basis of any record entry contained in records, files, and data. The purpose of this challenge is to insure that such entries are not inaccurate or misleading, or in violation of his/her privacy or other rights as a student, and to provide an opportunity for the correction or deletion of such inaccurate, misleading, or otherwise inappropriate data contained therein. The substantiated judgment of a faculty member about a student's work, expressed in grades and evaluations is not within the purview of this right to challenge. The challenge should be submitted to the appropriate University officer (see VI) in whose area of responsibility the questioned entry is located. The University officer is authorized to rectify the entry and so notify the student without a hearing if such a course of action is warranted. The designated officer will provide the student with an opportunity for both a written and personal challenge to the questioned entry and will determine whether or not the material is defective in a manner justifying its correction or removal from the records. The student's written statement of challenge regarding the content of the record will remain a part of that record regardless of the outcome of the challenge.

An adverse decision may be appealed in writing by the student to the University officer, finally, to the President of the University.

PENN STATE intercom

January 23, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in brief

MACEDONIAN CITY TALK

"Sobi, a City in Ancient Macedonia," will be the subject of a talk by Dr. James R. Wiseman, Boston University professor of archaeology and classics Monday, Feb. 3, at 8 p.m. in Room 112 Kern. Sobi was a Roman town in ancient Macedonia becoming a provincial capital in the last centuries of the Roman Empire. Most of the material in the lecture will come from the excavations of Sobi conducted since 1970. The lecture is sponsored by the Central Pennsylvania Chapter of the Archaeological Institute of America.

COUNCIL CHAIRMAN

Dr. Herbert G. McGibbeny, director of the McKeesport Campus, has been elected chairman of the Council of Commonwealth Directors, which includes the University provost and dean of instruction for Commonwealth Campuses as ex officio members.

Edward M. Elias, York Campus, has been named vice chairman.

The Council serves as a communication channel on matters pertaining to the operation of the University and as a forum for discussion of issues important to the operation of the Commonwealth Campus system.

After 30 years in public relations field

Delaware's Newman combines theory and career experience

You might say that Gamma M. Newman is "a woman with a past."

After all, during some 30 years in public relations, she managed such feats as wangling an interview with Ernest Hemingway, writing a Boy Scout comic strip and ghostwriting a nationally syndicated column on ventriloquism for Edgar Bergen.

Still, this associate professor of speech communication at Penn State's Delaware County Campus has found she prefers the academic life.

"Public relations is more lucrative," she says, "but one day you wake up and ask yourself, 'Where am I going?' A good public relations person usually remains unknown because most people don't want their image bled into the press. Maybe it was the ham in me, but I decided I'd like to try a different field."

Accordingly, she returned to her alma mater, the University of Pennsylvania, and enrolled in a masters' degree program at the Annenberg School of Communications.

"I had some money saved, and they awarded me a fellowship," she continues, "but things were pretty tight. Then, when I'd been there just three weeks, a professor who was handling the public relations course left, and I was invited to take over. By the time I'd earned my degree, I was teaching three courses."

"It was apparent, however, that I wouldn't go any further at Penn without a Ph.D., so I asked their placement service to help me find another job. They suggested that my background qualified me to teach speech. I started out at Rutgers as coadjutant instructor and then was hired by Trenton State College in 1966 as an assistant professor of speech. Even though they granted me tenure, I still felt I needed a doctorate, so I finally took the plunge and enrolled at Temple where my Ph.D. was conferred in 1973. The job at Delaware opened up in 1969, and I left Trenton because I wanted to be affiliated with

DUBOIS EXHIBIT

Richard J. Marinice, instructor in English at the DuBois Campus, who although a painter by hobby has sold a number of his reversed glass paintings, is currently exhibiting his work at the DuBois Campus. In a series of seven one-man shows, he will display paintings of antique automobiles, New England seascapes, wild life birds, nostalgic scenes and wooded interiors, and Art Nouveau, the late 19th-century art style. Reversed glass painting (this is done in acrylic) was an art form used widely by the Pennsylvania Dutch but it had its beginnings in the 4th century, B.C., in the Hellenic Period, used then primarily for portraits. The series of exhibits runs through May and may be seen daily except Sunday.

ENGLISH HOUSE EXCHANGE

A visiting professor who will be at University Park from April 1 to July 31 would like to exchange homes with a faculty member who will be spending the same period in London, England. Available for exchange is an accommodation in Wimbledon, containing a lounge, kitchen/dining room, study and three bedrooms. Further information may be obtained from Dr. F. W. Schmidt, at 865-2072 or 865-2519.

BONDS FOR SALE

Materials in printed form explaining how University staff members may buy U.S.

Savings Bonds through payroll deductions are being distributed (or will be in the next few days). The distribution of this information, which includes an explanation of the types of bonds and their value as an investment, is being made by the University in cooperation with the U.S. Treasury Dept. The materials are self-explanatory, and they include a letter from President Oswald commending the purchase of bonds to the consideration of University employees.

ENROLLMENT

Of Penn State's 56,926 students, 93.3 per cent are from Pennsylvania, 5.1 per cent from other states, and 1.6 per cent from other countries. Most of these from abroad are graduate students. New York, New Jersey, and Maryland lead the out-of-state category. Allegheny, Centre, and Philadelphia counties together provide 13,229 of the in-state enrollees.

CARNATION DAY

Orders will be taken next week (Jan. 29-31) by the Special Events Committee of the Hetzel Union Board for carnations which will be delivered or distributed in the HUB on Valentine's Day, Feb. 14. The orders will be taken on the ground floor of the HUB next week from 10:30 a.m. to 3:30 p.m. Each flower costs 50 cents, and the money will be used by the Hetzel Union Board for projects it sponsors for students and non-students. The distribution of the

(Continued on page four)

Trustees approves Faculty Club plans

Final plans for the Faculty Club to be built north of the Nittany Lion Inn were approved by the Board of Trustees, who authorized officers of the University to proceed with construction at a total cost not to exceed \$1,960,000.

The Board earlier had reviewed sketch plans and preliminary plans and in the final plans approved a revision that adds four feet to the length of the building, making it possible to move a cloak room from the basement level to the first floor level, adjoining the foyer.

The University will construct the facility and lease it to the Faculty Club.

Dr. Chen-Chi Chang, professor of religious studies, has been appointed to the C. T. Shen Professorship in World Religions.

The Professorship, established at the Jan. 19 meeting of the Board of Trustees, has been made possible by Mr. Shen and the Institute for the Advanced Study of World Religions. Mr. Shen, who was born in Chekiang, China, is vice-chancellor of the China Institute in America, Inc., and of the Buddhist Association of the United States.

The Institute for the Advanced Study of World Religions has supported scholarly research at several institutions, including the State University of New York at Stony Brook, St. John's University, Columbia University, and, since 1971, at Penn State.

A member of Penn State's faculty since 1966, Dr. Chang is a specialist in Tibetan Buddhism and Eastern religious studies. Born in Canton, China, he studied at a monastery in Tibet. Before coming to Penn State, he was an assistant professor at the University of Nebraska and served as a research fellow at Tagore University in India and at the University of Wisconsin. He was also a visiting professor of Buddhism at the College of Chinese Culture in Taipei, Taiwan.

Recommendations made by the Proposal Evaluation Committee for the allocation of undesignated funds amounting to \$47,500 in the Office of Gifts and Endowments have been approved by the Board.

For educational programs, the sum of \$6,500 has been allocated for a two-day extension of residency of the Pittsburgh Symphony Orchestra for teaching and coaching. The symphony will be on the campus in February for two performances as part of the Artists Series, and the two-day residency will provide an opportunity for faculty and students of the Department of Music to have direct involvement in various activities with the orchestra.

A student aid fund of \$17,500 has been designated for a special scholarship recognition program, subject to implementation of the program.

Two cultural programs will receive support from the funds. The second Nittany Mountain Summer will receive \$20,000 in support of its programs, including residencies of the Pennsylvania Ballet and Pennsylvania Orchestra, special exhibits in Museum of Art, and the Pennsylvania Festival Theatre.

The sum of \$3,500 has been allocated to support the making of a movie of the Timberlane Sculpture Garden near Pikesville.

(Continued on page two)

Dr. Gamma M. Newman, Delaware County Campus, stresses real situations in speech communication classes.

"Ecology and Change — Rural Modernization in an African Community," a book by **Dr. C. Gregory Knight**, associate professor of geography, has been published by Academic Press. The 300-page volume is a geographical study of agricultural practices and agricultural change focused on one society of East Africa, the Nyiha people of the Mbozi Area in southwestern Tanzania.

In conducting many interviews with the Nylha people, the major ethnic group in Mbozi, Dr. Knight needed two languages — Swahili, which he speaks, and Shinyiha, the local Bantu language spoken by the Nylha, for which he used a native interpreter.

Dr. Don Hellriegel, associate professor and **Dr. John W. Slocum, Jr.**, professor, of organizational behavior, have compiled and edited a book of readings titled "Management in the World Today," which has been published by Addison-Wesley Publishing Co. An article by Dr. Slocum and Ken Brown, former graduate student, is one of those included.

Dr. B. Lakshminarayana, professor of aerospace engineering, is senior editor, and **Walter S. Gearhart**, assistant professor of engineering research at ARL, is one of two junior editors of "Fluid Mechanics, Acoustics and Design of Turbomachinery," a two-volume work published by the National Aeronautic and Space Administration. The other editor is W. R. Britsch, of NASA's Lewis Research Center. The book covers papers and discussions of a symposium held at Penn State in 1970. A number of papers were authored by present and former faculty members.

Dr. Budugur Lakshminarayna, professor of aerospace engineering, gave a lecture on "Compressor End Wall Flows," at the National Aeronautical Laboratory in Bangalore, India, recently.

Dr. Geoffrey C. Godbey, associate professor of recreation and parks, presented a paper on "Anti-Leisure and Public Recreation Policy" at a symposium in London, England, Jan. 11, on Sport and Leisure in Contemporary Society.

ville, Md. Penn State has had a close relationship with this unusual collection, which is soon to be removed from its setting to become the property of the Baltimore Museum of Art. The Departments of Art, Theatre and Film, and Landscape Architecture will collaborate on the project.

Faced with another increase in the employer's contribution to the State Employee's Retirement System, the University has submitted a revised general funds budget plan to the Legislature and to the appropriate departments and officers of the Commonwealth.

The revised plan, reflecting an anticipated increase of \$2,900,000 in retirement costs for the University, calls for an appropriation of \$114,500,000 while the initial request was for \$111,648,000.

Trustees at their meeting Saturday ratified the revised request, which had been forwarded to State agencies on Jan. 3, and

January 23, 1975
(162-1) The Office of Education (OE) announces a March 21, 1975 deadline date for training and development of curriculum materials under its **Ethnic Heritage Studies Program**. Cooperation between grantees and persons and organizations interested in ethnic groups is required in order that students be given opportunities to study their cultural heritage and contributions of other ethnic groups. Ref. 39FR45297-99 and 45306, 12/31/74 (CFPA 13.549)

(162-2) To share personnel resources among the National Science Foundation (NSF), government agencies and institutions of higher education, NSF will receive proposals for assignments of personnel to NSF or assignments of NSF personnel to other agencies or institutions. Temporary assignments contribute to mutual benefit. An assignment may be made to solve a specific problem, to strengthen an on-going program, or to provide an employee with direct experience where there is value to the cooperating organization in providing such experience. A proposed duration of days and time period is required. Projects of short duration and time periods are especially useful in research, research applications, science education, national and international programs, experimental RAC incentives, science and technology policy, government and public programs and administration. (Ref. NSF Important Notice No. 55 plus additional information) (Title IV, Intergovernmental Personnel Act)

(162-3) The Social and Rehabilitation Service (SRS) of OHEW, supports vocational rehabilitation programs including grants for innovation and expansion of vocational rehabilitation services, research and demonstration, and rehabilitation training. Rules and regulations providing implementation provisions have been recently issued and have been distributed. (R 300912469-10507 1216174)

COM #160-1) has issued guidelines for proposal submission. The deadline is Feb. 17, 1975. The project areas make up the new program: National Project I — **Better for Student Choice**; National Project II — **Alternatives to the Revolving Door**; **Effective Learning for Low-Achieving Students**; and National Project III — **Elevating the Importance of Teaching**. (See: FIPE Program Information and Application, COM #160-1.)

(162-5) A supplementary solicitation to **University Research for Solution of Transportation Problems** has been issued by the U.S. Department of Transportation. Funded under the OOT Program of University Research, the primary program objective is to focus higher education resources on national, state, and local transportation problems. The research should be interdisciplinary and multimodal or intermodal and should span several fields of transportation. Student participation in the research is encouraged. For additional information, contact Dr. T. O. Larson, Pa. Transportation Institute, Res. Bldg. 9 (865-1891). The closing date for proposals is April 1, 1975. This solicitation has been distributed. (Ref. CE9, 1/3/75, p. 2)

(162-6) Research fellowships and "studentships" are offered by **Peterhouse College**, Cambridge, England. Men under 30 may apply for three-year fellowships; men under 25 who have completed three years of college are eligible for studentships of 900 pounds/year. Fellows are paid 1250 pounds/year, plus a dependent allowance and free room and board.

(101) National and local manpower research and operating capabilities are to be strengthened by small grant projects supported by the U.S. Department of Labor. Innovative or exploratory research projects or research related activities are desired. Maximum grant support is \$15,000 per year; grants are renewable for one year. (Ref. OPAW 17.221). **Manpower research doctoral dissertation grants** are available for students who have completed all doctorate requirements except the dissertation. (Ref. OPAW 17.218) For both programs there are four deadline dates per year — March 1, June 1, Sept. 1 and Dec. 1. Program contact is: Mr. Robert Manifold, Office of Research Grants, Manpower Administration, U.S. Department of Labor, 200 Constitution Ave., Room 410, Washington, D.C. 20037. Tel. 302-373-3373. (Ref. OPAW 17.221)

(163-2) HUD doctoral dissertation grants

March 31, 1975, is the last date on which the Employee Benefits Division will accept charges for a 1974 major medical claim from University employees or their dependents.

A major medical claim is established once an employee reports \$100 of eligible, out-of-pocket medical expenses during the claim year period of January through December. If a major medical claim was not established in 1973, but charges were incurred in October, November, or December of that year, these charges may also be included in the reporting of expenses for a 1974 claim.

Some of the charges that are acceptable for a claim are doctors' office calls and other doctor charges not reimbursed by UNICARE, prescribed drugs, insulin, physiotherapy, and special equipment and appliances. Itemized receipts should be obtained for these charges; cancelled checks and cash register receipts are not acceptable. Among charges not covered are general physical exams, routine dental work, eye exams and lenses.

Claim forms and other information on how to report major medical expenses are available at the Employee Benefits Division, 133 Willard Bldg.

The University has instituted a new policy governing control of animals on University property.

The policy, effective immediately, prohibits animals on campus unless on a leash or lead. They may not be tethered to any object not designed for the purpose of securing animals and may not be brought into any University building or on any University public transportation facility.

The regulations do not apply to seeing-eye dogs, to authorized research conducted by a University department, to an animal hospital or to a shelter designed and constructed to house animals.

Ralph E. Zilly, vice president for business, said a person having an animal in a building or on the property in violation of the regulations and who refuses to comply with the regulation is subject to arrest for trespass.

Persons who allow animals to run at large on University property in violation of the Pennsylvania "Dog Law of 1965" will be subject to a citation.

Any animal tethered and unattended in violation of the regulations will be impounded by the Department of Safety and released to a local animal hospital. The owner will be responsible for any costs incurred. If the owner cannot be located within a period of three days, the animal will be turned over to the Society for the Prevention of Cruelty of Animals.

rescinded the initial request which had been approved by the Board last July.

Sketch-preliminary plans for the site development immediately joining the College of Business Bldg. at the University were approved by the Board of Trustees at their Saturday meeting.

The plans, which include development at the Allen Road entrance to the campus as well as the area south and surrounding the building, were designed by the firm, Environmental Planning and Design, planners and landscape architects, of Pittsburgh.

Development of the plans will be made possible largely through a gift from Herman G. Fisher, of East Aurora, N.Y., a graduate of the University and a Distinguished Alumnus for whom the landscaped area east of Kern Graduate Bldg. and south of Chambers Bldg. was named Herman G. Fisher Plaza. Funds for ultimate completion of the plans and their implementation, it is expected, will come from various donors.

The W-2 form which employees will

The W-2 form which employees will receive this month, or have already received, will contain a space (block) labeled "Employer" in the general area of "Retirement Contribution." However, no number will be shown at this time.

The University's Office of the Controller explains that this space was set up originally by the Internal Revenue Service at a time when retirement pension reform was being considered by the Congress. Not being certain that this information would be required by new legislation, and pressed for time to print the forms, the IRS included the box on a provisional basis.

Since then, the IRS has issued instructions that this information will not be required for 1974 returns.

The Office of the Controller has issued this information so that faculty and staff members would not have to inquire about the information or delay filling out their 1974 income tax returns.

20006 (202-637-5000)

(163-6) Applied research on economic, institutional and legal barriers and incentives to commercial production and use of solar and thermal energy is being solicited by the National Science Foundation RANN program. Three search areas are solicited for the \$2 million program. (1) alternative incentives to promote commercial scale use of solar and geothermal energy, (2) industrial organization and regulatory requirements for new energy source exploration, (3) social costs and benefits associated with energy production and use. The proposal deadline is March 13, 1975. This information has been attributed (Ref. NSF 74-47).

(167). A summer faculty research program is being supported by the U.S. Air Force Systems Command (AFSC) and the American Society of Engineering Education (ASEE). Both units intend to enhance research interests and capabilities of engineering educators, further the research activities of AFSC laboratories, stimulate development of AFSC per personnel, and form a continuing AFSC research interest at participating institutions. The program located at several AFSC laboratories has a 10-week duration, from Feb. 15, 1975. The application deadline is Feb. 15, 1975. For application forms and information contact: Fred O'Brien, Jr., Administrator, USAF/AFSC, AFSC, Auburn University, Auburn, Alabama 36849. Extension of deadline is available. Write: AFSC, AFSC (Ref. ASEE only).

REMINER AND DEADLINE DATES

Jan. 31 for NSF/RANN Research on General Science Sharing (Oct. 24 INTERCOM #152-1); Jan. 31 for Metropolitan Life Education Grants; 21 INTERCOM #156-2) Feb. 1 (see p. 10)

Approved research participation applications must be received by June 1, 1978.

For NIH and NIMH Research projects (Dec. 1, TERCOM #160-3; 160-4) Feb. 7 (ext.)

For NSF Faculty Fellowships in Science Nov. 1, 1978 (TERCOM #156-7) Feb. 17 (ext.)

For the Improvement of Postsecondary Education (TERCOM #160-1) Feb. 19 (ext.)

Applied Research on Public Regulation and Economic Productivity (Jan. 9 INTERCOM #151-1) Feb. 20 (ext.)

Feb. (extended) for NSF Senior Foreign & Scholars Program (Nov. 21 INTERCOM #158-1) April 1 (no. 1) for International Grants

April 1 (no. 1) for INTERCOM #161(7).

University Park Calendar

January 23-February 2, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Jan. 23 — FSMA 410 dinner, "A Visit of the Ancient Maya," 5:30 p.m., Maple Room. Reservations required.
Thursday, Jan. 23 — Sports: Women's bowling, vs. West Chester, 3 p.m. Women's gymnastics, vs. Clarion and West Chester, 3:30 p.m.
Thursday, Jan. 23 — "Who Killed J. F. K.?" lecture-demonstration by Bob Katz, newspaper reporter, 8 p.m., Schwab, sponsored by Undergraduate Political Science Association.
Thursday, Jan. 23 — GSA Workshop, 7:30 p.m., Room 102 Kern.
Friday, Jan. 24 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.
Friday-Saturday, Jan. 24-25 — University Children's Theatre, "Ofot," Pavilion Theatre, Friday at 2:30 and 7:30 p.m., Saturday at 10:30 a.m. and 2:30 p.m.
Friday-Saturday, Jan. 24-25 — Gymnastics competition, West Germany men's and women's teams vs. selected U.S. men and women, 7:30 p.m., Rec Hall.
Saturday, Jan. 25 — Sports: Men's rifle, vs. Indiana (Pa.), 2 p.m. Men's basket-

ball, vs. St. Francis (Pa.), 3:30 p.m., Rec Hall. Wrestling, vs. Maryland, 1 p.m., Rec Hall.
Sunday, Jan. 26 — Artists Series, "The River Niger," 8:30 p.m., University Auditorium.
Sunday, Jan. 26 — Alpha Chi Omega Greek Lyre Sing, 2:00-4:00 p.m., HUB ballroom. Benefit Cystic Fibrosis.
Sunday, Jan. 26 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Robert A. Heydenreich, pastor, Pine Hill and Gatesburg Lutheran Church, State College.
Sunday, Jan. 26 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Sunday, Jan. 26 — Annual Children's Dance Concert, presented by Orchestra, 1:30 and 3:30 p.m., White Hall Dance Theatre.
Monday, Jan. 27 — June Miller, organ recital, 8:30 p.m., Music Bldg. recital hall.
Monday, Jan. 27 — Coaly Society, speaking contest, 7 p.m., HUB assembly room.
Monday, Jan. 27 — Gamma Phi Epsilon, women's pre-medical society, 8 p.m., McElwain Hall piano lounge. Dr. Eugene

S. Lindstrom, associate dean of the College of Science and professor of bacteriology, on "Medicine and the Pre-medical student."
Tuesday, Jan. 28 — Seminar on the use of psychology reference materials, 7 p.m., Room W-110 Pattee Undergraduate Library.
Wednesday, Jan. 29 — Musica da Camera, 8:30 p.m., Music Bldg. recital hall.
Wednesday, Jan. 29 — Sports: Women's basketball, vs. Bucknell, 7 p.m., Men's basketball, vs. Syracuse, 8 p.m., Rec Hall.
Wednesday, Jan. 29 — Coaly Society speaking contest, 7 p.m., HUB assembly room.
Wednesday-Friday, Jan. 29-31 — Hetzel Union Board takes orders for carnations, 10:30 a.m. to 3:30 p.m., HUB ground floor. Flowers, 50 cents each, will be distributed on Valentine's Day, Feb. 14.
Friday, Jan. 31 — Jammy, with rock group "Life," sponsored by Hetzel Union Board, 9 p.m., HUB ballroom.
Friday, Jan. 31 — Artists Series, Matteo and the Indo-American Dance Company, 8:30 p.m., Schwab.

Friday, Jan. 31 — Sports: Women's basketball, vs. Edinboro, 7 p.m.
Friday, Jan. 31 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.
Saturday, Feb. 1 — Free U. Jammy, 7:30 p.m., HUB ballroom.
Saturday, Feb. 1 — Sports: Men's and women's gymnastics, vs. Massachusetts, 8 p.m., Rec Hall. Men's basketball, vs. Georgetown, 1 p.m., Rec Hall. Wrestling, vs. Army, 3:30 p.m., Rec Hall. Women's swimming, vs. Bloomsburg, 2 p.m.
Saturday, Feb. 1 — Penn State Symphonic Wind Ensemble, 8:30 p.m., Music Bldg. recital hall.
Sunday, Feb. 2 — PSU Symphony Orchestra Young People's Concert, 3:30 p.m., University Auditorium.
Sunday, Feb. 2 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Robert L. Burgie, Lutheran Student Parish.
Sunday, Feb. 2 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Sunday, Feb. 2 — Sports: Invitational indoor soccer tournament, round-robin play from 10:30-12:30 p.m., semifinals at 2 p.m., Rec Hall.

Seminars

Thursday, Jan. 23 — Population Issues Research Office, 12 noon (brown bag lunch), Room 244 Deike. Dr. Gordon F. De Jong, on "Residential Preference Patterns and Population Redistribution: Some Data for Pennsylvania."
Thursday, Jan. 23 — Agronomy, 3:45 p.m., Room 111 Tyson. George May on "Land Use Mapping Using Multispectral Scan Data."
Thursday, Jan. 23 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Kenneth Mitchell, on "Investigation of Thunderstorm Gust Fronts Using a Non-Hydrostatic Numerical Model."
Thursday, Jan. 23 — Chemistry, 12:45 p.m., Room 333 Whitmore. Mark S. Whiston, M.I.T., on "The Role of Primary Photoprocesses in Transition Metal Photoanalysis."
Thursday, Jan. 23 — Statistics, 4 p.m., Room 69 Willard. Dr. Eugene M. Klimko, mathematical sciences, State University of New York, Binghamton, on "Optimal Search Strategies for Wiener Processes."
Thursday, Jan. 23 — Physics, 3:35 p.m., Room 117 Osmond. Feza Gursay, Yale

University, on "Relativistic Position Operators and Patron Operators."
Thursday, Jan. 23 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Daniel Goodenough, anatomy, Harvard Medical School, on "Biochemical and X-ray Diffraction Studies of Hepatocyte Gap Junctions."
Thursday, Jan. 23 — Anthropology, 3:30 p.m., Room 107 Social Science Bldg. Dr. Richard S. Spielman, human genetics, University of Pennsylvania School of Medicine, on "Putting the Yanomamo in Their Place."
Friday, Jan. 24 — Forest Resources, 4 p.m., Room 310A Agricultural Administration. Dr. Richard Lee, West Virginia University, on "Biophysical Evaluation of Forest Site Potential."
Monday, Jan. 27 — Genetics, 3:55 p.m., Room 111 Life Science. Charles Boyer on "Mutable Systems in Higher Plants."
Monday, Jan. 27 — Organic Chemistry, 8 p.m., Room 333 Whitmore. Norman C. Deno on "Solubility, Extraction and Distribution Coefficients."
Monday, Jan. 27 — Remote Sensing, 4 p.m., Room 301 EEW. James Anderson,

forest resources, on "Differentiation of Forest Cover Types Using ERTS-1 MSS Data, Orser Programs, and GE Image 100 Techniques."
Tuesday, Jan. 28 — Water Pollution, 2:20 p.m., Room 124 Sackett. Gilbert V. Levin, president, Biospherics, Inc., Rockville, Md., on "The Phosphor Process."
Tuesday, Jan. 28 — Analytical Chemistry, 1 p.m., Room 333 Whitmore. Joseph E. Campana on "Correlation Techniques in Analytical Chemistry."
Tuesday, Jan. 28 — Plant Pathology, 9:45 a.m., Room 213 Buckholz. Clifford Warren on "The Need for Food Additives."
Tuesday, Jan. 28 — Chemical Engineering, 3:40 p.m., Room 140 Fenske. George E. Keller, Union Carbide, on "Separational Process Design."
Wednesday, Jan. 29 — Ecology, 3:55 p.m., Room 111 Life Science. Ralph Markarian, biology, on "Feasibility of an Artificial Stream as a Tool for Ecosystem Analysis."
Wednesday, Jan. 29 — Architecture, 7:30 p.m., Room 124 Sackett. William Sippel, Deeter, Ritchey, and Sippel, Pittsburgh, on "Total Project Control."

Thursday, Jan. 30 — Chemistry, 12:45 p.m., Room 333 Whitmore. Martin Gouterman, University of Washington, on "Taxonomy of Metal Porphyrins."
Thursday, Jan. 30 — Physics, 3:35 p.m., Room 117 Osmond. William F. Brinkman, Bell Telephone Laboratories, Murray Hill, N.J., on "Electron-Hole Droplets in Germanium."
Thursday, Jan. 30 — Agronomy, 3:45 p.m., Room 111 Tyson. Kim Sheffer on "The Effects of Mowing Mechanisms on the Morphology and Physiology of Kentucky Bluegrass."
Thursday, Jan. 30 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Joel Rosenbaum, biology, Yale University, on "In Vitro Assembly of Microtubules."
Thursday, Jan. 30 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Nels Shirer on "Equivalent β -Effects in the Rotating Annulus."
Thursday, Jan. 30 — Statistics, 4 p.m., Room 69 Willard. Dr. David Hoaglin, Harvard University and National Bureau of Economic Research, Cambridge, on "Looking at Lattice Properties of Random-Numbers Generators."

Meetings

Wednesday, Jan. 29 — Central Pennsylvania Section American Chemical Society, 7:30 p.m., Room 101 Allhouse. Graduate student night.
Monday, Jan. 27 — OTIS, 6:30 p.m., Room 203 HUB.
Tuesday, Jan. 28 — ARHS, 7:30 p.m., Room 203 HUB.
Wednesday, Jan. 29 — Association for Women Students, 7 p.m., Room 203 HUB.
Wednesday, Jan. 29 — Penn State Federal Credit Union, 8 p.m., Room 101 Kern. Election of officers; review of 1974.

Exhibits

Museum of Art — Paintings, Drawings, and Prints by Bruce Shobenken, Gallery A. Carlo Maratti and Hieronymus Camporese, Drawings from the Roman Baroque, Gallery C. Selections from the Permanent Collection, Gallery B.
Zoller Gallery — Recent Prints and Drawings by Harold Altman.
Hammond Gallery — Photo panels and three models of works of Donato Bramante, architect.
Playhouse Gallery — "Scenic Design Reflections," Robert Burroughs and Dennis Spore, through Jan. 31.
Chambers Gallery — Kitch, all media, until Jan. 31. Art Education Graduate Exhibition, all media, opening Jan. 31.
HUB Gallery — "Vision of Peace in Painting," 42 children's paintings by Arab and Jewish children. Also, "Cloth and Clay," by Sherrie Lonker, ceramics. Both displays presented by HUB Arts and Crafts Committee.

Kern Gallery — Ceramics by Grace Pilato, through Jan. 31.
Cultural Center, Walnut Bldg. — Works of members of Washington, D.C. Chapter, (National Conference of Artists; many for sale).

Films

Thursday, Jan. 23 — "Super Cops," 7:30 and 10 p.m., Room 108 Forum. North Halls Association of Students.
Friday-Sunday, Jan. 24-26 — Centre Cinema, "Bananas," 7:30 and 9:30 p.m., Room 111 Forum.
Monday-Tuesday, Jan. 27-28 — Simmons lounge film series, "The Mouse That Roared," 7:30 and 9:30 p.m., Simmons lounge.
Wednesday, Jan. 29 — Commonsplace Theatre, "Othello," 7 and 9 p.m., Room 112 Kern.
Friday-Sunday, Jan. 31-Feb. 2 — Centre Cinema, "American Graffiti," 7:00, 9:15, and 11:30 p.m., Room 105 Forum.

Official

Thursday, Jan. 30 — Due date for Spring Term lists in the Undergraduate Library Reserve Book Room, W-110 Pattee.

Members of the Negro Ensemble Co. will perform "The River Niger" at University Auditorium Saturday.

ORCHESTRIS FOR CHILDREN

With artistic direction by Patricia Heigel Tanner, assistant professor of health and physical education, the dance club Orchesis will give two children's concerts Sunday, Jan. 26, in the White Hall Dance Theatre. They will be given at 1:30 and 3:30 p.m.

Admission is 25 cents, payable at the door.

The first segment of the program, titled "Carnival of the Animals," is set to music of Charles Camille Saint-Saens. In four different movements, various species of animals will be suggested by the dancers. The movements are given names of "Turtle Can-Can," choreographed by Arlene Weiner; "Aquarium," by Martha Kent; "Cuckoos," by Valerie Stover; and "Baby Elephants," by Amy Lehman McKinstry. Using Saint-Saens' "Danse Macabre," Barbara Shutte has choreographed a dance called "Rattlin' Bones." Dorothy Renne's "Earth and Sky Spirals" is set to Bartok's "Concerto for Orchestra." Mrs. McKinstry has also devised a series of solos for the "Galliards for Baroque Recorders" music by Widmann.

Orchesis, the dance club, will give two children's concerts Sunday, Jan. 26, in White Bldg. dance theatre, at 1:30 and 3:30 p.m. Under the artistic direction of Patricia Heigel Tanner, the club members have choreographed a series of dances depicting animals and other dances to please both children and adults.

Math, M.E. combine for new course

The Departments of Mathematics and of Mechanical Engineering are joining together to offer a special Spring Term course titled "Applications of Undergraduate Mathematics to Engineering and Science."

Dr. Raymond Ayoub, professor of mathematics, and Dr. David M. Parke, associate professor of mechanical engineering, will serve as instructors for the course, which has prerequisites of Math 63 and Math 72 or 100 (or the consent of the instructors). "We are offering this course," say Dr. Ayoub and Dr. Parke, "in the hope that it will bridge the obvious gaps between courses in engineering, science and technology. The engineering and science cur-

ricula require undergraduate exposure to some of the most widely applicable branches of mathematics. Yet the development of reasonable skill in applying mathematics has not been encouraging.

"We hope that the student will gain skill and insight in the why, when, and how of using undergraduate mathematics as an effective tool in his field of interest."

Case studies of applications of math to a variety of situations will be used, and class and individual projects will be employed to develop skill both in choosing the most judicious mathematical formulation of a physical process and in extracting the greatest amount of information from the mathematical simulation used.

French students issue publication

The Fall issue of the French literature and language journal published by graduate students in the Department of French, "Les Bonnes Feuilles," is being sold currently. A single copy is \$1.50; four issues may be purchased for \$5.00.

"Les Bonnes Feuilles," in its sixth issue, has devoted its 169 pages to the studies of Christine de Pisan, Medieval poetess noted particularly for the importance she places on women in writings. The issue draws mainly from papers presented last March at the Mid-Hudson Medieval Society Convention at Vassar College; two articles submitted by Maureen Currow and Eric Hicks were not given at the convention.

Professor Charly K. Willard, of Ladykill

College, one of the authors represented in the issue, also subsidized the publication.

Christine de Pisan wrote "Livres de la cite des dames" ("Book of the City of Ladies") between 1404 and 1407, and in it she analyzes and refutes past criticisms and popular sayings about "the fairer sex" and relates biographies of nearly 200 women to underscore the importance of women in a world said to be dominated by men.

The editorial board of "Les Bonnes Feuilles" includes Paul R. Bernard, editor; Fakrih Grine, Regina Lambeck, Irene Maihot, David Flanary, as associate editors; and Barbara Graves, secretary-treasurer. Advisors to the staff are faculty members David Anderson, Isabelle Armitage, and Glyn Norton.

Senate approves rule exceptions

The University Faculty Senate at its Jan. 7 meeting approved exceptions to three Senate rules to allow establishment of extended degree programs in sociology and social welfare.

The two programs are to be experimental for five years and piloted in the eastern part of Pennsylvania with greatest initial activity at the Hazleton Campus. Credit accumulation is to be by resident instruction both at regular and irregular hours, by transfer of credit, by Continuing Education including correspondence study, and by examination.

An amendment to postpone the Senate

action because it was felt the Hazleton Campus did not have adequate resources to provide the programs was defeated.

It was pointed out that the Senate's approval of the rule exceptions concerns only the academic aspects of the programs, while the question of adequate resources is to be determined by the Provost.

In other Senate action, G. Edward Phillips, chairman of the Faculty Affairs Committee, presented a progress report on the group's subcommittee on rank and tenure. He said a subcommittee report may be brought to the Senate for discussion in March and for action the following month.

der, and Saratoga lamb chops. Service is at 5:30 p.m. in the Maple Room of the Human Development Bldg. For information and reservations, call 865-7441.

BEHREND GETS AWARD

The United Way of Erie recently presented its Achievement Award to the Behrend Campus for outstanding participation in the 1974 United Way Campaign.

YOUNG PEOPLE'S CONCERT

The demonstration of special features of the new University Auditorium and the performances of young artists will highlight the annual Young People's Concert by the PSU Symphony Orchestra at 3:30 p.m. Sunday, Feb. 2, in University Auditorium at the University. Dr. Douglas Miller will direct. Eight student musicians, winners of the last Young Artists Competition in the music department, will be featured in five works chosen to allow active displays of the adaptability and versatility of the new facility. Among these displays will be the mounting of the orchestral shell as the audience watches. Participating young artists will be Katherine Cowdrick, Theresa Vincent Smith, Michael Powell, Daniel Ragone, Richard Victor, Nancy Ruffer, David Brooks, and Paul Yarbrough.

TRUSTEE ELECTIONS

Michael Baker, Jr., of Beaver, Pa., was re-elected to a third term as president of the Board of Trustees of the University last Saturday. William K. Ulerich, of Clearfield, was re-elected to a third term as vice president. Both are for one-year terms.

ENROLLMENT TWELFTH

Latest nationwide statistics put Penn State 12th among four-year colleges and universities in grand total enrollment, dropping from 10th last year, and in 13th place in full-time enrollment. Grand total enrollment includes part-time students.

Artists Series has busy schedule

Three major events are coming up on the Artists Series, the first this weekend when members of the Negro Ensemble Company will perform the Joseph Walker play, "The River Niger," Sunday, Jan. 26, at 8:30 p.m. in University Auditorium. Tickets for this program have been sold out.

Friday, Jan. 31, Matteo and the Indo-American Dance Company will perform in Schwab Auditorium at 8:30 p.m. Most of the tickets for this program were taken by season ticket holders and the few remaining will be sold beginning Tuesday, Jan. 28, at 9 a.m. at the HUB.

The annual residence of the Pittsburgh Symphony will take place during the first week of February. Performances will be given Feb. 6 and 8, both in University Auditorium at 8:30 p.m., but with different programs. Verdi's "Requiem" featuring the University Choirs, directed by Raymond Brown, professor of music, and with soloists Martina Arroyo, Tatiana Troyanos, Barry Morrell and Donato Girotti, will be performed Thursday, Feb. 6. James Levine will conduct. Tickets for this performance will go on sale Monday, Feb. 3, at University Auditorium. Since this is part of the Music Series, season ticket holders have taken most of the seats.

The program Saturday, Feb. 8, however, is a special event, not sold to season ticket holders. It will be conducted by Donald Johanos and will feature music of Mozart, Copland, and Charles Ives.

DELAWARE —

(Continued from page one)

by the Community Chests.

Her next job took the Philadelphia native to a public relations firm. She was assigned to handle a research program for Children's Medical Center of New York to determine available hospital facilities for children. Returning to radio, she became one of the youngest women in America to act as sales promotion manager at a network station, CBS affiliated WCAU, Philadelphia. She served as public relations director of New York City's Guild for the Blind and then assumed a similar post with the Foundation for Experimental Biology in Worcester, Mass.

"They really need public relations help," she notes. "When I first arrived in Worcester, I couldn't find even anyone who knew where the Foundation was housed. It turned out to be a fascinating place to work, however. This was the research group which developed the Pill, and they had important projects underway in arthritis, cancer and stress research. I created and produced a television series for them called 'Science Open House,' which was telecast out of Boston."

Earlier, Dr. Newman had scripted a radio series, "Marriage in the Millions," which was named Philadelphia's best rated service program of the year and was syndicated for broadcast in over 200 cities.

Dr. Newman recalls her meeting with Hemingway as one of the highpoints in her career.

"I had decided to spend six months in Europe and to finance it by writing a travel book about offbeat places," she continues. "When I got to Venice, I heard Hemingway was there. It was early in the morning and he was working on 'Across the River and into the Trees.'"

"I wrote a note that said something like, 'I'm a girl who has lost her bank account into the Grand Canal to write a book about Italy. You could make it a bestseller if I could quote you in Chapter 5.' Then I sent it up to him with a waiter. 'To my surprise, he invited me to come right up and spent a half hour talking to me. He gave me a lot of tips on what to see as a non-tourist, and I can still hear him say as I left, 'I wish you luck, kid.'"

"I did write the book, but alas I could paper the wall with rejection slips."

The comic strip was yet another product of Dr. Newman's facile pen. She wrote "Roy Powers, Eagle Scout" under a male pseudonym so her public wouldn't know that such sport-smoking adventures were concocted by a woman.

"Scout etiquette posed a number of problems for me," Dr. Newman remembers. "Scouts were always supposed to wear their hats, and I had set up one advertisement where my hero jumped off a cliff

Matteo and the Ethno American Dance Theatre will perform dances from India, China, Yemen, the Middle East, and Japan in their Artists Series program Friday, Jan. 31. He is a Cornell University graduate with an M.S. from Springfield College; he is on the faculties of N.Y.U. and Finch College.

to rescue a drowning boy. How could he wear a hat convincingly in that situation? I solved the problem by having my illustrator show the hat floating on the water ready for immediate use.

"I got into the Edgar Bergen column through my newspaper contacts, since I had been syndicated featured for our kids like King Features, Bell Syndicate and others. I wrote it for only a short period and I never mastered ventriloquism myself."

Dr. Newman currently is attempting to turn her thesis — at 915 pages, one of the longest ever written for Temple's Speech Department — into a book. Her subject is Earl G. Harrison, a Quaker who served as dean of Penn's Law School and later became resident Roosevelt's Commissioner for Naturalization and Immigration. After World War II, he fought for five years to change our restrictive immigration policies and launched a successful national social action movement to pressure politicians at the grass roots level.

"At a time when there is such a lack of idealism about our public figures," Dr. Newman notes, "a man like Earl Harrison is an inspiration. His life shows that dedicated people can unite and shift the wheels of government."

"My own personal philosophy has always been that life is so full of opportunities that it's our own fault if we don't make our days interesting."

HUB specials

Sunday, Jan. 27 — Lunch, stuffed pepper, \$9; dinner, meatloaf with potato bread, \$85.

Tuesday, Jan. 28 — Lunch, barbecue on a bun, soup, \$84; dinner, beef stew with biscuits, \$1.30.

Wednesday, Jan. 29 — Lunch, spaghetti, meat sauce, \$1.22; dinner, Salisbury steak, \$1.95.

Thursday, Jan. 30 — Lunch, turkey turnover, \$1.55; dinner, lasagne, \$1.35.

Friday, Jan. 31 — Lunch, macaroni and cheese, \$9; dinner, french fried cakes, \$1.38.

Saturday, Feb. 1 — Lunch, chili con carne, \$80; dinner, franks and beans, \$1.03.

Sunday, Feb. 2 — Dinner, chopped steak with mushrooms, \$1.69; supper, braised beef with noodles, \$1.14.

WPSX highlights

Sunday, Jan. 26 — Emmy-winning documentary, "The First Signs of Washoe," chimpanzee taught to use American Sign Language, 7:30 p.m.

Monday, Jan. 27 — 90-minute documentary, "World Hunger, Who Will Survive," on India, India and Colombia, 8 p.m.

Tuesday, Jan. 28 — Continuation of "The Assault of Man," on the development of chemistry, 9 p.m.

Wednesday, Jan. 29 — Anton Chekhov's "The Sea Gull," 9 p.m.

Thursday, Jan. 30 — 1969 Japanese film, "Doan's Suicide," 9 p.m.

Two from Altoona are first of seventeen

Faculty interchange program begins

Seventeen faculty members have been selected as the initial participants in a pilot "Faculty Interchange Program."

Under the experimental program, faculty at the Commonwealth Campuses will spend one or two terms at the University Park Campus for research, writing, or teaching.

The program was established through the Commonwealth Campus Scholarly Activity Fund, which provides financial assistance to Commonwealth Campus faculty in their pursuit of scholarly and creative activities.

According to Joseph F. Douglas, associate dean of academic instruction for Commonwealth Campuses, the interchange program is designed to "foster and promote the collegial interaction essential to scholarly activity and especially important to a multi-campus university."

"The whole idea," he added, "is to give instructors at the Commonwealth Campuses an opportunity to participate in academic seminars, and to carry out various types of research and creative writing with the constant resource of a library such as Pattee Library at University Park.

"They also will be able to continue work at writing doctoral dissertations and may teach upper division courses not normally taught at the two-year Commonwealth Campuses. All in all, the program will allow the faculty members to become in-

volved in a broader scope of scholarly activities."

The first interchange participants will be in residence at University Park during the winter, spring and summer terms. During the current Winter Term, two Altoona Campus faculty members are working and studying at University Park.

Mrs. Marthame Schlow, Instructor in speech communication, is teaching speech and studying Portuguese, while Dr. Nicholas J. Miskovsky, assistant professor of physics, is conducting research on energy resources.

Dean Douglas said the program also provides for faculty members at the University Park Campus to spend some time at the Commonwealth Campuses. In line with this aspect of the program, a graduate student in arts and architecture will spend the Spring Term at the Fayette Campus assisting Zelfko Kujundzic, associate professor of art.

"We expect that more University Park faculty will participate in the program as they realize the growth potential and the expanding opportunity to study the larger University system," Dean Douglas said.

Faculty members wishing to participate in the interchange develop a project proposal and submit it to their academic and administrative officers.

"The entire program," Dean Douglas pointed out, "is a joint effort of the Com-

monwealth Campus faculty member working closely with the campus administration, his department head, and various deans to make the interchange more meaningful."

Besides Mrs. Schlow and Dr. Miskovsky, those selected for the first phase of the Interchange program are:

Wallace R. Bell, Worthington Scranton Campus, dissertation and publication.

Gerald A. Bortoff, Mont Alto, teaching and research.

James D. Boyer, Berks, teaching and comprehensive preparation.

John E. Farr, DuBois, study and research.

James V. Glynn, Shenango Valley, seminar activity.

James H. Hogg, Beaver, study.

Zelfko Kujundzic, Fayette, graduate assistant support.

Lajos Mihailovics, York, teaching and study.

Anthony M. Miranda, McKeesport, study and teaching.

Frederick J. Sifton, Wilkes-Barre, doctoral course work.

E. S. J. Tomeszko, Delaware County, teaching and research.

Gale A. Townsley, Fayette, research and writing.

Merwin L. Weed, McKeesport, teaching.

Benkt R. Wennberg, Ogontz, research.

Margaret E. Yoder, Schuylkill, research and study.

Research initiation grants deadline nears

The Penn State 1975-76 Research Initiation Grants Program provides grants to support research and other creative work in science, technology, the social sciences, and work in the arts and humanities.

Faculty at all campuses are invited to submit proposals. Awards will range from \$2,000 to \$5,000 for 12 months. Call your ACOR dean or Commonwealth Campus director for further information.

The proposal deadline is February 21. Following preliminary screening by colleges, final awards will be recommended by an ACOR subcommittee.

Awards will be announced by March 17.

News in brief

PHI SIGMA IOTA

The Initiation ceremony for Phi Sigma Iota, the honorary in Romance languages, will be held Sunday, Feb. 9, in the Fire-side Room of the Nittany Lion Inn, followed by the annual banquet. All Phi Sigma Iota members are welcome to attend, but dinner reservations must be made before Feb. 1. Checks for dinner tickets, which are \$5.50, should be sent to the Corresponding Secretary, Room S402 Burrows.

ZONING CONFERENCE

A one-day conference on "Zoning and Land Use for the Unzoned Community" is to be conducted at York Campus Thursday, Feb. 6. It is designed to help those charged with responsibilities in determining land-use policy in a community or area to gain a better understanding of the legislation and functioning of an actual zoning ordinance. Particular focus will be on the community which does not have a zoning ordinance and is considering one. William King, assistant professor of landscape architecture, and Paul Mazza, State College attorney, will conduct the session.

EMS CAREER PROGRAM

Three U.S. Steel Corp. employees will discuss their firm's present activities in confronting current energy and economic problems and employment prospects with relation to both summer and permanent jobs at a meeting on Monday, February 3, at 7:30 p.m., in 26 Mineral Sciences Bldg. This is the first in a series of programs being presented by the career program committee of the Earth and Mineral Sciences Student Council. Taking part in the program, which is open to all who are interested, are David M. Bates, manager of college relations with U.S. Steel; Joseph Lindsay, 1951 Penn State mining graduate who is assistant superintendent of the company's Lorain/Cuyahoga Division; and James Gallimore, of the Gary Coal District.

PAPER CONTEST WINNER

Christopher J. Bise, of Philadelphia, a candidate for the master of science degree in mining engineering is the national winner in the graduate division of the 1974 Society of Mining Engineers student paper contest. His prize-winning paper was entitled "A Technological Assessment of Mining Thick Coal Seams by Underground Methods." Bise, a graduate of Virginia Polytechnic Institute and State University with

Proposal to be considered at Feb. 4 meeting

Released time for Senate chairman is proposed

The University Faculty Senate at its Feb. 4 meeting will consider a proposal to provide released time for the chairman of the Senate.

The proposal was developed by the Senate Committee on Committees and Rules in response to Recommendation 16 of the Governance Committee Report, which encourages relieving a senator of as many non-Senate duties during the year of service as chairman as is possible.

At its December meeting, the Senate amended its bylaws to provide for the election of a chairman-elect who automatically, after one year, succeeds to the position of Senate chairman, and then, one year later, succeeds to the position of past-chairman.

Noting some concern that requiring a three-year commitment from a prospective Senate chairman might discourage highly qualified Senators from accepting a nomination, the Committee on Committees and Rules said it was recognized that, during the year of service as chairman and during the year following the three years of service, some relief from other academic duties was highly desirable.

Senators will be asked to approve the following Committee motion:

"The Senate strongly recommends that the University administration provide financial support, as needed, to enable a senator who serves as chairman of the Senate to be released from at least one-half of the senator's regular academic duties. This provision for released time should apply to the year of service as Senate chairman. In addition, funds should be provided to permit a similar reduction in academic duties during the year a senator serves as either

chairman-elect or past-chairman or during the year following a senator's service as past-chairman."

According to the Committee report, providing released time for a senator who is elected chairman of the Senate should have several desirable consequences.

"It should increase the probability that a senator who is nominated as chairman-elect will accept the nomination," the report noted. "In addition, it should permit a senator who is serving as chairman to devote more time to the business of the Senate. Finally, it should make it easier for a senator who has served a three-year term as chairman-elect, chairman, and past-chairman to assume his or her teaching and scholarly work."

Also on the Senate agenda are proposed changes in four student rules and revision of Rule A-5 concerning reinstatement of students dropped for unsatisfactory scholarship. The proposed changes involve rules concerning course credits and student credit load.

An informational report from the Senate office on the status of faculty organiza-

tion constitutions will be received.

Under unfinished legislative business on the agenda, Senator Murray S. Martin will present the following resolution regarding extended degree programs:

"The University Faculty Senate in pursuit of its support for the experimental offering of extended degrees recommends to the University Administration that highest priority be given to the funding support necessary for such programs."

The Senate also will continue its forensic discussion of delegation of authority, with Guy E. Rindone, past chairman of the Intra-University Relations Committee, scheduled to make a presentation.

Also scheduled for discussion under forensic business are:

—Delegation of Authority to Graduate School, Dr. James B. Bartoo, dean of the Graduate School, and Dr. Richard G. Cunningham, vice president for research and graduate studies.

—A recent ruling on the use of University mails, Dr. William Rabinowitz, on behalf of the American Association of University Professors.

Vietnam vets

Vietnam era veterans anxious for a second chance at a college education can apply for admission to the 1975-76 Developmental Year Program at Penn State.

The program, to begin in September, is designed for the veteran who did poorly in high school, has been away from school for a number of years or has earned the

General Equivalency Diploma (GED) without completing a formal high school education. Veterans accepted for the program will be admitted to the major of their choice, regardless of educational background.

An individual program will be designed for each veteran which will allow him to "phase into" full-time degree work at his own pace. Full financial aid, G.I. benefits and counseling will be available.

(Continued on page four)

Poetry, biography among new books

The development of a poet's craft over 40 years is the subject of "Structure in Milton's Poetry," a new book by Dr. Ralph W. Condee, professor of English, published by the University Press. Dr. Condee takes the idea of structure and traces Milton's progress from "Elegia Prima," an early and rather clumsy poem, to his last great work, "Paradise Regained." In the process, he considers not only the poet's handling of ideas but also his development in terms of images and rhythmic effects. Milton's Latin poetry, which many critics have treated separately, is examined by Dr. Condee, who notes that it played an important part in helping the poet "develop the particular kinds of structure which were forerunners to the structural intricacies of 'Lucydes,' 'Paradise Lost,' and other poems of his maturity." Dr. Condee's treatment of "Mansueto" is the only detailed discussion of the poem ever published. A chapter is devoted to "Paradise Regained," which he believes is often misread. "Rather than being a feeble poem," he writes, "it is in many ways a bold culmination of the direction that Milton's poetic development has been taking." Much of the work on the book was done by Dr. Condee as a senior research fellow at Giesegow University.

Honors

Dr. Charles L. Hosler, Jr., dean of the College of Earth and Mineral Sciences, has been named president-elect of the American Meteorological Society and will become president in January, 1976. He has served as counselor, secretary of executive committee, chairman of the board of ethics, and as a member of many committees in the Society. He is the second Penn State faculty member to head the organization; Dr. Alfred K. Blackadar, head of the department of meteorology, served as president in 1971.

Harry O. Wilcox, retired Delaware County agricultural agent, was recipient of the Pennsylvania Turfgrass Council's Service Award which was presented at the annual Turfgrass Conference, January 22, at the University Park Campus. Wilcox, who retired from the Penn State Extension Service staff in 1958 after 35 years of service to the University, was cited for his educational turfgrass programs during his tenure as a county agent and also his consulting work following retirement.

John T. Smith, York County agricultural agent, has been named winner of the 1974 Pennsylvania Dairymen's Association Award of \$100 and an inscribed plaque "for valuable and noteworthy contributions to the state's dairy industry." The award was presented at the state dairy association's annual meeting during the Farm Show in Harrisburg.

John L. Rosenberger, associate Juniata County agricultural agent, was recipient of the 1974 Pennsylvania Pork Producers Council Service Award, a plaque, for his educational efforts for the state's livestock producers. Rosenberger received the award during ceremonies at the Pennsylvania Farm Show.

Appointments

Dr. Walter R. Heald, as adjunct professor of soil science. He has been serving, since last September, as soil scientist of the U.S. Department of Agriculture-Agricultural Research Service-Northeast Region, Northeast Watershed Research Center at University Park. He is a graduate of Colorado State University, with M.S. from the State College of Washington and the Ph.D. from Purdue University.

A British writer who made his greatest impact on literature as a novelist and diarist is the subject of a critical biography, "T. H. White," by Dr. John K. Crane, associate professor of English. Published by Twayne, Inc., the book analyzes White's work from his first volume of poetry in 1929 through his tetralogy, "The Once and Future King," to "America At Last," his final journal, published posthumously in 1965. White's philosophy might be summed up, according to Dr. Crane, in the line he has Meritt utter in "The Sword in the Stone" that the best thing for being sad is learning something. He was a "passionate learner," who threw himself into such varied activities as flying, painting, falconry and medieval Latin translations, all of which he subsequently turned into material for his books. Dr. Crane, who joined the faculty of the University in 1971, received his doctor of philosophy degree at Penn State in 1966. He was an assistant professor of English at the U.S. Air Force Academy and the University of Southern California and served as a visiting professor of modern literature at the University of Washington and the University of Colorado.

Scholarship funds are announced

A memorial scholarship fund, honoring the late Richard A. Peyton, Jr., of Philadelphia, has been established to help students in the College of Education. Peyton, an instructor in education and coordinator of elementary student teaching in the Philadelphia area, died in 1973 in an automobile accident. He was graduated from Penn State in 1951 and received an M.A. degree in 1971; he was a doctoral candidate at the time of his death. To receive a Peyton Scholarship, the student must be enrolled in the Division of Academic Curriculum and Instruction in the College. Disadvantaged students interested in urban education will be given preference.

A 1919 graduate, Mabel A. Alexander, who died in 1972, providing a trust fund to establish a scholarship which will benefit full-time students majoring in political science, history or other subjects with the intention of entering government service. Miss Alexander also earned an M.A. degree at Penn State.

A memorial award, which will aid students in medical technology having at least junior standing, has been established as a memorial to the late Dr. Richard L. Maginnis, associate professor of microbiology who died in 1973. Colleagues and friends provided the initial principal of the fund. Dr. Maginnis, who received both advanced degrees from Penn State, served on the faculty for 11 years.

A Dr. Alfred L. Spalone Scholarship Fund has been established to aid students at the Hazelton Campus. The fund was initiated by Dr. Spalone, who will contribute \$500 annually to implement the program. He attended the Hazelton Campus and now practices dentistry in Kilmarnock, Va.

A contribution of \$2,000 to establish the Adele Vance Thompson Award has been made by Mrs. Audine T. Adams, of Richmond, Ky. Miss Thompson, who resided in Huntingdon County, was a Penn State alumna and taught for a number of years in Pennsylvania schools. The award will be made to students in the College of Education.

HUB specials

Monday, Feb. 3 — Lunch, hot meat sandwich, \$1.12; dinner, beef soup with biscuit, \$3.30.
Tuesday, Feb. 4 — Lunch, scalloped ham and potatoes, \$3.40; dinner, roast turkey, \$17.71.
Wednesday, Feb. 5 — Lunch, double hamburger, soup, \$1.34; dinner, Italian salads, \$2.23.
Thursday, Feb. 6 — Lunch, meatball sandwich, soup, \$1.45; dinner, Chinese pepper steak, \$1.14.
Friday, Feb. 7 — Lunch, fishwich, cold stew, \$1.10; dinner, fisherman's platter, \$3.59.
Saturday, Feb. 8 — Lunch, chili con carne, \$6.9; dinner, roast lamb, \$1.14.
Sunday, Feb. 9 — Dinner, roast turkey, \$1.76; supper, Swedish meatballs, \$1.17.

Malone named to head ag economics

To succeed Dr. Lee M. Day as head of the department of agricultural economics and rural sociology and professor of agricultural economics, Dr. John W. Malone, Jr., University of Nevada director of program planning of the University system, has been selected, the appointment being effective Jan. 15.

Dr. Day resigned in October to accept a position with the Northeast Regional Center for Rural Development, Ithaca, N.Y.

Dr. Malone was at the University of

Nevada for 12 years, holding positions from assistant professor and agricultural economist to professor and chairman of the Division of Agricultural and Resource Economics before becoming program planning director.

A graduate of the University of Connecticut, he received the Ph.D. from Oklahoma State University, in agricultural economics. In 1969-70, he was an American Council on Education Fellow, in the Academic Administration Internship Program, he was at Purdue University.

Two Cultures Dialogue resumes

A new series of discussions by the "Two Cultures Dialogue" group is currently underway; the first was held yesterday (Wednesday, Jan. 29) with Dr. Stanley O. Ikenberry, senior vice president for development and relation, as discussion leader.

The next program, Monday, Feb. 10, will be concerned with "Historical and Current Approaches to Assessing Teaching," with Dr. Henry Johnson, associate professor of education in education policy studies, as leader.

Then, on Tuesday, Feb. 25, Dr. J. J. Kaufman, director of the Institute for

Research on Human Resources, and Dr. James B. Bartoo, dean of the Graduate School, will lead a discussion on "Elements and Process of Evaluation of Academic Programs."

All sessions are held at the Material Research Laboratory on East Campus at noon. Outer Loop campus buses stop at the Lab every 15 minutes.

Two Cultures Dialogue is a faculty-level discussion of general concern to the University community designed to increase communication and understanding among the elements comprising the University.

Faculty, students spirits lifted

Delaware learning center approved

The \$3.1 million library-learning center, recently approved for Delaware County Campus by Governor Shapp, will greatly alleviate the crowded situation under which the campus has operated for the past several years, according to John D. Vairo, campus director.

Addressing the regular meeting of the campus's advisory board on January 22, Vairo expressed the appreciation of the faculty and students for approval of the construction as a General State Authority project. He noted that 1,175 daytime students and more than 800 evening students are now using one building which was designed to accommodate 750 persons. The campus has been operating in the building since January 1971.

The new building, expected to be under construction early next year, will provide space for the campus library, which now holds more than 20,000 volumes, and will house all audio-visual and learning center facilities.

"The new building will permit us to strengthen our academic program by freeing space in the present building for badly needed classrooms and student services," Vairo said. "In addition, it will permit us to expand our community services programming, which has been limited due to lack of space."

Beaver hosts joint faculty symposium

The Third Annual Joint Faculty Symposium will take place Friday, February 7, at the Beaver Campus.

The seminar is sponsored by Beaver County Council of Higher Learning, comprised of Community College of Beaver County, Geneva College, and Penn State Beaver Campus. The purpose of the seminar is to promote the cooperation and exchange of ideas and information between the faculties of the three institutions of higher education in Beaver County.

Main speaker at the dinner concluding the seminar will be noted historian Dr.

Henry Steele Commager, professor, author, editor, and lecturer. He will speak on "Agenda for the Seventies."

During the afternoon, student and faculty groups of the three institutions will be meeting with Dr. Commager. History and political science faculty members will meet with him during an informal luncheon. Later in the day he will hold a discussion session with history and political science students.

The afternoon sessions of the seminar will include nine presentations by members of the three faculties.

Capitol Campus plays host to meeting

Black higher education conference on

The Fifth Annual Black Conference on Higher Education for the State of Pennsylvania is being held this week at the Host Inn in Harrisburg, hosted by Penn State-Capitol Campus and Harrisburg Area Community College. The Conference concludes Sunday.

Four years ago K. Leroy Irvis convened the Black Conference in order to facilitate Black input to a master plan that was being developed for higher education. Since then, Black students, faculty and adminis-

trators have been meeting annually to discuss problems that are unique to Blacks in higher education. Approximately 200 people will attend the conference this year.

Irvis, majority leader in the State House of Representatives and initiator of the conference, will be the main speaker. Other speakers will be Dr. Herman Branson, President of Lincoln University; Dr. George Roberts, vice-chancellor of the University of California at Irvine; and Cheryl Harvey, vice-president of B.A.S.I.C.S.

Vol. 4, No. 20 Jan. 30, 1975
 Penn State INTERCOM is a weekly publication for the academic community of the Pennsylvania State University, published each Thursday when classes are in session. General information and items for the calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.
 Editor: W. F. Ackerman Phone 865-7217

University Park Calendar

January 30-February 9, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Friday, Jan. 31 — Jammy with "Life," rock group, sponsored by Hetzel Union Board, 9 p.m., HUB ballroom.
Friday, Jan. 31 — Artists Series, Matteo and the Ethno-American Dance Company, 8:30 p.m., Schwab.
Friday, Jan. 31 — Sports: Women's basketball, vs. Edinboro, 7 p.m.
Friday, Jan. 31 — Commonsplace Collee-house, 8 p.m., Room 102 Kern.
Saturday, Feb. 1 — Faculty Club Dance/Party, 9 p.m., Rooms 101-2 Kern.
Saturday, Feb. 1 — Free U jammy, 7:30 p.m., HUB ballroom.
Saturday, Feb. 1 — Sports: Men's and women's gymnastics, vs. Massachusetts, 8 p.m., Rec Hall. Men's basketball, vs. Georgetown, 1 p.m., Rec Hall. Wrestling, vs. Army, 3:30 p.m., Rec Hall. Women's swimming, vs. Bloomsburg, 2 p.m.
Saturday, Feb. 1 — Penn State Symphonic Wind Ensemble, 8:30 p.m., Music Bldg.

recital hall. Re-scheduled from earlier cancellation.
Sunday, Feb. 2 — PSU Symphony Orchestra Young People's Concert, 3:30 p.m., University Auditorium.
Sunday, Feb. 2 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Robert L. Burgie, Lutheran Student Parish.
Sunday, Feb. 2 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Sunday, Feb. 2 — Sports: Invitational indoor soccer tournament, round-robin play from 10:30-12:30 p.m., semifinals at 2 p.m., Rec Hall.
Monday, Feb. 3 — Anita Greenlee, organ recital, 8:30 p.m., Music Bldg. recital hall. Re-scheduled from earlier cancellation.
Monday, Feb. 3 — Earth and Mineral Sciences Career Program, 7:30 p.m., Room 26 Mineral Sciences.

Tuesday, Feb. 4 — Sports: Women's basketball, vs. Slippery Rock, 4 p.m.
Tuesday-Wednesday, Feb. 4-5 — Alpha Phi Omega Bloodmobile, 9 a.m.-5:00 p.m., HUB ballroom.
Wednesday, Feb. 5 — FSHA 410 Polynesian luau dinner, 5:30 p.m., Human Development Bldg. Maple Room. Reservations, call 865-7441.
Thursday, Feb. 6 — Sports: Women's basketball, vs. Bucknell, 7 p.m.
Thursday, Feb. 6 — Artists Series, Pittsburgh Symphony Orchestra, Verdi's "Requiem," 8:30 p.m., University Auditorium.
Friday, Feb. 7 — Folk and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.
Friday, Feb. 7 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.
Friday-Sunday, Feb. 7-9 — IFC Dance Marathon, beginning Friday 11 p.m., ending Sunday 11 p.m. Benetti Easter Seals Society.

Saturday, Feb. 8 — Artists Series, Pittsburgh Symphony Orchestra, 8:30 p.m., University Auditorium. Philip Deltra, piano soloist, and William Warfield, baritone, guests.
Saturday, Feb. 8 — Free U jammy, 7:30 p.m., HUB ballroom.
Saturday, Feb. 8 — Sports: Men's basketball, vs. Navy, 2 p.m., Rec Hall. Men's gymnastics, vs. Temple, 8 p.m., Rec Hall. Men's fencing, vs. Newark, 2 p.m.
Sunday, Feb. 9 — Chapel Service, 11 a.m., Eisenhower Chapel. The Venerable Pandia D. Piyandana Mahahera, president, Buddhist Vihara Society, Inc., Washington, D.C.
Sunday, Feb. 9 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Jan. 30 — Environmental Pollution Control, 9:55 p.m., Room 124 Sackett. Robert Blanco, EPA Region III office, Philadelphia, on "Environmental Impact Statements."
Thursday, Jan. 30 — Chemistry, 12:45 p.m., Room 333 Whitmore. Martin Guterom, University of Washington, on "Toxonomy of Metal Porphyry."
Thursday, Jan. 30 — Physics, 3:35 p.m., Room 117 Osmond. William F. Brinkman, Bell Telephone Laboratories, Murray Hill, N.J., on "Electron-Hole Droplets in Germanium."
Thursday, Jan. 30 — Agronomy, 3:45 p.m., Room 111 Vernon. John Shaffer on "The Effects of Mowing Management on the Morphology and Physiology of Kentucky Bluegrass."
Thursday, Jan. 30 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Joel Rosenbaum, University, Yale University, on "In Vitro Assembly of Microtubules."
Thursday, Jan. 30 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Nels Shrier on "Equivalent β -Effects in the Rotating Annulus."

Thursday, Jan. 30 — Statistics, 4 p.m., Room 69 Willard. Dr. David Hoaglin, Harvard University and National Bureau of Economic Research, Cambridge, on "Looking at Lattice Properties of Random-Numbers Generators."
Thursday, Jan. 30 — Acoustical Society of American and Engineering Acoustics, 4 p.m., Room 73 Willard. Dr. David Vollmer, electrical engineering, on "Geometric Theory of Diffraction."
Monday, Feb. 3 — Remote Sensing, 4 p.m., Room 301 Electrical Engineering West. Hugh A. Devine, forest resources, and Dr. F. Yates Borden, forestry, on "Machine Merging of Ground Truth Data with Remote Sensing Data."
Monday, Feb. 3 — Genetics, 3:55 p.m., Room 111 Life Science. J. T. Stout on "Biogenesis of m-RNA: Genetic Regulation in Mammalian Cells."
Tuesday, Feb. 4 — Analytical Chemistry, 1 p.m., Room 333 Whitmore. Clay T. Enos.
Tuesday, Feb. 4 — Water Pollution Control, 2:20 p.m., Room 124 Sackett. Leon W. Weinberger, Leon Weinberger & Assoc., Rockville, on "Non-Point Sources of Pollution."
Tuesday, Feb. 4 — Physiology, 3:55 p.m., Room 111 Life Science. R. Bohn on "His-

tochemical Alterations of Aged Neurons."
Tuesday, Feb. 4 — Psychology, 1:15 p.m., Room 351 Moore. Fred Owens, on "The Intermediate Resting Focus of Accommodation and its Implications."
Tuesday, Feb. 4 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Deborah Murdock on "Aphid Transmission of Plant Viruses."
Wednesday, Feb. 5 — Ceramic Science, 3 p.m., Room 541 Deike. W. R. Jacoby and M. French, Westinghouse Nuclear, on "Nuclear Materials Processing and Facilities."
Wednesday, Feb. 5 — Fuel Science, 4 p.m., Room 301 Mineral Industries. Gregory Gargus, Combustion Lab, on "Weil Scrubbing for CO₂ Control."
Thursday, Feb. 6 — Biophysics, 4 p.m., Room 617 Life Science. Richard S. Margan on "Reciprocal-ribosome Hydrogen Bonds Exist in Transfer-RNA."
Thursday, Feb. 6 — Physics, 3:35 p.m., Room 117 Osmond. Robert C. Dynes, Bell Telephone Laboratories, Murray Hill, on "Sound and Second Sound in Solids, Liquids and Gases."
Thursday, Feb. 6 — Statistics, 4 p.m., Room 69 Willard. Dr. Marcello Pagano,

computer science, State University of New York at Buffalo, on "Factoring the Covariance Function of a Moving Average Process."
Thursday, Feb. 6 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Sharon Hornick on "Current Research Problems with Heavy Metals."
Thursday, Feb. 6 — Chemistry, 12:45 p.m., Room 333 Whitmore. Merle Battiste, University of Florida, on "Orbital Topology and Chemical Reactivity in Bridged Polycyclic Systems."
Thursday, Feb. 6 — Philosophy, 4 p.m., Room 167 Willard. Henry W. Johnstone on "Skepticism and Suicide."
Thursday, Feb. 6 — Aerospace Engineering, 4 p.m., Room 232 Hammond. Dr. Miroslav Nenadovich, Mechanical Engineering University of Belgrade, Yugoslavia, on "Stability Criteria of High Order Dynamic Systems."
Thursday, Feb. 6 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Dennis W. Thomson on "Progress in Aerial Meteorology."
Friday, Feb. 7 — Architecture, 7:30 p.m., Room 128 Sackett. Shirley Vernon, Drexel University, on "Architectural Design Management."

Exhibits

Museum of Art — Paintings, Drawings, and Prints by Bruce Shobaken, Gallery A. Carlo Maratti and His Contemporaries, Drawings from the Roman Baroque, Gallery B. Selections from the Permanent Collection, Gallery B.
Zoller Gallery — Recent Prints and Drawings by Harold Altman.
Chambers Gallery — Art Education Graduate Exhibition, all media, opening Jan. 31.
HUB Gallery — "Vision of Peace in Painting," 42 children's paintings by Arab and Jewish children, also, "Cloth and Clay," by Sherrie Lonker, ceramics. Both displays presented by HUB Arts and Crafts Committee.
Cultural Center, Walnut Building — Works of members of Washington, D.C. Chapter, National Conference of Artists; many for sale, until Jan. 31.

Films

Friday-Sunday, Jan. 31-Feb. 2 — Centre Cinema, "American Graffiti," 7:00, 9:15, and 11:30 p.m., Room 105 Forum.
Monday-Tuesday, Feb. 3-4 — Simmons lecture series, "Never Give a Sucker an Even Break," 7:30 and 9:15 p.m., Simmons Lounge.
Tuesday-Thursday, Feb. 4-6 — Penn State Organization for Reform of Marijuana Laws, "Faking Off," 7:30 and 9:30 p.m., Room 105 Forum.
Wednesday, Feb. 5 — Commonsplace Theatre, "To Kill a Mockingbird," 7 and 9 p.m., Room 112 Kern.
Friday-Sunday, Feb. 7-9 — Centre Cinema, "Butterflies Are Free," 7:30 and 10 p.m., Room 105 Forum.

Meetings

Thursday, Jan. 30 — Peace Corps and Crossroads in Africa meeting for volunteers for work in Africa; slides and films with discussion on programs, 8 p.m., Walnut Bldg.
Monday, Feb. 3 — Education Student Council, 7 p.m., Room 123 Chambers.
Monday, Feb. 3 — OTIS, 8:30 p.m., Room 203 HUB.
Monday, Feb. 3 — USG Senate, 7:30 p.m., HUB assembly room.
Tuesday, Feb. 4 — University Faculty Senate, 2:10 p.m., Room 112 Kern.
Tuesday, Feb. 4 — ARHS, 7:30 p.m., Room 203 HUB.
Wednesday, Feb. 5 — Penn State Mining Society, 7:30 p.m., Room 26 Mineral Sciences. Robert Quenon, president of Monterrey Coal Co., Houston, on "Opportunities and Professionalism in Mining Engineering."

Lecture

Monday, Feb. 3 — Central Pennsylvania Chapter of the Archaeological Institute of America, 8 p.m., Room 112 Kern. Dr. James R. Wiseman, professor of archaeology and classics at Boston University, on "Stobi, a City in Ancient Macedonia."

Official

Monday, Feb. 3 — First day for signing Spring Term NDLS (National Direct Student Loans), SEO (Supplemental Educational Opportunity Grants), BEOG (Basic Educational Opportunity Program) and University Long Term Loans.

Artists Series has dancers, orchestra

Following the performance on the Artists Series Friday, Jan. 31, by the Matteo Ethno-American Dance Theatre, in Schwab Auditorium, the next performances will be by the Pittsburgh Symphony Orchestra, Feb. 6 and Feb. 8.

Tickets for the Feb. 8 (Saturday) performance will go on sale at the Auditorium and the HUB on Feb. 3. No tickets are available for the Feb. 6 program, which was sold out, with the exception of a few seats, to season ticket holders. Those few seats are being made available to members of the University Choirs, which will perform Verdi's "Requiem" with the orchestra.

Appearing with the orchestra on Feb. 8 will be William Warfield, bass-baritone, who

will be the Narrator in the orchestra's performance of Aaron Copland's "Lincoln Portrait." Warfield, who may be better known to the public for his role in "Porgy and Bess," is nevertheless considered a classical artist of the highest order.

In the Orchestra's performance of the Mozart "Piano Concerto No. 24 in C Minor," the soloist will be Philip Deltra, new member of the music faculty here, who has played with the Savannah (Ga.) Symphony. Charles Ives "Symphony No. 2" will complete the program, which will be conducted by Donald Johanos, associate conductor of the Orchestra.

The Orchestra will be here for a week-long residency as has been its custom in recent years.

Matteo and Ethno-American Dance Theatre on Artists Series Saturday.

PENN STATE intercom

February 6, 1975

An internet communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

FWC has housing referral service

A short term Housing Referral Service is being provided by volunteers of the Faculty Women's Club to help staff and faculty members who either need a place to rent for a short time or have such a place. The service is not intended to take the place of rental services in the community which list long-term facilities.

A listing of available facilities will be maintained in the Club's temporary office in Room 313 Willard Bldg., staffed on Tuesdays from 10 a.m. to noon and Thursdays from 12 noon to 2 p.m. Listing cards may be picked up at the office.

This service is being provided only for faculty and staff members. For more information, call the Willard Bldg. office, 855-1538, or Mrs. Richard Tressler, 237-5426.

Water research ideas sought

The Pennsylvania Water Resources Center is accepting research suggestions from academic institutions for funding to take effect July 1, 1975 under Section 100 of the Water Resources Research Act of 1964 — the allotment program of the Office of Water Research and Technology, USDI. Applications for funding under this Act must be processed through the state Water Resources Research Center.

Deadlines are as follows:

FEBRUARY 10, 1975 — Submission of letter of intent to the Water Resources Research Center. Letter should not exceed two pages, and should include title, brief statement of problem, research objectives, financial estimated first-year budget and total project cost. Past practice has supported programs of two years duration with annual budgets approximating \$10,000.

FEBRUARY 21, 1975 — Selection of informal proposals to be submitted to OWRP announced by Water Center. Notification sent to principal investigators.

MARCH 7, 1975 — Submission of formal proposals to Water Center.

APRIL 1, 1975 — Submission of formal proposals by the Director of the Water Center to OWRP, USDI.

Informal proposals and requests for information should be directed to Dr. Archie J. McDonnell, 105 Land and Water Research Building.

Middle East talk

"Middle East Negotiations" will be discussed in a public lecture by Dr. Amos Perlmutter, professor of political science and sociology at American University, Washington, D.C., Wednesday, February 12, at 8 p.m., in the HUB Assembly Room.

Dr. Perlmutter is the author of "Military and Politics in Israel: Nation-Building and Role Expansion;" "Anatomy of Political Institutionalization: The Case of Israel and Some Comparative Analyses," and "Egypt: the 'Praetorian State,'" as well as numerous articles on the policies of the various parties to the Arab-Israeli conflict.

A native of Bialystock, Poland, Dr. Perlmutter migrated with his family to Tel Aviv. He received his B.A., M.A., and Ph.D. degrees in political science from the University of California, Berkeley.

Dr. Perlmutter's visit is being sponsored by the Committee on Middle East Studies and the Department of Political Science.

News in brief

INFORMATION DEADLINE

The Spring Term Calendar will be printed in the March 6 issue of INTERCOM. Information to be included should be sent to the Editor, Room 312 Old Main, by Feb. 20. Departments holding seminars with some regularity, not necessarily weekly, should consider listing the general information—place, time, and frequency—in the special box provided for such information. Organizations planning meetings which might be of interest to the general faculty should consider listing the meeting with some indication of the program planned.

ASEE BRANCH MEETING

Tickets for luncheon of the Penn State branch of the American Society for Engineering Education, Thursday, Feb. 13, must be reserved by 5 p.m. Monday, Feb. 10. The luncheon will be held in HUB dining room "A" at 12 noon and will be followed by a talk by Dr. Robert G. Quinn, dean of academic instruction for Commonwealth Campuses. Tickets, at \$2.80 each, may be obtained from John M. Samuels, assistant professor of industrial engineering, Room 207 J Hammond. Dean Quinn will discuss the Commonwealth Campus System.

YORK WORKSHOP

A one-day workshop on solid-state electronics will be held by the York Campus February 11 at Host Inn, Harrisburg, planned by Continuing Education. The workshop is designed for senior engineering staff members, engineering managers, and chief executives of Central Pennsylvania firms that are engaged in solid-state electronics work. The Pennsylvania Science and Engineering Foundation is aiding in

the workshop, which will have speakers from RCA, HRB-Singer, ITT, Delco Division of General Motors, and the Department of Commerce, Harrisburg.

VALENTINE ENTERTAINMENT

Entertainment for the HUB Terrace Room cafeteria Valentine Candlelight Dinner Thursday, Feb. 13, will be provided by members of Phi Mu Alpha, music honorary society, in the form of two barbershop quartets, "The Uncalled Four" and "The Quartertones." The menu for this special dinner will include a variety of entrees, from stuffed chicken breasts to veal paprika over noodles, and the dessert menu is equally varied. There will be a hospitality table and appropriate decorations.

CREOLE DINNER

The featured special dinner to be served Thursday, Feb. 13, by the 410 class in Food Services and Housing Administration in the Maple Room of the Human Development Bldg. will be in the style of a Mardi Gras Creole Dinner. The menu will feature Gumbo File and Red Snapper Creole. For reservations, call 865-7441.

ZIP CODE DIRECTORIES

A very small quantity of U.S. Postal Service Zip Code Directories is available at Addressing Service, and offices which have much use for this directory are invited to call 865-4051 to obtain a copy. Directories currently in use should not be replaced unless in poor condition, but some offices have developed a need for this type of information since the last distribution of the directory. James McKivison will be glad to discuss the need with any office.

COOKBOOK

The wives of resident doctors at the Milton S. Hershey Medical Center have put together a cookbook of some 200 favorite

recipes, and they are taking orders for the cookbooks now (priced at \$4). The profits from this sale go to the hospital through the office of gifts and endowments. The title of the book itself should sell some copies — "Just What the Doctor Ordered." The recipes are printed on durable note cards and are bound with rings. Orders will be taken until Feb. 18.

AGRICULTURAL PROGRESS

In the past 64 years, plant breeders at the University have developed and released to the seed industry some 170 varieties of crops, of which 49 were developed in the past four years. Tomato, pepper, muskmelon, sweet corn, eggplant, celery, cabbage, and lettuce are among the vegetable varieties developed here. Turfgrass and lower varieties have also been released and have found wide acceptance, and wheat, oats, and field corn as well as clover have been prominent among the developments.

TABLE TENNIS TOURNAMENT

All graduate students are eligible to take part in the first Graduate Student Table Tennis Tournament Sunday, Feb. 23. Trophies will be awarded to winners of separate men's and women's divisions. Entry forms, which must be returned by Feb. 19 at 5 p.m., may be obtained at the information desk in Kern Bldg. Graduate Student Association is sponsor.

ROWLAND FUND

A Grant-in-Aid fund, a memorial to Roger W. Rowland and his son, has been set up for helping outstanding student-athletes who show promise of future success. Mrs. Roger W. Rowland, widow of the member of the Board of Trustees who died last April, and Mrs. Naalre L. Lehr, his daughter,

(Continued on page two)

Renaissance Fund continues growth; aids 56

At the January meeting of the Board of Directors of The Renaissance Fund, Dr. Helen D. Wise for the Penn State Trustees, Dean James B. Bartoo representing the University Faculty Senate, Mrs. Nancy Desmond of the Alumni Association, Mr. John F. Brugel as a Director-at-Large, and Renaissance Scholar Karen Krushinskie were elected as an Executive Com-

mittee. They will manage Fund activities between Board meetings in cooperation with A. M. Wellington, professor of Counselor Education, who is the part-time Director of the Renaissance Scholars' Program.

Dean Bartoo, as Fund treasurer, reported a significant increase in giving to Renaissance in recent months with contributions from alumni, faculty, and staff. All

gifts are received through the Office of Gifts and Endowments. While federal and state funds aid college students who are poor both economically and academically in a broad scale effort at socio-economic uplift, Renaissance is unique in that it helps to make Penn State possible for very worthy young people who have high academic achievement and who need only some money to match their motivation.

Awards to nine new Scholars were announced. This brings the winter, 1975 number of enrolled Scholars to 56. These students are now receiving an average Renaissance award of \$186 per term. Along with all other available financial aid and their own resources and work, Renaissance is serving as a needy student's budget-balancer.

Trustee President Michael Baker, Jr., and University President Oswald offered their fellow Renaissance Board members a number of suggestions on fund raising. The Executive Committee was charged with the responsibility of following through on the ideas developed at the meeting. A. William Engel, Jr. and George Moellenbrock, Jr. of the Office of Gifts and Endowments attended the meeting as consultants.

Scholars, in the fall term, were quite successful academically according to a report by Mr. Wellington. Five had a perfect 4.00, ten made their Dean's List, thirty-nine had averages of 3.00 or better, and forty-one were over 2.50 for the term.

Four members of the Renaissance Fund Board greet two of the student members, Karen Krushinskie, second from left, and Charles E. Ehard, on the other side of Michael Baker, Jr., chairman of the Board of Trustees and member of the Fund Board along with Mrs. Nancy Desmond, left, Dr. Helen D. Wise, second from right, and J. Jesse Arnelle, far right. Karen, from Shavonville, is a sophomore in secondary education who hopes to teach Spanish and social work. Ehard, a senior in law enforcement and corrections, hopes to work with juveniles when he graduates.

Appointments

Dr. Thomas Thorburn, professor of business administration and head of the Public Administration Section of the Stockholm (Sweden) School of Economics, is serving as a Visiting Professor of Public Administration in the Institute of Public Administration for the Winter and Spring Terms. Dr. Thorburn is a noted authority on public and business management and economics in Sweden, having authored four major works on these subjects over the last 20 years. Two of his books, "Business Administration" and "Public Administration: Economic Decisions in Public Administration," both published in Swedish, have gone through four editions since their original publication in 1964 and 1969 respectively. His principal purpose for visiting the U.S. and the Institute of Public Administration is to gather information for a new book he is writing entitled "Economic Decisions in Public Administration." In addition to his research, Dr. Thorburn will be giving lectures and seminars to graduate students in Public Administration and other related areas.

William M. Holmes, as director of educational resources at the Hershey Medical Center, to be involved in medical illustrating, production of motion pictures, television programming, and videotape recording. He has been head of the department of medical illustration at St. Luke's Hospital, Cleveland, since 1958.

NEWS —

(Continued from page one)

ter, initiated the fund. Roger W. "Skip" Rowland, the son, an avid sports fan considered Penn State's No. 1 booster, died last August. He attended both Penn State and Princeton. Additional contributions to the fund are welcomed.

GENERAL STORES HOURS

General Stores is now on a new schedule of hours: 8 a.m. to 12 noon, 12:30 p.m. to 5 p.m. This service office and storage area is located in the Maintenance Bldgs., north of Beaver Stadium.

UNIVERSITY THEATRE

Tickets for the performances of Shakespeare's "Twelfth Night" at Playhouse Theatre (Feb. 13-15 and 18-22) are now available at the Playhouse box office and may be reserved by calling 865-1884 (from 1 to 6 p.m. until the play opens). Continue time for the production, which is directed by Knox Fowler, professor of theatre and film, is 8 p.m. The play is Shakespeare's most popular comedy.

ALTOONA ARTISTS SERIES

A mother and four of her seven children — Clemence N. Fogel and James, Kathy, Jeanne, and Helen — will perform February 9 at the Altoona Campus in the Music Maker Series of programs. Mrs. Fogel is an organist; James plays guitar, trumpet, and piano; Kathy is an abelist; Jeanne plays flute and piano, and Helen is a violinist. Their ages range from 19 to 13. The concert is at 3 p.m. and proceeds (tickets may be purchased at the door) go to the Altoona Campus Fine Arts Scholarship Fund.

CAPITOL EXHIBIT

Don Lantz, acting dean of the School of Art at Temple University who has had many one-man art exhibits throughout the state, has an exhibit at Capitol Campus currently. The exhibit uses "pointillism," a form of painting for which the artist uses single brush strokes to divide the canvas into small areas, often using different colors with each stroke. The colors blend and give the illusion of solid color. The exhibit will continue until Feb. 27.

YORK COMEOY PROGRAM

Billed as "The Sporting Life in Silent Comedy," a program involving prize fighting, football, auto racing, and baseball as well as other sports will be featured at York Campus Friday, Feb. 14. The College of Arts and Architecture and the York Arts Council are cooperating with the Campus in the program, part of the annual winter film festival. Ellis Grove, professor of theatre arts and assistant director of general education in the arts, is coordinating the program which will begin at 7:30 p.m. Eight 12-minute films will be shown during the program, which includes a narration by Grove.

In writing

Dr. Francis Ferguson, chairman of the graduate program in urban and regional planning at Capitol Campus, is author of "Architecture, Cities and the Systems Approach," published in paperback and hardback by George Braziller, Inc., New York. The book is the February main selection for the Library of Urban Affairs Book Club. The systems approach is one of the new tools for city planners, who have to wrestle with complex and opposing forces. Dr. Ferguson places systems analysis in the history of urban planning, examines the promises and possibilities which systems analysis offers the architect and planner, and provide a guide for the architect and planner to the use of systems analysis in dealing with city building.

Report writing seminar planned

Effective written communication through the use of reports, memos, and letters will be the goal of a two-day workshop designed for men and women at any level of management who want to receive practical instruction and supervised practice in the fundamentals of business and technical writing.

The Report Writing Seminar, a continuing education service of the University's College of the Liberal Arts, will be held Feb. 21 and 22 from 8:45 a.m. to 4 p.m. at the Elk's Country Club near Boalsburg.

Dr. Abram Fiskin, associate professor of English at Penn State, will conduct the seminar using lecture and group discussion techniques to cover a number of phases of report writing, including organizing the report, writing introductions and conclusions, selecting and using figures, tables, and appendices, and shaping the English sentence.

Information concerning the seminar was sent to department heads by Harry Weaver, area director for Continuing Education, from whom additional information may be obtained, Room 309 Shields (865-3443). Registration forms may be obtained there also.

UMW official to talk on contract

Mike Trbovich, vice president of the United Mine Workers of America, will speak on "The New UMW Contract," at a meeting of the Penn State Mining Engineering Society, Monday, February 10, at 7:30 p.m., in 26 Mineral Sciences Bldg. One of the earliest rank-and-file leaders in the battle to reform the UMWA, Trbovich served as national chairman for his friend and neighbor, Jack Yablonski, during Yablonski's 1969 campaign for the UMWA presidency.

Following the 1969 slaying of Yablonski, his wife, and daughter, Trbovich was chosen by his fellow miners to be national chairman of the newly formed Miners for Democracy. For the next three years, he traveled in the coal fields, organizing support for union reform and speaking out for mine safety.

In 1971, the Supreme Court allowed him to intervene on behalf of rank-and-file UMWA miners in a Labor Department challenge to the 1969 election in which Yablonski was defeated by UMWA president, W. A. "Tony" Boyle. Attorneys for Mr. Trbovich produced evidence of widespread irregularities in the election and, as a result, it was overturned and a new one ordered.

In May 1972, Mr. Trbovich was chosen as the running mate of Arnold Miller, candidate for UMWA president, and they waged a six-month campaign during which they visited more than 200 bathhouses to meet with miners. In December 1972, their slate won the election.

Since assuming office, Mr. Trbovich has personally directed a major revamping of the UMWA's Safety Division and spearheaded a new "get tough" union posture headed by his friend. His office has also taken principal responsibility for the union's first organizing drive in over 10 years and has coordinated union efforts to revive the anthracite coalfields in eastern Pennsylvania.

Drawings of the Italian Baroque are on display in Gallery C of the Museum of Art in a setting designed to suggest the feeling of the 17th and early 18th centuries. Furniture of the period is set against terra cotta and ochre walls in this exhibit of the works of Carlo Maratti and his contemporaries. The exhibit ends May 16, until March 16.

Baroque art on display in Museum

Master drawings from the late Roman Baroque focusing on the work of Carlo Maratti will be on display in Gallery C of the Museum of Art through Mar. 16.

During the exhibit, a program of Baroque music by Vivaldi and Corelli performed by Musica da Camera, conducted by Dr. D. Douglas Miller, will be featured at 3:00 p.m. Sunday, Feb. 16.

Maratti, born in Camerino in 1625, went to Rome as a young man to study with Andrea Sacchi and became one of the leading painters of the era.

During his long life, he undertook a number of important commissions for altarpieces in Italian churches. One of the most sought after portrait painters of the day, he is noted also for several ceiling frescoes for Roman palaces.

Drawings by Cortona, Guercino, Sacchi, and Mola, among others, are included in

the show of some 60 works, complemented in the gallery by furniture of the period which adds to the sense of the Roman Baroque the exhibit evokes.

Dr. Helmut Hag, professor and head of the art history department, and a noted Baroque scholar, is responsible for the concept of the exhibit. Two of his students, doctoral candidates Robert and Jean Westin, have selected the drawings, done principally in red chalk prevalent in that period, and have written the show catalog.

Pieces from the show are on loan from the Royal Collection of Windsor Castle, the Metropolitan Museum of Art, the Pierpont Morgan Library, the Philadelphia Museum of Art, the Cooper-Hewitt Museum, and the Janos Scholz Collection, with furniture from the Metro Galleries, N.Y., which specialize in Baroque and Renaissance furniture.

Funding Opportunities

For procedural and funding source information, call 865-1372.

February 6, 1975

(165-1) Seminars for physicians and other health professionals for the Summer and Fall of 1975 have been announced by the National Endowment for the Humanities (NEH). Five separate seminars will be held, limited to about 18 participants each at Ohio State, U. of Texas, U. of Pa., Georgetown U., and Indiana U. The seminars are tuition free with a \$1,200 stipend plus travel. Application dates range from May 19 to April 1, 1975. Information and applications are available from each location contact. This information has been distributed. (Ref. CAUJ Rep. 1/20/75).

(165-2) Scientific and technical manpower study contracts will be solicited by the National Science Foundation. Three study projects are anticipated: requirements in energy-related activities, 1970-1985; characteristics in energy-related shortage occupations; and projected balances between requirements for and supply of scientists, engineers, and technicians in the economy to 1980 and 1985. RFP 75-126 will be released by the NSF Contracts Office, Rm. 630, Attn: O. R. Mitchell, 1800 G Street, N.W., Washington, O. 20555 (Ref. CSD 1/17/75).

(165-3) The State of Education (OE) has issued proposed rules for Office of Education

Staff vacancy

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Office, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted by 5 p.m.

THURSDAY, FEBRUARY 13, 1975

FOOD SERVICE MANAGER

Hershey Medical Center

Responsible to the Director of Nutritional Care and Dietary Services for promulgating and executing the policies and procedures as they relate to the Food Service operation of the Milton S. Hershey Medical Center. Bachelor's degree or equivalent training, plus four to eight years Food Service experience.

The University is an Equal Opportunity Employer.

Vol. 4, No. 21 Feb. 6, 1975

Penn State INTERCOM is a weekly publication for the academic community of The Pennsylvania State University, published each Thursday when classes are in session. General information and items for the calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main. Editor: W. F. Ackerman Phone 865-7517

Programs including reference to purpose and state advisory council, state plan provisions, special experimental demonstration projects and leader training, federal financial participation, and payments for research. Written comments are requested by Feb. 20, 1975. For information, has been distributed. (Ref. 46F3381-48, 1/21/75).

(165-4) Post doctoral science and engineering fellowships to be based on the staff of a Congressional, Congressional Committee, or the Office of Technology Assessment are available from the American Association for the Advancement of Science. March 31 is the application deadline for the \$15,000 fellowships which carry a small travel allowance. Write to the Association, Attn: R. Scribner, Dept. A, 1776 Massachusetts Ave., N.W., Washington, O. 20036. (Ref. 75-3).

(165-5) Graduate students from Connecticut may apply for \$1000 scholarships offered by the state. Scholarship awards will be based on academic achievement and promise, plus financial need. Write to State of Connecticut Graduate Award Program, c/o Educational Testing Service Box 176, Princeton, N.J. 08540. (Ref. FO 75-3).

(165-6) International graduate students offered may apply for \$1000 scholarships offered by the state. Scholarship awards will be based on academic achievement and promise, plus financial need. Write to State of Connecticut Graduate Award Program, c/o Educational Testing Service Box 176, Princeton, N.J. 08540. (Ref. FO 75-3).

(165-7) International graduate students offered may apply for \$1000 scholarships offered by the state. Scholarship awards will be based on academic achievement and promise, plus financial need. Write to State of Connecticut Graduate Award Program, c/o Educational Testing Service Box 176, Princeton, N.J. 08540. (Ref. FO 75-3).

(165-8) Post doctoral fellowships are available for the study abroad. For further information write to address given above. (Ref. FO 75-3).

(165-9) National doctoral fellowships are available for the study abroad. For further information write to address given above. (Ref. FO 75-3).

REMINER AND OCEANOIDE DATES Feb. 15 for Summer Faculty Research program (Jan. 23 INTERCOM #163-1). Feb. 15 for NARADIS Summer Faculty Fellowships (Jan. 30 INTERCOM #164-2). March 1 (Nov. 20) for NATO Summer Fellowships (Jan. 30 INTERCOM #164-1). March 1 for NEA Summer Fellowships and Disposition Grants (Jan. 23 INTERCOM #163-1). March 1 for Barriers and Incentives on Solar and Geothermal Energy research (Jan. 23 INTERCOM #163-1). March 1 for NEA Summer Fellowships (Jan. 30 INTERCOM #164-1). March 21 for OE Energy Heritage Studies Program (Jan. 16 for NEA Summer Fellowships (Jan. 30 INTERCOM #163-1). April 1 for P.A. Residual Governmental Grants (1980) (Jan. 30 INTERCOM #163-1).

University Park Calendar

February 6-16, 1975

Special Events

Thursday, Feb. 6 — Sports: Women's basketball, vs. Bucknell, 7 p.m.

Thursday, Feb. 6 — Artists Series, Pittsburgh Symphony Orchestra, Verdi's "Requiem," 8:30 p.m., University Auditorium.

Friday, Feb. 7 — Folk and Square Dance ride-along, 7:30 p.m., White Bldg. south gym.

Friday, Feb. 7 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Sunday, Feb. 7-9 — IFC Dance Marathon, beginning Friday 11 p.m., ending Sunday 11 p.m. Benefit Easter Seals Society.

Saturday, Feb. 8 — Artists Series, Pittsburgh Symphony Orchestra, Philip Deltra, piano soloist, and William Warfield, baritone, guests, 8:30 p.m., University Auditorium.

Saturday, Feb. 8 — Free-U jammy, 7:30 p.m., HUB ballroom.

Saturday, Feb. 8 — Sports: Men's basketball, vs. Navy, 2 p.m., Rec Hall. Men's gymnastics, vs. Temple, 8 p.m., Rec Hall. Men's fencing, vs. Newark, 2 p.m.

Sunday, Feb. 9 — Chapel Service, 11 a.m., Eisenhower Chapel. The Venerable Pandita D. Piyandana Mahathera, president, Buddhist Vihara Society, Inc., Washington, D.C.

Sunday, Feb. 9 — Phi Sigma Iota Initiation and banquet, 6 p.m., Fireside Room, Nittany Lion Inn.

Sunday, Feb. 9 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Feb. 10 — Penn State Mining Society, 7:30 p.m., Room 26 Mineral Sciences. Mike Trivich, vice president of the United Mine Workers, Washington, D.C., on "The New UMW Contract."

Monday, Feb. 10 — Vickie Balson, violin recital, 8:30 p.m., Music Bldg. recital hall.

Monday, Feb. 10 — Chinese Student Association, Chinese New Year Banquet, 6:30 p.m., HUB ballroom.

Monday, Feb. 10 — "Two Cultures Dialogue," noon, Room 189 Materials Research Lab. Professor Henry Johnson, Education Policy Studies, on "Historical and Current Approaches to Assessing Teaching."

Tuesday, Feb. 11 — Sports: Women's basketball, vs. West Virginia, 7 p.m.

Wednesday, Feb. 12 — FSHA 410 German dinner, celebrating Fasching Carnival, 5:30 p.m., Maple Room. Reservations required.

Wednesday, Feb. 12 — University Theatre Student Preview, "Twelfth Night," 8 p.m., Playhouse Theatre.

Wednesday, Feb. 12 — Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Feb. 12 — Artists Series Chapel film, "The Great Dictator," 8:30 p.m., University Auditorium.

Thursday, Feb. 13 — Sports: Women's basketball, vs. Loyola Haven, 4 p.m. Women's bowling, vs. Ithaca, 4 p.m. Women's gymnastics, vs. Ithaca, 5 p.m. Women's swimming, vs. Ithaca, 5 p.m.

Thursday-Saturday, Feb. 13-15 — University Theatre, "Twelfth Night," 8 p.m., Playhouse Theatre.

Friday, Feb. 14 — Artists Series, Marcel Marceau, 8:30 p.m., University Auditorium.

Friday, Feb. 14 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, Feb. 14-15 — Alpha Phi Omega Pinocchio Marathon, 7 p.m. Friday to 7 p.m. Saturday, HUB card room.

Saturday, Feb. 15 — Sports: Men's basketball, vs. Army, 1 p.m., Rec Hall. Wrestling, vs. Lehigh, 3:30 p.m., Rec Hall. Men's and Women's gymnastics, 8 p.m., Rec Hall. Men's fencing, vs. Navy, 2 p.m. Women's fencing, vs. Madison and William Paterson, 9 a.m. Men's swimming, vs. Indiana, (Pa.), 3:30 p.m.

Sunday, Feb. 16 — Chapel Service, 11 a.m., Music Bldg. recital hall. Bishop Dean T. Stevenson, Episcopal Bishop of Central Pennsylvania, Harrisburg.

Sunday, Feb. 16 — Black Christian Fellowship worship service, 11 a.m., Cultural Center.

Lecture

Wednesday, Feb. 12 — Dr. Amos Perlmutter, professor of political science and sociology, American University, on "Middle East Negotiations," 8 p.m., HUB assembly room. The lecture is sponsored by the Committee on Middle East Studies and the Department of Political Science.

Meetings

Monday, Feb. 10 — USG Senate, 7:30 p.m., HUB assembly room.

Monday, Feb. 10 — OTIS, 6:30 p.m., Room 203 HUB.

Tuesday, Feb. 11 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

Tuesday, Feb. 11 — ARHS, 7:30 p.m., Room 203 HUB.

Tuesday, Feb. 11 — Central Pa. chapter, ACM, 8 p.m., Room 111 Boucke, Gordon Rawlins, senior assistant librarian, on the computer's impact on libraries.

Wednesday, Feb. 12 — Association for Women Students, 7 p.m., Room 203 HUB.

Seminars

Thursday, Feb. 6 — Biophysics, 4 p.m., Room 617 Life Science. Richard S. Margan on "Reciprocal-ribose Hydrogen Bonds Exist in Transfer-RNA."

Thursday, Feb. 6 — Physics, 3:35 p.m., Room 117 Osmond. Robert C. Dynes, Bell Telephone Laboratories, Murray Hill, on "Sound and Second Sound in Solids, Liquids and Gases."

Thursday, Feb. 6 — Statistics, 4 p.m., Room 68 Willard. Dr. Marcello Pagano, computer science, State University of New York at Buffalo, on "Factoring the Covariance Function of a Moving Average Process."

Thursday, Feb. 6 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Sharon Hornick on "Current Research Problems with Heavy Metals."

Thursday, Feb. 6 — Chemistry, 12:45 p.m., Room 333 Whitmore. Merle Battiste, University of Florida, on "Orbital Topology and Chemical Reactivity in Bridged Polycyclic Systems."

Thursday, Feb. 6 — Philosophy, 4 p.m., Room 167 Willard. Henry W. Johnstone on "Skepticism and Suicide."

Thursday, Feb. 6 — Aerospace Engineering, 4 p.m., Room 232 Hammond. Dr. Miroslav Nenodovic, Mechanical Engineering University of Belgrade, Yugoslavia, on "Stability Criteria of High Order Dynamic Systems."

Thursday, Feb. 6 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Dennis W. Thomson on "Progress in Aard Meteorology."

Friday, Feb. 7 — Architecture, 7:30 p.m., Room 128 Sackett. Shirley Vernon, Drexel University, on "Architectural Design Management."

Monday, Feb. 10 — Genetics, 3:55 p.m., Room 111 Life Science. Dr. Paul Todd, biophysics, on "Photoreactivation in Vertebrates."

Tuesday, Feb. 11 — Water Pollution Control, 2:20 p.m., Room 124 Sackett. Ernest W. J. Diaper, Crane-Cochrane, King of Prussia, on "Ozone in Water and Wastewater Treatment."

Tuesday, Feb. 11 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Dick Stevenson on "Acquisition and Management of Environmental Data Associated with Plant Pathological Investigation."

Tuesday, Feb. 11 — Analytical Chemistry, 1 p.m., Room 333 Whitmore. Vicki A. Spindel on "Presence and Detection of Metals in Foods."

Tuesday, Feb. 11 — Chemical Engineering, 3:40 p.m., Room 140 Fenske. Thomas L. Henson, Silvana, on "Industrial Experimental Design."

Tuesday, Feb. 11 — Aerospace Engineering, 4 p.m., Room 232 Hammond. J. D. Keller, Chief, Acoustics Engineering, Pratt & Whitney Aircraft, East Hartford, Conn., on "The Application of Acoustic Technology to the Development of Pratt & Whitney Turbopump Engines."

Tuesday, Feb. 11 — Physiology, 3:55 p.m., Room 111 Life Science. Dr. G. Geselowitz, Bioengineering Program, on "Model Studies of the Electrocardiogram."

Wednesday, Feb. 12 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. J. M. Leinaker, Oak Ridge National Lab., on "Applications of Basic Science to Nuclear Materials Problems."

Wednesday, Feb. 12 — Ecology, 3:55 p.m., Room 111 Life Science. Barry Zapfling on "Evolution of Catchable Trout Stocking in Marginal Reservoir Habitat (Stone Valley Lake)."

Thursday, Feb. 13 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. J. M. Leinaker, Oak Ridge National Lab., on "Interaction between Nuclear Fuels and Their Container Materials."

Thursday, Feb. 13 — Agronomy, 3:45 p.m., Room 301 Ag. Administration. Jim Dragun on "The Substrate Copper Activities and Uptake by Corn Hybrids."

Thursday, Feb. 13 — Chemistry, 12:45 p.m., Room 333 Whitmore. J. Jonas, University of Illinois, on "Molecular Motions in Fluids at High Pressure."

Thursday, Feb. 13 — Physics, 3:35 p.m., Room 117 Osmond. Steven L. Goldman, philosophy, on "The Relation between Science and Magic in History."

Thursday, Feb. 13 — Biophysics, 4 p.m., Room 617 Life Science. Dr. Sue Wickner, National Cancer Institute, NIH, on "Conversion of $\phi\chi$ 174 Viral DNA to Double Stranded Form by Purified Protein."

Thursday, Feb. 13 — Engineering Acoustics, 4 p.m., Room 73 Willard. Ralph R. Goodman, Assoc. Dir. of Res. for Oceanology, Naval Research Lab., Washington, D.C., on "Seventy Year History of Underwater Acoustics."

Exhibits

Museum of Art — Paintings, Drawings, and Prints by Bruce Shobaken, Gallery A. Carlo Maratti and His Contemporaries, Drawings from the Roman Baroque, Gallery C. Selections from the Permanent Collection, Gallery B.

Zoller Gallery — Recent Prints and Drawings by Harold Altman, until Feb. 8. Cook and Porter Invitational Student Sculpture Exhibit, opening Feb. 10.

Chambers Gallery — Art Education Graduate Exhibition, all media.

HUB Gallery — "Vision of Peace in Painting," 42 children's paintings by Arab and Jewish children. Also, "Cloth and Clay" by Sherrice Lonker, ceramics, through Feb. 7.

Hammond Gallery — "First Doggish Exhibition," paintings, drawings and mixed media by art majors Sandy Kautz and Lola Popowicz, until Feb. 16.

Official

Wednesday, Feb. 12 — Last day for signing Winter Term NDSL, SEOG, BEO, and University Long Term Loans.

The Pittsburgh Symphony Orchestra, without its long-time conductor William Steinberg who recently announced he is retiring as musical director of the orchestra, will perform Verdi's "Requiem" today (8:30 p.m., University Auditorium) and a program of Mozart, Beethoven, and Aaron Copland works Saturday (same time, place). The Orchestra is in residence on the campus this week, working with students in solo and group activities.

Films

Friday-Sunday, Feb. 7-9 — Centre Cinema, "Butterflies Are Free," 7:30 and 10 p.m., Room 105 Forum.

Monday, Feb. 10 — Department of French film series, "Le Jour Se Lève," directed by Carné, 7 and 9 p.m., Room 112 Kern.

Monday-Tuesday, Feb. 10-11 — Simmons lounge film series, "The Three Stooges Go Around the World in a Daze," 7:30 and 9:30 p.m.

Wednesday, Feb. 12 — Commonsplace Theatre, "A Man for All Seasons," 7 and 9 p.m., Room 112 Kern.

Friday-Sunday, Feb. 14-16 — Centre Cinema, "Bob and Carol and Ted and Alice," 7:30 and 10 p.m., Room 105 Forum.

Friday-Sunday, Feb. 14-16 — Penn State Organization for Reform of Marijuana Laws and Free University, "Fillmore," 7:15 and 9:30 p.m., Room 121 Sparks.

WPSX highlights

Friday, Feb. 7 — Economist Milton Friedman will discuss "An Economic Perspective" at 8:30 p.m., on "Wall Street Week."

Sunday, Feb. 9 — T. D. Lyssenko's theories and their effects on the study of genetics in Russia are featured on "Nova" at 7:30 p.m.

Monday, Feb. 10 — William Faulkner's "Requiem for a Nun," the story of a young black woman who kills a little white girl, is performed on "Hollywood Television Theatre" at 8 p.m.

Tuesday, Feb. 11 — William Faulkner's "Requiem" is interviewed by newswoman Marilyn Baker at 8:30 p.m.

Wednesday, Feb. 12 — Karl Gohn conducts the Vienna Symphony Orchestra in a special performance of Mozart's "Requiem" at 9 p.m., with guest soloists Walter Berry, Gaudula Janowitz, Christe Ludwig, and Peter Schreier.

Thursday, Feb. 13 — On "The Japanese Film" program, the story of a family-run con game in post war Japan, titled "Boy," A 1969 film.

Science writing course in spring term

Science Writing, English (L.A.) 498, will be offered for the first time in the Spring Term, 1975. It will meet Tuesday evenings, 7:10-10, and will carry three credits.

The course is intended to prepare both scientist and writer to gather, interpret and assemble scientific information and present it with clarity, accuracy and excitement to the layman. Student writings will focus either on special fields of interest or on disciplines of distinguished university scientists who will hold in-class symposia.

The instructor will be Robert Gannon, author of four books and more than a hundred science articles appearing in such magazines as "Reader's Digest," "Science Digest" and "Saturday Evening Post." He is a consulting editor for "Popular Science."

Marathon run

A number of University staff members will be among the competitors in the Third Annual Nittany Valley Track Club Marathon Run, to be held Sunday, Feb. 16, beginning at 11 a.m. over a 26-mile, 385-yard course.

Entries, being accepted now, will close February 13; the race is open to everyone who supplies a statement that he has been examined and okayed by a doctor for the race and also supplies the \$3 entry fee. (Under 18, parent's consent must also be given.)

Additional information about entering the race may be obtained from Penn State track coach, Harry R. Groves, 247 Rec Hall.

In this race, prizes will be awarded to winner, second places, and third places in the open category, and in age groups of 30-39, 40-49, and 50 and over.

In the 1974 race, Dave Voltmer, a member of the local track club and assistant professor of electrical engineering, placed first in the sub-master's group and Wally Lester, assistant director of the Conference Center, was the winner in the Masters group.

Uranium survey

A geochemical survey of areas where uranium is known to occur in northeastern Pennsylvania has been started by a team of Penn State geochemists.

A major part of the study, which is supported by a \$35,110 grant from the Atomic Energy Commission, will be devoted to developing improved methods of analyzing for minute traces of uranium in water, down to one part per billion, reports Dr. M. L. Keith, professor of geochemistry and director of the Mineral Conservation Section in the College of Earth and Mineral Sciences.

Other principal investigators for the project are Dr. A. W. Rose, associate professor of geochemistry and assistant director of the section, and N. H. Suhr, associate professor of geochemistry and director of the College's Mineral Constitution Laboratories.

A number of small uranium deposits have been found in sedimentary rocks in a wide area of northeastern Pennsylvania, Dr. Keith says. Objective of this project is to sample and analyze surface materials, mainly stream sediments and water, to see whether there are systematic regional variations in the abundance of uranium, or of other trace metals such as copper, vanadium, and selenium, that are associated with the uranium deposits.

Rather than analyzing a large number of rock samples from all around the area to be surveyed, the team plans to concentrate initially on water and stream sediment analysis, which requires that far fewer samples be taken.

Analysis of rock samples will be made later, as specific uranium areas are outlined.

The preferred method of analyzing for traces of uranium in water involves detection of delayed neutrons that are emitted by uranium for a short time after it is activated in a nuclear reactor.

Tests are being carried out with the cooperation of the staff of the Breazeale Nuclear Reactor and a part of the AEC grant is for a pneumatic system to "shoot" samples in and out of the reactor at high speed to facilitate rapid and sensitive analysis.

Stream mud samples, collected at the same time as the water samples, will be analyzed for arsenic, selenium, vanadium, molybdenum, copper, zinc, lead, iron, manganese, and organic carbon as well as uranium, using the facilities of the Mineral Constitution Laboratories.

Foreign policy

The Capitol Campus is again cooperating with the Foreign Policy Association of Harrisburg to sponsor "Great Decisions 1975," a program of seminar type discussions by citizens in subjects related to American foreign policy.

The Great Decisions groups, usually 8 to 10 persons, meet once a week for eight weeks to consider topics such as the World Food Program, the Soviet Union Today, Our Changing World Economy, Controlling Nuclear Weapons, and the Oceans and the Seabed.

"Great Decisions" is a national program sponsored during February and March. After the eight discussions, representatives from different communities attend a "National Conference on Great Decisions" in Washington, D.C. and report on the views of their communities to government officials.

Russian major

A major program leading to a B.S. degree in Russian technical translation has been approved in the Department of Slavic Languages. Aimed at meeting the demand for translators of Russian technical materials, the major offers specialized skill in technical translation from the Russian language within the context of a liberal education. The program differs from the B.A. degree major in Russian, which places emphasis on the acquisition of the Russian language as a skill.

A performance option in the theatre arts major has been approved, designed to provide a higher level of performance training for students working toward a professional career in theatre. Entrance into the program will be determined by audition and evaluation by the Department of Theatre Arts after the student's fifth term. Areas of training include acting, dance, and directing.

New publication

The purpose of the new Penn State Media Newsletter is to encourage innovative teaching methods through the use of multi-media.

Written by the Instructional Services Specialists at the Commonwealth Campuses and various University Park staff such as those of the University Division of Instructional Services, Listening-Learning Services, Library, Electronic Services, Audio-Visual Services, etc., the Media Messenger is co-edited by Raymond R. Dimeo, Instructional Services Coordinator for Commonwealth Campuses, and Thomas C. Coleman, Instructional Services Specialist, Beaver Campus.

Faculty members at the Commonwealth Campuses interested in reading the Media Messenger can obtain a copy from their Instructional Services Specialist or Librarian. University Park faculty members can obtain copies from Raymond R. Dimeo, 120 Mitchell Instructional Services Building or call 814-865-1174.

HUB specials

Monday, Feb. 10 — Lunch, franks and kraut, \$1.03; dinner, Chinese steak and pepper stew, \$1.14.
Tuesday, Feb. 11 — Lunch, stuffed pepper, \$1.21; dinner, chicken and waffle, \$1.30.
Wednesday, Feb. 12 — Lunch, lasagne, \$1.27; dinner, roast turkey with dressing, \$1.62.
Thursday, Feb. 13 — Lunch, creamed dried beef on toast, \$1.06; dinner, veal paprika with noodles, \$1.30.
Friday, Feb. 14 — Lunch, seafood cakes, \$1.11; dinner, french fried clams, \$1.39.
Saturday, Feb. 15 — Lunch, chili con carne, \$0.89; dinner, spaghetti with meat balls, \$1.35.
Sunday, Feb. 16 — Dinner, barbecued chicken quarter, \$1.71; supper, cheese Salisbury, \$1.38.

In the realm of the arts

Symphony in residence has busy week

Some tickets remain for the concert by the Pittsburgh Symphony Orchestra Saturday, Feb. 8 at 7:30 p.m. in University Auditorium. The program will include Aaron Copland's "Lincoln Portrait," in which the distinguished bass-baritone, William Warfield, will be the narrator.

Donald Johanos will conduct the orchestra in this program, which will also feature University faculty member Philip Dettra in

during which student conductors will lead the Pittsburgh Symphony. In a later meeting, a committee of orchestra members will offer critiques of each student's direction of the group.

The activities with the Music Department are funded by a grant from the Office of Gifts and Endowments at the University. Although these activities are intended primarily to benefit students, the public is welcome to attend the Friday open rehearsal with students in University Auditorium.

Philip Dettra, soloist with Pittsburgh Symphony.

the Mozart "Piano Concerto No. 24." The concert will conclude with Charles Ives' "Symphony No. 2."

The tickets are on sale at the University Auditorium and at the HUB. No tickets are available for the performance today (Feb. 6) of Verdi's "Requiem," performed with the University Chorus.

Tickets are not available, either, for the appearance the following week, Feb. 14, of Marcel Marceau, the French pantomimist who has delighted audiences for years and draws capacity crowds wherever he goes.

A series of open rehearsals with student musicians and a chamber music concert are on the schedule of the Pittsburgh Symphony Orchestra in its residency at University Park this week.

Members of the Symphony will perform works by Milhaud, Respighi, Falla and Haydn at 8:30 p.m. tomorrow (Friday) in the Music Bldg. recital hall. Donald Johanos will conduct.

Orchestra members have been working with student musicians in a variety of ways this week; student soloists read with the orchestra yesterday and some 20 students performed in a variety of compositions in an afternoon session. Friday morning, the Symphony and the Penn State Symphony will perform works by Tchaikovsky and Mahler, with professionals and students working on a one-to-one basis.

Eleven orchestral works are to be performed in the Friday afternoon rehearsal

Representative works by the three most significant composers for string quartet will be performed in concert by the Alard String Quartet at 8:30 p.m. Wednesday, Feb. 12, in the Music Bldg. recital hall. Haydn's "Quartet," opus 74 #3 in G. Minor, has been called the Horseman Quartet because of significant rhythms in the first and last movements. Also planned are "Quartet #5" by Bartok and Beethoven's "Quartet in F Major," opus 59 #1. The Alard String Quartet is composed of Joanne Zagat and Donald Hopkins, violin, Raymond Page, viola, and Leonard Feldman, cello, all associate professors of music.

An exhibition of student work in sculpture is planned to show the variation of student efforts and their accomplishments from Feb. 11 to 28 in Zoller Gallery, Visual Arts Bldg. The Cook/Porter Invitational Student Sculpture Show will display sculptures by undergraduate and graduate art students in a large variety of media such as wood, welded steel, stone carving, plaster, relief, ceramic, and others, varying in size from small to very large. Among the submitted works will be John Cook, Stephen Porter, James Stephenson, Ronald Gallas, and David DonTigny, all of the faculty of the Department of Art.

Vicki Balson, a candidate for the bachelor of fine arts degree in music in March, will perform a violin recital at 8:30 p.m. Monday, Feb. 10, in the Music Bldg. recital hall. She is active in the PSU Symphony Orchestra and Musica da Camera, University chamber orchestra, and has performed past recitals at the University. She will play sonatas by Bach, Prokofiev, and Schumann and Vivaldi's "Suite in A Major." Accompanying will be Jill Olson, piano.

Two Mozart works, "Serenade #11" for woodwind quintet and "Bastien and Bastienne," a one-act opera, will be performed by music students under the direction of Gregory Donovetsky, instructor, at 8:30 p.m. Sunday, Feb. 16, in the Music Bldg. recital hall. Graduate student Shirley Foster Donovan, Vincent Nola, and Walter Wells and a small chamber orchestra will present the opera, written by Mozart at a very early age and first performed in Vienna in 1768.

Plaques for Agriculture

Dr. James M. Gault, center, dean of the College of Agriculture, and Dr. Thomas B. King, left, assistant dean for extension, on behalf of the College, accept National Farm-City Week Council plaque during a recent treaty meeting in recognition of contributions of the College and Extension Service to better understandings between farm and urban people. Assistant Extension Director Leland H. Gull, right, member of the State Farm-City Week Council, who presented the award, pointed out that the College has been involved in Farm-City Week activities during the past 19 years.

PENN STATE intercom

February 13, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in brief

SHAKESPEARE'S "TWELFTH NIGHT"

Probably Shakespeare's most popular comedy of misplaced love, mistaken identity, and puritanism, "Twelfth Night," opens today in the Playhouse Theatre and will play Feb. 13, 14, 15 and 18 through 22.

The University Theatre production, directed by Knox Fowler, professor of theatre, follows the exploits of Viola (Ann Biegel) in pursuit of the Duke Orsino (Paul Craggs). Orsino, meanwhile, quests for the Countess Olivia (Heleena Ruoti), who completes the circle by falling in love with Viola, disguised as a man to be near Orsino.

Other major roles are performed by Paul Farin, as Olivia's steward, and Marc Field, Viola's brother. Choreography is by Suzanne Foster, scenic design by Anne Gibson, costume design by Herman George, and lighting by Donald Toto.

Nightly curtains are at 8:00; the box office is open daily.

WRESTLING TICKETS

The Eastern Independent N.C.A.A. wrestling tournament at University Park Feb. 28-March 1 will find entries from 38 colleges and universities competing for berths in the N.C.A.A. finals March 13-15.

Tickets for the tournament here are being sold now, and may be obtained at the ticket office in Room 237 Rec Hall. Series tickets, good for all four sessions, are \$6 each. Individual session tickets are \$1 for Friday afternoon; \$2 each for Friday

evening and Saturday afternoon; and \$3 for Saturday evening finals.

Qualifying for the NCAA finals, to be held at Princeton University, will be top three finishers in each weight class and five other selections.

PHI BETA KAPPA

Lambda chapter of Phi Beta Kappa honorary elected officers for the year recently: Dr. Daniel Walden, associate professor of American studies, as president; Dr. Doris M. Seward, executive assistant to the president, as secretary; Dr. Barton W. Browning, assistant professor of German, as treasurer; an executive committee of Dr. Jean W. MacCloskey, associate professor of biology, Dr. William R. Schmaling, head of Slavic languages, and Thomas C. Pierson, graduate assistant in history. Historian Dr. Ira Brown, professor of American history.

DANCER FEATURED

Raymond Johnson, a professional dancer who has toured with the Murray Louis and Alvin Nikolais companies and who recently founded his own dance company, will be featured in a performing arts program Feb. 17-21 at Capitol Campus. He will not only give theatre dance presentations but also conduct modern dance classes, give a program for children, and hold daily seminars. All the programs are free and open to the public.

BLUE BAND CONCERT

Special arrangements are being made in the State Capitol for a performance April 8 by the Penn State Blue Band. The concert, which Blue Band director Dr. James

Dunlop schedules annually, has drawn good crowds as part of the Wednesday Rotunda Concert Series, but this year the Band will perform in the Forum of the Education Bldg., the largest auditorium available. To accommodate the Band, an extension to the stage is planned. The change is being made for a very practical reason — the Blue Band has too much power for the Rotunda and to hold it outdoors is to gamble on the vagaries of the weather. But the show will go on.

KIDDIES KARNIVAL

An International Carnival for Kiddies, 4-12, is planned by the Volunteer Service Center for Sunday, Feb. 16, from 12:30 to 4 p.m. in the HUB ballroom.

All children of the area are invited to the party at which children of international students and faculty at University Park will introduce some of their games to American children and, in general, reveal some of their culture. A special invitation has been extended to some of the area's underprivileged children also.

The VSC views the carnival as a way of helping children of contrasting cultures to get acquainted through fun and games.

LIBRARY DISPLAY

Because of the importance of an informed consumer in today's marketplace, the Undergraduate Library in 106 West Pattee has prepared an attractive display featuring consumer information in many areas. Hundreds of pamphlets and brochures have been acquired from the state

(Continued on page two)

West article in JGE winter issue

Among the contributions to the Winter issue of the Journal of General Education published by the University Press and edited by Drs. Caroline D. and Robert B. Eckhardt is an article by Paul West, professor of English and comparative literature. The article is titled "The Lightning-Rod Man: The Migraine Headache As Heuristic Tool."

The issue also contains book reviews by William Empson, visiting professor of English and Fellow in the Institute for the Arts and Humanistic Studies, and Dr. Deborah Austin, professor of English. Jack McManis, assistant professor of English, contributes a poem, "Swan Interlude."

Anya Derrick, senior assistant librarian at Pattee Library, has written an article on "Alexander Solzhenitsyn: Pilgrim in Life and Literature."

Among the other contributions are articles by Ernest B. Gilman, on "Marvell and Velasquez in Perspective" and Kalyan K. Chatterjee's "The Renaissance Analogy and English Education in Nineteenth-Century India."

Copies of this issue of JGE may be obtained at the University Press office in Room 215 Wagner Bldg. Subscriptions, which are available to Penn State faculty members, may also be obtained through the University Press.

Smoking in class is Council topic

University Council last week continued discussion of the matter of smoking in the classroom.

The matter was first discussed at the Dec. 19 meeting, having been referred to the Council by President Oswald, who suggested there may be a need for University-wide regulations on smoking "To protect those individuals who do not smoke and who understandably object when in an environment which is polluted by smoke."

To study the problem, Dr. Russell E. Larson, Council chairman, appointed a subcommittee comprised of Dr. Walter H. Walters, Dr. Helen A. Guthrie, and Kevin N. Wright, a graduate student, recently appointed to the Council to succeed Kenneth M. Novak. He attended his first meeting of the Council on Thursday.

Dr. Larson said he also would name an undergraduate student to the Committee, explaining that undergraduates to be considered for appointment had now been nominated and that the appointments are expected to be made in the near future.

Council members expressed concern about reported faculty practices that are directly related to quality of instruction the student receives. They plan to discuss the matter at greater length at the next meeting, scheduled for Feb. 20.

Stabb on Borges

St. Martin's Press, New York, has selected for publication in paperback form the study of Jorge Luis Borges by Dr. Martin S. Stabb, professor of Spanish and head of the Spanish, Italian and Portuguese department. The study was published in hardback in the company's Twayne World Authors Series. Borges is the Argentine poet, essayist and short-story writer.

AAUP presents subject for consideration at March meeting

Senate asked to endorse mailing guidelines

The University Faculty Senate has been asked to endorse guidelines suggested for the use of the University mailing system.

A motion urging the endorsement was made at the Feb. 4 Senate meeting by William Rabinowitz in behalf of the American Association of University Professors.

Under Senate rules, action cannot be taken on the motion until the March meeting.

The AAUP last March filed a complaint with the Pennsylvania Labor Relations Board over the refusal to allow the organization to distribute information through the University's mailing system.

The PLRB dismissed the complaint and its action was upheld by the Centre County Common Pleas Court. That decision was then appealed to the Commonwealth Court

but the appeal has since been withdrawn.

The proposed guidelines note that "all members of the University community (including administrators and faculty members) with an interest in collective bargaining have a right to use the University mailing system to communicate their views to other members of the University community."

"It is inherently unfair for any individuals or groups to use the UMS to advance their views while, at the same time, denying others the opportunity to do likewise."

Pointing out that the University provost and president have used the mailing system to oppose collective bargaining, Rabinowitz said refusal to allow the AAUP to use the system is an abridgement of the faculty's right to know.

Clarification of Buckley Amendment Policy

January 28, 1975

To: The Pennsylvania State University Community
Re: Buckley Amendment Clarification

Your attention is directed to Item VII B of the Interim University Policy on Confidentiality of Student Records issued on January 3, 1975.

The second sentence of that item reads as follows: "Such disclosures will be made to a third party only on the condition that written notarized consent is obtained from the student"

Written notarized consent is required only in the instance when the student cannot appear in person to initiate such a request. A letter requesting the release of information, for example, would require notarization. In this regard, telephone requests should not be honored.

In the final policy statement to be issued later this year, an appropriate correction will be made. In the interim, this clarification is offered.

JOHN W. OSWALD
President

Nominations asked for library award

March 1 is the deadline for nominations for the Award for Outstanding Contribution to Pennsylvania State University Libraries. The award, consisting of a cash stipend and a Nittany Lion statue, is presented annually to a University Libraries staff member, a benefactor of the University Libraries, or a member of the University teaching faculty, administrative or research staff. Nominations may be obtained from the Personnel Librarian, Room E505 Pattee Library, telephone 865-0401. Guidelines to be followed in making the selections are:

- Has made a "professional contribution which has a significant influence on the operations of the Pennsylvania State University Libraries."
- Has made a "significant professional contribution which earns the recognition of the University community for the Pennsylvania State University Libraries."
- Has made a "significant contribution to the profession which reflects achievement in a leadership role at the Pennsylvania State University."
- Has shown "excellence of service to the Pennsylvania State University Libraries as evidenced by continuous leadership and innovation."

Nutrition lab assistant wanted

The College of Human Development is seeking someone to fill a position as laboratory assistant in the nutrition program, and describes the position and qualifications for it as follows:

Laboratory Assistant, Nutrition Program, College of Human Development, B.S. in Biochemistry or related science. Assist with on-going laboratory projects in nutritional biochemistry. Duties include care of animals on experiment, vitamin and mineral analysis, use of spectrophotometry, fluorimetry liquid scintillation counting and other laboratory methodology. Apply to Barbara A. Underwood, 118 Human Development.

State soil survey is progressing

University soil technologists have mapped the soil characteristics of more than 87 per cent of the State — 45 of Pennsylvania's 67 counties — in a project that has been underway since 1957.

The major thrust of the project is to characterize soils to be found in the State in terms of location, description, and physical, chemical and mineralogical analyses.

Interpretations are then drawn as to the suitability of the soil for different land uses.

The project, directed by Dr. R. P. Mateski, professor of soil genesis and morphology, is a joint effort of the Pennsylvania Department of Environmental Resources and the U.S. Department of Agriculture.

The state Department of Environmental Resources recently awarded a grant of \$123,250 for the continuation of the project.

Initial soil mapping of the entire State is expected to be completed by 1980. Work has already begun, however, on updating results and remapping areas covered in earlier surveys.

According to Dr. Mateski, the survey is now used primarily by urban and suburban developers as it is especially suited for engineering uses.

An example of a planning problem that might have been averted is the drop in the water table in the King of Prussia area, he said.

Funding Opportunities

For procedural and funding source information, call 865-1372.

February 13, 1975

(166-1) Technology dissemination projects include: Pennsylvania State University, "Individual entrepreneurs, and health organizations are being solicited by PENPAT (Pennsylvania Technical Assistance Program). Projects to describe methods of the Pennsylvania State University to achieve social or economic benefits. Up to one-half of the approved project total cost will be funded for a twelve-month period from July 1, 1975 and June 30, 1976. The proposal deadline is April 15, 1975. A proposal outline and other information is available from the office of G. A. Speerly, 505 Keller Bldg. (81-865-0453) (Ref. F&F memo 1/31/75)

(166-2) Applied research on environmental effects of energy development from geothermal resource will be supported by the National Science Foundation. Research areas include: water quality, air quality biological impact, physical effects, socio-economic impact, and environmental impact research. NANN guidelines for unsolicited proposals are to be used. For current year funding, proposals should be submitted before the end of March 1975 (Ref. CBO, 1/22/75)

(166-3) Loans and grants to improve the economic or environmental status of rural communities, and establish or enhance business and industry are available to individuals and public and

private organizations through the Secretary of Agriculture. Factors considered include: area, employment, and competitive ability. (Ref. 40PR 4393-59, 1/29/75)

(166-4) The Office of Education (OE) announces March 7, 1975 as the deadline for institutional grants for personnel fellowships, institutes, and short-term training programs. Funding criteria for these programs have also been announced. Information 1/29/75 (Ref. 40PR 4328-27, 1/29/75)

(166-5) A NASA Research and Technology Operating Plan Summary for FY 1975 may be reviewed and/or signed out at the office of Paul Ebaugh, ASAC, College of Engineering, Room 105 Hammond. The 185 page document gives a summary of NASA research projects and NASA's research interests. The document is appropriately indexed and provides contact information for the NASA monitor for each program area. (Ref. PE memo, 1/29/75)

(166-6) NSF's Faculty Research Participation (FRP) program provides research opportunities during summer 1975 at industrial and government laboratories. Projects are open to faculty with at least five years of full-time college teaching who hold an advanced degree in a scientific discipline. Most projects last ten weeks and cover a wide range of subjects including energy conversion research, vehicle propulsion, energy effects on man and environment, soil mechanics, and medical diagnosis. Sixty-six projects are supported, and information and application forms may be obtained by writing to the director for a directory of projects contact, Faculty Research Participation Program, Div of Higher Education in Science, NSF, Washington, D.C. 20550 (122-827-7760) (Ref. JG 1 INTERCOM 2140-2 and NSF News 1/29/75)

(166-7) The National Endowment for the Humanities (NEH) has a March 15, 1975 deadline for Education Program Grants. Contact: Ekan, 205-283-5911. Three NEH programs are available: April 1, 1975 deadline date, Education Planning Grants (Mr. Harold Cannon, 202-882-8085); Youth Grants in the Humanities (Mr. Nancy Moses, 202-882-8301); and Fellowships for the Professions (Journalists (Dr. James H. Blassing, 202-883-3771). And

Retirement

Fred J. Ball, a member of the University staff since 1940, has retired as adviser in the Division of Undergraduate Studies. Except for the years 1942-46, when he was a psychological researcher and consultant with the U.S. Army Air Force, he was associated with Penn State from his undergraduate days. He holds both bachelor of science and master of science degrees in psychology from the University. He first joined the staff in 1940 as a personnel research assistant, a position he held until he entered the armed services in 1942. From 1946 until his retirement last month, he served successively as assistant in testing and counseling in General Extension (1946-1952), assistant to the director of the Division of Counseling (1957-1972), counselor in the Career Development and Placement Center (1972-1973), and finally the position from which he retired.

Honors

Dr. Theodore R. Vallance, professor of human development and associate dean for research and graduate study of the College of Human Development, has been selected as a Senior Fulbright-Hays Scholar for this year and will spend the Spring Term in Europe. He will engage in independent research in social indicators and social structure in association with UNESCO and the National Center for Scientific Research, based in France. He will lecture at the University of Edinburgh and visit the Science Policy Group at the University of Sussex. He also plans to visit the Research Institute for Social Development in Geneva and the International Institute for Applied Systems Analysis in Vienna.

Behavior talk

Dr. Erving Goltman, professor of anthropology and sociology at the University of Pennsylvania, will speak on "Gender Commercialism: Stereotype of Feminine Behavior Types in Advertising" at the meeting of Alpha Kappa Delta Tuesday, Feb. 18, at 7 p.m. in Room 105 Forum. The sociology honorary society is co-sponsoring the visit by Dr. Goltman with the College of Liberal Arts, Department of Sociology, Rural Sociology, Man and Environment Relations, Individual and Family Studies, and Community Development. A member of the Penn faculty since 1968, Dr. Goltman is a graduate of the University of Illinois and received advanced degrees from the University of Chicago. He is the author of such books as "Strategic Interaction" and "Behavior in Public Places."

April 17, 1975 is the deadline for Museum and Historical Societies Program, Interpretive Exhibition Grants and Community Education Grants (Ref. K000-205-283-5714). The Program Development Special Projects (Mr. Stephen Goodell, 202-882-8333). (Ref. OPJ deadline dates)

(166-10) A list of leadership specialist projects to provide information to school decision makers about new materials and to develop leadership expertise in implementing new materials has been issued in directory form by the National Science Foundation's pre-college instructional improvement program. Projects are categorized as: school system projects, teacher projects, or leadership specialist projects. A copy of the directory is available in 5 Old Main or may be ordered from NSF (202-633-7295) (Ref. NSF ETS-24)

(166-12) Biographical data of foreign scholars available for appointments in U.S. Universities and Colleges under the International Exchange of Scholars (CIES), 2101 Constitution Ave., Washington, D.C. 20418 (202-389-6647). Twenty fields are listed in the announcement. (Ref. CIES Announcement 1/27/75)

(166-13) Graduate Candidates are needed for new openings in Fulbright-Hays appointments available for 1975-76. Ten fields, research awards, and lectureships are open. Details are on file and may be obtained from the International Exchange of Scholars (CIES), 2101 Constitution Ave., Washington, D.C. 20418 (202-389-6627) July 1, 1975 is the deadline for applying for 1977 awards. The same contact will also provide registration forms for that later period. (Ref. CIES Announcement 1/27/75)

REMINER AND DEADLINE DATES

March 1, (Nex. 202) for NATO Senior Fellowships (Jan. 10 INTERCOM 2140-5). March 1 for Manpower Research and Observation grants (Jan. 23 INTERCOM 2163-1). March 13 for Barnes and Noble Foundation grants (Jan. 23 INTERCOM 2163-1). March 17 for NEA Internship Program (Jan. 23 INTERCOM 2163-1). March 21 for EOE Ethnic Heritage Studies (Jan. 16 INTERCOM 162-1). March 21 for Pa. Resident Graduate Grants (Tuition) (Jan. 9 INTERCOM 2161-7).

NEWS — (Continued from page one)

and federal governments concerning product evaluation, consumer protection, health and safety, and consumer education. Many informative brochures are free to the public. The consumer information display will continue through the Winter Term.

DINNER-THREATH

An Italian Buffet Dinner (ravioli, spaghetti and other delicacies) coupled with two one-act plays together called "The Last Sweet Days of Isaac" will be the fare for "The Uncommon Dinner Theatre" Saturday and Sunday, Feb. 15-16 at Kern Grad Hall.

Graduate students in theatre arts will be featured in the rock musical show and the P.S.U. Hotel and Restaurant Society will provide the dinner in this unusual combination of events being staged by Kern Graduate Commons.

Dinner service is at 6:30 p.m. in Room 102 Kern Bldg. If it is not too late to purchase tickets at the HUB or Kern Information desks, they are priced at \$5.50.

The plays will star Jerry James (in both "The Uncommon Dinner Theatre" and "Play") and Bobbi Burger (in "I Want to Walk to San Francisco"). Musical portions are provided by a trio of singers and an instrumental quartet of piano, bass, guitar and drums.

COOKBOOK ORDERS

Interest in the cookbook described in last week's INTERCOM indicates that perhaps housewives at all campuses (and in dorms) are looking for a new book. "Just What the Doctor Ordered," which the wives of residents at the Hershey Medical Center are publishing. If you wish to order, send \$4 (no tax) to Mrs. Carolyn Gehl, 75 Sylvania Rd., Hershey, Pa., 17033. The book will be delivered in March. Profits from the sale of the cookbooks goes to the Hospital's Gifts and Endowments fund.

WPSX highlights

Sunday, Feb. 16 — "The Fortunes of Nigel," a Walter Scott tale, begins a five-part series of "Five O'Clock Theatre," at 6 p.m. Series Saturdays also at 10 p.m., beginning Feb. 22.

Sunday, Feb. 16 — An hour-long documentary on the Tusque, nomads of the Sahara, on "View" at 7:30 p.m.

Monday, Feb. 17 — A jazz concert by the big band of Thelma-Mot Lewis, recorded at the Top of Plaza Restaurant, New York. At 8 p.m.

Tuesday, Feb. 18 — "Music in Pennsylvania" at 8:30 p.m. A special double bill of "The Sound of Music," with accompaniment by Steven Smith and Chastee Olsen, also members of the faculty.

Wednesday, Feb. 19 — Robert Penn Warren's "Blood of the Prophets," at 8:30 p.m. "The American," performed by the Trinity Square Repertory Company of Providence.

Thursday, Feb. 20 — At 6:30 p.m., a half-hour look at the White House Press Corps, on the program "Gerald Ford's America."

Thursday, Feb. 20 — "Night Nurse" is the Japanese film of the week, at 9 p.m. A 1958 classic, "Night Nurse," starring Bette Midler and Sami Samir, who discovers his wife has been unfaithful.

HUB specials

Monday, Feb. 17 — Lunch, American chop buffet, \$9.75; dinner, scalloped chicken and noodles, \$9.95. Tuesday, Feb. 18 — Lunch, hot sausage, \$9.95; dinner, spaghetti and meatballs, \$10. Wednesday, Feb. 19 — Lunch, wild rabbit, \$9.95; dinner, Spanish meatloaf, \$10.40. Thursday, Feb. 20 — Lunch, la mazzoni, \$9.95; dinner, spaghetti and meatballs, \$10.40. Friday, Feb. 21 — Lunch, seabeurger, \$11.50; dinner, french fried beef, \$11.95. Saturday, Feb. 22 — Lunch, chili con carne, \$9.95; dinner, spaghetti and meatballs, \$12. Sunday, Feb. 23 — Dinner, chopped steak, \$9.95; supper, lasagne, \$12.75.

Staff vacancy

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by mail to the Human Resources Department, Room 105-1387. Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, FEBRUARY 20, 1975

ADMINISTRATIVE ASSISTANT — Hershey Medical Center

Responsible to the Chairman of the Department of Surgery for budgetary and administrative functions of the department including budgetary responsibilities, personnel administration, purchasing, departmental operational policies, and liaison with other departments and outside organizations. Bachelor's degree or equivalent in Business Administration plus one to two years directly related administrative experience.

The University is an Equal Opportunity Employer

Vol 4, No. 22 Feb. 13, 1975
Penn State INTERCOM is a weekly publication for the academic community of the Pennsylvania State University, published each Thursday when classes are in session. General information and items of interest should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.
Editor: W. F. Ackerman Phone 865-7317

University Park Calendar

February 13-23, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Feb. 13 — Sports: Women's basketball, vs. Lock Haven, 4 p.m. Women's bowling, vs. Ithaca, 4 p.m. Women's gymnastics, vs. Ithaca, 5 p.m. Women's swimming, vs. Ithaca, 5 p.m.

Thursday, Feb. 13-15 — University Theatre, "Twelfth Night," 8 p.m., Playhouse Theatre.

Friday, Feb. 14 — Artists Series, Marcel Marceau, 8:30 p.m., University Auditorium.

Friday, Feb. 14 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, Feb. 14-15 — Alpha Phi Omega Pinchot Marathon, 7 p.m. Friday to 7 p.m. Saturday, HUB card room.

Saturday, Feb. 15 — Sports: Men's basketball, vs. Army, 1 p.m., Rec Hall, wrestling, vs. Lehigh, 3:30 p.m., Rec Hall. Men's and Women's gymnastics, 8 p.m., Rec Hall. Men's fencing, vs. Navy, 2 p.m. Women's fencing, vs. Madison and William Paterson, 9 a.m. Men's swimming, vs. Indiana (Pa.), 3:30 p.m.

Saturday, Feb. 15 — Musica da Camera, baroque music, 3 p.m., Gallery C, Museum of Art.

Sunday, Feb. 16 — Student concert of Mozart's music, including opera "Bastien and Bastienne," 8:30 p.m., Music 809a recital hall.

Sunday, Feb. 16 — Volunteer Service Center, International Kiddies' Carnival, 12:30-4 p.m., HUB ballroom.

Sunday, Feb. 16 — Chapel Service, 11 a.m., Music Bldg. recital hall. Bishop Dean T. Stevenson, Episcopal Bishop of Central Pennsylvania, Harrisburg.

Seminars

Thursday, Feb. 13 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Peter Black on "Interesting Mesoscale Circulation Features Observed from the Skylab Space Station."

Thursday, Feb. 13 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. J. M. Leitner, Oak Ridge National Lab., on "Interaction between Nuclear Fuels and their Container Materials."

Thursday, Feb. 13 — Agronomy, 3:45 p.m., Room 301 Ag. Administration, Jim Drayton on "The Substrate Copper Activities and Uptake by Corn Hybrids."

Thursday, Feb. 13 — Chemistry, 12:45 p.m., Room 333 Whitmore, J. Jonas, University of Illinois, on "Molecular Motions in Fluids at High Pressure."

Thursday, Feb. 13 — Physics, 3:35 p.m., Room 117 Osmond, Steven L. Goldman, philosophy, on "The Relation between Science and Magic in History."

Thursday, Feb. 13 — Biophysics, 4 p.m., Room 617 Science, Dr. Sue Wickner, National Cancer Institute, NIH, on "Conversion of α 174 Viral DNA to Double Stranded Form by Purified Protein."

Thursday, Feb. 13 — Engineering Acoustics, 4 p.m., Room 73 Willard, Ralph R. Goodman, Assoc. Dir. of Res. for Oceanology, Naval Research Lab., Washington, D.C., on "Seventy Year History of Underwater Acoustics."

Thursday, Feb. 13 — Statistics, 4 p.m., Room 69 Willard, Dr. Brian L. Joiner, University of Wisconsin, on "Designing Experiments When Time Order Is Important."

Monday, Feb. 17 — Remote Sensing, 4 p.m., Room 301 Electrical Engineering, West, Thomas W. Simpson, agronomy, on "The Application of Multispectral Scanner Data to Forest Soil Mapping."

Tuesday, Feb. 18 — Analytical Chemistry, 1 p.m., Room 333 Whitmore, Jacob J. Vochaychak, Jr. on "Determination of the Standard Electrode Potential of Manganese Dioxide as a Function of Temperature and pH."

Tuesday, Feb. 18 — Geosciences, 4 p.m., Room 26 Mineral Sciences, Peter D. Stiller, astronomy, on "Current Research in Quasar Stellar Sources (Quasars)."

Tuesday, Feb. 18 — Physiology, 3:55 p.m., Room 111 Life Science, Dr. J. Brighton, mechanical engineering, on "Development of Artificial Hearts."

Tuesday, Feb. 18 — Chemical Engineering, 3:40 p.m., Room 140 Fenske, Dr. Frederick W. Lampe, on "Chemical Reactions of Ions in Mass Spectrometers."

Tuesday, Feb. 18 — Water Pollution Control, 2:20 p.m., Room 124 Sackett, Dan Sweeney, EPA, Regional Office, Philadelphia, on "Effluent Guidelines and the National Pollution Discharge Elimination System."

Sunday, Feb. 16 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Feb. 17 — Julia Hull piano recital, 8:30 p.m., Music Bldg. recital hall.

Monday, Feb. 17 — Sports: Men's basketball, vs. Colgate, 8 p.m., Rec Hall.

Tuesday, Feb. 18 — Gallery Talk, "Carlo Fontana and the Jesuit Sanctuary at Loyola," Dr. Helmut Hager, 10:30 a.m., Museum of Art.

Tuesday, Feb. 18 — Sports: Women's bowling, vs. Maryland, 3:30 p.m. Women's swimming, vs. Maryland, 4 p.m.

Tuesday-Saturday, Feb. 18-22 — University Theatre, "Twelfth Night," 8 p.m., Playhouse Theatre.

Wednesday, Feb. 19 — Penn State Brass Chorale, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Feb. 19 — "Noondays" devotional series, 12 noon-12:30 p.m., sponsored by United Ministries. Leader, Rev. Donald Davis.

Wednesday, Feb. 19 — Sports: Men's fencing, vs. Lafayette, 3:30 p.m.

Wednesday, Feb. 19 — Entry forms due for GSA Table Tennis Tourney, 5 p.m., Kern Information desk.

Wednesday, Feb. 19 — Program on pet overpopulation and pet care sponsored by Free U and Speech 250. Speaker, Dr. William C. Gussano, veterinary science; Tim "Petthood vs. Parenthood" Open to public.

Thursday, Feb. 20 — Artists Series films, Paul Robeson, "Emperor Jones," 8:30 p.m., Schwab.

Thursday, Feb. 20 — Sports: Women's basketball, vs. Millersville, 3 p.m.

Tuesday, Feb. 18 — Plant Pathology, 9:45 a.m., Room 213 Buckhout, Betsy Scarborough, M.S. Thesis research.

Tuesday, Feb. 18 — Solid State Physics, 1 p.m., Room 339 David, Dr. Milton W. Cole, physics, on "The Potential of Physical Adsorption."

Tuesday, Feb. 18 — Philosophy, 4 p.m., Room 167 Willard, Joseph Flay on "Toward a Philosophical Defense of Religion."

Tuesday, Feb. 18 — Ecology, 4 p.m., Room 101 Althouse Lab, Robert T. Paine, University of Washington, on "Ecological Studies on Dynamic Spatial Heterogeneity in Rocky Interficial."

Wednesday, Feb. 19 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. T. B. Lindemer, Oak Ridge National Lab., on "Coated Particle Nuclear Fuel Behavior in an Irradiation Environment."

Wednesday, Feb. 19 — Fuel Science, 4 p.m., Room 301 Mineral Industries. Dr. Peter Given on "Liquefaction of Coal."

Wednesday, Feb. 19 — Ecology, 3:55 p.m., Room 111 Life Science, Thomas Hoff on "Comparative Response to Artificial Overhead Cover Among Various Strains of Domestic Brook Trout."

Thursday, Feb. 20 — Physics, 3:35 p.m., Room 117 Osmond, J. W. Negele, M.I.T., on "The Equation of State of Neutron Star Matter."

Thursday, Feb. 20 — Plant Pathology, 8 p.m., Room 213 Buckhout, Dr. Lawrence B. Hendry, chemistry, on "Chemical Messengers in Insects and Plants."

Thursday, Feb. 20 — Chemistry, 12:45 p.m., Room 333 Whitmore, Nicholas Winograd, Purdue University, on "Electron Spectroscopic ("ESCA") Studies of Metal-Oxygen Surfaces."

Thursday, Feb. 20 — Agronomy, 3:45 p.m., Room 301 Ag. Administration, Tom Simpson on "Land Resource Mapping in Forested Mountainous Areas Using ERTS-1 Multispectral Scanner Data."

Thursday, Feb. 20 — Statistics, 4 p.m., Room 69 Willard, Dr. David A. Pierce, Division of Research and Statistics, Federal Reserve Board, Washington, D.C., on "Causality in Temporal Systems."

Thursday, Feb. 20 — Engineering Acoustics, 4 p.m., Room C. Willard, Dr. Thomas Frank, director of audiologic service, speech pathology and audiology, on "Impedance Audiometry as a Guide to Hearing Assessment."

February 20 is the deadline date for Spring Term Calendar items; send them to INTERCOM, 312 Old Main. The calendar will appear March 6.

Friday, Feb. 21 — Artists Series film, Paul Robeson, "Song of Freedom," 8:30 p.m., Schwab.

Friday, Feb. 21 — Daniel Ragone, piano recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Feb. 21 — Free U jammy, 7:30 p.m., HUB ballroom.

Friday, Feb. 21 — Folk and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.

Friday, Feb. 21 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, Feb. 22 — Artists Series film, Paul Robeson, "Jericho," 8:30 p.m., Schwab.

Saturday, Feb. 22 — PSU Chapter Phi Delta Kappa, Ladies Night, dinner and dance, Banquet, Nittany Lion Inn, 6:30 p.m., dance at 8:30 p.m., Room 102 Kern.

Saturday, Feb. 22 — Men's basketball, vs. Pittsburgh, 8 p.m., Rec Hall.

Sunday, Feb. 23 — Karen Buday, soprano recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Feb. 23 — Artists Series Film, Paul Robeson, "Proud Valley," 8:30 p.m., Schwab.

Sunday, Feb. 23 — GSA graduate student Table Tennis Tourney, men's and women's divisions, 9 a.m., Room 101 Kern.

Sunday, Feb. 23 — Chapel Service, 11 a.m., Eisenhower Chapel, Rev. Charles L. Coeman, Program Director of Religious Affairs.

Sunday, Feb. 23 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Meetings

Thursday, Feb. 13 — Penn State Branch, American Society for Engineering Education, luncheon meeting, 12 noon, HUB dining room "A". Dr. Robert Quinn, on "An Introduction to the Commonwealth Campus System and a Review of the Programs."

Thursday, Feb. 13 — Alpha Kappa Delta honorary in sociology, 3:30 p.m., Room 307 Liberal Arts Tower, Dr. Rex Ward, rural sociology, on "Will the Real Consumer Activist Please Stand Up: A Search for a Theoretical Perspective."

Monday, Feb. 17 — USG Senate, 7:30 p.m., HUB assembly room.

Monday, Feb. 17 — OTIS, 6:30 p.m., Room 203 HUB.

Monday, Feb. 17 — Education Student Council, 7 p.m., Room 123 Chambers.

Tuesday, Feb. 18 — ARHS, 7:30 p.m., Room 203 HUB.

Tuesday, Feb. 18 — Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, Feb. 18 — Society of Student Social Workers banquet, 6:30 p.m., Nittany Lion Inn. Speaker, John Mattingly, former director of Pittsburgh Community Treatment Center.

Tuesday, Feb. 18 — Alpha Kappa Delta, sociology honorary, 7 p.m., Room 105 Ford, Dr. Erving Goffman, Benjamin Franklin Professor of Anthropology and Sociology, University of Pennsylvania, on "Gender Commercial: Stereotype of Feminine Behavior Styles in Advertising."

Wednesday, Feb. 19 — Association for Women Students, 7 p.m., Room 203 HUB.

Thursday, Feb. 20 — Christian Science Organization, 7:30 p.m., HUB assembly room. Lecture by Joseph Herd.

Thursday, Feb. 20 — English Department faculty, 2:45 p.m., Nittany Lion Inn, Fire-side Room.

Exhibits

Museum of Art — Paintings, Drawings, and Prints by Bruce Shobaken, Gallery A, through Feb. 15. Will Barnett Retrospective, Etchings, Lithographs, Woodcuts and Serigraphs, opening Feb. 23, Gallery A. Carlo Maratti and His Contemporaries, Drawings from the Roman Baroque, Gallery C.

Zoller Gallery — Cook Porter Invitational Student Sculpture Exhibit.

212A Arts Bldg. — Photographs of Nature by Douglas Baz, through Feb. 14.

Chambers Gallery — Art Education Graduate Exhibition, all media.

Hammond Gallery — "First Dogmat Exhibition," paintings, drawings and mixed media by art majors Sandy Kautz and Lola Popowicz, until Feb. 16.

HUB Gallery — "Vision of Peace in Painting," 42 children's paintings by Arab and Jewish children, through Feb. 16.

Marcel Marceau, with some new sketches, will also present some of his most famous mime characters on the Artists Series Friday (Feb. 14) at University Auditorium, 8:30 p.m.

Artists Series

Marcel Marceau, the world's greatest living pantomime, will include his famous "Bibi" sketches in his Artists Series performance tomorrow (Friday, Feb. 14) in University Auditorium.

Marceau's appearance is part of the 1974-75 Theatre/Dance Series, which was sold out by season subscriptions last fall.

The celebrated French artist is making University Park one of the major stops on his third North American tour, which opened Sept. 6 with a record-breaking run at the New York City Center. Accompanying him as "Presenter of Cards" will be pantomimist Pierre Verry of M. Marceau's French company.

Marceau will also include in his program some of the style exercises and pantomimes with which American audiences are familiar, via television as well as the stage. It is a new program, but it will also include some of the old favorites, notably "Youth, Maturity, Old Age and Death" and "The Public Garden."

Marceau's current visit to this country, was preceded by two full years of international successes in the major cities of Europe, Latin America and Israel, as well as a 12-month sold-out engagement at his home base, the Ambigu Theatre in Paris. He is scheduled to return to Europe this month for engagements there.

The following week, the Artists Series will have a four-part series of Paul Robeson films, including: "Emperor Jones," Thursday, Feb. 20; "Song of Freedom," Friday, Feb. 21; "Jericho," Saturday, Feb. 22; and "Proud Valley," Sunday, Feb. 23. All are at 8:30 p.m. in Schwab Auditorium.

Robeson, long recognized for his fine bass vocal performances in all forms of music, played the role of "Emperor Jones" on the stage in London as early as 1923. A graduate of Rutgers University, Phi Beta Kappa and All-American football player, he became an outstanding stage and screen artist.

Tickets at all performances will be sold at the door, starting at 7:30 p.m.

Films

Thursday, Feb. 13 — Commonsplace Theatre, "A Man for All Seasons," 7 and 9 p.m., Room 112 Kern.

Thursday-Friday, Feb. 13-14 — "Black Girl," Cultural Center, Walnut Bldg. Thursday, 8:30 p.m., Friday, 7:30 p.m.

Friday-Sunday, Feb. 14-16 — Centre Cinema, "Bob and Carol and Ted and Alice," 7:30 and 10 p.m., Room 105 Ford.

Friday-Sunday, Feb. 14-16 — Penn State Organization for Reform of Marijuana Laws and Free University, "Fillmore," 7:15 and 9:30 p.m., Room 121 Sparks.

Friday-Sunday, Feb. 14-16 — Block & Bridge, "Cool Hand Luke," 7:15 and 9:15 p.m., Room 111 Ford.

Monday-Tuesday, Feb. 17-18 — Simmons lounge film series, "The Big Noise," Laurel and Hardy, 7:30 and 9:15 p.m., Simmons lounge.

Wednesday, Feb. 19 — Commonsplace Theatre, "What's Up, Tiger Lily?," 7 and 9 p.m., Room 112 Kern.

Mrs. J. Ralph Rackley presents the initial contribution to College of Education Dean Henry J. Hermanowicz to initiate a fund to develop a collection of documents relating to native American culture. The fund honors the late Dr. J. Ralph Rackley, who was Education dean for many years and later University Provost.

Collection of Indian history started

Documents relating to the history and culture of native Americans will form a special collection at the University in honor of the late Dr. J. Ralph Rackley, who served the University as provost and earlier as dean of the College of Education.

Planners of the project hope to collect deeds, documents, and correspondence pertaining to American Indian history and culture from sources throughout the nation. Few such collections exist in the United States. Both original materials and usable copies are being sought.

The collecting and organizing of the materials will be supported by the fund set

up as a memorial to Dr. Rackley by family, colleagues, and friends.

The committee arranging for the collection includes Ellis B. Richie, assistant for student affairs and instructor in education; Dr. Asa J. Berlin, associate professor of speech pathology; Dr. G. Lester Anderson, professor of education; Dr. Francis Fairchild, assistant professor of education; Theodore M. Johnson, director of the Curricular Materials Center; Dr. Arthur Heilman, professor of education; Yar Chomicki, professor of art education; and Mary E. Godfrey, assistant professor of art education.

Mrs. Rackley is consultant to the group.

Works of student sculptors, like Fred Snitzer, above, are currently on display in the Zeller Gallery in the Cook/Porter Invitational Student Sculpture Exhibit. Snitzer's clay sculpture is being completed for later casting in bronze.

ENVELOPES NEEDED

Recycling of interoffice envelopes at the University Park Campus saves many dollars, and in a period of paper limitations of all kinds, it helps to make fullest use of the available supplies. Departments, and individuals, are therefore urged to send excess supplies of used envelopes of all kinds to Mailing Services, 106 Service Bldg. This includes every type of envelope that might conceivably be reused — letter size; No. 10 lined or unlined, manila, or white; even up to 11 by 15 inch envelopes. These will then be sent to those departments that have expressed a need for envelopes; at the present time, the expressed need is far greater than the available supply.

MEATS LAB

Staff members are reminded that sales of meat at the Meats Lab near Beaver Stadium are held weekly, at 1:30 p.m. each Friday. Steaks, roasts, chops and sausage are available; beef, pork and lamb are the meats.

Credit Union elects board members

The Penn State Federal Credit Union, which now has assets of nearly \$1.8 million, held its annual meeting recently and elected these faculty and staff members to the board of directors: (sitting), Norman H. Selt, director of the Mineral Constitution Laboratories, treasurer; Dr. James C. Wambold, associate professor of mechanical engineering, president; and Dr. Paul O. Holtzman, professor of speech, as vice president. Standing are Diane S. Bernd, secretary in Individual and Family Studies; Raymond R. Dimes, instructor services coordinator for Commonwealth Campuses, in UOIS; Dr. Richard A. Keppeler, associate professor of agricultural engineering; and James W. Locker, Jr., personnel assistant, Personnel Administration. The CU, organized in 1960, now has 2,600 members.

Baroque music by chamber group

Works from the early and late Italian Baroque will be performed by Musica da Camera, University chamber orchestra, at 3:00 p.m. Sunday, Feb. 16, in Gallery C of the museum of Art.

Planned in conjunction with the current exhibit, "Carlo Maratti and his Contemporaries: Drawings from the Roman Baroque," the concert is an aspect of the re-creation of a period atmosphere in the gallery.

With the drawings, Baroque furniture is displayed. On weekday afternoons from 3 to 4 p.m., recorded Baroque music is played.

Musica da Camera, conducted by Dr. D. Douglas Miller, will perform Vivaldi's "Win-

ter Concerto" from his "Four Seasons," with Raymond Page, associate professor of music, on solo violin.

From the early Baroque will be Corelli's "Trio Sonata," with student musician Davis Brooks and Laura Sardinias, with Peter Brye, cello, and James May, harpsichord.

"Concerto Grosso," by Locatelli, will complete the afternoon's program. With ten late in the period, the work is in the traditional grosso form pioneered by Corelli.

Sunday's concert is open free to the public. The drawings from the Roman Baroque will be on display in the Museum through March 16.

Three singers and the conductor at a dress rehearsal for the Mozart one-act opera, "Bastien et Bastienne," discuss the performance to be given Sunday, Feb. 16, at 8:30 p.m., Music Bldg. recital hall. Graduate students Vincent Noel, left, and Shirley Foster Donovan and Walter Wells, right, go over music with Gregory Donovetsky, instructor in music.

Mozart operetta in costume Sunday

Mozart's operetta, "Bastien et Bastienne," will be staged in full costume by graduate students in music as part of an evening of Mozart at 8:30 p.m. Sunday, Feb. 16, in the Music Bldg. recital hall.

Shirley Foster Donovan and Vincent Noel portray the young lovers, with Walter Wells as their worldly conciliator, in the performance of the English version of the one-act opera.

Written by Mozart at a very young age, "Bastien et Bastienne" is a tuneful work recognized as foreshadowing some of the great composer's later major compositions. The similarity between the overture to the operetta and the opening theme of Beethoven's later "Eroica Symphony" is often noted.

The operetta was first performed in 1768 in the garden theatre of Dr. Anton Mesmer, discoverer of mesmerism. The libretto is Mozart's version of Madame Favart's parody of Rousseau's only opera, "The Village Soothsayer."

A small chamber orchestra of four winds and four strings will perform in the

operetta and will play Mozart's "Serenade #11" for woodwind octet.

The concert will feature all student musicians, conducted by Gregory Donovetsky, instructor in music. The public is invited to attend.

Three short sound-slide presentations are now available for use by faculty, staff, and students.

One is an overview of research in several colleges, including agriculture, engineering, science, earth and mineral science, liberal arts and medicine. Running time: 9:00 minutes.

The second, which runs 8:00 minutes, deals with life science research at University Park and Hershey.

The third, 7:00 minutes, explains the use of neutron activation analysis in criminal investigation.

The presentations might be useful for visitors, service clubs, prospective students, etc. All are in color, with automatic slide advance.

For information, call Gil Aberg, 855-7517.

Brass chorale has commissioned work

The premiere of a work by Byron McCulloch, "Sinfonia for Brass and Battery," commissioned for the Penn State Brass Chorale by the Institute for the Arts and Humanistic Studies at the University, will be among the highlights of the brass choir's concert at 8:30 p.m. Wednesday, Feb. 15, in the Music Bldg. recital hall.

McCulloch, bass trombonist with the Pittsburgh Symphony and senior lecturer at Carnegie-Mellon University, has composed several works, two of which were premiered by the Pittsburgh Symphony in Heinz Hall. He worked with the Brass Chorale while at the University during the recent residency sabbatical.

Robert Baisley, professor and head of the music department, will be the featured piano soloist in the group's performance of

Hindemith's "Konzertmusik for Brass, and Two Harps," a piece composed while the composer was under house arrest as an enemy of the Nazi state for his defense of Jewish musicians in Germany.

Mr. Baisley, who assisted under Hindemith for three years, notes that the work is a fairly dissonant piece, is the only composition for this unique combination of instruments.

Also scheduled are Piston's "Ceremonial Fanfare," commissioned for the 100th anniversary of the Metropolitan Museum of Art in 1970, and "Divertimento for Brass and Percussion" by Pulitzer Prize-winning composer, Karel Husa. Wednesday's free public concert will be conducted by James Benshoof, assistant professor of music and director of the Brass Chorale.

News in brief

UNITED WAY REPORT

The Centre County United Way, through the president of the Board of Directors, Dr. Leon R. Kneebone, has issued a special thanks and a commendation to the faculty and staff of the University who supported the recent financial drive of the organization.

Dr. Kneebone, who is professor of botany and plant pathology, said that 1,154 University contributors gave a total of \$72,365, well over the goal of \$70,000. The average pledge of \$62.70, some in lump sum and some in payroll deductions, is 42 per cent higher than the average gift of two years ago.

Dr. Kneebone issued a particular note of appreciation to Charles Lupton, University Division chairman, and his team of 15 sub-chairmen for their efforts.

TWO CULTURES DIALOGUE

Dr. James B. Bartoo, dean of the Graduate School, and Dr. J. J. Kaufman, director of the Institute for Research on Human Resources, will lead the "Two Cultures Dialogue" program, Tuesday, Feb. 25, at the Materials Research Laboratory. These locally-level discussions are held at noon,

with adjournment at 2 p.m., and an invitation is extended to all faculty and administrative personnel. The subject Feb. 25 will be "Elements and Process of Evaluation of Academic Programs," part of a series on "Assessment of the Quality of Education."

Found

A set of keys, including home, office, and car keys, and may be claimed after proper identification by calling at the Civil Engineering Department office, Room 212 Sackett Bldg. Among the keys are those for a Volkswagen.

FSHA DUTCH DINNER

Students of the FSHA 410 class will feature "A Night in Amsterdam" dinner Tuesday, Feb. 25, in the Maple Room of the Human Development Bldg. Service is at 5:30 p.m. Foods, customs, and service of The Netherlands will be the order of the evening. For more information and to place reservations, call 865-7441.

ART TOURS

Art history graduate students are conducting free tours of the Museum of Art where the current exhibit of Roman Baroque drawings is being displayed. The 45-minute tours, intended for a general aud-

ience, are held at 3 p.m. on Saturdays and noon on Tuesdays; they will continue through March 16. Debra Israel and Susan Munshower are conducting these special tours, which are in addition to the regular Thursday tours of the Museum.

BERKS ARTS SALUTE

A week-long Berks Campus "Salute to the Arts" March 16-21 will honor the contributions of Berks County artists to the area's cultural experience. Co-sponsored with the Berks Arts Council, the program will include a chamber music concert, four area high school stage bands in concert, exhibits by artists and craftsmen of the area, and a concert by a classical guitarist, Peter Segal, and flutist Janet Ketchum.

HUB ART EXHIBIT

Projects created by members of the Developmental Year program geometry class are on display in the HUB. Titled "Art in Display," the exhibit includes three-dimensional geometric figures and geometric codes in posters, straw constructions, string sculptures and line designs. The HUB Arts and Crafts Committee is sponsoring the display.

DANCE MARATHON

The Easter Seal Society of Centre and Clinton Counties will receive \$10,825 as a result of the Interfraternity Council Dance Marathon held in the HUB Feb. 7-9.

BEHREND COLLOQUIUM

The Third Annual Colloquium in History at Behrend College April 26 will be on the theme of "Conteionalism and Nationalism in 19th Century Europe." It will feature as speakers Dr. Nancy A. Rosenblatt, lecturer in history at University Park; Dr. Bruce F. Griffith, of Catawba College; Dr. Paul Valiere, Columbia University; and Dr. Helmut Schnitter, visiting assistant professor of history at Behrend, who will respond to the papers by the other speakers.

SCULPTURE SHOW

Sculpture of Daniel C. Wimer, who is a candidate for the Ph.D. in education administration, is currently on display in the Kern Graduate Commons Gallery and will

(Continued on page four)

Registration now underway

Two programming workshops planned

FORTRAN

An introductory programming workshop will be held Monday-Friday, March 3-7, in Room 112, Buckhout Building. Basic computer concepts and techniques of programming in the FORTRAN IV Language will be studied. The workshop is open to all faculty, staff, and graduate students, and will be oriented toward those who have had no previous computer experience. Lectures will be given throughout the day, beginning at 9:00 a.m. and resuming at 1:30 p.m. after a lunch break.

Sample programs will be studied and practice problems will be assigned throughout the week. In order to gain the maximum benefit, participants should plan to devote the entire week to the workshop.

INTERMEDIATE

An intermediate programming workshop introducing the PL/1 computer language will be held Monday-Friday, March 3-7, in Room 213, Buckhout Building. This workshop will assume a knowledge of some other computer language such as FORTRAN, COBOL, ASSEMBLER, or BASIC. Intermediate and advanced techniques of programming in the PL/1 language will be

Medical claims

March 31, 1975, is the last date on which the Employee Benefits Division will accept charges for a 1974 major medical claim from University employees or their dependents.

A major medical claim is established once an employee reports \$100 of eligible out-of-pocket medical expenses during the claim year period of January through December. If a major medical claim was not established in 1973, but charges were incurred in October, November, or December of that year, these charges may also be included in the reporting of expenses for a 1974 claim.

Claim forms and other information on how to report major medical expenses are available at the Employee Benefits Division, 133 Willard Bldg.

Pa. energy parks to be discussed

"Energy Parks in Pennsylvania" will be discussed by Edward F. Reis, manager of system planning for the Pennsylvania Power and Light Company, Allentown, at 2 p.m., Thursday, February 27, in 112 Kern Bldg. The meeting is sponsored by the University's Intercollegiate Graduate Program Committee on Energy Sources and Utilization.

Reis is project manager of the Energy Park Development Group which is made up of four utilities: his own company, Metropolitan Edison, Reading; Pennsylvania Electric Company, Johnstown; and Philadelphia Electric Company, Philadelphia.

This group has been studying the energy park concept under which concentrations of power plants, coal-fired as well as nuclear, would be built at a relatively few locations around the state rather than building single generating plants at many locations as is currently being done.

The concept was announced at a meeting sponsored by the Governor's Energy Council at a meeting in Harrisburg late last month.

The workshop will be open to all faculty, staff, and graduate assistants. Lectures will be given throughout the day, beginning at 9:00 a.m. and resuming at 1:30 p.m. after a lunch break.

Note, that unlike previous PL/1 and FORTRAN workshops, this is not introductory and that a prior course, or equivalent, will be assumed.

Registrations will be accepted by Linda Yarnall, Room 229, Computer Building, immediately for both courses. A charge of \$3.00 (cash or interdepartmental transfer) for course materials will be made for each registrant. Computer charges will be born by the Computation Center and participants can use the computer for practice purposes free of charge throughout the spring term.

Scientists presenting papers at the 59th Annual Meeting of FASEB are urged to contact the Scientific Information Officer as soon as possible if the work being reported has medical, environmental or other social implications. Call Gil Aberg, 865-7517.

From Office of Gifts and Endowments

Deadline nears for fund requests

Deans and Directors of Commonwealth Campuses are currently receiving from members of their faculties requests for use of undesignated funds received through the Office of Gifts and Endowments from alumni and friends of the University.

Such requests for funds are then considered by the Proposal Evaluation Committee before funds are distributed. This committee will be meeting next on April 2, and in order for these requests to be reviewed at that meeting it is necessary to have all request forms and supporting materials submitted to A. William Engel, of the Office of Gifts and Endowments, by Friday, March 14.

Faculty members are urged to consider this source of funds but are reminded that each request must be approved by the appropriate dean or director. To give some idea of the kinds of projects the Committee will consider, the following

criteria are noted:

1. In accord with University priorities when other funds are not available or appropriate.
2. Significant impact on the University.
3. Great degree of visibility so as to attract additional private funds.
4. Distribution of funds where the needs are greatest throughout the University.

Seven categories of projects for which allocations are made have been designated by the Office of Gifts and Endowments:

1. Enrichment of cultural offerings.
2. Financial assistance to students.
3. Improvement of quality of the campus environment.
4. New dimensions in instruction.
5. Religious affairs.
6. Stimulation of faculty research and scholarship.
7. Support of other projects.

SENATE REPORT

Election Procedures

The Senate Office has sent letters to all College Deans and Campus Directors directing them to hold elections for Senate seats. The Deans and Directors have been informed as to the number of Senators that should be elected based upon the census completed in January. The statement also indicates current Senators and when their terms expire.

The following procedures must be followed:

- (1) Nominations shall be made by members of the University Faculty. The procedure shall provide that every member of the electorate shall have the opportunity to place names in nomination.
- (2) There shall be at least twice as many nominations as there are Senators to be elected.
- (3) The election shall be by secret ballot.
- (4) In case an elected Faculty Senator does not complete his term, the University Faculty of his voting unit shall elect a replacement. . . At the next regular election, a Senator shall be elected to complete the term.

Please notify the Senate Office or a member of the Elections Commission if the procedures are not followed.

Members of the Election Commission are as follows: John J. Coyle, Chairman, Robert Hamilton, Harold Johnson, Thomas King, Pat Overdeer, Henry Sams.

Three deaths

Paul H. Margolf, professor emeritus of poultry science, who retired from the faculty with emeritus rank in 1963 after 41 years of service, died Feb. 13. Born Aug. 7, 1897, in Morrisville, Pa., he came to the campus in 1922 as a Winter Course student, began to work on the poultry farm and was appointed plant superintendent a year later. By taking several courses each year for 10 years, he earned a B.S. degree in 1937 and was appointed instructor in poultry husbandry. In addition to teaching and research on campus, he taught night classes to Rockview Penitentiary inmates for 23 years, helping an estimated 1,000 inmates to prepare for an occupation after release from prison. He conducted many studies on poultry products and management. He was active on many College of Agriculture committees and worked with student clubs. Among his many honors were the University's Award for Excellence in Teaching in 1959, "Poultryman of the Year" by the Pennsylvania Poultry Federation, and the Poultry Science Association's outstanding teaching award. He was active in many church and civic affairs, as well as the Pennsylvania State Poultry Federation.

J. William Caldwell, professor emeritus of industrial engineering who served on the faculty for 23 years, died Feb. 13 in Florida. He was born in Hickory, Pa., Jan. 18, 1903. Before joining the faculty in 1945, he served more than 15 years with Burroughs Corp., Johns-Manville, and the Elliott Co. In 1954, he held a Fulbright Award to work at the Technical University of Denmark and in 1967 he conducted seminars on industrial management at the University of Puerto Rico. From 1960 to 1962 he was a management consultant and director of the executive seminar with the U.S. International Cooperation Administration Mission and Productivity Center in Monterrey, Mexico. He initiated the Research and Development Management Seminar in the College of Engineering and was chairman of the program for ten years. He was very active in church and local organizations.

Dr. Rena Foy, who served on the faculty from 1963 to 1968 as assistant professor of education, died Feb. 7. She had been professor of education at Bowling Green University since leaving Penn State in 1963. Before coming here, she had taught at SUNY at Plattsburgh, the University of Texas, and in Texas high schools. She was the author of "The World of Education."

Funding Opportunities

For procedural and funding source information, call 865-1372.

February 20, 1975

(1617) The 1975-76 federal research and development budget includes a 4.5% increase. R&D facilities are to receive an additional one billion dollars. Civilian programs such as energy, health, education, agriculture, environment, urban problems, and transportation are to receive a 5% boost to \$7.4 billion. Health R&D is budgeted at \$2.6 billion; \$1.6 billion of that will go to NIH. Major efforts are planned in physiological and disease process research, inventories, and improving health care delivery. One-fourth of the \$7.4 billion goes for energy research — most to EROA. Research into a wide range of national problems will be funded through the Departments of Transportation, Interior, Commerce, HUD, Agriculture, NASA, NSF, EPA, and NRC. A recent NSF news release lists a wide range of national problems that some details. This information is available. (Ref. NSF 75-5A1).

(16172) The National Science Foundation FY 1975 budget is \$783.3 million or 11% over the FY 1974 budget of \$697.1 million. About 93% of the new budget is earmarked for basic research. The remaining 17% will be spent for applied research focused on national problems of environment, food and technology. Among the program increases are scientific research project support

Heart risk screening exam set for Feb. 25

A Heart Risk Screening Program, designed to discover those individuals prone to coronary heart disease, will be conducted on the University Park Campus Tuesday, Feb. 25, for anyone wishing to take advantage of the opportunity to have a specialized examination. The program is sponsored by the Central Pennsylvania Heart Association.

The program also includes assisting those found to be prone to heart disease to set up a health improvement program through their physicians, to reduce the risk associated with factors that can be controlled.

While not restricted to faculty and staff members and their families, the heart screening examination is directed toward them. A donation of \$3 is being asked

from each person to help defray the high cost of the program, which is aided financially by the Association.

Each person will be screened for blood pressure, cholesterol, blood sugar, skin fold, height and weight, and additional information will be obtained concerning the person's age, medical history, heredity, smoking habits, and exercise, because each of these factors is said to be some indication of whether a person is prone to heart disease.

The examinations will be given from 9 a.m. to 5 p.m., Feb. 25, in Room 301 Agricultural Administration Building.

To make an appointment for an examination, call the Pa. Heart Association office, 238-1301.

Once considered expendable

Mine gas extraction methods studied

Long known only as a dangerous gas that must be eliminated before coal can be mined safely, the methane that occurs in coal seams now looks as though it may be a valuable supplement to critically short U.S. natural gas supplies.

There's an estimated 660 trillion cubic feet of methane gas in mineable coals in the U.S. — enough to take care of all of the country's natural gas needs for a dozen years.

To find the best and most economical methods of extracting this formerly "useless" substance from the earth, a methane research group has been organized in the Department of Mineral Engineering.

Initial funding for the first year of what is planned as a five-year program has come from the Pennsylvania Science and Engineering Foundation. The U.S. Bureau of Mines, which has done the pioneering research in this country on the recovery of methane from coal primarily from the standpoint of miner's health and safety, will also be a major sponsor, and help is expected from various coal producers as well.

Co-directors of the project are Dr. Robert Stefanko, professor of mining engineering, and Robert L. Frantz, professor and head of the Department of Mineral Engineering.

Every day for years, millions of cubic feet of methane have been vented from Pennsylvania coal mines with no effort to capture the gas because it was essentially worthless. Then came the energy shortage. The price of natural gas increased 20 times — from about 5 cents to about \$1.00 per thousand cubic feet — and, suddenly,

Once considered expendable

this "nuisance" became a valuable natural resource.

Chemically equivalent to natural gas, methane has always posed a threat to miners' lives. It now costs about 50 cents per ton of coal produced to remove it from mines and it frequently delays production since operations must be suspended when the gas level in the mine atmosphere exceeds 1 percent.

Pointing out that methane, as it comes out of mine ventilation systems, is in a highly diluted form, not suitable for commercial use, Dr. Stefanko explains that the technique the research group will study involves the drilling of boreholes into coals in advance of mining. U.S. Bureau of Mines research has already found that this method not only results in the collection of methane of commercial quality, but also degasifies the mine, making it safe to work in. And once the coal is being mined, the boreholes serve ventilation and other purposes.

The research group's plans call for drilling five boreholes into coal seams during the project's first year. Three will be sunk into bituminous coal at the U.S. Steel Corporation's Cumberland Mine in Greene County.

Major goals of the Penn State researchers include assessing the economic feasibility of the technique and determining various engineering factors such as the flow rates from the boreholes, how long gas will continue to flow from them, optimum patterns for drilling and how many holes are needed, and the effects of injecting water under pressure into the coal seams to increase the gas flow.

\$39.4 million and special research programs up \$29.5 million. Decreases are registered for R&D (\$3.2 million) and science education (\$7.2 million). NSF released a 151-page booklet, "Matching grants including a discussion of research programs funded and comparative tables of expenditure by program. The statement has been distributed. (Ref. NSF 75-9, 2/2/75).

(16173) The National Endowment for the Arts (NEA) supports a "City Split" program intended to "weave the arts into the fabric of the everyday life of a city, neighborhood, town, region, or state." Matching grants are available to initiate explore the esthetic and artistic environment of community work and play, and following that to plan and put into action activities to bring together the community "arts" and "non-arts" interests. Bi-annual projects are applicable. Involvement and participation of many segments of the community is a major concern of the program. The next two deadlines are April 15, 1975 and January 31, 1976. (Ref. NEA guidelines & OPP deadlines).

(16174) The Office of Education has announced a March 19, 1975 closing date for new grants under the Right to Read State Grants Program. Information has been distributed (Ref. 49R5004, 2/27/75 & CFDA 15.353).

(16175) Outreach programs support to promote social research on the elderly will be funded by the OHEW Administration on Aging (AGA). A limited number of annual \$5,000 stipends for research and writing will be made to students in social gerontology, sociology, social work, economics, psychology, political science, public administration and other relevant social sciences. Applications should be sent to the University. More information will be made available. The deadline for application to AGA will be April 15, 1975. (Ref. 600 2/19/75).

(16176) Post doctoral students in the environmental field may apply to the Rockefeller Foundation; deadlines are Feb. 1 and Sept. 1, 1975. Write a proposal stating the scope, purpose, and objectives of the work to be done. Generalize the leadership potential of the applicant. Also furnish a letter of endorsement from the agency where the work will be done, two letters

of recommendation, a vita, transcripts, and a budget. The Foundation's address is 111 West 60th Street, New York 10020.

(16177) Swiss Government, Switzerland, and a New York City summer graduate study internship has been announced by the United Nations. Planned for July 15 to Aug. 6, 1975, the internships furnish graduate students with the opportunity of learning the principles and activities of the U.N. and its agencies. Each student must pay all expenses and must be nominated by his university. Application forms and a one-page flyer are available in 317 Kern; the filing deadline is April 15, 1975. For more information write to the U.N. Office of Public Information, Coordinator of the Student Internship Programs, Room 1037F, United Nations, New York 10017.

(16178) People who wish to serve as an educational and academic resource person in chapters of Sigma Alpha Epsilon may apply to that organization for \$1500 fellowship-scholarships. The host chapter house also provides room and board. A brochure can be read in 317 Kern; the application deadline is April 15, 1975. For more information, write to Levee Memorial Foundation of Sigma Alpha Epsilon, 1858 Sheridan Road, PO Box 1858, Evanston, IL 60204.

(16179) Students majoring in osteopathology and planning to practice in Canada may apply for a \$4,000 scholarship offered by the Canadian Osteopathic Educational Trust Fund, Attn: J. S. Currie, 575 Waterloo St., London, Ontario, N6B-2R2. Apply before April 15, 1975.

REMINER AND DEADLINE DATES
March 13 for Barriers and Incentives on Solar and Geothermal Energy, 23 INTERCOM #163-16.
March 17 for NEA Internship Program (Jan. 31 INTERCOM #164-1).
March 21 for OE Ethnic Heritage Studies program (Jan. 16 INTERCOM #163-1).
March 21 for NSF research on environmental effects of geothermal energy development (Feb. 13 INTERCOM #162-1).
April 1 for Pa. Resident gubernatorial Grants (February 12 INTERCOM #161-1).
April 1 for OOT University Research (Jan. 16 INTERCOM #162-5).
April 15 for PENNAP technology dissemination proposals (Feb. 13 INTERCOM #165-1).

Honors

Dr. Robert D. Shipman, associate professor of forest ecology in the School of Forest Resources, has been named "Forester of the Year — 1975" by the Allegheny Section of the Society of American Foresters. The citation presented at the recent meeting held in Monroeville honors Dr. Shipman "for his outstanding contribution in research testing and development of techniques in the safe use of herbicides in forest-wildlife management."

Dr. Shipman was a research forester at the USDA Southeastern Forest Experiment Station for seven years and served on the faculty of Clemson University for five years before he joined the School of Forest Resources in 1963.

He conducted the first successful general applications of pelleted herbicides in the Southeast, aimed at converting low quality forest stands into faster growing trees and improved wildlife habitat. He has had wide experience in forest regeneration and the ecological implications of applying herbicides into the forest environment. This stand conversion method has been tested and successfully demonstrated on low-grade oak-hickory stands in central Pennsylvania during the past ten years. The method, and its implications for future use on oak leaf roller and gypsy moth infested hardwood sites, has been described in numerous technical publications, and he has by terms by science writers and radio television programs.

Besides his major contribution to the pesticide field, he is currently involved in several research projects, including the feasibility of "clear-cutting" in eastern forests and a second project on the effects of roadside salt injury to plants and animals. Since 1954 he has authored or co-authored over one-hundred technical and semi-technical publications dealing with forest ecosystems.

Col. Clifford T. Kirkwood, right above, professor of military science and head of the Department of Military Science and Army ROTC, has been given the Meritorious Service Medal. The outstanding performance of duty, while serving in the Pentagon for three years as Staff Officer, Deputy Chief of Staff for Operations, Brig. Gen. James F. Cochran, III, commander of the Army's III ROTC Region at Fort Bragg, presented the medal to Col. Kirkwood, who served in the Pentagon before his appointment here last September.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Office, 865-1387 (Network Line) or by sending resumes to the office. Resumes should be sent to the office by the following dates. Applications will be accepted until 5 p.m.

THURSDAY, FEB. 27, 1975

ADMINISTRATIVE ASSISTANT Hershey Medical Center

Responsible for the Chairman of the Department of Surgery, for business and administrative functions of the department including budgetary responsibilities, personnel administration, purchasing, departmental operational policies, and liaison with other departments and outside organizations. Bachelor's degree or equivalent in Business Administration or a related field plus one to two years of directly related administrative experience.

NACAO, HOUSING AND FOOD SERVICES — Beaver Campus

Responsible for the operation of Housing and Food Services at Beaver Campus. Bachelor's degree or equivalent plus two to three years of directly related experience.

ASSISTANT MANAGER, HOUSING AND FOOD SERVICES — Mont Alto Campus

Responsible for assisting in supervising the entire operation of the Housing and Food Service units at Mont Alto Campus. Associate degree or equivalent in Institutional Management or one to two years experience in food supervision.

The University is an Equal Opportunity Employer

University Park Calendar

February 20-March 2, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Feb. 20 — Artists Series film, Paul Robeson, "Emperor Jones," 8:30 p.m., Schwab.

Thursday, Feb. 20 — Sports: Women's basketball vs. Millersville, 3 p.m.

Thursday, Feb. 20 — FSHA 410 Viking dinner, 5:30 p.m., Maple Room. Reservations required.

Friday, Feb. 21 — Artists Series film, Paul Robeson, "Song of Freedom," 8:30 p.m., Schwab.

Friday, Feb. 21 — Daniel Ragone, piano recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Feb. 21 — Free U Jammy, 7:30 p.m., HUB ballroom.

Friday, Feb. 21 — Folk and Square Dance Roundup, 7:30 p.m., White Bldg. south gym.

Friday, Feb. 21 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Seminars

Thursday, Feb. 20 — Physics, 3:35 p.m., Room 117 Osmond; J. W. Negele, M.I.T., on "The Equation of State of Neutron Star Matter."

Thursday, Feb. 20 — Plant Pathology, 8 p.m., Room 213 Buckhout, Dr. Lawrence B. Hendry, chemistry, on "Chemical Messengers in Insects and Plants."

Thursday, Feb. 20 — Chemistry, 12:45 p.m., Room 333 Whitmore, Nicholas Winograd, Purdue University, on "Electron Spectroscopy (ESCA)" Studies of Metal-Oxygen Surfaces."

Thursday, Feb. 20 — Agronomy, 3:45 p.m., Room 301 Ag. Administration, Tom Simpson on "Land Resource Mapping in Forested Mountainous Areas Using ERTS-1 Multispectral Scanner Data."

Thursday, Feb. 20 — Statistics, 4 p.m., Room 60 Willard, Dr. David A. Pierce, Division of Research and Statistics, Federal Reserve Board, Washington, D.C., on "Causality in Temporal Systems."

Lecture

Thursday, Feb. 27 — "Energy Parks in Pennsylvania," by Edward F. Reis, manager of system planning, Pennsylvania Power and Light Co., 2 p.m., Room 112 Kern, sponsored by the Intercollegiate Graduate Program Committee on Energy Sources and Utilization.

Films

Monday-Tuesday, Feb. 24-25 — Simmons lounge film series, "Abbot and Costello Meet Dr. Jekyll and Mr. Hyde," 7:30 and 9:15 p.m., Simmons lounge.

Monday-Wednesday, Feb. 24-26 — Centre Cinema, "Sleeper," 7:30 and 10 p.m., Room 102 Forum.

Music programs

Two recitals by students in music are planned for this weekend in the Music Bldg. recital hall.

Friday, Feb. 21, Daniel Ragone, pianist, will perform at 8:30 p.m. in a program of sonatas by Haydn and Beethoven, Debussy's "L'isle Joyeuse," and "Transcendental Etude #11" by Liszt. Ragone, who will receive the bachelor of fine arts degree this month, appeared in the 1974 and 1975 Young Artists' Concerts at the University.

Works for soprano voice will be performed by Karen Budny, also a Winter Term graduate, at 3:30 p.m. Sunday (Feb. 23). Compositions by eight major composers have been selected with soprano Julia McKinstry joining in a Brahms duet, Donald Shell, baritone, in a Mendelssohn work, and Vincent Nola, tenor, in a piece by Schumann. Pianist will be Annette Tomassell.

Raymond Page, associate professor of music, and Steven Smith, assistant professor, will play a recital of music for piano and violin or viola at 8:30 p.m. Monday, Feb. 24, in the Music Bldg. recital hall. Planned are Bach's "Sonata in G Major," a work only discovered within the last 100 years, and two rhapsodies for viola, piano, and oboe by early American Ro-

Saturday, Feb. 22 — Artists Series film, Paul Robeson, "Jericho," 8:30 p.m., Schwab.

Saturday, Feb. 22 — PSU Chapter Phi Delta Kappa, Ladies Night, dinner and dance, Banquet, Nittany Lion Inn, 6:30 p.m., dance at 8:30 p.m., Room 102 Kern.

Saturday, Feb. 22 — Men's basketball, vs. Pittsburgh, 8 p.m., Rec Hall.

Saturday, Feb. 22 — Engineers' Week banquet, 7 p.m., HUB ballroom, Dr. Stanley F. Baldwin, architectural engineering, speaking on "The Old Sun as a New Energy Frontier."

Sunday, Feb. 23 — Karen Bundy, soprano recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Feb. 23 — Artists Series Film, Paul Robeson, "Proud Valley," 8:30 p.m., Schwab.

Thursday, Feb. 20 — Engineering Acoustics, 4 p.m., Room 73 Willard, Dr. Thomas Frank, director of audio service, speech pathology and audiology, on "Impedance Audiometry as a Guide to Hearing Assessment."

Thursday, Feb. 20 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences, Leif Kristensen, Danish Atomic Energy Commission Research Establishment, Denmark.

Thursday, Feb. 20 — Anthropology, 3:30 p.m., Room 113 Social Science Bldg. Dr. Leslie Lieberman, Noll Lab of Human Performance, on "Fitness and Fitness among the Pima Indians of Arizona."

Friday, Feb. 21 — Microbiology, 3:45 p.m., Room N350, Frear, Dr. Ronald B. Faanes, Walker Laboratory, Sloan-Kettering Institute, on "Antibody, Lymphocyte and Target Cell Interactions during *in vitro* Cell-mediated immunity."

Meetings

Thursday, Feb. 20 — Christian Science Organization, 7:30 p.m., HUB assembly room. Lecture by Joseph Herd.

Thursday, Feb. 20 — English Department faculty, 3:45 p.m., Nittany Lion Inn, Fire-side Room.

Monday, Feb. 24 — OTIS, 6:30 p.m., Room 203 HUB.

Tuesday, Feb. 25 — ARHS, 7:30 p.m., Room 203 HUB.

Tuesday, Feb. 25 — College of Liberal Arts faculty, 3:30 p.m., Room 121 Sparks.

mantic composer Charles Loettler. Guest oboe soloist will be Gregory Donovetsky, music instructor.

Concluding the program will be the Beethoven "Kreutzer" sonata for violin and piano, named for the noted violinist to whom the composer dedicated the work.

In the first Composers' Concert to be held during the Winter Term, some ten graduate and undergraduate music composition students will have their work performed at 8:30 p.m. Wednesday (Feb. 26), in the Music Bldg. recital hall.

Among many short works to be performed by faculty and student musicians are a group of clarinet duos, string quartets, piano works, a wind quintet, a work for violin and flute, a wind quartet, a work for baritone voice, bassoon and piano, several works for soprano voice, and others.

Sunday, Feb. 23 — GSA graduate student Table Tennis Tournament, men's and women's divisions, 9 a.m., Room 101 Kern.

Sunday, Feb. 23 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Charles L. Coleman, Program Director of Religious Affairs.

Sunday, Feb. 23 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Feb. 24 — Raymond Page and Steven Smith, piano and violin recital, 8:30 p.m., Music Bldg. recital hall.

Tuesday, Feb. 25 — "Two Cultures Dialogue," noon-2 p.m., Room 189 Materials Research Lab. Dr. James B. Bartoo, Graduate School, and Dr. Jacob J. Kaufman, Human Resources Institute, on "Elements and Process of Evaluation of Academic Programs."

Monday, Feb. 24 — Genetics, 3:55 p.m., Room 111 Life Science, Mary Pearsall on "Comparison of the DNA's of Certain Lower Vascular Plants With Respect to Their Phylogeny."

Tuesday, Feb. 25 — Plant Pathology, 9:45 a.m., Room 213 Buckhout, Claire Martin on "Biological Applications of Scanning Electron Microscopy."

Tuesday, Feb. 25 — Water Pollution Control, 2:20 p.m., Room 124 Sackett, James Manwaring, Water Supply Program, EPA, Regional Office, Philadelphia, on "Safe Drinking Water."

Tuesday, Feb. 25 — Chemical Engineering, 3:40 p.m., Room 140 Fenske, Lyle F. Albright, Purdue University, on "Role of Surface in So-Called Free Radical Gas-Phase Processes."

Tuesday, Feb. 25 — Physiology, 3:55 p.m., Room 111 Life Science, Dr. H. Borovetz, biotechnology, Carnegie Mellon University, on "IN VITRO Testing Evaluation of a Recently Designed Pediatric Membrane Oxygenator."

Exhibits

Museum of Art — Will Barnet Retrospective: Etchings, Lithographs, Woodcuts, and Serigraphs, opening Feb. 23, Gallery A. Carlo Maratti and His Contemporaries: Drawings from the Roman Baroque, Gallery C.

Zoller Gallery — Cook/Porter Invitational Student Sculpture Show, Gallery C, through Feb. 28.

Chambers Gallery — Art Education Graduate Exhibition, all media, through Feb. 26.

Pattee Library — "Surrealism in Portugal," an exhibit of art in photographic reproduction, through Feb. 28.

Kern Gallery — Sculptures of Daniel C. Winter, Ph.D. candidate in education administration, until Feb. 28.

Barnet exhibit

A retrospective exhibition of the work of Will Barnet, American painter and printmaker, will open on Sunday (Feb. 23), in Gallery A of the Museum of Art.

On view through April 20, the show will cover his etchings, lithographs, serigraphs, and woodcuts dating from 1932 to work completed this year.

An innovative artist, Barnet has greatly influenced printmaking through his own work and as a teacher. He was the first to create lithographs using the techniques of oil painting directly on the stone.

Born in 1911, Barnet received his art education at the Boston Museum of Fine Arts and at the Art Students League in New York. Awarded many graphic prizes, he has exhibited in numerous one-man shows and important national graphic group shows.

His work is included in major graphics collections, including those of the Brooklyn Museum, the Guggenheim Museum, the Library of Congress, the Metropolitan Museum of Art, and the Whitney Museum of American Art.

A catalog tracing the development of Barnet's graphic work from realism through abstractionism and then to the balance of the two which characterizes his work today is offered with the show, organized by Associated American Artists, New York.

Tuesday, Feb. 25 — FSHA 410 dinner, "A Night in Amsterdam," 5:30 p.m., Maple Room, Human Development Building. Reservations, call 865-7441.

Wednesday, Feb. 26 — Composers' Concert, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Feb. 26 — "Noondays," United Ministries devotional Lenten Service, 12 noon, Eisenhower Chapel. Rev. Robert Boyer.

Friday-Saturday, Feb. 28-March 1 — Sports: NCAA Eastern Independent Wrestling Tournament, Friday at 12 noon and 8 p.m., Saturday, 1 and 7 p.m., Rec Hall. PIAA Swimming Championships, 7:30 a.m., Natatorium.

Saturday, March 1 — Sports: Women's Ritz, vs. Kutztown, 2 p.m.

Sunday, March 2 — Phyllis Triolo, piano recital, 3:30 p.m., Gallery C, Museum of Art.

Tuesday, Feb. 25 — Aerospace Engineering, 3:55 p.m., Room 232 Hammond, Dr. Robert C. Dean, Jr., founder and former president, Creare, Inc., Hanover, N.H., on "Life on the Goose Farm (The Small R&D Company)."

Tuesday, Feb. 25 — Geosciences, 4 p.m., Room 26 Mineral Sciences, J. R. Beer-bower, State University of New York at Binghamton, on "Vertebrates on Land, Studies on the Environment of Evolutionary Innovation."

Wednesday, Feb. 26 — Ceramic Science, 11 a.m., Room 301 Mineral Industries, G. M. Rosenblatt, chemistry, on "A Zipper Mechanism for the Retarded Vaporization of Arsenic."

Wednesday, Feb. 26 — Ecology, 3:55 p.m., Room 111 Life Science, Paul Sobak, biology, on "A Comparative Study of White-Tailed Deer ('*Odocoileus virginianus*') Activity and Behavior along Two Sectors of Interstate Highway 80."

HUB Gallery — Developmental Year Program geometry class display.

Official

Wednesday, Feb. 26 — Last day for signing Winter Term Emergency Loans.

Wednesday, Feb. 26 — Classes end.

Thursday-Saturday, Feb. 27-March 1 — Final examinations.

Sunday, March 2 — Residence Halls close for Winter Term, 3 p.m.

Saturday, March 8 — Commencement, 10:30 a.m., Rec. Hall.

WPSX highlights

Sunday, Feb. 23 — Penn State-Pittsburgh basketball, 4 p.m. (recorded).

Monday, Feb. 24 — At 8 p.m., a two-hour science special on the conditions that cause climatic variations, "The Weather Machine."

Wednesday, Feb. 26 — "Arabs and Israelis," two films on two individuals caught in the mid-East conflict, and how it affected their lives, at 8 p.m.

Wednesday, Feb. 26 — Robert Donat stars with the San Francisco American Conservatory Theatre in "Cyranos de Bergerac," at 9 p.m.

Thursday, Feb. 27 — Ethel Seltzer is discussed on "Pennsylvania Town Meeting" at 7:30 p.m.

Friday, Feb. 28 — The 1952 Japanese film masterpiece, "Kiri," at 8 p.m. was directed by Akira Kurosawa.

Beaver County Council Symposium

At the Third Annual Joint Faculty Symposium Feb. 7 at Beaver Campus, Dr. Henry Steele Commager (second from right) was the principal speaker. In photo with him are the three chief officers of the institutions that cooperate in the Beaver County Council of Higher Learning, which among other activities sponsors the yearly symposium. At left is Dr. Richard T. Adams, president of the Community College of Beaver County; Dr. Joseph P. Giusti, director of Penn State's Beaver Campus; and (at right) Dr. Edwin C. Clarke, president of Geneva College. Dr. Commager spoke on "Agenda for the Seventies." Nearly 200 educators from the county area attended the afternoon sessions of the symposium, during which nine faculty members of the three institutions made presentations.

National Safety Council test program

Dr. Gordon F. Mayhew, left, research associate, and Dennis Baker, research assistant, of the Pennsylvania Transportation Institute, attended a two-week National Safety Council annual winter driving test program Jan. 27-Feb. 7 at Stevens Point, Wis. Representatives of vehicle and equipment manufacturers, state and federal governmental agencies, universities, insurance companies and others participated in the test program, which this year emphasized the stopping and traction ability of small cars.

NEWS —
(Continued from page one)

remain until Feb. 28; the work is priced for sale. Witmer, a graduate of Millersville State College with a B.S. in Biological Science and an M.Ed. in Earth and Space Science, sculpted only "to fulfill a need to relate," but he has won best of show, first place, and honorable mention in shows throughout the state. He began with wild flowers and other simple objects; much of what he does now is in brass and aluminum casting.

CIRCLE K MEETING

Dr. Robert G. Quinn, dean of academic instruction for Commonwealth Campuses, will be the banquet speaker for the statewide convention of Circle K, the largest collegiate organization in North America, with some 600 clubs in the U.S. and Canada. Sponsored by Kiwanis, Circle K is a service organization through which college students find a means for responsible student action in their communities and more active involvement in the life of their colleges and universities. There are now active chapters at University Park, Altoona, Wilkes-Barre, and Hazleton Campuses. The convention will be held at the Embers Motor Lodge in Carlisle in March. Dean Quinn will talk on the "Role of Colleges and Universities in Responding to Community Needs."

CAPITOL CONFERENCE

A one-day teachers' conference on "Common Sense in Teaching Reading" will be held at Capitol Campus Saturday, March 8. It is aimed at improving the teaching skills of elementary and junior high school teachers. The main speaker will be Dr. Wayne Otto, chairman of curriculum at the University of Wisconsin.

HERSHEY PRUDES

At the Hershey Medical Center, they have been distributing buttons labelled

"I Am A Prude" to all of those who choose the low-cholesterol diet meal in the Center's cafeteria. During the National Heart Month program, which has the slogan "The Prudent Diet — A Practical Approach to a Healthy Heart," the Hershey cafeteria is emphasizing low-fat foods prepared from American Heart Association cookbook recipes. Hence, the buttons. The typical cafeteria dinner has stuffed chicken breast, baked potato, vegetable, tossed salad, fresh fruit, skim milk, polyunsaturated margarine, and beverage.

WINNING CHAPTER

The National Society of Mining Engineers presented its Outstanding Student Chapter award to the Penn State chapter at the national meeting, Feb. 16-20, of the American Institute of Mining, Metallurgical and Petroleum Engineers. The award is based on an annual report of chapter activities.

DELAWARE BENEFIT

A Mont Carlo Night was staged last week (Feb. 14) at Delaware County Campus for the benefit of four children of one family left without a mother recently in tragic circumstances. Area organizations gave help in the event, during which play money was employed in games of roulette, blackjack, and others, and the winnings, if any, used in an auction to bid on items donated by merchants. Money from an admission charge and refreshment sales will be turned over to a fund set up to aid the children.

The Pollock-South and East branch undergraduate libraries will close for term break at 5 p.m. on Saturday, March 1. They will reopen at 9 a.m., Thursday, March 13 and resume regular hours.

New transcript rules are announced

A student or graduate requesting his transcript from the Records Office at the University may obtain it in person if he can provide proper identification. He also may have it mailed if he has his request notarized. Telephone calls for transcripts will not be accepted.

These changes, now in effect, result from the impact of state-saving devices on the new Federal Law, titled the Family Educational Rights and Privacy Act of 1974, better known as the Buckley Amendment, says Elwood M. Wagner, records officer.

Information needed to provide a trans-

cript, he explains, are Social Security number, complete legal name as contained on the academic record, prior names, if any that may have appeared on the record, dates of attendance, and classification of coursework, such as undergraduate, graduate, continuing education, adjunct, correspondence, non-degree graduate, unit, real estate or insurance course work, etc.

The name and address where the transcript is to be mailed also are needed, as well as the return address of the person making the request. Official transcripts cost \$1 each and check or money order must accompany the request.

Water conservation program in April

Water conservation in the home to reduce sewage waste and other related topics will be discussed during a conference at the University April 8, 9, and 10.

The main purpose of the conference is to review the state-of-the-art of water-saving devices with emphasis on research and development needs.

Subjects to be discussed will include the impact of water-saving devices on water use, wastelands, sewage treatment, and energy consumption.

N. Henry Wooding, Extension agricultural engineer at Penn State, says people interested in attending this conference will include: local government officials; waste water treatment and water plant operators; planners and planning commission mem-

bers; land developers; home building contractors; well drillers; consulting engineers; researchers in water pollution and waste conservation; managers of public-owned and private recreation areas; mobile home manufacturers and court operators; and members of such organizations as the Water Pollution Control Federation.

Personnel working in and associated with federal, state, and local home financing agencies and organizations, the Department of Environmental Resources, and county health departments have an opportunity to gain new knowledge about conservation of water in homes.

"We hope the Conference will help us in solving some of our sewage and waste disposal problems by reducing water discharge as sewage," says Wooding.

Enrollment deadline Feb. 21

Everyday family problems course

A new course designed to enable parents to deal more effectively with the everyday problems that occur in families will be offered at the University. Deadline for enrollment is Friday, Feb. 21.

The course, entitled "Family Communication and Parenting," was developed by Dr. Judith Frankel D'Augelli, research associate, and Joan Weener, research assistant in the Department of Counselor Education.

"The goals of this course," Dr. D'Augelli said, "are to help parents learn ways of reducing frustrations and gaining increasing satisfaction with their families. In addition, the course includes discussion of what parents can do to help prevent alcohol and drug abuse within the family."

Class groups, consisting of 12 to 14 people, will meet for two hours once a week for nine weeks, with the first session scheduled to take place the week of March 10.

There is no enrollment fee for the course, which is sponsored as part of a larger grant from the Governor's Council

on Drug and Alcohol Abuse to the Department of Counselor Education.

According to Dr. D'Augelli, it is one of several courses being evaluated as new approaches to preventing drug abuse and enhancing future development in children.

"There is increasing evidence pointing to what parents can do to promote positive development in their children while simultaneously helping to discourage alcohol and drug abuse," she said.

"It is encouraging that many parents seem to recognize this. It also is encouraging that parents who have 'graduated' from the course have said that they wish such a program had been offered years ago."

Enrollment in the course is open to parents who have at least one child in the first through sixth grade. Certificates of participation will be presented to each parent who completes the program.

Persons wishing to enroll or desiring more information on the course may contact Joan Weener at the Addictions Prevention Laboratory, 237-1427.

As part of geometry course

DYA students build geodesic dome

Geometry, students in the Developmental Year Academic Program at the University have discovered, has its practical uses and can be fun as well.

As part of their course in geometry, a group of 19 students built an 11-foot high geodesic dome in the ballroom of the Hetzel Union Building recently. Known as an alternate breakdown dome, the 20-sided figure is made up of triangles forming a three-frequency icosahedron. The struts are joined with pentagonal and hexagonal pieces.

When finished, the dome was partially dismantled and moved to a private property, to be covered with plastic and used as a greenhouse. The owner provided the lumber used in the project.

Design and construction of the dome gave students experience in measuring angles, determining the types of angles to use in arriving at the desired curve, and the relationships among the various sizes.

Working in groups, the students divided the tasks required for building the dome. One group made the computations necessary to determine the measurements for the pieces of wood, while another group searched out the lumber and tools and cut the struts to the required size. A third group checked out the stability of the dome (to be set in place permanently with

rods and cement), and all groups constructed the 5/8th of a dome.

For only one operation, requiring a special tool and cutting technique, they sought the assistance of Merrill Meshan, assistant professor of industrial arts education and doctoral candidate at the University.

During the course, each student is required to participate in three of five projects, which are being displayed in the Hetzel Union Building until the end of this week. The geodesic dome is the most ambitious of the projects.

The class is taught by Lewis Hirsch, instructor in mathematics for the Developmental Year Academic Program. Mrs. Kay Hudspeth is coordinator of mathematics for the program.

HUB specials

- Monday, Feb. 24 — Lunch, baked meatloaf, \$1.40; dinner, chicken Brunswick, \$1.30.
- Tuesday, Feb. 25 — Lunch, grilled ham and cheese sandwich, soup, \$1.20; dinner, sweet and sour pork with rice, \$1.14.
- Wednesday, Feb. 26 — Lunch, barbecue on a bun, \$1.41; dinner, Salisbury steak, \$1.43.
- Thursday, Feb. 27 — Lunch, lasagna, \$1.27; dinner, stuffed lamb steak, \$1.71.
- Friday, Feb. 28 — Lunch, fishwich with slaw, \$1.10; dinner, Italian sirloin and macaroni, \$1.29.

HUB food service closed until March 10.

PENN STATE intercom

Volume 4, Number 24

February 27, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

By Institute for the Arts and Humanistic Studies

Fourteen given research fellowships

Fourteen University faculty members from the College of Arts and Architecture and the College of the Liberal Arts have been awarded research fellowships by the Institute for the Arts and Humanistic Studies.

Research fellowships are awarded to permit faculty members to further their research and creative work.

Faculty members awarded fellowships for either the Summer or Fall Terms, 1975, are:

Dr. Gerard J. Brault, professor of French, for completion of a book manuscript for an edition of "The Song of Roland."

Dr. Robert Cohn, assistant professor of religious studies, for the exploration of the literary treatment of geographical phenomena deemed sacred by tradition.

Dr. Anthony Cutler, professor of art history, for continuing studies of the aristocratic painter in Byzantium.

Dr. William J. Duker, III, associate professor of history, for a study of Vietnamese nationalism since 1941. This will complement the author's study (now in press) of Vietnamese nationalism prior to 1941.

Burt L. Fenner, associate professor of music, for computer-assisted control of electronic synthesizers with capability of real-time performance.

Dr. Roland E. Fleischer, professor of art history, for a critical biography of Gustavus

Hessellius, a colonial American painter.

Dr. Thomas A. Hale, assistant professor of French and comparative literature, for development of a dictionary of African terminology found in the works of leading African writers using Western languages.

Bill Hanson, assistant professor of art, for the creation of a series of acrylic paintings.

Dr. Nicholas A. Joukovsky, assistant professor of English, for continuing research for an edition of the letters of Thomas Love Peacock.

Gerald Lang, assistant professor of art, for photography of parklands and their use as recreation areas.

Dr. George L. Maurer, professor of art history, for a study of the paintings in oil and tempera of Cuno Amiet.

Dr. Mark R. Peattie, assistant professor of history, for research on the Japanese colonial experience, 1895-1941.

Linda Plotkin, assistant professor of art, for continuing work on lithographs dealing with small towns in Pennsylvania.

Roy S. Vollmer, assistant professor of architecture, for "Epidemic House" — an architectural experiment.

A limited number of fellowships will be available for the Winter and Spring Terms. Interested faculty members should submit their applications to the Institute before Sept. 12.

Eight women resource for arts course

Eight women prominent in the creative arts will appear in a series of public evening lectures, demonstrations, recitals and readings during the Spring Term.

Sponsored by the Institute for the Arts and Humanistic Studies, they have been invited to participate as distinguished resource persons in an experimental "Women and Creativity" course.

In addition to their contributions to the course, they will make the following public presentations:

Gwendolyn Brooks, Pulitzer Prize-winning poet, will read from her work Tuesday, Mar. 25, at 8 p.m. in the Black Cultural Center.

Megan Terry, playwright, will read from her work and offer commentary Wednesday, April 2, at 8 p.m. in 101 Kern Graduate Bldg.

Pat Carroll, actress, will present an informal lecture and performance Tuesday, April 8, at 8 p.m. in 101 Kern Graduate Bldg.

Valentina Litvinoff, choreographer, will offer a lecture and demonstration Wednesday, April 16, at 8 p.m. in White Hall.

Dorothy Pixley Rothschild, musician, will perform with the Thalia Trio Wednesday, April 23, at 8 p.m. in the Recital Hall, Music Bldg.

Pauline Oliveros, composer, will present "An Evening of Sonic Meditation with Pauline Oliveros," Tuesday, April 29, at 8 p.m. in 112 Kern Graduate Bldg.

Alice Neel, portrait painter, will present a slide-lecture Monday, May 5, at 8 p.m. in 112 Kern Graduate Bldg.

Elaine de Kooning, abstract painter, will offer a slide-lecture Tuesday, May 13, at 8 p.m. in 112 Kern Graduate Bldg.

In addition to the guest presentations, there will be a showing of the film "Antonia," about the woman composer Antonia Brico, April 24 and 25 at 8 p.m. in 112 Kern Graduate Bldg.

Several other exhibitions will be offered in conjunction with the course, including:

American women writers from 1600 to the present, in the Rare Book Room of the Pattee Library; Feb. 10 until the end of March.

Local women artists, in the East Gallery of Pattee Library; exhibited during the month of May.

Prints, drawings and photographs by University graduate students, in the Commons Gallery, Kern Graduate Bldg., April 1 to 19.

Comments asked on smoking

The University Council subcommittee studying problems related to smoking in classrooms, and other areas, invites interested members of the University community to provide written comments which they believe the subcommittee may find helpful in developing its policy recommendations and its recommendations for implementation.

The subcommittee requests this information in writing addressed to the University Council Subcommittee, 111 Arts Building. To be useful, the subcommittee will need this material by March 25.

Grade inflation report in Senate

In addition to a report on proposed promotion and tenure policies (see page 2 of INTERCOM), the University Faculty Senate at its March 4 meeting will receive an informational report on grade inflation.

The report was developed by the Grado Distribution Subcommittee of the Senate Academic Affairs Committee. The subcommittee was established last year to investigate the distribution of grades at Penn

State and collect information on grade inflation from other colleges and universities.

The Senate also will consider a recommendation from the Academic Affairs Committee concerning the use of final exams.

Under informal legislative business, the Senate will consider proposed guidelines for the use of the University mailing system.

Tickets available for dance concert

The second annual concert of the Contemporary Dance Company of the University will be held Saturday and Sunday, March 15 and 16 in Schwab Auditorium. Performances will be given at 8:30 p.m. on both days.

Tickets for the performances will go on sale Wednesday, Feb. 26, at three locations: White Bldg. and Kern Graduate Bldg., on the campus and The End Result on South Allen St. Tickets are priced at \$1.00 for students and \$2.00 for general admission.

The Contemporary Dance Company was formed in 1973 under sponsorship of the College of Health, Physical Education, and

Recreation. Patricia Heigel Tanner and Gail Devereaux, members of the University faculty, are the directors along with Larue Allen, University alumna who is director of the Central Pennsylvania Dance Workshop in State College.

The 1975 program includes five numbers: "Mansions," a portrayal through modern dance of creatures, vampires, Zombies, and people; "Field Study," a pastorella in seven movements; "Selected Poems from 'Knots,'" by R. D. Laing; "ZMWVXIII (Parade)" and "Shake, Rattle and Roll." Music for "Selected Poems" and "Field Study" was composed by Bruce Trinkle, assistant professor of music.

Simmons scholarship nominations due

Nominations of a woman graduate student for the Lucetia V. T. Simmons Graduate Scholarship provided by the local chapter of the American Association of University Women are being accepted now by Dr. B. F. Howell, Jr., associate dean of the Graduate School, Room 317 Kern. The deadline for submission of the nomination, accompanied by a graduate transcript, is March 12. The materials will be referred to the Graduate School Committee on Fellowships and Awards for evaluation.

Dr. Simmons, presumably the first woman to have held the rank of full professor at

Penn State, was a former president of AAUW, and it is she for whom Simmons Hall is named. She was head of the German Dept. for 20 years.

The Simmons award is made on the basis of past scholarly accomplishments and promise of future achievement, with financial need as a secondary consideration. The nominee should have been in residence for at least three terms of graduate work and have completed at least 24 graduate credits.

The award is expected to be \$200 this year.

Calendar

Feb. 27-March 2

Special events

Friday-Saturday, Feb. 28-March 1 — Sports: NCAA Eastern Independent Wrestling Tournament, Friday at 12 noon and 6 p.m.; Saturday, 1 and 7 p.m., Rec Hall. PIAA Swimming Championships, 7:30 a.m., Natatorium.

Saturday, March 1 — Sports: Women's riflery, vs. Kutztown, 2 p.m.
Sunday, March 2 — Phyllis Triolo, piano recital, 3 p.m., Gallery C, Museum of Art.

Official

Thursday-Saturday, Feb. 27-March 1 — Final examinations.
Sunday, March 2 — Residence Halls close for Winter Term, 3 p.m.

Exhibits

Museum of Art — Will Barnett Retrospective: Etchings, Lithographs, Woodcuts, and Serigraphs, Gallery A. Carlo Maratti and His Contemporaries: Drawings from the Roman Baroque, Gallery C.
Zoller Gallery — Cook/Porter Invitational Student Sculpture Show, Gallery C, through Feb. 28.
Pattee Library — "Surrealism in Portugal," an exhibit of art in photographic reproduction, through Feb. 28.

Lecture

Thursday, Feb. 27 — "Energy Parks in Pennsylvania," by Edward F. Reis, manager of system planning, Pennsylvania Power and Light Co., 2 p.m., Room 112 Kern, sponsored by the intercollegiate Graduate Program Committee on Energy Sources and Utilization.

Retirement option ends May 31st

Regular full-time University faculty and staff members who joined the State Employees' Retirement System prior to September 1, 1974, are reminded that May 31, 1975, is the final day by which all changes from the State retirement system to the new optional alternate retirement plan, TIAA, may be made. This option is provided by Act 31 of the 1974 session of the Legislature and was first made available to all University faculty and staff members on September 1, 1974.

Anyone considering a change to TIAA should contact his or her Personnel Representative, the Business Manager if employed at one of the Commonwealth Campuses, the Personnel Office for those employed at the Hershey Medical Center, or the Employee Benefits Division, 133 Willard Building. The proper applications, including the application to withdraw contributions from the state system, may be obtained from any of these areas.

Report to the University Senate

by the Subcommittee on Rank and Tenure, Standing Committee on Faculty Affairs

"Proposed Promotion and Tenure Policies"

March 4, 1975

The following report by the Subcommittee on Rank and Tenure of the Faculty Affairs Committee will be submitted to the University Faculty Senate at its meeting March 4 and is presented here for the information of the general faculty. The co-chairmen of the subcommittee were Drs. George Andrews and Marvin Rosen; Dr. Alfred J. Engel was chairman until August, 1974. The chairman of the Faculty Affairs Committee is Dr. G. Edward Phillips.

The Faculty Affairs Committee welcomes comments from members of the faculty and questions may be directed to any member of the Committee or submitted through the University Faculty Senate Office in Willard Bldg. Committee members include, in addition to Drs. Rosen, Andrews, and Phillips, John C. James, Jr., Duane, Caroline Eckhardt, Nicholas Gavrilis, William Golotsky, Edwin Herr, Charles Hill, Evelyn Hovance, Daniel Kalkin, John Lucas, Alfred Pray, Herman Rickley, Alfred Triolo, and Dwight Younkin.

I — Preamble

The promotion and tenure policies of the University should contribute to academic excellence. An equitable and widely-understood process and tenure system ensures that considerations of academic quality will be the basis for academic personnel decisions.

Tenure is the keystone for academic freedom; safeguarding the right of free expression and risk-taking is the basis for tenure. Both tenure and academic freedom are bound to an implicit social compact which recognizes that the responsibility for the important public purposes and provides great benefits to society; the ultimate justification for tenure rests on the bedrock of its social utility. Additionally, a well-designed tenure and promotion system attracts capable and highly qualified individuals as faculty members, strengthens institutional stability by enhancing faculty members' institutional loyalty, and encourages academic excellence by retaining and rewarding the most able people. Tenure and promotion imply selectivity and choice; they are awarded for academic and professional merit, not for seniority.

A formal statement of criteria for tenure and promotion is necessary but not sufficient for the task. The wide variety of academic and professional fields, and the broad range of programs within the University, make the development of detailed criteria, equally applicable to all fields, an unrewarding effort. Rather, general and broad guidelines will permit the exercise of skilled professional and academic judgment in their interpretation and application.

For promotion and tenure procedures to be legitimized, they must be open, within considerations of individual privacy, and equitable. The general policies and procedures to be used should be made widely known within departments, campuses, and colleges. Regular review of faculty members will help to ensure the openness of the tenure and promotion process and will provide feedback crucial to faculty development and growth.

Faculty members have a primary responsibility in providing the evaluations of merit which normally determine the academic personnel decision-making process, including appointment, promotion, and tenure. This responsibility involves the application of academic and professional judgment, in a framework of shared authority, among various levels of review and between faculty and administrative bodies.

Within the procedures for granting or denying tenure and promotion, the presumption is that recommendations based on the professional expertise and competence of the faculty will usually be heeded. Where the findings of the various groups differ, there is an implicit responsibility to explore the reasons for divergence. In this way administrators and faculty can sustain vigorous and responsible participation, and standards of excellence and quality can be maintained.

The promotion and tenure procedure consists of several levels of judgment and review: the department (or comparable academic unit), the Commonwealth Campus, the college, and the University. The initial review will usually take place at the level of the department (or campus as appropriate) and will focus on professional and scholarly judgments of the quality of the individual's academic work. Subsequent levels will bring broader faculty and administrative judgment to bear and will also monitor general standards of quality, equity and adequacy of the procedures used. At each level the review process will reflect the competence and perspective of the reviewing body.

Finally, tenure and promotion procedures are linked to five entities within the Pennsylvania State University: the University Park Complex, the Commonwealth Campus System, the College of Medicine at Hershey, the Capitol Campus, and the Behrend College (see section IV, 1). This statement, simply stated, recognizes the functional distinctions that result from the differing missions and operating characteristics of each. It does not imply their separation or isolation. Indeed, the integral character of the University is emphasized by the provisions made for the transfer of tenured faculty among, and the holding of joint tenure within, the above-named entities (see section IV, 13 (2)). These provisions are designed to encourage interchange and community.

II — Criteria for Tenure and Promotion

Promotion and tenure decisions are based on the academic judgments of faculty and academic administrators. The general criteria or principles outlined here must be applied to promotion and tenure decisions in light of a detailed knowledge of the specific goals of an academic program or organizational unit (e.g., department, Commonwealth Campus, college, and library) and the specific qualities and competencies of the individual. The University's common organization and the interrelationships of its constituent elements vital, since no one set of criteria can apply equally to all faculty members in all programs. Likewise, such diversity within the University entails promotion and tenure arrangements specifically tailored to the mission and organizational structure of its various academic units.

Recognizing the University's manifold responsibilities, however, should not diminish the central importance of teaching and scholarly activity, both understood in their broadest sense, in the academic decision-making process. In tenure and promotion decisions, as in other areas of choice, the University best serves itself and society by affirming the primacy of academic excellence in all of its functions.

An important part of the whole tenure and review process for faculty members is that all parties to the process share common expectations and understandings. Since general statements of principles will be broad and inclusive, each organizational unit shall develop its own specific expectations and standards as the operational basis for tenure and promotion decisions. Knowledge concerning these expectations and standards should be generally available, especially to newly appointed faculty members.

The review process for tenure and promotion is concerned with the academic and professional merits of particular candidates, judged in reference to all alternative candidates, including prospective faculty members. Tenure and promotion standards, therefore, cannot be fixed and absolute, but will reflect to some extent the varying competitive position of the University in attracting faculty. Accordingly, evaluations will be influenced by such considerations of relative standing. Likewise, progressively more exacting scrutiny will take place as the faculty member advances in academic rank.

Although the tenure and promotion process is geared, narrowly and properly, to evaluating individual performance, the changing needs and priorities of the institution may also affect the decision to grant tenure or award promotion. Both equity and the long-range interests of the institution, however, require directing primary attention to

University needs and priorities at the time of appointment and careful intermediate and longer range academic personnel planning.

Promotion and tenure decisions shall be based on the following criteria, which must be applied in light of the mission of the academic unit and the professional responsibilities carried by the faculty member. The criteria have purposely been made general in the expectation that each academic unit may further define and elaborate them:

1. **Teaching ability and effectiveness** — effective ability to convey subject matter to students; demonstrated competence in teaching and capacity for growth and improvement; ability to maintain academic standards; and to stimulate the interest of students in the field; evidence of student growth through counseling, advising and service to students.
2. **Research competence** — ability, usually demonstrated through publication and creative work, to carry out research of high quality and scholarly significance, including contributions to the arts, and the ability to train students in research methods and principles.
3. **Scholarship and mastery of subject matter** — evidence of thorough understanding of the field; maintenance of high levels of academic performance; recognized reputation in the subject matter field; evidence of continued professional growth.
4. **Service to the University and the Public** — evidence of participation in University, college, departmental, and unit affairs; competence in extending the University's specialized knowledge to the public; active contributions to professional organizations.

III — Review Procedures

GENERAL PROCEDURES. Primary responsibility for evaluation of the academic qualification of candidates for promotion and tenure rests with the faculty. There are three sequential levels in this review: peer review by the department (or comparable academic unit) including campus review as appropriate; review by the college; and review by the University.

All levels of review shall be concerned in some measure with both scholarly substance and quality and procedural adequacy and equity. Initial peer review (e.g., at the campus or departmental level) will focus on professional and scholarly judgments of the quality of the individual's academic work within his or her discipline or area. Reviews at the college level will bring broader faculty and administrative judgment to bear and will also monitor general standards of quality, equity, and adequacy of procedures used. Review at the University level will involve similar but less detailed evaluations and, in addition, will provide an essential all-University perspective. Consultation among review levels, by committees and academic administrators, should take place when there is a need to clarify differences that arise during the review process.

Each academic unit (e.g., department, Commonwealth Campus, college, and library) of the University should take responsibility for developing detailed review procedures, supplemental to and consistent with general University procedures, as guidelines for promotion and tenure. These procedures should be made known to prospective and current faculty members, as well as the general University community, and should reflect the organizational arrangements of each academic unit. Prior to formal consideration of a faculty member for tenure or promotion, evaluations should be conducted in the next year and no less often than biennially thereafter by the initial peer review committees. In the case of review of a faculty member on the Commonwealth Campuses, the appropriate department, college, and Commonwealth Campus have a joint responsibility for the review. The dean of academic instruction for Commonwealth Campuses has the overall responsibility to coordinate the procedural aspects of the review process for the Commonwealth Campus system.

The general results of the evaluation should be made known to the faculty member by the appropriate academic officer, and should indicate the extent to which colleagues judge that his or her performance, in comparison with others in the profession, meets high academic standards. The evaluation should include evidence to the faculty member in ways to improve performance. A record of the general nature of the review and the date of transmission to the faculty member shall be retained by the department head, dean, or appropriate campus academic officer.

COMPOSITION OF REVIEW COMMITTEES. When conducting the initial reviews only tenured faculty should make recommendations about candidates for tenure, and only faculty of higher rank than the candidate should make recommendations about promotion. In unusual circumstances, in which there are insufficient numbers of tenured and higher-ranked faculty, exceptions to this provision may be permitted by the provost on request by the academic unit. Two further observations should be noted. Initial tenure and promotion committees need not be identically constituted, for subsequent reviews, because of the absence of direct conflict of interest possibilities, rank and tenure restrictions on committee composition are not required.

Department and college committees shall consist of members of the faculty selected by procedures approved by the faculty of those units and by the dean of the college. Commonwealth Campus committees shall consist of members of the campus faculty selected by procedures approved by the faculty of the campus, the campus director, and the dean of academic instruction for Commonwealth Campuses. The faculty of the unit concerned should determine the size of the review committee, but in no case should a review committee consist of fewer than three members.

The University review committee on promotion and tenure shall consist of eleven members. Six of these members shall be elected by the Senate from a slate of nominees prepared by the Committee on Committees and Rules with provisions for nominations from the Senate floor. Two additional faculty members shall also be selected, by lot one each from among the recipients of the Lindback Award for Distinguished Teaching and the Evan Pugh Professors. The president of the University shall appoint to the committee three senior academic administrators. The election procedures as devised by the Senate shall be such that at least two members of the committee shall be from campuses other than University Park. Members shall be elected or appointed for two-year staggered terms to provide continuity to the committee's deliberations. All faculty members shall be eligible to serve.

APPOINTMENT, PROMOTION, OR PROGRAM REVIEW. The department committee shall normally provide the first level of evaluation for tenure and promotion using specific criteria appropriate to the faculty member's responsibilities (see section IV, 13 (2) for the possibility of holding joint tenure). The department head, after consultation, shall forward the committee's recommendations together with his or her own to the appropriate dean. If either the department committee or department head (or both) has [made] a positive recommendation for tenure or promotion, the dean shall forward all such recommendations to the college review committee. If the recommendations from the department committee and the department head are both negative, the dean shall determine whether to uphold the recommendations, or to transmit them to the college review committee for further consideration; if the recommendation at the departmental level is in regard to a Commonwealth Campus faculty member, the college dean's determination shall be made in consultation with the dean of academic instruction for Commonwealth Campuses. If the negative recommendations on tenure or promotion from both the department head and the department committee are upheld, the college dean, in regard to tenure decisions, shall notify the faculty member in writing (see section IV, 9); negative promotion decisions do not require such formal notification.

In the case of a faculty member on the Commonwealth Campuses, the evaluation by

a faculty committee on the campus shall be a part of the first level of evaluation. The campus director or appropriate academic officer, after consultation, shall forward the campus committee's recommendations together with his or her own to the dean of the respective academic college¹ and to the dean of academic instruction for Commonwealth Campuses. If either the campus review committee or the campus administrator (or both) has made a negative recommendation, the college dean shall forward all such recommendations to a department review committee, which for such cases should include majority representation of Commonwealth Campus faculty. In those cases in which it has been judged appropriate by a department and the respective college dean, the dean may transmit the recommendations directly to a college review committee. If the recommendations from the campus committee and the campus administrator are both negative, the college dean, in consultation with the dean of academic instruction for Commonwealth Campuses, shall determine whether to uphold the negative recommendations, or transmit them for further consideration. If the negative recommendations on tenure from both the campus committee and the campus administrator are upheld, the college dean, in regard to tenure decisions, shall notify the faculty member accordingly in writing (see section IV.3); negative promotion decisions do not require such formal notification.

In evaluating a candidate for promotion or tenure, the department committee should obtain the views of senior members of the candidate's academic unit. Furthermore, evaluations of teaching faculty for promotion and tenure shall be accompanied by documentation of student views. In many cases, evaluations by expert peers in other institutions may provide essential helpful information.

COLLEGE REVIEW. The college review committee shall review departmental and/or campus recommendations for promotion and tenure in light of college criteria, the quality of documentation, equity and procedural fairness, and shall forward its recommendations to the college dean. The college dean shall recommend candidates for promotion and tenure, and shall forward their names with accompanying documentation to the provost for transmittal to the University review committee. If the decision is made at the college level of review not to award tenure, the college dean shall notify the faculty member accordingly in writing (see section IV. 3); negative promotion decisions do not require such formal notification.

In reviewing Commonwealth Campus faculty, the college committee shall include majority representation of Commonwealth Campus faculty. The recommendations of the college committee, together with those from the department and campus, shall be forwarded to the college dean and to the dean of academic instruction for Commonwealth Campuses. The college dean, in consultation with the dean of academic instruction for Commonwealth Campuses, shall recommend candidates for promotion and tenure, and shall forward their names with accompanying documentation to the provost for transmittal to the University review committee. If the decision is made at the college level of review not to award tenure, the college dean shall notify the faculty member accordingly in writing (see section IV. 3); negative promotion decisions do not require such formal notification.

UNIVERSITY REVIEW. The University review committee shall review positive recommendations for promotion and tenure from the deans, supported by peer review evaluation at the department, campus, and college levels, in light of University criteria, the quality of documentation, equity and procedural fairness, and shall forward its recommendations to the provost for transmittal to the appropriate college dean. The dean shall then make the tenure decision, after appropriate consultation with the provost. The dean shall also make promotions to the rank of assistant professor. For Commonwealth Campus faculty, the college dean shall consult with the dean of academic instruction for Commonwealth Campuses. Promotions to associate professor, professor, and their equivalents, are made by the president. As appropriate for the decision, the dean or president shall notify in writing all concerned faculty members regarding the tenure or positive promotion decision (see section IV. 13 (3)).

Each dean shall also forward to the University review committee a summary of the general processes followed, the numbers of recommendations reviewed, and a judgment of instances of differences in judgment. The University review committee may also request from a dean such other information about particular cases that it deems necessary to perform its function.

IV — General Provisions

1. To Whom Policies Apply

Regulations governing academic tenure apply, subject to the exceptions specified in section IV. 2, to all members of the academic staff of The Pennsylvania State University holding full-time, regular appointments to the rank of professor, associate professor, assistant professor, senior research associate, research associate, librarian, associate librarian, and senior assistant librarian. Academic tenure applies only to the above ranks, and tenure shall be granted only in an academic college or in the University Park, in an academic college or in the University Library within the Commonwealth Campus system, in the College of Medicine at Hershey, in the Behrend College, or in the Capitol Campus.

2. Academic Appointments Not Subject to Tenure

The tenure provisions defined herein do not apply to the following academic appointments:

- Non-regular academic personnel (PS-5).
- Special faculty appointments, including "visiting" academic ranks (PS-6).
- "Adjunct" and "clinical" academic ranks and "faculty associates" (PS-7); "affiliate" academic ranks (PS-8).
- Academic appointments in areas other than an academic college, the Behrend College, the Capitol Campus, or the University Library.

These appointments are governed by the provisions of the appropriate University policies and by the terms specified in the Memorandum of Personal Service signed by each employee.

3. Tenure Status and Notification

Each appointment of an eligible person to the full-time regular rank of professor, assistant professor, associate professor, senior research associate, research associate, librarian, associate librarian and senior assistant librarian shall be provisional, as defined in section IV. 4, until notification in writing of change of status is sent to the appointee by the appropriate academic officer of the University. For a full-time regular faculty member serving a provisional appointment, such notification shall be made prior to the expiration of the sixth year, and shall indicate that the faculty member's expiration from the provisional period shall either have permanent tenure or be terminated. In the extraordinary circumstances that a faculty member is, through inactivity, not notified of his or her status prior to the end of the sixth year, standards of notice as specified in section IV. 8 (3) shall, nonetheless, be maintained. Notwithstanding this circumstance, failure to notify the faculty member of his or her status prior to the end of the seventh year shall result in an automatic grant of tenure.

A faculty member who is awarded tenure shall thereafter be terminated only for adequate cause, except in the case of retirement for age or under circumstances described in section IV. 10. The traditional privilege of academic freedom applies equally to all faculty members regardless of tenure status.

4. The Provisional or Pre-Tenure Period
The provisional appointment period in the University shall be 7 years. However, up to and including the equivalent of 4 years of professional service at other accredited institutions of higher learning, or in an earlier appointment at The Pennsylvania State University, may be applied toward this 7 year provisional period.

A faculty member who is promoted to the rank of assistant professor, research associate, or senior assistant librarian (or above) may, with his or her concurrence, and at the discretion of the appropriate administrative officer, be given up to four years maximum provisional status credit for time spent as an instructor, research assistant, or assistant librarian at this University.

An initial appointment as a full professor may be made with grant of tenure, with the concurrence of the provost and the president of the University.

Under exceptional circumstances, the provisional period of a faculty member may be less than seven years subject to the concurrence of the provost and the president.

5. Equivalence of Ranks and Positions

LIBRARIAN, ASSOCIATE LIBRARIAN, SENIOR ASSISTANT LIBRARIAN. Appointments to these positions correspond to regular faculty appointments concerning promotion and grant of tenure as follows: the rank of librarian corresponds to professor, associate librarian to associate professor, and senior assistant librarian to the rank of assistant professor.

SENIOR RESEARCH ASSOCIATE AND RESEARCH ASSOCIATE. Appointments to these positions correspond to regular faculty appointments concerning promotion and grants of tenure as follows: the rank of senior research associate corresponds to associate professor, and the rank of research associate corresponds to assistant professor.

6. Appointment Without Tenure or Not Tenure
Exceptional appointments, that are non-continuing or on restricted funds, may be exempted from the tenure system on mutual agreement of the proposed appointee and the program head, and with the concurrence of the appropriate dean and the provost of the University.

7. Computing Years of Credit Toward Tenure

In order for faculty to be eligible for administration of the tenure review procedures, there shall be a common tenure anniversary date of July 1 for all tenure-eligible academic appointments. This tenure anniversary date will not necessarily coincide with the faculty member's date of initial appointment. A year of credit toward tenure is earned in any year in which a tenure-eligible faculty member has full-time active employment status for no less than six months between July 1 and June 30.

Since the purpose of the provisional period is to provide an opportunity for observing the faculty member, the time spent on leave of absence will not be considered as part of the provisional period.

8. Notice of Non-Reappointment and Termination

Standards for notice of non-reappointment for tenure-eligible positions are as follows:

- Not later than December 1 of the first academic year of service if the appointment expires at the end of the academic year.
- Not later than December 15 of the second academic year of service if the appointment expires at the end of the academic year.
- After two or more years of service in the University, twelve months before the end of the academic year.

9. Standing Joint Committee on Tenure

Cases of substantive dispute involving the termination of a tenured appointment for cause or for reasons of financial exigency or program elimination or revision as specified in section IV. 10, or the release of a faculty member during the provisional appointment period with less advance notice than that specified in section IV. 8, shall be considered by the Standing Joint Committee on Tenure. The Standing Joint Committee on Tenure will act in an advisory capacity to the president of the University.

The Standing Joint Committee on Tenure shall consist of five members: two members representing the administration, two faculty members selected by the elected members of the University Senate, and a fifth member, the Chairman, chosen by the other four. In the case of termination for cause, the faculty member shall, before the hearing, be informed in writing of all charges, and all charges and other scholars from his or her institutions. The Committee's report and recommendations shall be submitted to the president of the University.

10. Financial Exigency and Program Elimination or Revision

A tenured or other appointment may be terminated for demonstrated financial exigency. If a tenured appointment is terminated because of financial exigency, the released faculty member's position shall not be filled by a new appointment within a period of three months unless the released faculty member has been offered and has not accepted the re-appointment.

A tenured appointment may also be affected in an extreme case because the University, for compelling reasons and after due academic consideration, including consultation with the Senate, eliminates or substantially revises the program within which falls the faculty member's normal range of duties. Careful forward program and academic personnel planning, with phased adjustments over time, should operate to limit the necessity to terminate a tenured appointment. In the case of program elimination or substantial revision affecting a tenured faculty member's appointment, a good faith effort shall be made to continue the faculty member concerned in a comparable position within the University, based upon the individual's competencies and the capabilities of the University. A tenured faculty member terminated for reasons of program elimination or revision shall receive his or her salary for one year from the date of termination.

11. Definition of Adequate Cause

A tenured faculty member may be dismissed for adequate cause (see section IV. 9). Adequate cause shall include lack of competence or failure to perform in relation to the functions required by the appointment, excessive absenteeism, moral turpitude, or grave misconduct. Dismissal will not be used to restrain faculty members in their exercise of academic freedom or other rights of American citizens. Standards of notice as specified in section IV. 8 are not required in cases of dismissal for adequate cause.

12. Administrative Personnel

Administrative personnel who hold academic rank may qualify for academic promotion and tenure by virtue of their academic merit and promise, according to the criteria of the University and the appropriate academic unit. Tenure applies only to the faculty appointment and not to the administrative position. Appointment of affiliate academic ranks outside of the tenure system may also be appropriate (see section IV. 2).

13. General Policies and Procedures

(1) The precise terms and conditions of every appointment shall be stated in the contract and in the possession of both the University officer making the appointment and the faculty member being appointed before the appointment is consummated. Prior to appointment, all faculty members shall be informed of the University's policies and the procedures concerning promotion and tenure.

(2) All tenured or tenure-eligible appointments are made in an academic college or the University Library at University Park, in an academic college or the University Library within the Commonwealth Campus system, in the College of Medicine at Hershey, in the Behrend College, or in the Capitol Campus. With the mutual consent of the individual and the appropriate academic officer, and subject to the concurrence of the provost and the provisions of section IV. 10, tenured faculty members may retain their tenure status among the above-named academic units of the University. In addition, tenured appointments may be jointly held at two or more of the above-named academic units if the tenure conditions and procedures applicable to each are fulfilled.

(3) Promotion to the rank of assistant professor, or the equivalent, its mode and tenure awarded by the appropriate dean. Promotion to the rank of associate professor and professor, or the equivalent, are authorized by the president of the University. Faculty members being reviewed for promotion and tenure shall be notified in writing by the appropriate dean in cases of tenure and promotion to assistant professor or the equivalent, and by the president of the University in cases of promotion to associate professor or professor.

(4) At the time of initial appointment of a faculty member to a tenured or tenure-eligible position in the University, the appointment must be covered in the total General Fund Budget of the college or campus in which the appointment is held. Exception to this provision may be made by the provost when it has been adequately demonstrated that other funding sources exist which indicate full continuing coverage of costs associated with tenure.

14. Effective Date of Policy

The effective date of this policy shall be July 1, 1975. This policy shall apply in its entirety to all full-time regular academic personnel, except that when any provision of this policy infringes upon pre-existing substantive policy rights applicable to personnel appointed prior to July 1, 1975, the previous University policy shall apply.

15. Policy Review and Amendment

The provisions of this policy shall be reviewed periodically by the University administration and the University Faculty Senate.

¹For the purpose of this policy, the term college dean is inclusive of dean of University Libraries.

PENN STATE intercom

Volume 4, Number 25

March 6, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Dr. Farrell to leave post by Sept. 1

Affirmative Action officer sought

The University is now accepting nominations and applications for the position of Affirmative Action Officer. The Provost has appointed an advisory search committee for the position to be chaired by Dr. E. R. Melander, assistant vice president for undergraduate studies. Applications and nominations for the position may be forwarded to the chairman in Room 117 Old Main by no later than March 20, 1975.

The Affirmative Action Officer is a University administrator responsible to the Provost for the continuing development and implementation of the University's Affirmative Action program. The Affirmative Action Office has the responsibility for keeping abreast of state and federal equal opportunity legislation and assuring that the University's programs and activities are consistent with such legislation.

Preferred qualifications for the position of Affirmative Action Officer include a doctorate or similar degree with significant experience in higher education teaching or administration and with a comprehensive knowledge of the functions of a complex university.

Dr. Patricia Farrell, who has held the position for the past two years, plans to return full time to her duties as assistant professor of recreation and parks not later than Sept. 1.

Based on work completed by Dr. Farrell, the University last October signed with the Department of Health, Education, and Welfare, a Memorandum of Understanding which was followed in November by the filing of an Affirmative Action Plan for the University. The memorandum and plan followed three years of work by University officials in plan submission and Office of Civil Rights review.

Also developed during the first two years of the Office was a realistic mechanism for handling complaints of discrimination, a system which, like the Affirmative Action Plan of the University, has attracted the attention of many colleges and universities.

Although a plan has been completed, the Affirmative Action program is a continuing one, reminds Dr. Russell E. Larson, provost, who has staff responsibility for the program.

New diploma plan is authorized

Effective with the 1975 Summer Term, graduating seniors will be able to receive their diplomas at the Campus where they began their college careers. If they wish to do so, rather than at University Park, under a new policy announced by Dr. Russell E. Larson, provost.

To make the change, students must notify the vice president for undergraduate studies well in advance of the date of the graduation exercises to allow for the inclusion of names in the Campus commencement program.

Dr. Larson said the revised graduation policies also provide for post-baccalaureate students to receive the appropriate diploma at the end of the term in which all degree requirements are completed, rather than wait until the next commencement exercises. Such students may subsequently return to the campus at which degree re-

quirements were fulfilled and participate in the next commencement exercises, although they had already received their diploma.

An associate degree students will receive their diplomas at the end of the term in which all degree requirements are completed. They subsequently may return to the Campus where the requirements were fulfilled and take part in the next graduation exercises.

The plan also stipulates that students who complete requirements for an associate degree at a Commonwealth Campus at a time other than when graduation exercises are held at that Campus may participate in the next commencement exercises at University Park if they wish to do so and if they satisfy all degree requirements and give sufficient advance notice of their desire to participate.

Calendar March 6-16, 1975

(Note: This information is in addition to that provided in the Term Calendar on Pages 2 and 3.)

Seminars

Wednesday, March 12 — Biochemistry, 4 p.m., Room 101 Altohouse. Dr. Robert Davies, Benjamin Franklin Professor of Biochemistry, University of Pennsylvania, on "Energetics of Muscle Contraction."

Thursday, March 13 — Engineering Acoustics, 4 p.m., Room 165 Willard. Jerry G. Lilly on "Electro-Acoustic Feedback in Rectangular Reverberation Chambers."

Thursday, March 13 — Chemistry, 12:45 p.m., Room 333 Whitmore. John Siddall, Zocon Corporation, on "Insect Juvenile Hormones."

Thursday, March 13 — Individual and Family Studies, 3:45 p.m., Room S-131 Human Development. Marlan Radke Tarrow on "The Emergence and Functions of Prosocial Behaviors in Young Children."

Skating program to begin March 13

Spring ice skating programs at the University Ice Rink will begin Thursday, March 13, announces Kurt Oppelt, instructor in physical education who is in charge of the programs.

Oppelt says that five lessons will be offered to both adults and children during March and April for a fee of \$20, which includes not only a one-hour lesson but rental of skates and the entrance fee for the free-skating session which follows the lesson.

The adult program will be offered Thursdays from 7:30 to 8:45 p.m. on March 13, 20, 27, April 3, 10. Children's classes will be given on Saturdays from 1 to 2 p.m., March 15, 22, 29, April 5, 12.

Registration may be completed by calling 237-6473 or at the Ice Pavilion Office up to an hour before the first lesson.

Oppelt has also announced that a special Olympics will be held April 12, from 11 a.m. to 12:30 p.m. at the Ice Rink.

Research staff pool

The University annually receives grants for projects designed to fulfill specific research responsibilities. Often the research grant or project is of relatively short or temporary duration.

In most instances, University project administrators must react quickly in making selections of support staff personnel for their projects. Therefore, it is desirable to have an available pool of faculty and staff members who are interested in applying for such research support staff positions.

This announcement is made so that qualified individuals may make their interests known. The types of temporary research support staff positions typically available are: Senior Project Associate, Project Associate, Project Assistant, Senior Research Technologist,

Research Technologist and Research Technician.

The types of discipline backgrounds required vary depending on the projects involved. They may include physics, engineering, agriculture, mathematics, chemistry, but are not limited to these areas.

If you apply, your name will be placed in the pool of candidates that will be considered as such opportunities arise. An announcement similar to this will be made each six months.

If you feel that you are interested in and have background related to typical University research projects, you may apply now or in the future for such temporary research support staff positions by calling the University's Employment Div., 865-1387 (network 475-1387).

Commencement exercises Saturday

Members of the faculty who will take part in the Commencement Exercises, in academic dress, will meet under the south balcony of Recreation Building at 10:15 a.m., Saturday, March 8, fifteen minutes before the exercises begin.

More than 1,550 degrees will be conferred: 1,280 baccalaureate, 219 master's, and 59 doctorates. Eight seniors will re-

ceive commissions in the Army, Air Force, or Marine Corps, through completion of one of the R.O.T.C. programs.

President Oswald will confer the degrees with Dion C. Stewart representing the Board of Trustees. Stewart is an appointee of Gov. Shapp on the Board. He will also receive a master's degree in mineralogy and petrology.

News in brief

STUDENTS EXHIBIT

Two students of Bill Hanson, assistant professor of art, will show their work in Zoller Gallery at the University beginning Thursday, March 13. Paintings by Walter Zimmerman and Mark Dame will be on view through March 22. A McKeesport native, Zimmerman is a 1974 graduate of Penn State with a degree in theatre. He has exhibited in group shows in California and Indiana and locally in Art Alliance and Central Pennsylvania Festival of the Arts exhibitions. Dame is an undergraduate art major. Awarded a first prize for drawing in the 1974 Art Student Show, he has shown work in Harrisburg and recently exhibited in the Cook/Porter Student Invitational Sculpture Show in Zoller Gallery.

RETIRED STAFF CLUB

The 16th meeting of the Retired Staff Club will be held Thursday, March 13, in the St. Andrews Parish Life Center at 7:30 p.m., with Mrs. Franklin H. Cook, coordinator of the Centre County Voluntary Action Center, as speaker. She will talk on "You Have Something Money Can't Buy." All University retired staff and faculty members are eligible to join the Retired Staff Club. Members planning to attend this meeting should make reservations three days in advance by calling Ruth Rohrbach, 237-2024.

DELAWARE CONTRIBUTION

Students at Delaware County Campus presented a check for \$400 to the Metzger Family Fund as the result of their "Monte Carlo Night" program recently. The mock casino-style gambling and auction was sponsored by the Student Government Association and Keystone Society. The fund is for the benefit of four boys left without parents in a tragedy last year.

PRESS BOOK

"Adrift Among Geniuses," a biography of the writer and publisher, Robert McAlmon, by Sanford J. Smoller, has been published by the University Press.

The son of a Kansas Presbyterian minister, McAlmon became a central figure among the Paris expatriates of the Lost Generation. Although little of his writing has been recognized, he is primarily noted as the publisher of Contact Editions, a financially unsuccessful but artistically fruitful venture which published the early works of many authors who were later to become well-known.

McAlmon's life is explored through his writing, through the memoirs, autobiographies, and biographies of his contemporaries; and through his correspondence with such figures as Ezra Pound, Kay Boyle, H.D., William Carlos Williams, Katharine Anne Porter, and Sylvia Beach.

ARTISTS SERIES

Vladimir Ashkenazy, Russian-born pianist who in the past nearly two decades has given outstanding performances in recital or with orchestras, will be featured on the Artists Series Sunday, March 16, at 8:30 p.m. in University Auditorium. A few tickets, not sold previously to season ticket holders, will be available for public sale Tuesday, March 11, at University Auditorium and the HUB. They are priced at \$4.75 for the general public.

TROMBONE RECITAL

A recital of avant-garde music for trombone will be performed by Michael Powell, music graduate student, at 8:30 p.m. Friday, Mar. 14, in the Music Bldg. recital hall at the University. Powell, an MFA candidate, will present works composed in the last decade by contemporary composers Cox, Druckman, Berio, and Alsiina. Tape accompaniment will be heard in the Cox "Diachronic" and the Druckman "Animus I", with the remaining pieces to be performed solo.

Saturday, April 12
 Coll. vs. George Washington, 1 p.m.
 Lacrosse, vs. Syracuse, 8 p.m.
 Nitrary Lion Track and Field Relays, 1 p.m.
 Hetzel Union Board Arts and Crafts Festival, room to 4 p.m., HUB ballroom.
 NAAD Show, Natatorium.

Sunday, April 13
 Penn State Glee Club and Carlow College choir, 3:30 p.m., Music Bldg. recital hall.
 Hetzel Union Board Arts and Crafts Festival, noon to 4 p.m., HUB ballroom.
 Penn State Concert Blue Band program, 3 p.m., University Auditorium.
 Chapel Service, 11 a.m., Eisenhower Chapel, Rev. Leon B. Hall, Pastor, Black Christian Fellowship.
 Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
 University Readers, 7 p.m., Room 112 Kern.

Week of April 14

Monday, April 14
 Mary Ann Frazier, organ recital, 8:30 p.m., Music Bldg. recital hall.
 USG Senate meeting, 7 p.m., HUB assembly room.
 Library seminar on methodology and problem solving, 7 p.m., Room W106 Pattee Library.
 Department of French film series, "La Ronde," 7 and 9 p.m., Room 112 Kern.
 Education Student Council meeting, 7 p.m., Room 123 Chambers.
 Sports: Women's soccer and coed softball round robin tournament begin, soccer 6 p.m.; softball 6:30 p.m.

Tuesday, April 15
 Gallery Talk by Carl Christian Dauterman, Metropolitan Museum of Art, on "The Royal Manufactory at Sevres," 10:30 a.m., Museum of Art.
 Baseball, vs. Bucknell, 3:30 p.m.
 Artists Series film, Ingmar Bergman's "Winter Light," 8:30 p.m., University Auditorium.
 Engineering Undergraduate Council meeting, 7:30 p.m., Room 207 Sackett.
 Senate Committee on Academic Affairs, 8 a.m., Room 101 Kern.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.
 Pi Lambda Theta, program and initiation, 7:30 p.m., Rooms 102 and 112 Kern.

Wednesday, April 16
 "Noondays" devotional service, 12 noon, Chapel, Rev. Robt. Boyer.
 Musica da Camera, 8:30 p.m., Music Bldg. recital hall.
 University Theatre student preview, "Jim Dandy," 8 p.m., Pavilion Theatre.
 USG Academic Assembly, 7:30 p.m., Room 351 Willard.
 Hillel rally for Israeli Independence, 7:30 p.m., HUB ballroom.
 Valentina Litvinoff, choreographer, lecture-demonstration, 8 p.m., White Hall.
 Commonsplace Theatre, "Citizen Kane," Room 112 Kern.

Thursday, April 17
 Penn State Aquatic Institute, Natatorium.
 Artists Series, Martha Graham Dance Company, 8:30 p.m., University Auditorium.
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Department of Economics faculty meeting, 2 p.m., Room 101 Kern.
 GSA garden plot workshop, 7:30 p.m., Room 112 Kern.
 Faculty women College of Education, coffee, 10 a.m., Room 101 Kern; speaker, 11 a.m., Room 112 Kern.
 Phi Delta Kappa and Pennsylvania Educational Research Association Conference, Conference Center. Also next day.

Friday, April 18
 Penn State Aquatic Institute, Natatorium.
 Artists Series, Martha Graham Dance Company, 8:30 p.m., University Auditorium.
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Sharon Brook, piano recital, 8:30 p.m., Music Bldg. recital hall.
 Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.
 Tennis, vs. Bloomsburg, 2 p.m.

Saturday, April 19
 Penn State Aquatic Institute, Natatorium.
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Artists Series, Martha Graham Dance Co., 8:30 p.m., University Auditorium.
 Track, vs. Kent State, 1:30 p.m.

Sunday, April 20
 Mary Cowdick, vocal recital, 3:30 p.m., Music Bldg. recital hall.
 Chapel Service, 11 a.m., Eisenhower Chapel, Dr. Norman R. Dixon, professor of higher education, University of Pittsburgh.
 Black Christian Fellowship worship service, 11 a.m., Cultural Center.
 Tennis, vs. East Stroudsburg, 2 p.m.

The Martha Graham Dance Co., on Artists Series, April 17-19.

Week of April 21

Monday, April 21
 Gregory Donovetsky, oboe recital, 8:30 p.m., Music Bldg. recital hall.
 USG Senate meeting, 7 p.m., HUB assembly room.

Tuesday, April 22
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Tennis, vs. Penn, 3 p.m.
 Chaim Potok for Hillel, 8 p.m., HUB ballroom.
 Women's Faculty Club spring fashion luncheon, 11:30 a.m., HUB ballroom.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, April 23
 "Noondays" devotional service, 12 noon, Chapel, Rev. Irmgard Soltau.
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Thalia Trio, 8:30 p.m., Music Bldg. recital hall.
 Guest, Dorothy Pkley Rothchild, Commonsplace Theatre, "Spellbound," Room 112 Kern.
 Baseball, vs. West Virginia, 3:30 p.m.

Thursday, April 24
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Film "Antonia," about woman composer Antonia Erico, 8 p.m., Room 112 Kern.

Friday, April 25
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Folk and Square Dance Roundup, 7:30 p.m., White Bldg. north gym.
 Film "Antonia," about woman composer Antonia Erico, 8 p.m., Room 112 Kern.
 Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Saturday, April 26
 University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.
 Penn State Singers concert, 8:30 p.m., Schwab.
 Baseball, vs. Pittsburgh, 2 p.m.
 Golf, vs. West Virginia, 1 p.m.

Sunday, April 27
 Martin Hubler, tenor recital, 3:30 p.m., Music Bldg. recital hall.
 Chapel Service, 11 a.m., Eisenhower Chapel.
 Charles Lupton, Executive Director, Office of Gifts and Endowments.
 Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
 Tennis, vs. Colgate, 2 p.m.

Week of April 28

Monday, April 28
 USG Senate meeting, 7 p.m., HUB assembly room.
 Education Student Council meeting, 7 p.m., Room 123 Chambers.

Tuesday, April 29
 Artists Series film, Ingmar Bergman's "The Silence," 8:30 p.m., University Auditorium.
 Pauline Oliveros, composer, "An Evening of Sonic Meditation with Pauline Oliveros," 8 p.m., Room 112 Kern.
 Alpha Phi Omega Bloodmobile, 9 a.m.-5 p.m., HUB ballroom.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, April 30
 "Noondays" devotional service, 12 noon, Chapel, Rev. Ned Weller.
 University Theatre student preview, "Dracula," 8 p.m., Playhouse Theatre.
 William Oole, saxophone recital, 8:30 p.m., Music Bldg. recital hall.
 Commonsplace Theatre, "Streetcar Named Desire," Room 112 Kern.
 Alpha Phi Omega Bloodmobile, 9 a.m.-5 p.m., HUB ballroom.
 Baseball, vs. Juniata, 3:30 p.m.
 Lacrosse, vs. Loyola, 8 p.m.

Thursday, May 1
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Priestley Lecture, 3 p.m., Room 112 Kern.
 GSA workshop, 7:30 p.m., Room 101 Kern.

Friday, May 2
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 PSU Symphonic Wind Ensemble, 8:30 p.m., Music Bldg. recital hall.
 Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Saturday, May 3
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Nancy Ruffer, flute recital, 8:30 p.m., Music Bldg. recital hall.
 Golf, invitational Tournament, 1 p.m.
 Tennis, vs. Kent State, 2 p.m.
 Chess Tournament, 9 a.m.-midnight, HUB main lounge.
 Returning Women Students Conference, all day, Rooms 101 and 102 Kern.

Sunday, May 4
 Anne Flaherty, soprano, and Linda Senek, French horn, 3:30 p.m., Music Bldg. recital hall.
 Golf, invitational Tournament, 1 p.m.
 Chess Tournament, 9 a.m.-6 p.m., HUB main lounge.
 Chapel Service, 11 a.m., Music Bldg. recital hall.
 Dr. James Cone, Professor of Theology, Union Theological Seminary.
 Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
 President's reception for international students, 3 p.m., Rooms 101 and 102 Kern.
 GSA interest night, 7:30 p.m., Room 102 Kern.

Week of May 5

Monday, May 5
 Evening of Student Chamber Music, 8:30 p.m., Music Bldg. recital hall.
 USG Senate meeting, 7 p.m., HUB assembly room.
 Alice Neel, portrait painter, slide-lecture, 8 p.m., Room 112 Kern.
 First day for signing NDSL, SEOG, BEOG, and University Long Term Loans, Room 108 Shields.

Tuesday, May 6
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Faculty Senate meeting, 2:10 p.m., Room 112 Kern.
 Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.
 Commonwealth Campus Caucus of Faculty Senate, 12:30 p.m., Room 112 Kern.
 GSA Council meeting, 7 p.m., Room 101 Kern.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, May 7
 "Noondays" devotional service, 12 noon, Chapel, Rev. Donald Davies.
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Claremont Woodwind Quintet, 8:30 p.m., Music Bldg. recital hall.
 Commonsplace Theatre, "Giant," Room 112 Kern.
 Baseball, vs. Buffalo (2) 3 p.m.

Thursday, May 8
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Phi Delta Kappa, "Foreign Sabbatical Scholar's Report," 8 p.m., Room 101 Kern.

Friday, May 9
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Tennis, vs. Pittsburgh, 2 p.m.
 Russell Shipley, clarinet recital, 8:30 p.m., Music Bldg. recital hall.
 Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.
 Classical Guitar and Chamber Music Concert, 8:30 p.m., Room 112 Kern.

Saturday, May 10
 University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
 Golf, vs. Army and Colgate, 1 p.m.
 Lacrosse, vs. Lafayette, 8 p.m.
 Blue-White Football game, 2 p.m.

Sunday, May 11
 Penn State Glee Club, Annual Mother's Day Concert, 3 p.m., University Auditorium.
 Chapel Service, 11 a.m., Eisenhower Chapel.
 Rev. Charles L. Coleman, Program Director of Religious Affairs.
 Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Week of May 12

Monday, May 12
 Vincent Nola, tenor recital, 8:30 p.m., Music Bldg. recital hall.
 USG Senate meeting, 7 p.m., HUB assembly room.
 Department of French film series, "Forbidden Games," directed by Clement, 7 and 9 p.m., Room 112 Kern.
 Education Student Council meeting, 7 p.m., Room 123 Chambers.

Tuesday, May 13
 Artists Series film, Ingmar Bergman's "Persona," 8:30 p.m., University Auditorium.
 Golf, vs. Bucknell, 1 p.m.
 Elaine de Kooning, abstract painter, slide-lecture, 8 p.m., Room 112 Kern.
 College of Liberal Arts faculty meeting, 3:30 p.m., Room 121 Sparks.
 College of Agriculture faculty meeting, 4 p.m., Room 301 Agricultural Administration.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, May 14
 "Noondays" devotional service, 12 noon, Chapel, Rev. Robt. Boyer.
 Penn State Brass Chorale, 8:30 p.m., Music Bldg. recital hall.
 Artists Series film, Ingmar Bergman's "Cries and Whispers," 8:30 p.m., University Auditorium.
 Baseball, vs. Bucknell, 8 p.m.
 Commonsplace Theatre, "Some Like It Hot," Room 112 Kern.

Thursday, May 15
 GSA workshop, 7:30 p.m., Room 101 Kern.
 Department of Economics faculty meeting, 2 p.m., Room 101 Kern.
 Sports: Baseball, vs. Indiana, Pa., 3 p.m.

Friday, May 16
 Track and Field Open Invitational, 1:30 p.m.
 Peggy Horner, vocal recital, 8:30 p.m., Music Bldg. recital hall.
 Football and Soccer Roundup, 7:30 p.m., White Bldg. north gym.
 Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.
 Bike Show sponsored by Hetzel Union Board, 10 a.m.-4 p.m., HUB ballroom.
 Conference on "Recent Research in Byzantine and Western Medieval Manuscript Illumination," 2 p.m., Keller Bldg.
 Pa. Wheel Chair Games Championships, Natatorium.

Saturday, May 17
 PSU Symphony Orchestra, 8:30 p.m., University Auditorium.
 Conference on "Recent Research in Byzantine and Western Medieval Manuscript Illumination," Keller Bldg.
 Baseball, vs. Temple (2), 1 p.m.
 Tennis, vs. Army, 2 p.m.

Sunday, May 18
 PSU Symphonic Wind Ensemble Annual Pops Concert, 3:30 p.m., Arts Court-yard.
 Chapel Service, 11 a.m., Music Bldg. recital hall.
 University Choir's Spring Program.
 Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
 Conference on "Recent Research in Byzantine and Western Medieval Manuscript Illumination," until 1 p.m., Keller Bldg.

Week of May 19

Monday, May 19
 Evelyn Hedges, piano recital, 8:30 p.m., Music Bldg. recital hall.

Tuesday, May 20
 Senate Council meeting, 2:10 p.m., Room 101 Kern.
 Baseball, vs. Delaware (2), 3:30 p.m.
 College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, May 21
 Composer's Concert, 8:30 p.m., Music Bldg. recital hall.
 Last day for signing Spring Term Emergency Loans, Room 108 Shields.
 Classes end.
 College of Human Development Conference, 12 noon, Room 112 Kern.

Thursday, May 22
 Final exams begin, end May 24.

Monday, May 26
 Baseball, vs. Navy (2), 1 p.m.
 Tennis, vs. Navy, 3 p.m.

Saturday, May 31
 Commencement, 10:30 a.m., Beaver Stadium.

Four engineers receive Service Awards

Four members of the College of Engineering faculty were recipients of 25-Year Service Awards at a ceremony yesterday (Wednesday) presided over by Dr. K. J. Paffendorf (far right in right photo above), dean of the College.

Robert E. McCord, assistant dean for continuing education in the College, (in the right photo) is a State College native and a 1942 Penn State graduate. He earned an M.S. in engineering administration at M.I.T. in 1952. He was named to the faculty as instructor in engineering extension after serving two years as a senior analyst with Pratt-Whitney, three years as a captain of a minesweeper in the U.S. Navy, and one year as a consultant in industrial engineering. In 1955, on leave, he served six months at the University of Puerto Rico setting up an industrial engineering department and serving as professor and head of the department. In the summer of 1970, he conducted a study of technician training programs for A.I.O. in Guatemala, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Colombia.

In the center photo above, at right, is Dr. Carl Volz, Sr., professor of electrical engineering, shown with department head, Dr. W. J. Ross. Dr. Volz is a 1937 Penn State graduate, in electrical engineering. He received his M.S. in 1952 and Ph.D. 1959, also at Penn State. Last year he was one of the recipients of the College of Engineering Excellence in Teaching Award. After his graduation from Penn State he worked for Westinghouse Air Brake Co., until he returned to Penn State as an instructor in 1946. One of his research interests was the development, with

Hershey Medical Center faculty, of a rechargeable cardiac pacemaker. He has directed the electronic systems division of the department and teaches both graduate and undergraduate courses in signals and circuits, electronic design and linear control systems.

John A. Stelmach, in left photo above with chemical engineering department head Dr. Les C. Engle, is research associate in chemical engineering. He joined the staff of what was then the Petroleum Refining Laboratory in February, 1949, as research assistant, was named instructor in 1958, and research associate in 1964. He is a 1949 graduate of St. Francis College, where he served as a laboratory assistant for a year, and earned an M.S. at Penn State in organic chemistry in 1955. He has taught Chem 1, 2 and 10, but he has been essentially a researcher, in such areas as the oxidation of hydrocarbons and the preparation of organic compounds. He has had a great interest in geology and at one time was president of the National Speleological Society and served on its Board of Directors for three years.

Clotworthy Birnie, Jr., (right in photo at left with mechanical engineering department head Donald R. Olson) was named instructor of mechanical engineering in 1949 shortly after receiving his M.S. in mechanical engineering from Northwestern University. He is a 1945 graduate of the University of Virginia. He was appointed assistant professor in 1954 and associate professor in 1955. One of his research interests has been in the area of bridge deck design.

Death

Dr. C. Ray Carpenter, who served the University for 31 years in various academic and administrative capacities before retiring in 1970, died March 1 in Athens, Ga., at the age of 69. He joined the faculty in 1939 in psychology and headed that department from 1952 to 1958. His work laid the ground for the use of closed-circuit television teaching and later he was a prime mover in the establishment of WPX-TV. A graduate of Duke University, which also granted him the master of arts degree, he received the Ph.D. from Stanford University. He served on faculties of Bard College and the College of Physicians and Surgeons of Columbia University, as well as on the School of Tropical Medicine in Puerto Rico. At Penn State he was executive director of the planning committee for the College of Medicine at the Milton S. Hershey Medical Center. He was professor of both psychology and anthropology, and his interests in research related to the educational processes of man and the life processes of primates. After he retired from Penn State, he became professor of psychology and anthropology at the University of Georgia, Athens. In his lifetime, he was responsible for or aided in many activities in educational and governmental fields, among them the drafting of the notable Title VII of the National Defense Act in 1957, which had a great impact on educational institutions. His honors, awards and distinctions were many.

Funding Opportunities

For procedural and funding source information, call 865-1372.

March 6, 1975

(169-1) Guidelines for Preparation of Unsolicited Proposals for the Economics of Information Program have been issued by the National Science Foundation to promote improvements in scientific communication and technology transfer through the use of economic concepts and data. Priorities are: (1) the scientific and technical information marketplace, (2) costs and benefits of scientific and technical information services, (3) supply and demand relationships, and (4) simulation studies. Other information transfer proposals will be considered. There are no proposal deadlines and preliminary (letter) proposals are encouraged. Send them to: Economics of Information Program, Office of Science Information Service, National Science Foundation, Washington, D.C. 20550 (202-632-5850). (Ref. NSF 74-43).

(169-2) Guidelines for the Preparation of Unsolicited Proposals for the User Support Program have been issued by the National Science Foundation to enhance the usefulness of scientific and technical information (STI) and to help STI services provide innovative user-oriented information products on a self-supporting basis. In supporting applied research efforts, the projects fall into four categories: (1) planning-based projects, to provide information for management, operations, policy decisions, and long-range planning in STI services; (2) design and development projects, oriented to specific innovations; (3) operational experiments and demonstrations, to explore relationships among economic, behavioral, and information variables; and (4) diffusion and applications, through adoption of known innovations. Proposals may be submitted at any time, and preliminary (letter) proposals are encouraged. Send them to: User Support Program, Office of Science Information Service, National Science Foundation, Washington, D.C. 20550 (202-632-5850). (Ref. NSF 74-44).

(169-3) Materials researchers and those active in extensive materials research should consider applying to the U.S. Bureau of Mines. Bureau grants will emphasize pollution abatement and corrosion resistant materials, plus problems with imported materials, including bimetals, hydro, pyro, and electrometallurgy, and mineral synthesis are preliminary research fields of interest to the Bureau. Proposal deadline for fiscal year 1975 is March 31. Contact the Office of University Relations, U.S. Bureau of Mines, Washington, D.C. 20240. (Ref. ST. Trends, 2/17/75).

(169-4) Rules and regulations for Programs for the Education of the Handicapped have been issued by the Office of Education, including: definitions; general provisions; regional resource centers; centers and offices for deaf-blind children; early education for handicapped children; auxiliary activities; training personnel for the edu-

cation of the handicapped; recruitment of personnel and dissemination of information; instructional media for the handicapped; and special programs for children with specific learning disabilities. This information has been distributed. (Ref. 40FR7408-7409, 2/22/75).

(169-5) The National Institutes of Health requires all grantees and contractors (investigators and institutions) to comply with regulations concerning the transportation of hazardous materials. The Transportation Safety Act of 1974, PL 93-633, signed by the president Jan. 4, 1975 provides tighter regulations governing packaging of hazardous materials. Any questions concerning packaging, labeling, or shipment of etiologic agents should be directed to: Center for Disease Control, All. Office of Bioregulation, Atlanta, Georgia 30333 (404-335-5511 Ext. 3883). (Ref. NIH Guide, Vol. 4, No. 1 2/10/75).

(169-6) NSF Guide to Programs, FY 1975 lists 64 program areas of the National Science Foundation and includes principal characteristics and purpose of each activity, eligibility requirements, closing dates and other information. Guides have been distributed.

(169-7) People planning careers in regional, local or state pollution control and regulatory agencies are eligible for EPA fellowships. Application deadline is April 1; write to Environmental Protection Agency, Grants Administrative Div., Grants Information Branch, Washington, D.C. 20460. (Ref. EO 75-7).

(169-8) Octocore candidates in banking and related fields who will have passed their comprehensive exam before start of their tenure as a lecturer are eligible for FOIC fellowships. Covering 12 to 15 months, the fellowships pay up to \$5000, plus fees, some travel, clerical and research expenses. Arrangements can be made to spend some time at the FOIC, Washington, D.C. office. The 1975 application deadline was Jan. 17. Write to Federal Deposit Insurance Corporation, Director of Research, 550 17th St., N.W., Washington, D.C. 20059. (Ref. EO 75-7).

(169-9) NSF will award travel grants to 90 pre or post doctoral scholars (U.S. citizens) who wish to attend the European NATO-sponsored institutes held in the summer of 1975. Contact the National Science Foundation, Fellowship and Travel Services Section, Division of Higher Education, Washington, D.C. 20550. (202-287-7599). (Ref. EO 75-7).

REMINER AND OCEANLINE OATES March 12 for Pa Dept' Education Ethnic Heritage Studies Center (Feb. 27 INTERCOM #168-2). March 17 for HRA training programs (Feb. 27 INTERCOM #168-2). March 21 for OE Ethnic Heritage Studies program (Jan. 16 INTERCOM #162-1). March 31 for NSF research on environmental effects of geothermal energy development (Feb. 13 INTERCOM #166-2). April 1 for Pa. Reversible Cultural Heritage Studies (Jan. 16 INTERCOM #161-7). April 1 for OOT University Research (Jan. 16 INTERCOM #162-5). April 1 for OHEW New Health Maintenance Organization project (Feb. 17 INTERCOM #168-5). April 15 for PENNATP technology dissemination proposals (Feb. 13 INTERCOM #166-1).

Library notes

The Undergraduate Library will hold an open house in the Main Undergraduate Library, W108 Patton on Tuesday, March 11 at 7:00 p.m. A brief slide-tape program introducing the library services will precede an informal question-answer period. The program is aimed at new students, but any student is welcome to attend.

The Undergraduate Library Staff will give tours of Pattee Library to undergraduate students on Tuesday, March 11 and Wednesday, March 12, at 8, 10, and 11 a.m. and 2, 3, and 4 p.m. An evening tour will be offered on March 12 at 7 p.m. All tours begin inside the main entrance to Pattee Library. Individual students can arrange for additional tours or faculty members can arrange for instructions in library use for their classes by calling Mante Plant at 865-9322.

The Reference Department will offer graduate student orientation tours of Pattee Library and its resources on Tuesday through Thursday, March 11-13, at 9:30 a.m. and 2 p.m. All graduate tours begin in the Reference Room, E105 East Pattee. Faculty members can arrange for library instruction for upper-division and graduate classes by calling Jack Pontius at 865-6568.

Honors

College of Engineering citations for Excellence in Teaching were presented to Dr. Harry H. West, assistant professor of civil engineering; Dr. David R. Volmer, assistant professor of electrical engineering; and Franklin P. Platts, assistant professor of engineering at the Schuylkill Campus. The awards, which include a certificate and check for \$500, were made possible by the Alumni Association of the College.

Dr. John S. Nisbet, professor of electrical engineering and director of the Ionospheric Research Laboratory, was presented with the College of Engineering's annual award for outstanding achievement in research at the conclusion of Engineers Week activities Feb. 28.

Ruth Ann Wilson, associate professor of clothing Extension, was given the second highest award for a single television program on men's fashions by the Men's Fashion Association. The show for which she was honored was a feature presentation on men's fashions for fall and winter and was shown on the "Farm, Home and Garden" program of WPX-TV.

HUB specials

Monday, March 10 — Lunch, soup and barbecue on bun, \$4; dinner, Canadian bacon and hot potato salad, \$1.34.
Tuesday, March 11 — Lunch, soup and Reuben platter, \$1.60; dinner, lasagna, \$1.27.
Wednesday, March 12 — Lunch, soup and hot sausage on hoagie roll, \$1.15; dinner, lamb steak, \$1.30.
Thursday, March 13 — Lunch, spaghetti, \$1.22; dinner, golumbi, \$1.21.
Friday, March 14 — Lunch, macaroni and cheese, \$.95; dinner, seafood platter, \$1.89.
Saturday, March 15 — Lunch, chili con carne, \$.69; dinner, chicken ala king with rice, \$1.39.
Sunday, March 16 — Dinner, roast turkey, \$1.76; supper, baked shells with cheese, \$1.32.

Ciletti to be special assistant

Governmental affairs office formed

In an administrative reorganization announced by President Oswald this week, the Office of Governmental Affairs will be separated from the Office of the Vice-President for Public Affairs and will be transferred to the Office of the President, effective Apr. 1.

Dr. John W. Oswald, president of the University, said that the new office will be headed by a Special Assistant to the President and that Frederick M. Ciletti has been appointed to the position.

Mr. Ciletti will be assisted by Newton O. Cattell, director of Federal relations, and Frank E. Forni, director of governmental relations, all having been on the staff of the Vice-President for Public Affairs.

"The reorganization, bringing governmental affairs directly into the President's office," Dr. Oswald explained, "will permit me to be more intimately involved with the function and to continue and even strengthen Penn State's responsiveness to State and national needs."

Mr. Ciletti will work closely with T. Reed Ferguson, who will retire in the spring after 32 years of service to the

University. Mr. Ferguson has been the University's chief legislative liaison in his role as Vice President for Public Affairs.

With the transfer of governmental affairs activities to the Office of the President, the Office of Public Affairs will have responsibility for the Office of Gifts and Endowments, Alumni Association, Department of Public Information, and General University Relations. The search continues for the new leadership of this reorganized office.

A native of Philadelphia, Mr. Ciletti is a Penn State graduate, having received his bachelor of arts and also his master of arts degrees, with majors in English literature.

He joined the faculty in 1950 as an instructor in English at the Hazleton Campus and in 1951 moved to the Schuylkill Campus, then at Pottsville. At the Schuylkill Campus he was named assistant director in 1954, associate professor of English in 1962, and he served also as dean of student affairs and assistant director of resident instruction before joining the staff of the Vice-President for Public Affairs at University Park.

Council discusses education quality

Continuing discussions of factors that affect the quality of education, members of University Council last Thursday gave attention to the matter of classroom size and also the reporting by students of practices detrimental to the instructional program.

They decided to refer to Dr. Robert E. Dunham, vice-president for undergraduate studies, the question as to whether or not there currently is a need for more classrooms that will accommodate classes of 100 to 500 students, after hearing reports of an apparent shortage of such rooms.

As to reporting on practices of instructors that are detrimental to quality education, it was suggested students should be informed so that they can report with confidence to a dean or department head such practices, including practices of inequitable treatment of class members. Council will

(Continued on page four)

Used books needed

Donations of books of all types are still being accepted by the local branch of the American Association of University Women for its 14th Annual Used Book Sale.

Books in all categories are welcomed, paperbacks as well as hard bound, including fiction, children's books, textbooks, mysteries, cookbooks, humor, "bobbies," classics, condensed, old books, travel and reference, as well as National Geographic.

Small donations may be left inside the rear door of the Schiow Library. Information on other collection centers is available from Miss Sarah-Elizabeth Croft, 237-8068.

Upwards of 25,000 books are expected for this year's AAUW sale, to be held during the week of April 14 at the Wesley Foundation.

Mailing systems guidelines tabled

Senate acts on exam schedule

The University Faculty Senate tabled action on proposed guidelines for use of the University mailing system at its March 4 meeting.

A motion urging Senate endorsement of the guidelines was made at the Feb. 4 meeting by William Rabinowitz on behalf of the American Association of University Professors.

Rabinowitz told the senators that his motion dealt specifically with mail system guidelines.

"What is at issue," he said, "is the way the University administration uses a resource to advocate its position while prohibiting a faculty group from utilizing it. Support or opposition to the motion should not be determined by support or opposition to collective bargaining.

"This is not an attempt to get the Senate to abandon its neutrality on the collective bargaining issue."

Following Rabinowitz's presentation, the Senate voted to table the motion. Earlier, an objection to consideration of the motion was defeated by a narrow margin.

In other business, the Senate approved two motions from its Academic Affairs Committee concerning final examinations.

An interim motion reaffirmed a 1969 Senate policy requiring an instructor who wishes to give a comprehensive examination, covering the entire course, to use the final examination period. Examinations given during the last week of the term must be restricted to a more limited scope.

Also approved was a motion requesting that "for any calendar system in force beginning with Fall, 1976, sufficient time be made available in the calendar for an examination period of total length to allow scheduling a final examination in each course except laboratory or practicum courses."

Thomas E. Daubert, committee chairman, said the current system, as it has

Need adult females for estrogen study

Females aged 18-30 are needed for a study of cyclic fluctuation of estrogen. Investigation is under medical supervision and will involve a reflex-reaction time measure and a small blood sample approximately once a week throughout the menstrual cycle.

All testing will take place in White Building with a certified medical technologist withdrawing the blood sample. Each testing session will take approximately one half hour.

Females using a contraceptive pill as well as females normally controlling their estrogen are needed. Financial remuneration will be made for participation and results will be available for the participants.

Please contact Dr. Harris at 865-7591 if you are interested and would like additional information.

News in brief

WPSX REMINISCES

On Monday, March 17, WPSX-TV, Penn State's educational station on Channel 3, will feature some reminiscing about the beginnings of the station just ten years ago. The first broadcast, as noted in a recent REPORTER story, was a daytime program on March 1, 1965 for the schools of the area. The program March 17, at 10 p.m., will have Robert C. Dudley and Nancy Miller doing the reminiscing; both have been associated with the station in one capacity or another since the beginning. Excerpts of early programs will be shown. The same program will be seen Mar. 18 at 3 p.m. and Mar. 20 at 1 p.m.

CAPITOL COMMENCEMENT

Winter Term Commencement exercises will be held at Capitol Campus Saturday, March 22, at 11 a.m. in the Middletown Area high school. Ninety-six graduates will be granted degrees, including 84 bachelor's and 12 master's, which will be awarded in administration, American studies, elementary education, engineering, humanities, public administration and regional planning. Dr. Robert E. McDermott, provost of Capitol Campus, will preside and be assisted in awarding of the degrees by John L. Romig, representing the Board of Trustees.

HUB EXHIBITS

A display on the first floor of the HUB, continuing until March 30, features the work of members of the Renaissance Gallery, of State College, and in particular jewelry of Selma Brande, ceramics of To-shiko, Fukuyama, ceramics of Helen Hargle-road, weavings by Annette Hobbs, watercolors of Sandra Mayes Leitzinger, batik and silk screen printing of Janet Lindsay, stained glass of Nancy Norton, ceramics of Patricia and Shirley Slegenhaler, and jewelry of Dagmar Ticha. Most of the works are for sale.

FRONTIER OF ROMANCE

A lecture on "Roman and Native on the Frontier," concerning the interaction between various ethnic groups on the western frontier of the Roman Empire, will be given by Dr. Stephen L. Dyson Tuesday, March 18, at 8 p.m. in Room 112 Kern. Dr. Dyson, who has had extensive experience in excavating Roman sites in England and Italy, is professor of ancient history and classics at Wesleyan University, Middletown, Conn. The address will be the feature of the meeting of the Central Pa. chapter of the Archaeological Institute of America. Since 1971, Dr. Dyson has been director of the excavations at Buccino, Italy, which is a key site for the history of the earliest inhabitants of the Italian peninsula.

AAUP MEETING AT CAPITOL

President Marvin Wachman, of Temple University, will address the 22nd annual meeting of the Pennsylvania Division of the A.A.U.P. at Capitol Campus Saturday, March 15. He will speak on "Collective Bargaining at Temple" at the luncheon at 12 noon. The meeting opens at 9:45 a.m. and continues through the afternoon.

President Wachman will discuss higher education's currently pressing problems in Pennsylvania as well as life at a University under a collective bargaining contract. Members of the University Park Campus who need transportation to the meeting are invited to contact chapter president Dr. Robert Scholten, 865-6393.

SYMPHONY CONCERT

Beethoven's "Piano Concerto No. 4" will be performed by the University Symphony Orchestra, with soloist Sharon Brook, as

(Continued on page four)

Death

Dr. John W. Bratzler, professor of animal nutrition, who retired with emeritus rank in 1970, died last Saturday (March 8). He was a member of the faculty for 26 years. Much of his career was devoted to evaluating the nutritive quality of forages. Working closely with the extension program at the College of Agriculture, he played a major role in convincing livestock producers of the value of high quality forage. His early career was devoted largely to research in the field of energy metabolism under Dr. E. B. Forbes, who was director for many years of the Institute of Animal Nutrition which later became the Department of Animal Nutrition. His work on the nutritive value of forages was instrumental in establishing the ideal stage of maturity for the harvesting of corn for silage. His silage studies also laid the groundwork for the establishment of the Penn State Forage Testing Laboratory, built

on the University Park campus in 1966. Earlier work, between 1959 and 1966, was carried on in a private laboratory. In 1969 Dr. Bratzler was honored by the Pennsylvania Grassland Council with its annual award "for his contributions to the State's grassland agriculture." He was a charter member of the Council and had judged years. He had also received the Merit Certificate of the American Forage and Grassland Council, which he served as North Atlantic vice-president in 1963-64. In 1969 he was one of eight scientists named to honorary fellowship in the American Society of Animal Science for distinguished service to the livestock industry. A native of Illinois, Dr. Bratzler received the bachelor of science and master of science degrees from Purdue University and the doctor of philosophy degree in animal nutrition from Cornell University. During World War II he served for more than three years as nutrition officer in the Sanitary Corps of the U.S. Army.

work results, finally, in a triumph of art and experience, as well as of a memory aroused and prodded by the imagination.

Guided by a spirit of free inquiry, Montaigne's introspective project ultimately takes its authenticity from an intricate network of judgment and criticism, according to Dr. Norton.

"Pablo Neruda, Cesar Vallejo y Federico Garcia Lorca. Microcosmos Poeticos (Essays on Interpretation Critical)" is the title of a new book by Dr. Luis F. Gonzalez-Cruz, associate professor of Spanish at the New Kensington Campus. His first book on Neruda, who received the Nobel Prize for literature in 1971, was published in 1972. The new book is only partially on Neruda, to whom five essays are devoted; four others concern Cesar Vallejo and four Garcia Lorca. The 152-page book has been published by Anaya-Las Americas Publishing Co., Inc., New York, and it includes Dr. Gonzalez-Cruz's literary analysis of the poetry of probably the three greatest contemporary poets of the Spanish language. The essays are at times "archetypical characterizations of certain motifs found in the poems selected; in other instances, they attempt an evaluation of certain aspects of the cosmivision of the poets included."

The book "A Random Walk in Science," by Dr. Robert L. Weber, associate professor of physics, will be published in the Japanese language by Kinokuniya Shoten. The book, recently placed on the Library Journal's list of the 100 best science-technology books of 1974, was published originally in 1976, by Crane, Russak and Co., and is now in its third printing. It is a selection of the Macmillan Library of Science Book Club and a Macmillan Book Club alternate selection. It will also be a Book-of-the-Month Club alternate selection in May. It is an anthology of scientific humor, with articles both amusing and serious written by and about scientists.

the Commonwealth now have available to them the expanded educational and informational resources provided by The Pennsylvania State University," the citation continued.

Mr. Ferguson, who served 32 years as a faculty and staff member at the University, has been vice president for public affairs since 1969. In that position and as director of University relations from 1958 to 1969, he worked closely with State legislators.

Dr. Russell A. Hyre, former adjunct professor of plant pathology who is now retired, was honored by the Pennsylvania Cooperative Potato Growers, Inc., for his research in "biotechnology" or forecasting procedures for late blight in potatoes. Dr. Hyre, who was a staff member of the U.S. Dept. of Agriculture, served as adjunct professor from 1961 to 1974.

SCHEDULE CHANGE

A concert by the Contemporary Dance Company, scheduled until recently for Saturday and Sunday, March 15 and 16, has been moved up one day, to Friday and Saturday, in order to avoid conflict with the Artists Series. Tickets for the concert, to be held in Schwab Auditorium, at 8:30 p.m., are on sale now at White Bldg., Kern Graduate Bldg., and The End Result.

Conference on seismic activity in June

Twenty engineers and scientists from several European countries and the United States have been invited to participate in a conference on acoustic emission (microseismic activity) in geology structures and materials to be held June 9-11 at University Park.

Co-chairmen of the conference are Dr. H. Reginald Hardy, Jr., director of the Rock Mechanics Laboratory and professor of mining engineering, and Frederick W. Leighton, mining engineer with the Mining Research Center of the U.S. Bureau of Mines, Denver, Colo.

The purpose of the conference is to survey the current status of research on the use of acoustic emission techniques in

geologic materials. This work covers such areas as stability of underground gas storage reservoirs and earth-filled dams, earthquake mechanics, hydrofracturing to stimulate oil and natural gas recovery, strata control in coal and hardrock mines, and fundamental behavior of geologic materials.

Acoustic emission studies in this country were initiated in the late 1930s by the Bureau of Mines. Penn State's Rock Mechanics Laboratory has been involved in such studies since 1965.

The papers presented at the conference and the discussions associated with them will be published as a book later this year.

Berks institute begins studies

The Institute of Community Affairs at Berks Campus, established only last year to serve the community of Reading and Berks County through research, instruction and public service, has issued a booklet outlining its current projects, which include the following:

Emergency Medical Services Studies —

Capitol schedules cultural series

Capitol Campus has announced a Spring Term Culture Series that includes vocal recitals, dramatic readings, brass quintet program, a lecture speaking on energy, and an Indian festival.

The first program of the term will be a performance of vocal music "From Figaro to Funny Girl" by soprano Beverly Flower and bass-baritone Jess Caston Monday, April 7. The two singers will give an afternoon lecture-demonstration and a performance at 8 p.m. Admission is free to all the events.

Actor Welf Stults will stage "An Evening with Mark Twain" Monday, April 21, at 3 p.m.

An informal concert at 3 p.m., and a formal concert at 8 p.m. will be given by The Western Brass Quintet Tuesday, April 29.

Albert E. Smigel, director of the Bureau of Statistics, Research and Planning, Pennsylvania Department of Commerce, will speak Tuesday, May 6, on "The Projections of Pennsylvania's Future in the Area of Energy Consumption vs. Output." The lecture is at 2 p.m.

A North American Indian Festival, "The Roots of Peace," will be given May 12-13 by an Indian traditional communications group, with members representing many Indian Nations throughout the U.S. and Canada. A variety of activities related to their culture will be presented, including the building of a teepee, films, lectures to classes, combined with craft sales. The group will be on campus all day May 12 and until noon May 13. A reception will be held in the evening of May 12.

Faculty and staff from other campuses are welcome to attend these cultural events.

Berks theatre to hold auditions

Auditions will be held Friday, March 28, for positions with the Berks Summer Theatre which will begin its second season of family entertainment at the Berks Campus in June.

Singers and dancers are being sought for the resident company, and high school and college students will be interviewed for performing or technician intern programs.

William D. Angstadt, general manager of the theatre and a Penn State graduate, points out that the 14-week season (June 4-Sept. 6) will include a drama, six musicals, and six children's programs. Faculty members at other Penn State campuses are urged to inform their students of this opportunity.

Each show, which includes the drama "Wait Until Dark" and musicals like "My Fair Lady," will open on a Wednesday and run for eleven consecutive performances.

The auditions will be held at 10 a.m. in the Community-Student Learning Center at the Berks Campus on March 28.

a study of the emergency health systems in the area will start with a look at the emergency communications systems and get into the areas of the level of proficiency of EMS practitioners; types of emergency room services provided by area hospitals, etc.; intergovernmental arrangements and provisions for planning periodic review of community needs; and others.

Impact of Federal Revenue Sharing on Berks County — a study on the impact of the federal revenue sharing program upon local jurisdictions, part of a state-wide program that the Institute of Public Administration at University Park is currently researching.

Land Utilization — aiding a task force concerned with the development of a land use map for the county.

Mental Health Survey — a study, in cooperation with the county's Mental Health Association, of the various programs now providing county residents in this field, concentrating on problems related to children.

Schuylkill River — a study of the river to evaluate it in terms of hydrology, land use, recreation and water supply, making use of previous studies by other groups and looking ultimately to definite recommendations.

Systems Research — as a continuing program, a study of existing governmental structures in the county to see whether the existing structures are utilizing resources effectively, giving needed services, solving community problems, and planning for future needs.

Dr. Douglas J. Grandguis is program director of the Institute of Community Affairs, which is affiliated with the Institute of Public Administration at University Park. Dr. Harold Perkins is director of the Berks Campus.

Women in arts is course subject

"Women and Creativity in the Arts," an experimental course being offered during the Spring Term at the University, will consider women's involvement in such disciplines as writing and literature, music, fine and applied art, theatre arts, and architecture. The course is Arts/Liberal Arts 198/498.

Drawing on many resources including the experiences of women faculty and area artists, exhibitions of work by women artists, and presentations by distinguished women artists in several fields, the course will emphasize successful contemporary artists in Western culture with a historical overview.

Public events, under the sponsorship of the Institute for the Arts and Humanities Studies at the University, are planned in conjunction with the course. Megan Terner playwright, Valentina Litvinoff, choreographer, Dorothy Pixley Rothschild, musician, Pauline Oliveros, composer, and Alan Neal and Elaine de Kooning, both painters, will visit the campus and participate in evening public sessions during the term. Administrative coordinator for "Women and Creativity in the Arts" is Rodolfo Weintraub, of the Department of English. Faculty coordinators are Joanne Zagst, associate professor of music; Helen Martini, assistant professor of theatre arts; Patricia Ward, assistant professor of comparative literature; and Jeanne Chanaul, associate professor of art history.

The course is offered jointly by the Colleges of Arts and Architecture and the College of Arts and Architecture.

Honors

T. Reed Ferguson, who will retire in May as vice president for public affairs, was honored by the Pennsylvania House of Representatives at a dinner in Harrisburg March 4. He was presented with a House citation.

The citation noted his many accomplishments during the past three decades as a teacher and administrator and his "vital concern" for the problems faced by Pennsylvania youth in securing a higher education.

It commended him for his "dedication and devotion to the cause of improved higher education" and expressed "heartfelt thanks to this outstanding public servant for his sincerity and kindness over the years."

As a result of his efforts "the citizens of

University Park Calendar

March 13-23, 1975

Special Events

Thursday, Mar. 13 — Library orientation tours for graduate students, 9:30 a.m. and 2 p.m., Reference Room E105 East Pattee.

Friday, Mar. 14 — Michael Powell, trombone recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Mar. 14 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern, Rob Salmon and Dizzy Sullivan, Tony Verstate.

Friday-Saturday, Mar. 14-15 — PIAA Wrestling Championships, 8:30 a.m. to 11 p.m., Rec Hall.

Friday, Mar. 14 — Michael Powell, trombone recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Mar. 14 — Hetzel Union Board program by Bob Doyle and the Buffalo Chip-ckers, 8:30 p.m., HUB ballroom. Tickets, 75 cents, at the door. Square dance follows.

Friday-Saturday, Mar. 14-15 — Contemporary Dance Company Second Annual Concert, 8:30 p.m., Schwab.

Sunday, Mar. 16 — Artists Series, Vladimir Ashkenazy, pianist, 8:30 p.m., University Auditorium.

Sunday, Mar. 16 — Chapel Service, 11 a.m., Eisenhower Chapel, Dr. Hugh Brooks, Recreation and Parks.

Sunday, Mar. 16 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, March 13 — Engineering Acoustics, 4 p.m., Room 165 Willard, Jerry G. Lilly on "Electro-Acoustic Feedback in Rectangular Reverberation Chambers."

Thursday, March 13 — Chemistry, 12:45 p.m., Room 333 Whitmore, John Siddall, Zeecon Corporation, on "Insect Juvenile Hormones."

Thursday, March 13 — Individual and Family Studies, 3:45 p.m., Room S-131 Human Development, Marian Radke Yarrow on "The Emergence and Functions of Prosocial Behaviors in Young Children."

Thursday, Mar. 13 — Agronomy, 8:30 a.m., Room 111 Tyson, J. P. Mueller on "Agriculture in Viet-Nam."

Thursday, Mar. 13 — Man-Environment Relations, 4 p.m., Room S131 Human Development, Dr. John Cassel, School of Public Health, North Carolina University, on "The Human Environment in Its Relation to Health."

Thursday, Mar. 13 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Laboratories, Yupo Chan, civil engineering, on "Review: Theory and Current Practice."

Thursday, Mar. 13 — Air Pollution Con-

Meetings

Monday, Mar. 17 — Education Student Council, 7 p.m., Room 123 Chambers.

Monday, Mar. 17 — College of Business Administration Student Council, 7 p.m., Room 214 Boucke.

Monday, Mar. 17 — Color Slide Club, 7:30 p.m., Room 112 Kern, Leslie P. Greenhill on "Judging Slides." Slides of available light portraits and an open group will be judged.

Monday, Mar. 18 — Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, Mar. 18 — College of Agriculture faculty, 4 p.m., Room 301 Agricultural Administration.

Tuesday, Mar. 18 — ARHS, 7 P.M., Room 203 HUB.

Lecture

Tuesday, Mar. 18 — "Roman and Native on the Frontier," by Professor Stephen Green, Wesleyan University, 8 p.m., Room 112 Kern. Sponsored by the Central Pa. Society of the Archaeological Institute of America.

Sunday, Mar. 16 — "Together," a discussion group among single adults on matters of mutual interest, 7:30 p.m., Room 101 Kern. Faculty and Townspeople welcome.

Monday, Mar. 17 — Walter Wells, baritone vocal recital, 8:30 p.m., Music Bldg. recital hall.

Monday-Tuesday, Mar. 17-18 — Registration for Free-U courses, HUB ground floor, all day.

Tuesday, Mar. 18 — Seminar on the use of the card catalog, 7 p.m., W110 Pattee Library.

Wednesday, Mar. 19 — Overdu Page, flute recital, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Mar. 19 — Artists Series film, Charlie Chaplin in "Monsieur Verdoux," 8:30 p.m., University Auditorium.

Wednesday, Mar. 19 — "Noondays" devotional service, 12 noon, Eisenhower Chapel, Rev. Mark Saddors.

Wednesday-Friday, Mar. 19-21 — 5 O'Clock Theatre, "The Showing," Pavilion Theatre. Wednesday-Thursday, 5:20 p.m., Friday, 7:20 p.m.

Thursday, Mar. 20 — HUB Terrace Room and Lion's Den birthday party, marking twenty years of food service.

Thursday, Mar. 20 — Phi Mu Alpha dance, 9 p.m., HUB ballroom.

Thursday, Mar. 20 — Seminar on locating journals in Pattee, 7 p.m., W110 Pattee Library.

Friday, Mar. 13 — Engineering Acoustics, 4 p.m., Room 165 Willard, Jerry G. Lilly on "Electro-Acoustic Feedback in Rectangular Reverberation Chambers."

Friday, Mar. 13 — Chemistry, 12:45 p.m., Room 333 Whitmore, John Siddall, Zeecon Corporation, on "Insect Juvenile Hormones."

Friday, Mar. 13 — Individual and Family Studies, 3:45 p.m., Room S-131 Human Development, Marian Radke Yarrow on "The Emergence and Functions of Prosocial Behaviors in Young Children."

Friday, Mar. 13 — Agronomy, 8:30 a.m., Room 111 Tyson, J. P. Mueller on "Agriculture in Viet-Nam."

Friday, Mar. 13 — Man-Environment Relations, 4 p.m., Room S131 Human Development, Dr. John Cassel, School of Public Health, North Carolina University, on "The Human Environment in Its Relation to Health."

Friday, Mar. 13 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Laboratories, Yupo Chan, civil engineering, on "Review: Theory and Current Practice."

Friday, Mar. 13 — Air Pollution Con-

Exhibits

Museum of Art — Carlo Maratti and His Contemporaries: Drawings from the Roman Baroque, Gallery C, through March 16. Works by Will Barnett, Gallery A. Selections from the Permanent Collection Gallery B.

Zoller Gallery — Bill Hanson invitational, featuring work by Mark Dame and Walter Zimmerman, March 13-22.

HUB Gallery — "German Posters of Today," a Smithsonian Institution Exhibit, until March 16. "Century of the 1890's," a French Embassy Exhibit, opening March 17. Ground Floor, Multimedia exhibit of Renaissance Gallery crafts and art works, sponsored by HUB Arts and Crafts Committee, until March 30.

Pattee Library — American Women Writers, 1600 to present.

Pollock Lounge — Paintings, sketches and ceramics by Rich Galenece, Mar. 10-17. Art Class Murals, Design Class Projects, opening March 18.

Chambers Gallery — Peter Calaboyias, sculpture, and Howard Lieberman, graphics.

Photography Gallery, 212A Arts Bldg. — Walker Evans Portfolio, opening March 18.

Sackett Gallery — Movement, projects by architecture students.

Kern Gallery — Prints by graduate students Paul Harcharik, Kurt Varnke, and Charles Moore, during March. Ceramics by 21 members of the Art Alliance Potters Guild, during March. Photography by students in the Department of Journalism, also through March.

Note: the visit to the University Park campus of the Japanese Ambassador to the U.S., Takeshi Yeshkawa, scheduled for March 20, has been cancelled due to illness. He was to have given a public lecture and led a seminar discussion on that day.

Thursday, Mar. 20 — Chapel Studies Club Student Worker's Day, 11 a.m.-5 p.m., HUB ballroom. Workshops, speakers. Films from 9 a.m.-1 p.m., HUB assembly room.

Friday, Mar. 21 — PSU Symphony Orchestra, 8:30 p.m., University Auditorium.

Friday, Mar. 21 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Friday, Mar. 21 — Campus 4-A Club Dance, 7 p.m., HUB ballroom.

Saturday, Mar. 22 — Alpha Phi Omega First Aid Skills Competition, 12 noon to 6 p.m., HUB ballroom.

Sunday, Mar. 23 — Katherine Kello, piano recital, 8:30 p.m., Music Bldg. recital hall.

Sunday, Mar. 23 — Colloquy program, R. Buckminster Fuller, architect and engineer, on "Humans in the Universe," 8 p.m., University Auditorium.

Sunday, Mar. 23 — Free-U classes begin.

Sunday, Mar. 23 — Chapel Service, 11 a.m., Eisenhower Chapel, Rev. Charles L. Coleman, Program Director of Religious Affairs.

Sunday, Mar. 23 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Tuesday, Mar. 18 — Plant Pathology, 9:45 a.m., Room 213 Buckhout, Dr. James Tammern, organizational meeting for all graduate students.

Tuesday, Mar. 18 — Solid Waste, 2:20 p.m., Room 140 Fenske.

Tuesday, Mar. 18 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond.

Tuesday, Mar. 18 — Chemical Engineering, 3:45 p.m., Room 140 Fenske, W. R. Schwallier, Princeton University.

Wednesday, Mar. 19 — Clinical Psychology, 8 p.m., Room 101 Kern. Dr. Jerome L. Singer, Yale University, on "Imagery and Fantasy Techniques in Psychotherapy and Behavior Modification."

Wednesday, Mar. 19 — Ecology, 3:55 p.m., Room 101 Electrical Engineering East.

Wednesday, Mar. 19 — Chemistry, 4 p.m., Room 333 Whitmore. Robert H. Bugel, ICI University, on "Evaluating Economics of New Chemical Processes."

Wednesday, Mar. 19 — Biochemistry, 4 p.m., Room 101 Althouse. Dr. Fred Karush, microbiology, University of Pennsylvania School of Medicine, on "Multivalence of Antibody and Biochemical Affinity."

Wednesday, Mar. 19 — Fuel Science, 4 p.m., Room 301 Mineral Industries, Dr.

Films

Thursday-Sunday, Mar. 13-16 — Centre Cinema, "Paper Moon," 7:30 and 10 p.m. Thursday, Simmons lounge, Friday to Sunday, Forum Bldg.

Monday, Mar. 17 — Department of French film series, "Rules of the Game," directed by Renoir, 7 and 9 p.m., Room 102 Forum.

Wednesday, Mar. 19 — Commonsplace Theatre, "Gold Diggers of '37," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday-Sunday, Mar. 20-23 — Centre Cinema, "The Way We Were," 7:30 and 10 p.m. Thursday, Simmons lounge, Friday-Sunday, Forum Bldg.

Official

Thursday, Mar. 13 — Classes begin for Spring Term, 8 a.m.

Thursday-Saturday, Mar. 13-22 — Drop-Add sub station open 1-4 p.m., HUB.

ARTISTS SERIES

Pianist Vladimir Ashkenazy, who will be featured on the Artists Series Sunday, March 16, at 8:30 p.m. in University Auditorium, will play a program including Mozart's Rondo in A Minor; and Schubert's Sonata in D Major; and teneludes by Rachmaninoff. It is unlikely that any tickets remain for sale, since virtually all were taken by season ticket subscribers and the remainder went on sale the past Tuesday.

But tickets will be available for the Artists Series film in the Charlie Chaplin series Wednesday, March 19, in University Auditorium at 8:30 p.m. The film is "Monsieur Verdoux." The tickets go on sale at the Auditorium at 7:30 p.m.

Alexander Koval, Combustion Lab., on "Oil Shale Processing."

Thursday, Mar. 20 — Physics, 3:35 p.m., Room 117 Osmond. Stanley Deser, Brandeis University, on "Quantum Gravity for Nonexperts."

Thursday, Mar. 20 — Chemistry 12:45 p.m., Room 333 Whitmore. Andrew Wojcik, Ohio State University, on "Reactions of Hydrocarbon Ligands in Transition Metal Complexes."

Thursday, Mar. 20 — Plant Pathology, 8 p.m., Room 213 Buckhout. David R. MacKenzie on "What Is The Green Revolution?"

Thursday, Mar. 20 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. James Miller, Lecturer in Business Logistics, on "Small Transit Demand."

Thursday, Mar. 20 — Agronomy, 8:30 a.m., Room 111 Tyson. Ho Jin Lee on "Carbon Production and Accumulation During the Filling Period in Small Grain."

Thursday, Mar. 20 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Douglas Cooper, Head, Control Systems Division, GCA Technology Division, Bedford Mass., on "Novel Uses of Electrostatics for Particle Control."

Thursday, Mar. 20 — Statistics, 4 p.m., Room 69 Willard.

WPSX highlights

Saturday, March 15 — Joseph Papp, Shakespeare Festival Theatre, on Ed Newman's "Speaking Freely," at 4 p.m.

Sunday, March 16 — On "Now," the ideas of British economist E. F. Schumacher, developer of Third World Alternative to industrialization, at 7:30 p.m.

Monday, March 17 — Henry Fonda, as Clarence Oarrow, on The PBS Special of the Week, at 8 p.m., a 90-minute special that includes the film "Pat Garrett and Billy the Kid."

Monday, March 17 — At 10 p.m., WPSX reminds us of its ten-year history, with Nancy Miller and Bob Dudley and excerpts of programs. Also Tuesday, March 18 at 3 p.m. and Saturday, March 22, at 1:30 p.m.

Wednesday, March 19 — "Polopoli" is performed at LaScala in Milan, at 9 p.m. on "Great Performances."

HUB specials

Monday, March 17 — Lunch, stuffed pepper, \$3.95; dinner, meatloaf, \$85.

Tuesday, March 17 — Lunch, spaghetti, \$1.22; dinner, El Pasa's Day Candlelight Dinner, \$154.

Wednesday, March 17 — Lunch, turkey turnover, \$1.12; dinner, beef stew, \$1.30.

Thursday, March 20 — Lunch, burrito on bun, \$5.44; dinner, roast turkey, \$1.27.

Friday, March 21 — Lunch, macaroni and cheese, \$3.99; dinner, french fried chens, \$1.58.

Saturday, March 22 — Lunch, chili con carne, \$6.99; dinner, franks and beans, \$1.03.

Sunday, March 23 — Dinner, Salisbury steak with blue cheese, \$1.42; supper, braised beef, \$1.14.

HUB to celebrate with nickel coffee

It might take some doing, but you can remember the days of the five cent cup of coffee? Believe or not, that was the price of coffee in the HUB in 1955 when the Terrace Room and Lion's Den opened for business — and that will be the price again March 20 when HUB food service celebrates its two decades of serving the public.

There will be a special dinner menu also — entrees of roast turkey, prime ribs of beef, seafood Newberg, and veal Cordon Bleu, and baked stuffed potato — and a birthday cake (midnight layer cake) available at both lunch and dinner.

There also will be music by two singing groups of Phi Mu Alpha, music non-ordinary society.

Actually, the first meal served in the HUB was the Big Centennial Dinner, Feb. 22, 1955, marking the University's first hundred years. Six hundred guests, including faculty and staff, University ad-

ministrators, Pennsylvania legislators and executives of the State government, including the Governor, attended the gala affair, a fitting climax to an entire day of birthday activities.

For the next three weeks after that HUB birthday dinner, the Terrace Room and Lion's Den crews practiced to perfect their food service operations, and on March 15 the Food Service formally opened to the public. Students, faculty and staff, as well as the public, have enjoyed the service ever since, to the point that expansion of the facilities became necessary. Soon a new addition to the HUB will be completed, with new kitchens, a dining facility seating 780 people, and the Terrace Room will become the extension of the Lion's Den. One of the popular features in the Terrace Room has been the Candlelight Dinner for special occasions. One such occasion is coming up, St. Patrick's Day, which will be observed March 18. The menu will feature a boiled dinner.

E. C. Stakman to speak March 26

One of the most respected scientists in the field of plant pathology, Dr. Elvin C. Stakman, professor emeritus of the University of Minnesota, will speak on "Hunger and Agriculture in History" at a special seminar open to the public Tuesday, March 26, at 9:45 a.m. in Room 301 Agricultural Administration Bldg.

The seminar is sponsored by the department of plant pathology.

Dr. Stakman, who is co-author of the 1967 book, "Campaigns Against Hunger,"

served on the Minnesota faculty from 1909 to 1953, and followed that service with consulting and advisory work in a variety of activities. He was a special consultant to the Rockefeller Foundation from 1953 to 1970, leading to such success stories as "The Green Revolution." He has received many honors and awards, a number of them of international significance, and has been named one of the 100 most important men in the world. He was decorated by the Colombian government.

Artists Series announces schedule

Advance brochures announcing the 1975-76 Artists Series were mailed this week to holders of season tickets this year, with the notation that they will have until April 25 to renew their subscriptions for the coming year.

Highlights of the Music Series in University Auditorium will be the appearances of Leontyne Price, soprano of international acclaim; symphony orchestras from The Netherlands and from Stockholm in addition to the Pittsburgh orchestra; Mischa Dichter, pianist; and the Monteverdi Choir and orchestra from Hamburg.

The Pittsburgh Symphony, scheduled for Feb. 6, 7 and 8, 1976, will present the John La Montaine work, "Be Glad Then,

America," commissioned by the Institute for Arts and Humanistic Studies as part of the Bicentennial Celebration at the University. The University Chorus and guest soloists will be featured.

The Theatre/Dance Series will include the Alvin Ailey company, Nikolas Dance Theatre, the Pennsylvania Ballet, the Don Cossacks of Rostov, the musical "1776" and a fully-staged production of "King Lear" by the American Shakespeare Theatre, starring Morris Carnovsky. These events will also be in University Auditorium.

The Fine Arts Series, in Schwab Auditorium, will include Music from Marlboro, Hume Cronyn and Jessica Tandy, lutenist Martin Best, the Curtis Opera Co., harpsichord Igor Kipnis, and the Boston Symphony Chamber Players.

There will also be a special event in Rec Hall. The Chinese Acrobats of Taiwan, on Oct. 15, and other events related to the Bicentennial Celebration but not part of the subscription series.

The Artists Series reminds that earlier buyers have a greater choice of seats, since ticket requests are honored in the order in which they are received. Season ticket orders from new patrons will be filled starting in May.

Weiss documents added to library

The documents forming the basis for Dr. Beno Weiss's recently published "An Annotated Bibliography on the Theatre of Italo Svevo" are now in the Rare Books and Special Collections Department of the University Library.

Dr. Weiss, assistant professor of Italian, worked at the Svevo archive at the Biblioteca Civica in Trieste, and his bibliography, numbering 718 items, was primarily based on his research there. As he completed the series, he arranged for photocopying and microfilming of the documents listed in the bibliography, and these copies were sent to the Library.

Italo Svevo (Ettore Schmitz) is perhaps best known for his now-translated work, "The Confessions of Zeno," and was also the subject of an essay by his close friend, James Joyce.

The annotated bibliography appeared as part of the Library's Bibliographical Series in 1974.

York exhibit

Handwoven pieces, designed and made by one of the leading handweavers of the nation, went on display at York Campus last Sunday. Hausner, who was born in Vienna and received his education there, came to this country in 1948, after nine years in Great Britain. He has spent his lifetime of work in handweaving and in York was quality control manager for a textile firm until its recent closing. He has had many exhibitions of his work and has published more than 30 articles in leading handweaving publications. The exhibit will continue until April 18.

For emergencies, call 110 from 863-865

The Department of University Safety points out that the EMERGENCY NUMBER for reporting a life threatening situation such as fire, injury, or a crime in progress, is 110. This number should be used when calling from a University exchange number 863 or 865. The EMERGENCY NUMBER (110) will not work from a 234, 237, or 238 exchange number. The EMERGENCY NUMBER is located on each telephone cradle and visible when lifting the telephone receiver. It is suggested that the number 110 be memorized and used in an emergency.

The EMERGENCY NUMBER rings in on the panel at the dispatcher's desk at Police Services. As soon as a call is received on 110 the dispatcher can transmit, via radio, to all officers on foot, patrol vehicles, safety services personnel, as well as at Rileigh Health Center, which is equipped with a telephone, on both at the Health Center and in the University ambulance. In addition, direct communication can be made to the Alpha Fire Company in the Borough if additional help is needed.

At the time of an emergency if the call is placed to Police Services on the 865-5456 number, or to the University telephone operator, it means a delay in getting help to the scene of the emergency. The 865-5456 number requires extra dialing and the operator must in turn call on the emergency line.

NEWS —

(Continued from page one)

part of the orchestra's concert Friday, March 21, at 8:30 p.m. in University Auditorium. Dr. D. Douglas Miller, assistant professor of music, conducts the 90-piece orchestra and has selected Tchaikovsky's Symphony No. 4, and the prelude to Wagner's "Die Meistersinger" to complete the program. Miss Brook is a graduate student in piano and a teaching assistant in music.

NEW STUDENTS

About 1,200 new students enrolled at the University Park campus this week, including 45 enrolled as first-term freshmen and 135 from other colleges. About 750 were transfers from other campuses.

MUSIC PROGRAMS

Two department of music programs are scheduled for next week, a flute recital by faculty member Overa Page Wednesday, March 19, at 8:30 p.m., and a vocal recital by baritone Walter Wells, M.F.A. candidate, Monday, March 17, at 8:30 p.m. in the Music Bldg. recital hall. Both programs are free and open to the public.

HUB PARKING

For the next approximately three months, the Brown F (HUB) parking area will be closed to parking for regading, paving, and lining. During that time, faculty and staff members normally assigned to that area may park in any designated open faculty-staff parking areas from 7 a.m. to 5 p.m. At that same period, visitors may park in designated visitors parking areas such as Blue F and Yellow F, which are the areas closest to the HUB. After 5 p.m., any area may be used.

EVANS PHOTO EXHIBIT

Famous black-and-white photographs of the 1930s by Walker Evans, who is considered to have had a wide impact on photography, literature, film and other visual arts, are to be exhibited in the photography gallery of the Arts Building (Room 212A) beginning March 17 and continuing through April 15. The photos are scenes of Louisiana, Alabama, South Carolina, Massachusetts, New York and Pennsylvania. Evans was credited with introducing new directions in photography in the 'thirties. Gallery hours are 1 to 5 p.m. Monday through Friday.

Fleet insurance changed to PMA

Effective March 1, 1975, the University replaced its insurance coverage on its fleet of vehicles with a policy issued by the Pennsylvania Manufacturers' Association Insurance Company, which had previously insured the fleet for a number of years.

Consequently, says Wilson M. Carr, Jr., manager of insurance, all departments are asked to remove the insurance cards issued by Argonaut Insurance Co. from the glove compartments of each vehicle; they are no longer valid. New cards provided by PMA Insurance Co. will be furnished to all departments with vehicles under their jurisdiction, as soon as the cards are received.

No change in the manner of reporting automobile accidents is required because of the change in insurers; all accidents will continue to be reported to the Insurance Office by use of the vehicle accident report form found in all vehicles.

COUNCIL —

(Continued from page one)

refer the matter to Dr. Raymond O. Murphy, vice-president for student affairs, with the suggestion students be informed of provisions for reporting such matters by publication of appropriate notice in the Student Handbook.

Council was advised by Otto E. Mueller, assistant vice-president for housing and food service operations, that a plan is near completion whereby students at Commonwealth Campuses visiting University Park campus could utilize their Commonwealth Campus bus tickets for service to University Park dining halls at reduced rates. The plan will be instituted on an experimental basis during the Spring Term. Council was advised.

Dr. Charles L. Hosler, chairman of a subcommittee making a biennial review of the organization and purpose of University Council, made a preliminary report at the Thursday meeting, at which Charles J. Smith presided in the absence of the Council chairman, Dr. Russell E. Larson.

Council will hold its next meeting on Thursday, March 20.

Funding Opportunities

For procedural and funding source information, call 665-1372.

March 13, 1975

(170-1) A Report on the Federal RAD Program for FY 1976 has been issued by the National Science Foundation as compiled by members of the Federal Council for Science and Technology (FCST). Highlights presented in the 168-page document focus on program content rather than budget detail. The information is classified by agency program and by funding source. The agencies featured are: Agriculture, Commerce, Defense, DHEW, HUD, Interior, Justice, State, DOT, EROA, EPA, FEA, NASA, NSF, NRC, Smithsonian, and VA. Functional areas are: basic science, climate, energy, environment, food, health/biomedical, materials, oceans, and social activities of the eleven committees under the FCST are included in the report which may be consulted in Room 9 Old Main or excerpts will be sent upon request. (Ref. 16b).

(170-2) Transportation projects serving the elderly (and the handicapped) will be funded by the U.S. Dept. of Transportation (DOT) under a working agreement with the Administration on Aging (AOA). \$20 million is available in FY 1975 for capital assistance grants (see 16b)(DOT) and \$500 million for rural-urban transportation capital expenditures. UMTA also has research and development grants to test innovative approaches. \$26 million has also been appropriated under the Fed-

eral-Aid Highway Act for demonstration programs. Also, AOA funds the development of comprehensive and coordinated services for the elderly. March 15, 1975 additional transportation services recommendations will be submitted to the Congress. (Ref. AUA Pub.)

(170-3) HEW has released proposed regulations for bilingual vocational training programs. Grants and contracts will be awarded to develop and coordinate services for the education of limited English-speaking ability as semi-skilled or skilled workers. Programs will be offered to high school dropouts, high school graduates and others who have entered the labor market and who need training to expand skills and achieve year-round employment. The grant application deadline is April 7, 1975. This information has been distributed. (Ref. 40FR855-8, 8884-82; 3/4/75) (ORD 1500)

(170-4) Regulations and grant guidelines for supplementary educational centers and services; guidance counseling, and testing — special programs and projects for local educational agencies have been issued by the Office of Education. The community council (managerial) may include representatives from local educational agencies and the same sources are recommended as resources for technical assistance to the program. This information has been distributed. (Ref. 40FR8176-8186, 2/26/75)

(170-5) The Office of Education has issued rules and regulations for State Vocational Educational Programs including cooperative arrangements with institutions of higher education concerning manpower needs and job opportunities, designation of a state research coordinating unit, and work-study programs for vocational education stu-

dents. This information has been distributed. (Ref. 40FR8676-8698, 2/25/75)

(170-6) The American Revolution Bicentennial (ARBA) has issued guidelines for Bicentennial Projects for FY 1975 revenue bond matching grant assistance to non-profit organizations. The program is administered by ARBA, Office of States, Programs and Master Calendar, 200 E. Street N.W., Washington, O.C. 20276 (202-634-1717). This information has been distributed. (Ref. 40FR 8594-86, 2/26/75)

(170-7) The Argonne National Laboratory has announced that video tapes of the presentations made at the DOE Ethno Heritage Studies Program Symposium "Mechanisms of Oncogenesis" held at Argonne are available. The 17 presentations are on 17 videocassettes (1/2 inch). A list of the presenters is available. This information has been distributed through inter-library loan. This information has been distributed. (Ref. AUA Newswrap)

REMINER AND DEADLINE DATES
March 21 for DOE Ethno Heritage Studies Program (Jan. 16 INTERCOM #5126-21) — March 31 for NSF research on environmental effects of geological development (Feb. 13 INTERCOM #5160-13)
April 1 for Pa Resident gubernatorial election (Jan. 16 INTERCOM #5126-21)
April 1 for DHEW New Health Maintenance Organization projects (Feb. 17 INTERCOM #5160-17)
April 15 for PENNAP technology dissemination (Feb. 13 INTERCOM #166-17) — sell proposals (Feb. 13 INTERCOM #166-17)
April 15 for NEA City Split program (Jan. 20 INTERCOM #5170-20)
April 30 extended for AUA doctoral dissertation support (Jan. 20 INTERCOM #5170-20)
May 9 for HRA Health Maintenance Research Centers (Feb. 27 INTERCOM #5160-27)

PENN STATE intercom

Volume 4, Number 27

March 20, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

President's statement made March 12, 1975

Oswald discusses Shapp's budget proposals

"I am deeply concerned at the harsh implications for Penn State of the budget recommendations presented in the Governor's budget message for 1975-76. I thoroughly understand the status of the economy and the strained estimates of revenues in the Commonwealth; and Penn State, of course, expects to carry its appropriate share of adjustments to live with the economic realities.

However, the Governor's budget allocations for Penn State of \$123.6 million for 15 months is actually less than \$100 million on a 12-month basis whereas \$114.5 million was requested as absolutely essential for the coming 12-month period. A realistic and stern analysis of the Governor's proposal contains four most serious implications for Penn State.

First, the State's research support to the University is cut by 20 per cent, a slash which will require reductions in the research programs in food, energy, coal, oil, transportation and other areas at a time when society's needs in these areas are most demanding. A 20 per cent cut in funds for research, from \$17 million during the current year to \$13.6 million on a 12-month basis or \$17 million for 15 months, is an extreme deprivation which will greatly and regrettably affect many of our capabilities for service to the people of the Commonwealth for many years to come.

Secondly, the budget proposes a 14.5 per cent reduction in support of medical education. This comes at a time when our most modern medical center in the Commonwealth is coming into maturity and achieving national recognition, and at

a time when it is beginning to fulfill the critical health care needs of rural Pennsylvania. Since the same amount for medical programs is allocated both for a 15-month fiscal period next year as for the 12-month period this year, the Governor's budget seems to assume there could be three months of operation without expenditures, which, of course, is not the case.

Thirdly, the Governor's budget provides no recognition of the mandated payment to the State of the \$4.6 million increase in retirement benefits alone or for adequate provision for increased inflationary costs. Finally, it will not be possible to make salary increases of a desired level unless additional State funds are secured. Furthermore, implementation will have to be related to the fiscal year change.

Overriding all of these specific concerns

is the paradoxical effect of the Governor's proposal of a transitional 15-month budget which works to the fiscal advantage of the State and to the fiscal disadvantage of Penn State. The critical factor at the University is the inclusion in the 15 months of two Summer Terms, which characteristically produce substantially less tuition and fees income than is needed for operational costs during those summer periods.

It is vital that the citizens of Pennsylvania and the many members and friends of the University community throughout the Commonwealth understand clearly the potential impact of the proposed appropriation.

With this shortfall of approximately \$14 million in State funds, it becomes obvious we cannot avoid a tuition increase.

Faced with the budget program presented Tuesday, the people of Pennsylvania must understand what will happen to their land-grant University with declining State support, especially in the critical fields of research and medical education.

I shall make every possible effort to carry our concerns to the members of the Legislature and to the Administration as well as to our many constituents throughout the Commonwealth as this budget is considered in the weeks ahead."

Gwendolyn Brooks

Brooks reading

Gwendolyn Brooks, Pulitzer Prize winning poet, will read from her works and comment in a program Tuesday, March 25, which is related to her visit here for the "Women and Creativity in Arts" program this term.

The reading will be held in the Black Cultural Center, Walnut Bldg., at 8 p.m. All these lectures and readings in this series are free and open to the public.

Gwendolyn Brooks, who is poet laureate of the state of Illinois, was born in Kansas but spent most of her life in Chicago and was educated in the Chicago school system. She was graduated from Wilson Junior College.

Among her books are "A Street in Bronzeville," "Annis Allan," "Maud Martha" (a novel), and "In the Mecca," a book-length poem acclaimed by critics. Her autobiography, "Report from Part One," was published in 1972 and acclaimed by the New York "Times" as "one of the most valuable books of recent times."

A Gwendolyn Brooks Library has been founded at Western Illinois University and at the Black Woman's Committee House in Chicago; another library has been established in her name.

Alumni Fellows here in April

Nine Penn State alumni who have distinguished themselves in their professions will return to the University at various times in April as Penn State's third contingent of Alumni Fellows.

The Fellows program offers students, faculty and staff in the College a chance to meet formally and informally with the prominent alumni, who return to their Alma Mater to exchange views, experiences and advice.

The 1975 Alumni Fellows and their host Colleges are:

Dr. Walter R. Tkach, former White House physician, now with the Office of the Command Surgeon, Andrews Air Force Base, Md., College of Science and the Milton S. Eshelby Medical Center.

Dr. George J. Bair, retired director of technical staff services for Corning Glass Works, College of Earth and Mineral Sciences.

News in brief

BOOKS FOR FACULTY

A "booktruck" from the College Marketing Group will be located outside the University Park Bookstore, McAllister Bldg., from 9 a.m. to 4 p.m. on Monday, Mar. 24. The truck, which displays books arranged by college courses from the 131 publishers of the College Marketing Group represents, is one of four such vehicles operating across the country to introduce faculty members to new books. The visit is sponsored by the Bookstore.

PATENT GRANTED

A U.S. Patent has been granted to Walter S. Gearhart, assistant professor of engineering research at the Applied Research Laboratory, for a wobble-plate pump, which is used to move heavy liquids such as sewage, slurries, and industrial wastes containing stringy substances. The new pump is said to have a high resistance to clogging. The new pump also has a balanced impeller disc to resist failure from vibration or bearing wear.

BOWLING TOURNAMENT

The annual Rec Hall Bowling Tournament, with trophies for both handicap and scratch competitors, will be held at the new lanes the week of April 8-12.

The tournament, open only to staff, faculty and students, is by teams only and the entry fee of \$10 includes the bowling charge. In addition to awards for three-game totals, high single game scores will earn a trophy as well.

Entries may be submitted by calling Bob Bangs, 865-2152.

FOOTBALL FILM

A half-hour color movie of the highlights of the 1974 Penn State football season.

Fuller

Montagu

Burgess

Buckminster Fuller, Montagu, Burgess speakers

Colloquy features population problems

A Colloquy program on the problems of population, free and open to anyone in the University community, will begin Sunday, March 23 with a talk by R. Buckminster Fuller, at 8 p.m. in University Auditorium. He will speak on "Humans in the Universe."

In the four days to follow, Colloquy will have talks by Ashley Montagu, anthropologist who was the member of the UNESCO Committee of Experts on Race who drafted the famous Statement on Race; by Anthony Burgess, author of "A Clockwork Orange"; a panel discussion on population; a video tape presentation on world population growth; and workshops on "Environment and Behavior" and "Non-Rational Man."

Fuller, whose accomplishments in architecture and engineering have led to a variety of honors, is most noted for his comprehensive philosophy, and especially for his concept of "Synergy."

Montagu, who will speak Monday, March 24 at 8 p.m. in Schwab Auditorium, on "The Challenge of Adaptability," is author of "Man's Most Dangerous Myths" and

"Man in Process," among many books. He has taught or conducted research at the British Museum, New York University, Hahnemann Medical College and Hospital, and Rutgers University. He is currently lecturing at Princeton University.

Burgess will speak on "The Meaning of 'A Clockwork Orange'" Tuesday, March 25, at 8 p.m. in Schwab Auditorium. Although his Clockwork Orange book may be most widely known, he is the author of sixteen novels and eight non-fiction works. He has been a teacher, education officer in the British Colonial Service, composer, pianist, translator, book reviewer, and an active participant in the theatre. He is on the staff of the Tyrone Guthrie Theatre in Minneapolis, as writer and consultant. His latest novel is "Napoleon Symphony."

The panel discussion on "Population" will be held Wednesday, March 26, at 7:30 p.m. in the HUB main lounge, with these panelists: Dr. Gordon de Jong, professor of sociology; Dr. Alvin R. Grove, associate dean of the College of Science; Dr. Ke Chung Kim, associate professor of en-

(Continued on page four)

University Park Calendar

March 20-30, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Mar. 20 — HUB Terrace Room and Lion's Den birthday party, marking twenty years of food service.
Thursday-Friday, Mar. 20-21 — 5 O'Clock Theatre, "The Showing," Pavilion Theatre. Thursday, 5:20 p.m., Friday, 7:20 p.m.
Thursday, Mar. 20 — Phi Mu Alpha dance, 9 p.m., HUB ballroom.
Thursday, Mar. 20 — Seminar on locating parents, 7 p.m., W110 Pattee Library.
Thursday, Mar. 20 — Labor Studies Club Student Worker's Day, 11 a.m.-5 p.m., HUB ballroom. Workshops, speakers, films from 9 a.m.-1 p.m., HUB assembly room.
Friday, Mar. 21 — PSU Symphony Orchestra, 8:30 p.m., University Auditorium.
Friday, Mar. 21 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.
Friday, Mar. 21 — Campus 4-H Club Dance, 7 p.m., HUB ballroom.
Saturday, Mar. 22 — Alpha Phi Omega First Aid Skills Competition, 12 noon to 6 p.m., HUB ballroom.

Saturday, Mar. 22 — Swim Marathon, for faculty-staff-grade students, 25-mile swim, sponsored by Penn State Aquatic Program, starting at 7 a.m., Natorium.
Sunday, Mar. 23 — Katherine Kello, piano recital, 8:30 p.m., Music Bldg. recital hall.
Sunday, Mar. 23 — Colloquy program, R. Buckminster Fuller, architect and engineer, on "Humans in the Universe," 8 p.m., University Auditorium.
Sunday, Mar. 23 — Free-U classes begin.
Sunday, Mar. 23 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Charles L. Coleman, Program Director of Religious Affairs.
Sunday, Mar. 23 — Black Christian Fellowship worship service, 11 a.m., Music Bldg. recital hall.
Monday, Mar. 24 — Teri Vincent Smith, soprano vocal recital, 8:30 p.m., Music Bldg. recital hall.
Monday, Mar. 24 — Colloquy program, Ashley Montagu, Ethnologist, on "The Challenge of Adaptability," 8 p.m., Schwab.

Tuesday, Mar. 25 — Artists Series film, Ingmar Bergman's "The Virgin Spring," 8:30 p.m., University Auditorium.
Tuesday, Mar. 25 — Gwendolyn Brooks, Pulitzer Prize-winning poet, reading from her work, 8 p.m., Black Cultural Center, Walnut Bldg.
Tuesday, Mar. 25 — Fashion Show, 7:30 p.m., HUB main lounge. Fashion Industry Interest Group.
Tuesday, Mar. 25 — Colloquy program, Anthony Burgess author, 8 p.m., Schwab, on "The Meaning of 'A Clockwork Orange'."
Wednesday, Mar. 26 — Alard String Quartet, 8:30 p.m., Music Bldg. recital hall.
Wednesday, Mar. 26 — Colloquy Panel discussion on "Population," 7:30 p.m., HUB main lounge, with Drs. Gordon De Jong, Alvin R. Grote, Ke Chung Kim, and Wilbur Zelinsky.
Wednesday, Mar. 26 — Colloquy Workshop, "Environment and Behavior," with Dr. Art Patterson, Man-Environment Relations, 1 p.m., Room 112 Kern.

Wednesday, Mar. 26 — "Noondays" devotional service, 12 noon, The Chapel.
Thursday, Mar. 27 — Colloquy Workshop, "Non-Rational Man," 1:30 p.m., Room 112 Kern. Dr. Jack Spielvogel, history.
Thursday, Mar. 27 — Pennsylvania Vocal Ensemble, Easter portion of Handel's "Messiah," 8:30 p.m., Music Bldg. recital hall.
Friday, Mar. 28 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.
Sunday, Mar. 30 — Elizabeth Wolf, piano recital, 3:30 p.m., Music Bldg. recital hall.
Sunday, Mar. 30 — Chapel Service, 11 a.m., Music Bldg. recital hall, University Choir's Easter program, Tommie Irwin, choir.
Sunday, Mar. 30 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Mar. 20 — Biophysics, 4 p.m., Room 617 Life Science. George Czerlinski, Northwestern University, on "Chemical Relaxation Kinetics Applied to Enzyme Systems."
Thursday, Mar. 20 — Physics, 3:35 p.m., Room 117 Osmond. Stanley Dever, Brandeis University, on "Quantum Gravity for Nonexperts."
Thursday, Mar. 20 — Chemistry 12:45 p.m., Room 333 Whitmore. Andrew Wieglicki, Ohio State University, on "Reactions of Hydrocarbon Ligands in Transition Metal Complexes."
Thursday, Mar. 20 — Plant Pathology, 8 p.m., Room 213 Buckhout. David R. MacKenzie on "What Is The Green Revolution?"
Thursday, Mar. 20 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. James Miller, Lecturer in Business Logistics, on "Small Transit Demand."
Thursday, Mar. 20 — Statistics, 4 p.m., Room 69 Willard.

Thursday, Mar. 20 — Agronomy, 8:30 a.m., Room 111 Tyson. Ho Jin Lee on "Carbonyl Production and Accumulation During the Filling Period in Small Grain."
Thursday, Mar. 20 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. Douglas Cooper, Head, Control Systems Division, GCA Technology Division, Bedford, Mass., on "Novel Uses of Electrostatics for Particle Control."
Thursday, Mar. 20 — Engineering Acoustics, 4 p.m., Room 165 Willard. Dr. Suzanne T. McDaniel, Applied Research Laboratory, on "The Parabolic Approximation in Underwater Acoustic Transmission."
Monday, Mar. 24 — New Communities. Architecture, 2 p.m., Room 322 Sackett. Dr. R. C. Harkness, Urban Systems Planner, Seattle, Washington, on "Innovations in Telecommunications — Telecommunications as a Potential Facilitator of New Urban Development Patterns."
Monday, Mar. 24 — Genetics, 3:55 p.m., Room 111 Tyson. Dr. Peter Ferrel, forest genetics, Virginia Polytechnic Institute, on "Isozyme Research in Forest Trees — History, Problems, and Potential."

Monday, Mar. 24 — InterScience series, 4 p.m., Room 333 Whitmore. Dr. Ronald B. Herberman, Laboratory of Cell Biology, National Cancer Institute, on "Murine Virus Induced Leukemia and Sarcoma."
Tuesday, Mar. 25 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. J. C. Fried, University of Rochester, on "Studies of Flow Oscillation in Cryogenic Fluid Heat Exchangers."
Tuesday, Mar. 25 — Solid Waste Management, 2:20 p.m., Room 140 Fenske. John R. Rosso, Sanitary Engineer, DER, Division of Solid Wastes Management, Harrisburg, on "Quality Control and Construction Management for Sanitary Landfill Design."
Tuesday, Mar. 25 — Comparative Literature, luncheon and discussion, 12:16 p.m., Presidential Room in the Corner Room.
Wednesday, Mar. 26 — Biochemistry, 4 p.m., Room 101 Althouse. Dr. Leslie P. Kozak, Jackson Lab., Bar Harbor, Maine, on "Embryonic and Adult Isozyme Forms: Molecular Probes of Differentiation."

Thursday, Mar. 27 — Agronomy, 8:30 p.m., Room 111 Tyson. Dave Belesky on "Zinc Status in Pennsylvania Forages."
Thursday, Mar. 27 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Peter Everett, man-environment relations, on "Behavioral Approaches to Modifying Travel Demand."
Thursday, Mar. 27 — Physics and Biophysics, 3:35 p.m., Room 117 Osmond. A. V. Crewe, Dean, Physical Sciences Division, University of Chicago, on "The Scanning Transmission Electron Microscope and Its Limits of Resolution."
Thursday, Mar. 27 — Chemistry, 12:45 p.m., Room 333 Whitmore.
Thursday, Mar. 27 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. P. Richard Rittelman, architect, Burt Hill & Associates, Butler, Pa., on "Solar Heating and Cooling of Buildings."
Thursday, Mar. 27 — Computer Science, 4 p.m., Room 325 Whitmore. Robert A. Wagner, Vanderbilt University, on "Correcting Regular and Counter-Automaton-Recognizable Languages."

Lecture

Tuesday, Mar. 25 — Dr. E. C. Stakman, Professor Emeritus, University of Minnesota, on "Hunger and Agriculture in History," 9:45 a.m., Room 301 Agricultural Administration Bldg.

Films

Thursday-Sunday, Mar. 20-23 — Centre Cinema, "The Way We Were," 7:30 and 10 p.m. Thursday, Simmons lounge, Friday-Sunday, Forum Bldg.
Monday, Mar. 24 — Commonsplace Theatre, "Ninotchka," Room 112 Kern.

Meetings

Monday, Mar. 24 — USG Senate, 7 p.m., HUB assembly room.
Tuesday, Mar. 25 — Volunteer Service Center, 7 p.m., HUB reading room. Laurelin placement session.
Tuesday, Mar. 25 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.
Tuesday, Mar. 25 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.
Tuesday, Mar. 25 — GSA Council, 7 p.m., Rooms 101 and 102 Kern.
Tuesday, Mar. 25 — ARHS, 7 p.m., Room 203 HUB.
Wednesday, Mar. 26 — USG Academic Assembly, 7:30 p.m., Room 351 Willard.

Official

Thursday-Saturday, Mar. 20-22 — Drop-Add sub station open 1-4 p.m., HUB.
Monday, Mar. 24 — Add deadline.

Krasner exhibit

A retrospective exhibit of collages and works on paper by Lee Krasner will be displayed in the Museum of Art at the University, March 23-April 27.

Some 85 works by Miss Krasner, wife of the late Jackson Pollock, will be included in the exhibition, covering a period from 1936 to the present.

Strongly identified with the abstractionist movement, the large paintings are included in many major collections, but her works on paper have not been widely exhibited. The current exhibition was organized by the Corcoran Gallery of Art, Washington, D.C., under the guest curatorship of Gene Baro.

A scholarly catalog is available with the show, indicating the relationship of the works on paper to her major paintings and the importance of collage in her art.

HUB specials

Monday, March 24 — Lunch, hot meat sandwich, \$1.52; dinner, beef stew, \$1.20.
Tuesday, March 25 — Lunch, scalloped ham and potatoes, \$1.19; dinner, spaghetti with meatballs, \$1.33.
Wednesday, March 26 — Lunch, double beefburger with cheese, soup, \$1.34; dinner, corned beef and cabbage, \$1.46.
Thursday, March 27 — Lunch, meatball hoagie and soup, \$1.56; dinner, Chinese pepper steak, \$1.14.
Friday, March 28 — Lunch, fishwich and soup, \$1.10; dinner, fisherman's platter, \$1.59.
Saturday, March 29 — Lunch, chili con carne, 69 cents; dinner, Spanish meatballs, \$1.04.
Sunday, March 30 — Dinner, roast turkey with dressing, \$1.71; supper, Italian meatballs, 92 cents.

Lee Krasner's "Forest No. 1," oil and paper on masonite. One of works on exhibit at Museum of Art, beginning March 23.

Exhibits

Museum of Art — Works by Will Barnett, Gallery A. Selections from the Permanent Collection, Gallery B. Lee Krasner: Collages and Works on Paper, Gallery C, opening March 23.
Zoller Gallery — Bill Hanson Invitational, featuring work by Mark Deme and Walter Zimmerman, March 13-22. "Invisibilities," faculty-student portfolio, March 14-April 12. Eadweard Muybridge, a traveling exhibition, March 24-April 12.
HUB Gallery — Ground floor, multimedia exhibit of Renaissance Gallery crafts and art works, sponsored by HUB Arts and Crafts Committee, until March 30. "Original Posters of the 1890's" — French Embassy Exhibit.
Pattee Library — American Women Writers, 1800 to present, through March 31.
Chambers Gallery — Peter Calaboyas, sculpture, Howard Lieberman, graphics, Photography Gallery — 212A Arts Bldg., Walter Evans Portfolio.
Sackett Gallery — "Movement," projects by architecture students until March 28.
Kern Gallery — Prints by graduate students Paul Harcharik, Kurt Warnke, and Charles Moore, until March 31. Ceramics by 21 members of The Art Alliance Potters Guild, until March 31. Photography by students in The Department of Journalism, until March 31.
Lounge — Design Class Projects, until March 24. Art Class Murals, until March 24. Jewelry and ceramics, opening March 25.

"Valley of the Yosemite, from Union Point, is this photo taken in 1867 by Edward Muybridge to be on exhibit, with others of his work, in the Zoller Gallery, beginning March 24, in observance of Photography Week.

Photography Week observed in Zoller

Two exhibitions will be displayed in Zoller Gallery at the University and a gallery lecture series is planned in recognition of national "History of Photography Week."

Photographs by Edward Muybridge from the Eastman House Collection and "Invisions 1975," a faculty-student portfolio, will be shown from March 24 through April 12 in the gallery in the Visual Arts Bldg.

Under the joint sponsorship of the Departments of Art and Art History, the photography exhibit includes 35 prints of photographs taken in the latter third of the nineteenth century.

A London native, Muybridge came to America in 1852. Commissioned by the government to photograph the Pacific Coast, his views of Yosemite Valley in 1867 were exhibited abroad and brought him his first widespread recognition.

By 1872 he was a successful commercial photographer, and in that year he began his experiments in animal locomotion photography for which he is best known. To settle a wager, he was commissioned to prove photographically that a galloping horse lifts all four feet off the ground at once.

Learn of problems of researchers

At Capitol, students get involved

For many college undergraduates, the scientist wrapped in a white robe is the high priest of modern society, delving into life's mysteries in the sanctuary of his laboratory.

So to show physicists as real people and to keep in touch with students of all callings, Dr. Joseph Pedulla, assistant professor of physics at Capitol Campus, decided to involve a broad spectrum of students in research in his field.

Over a period of five years, Dr. Pedulla had students in such programs as business, education, and the liberal arts helping with basic research at the campus, under the direction of graduate assistants. The story was recounted in a recent issue of "The American Journal of Physics."

"The time actually spent in the laboratory per credit varied somewhat from one student to the next," says Dr. Pedulla. "They regulated the hours to fit their own expectations." Usually the student spent one afternoon a week for three hours.

Student-researchers worked with properties of crystal structures, recorded data, built and repaired machines, conducted an inventory of the physics department equipment and assisted professors in original research.

Dr. Pedulla and other faculty members agreed that "the major reward to the faculty member was the opportunity to interact with students and to share his expertise and excitement." They felt the "largest benefit to the students was the possibility of seeing what physicists are really like and what physics is all about."

A battery of cameras with electrically controlled shutters recorded the analytical movement of horses and showed the falaciousness of the rocking horse movement traditionally depicted by painters.

In 1879 he invented the zoopraxiscope to project these photographs as moving images on the screen and thus paved the way for cinematography. Invited by Thomas Eakins, the American painter who had also made photographic studies of motion, to carry on his experiments at the University of Pennsylvania, he invented a much more sophisticated system to analyze not only movements of animals but also those of humans.

Both views of the early West and locomotion studies are included among the photographs to be shown.

The gallery lecture series will offer three talks by Phillip Conday, equipment curator at Eastman House, on "Stalking the Antique Camera," on Monday, March 31; Dr. H. K. Henrich, professor of the history of photography at Penn State, on "Early Photography in Eastern Europe," on Wednesday, April 2; and Peter Bunnell, Princeton University, on "Photography and Art in Our Time," on Friday, April 4. The lectures are at 8:00 p.m. in Zoller Gallery.

For many students the physics research was a healthy change from dry hours of lectures. The comments ranged from "just fantastic," to "you learn to think on your own," to "best lab course offered by the University."

Possibly the most perceptive remark came from one observer who sensed the problem of the white robed scientist when he said that students "discovered that scientists are not super brains conducting astonishing experiments, but are real people who have failures as well as successes and who clean bottles and empty trash."

COLLOQUY —

(Continued from page two)
tomology; and Dr. Wilbur Zelinsky, head of the geography department. The discussion will be preceded by a video tape, "Sorry No Vacancy," concerning the consequences of unrestrained world population growth. The tape will be viewed through the coming week in the HUB, Kern, and various residence halls.

Another video tape, "The World of Buckminster Fuller," will be shown by the Hetzel Union Board until March 23 in the HUB reading room.

Two workshops will be held, the first on "Environment and Behavior," Wednesday, March 26, at 1 p.m. in 112 Kern. Dr. Arthur Patterson, assistant professor of man-environment relations, will lead the discussion. "Non-Rational Man" will be the workshop topic Thursday, March 27, at 1:30 p.m. in 112 Kern. Dr. Jack Spielvogel, assistant professor of history, will be the leader.

Pennsylvania Vocal Ensemble program

Handel's 'Messiah' to be sung

The Pennsylvania Vocal Ensemble directed by Bruce Trinkle, assistant professor of music, will perform the Easter portion of Handel's "Messiah" at 8:30 p.m. Thursday and Friday, March 27 and 28, in the Music Bldg. recital hall.

Guest soloists Karen Scott, soprano, Kathryn Cowdick, contralto, John Suggs, tenor, and Douglas Miller, bass, will sing with the group. Musica da Camera, University chamber orchestra, will perform, assisted by June Miller, harpsichord, William Dole, bassoon, and Gregory Donovet-sky and Janet Olsen, oboes.

Parts two and three of "Messiah," which conclude with the "Hallelujah Chorus," will be performed. Familiar arias among the parts are the soprano "I Know That My Redeemer Liveth," the bass "The Trumpets Shall Sound," and the tinal "Amen Chorus."

Admission to the concerts, which will contain the same program, will be free, but tickets will be required. Tickets were made available beginning at 8:30 a.m. Wednesday, March 19, in Room 232 Music Bldg. and from members of the Pennsylvania Vocal Ensemble.

Biochemists paper noted

Anesthetics role studied here

The surgical team expects a simple, routine operation, but with the first breath of the anesthetic the patient begins to burn with a fever that climbs higher and higher until it ends in death.

This tragic scene, though rare, points up one of medicine's most baffling mysteries: how do anesthetics work?

Some of the answers may emerge from experiments in the College of Science, where biochemists have anesthetized and then revived beating in cells isolated from the heart of a rat.

Enroll children for art classes

Ten art classes for children and teenagers will be offered by the Department of Art Education during the latter part of the Spring Term. The classes will meet each Saturday, beginning April 5, from 8:45 to 10:45 a.m.

Further information or enrollment may be obtained by calling 865-6570 between 8 a.m. and 5 p.m. through April 1.

The classes being offered include the following:

For ages 6-7 — arts and crafts; drawing and painting.

For ages 8-12 — 3-D art; sculpture and crafts; drawing and painting.

For teens — ceramics; sculpture; drawing and painting; printmaking; jewelry.

Serials seminar

On Thursday, March 20 at 7 p.m. in W110 Pattee, the main Undergraduate Library, there will be a solution session for people who want to avoid problems in using the Serials Holdings List for locating magazines, journals and newspapers in Pattee Library. Topics to be covered include: how to determine what journals are published in your field; how to determine if Penn State has the journal you need, and in which library on campus it is located; and the use of microfilm and microfiche readers.

Date reminder

The deadline for adding courses is Mar. 24 and for dropping courses is Apr. 2.

The drop-add substitution in the Hetzel Union Bldg. will be open from 1 to 4 p.m. on weekdays until Mar. 24.

The deadline for applications to repeat a course is Apr. 2, which is also the deadline for preregistration for the Summer Term. Students may apply for pass-fail grades on Mar. 31, Apr. 1 and Apr. 2.

Preregistration for the Fall Term will be held May 1 to May 25.

Bus tours begin

Tours of the campus on the University's double-decker London bus are again available Monday through Friday during the Spring Term.

The bus leaves the Hetzel Union Building at 3:30 p.m. with a trained University guide describing features on the half-hour trip around the campus. Tickets are available at the Hetzel Union Bldg. for a donation of 25 cents.

Since those cells beat, even when removed from the animal's body and placed in culture, the scientists were able to measure the changes in the beat rate and strength caused by a common anesthetic.

The cell preparation provides what may be the first simple, quantitative mammalian model for the study of the way anesthetics work.

A paper titled "Effects of Halothane on the Beating Response and ATP Turnover Rate of Heart Cells in Tissue," describing the experiments, published in the February number of the journal, Anesthesiology, inspired an editorial in the same issue. The technique, writes Dr. John D. Michenfelder of the Mayo Foundation, offers potentially found in "no other mammalian tissue preparation available today."

Although beating heart cell preparations have been available for over a decade and have been used to test other drugs, they have never before been used to study anesthetics.

Linda J. Strong, a Ph.D. candidate; Dr. Charles R. Hartzell, assistant professor; and Dr. Richard L. McCarl, professor — all in the Department of Biochemistry — are co-authors of the paper.

The anesthetic studied has halothane, one of the most widely used inhalation anesthetics.

The researchers passed the anesthetics over the cells, measured the response, and then tested the cells again as the effect wore off minutes later.

Because they were working with small groups of isolated cells, they were able to obtain direct measurements of the cell changes uncomplicated by the additional inputs from the brain, lungs and other organs that occur in whole animal studies.

They found that halothane decreased both the rate and the strength of the beat of the isolated cells.

The finding corroborates what has been known about the heart's response in live animals under anesthesia: It slows down.

The researchers were then able to go further and trace the effect of halothane on the cell's energy producing processes.

Those data seem to indicate, Strong says, that beating slows down because the cells produce less energy when anesthetized.

Anesthetics, in short, may work by inhibiting the cell's metabolism or the way cells produce energy.

Previous studies, on brain tissue, had indicated that anesthetics might affect the cell's function, first, and then the altered function, requiring less energy, would slow down the metabolism.

Hartzell and McCarl think that both ways might be at work when an anesthetic acts.

Dr. Michenfelder concurs in his editorial: "It seems reasonable to expect a mixed response," in which energy production and energy requirements are simultaneously altered by anesthetics.

The Penn State team is pursuing the research in an effort to find the precise point in the energy-producing process where anesthetics interfere.

Ultimately, the researchers believe, the present work might have a bearing on the prevention of hyperthermia — sudden fever and death — caused by anesthetics. "In hyperthermia," says Hartzell, "the cell's energy metabolism appears to be coupled. All the molecular processes appear to stop their normal functions and turn to heat production."

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in brief

JAZZ DANCE THEATRE

Jazz Dance Theatre will feature nine dances in its concert April 3, 4 and 5 at Playhouse Theatre; curtain is at 8 p.m. Tickets will be sold starting March 31 at the University Theatre box office; reservations may be made by calling 865-1984 beginning March 31.

Developed by Jean Sabatine, member of the faculty, Jazz Dance Theatre combines dramatic jazz dancing with its counterpart in jazz music. Unlike ballet, jazz dance gives the male dancer more than a supporting role and unlike modern dance, it emphasizes the dancer's role as a human being.

The pieces to be performed are titled: Impressions of the Blues; Angles of Impact; Family Tree; The Affair; Loneliness; Anne Boleyn; Black Despair; Men's Piece; and Nameless Hour.

FSHA 40 DINNERS

Food in the style of Rome, Renaissance Italy, and Medieval England will be featured by the Food Service and Hotel Administration 40 class in dinners at the Maple Room in the Human Development Bldg. within the next week. Today, March 27, the feature is Rome; April 2 the style will be in Italy of the 15th century, and on Thursday, April 3, the banquet of the Merrie Old England will be the model. Reservations may be made by calling 865-7441.

PIANO RECITAL

Guest pianist Elizabeth Wolff will present a recital of music by Brahms and Rachmaninov at 3:30 p.m. Sunday, March 31, in the Music Bldg. recital hall at the University.

To be performed are Brahms' "Sonata in F Minor, opus 5," in the first portion of the program and eight preludes from opus 32 and "Variations on a Theme of Corelli," opus 42, by Rachmaninov in the second half.

Now teaching in New York, she has previously served on conservatory faculties in the Twin Cities and Boston. She has concentrated extensively as soloist and with chamber ensembles, having recently performed in Amherst, Mass., as well as New York City and on Long Island.

GRANT FUND ESTABLISHED

Sons and daughters of employees of Standard Steel, Burnham, who plan to enroll as full-time baccalaureate candidates at Penn State in mechanical engineering, industrial engineering, metallurgy, or business administration, may receive grants of \$500 from the company, if they maintain a satisfactory academic record and show evidence of financial need.

CHAMBERS EXHIBIT

Graphic designs by Howard Lieberman, member of the art faculty of the Allegheny Campus, Community College of Allegheny County, and sculpture in bronze, aluminum, carbon and stainless steel by Peter Calaboytas are currently on display in Chambers (Bldg.) Gallery and will remain there until April 3. Lieberman, a Syracuse University graduate in advertising design, is displaying a non-visual film entitled "The Luminous Lunar Landscape," made up of 20 plastic vacuforms. Calaboytas, who is head of the art department at the Allegheny Campus, is a Penn State graduate and obtained his M.Ed. in art from Indiana University of Pennsylvania.

ICM SCHOLARSHIP

The ICM Corporation has established a scholarship fund for undergraduates in the College of Earth and Mineral Sciences, including in mining engineering.

GAMES CLASSES

Children of University staff and faculty may take part in the games and educational gymnastics classes conducted by the College of Health, Physical Education and Recreation in White Building each term.

Classes for Spring Term will meet Thursday afternoon, beginning April 3, from 4 to 5 p.m., continuing through May 15. The classes are for children in kindergarten through fourth grade.

Registration for the classes will be held the first day of class in White Building.

CAPITOL MEETING

Capitol Campus will be the host institution for the annual meeting of the Pennsylvania Political Science and Public Administration Association, April 4 and 5, at the Holiday Inn Town, Harrisburg.

Dr. Richard H. Heindel is chairman of the local arrangements committee. Dr. Robert Bresler is a member of the program committee and will be chairing the panel on American Government.

There will be 27 participants in the four panels — American Government,

International Relations, Comparative Government, and Topics in Political Research. The subject at the dinner on April 4 will center on the politics, policy, and the organization of large cities. Colleagues and students are invited to attend.

SPECIAL WEEK

President Oswald has designated the week of May 5 to 11 as a period of special recognition of International Women's Year, with the following proclamation:

"At the request of the Association for Women Students at Penn State, I designate the week of May 5 to 11 as a period for special attention to the purposes of International Women's Year, officially named by the United Nations and confirmed by President Ford. I encourage students, faculty, and staff to gain in understanding and appreciation of the contribution, abilities and achievements of women throughout the world."

The Association for Women Students hopes that various campus groups will focus programs and events during that week on the subject of women's accomplishments and goals.

BUILDING AWARDS

The physical education building at the Ogontz Campus of the University in Abington has received two building awards.

(Continued on page four)

Plan meetings for bicentennial year

More than 1,000 "town meetings" are being planned throughout Pennsylvania as part of a Bicentennial project, "Freedom: Then, Now and Tomorrow," to be coordinated by the University.

The University has received a grant to coordinate the statewide public education project, which will culminate in a "Convention on Freedoms" in Philadelphia in June, 1976.

Funds for the project are provided by The Public Committee for the Humanities in Pennsylvania, an affiliate of the National Endowment for the Humanities, and the Bell Telephone Company of Pennsylvania. The project is conducted as a continuing education program of the Department of History.

The emphasis of the undertaking is on active involvement of Pennsylvania's citizens, so the public can participate in a substantive way in the 200th birthday of the American Revolution. The town meetings will explore the foundations of basic freedoms, their evolution through the years, possible future interpretations of freedom, and the impact which could be made upon public policy issues through a better understanding of freedoms by citizens.

The town meetings will be supplemented by a variety of learning materials, such as video and audio tapes, films, and various specially prepared publications. Television broadcasts will also be used.

Lights out

Certain designated lighting fixtures in campus buildings will be removed, for use in future buildings, as part of the University's energy-saving program. These fixtures have been designated by little green circles, about one inch in diameter, painted in prominent places on the fixtures. However, they will not

Students, faculty comment

English 3 Pilot study results noted

Evaluation of the English 3 Pilot program for fall term has been completed. Dennis Brestensky, chairperson of the Pilot, reports that "student and faculty responses have been very favorable."

During the fall term, seven sections of the English 3 Pilot were taught on four Commonwealth Campuses: Altoona, Berks, Fayette, and Ogontz. At the end of the term, 179 students were given an objective course evaluation questionnaire.

Students consider the course to be practical and helpful as well as interesting and enjoyable, the results of the questionnaire would indicate, says Brestensky.

The data indicated that:

Students enjoyed the course "very much" or "quite a lot" — 70 per cent.

The format of the course was "excellent" or "good" — 60 per cent.

Investigative writing in response to a problem was "helpful" — 80 per cent.

The problem-solving techniques of the course will be applicable to other courses — 84 per cent.

Writing in response to a human problem increased their enthusiasm and commitment to a topic — 94 per cent.

Attitudes toward writing have changed "a lot" or "moderately" — 85 per cent.

The course increased their ability to write essays which relate judgments made to evidence assembled — 89 per cent.

The course increased their ability to express a critical analysis of ideas in clear, concise prose — 89 per cent.

English 3 will continue to emphasize problem-solving investigative writing — 87 per cent.

In contrast to the objective evaluation

be removed for at least several months after those designated lights are turned off, giving occupants of the room time to adjust to the reduced lighting and assess the lighting conditions in the area. If changes are needed, call 865-1117 (the 24-hour energy problem number) because it is easier to change the lighting pattern before the fixtures are removed.

Megan Terry to read works here

Playwright Megan Terry, best known for her Obie award-winning "Approaching Simone," will read from her works and offer commentary on Wednesday, April 2, at 8 p.m. in Room 101 Kern Graduate Bldg.

Terry initially came to national attention with "Viet Rock," the first American play to deal directly with the Vietnam War, the first rock-musical and the first play in which actors left the stage to touch members of the audience.

From 1963 to 1966, Terry worked closely with the Open Theatre in New York. She scripted several plays dealing with problems of sexual identity, including "Calm Down Mother," "Keep Tightly Closed in a Cool Dry Place" and "The Gloaming, Oh My Darling."

Later works are "The People vs. Ranchman," "Home," "Jack-Jack," "Massachusetts Trust" and "The Tommy Allen Show." In 1969-70, she illuminated new roads toward political and personal regeneration with "Approaching Simone." Her most recent play, "Househus," garnered critical praise last fall.

Her appearance is being co-sponsored by the Graduate Student Association and the Institute for the Arts and Humanistic Studies.

tool used by students, an open-ended, written evaluation was used by the teaching faculty. Writing about the most desirable aspects of the course, instructors demonstrated a high degree of agreement on the following: 1) the problem-solving approach; 2) investigative writing; 3) library usage; 4) integration of sequential writing assignments with a unifying theme; 5) increased motivation of students; 6) a practical, yet humanistic emphasis; 7) integration with other courses; 8) increased flexibility for students and instructors; 9) direct application to other courses and to life.

Representative of most faculty, one instructor wrote: "Problem-solving is a necessary critical and rhetorical skill in all disciplines. This immediate relevance heightens the students' feeling of need for this approach." Another said: "It gets the students into the library and into the community to find out what's happening — and then it forces them, unwilling as they might be to be forced in this manner, to evaluate information and data and come to reasoned conclusions." And furthermore, "the thinking behind this pilot project — that investigative writing is a useful tool — makes all the sense in the world. . . . What a student picks up in this course will likely have some application to what he or she does later in life, whether it is selling insurance, teaching elementary school students, or harvesting crops on a modern farm."

Brestensky reports that the winter term evaluations of the pilot are not complete. When they are, he believes the committee will have a more accurate and comprehensive understanding of the course's effectiveness. In the winter, 20 sections at 9 campuses were taught by 17 instructors.

As part of the winter term evaluation, all teaching faculty of the Pilot will meet at University Park on April 1 to discuss the strengths and weaknesses of the course.

University Park Calendar

March 27-April 6, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Mar. 27 — Colloquy Workshop, "Non-Rational Man," 1:30 p.m., Room 112 Kern. Dr. Jack Spivey, history.

Thursday, Mar. 27 — FSHA 410 dinner, "Imperial Rome," 5:30 p.m., Maple Room, Human Development. Reservations required, 865-7441.

Thursday-Friday, Mar. 27-28 — Pennsylvania Vocal Ensemble, Eastern postions of Handel's "Messiah," 8:30 p.m., Music Bldg. recital hall.

Friday, Mar. 28 — Commonsplace Colloquy, 8 p.m., Room 112 Kern.

Sunday, Mar. 30 — Elizabeth Wolff, piano recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Mar. 30 — Chapel Service, 11 a.m., Music Bldg. recital hall. University Choir's Easter program, Tommie Irwin, director.

Sunday, Mar. 30 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Mar. 31 — Marilyn Grochowski, soprano vocal recital, 8:30 p.m., Music Bldg. recital hall.

Monday, Mar. 31 — "History of Photography Week," gallery talk by Philip Conday, curator of equipment at Eastman House, on "Stalking the Antique Camera," 8 p.m., Zoller Gallery.

Monday, Mar. 31 Sports: Coed badminton and bowling round robin tournament; badminton, 7-9 p.m., bowling, 6:30-8:30 p.m.

Tuesday, Apr. 1 — Penn State Sport Parachute Club demonstration jump in area east of East Hall (weather permitting), 2 p.m. Meeting, with film "Masters of the Sky," 7 p.m., Room 361 Willard.

Tuesday, Apr. 1 — Artists Series film, Ingar Bergman's "Through a Glass Darkly," 8:00 p.m., University Auditorium.

Wednesday, Apr. 2 — University Theatre student preview, "Jazz Dance Theatre in Concert," 8 p.m., Playhouse Theatre.

Wednesday-Thursday, Apr. 2-3 — FSHA 410 dinner, 5:30 p.m., Maple Room, Human Development. Wednesday, "Renaissance Italy," Thursday, "Medieval England," reservations required, 865-7441.

Wednesday, Apr. 2 — Smith Toulson,

clarinet recital, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Apr. 2 — Sports: Baseball, vs. Lehigh, 3:30 p.m.

Wednesday, Apr. 2 — Megan Terry, playwright, reading from her work, with commentary, 8 p.m., Room 101 Kern.

Wednesday, Apr. 2 — Jazz Concert, live radio broadcast, WDFM, 4-11 p.m., HUB assembly room.

Wednesday, Apr. 2 — "History of Photography Week," gallery talk by Dr. H. K. Henisch, professor of the history of photography, on "Early Photography in Eastern Europe," 8 p.m., Zoller Gallery.

Thursday-Saturday, Apr. 3-5 — 5 O'Clock Theatre, "Welcome to Oddfellows Hall," 7:30 p.m., Black Cultural Center, Walnut Bldg.

Thursday, Apr. 3 — Finals of cheerleading tryouts, 7 p.m., HUB ballroom.

Thursday-Saturday, Apr. 3-5 — University Theatre, "Jazz Dance Theatre in Concert," 8 p.m., Playhouse Theatre.

Friday, Apr. 4 — Marcus Chubbuck, piano recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Apr. 4 — "History of Photography Week," gallery talk by Peter Bunnell, professor of the history of photography and modern art, Princeton University, on "Photography and Art in Our Time," 8 p.m., Zoller Gallery.

Friday, Apr. 4 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Saturday-Sunday, Apr. 5-6 — Women's Liberation art sale and display, 9 a.m.-5 p.m., HUB ballroom.

Saturday, Apr. 5 — Sports: Baseball, vs. Villanova, 2 p.m. Lacrosse, vs. Drexel, 8 p.m.

Sunday, Apr. 6 — Artists Series, Waverly Consort, costumed production of "Las Cantigas de Santa Maria," 8:30 p.m., Schwab.

Sunday, Apr. 6 — Sports: Tennis, vs. Maryland, 2 p.m.

Sunday, Apr. 6 — Chapel Service, 11 a.m., Eisenhower Chapel, James W. Hill, English.

Sunday, Apr. 6 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Mar. 27 — Agronomy, 8:30 p.m., Room 111 Tyson. Dave Belesky on "Zinc Status in Pennsylvania Forages."

Thursday, Mar. 27 — Anthropology, 3:30 p.m., Room 107 Social Science. Dr. Robert Harding, University of Pennsylvania, on "Dietary Habits of Kenya Baboons."

Thursday, Mar. 27 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Peter Everett, man-environment relations, on "Behavioral Approaches to Modifying Travel Demand."

Thursday, Mar. 27 — Physics and Biophysics, 3:15 p.m., Room 117 Osmond. A. V. Crewe, Dean, Physical Sciences Division, University of Chicago, on "The Scanning Transmission Electron Microscope and Its Limits of Resolution."

Thursday, Mar. 27 — Air Pollution Control, 2:20 p.m., Room 140 Fenske. P. Richard Rittelman, architect, Burt, Hill & Associates, Butler, Pa., on "Solar Heating and Cooling of Buildings."

Thursday, Mar. 27 — Computer Science, 4 p.m., Room 325 Whitmore. Robert A. Wagner, Vanderbilt University, on "Correcting Regular and Counter-Automaton-Recognizable Languages."

Thursday, Mar. 27 — Biochemistry, 4 p.m., Room 101 Althouse. Dr. Robert Jennings, University of Minnesota, on "The Milk Alpha-Lactalbumins and Lysosomes."

Thursday, Mar. 27 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. John E. Ritter, Jr., University of Massachusetts, on "Failure Prediction for Glass and Ceramic Materials."

Thursday, Mar. 27 — Microbiology, 4 p.m., Room S2 Frear. Dr. E. B. Lillehoj, Products Research Fermentation Lab., Northridge, University of Pennsylvania, on "Atlatolxin Contamination Hazards: A Current Appraisal."

Thursday, Mar. 27 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Richard M. Anthes on "The Effect of Horizontal Divergence on the Latitudinal Variation of the Coriolis Parameter on the Drift of a Model Hurricane."

Thursday, Mar. 27 — Statistics, 4 p.m., Room 69 Willard. Dr. Richard M. Helberger, University of Pennsylvania, on "Evaluation of Statistical Program Packages."

Friday, Mar. 28 — Analytical Chemistry, 9:30 a.m., Room 333 Whitmore. Donald C. Thornton on "Multiple Voltammetry at Glassy Carbon Electrodes."

Monday, Mar. 31 — Inter-Science, 4 p.m., Room 333 Whitmore. Theodore Pincus, Memorial Sloan-Kettering Cancer Center, on "Heterogeneity of Endogenous Murine Cytovirus Gene Expression."

Monday, Mar. 31 — New Communities, Architecture, 2 p.m., Room 322 Sackett. Walter A. Lyon, Bureau of Water Quality Management, Department of Environmental Resources, Harrisburg, on "Innovations in Pollution and Environmental Control for New Towns."

Tuesday, Apr. 1 — Psychology, 1-5 p.m., Room 351 Moore. Dr. James O. Whitaker, Capitol Campus.

Tuesday, Apr. 1 — Physiology, 3:45 p.m., Room 111 Life Sciences. Dr. T. M. Holte, on "Regulation of Aortic Permeability."

Tuesday, Apr. 1 — Plant Pathology, 9:45 a.m., Room 211 Buckhout. Leon Burpee on "Modeling Soil Ecosystems."

Tuesday, Apr. 1 — Geosciences, 4 p.m., Room 26 Mineral Sciences. Frank Darchille on "Geologic Scope of Meteoritics."

Tuesday, Apr. 1 — Solid Waste Management, 2:20 p.m., Room 140 Fenske. Dr. William Eberhardt, Charnin Paper Products, on "Charmin puts the Squeeze on Cellulitic Solid Wastes."

Tuesday, Apr. 1 — Electrical Engineering, 2:20 p.m., Room 329 Electrical Engineering East. Dr. Eric Lean, I.B.M., on "Thin Film Optical Devices for Integrated Optics."

Tuesday, Apr. 1 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. J. Wei, University of Delaware, on "The Catalytic Muller."

Wednesday, Apr. 2 — Fuel Science and Acoustics joint seminar, 4 p.m., Room 301 Mineral Industries. Dr. Warren C. Strahe, aerospace engineering, Georgia Institute of Technology, on "Combustion Noise."

Wednesday, Apr. 2 — Biochemistry, 4 p.m., Room 101 Althouse. Dr. Vincent Cristofalo, Walter Institute, University of Pennsylvania, on "Cellular Senescence: Factors Modulating Cell Proliferation in vitro."

Thursday, Apr. 3 — Agronomy, 8:30 p.m., Room 111 Tyson. Dr. John E. Ritter, Jr., on "Nitrate-Nitrogen Movement and Distribution through Soil Profiles."

Thursday, Apr. 3 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Ronald Abner, geography, on "Communication vs. Travel."

Thursday, Apr. 3 — Physics, 3:35 p.m., Room 117 Osmond. John Johns, National Research Council, Ottawa, Ontario, on "Ultra-High Resolution Spectroscopy."

Thursday, Apr. 3 — Chemistry, 12:45 p.m., Room 333 Whitmore. George S. Wilson, University of Arizona, on "Electrochemical Studies of Cytochrome Redox Reactions."

Thursday, Apr. 3 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Carl E. Mateer, Atmospheric Research Directorate, Environment Canada, Downsview, Ontario, on "Sources of Ozone at the Earth's Surface."

Thursday, Apr. 3 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Rex Riser, Laboratory of Viral Diseases National Institute of Allergy and Infectious Diseases, NIH, on "SV 40 Transformations: Relation of Growth Properties to Plasmidogen Activator Production and Cellular Tumorigenicity."

Thursday, Apr. 3 — Microbiology, 1 p.m., Room S2 Frear. Benjamin Appelbaum on "Plasmids in the Enterococci." At 4 p.m., Room S2 Frear, Dr. W. McClain, bacteriology, University of Wisconsin, on "The Biosynthesis of Transfer RNA in Prokaryotes."

Thursday, Apr. 3 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Douglas A. Paine, Division Atmospheric Sciences, Department of Agronomy, Cornell University, on "The External Gravity Wave and Its Organization of Severe Convective Elements."

Exhibits

Museum of Art — Works by Will Barnett, Gallery A. Selections from the Permanent Collection, Gallery B. Lee Kresner, Collages and Works on Paper, Gallery C.

Zoller Gallery — "Invisions 1975" — faculty-student portfolio. Eadward Mybridge, a traveling photo exhibition.

HUB Gallery — Ground floor, multimedia exhibit of Renaissance Gallery crafts and art works, sponsored by HUB Arts and Crafts Committee, until March 30. "Original Posters of the 1890's" — French Embassy Exhibit.

Pattee Library — American Women Writers, 1600 to present, through March 31. Photographs, "Faces of Prague," by Cynthia Begnal.

Chambers Gallery — Peter Calaboyas, Sculpture, Howard Lieberman, graphics. Brent Wilton and Leon Alters, art education, painting and sculpture, opening April 4.

Photography Gallery, 212A Arts Bldg. — Walker Evans Portfolio.

Kern Gallery — Prints by graduate students Paul Harcharik, Kurt Warnke and Charles Moore, until March 31. Ceramics by 21 members of the Art Alliance Potters Guild, until March 31. Photography by students in the Department of Journalism, until March 31.

Potlock Lounge — Jewelry and ceramics, until April 1. Design Class Projects, opening April 2.

Meetings

Monday, Mar. 31 — USG Senate, 7 p.m., HUB assembly room.

Monday, Mar. 31 — Education Student Council, 7 p.m., Room 123 Chambers.

Tuesday, Apr. 1 — Faculty Senate, 2:10 p.m., Room 112 Kern.

Tuesday, Apr. 1 — Commonwealth Campus Council, 4 p.m., Faculty Senate, 12:30 p.m., Room 112 Kern.

Tuesday, Apr. 1 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Films

Thursday-Sunday, Mar. 27-30 — G.S.A. Film Festival, 7 and 9 p.m., Room 112 Kern. Thursday, "Rebel Without A Cause"; Friday, "On the Waterfront"; Saturday, "The Graduate"; Sunday, "To, gether."

Wednesday, Apr. 2 — Commonsplace Theatre, "Public Enemy," 7:30 and 9:30 p.m., Room 112 Kern.

Official

Wednesday, Apr. 2 — Drop deadline.

Wednesday, Apr. 2 — Course Repeat deadline.

Wednesday, Apr. 2 — Preregistration deadline.

WPSX highlights

Friday, March 28 — Bach's E-Minor Mass will be featured on "Great Performances," at 9 p.m., with soloists Harmon Prey, Gundula Janowitz, Heris Tappan, and Herz Lubenthal, with the Munich Bach Orchestra and Choir, directed by Karl Richter.

Sunday, March 30 — An hour-long documentary, "Lost World of the Maya," at 7:30 p.m., recreates the history of the Maya through ruins built more than 2000 years ago in Central America.

Monday, March 31 — The first program in a two-part series titled "The Thin Edge" is concerned with "Oppression: The Shadowed Valley," at 8 p.m. Other programs will deal with oppression, guilt, anxiety, and sexuality. To go along with this program, WPSX will have a special "Talkabout" program at 10 p.m. focusing on common social attitudes toward mental illness and where people can get help in Control Pa.

Wednesday, April 2 — "The School for Scandal," performed by Guthrie Theatre, Minneapolis, at 9 p.m., on "Theatre in America."

Thursday, April 3 — In the Japanese film series, at 9 p.m., "Early Summer," explores family life in modern Japan, specifically with the plight of an unmarried daughter in a family of three generations.

Playwright here

Megan Terry, one of the nation's leading playwrights and authors, will read from her works and comment in a program Wednesday, April 2, at 8 p.m. in Room 101 Kern. She is perhaps best known for her Obie Award winning play "Approaching Silence" and for her most recent play, "Hobnob," which last fall drew the critics' praise.

Commission for handicapped named

John H. Doolittle, associate professor of physical education, is chairman of a nine-member Commission on the Physically Handicapped Student appointed by President Oswald recently to give consideration to the problems of the physically handicapped student as he relates to the University and to develop a framework for the University to relate to the student.

Dr. Eugene McDonald, research professor of speech pathology, is special consultant to the Commission. Other members include: A. A. Bigatel, director of physical plant design and engineering; Timothy Fitzgerald, junior majoring in general arts and sciences; Douglas Ford, junior in community development; Dr. Eugene R. Melander, assistant vice president for

undergraduate studies; Charles H. Ness, librarian and assistant director for public services of University Libraries; JoAnn Swaney, junior in rehabilitation education; Dr. Robert Wirag, health educator; and Merle E. Campbell, assistant vice president for student affairs.

The Commission will issue a report which is to include recommendations for future policies and procedures regarding the physically handicapped.

Doolittle said the Commission will survey present architectural and educational conditions surrounding the physically handicapped student here and will examine present policies and practices which may expedite or impede reasonable progress of the physically handicapped student.

Summer program in arts planned

Nittany Mountain Summer, three weeks of professional programs in the visual and performing arts, is planned for July 27 through Aug. 16 at the University Park campus.

Featured will be events and exhibitions presented by the Pennsylvania Ballet, Pennsylvania Orchestra, University Museum of Art, and the Penn State Festival of American Theatre.

The 1975 program is the second season for Nittany Mountain Summer, sponsored by University Arts Services at Penn State.

Nittany Mountain Summer is funded in part by grants from the Office of Gifts and Endowments at the University, the National Endowment for the Arts, and the Pennsylvania Council on the Arts.

Art works chosen for Museum of Art

Two works of art were selected for donation to the Museum of Art by the Friends of the Museum of Art at a recent purchase party at the Museum.

A wash drawing by Giulio Romano from the early 16th century and an Albrecht Durer woodcut print circa 1500 were chosen by election from four works by the more than 100 people attending.

The Romano work, in pen and brown ink, is a study for one of twelve large lunettes in a room of the Palazzo del Te in Mantua, Italy. Titled "Jupiter's Eagle Brings Water from the Styx to Psyche," the lunette is in the room decorated on the mythological theme of Psyche.

Durer's "Lamentation" is a proof impression from a woodcut made for a book on the Passion. It is one of the few original impressions made from the woodcut for the text by the great master.

On the Artists Series Sunday, April 6, the Waverly Consort, with "Les Cantiques de Sainte Marie."

Artists Series has Waverly Consort

Tickets for the performance of "Las Cantigas de Santa Maria," by the Waverly Consort, will be sold beginning Tuesday, April 1, at 9 a.m. at the HUB desk. Only 300 tickets remain for the performance, which will be given in Schwab Auditorium Sunday, April 6, at 8:30 p.m.

The Artists Series reminds season ticket holders that the deadline for renewing their seats for the 1975-76 season is April 25. New season subscriptions will be filled beginning May 1, and they will be filled in order of receipt of the applications.

"Las Cantigas de Santa Maria" is a collection of songs honoring the Virgin, collected during the 13th century by King Al-

fonso X, of Castile. The Waverly Consort will perform in appropriate costume, playing instruments such as rauschpfeife, psalter, shawm, recorder, Moorish guitar, medieval fiddles, and with vocal portions performed by Jane Bryden, soprano, and John Humphrey, tenor, with James Selby as troubador.

The Waverly Consort, of New York, had its beginnings 15 years ago, at New York University, in a class on the Introduction to Musicology. Today, touring is a regular part of the Consort's schedule, although the group performs frequently in New York City. It has also made a Vanguard recording of "Las Cantigas."

Service Award to Dr. Moser

Dr. Gerald M. Moser, professor of Portuguese and Spanish (second from left) was given the University's 25-Year Service Award by College of the Liberal Arts Dean Stanley F. Paulson (left) in a ceremony attended by Mrs. Moser and by Prof. S. Stabb, head of the Department of Spanish, Italian and Portuguese, during his term. Dr. Moser received all three degrees from the University of Paris. He taught at Bridgewater College, Cornell University, and universities of Wisconsin and Illinois before coming to Penn State in 1945. He has written many articles and several books on Portuguese, Brazilian, and Spanish-American literature and has served as associate editor of "Hispania," the "Modern Language Journal," "Studies in Romanticism" and the "Luso-Brazilian Review." In 1963 he spent the winter and spring terms at the University of Lisbon, as a Fulbright Scholar. In recent years, he has concentrated on African literature written in Portuguese, a developing field. In the community, he was one of the founders of the University Fellowship of Centre County and has been a leader of the Penn State Federal Credit Union.

Trustee actions Meeting March 15, 1975

Authorization for awarding of contracts for construction of the Faculty Club, at a cost not to exceed \$1,140,000, was given by the Board of Trustees March 15. Only funds from private gifts and contributions will be used to build the facility.

Approval was given to an affiliation agreement between the College of Medicine and St. Joseph's Hospital, of Reading, so that a variety of undergraduate and post-graduate educational programs can be planned and conducted jointly. The programs will be held in Reading and Hershey for students and staff. The University will provide consultative and scheduling and accrediting aid and facilities and speakers under joint sponsorship with the hospital. Educational experiences for medical students in the departments of Family Practice, Medicine, Surgery, Obstetrics and Gynecology, Pediatrics and other areas will be available through this joint program.

Two tracts of land on the McKeesport Campus, totaling 0.83 acres, will be deeded to the Borough of White Oak, to enable the borough to widen streets providing access to the new maintenance building and parking area on the campus. The Trustees approved the transfer.

The agreement between the Hershey Medical Center and the University of Pennsylvania School of Allied Health Professions was approved. This agreement, which is similar to affiliation agreements with the University of Pittsburgh and Temple University, permits training of student interns in the clinical aspects of physical therapy; the Physical Therapy Department staff provides planned clinical programs for teaching, evaluating the performances of the students, and providing a report to the Penn faculty.

The Board passed a resolution expressing "Sincere respect and appreciation" to T. Reed Ferguson, vice president for public affairs, who is retiring in May, and also approved emeritus rank for him. The Board noted that he "served as a most effective interpreter and ambassador to the University's many constituencies of alumni, friends, and citizen groups and especially to the legislators who from all political persuasion respect his integrity."

Approval was given by the Trustees to make available to the public five days before a meeting of the Board the agenda of items to be considered. A motion to open to the public the meetings of the three standing committees was turned down but authorized the president to invite three fac-

ulty and three student representatives to attend meetings of the Committees on Finance and Physical Plant, as well as the Committee on Educational Policy.

Dates of Board meetings in 1976 were approved: Jan. 16-17; March 19-20; May 27-29; July 16; Sept. 17; Nov. 5. The March 19-20 meeting will be held at Hershey, the July 16 meeting at Behrend College, and the balance at University Park.

NEWS —

(Continued from page one)

The structure was cited by the Pennsylvania Society of Architects with a "Distinguished Building Award" and is featured as a building award winner in the current issue of "American School and University" magazine. The building previously received an "Excellence in Design" award from the Philadelphia Chapter of the American Institute of Architects. A \$12 million project of the General State Authority, the building, which was dedicated last May, is unique in that the exterior walls are constructed of reinforced concrete and the roof construction is suspended from steel pipe trusses above the structure.

GRADUATE FELLOWS

Seven Penn State students and alumni have been chosen for National Science Foundation Fellowships in sciences, mathematics, and engineering. Nationally, \$50 were selected for the fellowships from among 5,770 who competed. Two of the Penn Statees will continue their graduate work here.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 42-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, APRIL 3, 1975

PATIENT FOOD SERVICE SUPERVISOR — Hershey Medical Center

Responsible for operation, scheduling and supervision of personnel in the Food Service Department. Confer with Dietitian regarding operation problems. Plan, direct, and supervise the Food Service Supervisor sanitation and housekeeping procedures. High School diploma, or equivalent, plus at least two years of formal outside training and 1-2 years effective Food Service experience.

In addition to the above vacancy, there are positions that frequently are available because of the number of employees in them. They are listed below and will not be listed on an individual vacancy basis. Application for such positions may be made at any time and you are welcome to make your interests known now to the Employment Division for future consideration when vacancies occur. These positions are:

ASSISTANT FOOD SUPERVISOR —

Housing and Food Services

Applications for these positions are considered without regard to race, color, creed, sex, or national origin.

PENN STATE intercom

Volume 4, Number 29

April 3, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Twenty eight from \$850 to \$5,500

Research initiation grants approved

Twenty-eight research initiation grants ranging from \$850 to \$5,500 have been awarded to University faculty members from a fund approved by President Oswald for the encouragement and support of research and other creative work.

An ad hoc committee appointed by Dr. R. G. Cunningham, Vice President for Research and Graduate Studies, consisting of Drs. Walter I. Thomas (chairman), Paul Ebaugh, B. F. Howell, Jr., J. C. Johnson, and Stanley Weintraub received and reviewed 89 proposals. A list of those receiving grants follows:

A. K. Anderson, Architecture, A Predictive Survey of Professional Program Admissions Standards.

K. O. Anderson and W. M. Martin, German Dialect Variation in Three Geographically Separated Pennsylvania German Communities.

R. A. Arlew, French, A Thematic Study of Two Surrealist Poetic Texts.

G. David Arnett, Bioengineering, Measurement of Ventilation Mechanics in Infants.

P. H. Badli, Classics, Translation with Critical Commentary and Notes of Priscian's Major Sections on Syntax.

Jeanne Cheneault, Art History, Mythological Paintings, Prints, and Drawings of Josepe de Ribera.

J. A. Cicciarella, Geology, Beaver Campus, Surface Reduction Rates of Limestone and Marble Dimension Stone in Urban-Indus-

trial Atmospheres of Southwestern Pennsylvania.

M. C. Coleman, Polymer Science, Fourier Transform Infrared Study of Polymers.

R. H. Fox, Agronomy, Increasing the Efficiency of Phosphorus Utilization by Crop Species.

G. W. Franz, History, Delaware County Campus, Background to Revolutionary Pennsylvania.

G. L. Geoffroy, Chemistry, A Systematic Investigation of the Photochemical Properties of Transition Metal Hydride Complexes.

G. W. Gokel, Chemistry, Polychlorinated Macrocycles in Organic Synthesis.

Eliezer Kamon, Physical Education, Physiological Evaluation of the Effects of Physical Conditioning on Middle-Aged Women.

L. G. Kerr, Psychology, Psychophysical Experiments in Human Visual Perception.

G. J. Killian, Dairy Science, Male Reproductive Physiology.

D. H. Laananen, Mechanical Engineering, Crash Attenuator Analysis and Design.

R. L. Laidie, Pediatrics, Hershey, Modulation of Growth Factor Membrane Receptors in Virus Transformation of Cells in Culture.

D. R. Leavers, Behrend College, A Kinetics Study of the Phosphate Solubilization Speed of Lake Erie Sediments as a Function of pH.

K. M. Lucht, Insurance and Real Estate, Extra Aetna Factors Associated with Home

Loan Delinquency in a Nonmetropolitan Region.

D. R. McKenzie, Plant Pathology, Computer Simulation Model for Multiline Varieties.

M. J. Mehoney, Psychology, Cognitive Training and Remedial Eating Exercises in the Treatment of Obesity.

Stephen Porter, Art, The Study of Wood as a Material for Sculpture.

R. W. Regen, Civil Engineering, Improved Wastewater Treatment and Energy Conservation Using Activated Algae.

J. W. Robinson, Jr., Metallurgy, Thermodynamics of Solution of Sulfur, Antimony and Bismuth in Ferromolybdenum.

J. A. Salvie, Special Education, Development of a Computer-Mediated Program to Teach Letter Discrimination to Handicapped Children.

S. C. St. Jeor, Microbiology, Hershey, Cytomegalovirus; Cell Division and Replication.

J. A. Whiteside and S. J. Miller, Health Education, Development of a Physical-Anthropometric Profile of the Female Athlete at Penn State in Order to Predict Sport Readiness and Vulnerability to Sport Injury.

Ira Wolfinsky, Biological Health, Effects of Prenatal Dietary Calcium Intakes on Calcium Status During Pregnancy and Lactation and on Offspring Development.

Ellen Stewart, of LaMama, speaks Tuesday.

LaMama director speaks Tuesday

Ellen Stewart, founder and director of the innovative stage company, "LaMama ETC.," will lecture Tuesday, April 8, at 8 p.m. in Room 101 Kern Graduate Bldg.

Although its beginnings were shaky, LaMama today is regarded by critics as the fountainhead of the new movements in American playwrighting and production styles that emerged in the 1960s.

Stewart has fostered the talents of such writers as Rochelle Owens, Megan Terry, Sam Shepard, Jean-Claude Van Italle, Israel Horowitz, Tom Egan and Lenard Melli.

Founded in 1961, LaMama has gone through four homes, none of them very large or designed for theatrical performances, before moving to its present site. The current home occupies an entire building on East 4th Street in Manhattan and contains three separate theatres.

Stewart's talk is being co-sponsored by the Graduate Student Association and the Institute for the Arts and Humanistic Studies as part of a new, experimental course on "Women and Creativity."

Nominations asked for two awards

Nominations will be received in the Office of the Vice President for Student Affairs until April 11 for the Eric A. Walker and Ralph Dorn Hetzel Awards, both named for former presidents of the University.

The Eric A. Walker Award is given annually to a senior student to recognize one whose activities and achievements have enhanced the public esteem and renown of the University. The engraved trophy, replica of a larger trophy which remains on permanent display at the University, is given at June Commencement to a recipient who is graduating then or received his degree in the previous three terms. Selection of the winner is made by a committee consisting of the student presidents at the various college councils, with the Vice President for Student Affairs, or representative, as non-voting chairman.

Nominations in each college may be made by students and faculty of that college; the student council president is responsible for obtaining such nominations and providing appropriate information

(Continued on page two)

News in brief

NEW KENSINGTON EXHIBIT

An invitational art exhibition, "Childhood," will open at the New Kensington Campus April 14, featuring the works of artists from Pittsburgh, Ontario, New York and Los Angeles. The show, organized by Dr. John McNavage, assistant professor of English, is a celebration of childhood, expressing the sensitive feel of that period of life.

LAST SKYWATCH

The last Operation Skywatch of the season, planned by the Department of Astronomy, is scheduled for Friday, April 11, weather permitting. The public is invited to the open house between the hours of 7:30 and 10 p.m. to see the crescent phases of Venus and Saturn and its rings. No tickets are needed. Come if you can see bright stars with the naked eye.

FSHA 410 DINNERS

A royal banquet of 16th-century France will be served Wednesday, April 9, and a Mexican dinner will be the feature Thursday, April 10, in the Maple Room of the Human Development Building. Service is at \$3.00 and reservations may be made by calling 865-7441.

The French dinner, with their majesties King Henry of Valois and Catherine de Medici, will have the menu: split pea soup with beans and onions; salad with oil and vinegar dressing; entrees of sole a la Normande, poulet (chicken) du cloister, and filet mignon; stuffed artichoke bottoms; bread and butter; and lemon ice. The price is \$5.50 plus tax.

The Mexican dinner will include zucchini

(Continued on page four)

Barash award for service established

To recognize faculty, staff, and students "who have contributed most to humane causes, public service activities and organizations, or to the welfare of fellow humans," the Barash Award for Human Service has been established at the University.

The \$1,000 annual award honors the late Seymour "Sy" Barash, a 1950 graduate of the University, and State College businessman. He was chairman of the board of Barash Advertising, Inc., president of Morgan Signs, Inc., and co-publisher of Town and Gown until his death on Feb. 8.

The President of the University each year will name a nominating committee to

seek the recommendations for qualified recipients. The committee will forward its recommendations with supporting information to the President who will make the presentation at an appropriate occasion on the University campus.

The initial gift to establish the award was given by the family of Mr. Barash, consisting of Mrs. Barash and their daughters, Carol and Nan. Other memorial contributions have been made by friends and organizations and additional contributions can be made through the Office of Gifts and Endowments at the University. Income from the principal is expected to support the annual award.

(Continued on page two)

Grade inflation comments wanted

The Liberal Arts Student Affairs Committee wants to know how faculty and students feel about grade-related issues, including the much-discussed issue of grade inflation.

In preparation for a May 8 University-wide forum on "Grade Inflation," now being planned, the committee is gathering information on various grade-related subjects. The committee wants, as part of this information, written opinions of Penn State faculty and students which can be used at the forum.

"We want people to write about broad or specific issues," says committee head, Dr. Eloise Snyder, professor of sociology. "We suggest that the letters discuss major problems, if there are any, consequences of the problems and, finally, remedies. We're not trying to set goals or tell people how to grade. What we're really do-

ing is carrying out part of the mandate of the University Faculty Senate."

(The Senate at its Mar. 4 meeting approved four recommendations from an Academic Affairs subcommittee that conducted an extensive study on grade distribution. Approved were recommendations calling for: a study of the impact of grade inflation on graduation honors and Dean's Lists; development of an effective statistical reporting system on grade distribution within the University; the faculty, through college and departmental channels, to study appropriate standards on which grades are to be assigned; and establishment of a subcommittee to study the relationship between grades and the educational process.)

Written comments, due by Apr. 25, can be sent to Dr. Snyder, 216 Liberal Arts Tower, or to Mark Gurevitz, president of the Liberal Arts Student Council, Sparks Bldg.

University Park Calendar

April 3-13, 1975

Special Events

Thursday, Apr. 3 — FSHA 410 dinner, "Medieval England," 5:30 p.m., Maple Room. Human Development. Reservations requested, 865-7441.
Friday, Apr. 4 — Finals of cheerleading squads, 7 p.m., HUB ballroom.
Thursday-Saturday, Apr. 3-5 — University Theatre, "Jazz Dance Theatre in Concert," 8 p.m., Playhouse Theatre.
Friday, Apr. 4 — 5 o'clock "Clock Theatre," "Welcome to Oddfellows' Hall," 7:30 p.m., Walnut Bldg.
Friday, Apr. 4 — "History of Photography Week," gallery talk by Peter Bunnell, professor of the history of photography and modern art, Princeton University, on "Photography and Art in Our Time," 8:00 p.m., Zoller Gallery.
Friday, Apr. 4 — Marcus Chubbuck, piano recital, 8:30 p.m., Music Bldg.
Friday, Apr. 4 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern. "Phi Mu Alpha Dance Band," "Open Mike."
Saturday-Sunday, Apr. 5-6 — Women's Liberation art sale and display, 9 a.m.-5 p.m., Ballroom.
Saturday, Apr. 5 — Sports: Baseball, vs. Villanova, 2 p.m.; Lacrosse, vs. Drexel, 8 p.m.
Sunday, Apr. 6 — Artists Series, Waverly Consort, costumed production of "Las Cautivas de Santa Maria," 8:30 p.m., Schwab.

Sunday, Apr. 6 — Sports: Tennis, vs. Maryland, 2 p.m.
Sunday, Apr. 6 — Chapel Service, 11 a.m., Eisenhower Chapel. Professor James W. Hill, English.
Sunday, Apr. 6 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Monday, Apr. 7 — Robert Baisley and Philip Dettra, pianists, 8:30 p.m., Music Bldg. Recital hall.
Monday, Apr. 7 — Library seminar on methodology and problem solving, 7 p.m., Room W106 Pettie Library.
Tuesday, Apr. 8 — Ellen Stewart, of La Mama, etc., in a public program in conjunction with the Women and Creativity course, substituting for Pat Carroll, 8 p.m., Room 101 Kern.
Tuesday, Apr. 8 — "Town Day," a program sponsored by OTIS for townpeople and students, 2 p.m., Boucke, on these topics: "The Model Lease," Room 109; "Should Students Become Actively Involved in State College Government," Room 219; "Students' Effect on State College Economy and Employment," Room 319; "Transportation and the State College Community," Room 320.
Wednesday, Apr. 9 — The Spanish Theatre Repertory Company of New York in "El lugar donde mueren los mamíferos" [The Place Where the Mammals Die], 8 p.m., Schwab. The performance is

sponsored by the Department of Spanish, Italian and Portuguese.
Wednesday, Apr. 9 — Phil Delta Kappa Initiation ceremony for fifty new members, 5 p.m., HUB Auditorium, conducted by International President Howard M. Savelle, speaker, College of Education Dean Henry J. Hermenowicz, on "Social Ecology in Education."
Wednesday, Apr. 9 — USG panel discussion on "Mid-East Peace Possibilities," 8 p.m., HUB assembly room.
Wednesday, Apr. 9 — "Noonday's" devotional service, 12 noon, Eisenhower Chapel. Rev. Donel Davies.
Wednesday, Apr. 9 — Alerd String Quartet, 8:30 p.m., Music Bldg. recital hall.
Wednesday, Apr. 9 — Artists Series film, Charles Chaplin in "Limelight," 8:30 p.m., University Auditorium.
Wednesday, Apr. 9 — Sports: Baseball, vs. Lafayette, 3:30 p.m.
Wednesday-Thursday, Apr. 9-10 — FSHA 410 dinner, 5:30 p.m., Maple Room, Human Development. Wednesday, "Early France," Thursday, "Mexico," reservations required, 865-7441.
Thursday, Apr. 10 — GSA workshop, 7:30 p.m., Room 101 Kern.
Thursday-Saturday, Apr. 10-12 — NIAAD Show, Natorium, 10 p.m. Tickets at 105 White and Natorium.
Friday, Apr. 11 — Artists Series, Newark Boys Chorus, 8:30 p.m., University Auditorium.

Friday, Apr. 11 — Folk and Square Dance Roundup, 7:30 p.m., north gym, White.
Friday, Apr. 11 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern, Stan Sheperd.
Friday, Apr. 11 — Campus 4-H Club dance, 7:30 p.m., HUB ballroom.
Friday-Saturday, Apr. 11-12 — Sports: Nittany Lion Track and Field Relays, 1 p.m. Women's Nittany Lion Relays, 9 a.m.
Saturday, Apr. 12 — Sports: Golf, vs. George Washington, 1 p.m.; Lacrosse, vs. Syracuse, 8 p.m.
Saturday-Sunday, Apr. 12-13 — Hazelton Union Board Arts and Crafts Festival, noon to 4 p.m., HUB ballroom. Items for sale.
Saturday, Apr. 12 — 50th Annual Dairy Exposition dairy cattle judging, 9:30 a.m.
Sunday, Apr. 13 — Penn State Glee Club and Carlow College Choir, 1:30 p.m., Music Bldg. recital hall.
Sunday, Apr. 13 — Penn State Concert Blue Band program, 3 p.m., University Auditorium.
Sunday, Apr. 13 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Leon B. Hays, Pastor, Black Christian Fellowship.
Sunday, Apr. 13 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Apr. 3 — Agronomy, 8:30 p.m., Room 111 Tyson. Jim Shuford on "Nitrate-Nitrogen Movement and Distribution through Soil Profiles."
Thursday, Apr. 3 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Philip Hazen, Federal Highway Administration, on "Statewide Transportation Demand Forecasting."
Thursday, Apr. 3 — Physics, 3:35 p.m., Room 117 Osmond. John Johns, National Research Council, Ottawa, Ontario, on "Ultra-High Resolution Spectroscopy."
Thursday, Apr. 3 — Chemistry, 12:45 p.m., Room 333 Whitmore. George S. Wilson, University of Arizona, on "Electrochemical Studies of Cytochrome Redox Reactions."
Thursday, Apr. 3 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Carl E. Maser, Atmospheric Research Directorate, Environment Canada, Downsview, Ontario, on "Sources of Ozone at the Earth's Surface."
Thursday, Apr. 3 — Biophysics, 4 p.m., Room 617 Life Science I. Robert Riser, Laboratory of Viral Diseases, National Institute of Allergy and Infectious Diseases, NIH, on "SV 40 Transformations: Relation of Growth Properties to Tumor Promoter Activation Production and Cellular Tumorigenicity."
Thursday, Apr. 3 — Microbiology, 1 p.m., Room S2 Frear. Benjamin Appelbaum on "Plasmids in the Enterococcus." At 4 p.m., Room S2 Frear, Dr. W. McClain, bacteriology, University of Wisconsin, on "The Biosynthesis transfer RNA in Procarotys."
Thursday, Apr. 3 — Meteorology, 3:55 p.m., Room 26 Mineral Sciences. Dr. Douglas A. Paine, Division Atmospheric Sciences, Department of Agronomy, Cornell University, on "The External Gravity Wave and its Organization of Severe Convective Elements."
Thursday, Apr. 3 — Mathematics, 4 p.m., Room 115 McAllister. Marshall Cohen, on "Topology."
Thursday, Apr. 3 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Peter Harding, Brockway Glass Co., on "The Importance of Oxidation Reduction in Development and Control of Commercial Glass Colors."
Thursday, Apr. 3 — Analytical Chemistry, 8:30 a.m., Room 333 Whitmore. Andrew J. Stupper on "The Chemistry Department's Computer and its Application to Chemistry."
Friday, Apr. 4 — Individual and Family Studies, 3:45 p.m., Room 162 Willard. Professor Raymond G. Cattell, professor emeritus, University of Illinois, on "Hereditary-Environmental Research and its Social Implications."
Friday, Apr. 4 — Interscience, 4 p.m., Room 333 Whitmore. Stanley Dagley, biochemistry, University of Minnesota, on "A Biochemical Approach to Some Problems of Environmental Pollution."

Monday, Apr. 7 — Entomology, 4 p.m., Room 204 Patterson. John Wollam on "Evaluation of *Bacillus thuringiensis* Bernecker and the Parasitoid *Apanteles melanoscelus* (Ratzburg) as Potential Integrated Control Agents for the Gypsy Moth, *Porthetria dispar* (L.)."
Monday, Apr. 7 — New Communities, Architecture, 2 p.m., Room 322 Sackett. Orville Calkins, Building Technology Department of Housing and Urban Development, Washington, D.C., on "Potential Energy Conservation and Production Devices, and Methods of Energy Transmission for the New Towns Community of the Future."
Monday, Apr. 7 — Horticulture, 12:45 p.m., Room 10 Tyson. Jay C. Sheely on "Diagnosis of Nutritional Problems in Floriculture Crops Using Spectrographic Analysis."
Monday, Apr. 7 — Genetics, 3:55 p.m., Room 111 Tyson. Ken Rineer, on "Effects of Double Reduction on Breeding Autotetraploids."
Monday, Apr. 8 — Physiology, 3:45 p.m., Room 111 Life Science. Dr. N. N. Aronson, Jr., biochemistry, on "Glycoprotein Degradation by Rat Liver Lysosomes."
Tuesday, Apr. 8 — Solid State, 1 p.m., Room 333 Frear. Dr. Fred Strieler, Materials Research Lab. on "Lattice Dynamics of Crystalline Quartz."
Tuesday, Apr. 8 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond. Dr. Edward R. Kimmel on "Discussion of the Production and Use of Cemented Carbides."
Tuesday, Apr. 8 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Robert Seem on "Crop Growth Modeling: a Basis for Pest Management."
Tuesday, Apr. 8 — Physics, 3:35 p.m., Room 117 Osmond. J. W. Negele, Massachusetts Institute of Technology, on "The Equation of State of Neutron Star Matter."
Tuesday, Apr. 8 — Geosciences, 4 p.m., Room 26 Mineral Sciences. Lynn R. Sykes, Lamont-Doherty Geological Observatory, Columbia University, on "Seismological Studies of Eastern North America and Earthquake Prediction in China and Japan."
Tuesday, Apr. 8 — Comparative Literature, luncheon and discussion, 12:15 p.m., Presidential Room in the Corner Room. Speaker, Ellen Stewart.
Tuesday, Apr. 8 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. J. L. Anderson, Cornell University, on "The Hydrodynamic Mechanism of Osmotic Flow in Rigid Porous Membranes."
Tuesday, Apr. 8 — Solid Waste Management, 2:30 p.m., Room 140 Fenske. Jerome Goldstein, editor, "Compost Science," on "Citizen's Acceptance of Solid Wastes: New Value of Composting."
Wednesday, Apr. 9 — Remote Sensing, 2:25 p.m., Room 140 Fenske. Electrical Engineering West. Dr. Harold A. Weeden, civil engineering, on "A First Look at Urban Photography."

Thursday, Apr. 10 — Agronomy, 8:30 a.m., Room 111 Tyson. Richard Eshelman on "Concept of Ion Activities in Soil-Plant Systems."
Thursday, Apr. 10 — Physics and Astronomy, joint colloquium, 3:35 p.m., Room 117 Osmond. Edward E. Harrison, University of Massachusetts, on "Recent Developments in Cosmology."
Thursday, Apr. 10 — Chemistry, 12:45 p.m., Room 333 Whitmore. G. A. Somorjai, University of California, Berkeley, on "Elementary Steps of Catalytic Reactions on Metal Surfaces."
Thursday, Apr. 10 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Floyd Elder, Canadian Center for Inland Waters, Burlington, Ontario, on "Contamination of Water Bodies by Air Pollution."
Thursday, Apr. 10 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Harold Lecar, Laboratory of Biophysics, National Institute of Nervous Diseases and Stroke, on "Synthetic Excitable Membranes."
Thursday, Apr. 10 — Microbiology, 1 p.m., Room S2 Frear. Katherine D. Thompson on "The Defect in Translation of Poliovirus RNA at the Non-permissive Temperature" and at 4 p.m., Room S2 Frear, Nat Sternberg, NIH, Bethesda, on "Packaging of DNA by Bacteriophage Lambda."
Thursday, Apr. 10 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Ronald Abler, geography, on "Communication vs. Travel."
Thursday, Apr. 10 — Statistics, 4 p.m., Room 69 Willard. Lawrence A. Klimko, on "Maximum Likelihood Estimation with the Waibull and Lognormal Models."
Friday, Apr. 11 — Physical Chemistry, 4 p.m., Room 333 Whitmore. H. Handley, National Bureau of Standards, on "Molecular Dynamics of Calculation of the Thermodynamic Properties of Fluids."

Meetings

Friday, Apr. 4 — Penn State Circle K Club, 8:30 p.m., HUB assembly room. Film, "Learning Defects in Children." Open to the public.
Saturday, Apr. 5 — Penn State Model Railroad Club model building contest, Room 203 HUB. Models may be entered 10 a.m.-1 p.m. on day of contest.
Monday, Apr. 7 — EMS Student Council, 7:30 p.m., Room 22 Delke. Speaker, Mr. Joseph Corbi, Technical Associate to Penn State Vice-President of Exploration and Development of Gulf Oil Research, on "Employment Opportunities in Energy Company Research and Development."
Monday, Apr. 7 — USG Senete, 7 p.m., HUB assembly room.
Tuesday, Apr. 8 — College of Liberal Arts faculty, 3:30 p.m., Room 121 Sparks.
Tuesday, Apr. 8 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.
Tuesday, Apr. 8 — Penn State Chapter, American Society for Metals, 7:30 p.m., Room 301 Mineral Industries. G. Robert Mumma, Special Metals Corp., New Hartford, N. Y., on "Electroslag Remelting of Specialty Steels."
Saturday, Apr. 12 — Beha'l Club, 8:30 p.m., Room 112 Kern. Dr. Jane Fally, clinical psychologist, University of North Carolina, Chapel Hill, on "A New World Society." Public invited.

Films

Thursday-Sunday, Apr. 3-6 — ARHS series, "The Great Gatsby," 7:30 and 10 p.m., Room 102 Forum.
Wednesday, Apr. 9 — Commonsplace Theatre, "The Maltese Falcon," 7:30 and 9:30 p.m., Room 112 Kern.

WPXK highlights

Friday, April 4 — Lt. Gov. Edgar P. Kline and the executive director of the Pennsylvania Bicentennial Commission discuss plans for the observance at 7:30 p.m.; the same program may be seen Sunday, April 6, 3:30 p.m.
Sunday, April 6 — An hour-long documentary on the potential fish shortage because of modern technology in fishing, at 7:30 p.m. on "News."
Monday, April 7 — Joe Humphreys hosts a half-hour show, "Fly Fishing for Trout," filmed on Spring Creek, at 7:30 p.m.
Tuesday, April 8 — First of a two-part series following up the "Ascend of Man" series is titled "The Age of the Computer," exploring the role of the computer in introducing a new age of scientific and engineering discovery, at 6 p.m.
Thursday, April 10 — "The Ladies of the Corridor" on Hollywood Television Theatre, stars Gloria Leachman and Jane Wyatt, at 9 p.m.

Exhibits

Museum of Art — Works by Will Barnett, Gallery A. Selections from the Permanent Collection and Works on Paper. Gallery C. Zoller Gallery. "Invasion '75" — faculty-student portfolio. Edward Murybridge, a traveling exhibition, until April 12.
Picture Library — Photographs, "Faces of Prague," by Cynthia Bagnal.
Chambers Gallery — Brent Wilson, Leon Alters, art education, painting and sculpture, opening April 4.
Photography Gallery — 212A Arts Bldg. — Walker Evans Portfolio.
HUB Gallery — "Original Posters of the 1890's," French Embassy Exhibit, until April 6. "French Cheeses and Wine," French Embassy Exhibit, opening April 6.
Pollack Lounge — Design Class Projects, until April 8. Origami, opening April 9.

New Purchase Order forms in offing

On July 1, 1975, the University's Purchase Order form will have a new look and a new addition — a Receiving Report. Instructions for using the new Purchase Order and Receiving Report will appear in a General Forms Usage Guide release and summarized in a future issue of REPORTER. In addition, a flip chart presentation has been prepared. If you need to be briefed on the new procedure, contact your Financial Officer or call Systems and Procedures at 865-9568.

New Purchase Order forms will be provided by General Stores (exchanging unopened packs for new packs) during the month of April. Write a memo to General Stores stating the number of packs of old Purchase Orders you are returning, and the room number and building that the new packs are to be delivered to. General Stores drivers will pick up the memos and packs of old Purchase Orders during their regular deliveries, and return with new Purchase Order forms during their next delivery.

After July 1, the fact that a partial shipment has been received will be noted on a "Partial Receiving Report". This form will be available from Systems and Procedures at no charge by calling 865-9568 and requesting as many Partial Receiving Reports as necessary (padded in sheets of 100).

All new year orders MUST be on new Purchase Order forms. All current year orders must be on current Purchase Order forms.

High school scholars program Apr. 18

A new program to encourage and reward high scholastic achievement in Pennsylvania's secondary schools has been established by the University.

An estimated 550 high school students and their parents will visit the University Park Campus on Friday and Saturday, April 18 and 19, as part of the newly established Penn State Scholars Program.

The program is designed to recognize and encourage the excellent academic scholarship record and achievements of high school students and provide an opportunity for them to meet with Penn State faculty members and students concern-

ing career opportunities, academic programs, and other campus activities.

The students were nominated for the program by their high school principals as the top academic students in the junior class of their respective schools.

During the weekend, they will have the opportunity to experience college life, find out how Penn State is suited to their needs and interests, and complete for one of 30 new Penn State full-tuition, four-year scholarships.

All students participating in the program will receive special recognition, including an early offer of admission to the University.

Phi Psi 500 adds master's team race

A new twist has been added to the Phi Psi 500 race this year, with a division for Masters' Relay teams, meaning that teams of five men each may be entered to cover the race course if each of the men is over 30 years of age. The race will be staged on Saturday, April 20, at 2 p.m., starting from the fraternity house.

In the race the race is unfamiliar, it involves running 1.1 miles and stopping at six bars along the way for a draft of beer (or soft drink if you prefer), and the race is promoted by Phi Kappa Psi fraternity for the benefit of a local charity. This year, as last (when \$3,000 was raised for the purpose), the Centre County Day Care Center will receive the proceeds of the race, which come largely from entry fees and contributions.

Entry fee for the team event is \$25, and some teams will undoubtedly obtain the fee from local merchants who will be asked to sponsor individuals and teams in return for the advertising. (Another special event connected with the program is the race for public-professional groups, with entries already by the Philadelphia and State College police, Alpha Fire Co., and others. More entries in this division are welcome.)

There will be awards for the overall winner (regardless of age or condition) as well as the special events, with plaques as the prize. Each participant will also get an emblem.

Entries will be accepted even as late as the day of the race, but they may be

made by calling the house, 234-5555 or the chairman, Ray McCormick, 234-2469.

Oh yes, the winner last year made it in 8 minutes, 18 seconds, which is awfully good time, but a great many participants didn't care particularly; they had more time to enjoy themselves along the way.

There were 150 entrants last year and the community, as always, cooperated graciously and completely to control the traffic and crowd conditions. The gala day has always, six years in a row, had sunny skies.

NEWS —

(Continued from page one)

chini soup, soup with brains; Spanish roast with stuffed squash; black turtle beans with tacos; almond pudding; Mexican chocolate beverage. The charge is \$3.50 plus tax.

These meals are planned and prepared by the Food Service and Housing Administration 410 Class. Early reservations are advised.

ODDFELLOWS

Five O'Clock Theatre will open its spring season today, April 3, with Adrian Pinckney's "Welcome to Oddfellows Hall," adapted from the short story "Getting Out" by Jonathan Miller. The action takes place in a posh insane asylum and concerns a man's vain attempt to retain his sanity.

Vincent, a former writer now living in the asylum, is portrayed by Steve Shaffer, an 8th grade education major.

David Filson is making his debut at Penn State in the role of Van. David is a 6th term theatre arts major.

The house is 5th term theatre major Terri Campton.

Vincent's nephew, Sky, is played by David Snizky, also a theatre major. Sky's wife, Penny, is Laura Freeze who recently appeared as a chorus girl in the "Breasts of Tiresias".

Michael Ponder both directed "Welcome to Oddfellows Hall" and plays the part of the director. Ponder's play "The Boys" was produced by 5 O'Clock Theatre winter term.

Five O'Clock Theatre is moving to a new location, Walnut Building, for "Welcome to Oddfellows Hall." The show will run April 3, 4, 5, with all cutlins at 7:30 p.m.

ACM MEETING

The use of computers in photography will be discussed by Carl P. Palmer of the duPont Co. at the meeting of the Central Pennsylvania chapter, Association of Computing Machinery, at 7:30 p.m., Tuesday,

Presenting a versatility unexpected in a group as young as the Newark Boys Chorus, these youngsters will be featured on the Artists Series Friday, April 6.

Artists Series features boys' chorus

An unusual musical event will be the Artists Series presentation of April 11 (Friday) when the Newark Boys Chorus will feature everything from Renaissance to Rock in University Auditorium.

Tickets will be sold beginning Monday, April 7, at both the HUB and the auditorium.

Founded in 1966, the 32-voice interracial ensemble has excited listeners at music festivals and in concert halls all over the country. Some idea of their versatility can

be gained from the program they will sing here: works of early composers like Gallus and di Lasso; Leonard Bernstein's "Chichester Psalms"; Stevie Wonder hits; spirituals, gospels, and others in the folk idiom.

The program this weekend is in University Auditorium Sunday, April 6, at 8:30 p.m., with the Waverly Consort presenting "Las Cantigas de Santa Maria," in full costume. These are songs honoring the Virgin, collected during the 13th century by King Alfonso X, of Castile.

Naiads tickets for show Apr. 10-12

Tickets are currently on sale for the annual Naiads spring synchronized swimming show, this year to be titled "Country Watercolors" and performed April 10, 11 and 12 in the Natatorium, at 8 p.m. Tickets for adults are \$1 and for children 50 cents, and they may be purchased at the Natatorium from 8 a.m. to 10 p.m., and at Room

105 White Bldg. from 8 a.m. to 5 p.m. Thirty-five members of the Club will perform in 12 routines that have been choreographed by students themselves. The routines have such descriptive titles as "Wheelin' Along" (a trio of cyclists) and "Waterfall," an abstraction that involves a dozen swimmers.

April 15, in Room 26 Mineral Sciences. Palmer is a consultant to typesetters and newspapers, has written many articles and given many talks on the subject. He is manager of advertising production control/graphics, of the duPont Co.

HOVERCRAFT

Want to help build a hovercraft? Don't know what a hovercraft is? Then you might be interested in joining a group of students already making plans to construct and operate one, and a meeting will be held Saturday, April 5, at 10 a.m. in Room 169 Willard.

The entire effort is a Free-U project, which means that not only students but faculty, staff and non-University people may join in. Mike Monahan, assistant director of Free-U, and Richard Venberg, who was previously enrolled as an anthropology major, and who has already constructed a craft, will direct the construction.

Anyone who can drive a nail is welcome to join the group, and there will be work for anyone willing. The actual work will be done in a local garage, the tying on a nearby lake. Each person will be expected to contribute three days of work, and \$10-\$20. The reward will be a flight on the craft.

At present, the only holdup in the Free-U plans is the power plant. Mike and Rich hope someone will donate an engine. In the 3½-horsepower range. Rich's previous craft got off the ground with a 2½ h.p. engine. Mike's previous experience consists of a light over the English Channel, at a speed of 60 miles an hour.

Call the Free-U office, 863-0038 if interested.

AUCTION

A public auction will be conducted at the Surplus Warehouse (north of the Flower Gardens area) Saturday, April 5, at 10 a.m., with items including office equipment and furniture, electronic and electrical equipment, power tools, automobiles and trucks, and general equipment.

Blue Band soloist

Featured on the Penn State Concert Band program of Sunday, April 13, will be trombonist John Green. The program will be given in University Auditorium at 4 p.m. Green will play Mozart's Rondo from Concerto No. 3 in E-flat and with others a series of three light numbers. The program is free and open to the public.

HUB specials

Monday, April 7 — Lunch, American chop suey, \$1.97; dinner, scalloped chicken and noodles, \$3.96.
Tuesday, April 8 — Lunch, hot sausage bologna, \$1.15; dinner, spaghetti with meat balls, \$3.96.
Wednesday, April 9 — Lunch, chicken sandwich, \$1.30; dinner, beef and ham loaf, \$1.14.
Thursday, April 10 — Lunch, Joe Mazzoni's, \$2.00; dinner, Canadian bacon and hot potato salad, \$1.24.
Friday, April 11 — Lunch, luncheonburg on bun and soup, \$1.20; dinner, french fried perch, \$1.96.
Saturday, April 12 — Lunch, chili con carne, \$3.96; dinner, porcine meatballs, \$3.92.
Sunday, April 13 — Dinner, chopped steak, \$4.00; supper, lasagna, \$1.27.

WANTED: WOMEN INTERESTED IN A PHYSICAL CONDITIONING PROGRAM

Women volunteers (32-46 years of age) are wanted who are interested in participating in a 4-5 day/week physical conditioning and recreation program. All women must be relatively lean (i.e., under 120 pounds) or overweight (i.e., over 150 pounds).

The program will begin in April and end in August. Pre- and post-conditioning measurements will be made on all participants and will include a screening physical examination, as well as measures of: Body Fatness; Serum Lipids (Cholesterol and Triglycerides); Physical Fitness — Exercise Treadmill Test; Blood Pressure; and Other Measures of Heart and Lung Function.

If you are interested in participating, please call: Barry Franklin, Ph.D. Candidate (865-2432) BEFORE MONDAY, APRIL 7, 1975.

PENN STATE intercom

News in brief

AAUW BOOK SALE

The 14th annual Used Book Sale of the local chapter of the American Association of University Women will be held Monday-Friday, April 14-18, on both floors of Wesley Foundation, 256 E. College Ave., between the hours of 9 a.m. and 5 p.m. More than 25,000 paperback and hardbound books will be on sale at bargain prices, most of them collected locally in a recent drive. The collection is assembled by categories for easy browsing. Fiction, biographies, some collectors' items, sheet music, art prints, etc., are included. Through sales like this AAUW has aided in many fellowship programs and local educational projects.

FOOD PROFITS

A special seminar sponsored by the Food Science program Thursday, April 17, will feature a one-hour film, (an ABC News Close-up program), titled "Food: Green

Grow the Profits." The film will be shown at 2:20 p.m. and 7:30 p.m. in Room 117 Borland Lab, and discussion will follow. Coincidentally, April 17 is Food Day.

GOLF INSTRUCTION

Golf lessons, sponsored by the Faculty Women's Club, will begin the week of April 21. Joe Boyle, Penn State golf coach, will give a series of eight lessons, one a week, at the Blue Golf Course driving range. Classes will be held at various times during each week. Cost of the series of lessons will be \$16. For further information, contact Donna Ryman 237-1738 for beginner lessons, and Jean Hokanson 238-3442 for intermediate lessons.

FOOD COMPLEX CHANGES

A lecture on "Changes in the World Food Complex" will be given by William E. Barksdale, vice president of Cook Industries, Inc. Memphis, April 24 at 4 p.m. in Room 301 Agricultural Administration Bldg. He will discuss the changes taking place in the philosophy of feeding the hungry, the short- and long-term future of U.S. agriculture, and the opportunities

for more complete utilization of food and feed. Barksdale is a director of the Council for Agricultural Science and Technology (CAST), a member of the National Agricultural Marketing Association, National Investor Relations Institute, and Public Relations Society of America. Cook Industries is the third largest exporter of U.S. grains and oilseeds, and many of the speaker's comments will reflect his experiences with the international grain marketing system.

BLUE BAND CONCERT

The Penn State Spring Concert Band will give its annual Concert concert Sunday, April 13, at 4 p.m. (note that this is a change from the original schedule) in University Auditorium, featuring as soloist, trombonist Ubrle Green, considered "the most versatile of all top-ranking trombonists." The concert is free and open to the public.

INTERNATIONAL SHOW

A series of exhibits, in Kern Bldg. gallery, sponsored by International Student

(Continued on page four)

In a special evening session, an amendment is voted down

Senate rejects University-wide tenure-promotion policy

The University Faculty Senate rejected an amendment to proposed promotion and tenure policies which would have applied the policies on a University-wide basis.

The action, by a 12-vote margin, came after lengthy discussion in a special Senate session April 1 to examine the proposed policies developed by a Senate subcommittee.

In the subcommittee proposal, tenure and promotion policies are linked to five entities within the University — University Park, the Commonwealth Campus System, the College of Medicine at Hershey, the Capitol Campus and the Behrend College.

In proposing the amendment calling for retaining of University-wide tenure and promotion policies, Ernest Bergman, former Senate chairman, noted that Penn State is one university geographically dispersed.

"Each college has a different mission," he said, "and individual colleges should define standards on which to base promotion and tenure decisions for all faculty members."

Marvin E. Rozen, subcommittee chairman, said that the issue "is whether we have four or five different tenure entities." He said that "different doesn't mean better or worse," noting that "this implication is contrary to the spirit in which the document was developed."

"There are distinct populations," he added, "and it is impossible to lump them under a single standard. We can't have a single standard covering such diverse groups."

Evelyn Hovanec, Fayette Campus senator, said that if there is a difference in Commonwealth Campus faculty members it is one of function and geography, adding

that Commonwealth Campus faculty "would not get a fair shake" under the subcommittee proposal.

Speaking in support of the subcommittee proposal, Richard G. Cunningham, vice president for research and graduate study, said it is "far more honest, realistic and eminently fair."

"The respect of any institution in the long run," he said, "is built on quality of faculty in terms of scholarly output. The future of that will be seriously harmed by combining tenure and promotion policies for Commonwealth Campus faculty members with University Park faculty."

If this type of system were accepted and honestly applied, he added, it "would inevitably result in fewer promotions and fewer tenure awards at the Commonwealth Campuses."

In a related action, the Senate referred to the Faculty Affairs Committee for further study of a proposed amendment that would provide a role for the Commonwealth Campus directors in promotion and tenure review procedures.

This amendment and others are to be brought before the Senate at its May meeting when action on the entire document is to be taken.

Earlier in the day at its regular meeting, the Senate discussed at length a proposal to revise its committee structure. The proposal stems from recommendations of the Governance Committee calling for a committee structure that is strengthened in functions and possesses more delegated authority.

Lee W. Saperstein, chairman of the subcommittee which developed the plan, said that, in line with the Governance recommendations, the proposed committee structure more closely parallels the University administrative structure.

He said it also is designed to provide University Faculty Senate advisory groups to the administration and to give more ex-officio memberships on committees to administrators.

Under the plan, the Intra-University Relations Committee would be raised in sta-

(Continued on page four)

Leader in modern dance to speak

A leader in the efforts to create and formulate an aesthetic for modern dance, Valentina Litvinoff, will present a public lecture-demonstration Wednesday, April 16, at 8 p.m. in White Bldg.

Miss Litvinoff has made her mark both as a dancer and choreographer. Now director of the Dance and Drama Center, a studio in New York City, she has appeared in concert performances with her own group and as soloist in theatres and on television.

She has done much choreography for the theatre, her credits including "Dark of the Moon," "Mad Woman of Chailiot," "Johnny Belinda" and "Gigi."

Author of the book, "The Use of Stanislavsky within Modern Dance," Miss Litvinoff has been director of the Dance Workshop at Brandeis Youth Institute, director of the Gateway Theatre School's dance department and choreographer at the Southold Playhouse.

As a child in Russia, she was one of the Isadora Duncan dancers. In this country, she graduated from the Neighborhood Playhouse Studios and danced with Martha Graham, Louis Horst and the Humphrey-Weldon troupes. She studied the Mary Wigman technique as well as ballet, folk and ethnic forms.

Her White Bldg. appearance is being sponsored by the Dance Club and the Institute for the Arts and Humanistic Studies. Miss Litvinoff is on campus as a guest lecturer for a new course on "Women and Creativity."

Weinberg speaks on nuclear energy

Dr. Joseph Weinberg

One of the nation's leading nuclear power experts, Dr. Alvin M. Weinberg, will speak at a colloquium Thursday, April 17 at 3:45 p.m. in Room 119 Osmond.

The talk, sponsored by the departments of physics and nuclear engineering, is open to the public free of charge.

Dr. Weinberg, who in 1971 originated the idea of clustering nuclear reactors and their sub-systems in nuclear parks, will discuss "Is Nuclear Energy Acceptable?"

Director of the Oak Ridge National Laboratory for more than a quarter century, Dr. Weinberg retired on Jan. 1, 1974 and became director of the Federal Energy Administration's Office of Energy Research and Development. Immediately prior to the Washington post, he served very briefly as director of a small think tank, the Institute for Energy Analysis, which he set up at Oak Ridge and where he is now working.

An interdisciplinary program

Medieval world colloquium underway

An interdisciplinary colloquium on "The Medieval World" is being held this week, concluding Saturday, April 12. The sessions are all in Room 402 of the J. Orvis Keller Bldg. at the University.

The colloquia, all of which are open to the public, are sponsored by the Interdisciplinary Program in the Humanities (established under a grant from the National Endowment for the Humanities) and participating departments of the College of the Liberal Arts.

The colloquium will open April 9 at 8 a.m. with a talk by Jean Leclercq, Abbot of Clervaux, on "The Case Study of a Twelfth Century Abbot: William of Saint-Thierry, a Psycho-Historical Approach." Penn State faculty will chair each session, with Dr. Joseph J. Kockelmans, professor of philosophy, presiding at the first one. Two talks will be presented April 10. At 10 a.m., Professor Brian Tierney of Cornell University will discuss "Medieval Constitutionalism: Ideas and Realities," with Dr. James Ross Sweeney, assistant pro-

fessor of history, as chairman.

At 3 p.m., Professor David Herlihy of Harvard University, will talk on "What We Know About Medieval Marriage," with Dr. Gerard J. Brault, professor of French, as chairman.

At the April 11 sessions, at 10 a.m., Professor John Leyerle of the University of Toronto will speak on "The Game and Play of Courtly Love." Dr. Robert W. Frank, Jr., professor of English, is chairman.

The 3 p.m. speaker is Professor Harry Bober of New York University, who will treat "The Imagery of Mysticism and Mystical Revelation in a Gothic Illuminated Manuscript." Anthony Quirk, professor of art history, will serve as chairman.

A final session will be held April 12 at 10 a.m. The speaker is Professor Edward Synan of the Pontifical Institute, Toronto, Canada. His topic will be "Love of Wisdom in the Middle Ages," and the chairman of this session is Dr. Alan E. Knight, associate professor of French.

Matson elected AIA president

Dr. Frederick R. Matson, research professor of archaeology, has been elected president of the Archaeological Institute of America for a two-year term.

The Institute, with a membership of over 6,000, has 81 local societies throughout the United States and Canada and publishes two professional magazines, "American Journal of Archaeology" and "Archaeology."

A member of the faculty since 1948, Dr. Matson was first appointed as a professor of ceramic in 1953; he was named professor of archaeology and from 1957 to 1966 also served as an assistant and associate dean for research and graduate study in the College of the Liberal Arts. He has lectured throughout the world, and last fall served as Walker-Ames Professor at the University of Washington. He is a research collaborator at Brookhaven National Laboratory where he is working on neutron activation analyses of Egyptian and Near Eastern clays and pottery.

Dr. Edwin W. Mueller, Evan Pugh Professor of Physics, was one of 86 American engineers and scientists elected to membership in the prestigious National Academy of Engineering last week. The Academy is a private organization established in 1964 to encourage engineering research for the Federal Government. The total membership now stands at 587.

C. Herbert Wheeler, professor of architectural engineering, has been elected to the College of Fellows of the American Institute of Architects, a lifetime honor bestowed for outstanding contributions to the profession. He is one of 61 persons who will be inducted May 19 at the annual convention of the A.I.A. in Atlanta. His primary contribution to the profession has been in the field of advanced education for managers of architectural and engineering firms. He has been a member of the Penn State faculty since 1964, and he teaches and coaches the architectural engineering seniors as instructor of the professional practice course, as supervisor of the senior thesis projects program, and as career counselor.

Dr. Ke Chung Kim, associate professor of entomology, has received an N.S.F. grant of \$15,200 to take part in environmental impact studies for chemical plants in heavy industrial centers, at Seoul National University, Korea. He is one of 20 U.S. scientists and engineers who have been given awards for teaching and research in developing countries in Africa, Asia, and Latin America. The grants were made under the SEED Program (Scientists and Engineers for Economic Development).

Dr. John A. Lucas, professor of physical education, has been elected a Fellow of the American Academy of Physical Education, and he has also received an honor from the Eastern District of the American Alliance for Health, Physical Education and Recreation in the form of a gold medal for completion of a history of the District, two years in the making. A member of the faculty since 1962, he was head track coach here for seven years, now devoting his energies to research, teaching and writing. He is the third Penn State faculty member to be named Fellow of the AAPE.

In writing

Dr. Peter C. Jurs, associate professor of chemistry, is co-author, with Dr. Thomas L. Isenhour, University of North Carolina, of "Chemical Applications of Pattern Recognition," published recently by John Wiley and Sons. It is said to be the first published work concerning application of pattern recognition techniques to chemical data and problems. It introduces new methods for handling chemical data when using computers and therefore presages new developments in chemistry paralleling benefits that have occurred in electrical engineering, weather predicting, and other areas. Pattern recognition systems known as "learning machines" are given major attention; these are defined by their capacity to increase their capability for producing correct responses for classification tasks as the experience increases. The book is considered an important work for analytical chemists, spectroscopists, and others interested in the scientific applications of computers.

Funding Opportunities

For procedural and funding source information, call 865-1322.

April 10, 1975

(174-1) The Office of Education has established a May 1, 1975 application deadline date for Special Projects under its Community Service and Continuing Education program. Priorities include: educational experiments with special-interest groups in community problems such as consumer affairs, regional or national energy policy, and environmental pollution; development of institutional educational models to increase access for women, "innates," elderly, and handicapped; demonstration of effective programs to combat technological unemployment; development of town-gown cooperation for urban research and training of local government officials; and evaluation of continuing education programs. This information has been distributed. (Ref. 40FR13021-23, 3/24/75) (CFOA 13.557)

(174-2) Apply for institutional grants and fellowships for public service (Office of Education) before May 5, 1975. Institutional grants establish, strengthen, and improve programs designed to prepare graduate and professional students for public service. The fellowship program supports graduate and professional students preparing for public service careers. Priority will be given to on-going public service programs with some consideration to new programs and to those programs emphasizing preparation of students for service in local and state government. Some federal employment of consultants is included. This information has been distributed. (Ref. 40FR13021-22, 3/24/75) (CFOA 13.555)

(174-3) The National Institute of Education (NIE) has issued proposed rules for its State Dissemination Grant Program, which has the goal of improving educational practice (including opportunities for minorities and women). Awards will be made to state and local agencies for "specific building grants" and "special purpose grants." Under the latter, training of staff and employment of consultants is included. The next application closing date is April 20, 1975. This program is part of the NIE Education Research and Development Program which includes basic and applied research, planning, surveys, and demonstrations. This information has been distributed. (Ref. 40FR12671-74, 1/29/99-70, 3/27/75) (CFOA 13.575)

(174-4) Certification of the scope of Environmental Education Projects has been issued by the Office of Education. Specifically excluded from coverage are traditional learning approaches to conservation and resource use, environmental science, nature study, outdoor education, or education. This information has been distributed. (Ref. 40FR12990, 3/24/75) (MFOA 13.522)

(174-5) Technical assistance proposals for child service demonstration centers (for those with learning disabilities) have a May 6, 1975 closing date. This information has been distributed. (Ref. 40FR12971-72, 3/25/75)

(174-6) Regulations for projects for material and child health and crippled children's services to institutions of higher education have been issued by the Division of Public Health. The goals are improved maternal and child health services for crippled children, and training for personnel dealing with health care and related services for the disabled. This information has been distributed. (Ref. 40FR12799-92, 3/27/75)

(174-7) Regulations for Nursing Special Grant projects have been issued by OHEW/PHS. Applications and instructions may be obtained from the Regional Health Administration, OHEW, Box 132, 12th and Market Sts., Philadelphia, Pa. 19101 (215-597-6482). This information has been distributed. (Ref. 40FR12791-83, 3/27/75)

(174-8) Postdoctoral fellowships are available for research training in areas related to heart and vascular disease. Stipends range from \$10,000 to \$13,200. Research includes: epidemiology, biostatistics, behavioral sciences, metabolism, physiology, pathology, nutrition, clinical investigation, chemotherapy, protein and immunohistochemistry, bioengineering, and genetics. Next deadlines are May 1 and 15, 1975. Contact: Dr. Max Heinrich, Jr., Menninger Branch, O.V. of Heart and Vascular Diseases, NH 1, Landon-Oldie, Room C-816, Bethesda, Md. 20814 (1-406-6846). (Ref. West. S.T., 3/24/75)

Intercom article is corrected

The March 20 issue of INTERCOM contained an article titled "At Capitol, students get involved: learn of problems of researchers."

The article was in error on many counts, crediting the Capitol Campus with a program which took place at University Park and failing to state that the program was that of Dr. A. H. Madjid, associate professor of physics, in the Thermionic Emission Laboratory. Dr. Joseph Pedulla, now assistant professor of physics at Capitol Campus, whom the article credited with the program of undergraduate involvement in research, was one of the graduate students in Dr. Madjid's laboratory.

Dr. Madjid points out that "starting about 66/69, I began to open my laboratory (the Thermionic Emission Lab which he started in 1967) to deserv-ing undergraduate students from the Science, Engineering, Liberal Arts and other curricula by involving them, within a variable credit special topic course, in simple ancillary studies within the research projects which were conducted at the Thermionic Emission Laboratory."

These undergraduate students, Dr. Madjid adds, generally worked under the immed-

iate direction of his senior graduate students, but under his own overall supervision. The aim was to demonstrate to the undergraduate that scientific research is an interesting and challenging task and not, as many initially believed, an uninteresting and inhuman occupation.

"On the part of the graduate student," Dr. Madjid says, "the program taught how to exercise scientific leadership and how to execute research planning successfully."

"Sixteen graduate students participated in this program; one of these sixteen was Joseph Pedulla," Dr. Madjid says. "His participation was indeed vigorous and enthusiastic and full credit should be accorded to him for his contribution to the success of this unstructured course. He contributed as a graduate student and not as a faculty member."

The INTERCOM article mentioned an "American Journal of Physics" article concerning the program of undergraduate involvement. The article was prepared by Dr. Madjid, Joseph Pedulla, and Drs. W. F. Anderson, Jr., and J. J. Martinez, both of whom were also graduate students in the Laboratory and who along with Dr. Pedulla and others were involved in the undergraduate research program.

Martha Graham Dance Co. Apr. 17-19

Yuriko Kiumura and Daniel Maloney perform "Embellished Garden" with Martha Graham Dance Co.

Tickets for two of the three performances of the Martha Graham Dance Co. on the Artists Series April 17, 18 and 19 are currently on sale at the HUB and at University Auditorium. Season ticket holders will attend the April 17 performance, and these tickets were sold out early.

Three different programs will be performed by the Company, the Friday and Saturday (April 18 and 19) programs including the famed "Appalachian Spring" dance, one of Miss Graham's interpretations of the spirit of pioneer America.

Now 81 years of age, Miss Graham has spent a half-century as dancer and choreographer. She continued to dance, in fact, until 1969, when illness forced her to stop.

The 24-member troupe will perform a variety of dances, some of which are described as "dance dramas" and "great theatre."

This Friday (April 11), the Newark Boys' Chorus is giving a program in University Auditorium, at 8:30 p.m. Tickets are likely all sold at this date.

Three Alumni Fellows to visit

Three prominent alumni will visit the University next week as Alumni Fellows.

—Dr. Murray C. Munkin, retired manager of market development for U.S. Steel Corp., Agri-Chemicals, Atlanta, Ga., will visit April 13-17 as a Fellow in the College of Agriculture.

—Herbert Beckhard, noted architect with Marcel Breuer and Associates, New York City, will visit the College of Arts and Architecture April 15-17.

Glee Club has program Apr. 13

The Penn State Glee Club and the Carlow College Concert Choir, 110 combined men's and women's voices, will join to present the first area performance of Stravinsky's "Les Noces" at 1:30 p.m. Sunday, April 13, in the Music Bldg. reed hall on the University.

The 1917 work, to be performed in the English version, is scored for chorus, four soloists, four pianos, and six percussionists and is among the most rigorous and challenging compositions by the master composer. Originally done as a ballet, the work portrays scenes from a Russian peasant wedding in four tableaux, at the bride's chamber, the groom's home, the departure for the wedding, and the marriage festivities.

Also to be performed by the Glee Club, directed by Bruce Trinkle, is Copland's "Old American Songs," six songs dating from the 19th century. The women's choir will perform Poulenc's "Litanies to the Black Virgin," "Four Cummings Choruses," poetry by "E. E. Cummings set by Persichelli, and "Mass in C. Sharp Minor," written by the Carlow Choir director, John Lively.

—Maj. Gen. Walter R. Knoch, former White House physician now with the Office of the Command Surgeon, Andrews Air Force Base, Md., will visit both the College of Science and the Milton S. Eshelby Medical Center in the period of April 15-17.

Dr. C. Munkin, who received three degrees from Penn State, is a past member of the Governor's Agricultural Advisory Council and a former president of the Penn State Agricultural Alumni Association. He holds honorary membership in the Pennsylvania County Agricultural Agents Association and received the Honorary State Farmer degree of the State Future Farmers of America. He now resides in Beltsville.

Beckhard has received numerous awards for architectural excellence. His close collaboration with Marcel Breuer has resulted in such awards as the American Institute of Architects Honor Award for 1972 for the design of the Jacques Koerfer House on Lago Maggiore in Ascona, Switzerland. A year later, they won another Honor Award for their design of St. Francis deSales Church in Muskegon, Mich., making the duo the only Honor Award recipients to be honored two years in a row. He was a member of the Penn State Class of '49.

Gen. Knoch, a Distinguished Alumnus of the University, was graduated from the University in 1941, then attended Pitt Medical School. He served as physician to President Nixon and headed the White House Clinic. He served in Vietnam as command surgeon for Headquarters, 7th Air Force. Gen. Knoch holds the rating of chief flight surgeon and his military decorations include the Legion of Merit, Bronze Star Medal, Air Medal, Air Force Commendation Medal and the White House Service Medal.

Vol. A, No. 30
Penn State INTERCOM is a weekly publication for the academic community of The Pennsylvania State University, published each Thursday when classes are in session. General information and items for the calendar should be sent to the editor by Thursday of the week preceding publication date, Room 312 Old Main.
Editor: W. F. Ackerman
Phone 865-7372

University Park Calendar

April 10-20, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Thursday, Apr. 10 — Poetry reading by Michael S. Harper, Brown University, 8 p.m., Room 112 Kern, sponsored by department of English, Black Cultural Center, and Graduate Student Association.
Thursday, Apr. 10 — FSHA 410 dinner, "Mexico," 5:30 p.m., Maple Room, Humanities Department. Reservations required, 865-7441.
Thursday, Apr. 10 — GSA workshop, 7:30 p.m., Room 101 Kern.
Thursday-Saturday, Apr. 10-12 — NAIAD Show, Natatorium, 8 p.m. Tickets at 105 White and Natatorium.
Friday, Apr. 11 — Artists Series, Newark Boys Chorus, 8:30 p.m., University Auditorium.
Friday, Apr. 11 — Folk and Square Dance, 7:30 p.m., north gym, White.
Friday, Apr. 11 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern, Stan Shepherd.
Friday, Apr. 11 — Campus 4-H Club dance, 8:30 p.m., HUB ballroom.
Friday, Apr. 11 — Operation Skywatch, 7:30-10 p.m., Davey Lab, weather permitting. If skies not clear, postpone to next night.
Friday-Saturday, Apr. 11-12 — Sports: Military Lion Track and Field Relays, Beaver Stadium, 1 p.m., Friday, Saturday, 9 a.m.
Saturday, Apr. 12 — Dr. Jane Fally, clinical psychologist, University of North Carolina, on "A New World Society," 8:30 p.m., Room 112 Kern, Sponsored by the Bahai! Students Association.

Saturday, Apr. 12 — Sports: Golf, vs. George Washington, 1 p.m.; Lacrosse, vs. Syracuse, 8 p.m.

Saturday-Sunday, Apr. 12-13 — Hetzel Union Board Arts and Crafts Festival, noon to 4 p.m., HUB ballroom. Items for sale.

Saturday, Apr. 12 — 50th Annual Dairy Exposition dairy cattle judging, 9:30 a.m.
Sunday, Apr. 13 — Penn State Glee Club and Carlow College Choir, 1:30 p.m., Music Bldg. recital hall.

Sunday, Apr. 13 — Penn State Concert Band Band program, 4 p.m., University Auditorium.

Sunday, Apr. 13 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Leon B. Hall, Pastor, Black Christian Fellowship.

Sunday, Apr. 13 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Apr. 14 — Mary Ann Frazier, organ recital, 8:30 p.m., Music Bldg. recital hall.

Monday, Apr. 14 — Library seminar on methodology and problem solving, 7 p.m., Room W106 Pattee Library.

Monday, Apr. 14 — Sports: Women's soccer and softball round robin tournaments begin; soccer 6 p.m., softball, 6:30 p.m.

Tuesday, Apr. 15 — Gallery talk by Carl Christian Dauterman, Metropolitan Museum of Art, on "The Royal Manufactory at Sevres," 10:30 a.m.; Museum of Art.

Tuesday, Apr. 15 — Sports: Baseball, vs. Bucknell, 8:30 p.m.
Tuesday, Apr. 15 — Artists Series film, Ingmar Bergman's "Winter Light," 8:30 p.m., University Auditorium.

Tuesday, Apr. 15 — PI Lambda Theta, program and initiation, 7:30 p.m., Rooms 102 and 112 Kern.

Wednesday, Apr. 16 — "Moondays" devotional service, 12 noon, Eisenhower Chapel, Rev. Robert Boyer.

Note: the program of music by Musica da Camera, scheduled originally April 16, has been changed to Thursday, May 1 at 8:30 p.m. in the Music Bldg. recital hall.

Wednesday, Apr. 16 — University Theatre student preview, "Jim Dandy," 8 p.m., Pavilion Theatre.

Wednesday, Apr. 16 — Hiller rally for Israel independence, 7:30 p.m., HUB ballroom.

Wednesday, Apr. 16 — Valentine Litvinoff, choreographer, lecture-demonstration, 8 p.m., White Bldg.

Wednesday-Thursday, Apr. 16-17 — FSHA 410 dinner, 5:30 p.m., Maple Room, Human Development. Wednesday, "United States," Thursday, "Japan." Reservations required, 865-7441.

Thursday, Apr. 17 — Food Science program, film, "Food: Green Grow the Plants" (ABC News Close Up), 2:20 and 7:30 p.m., Room 117 Berntsen Lab. Discussion follows.

Thursday, Apr. 17 — GSA garden plot workshop, 7:30 p.m., Room 112 Kern.

Thursday-Saturday, Apr. 17-19 — Artists Series, Martha Graham Dance Company, 8:30 p.m., University Auditorium.

Thursday-Saturday, Apr. 17-19 — Penn State Aquatic Institute, Natatorium.
Thursday-Saturday, Apr. 17-19 — University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.

Thursday-Friday, Apr. 17-18 — Phi Delta Kappa and Pennsylvania Educational Research Association Conference, Conference Center.

Friday, Apr. 18 — Sharon Brook, piano recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Apr. 18 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Friday, Apr. 18 — Men's tennis, vs. Bloomsburg, 2 p.m.

Saturday, Apr. 19 — Men's track, vs. Kent State, 1:30 p.m. Women's track vs. Pitt and Western Pa. Track Club.

Sunday, Apr. 20 — Kathryn Cowdick, vocal recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Apr. 20 — Chapel Service, 11 a.m., Music Bldg. recital hall. Dr. Norman R. Dixon, professor of higher education, University of Pittsburgh.

Sunday, Apr. 20 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Sunday, Apr. 20 — Men's tennis, vs. East Stroudsburg, 2 p.m.

Seminars

Thursday, Apr. 10 — Man-Environment Relations, 4 p.m., S131 Human Development, Dr. Samuel Klausner, U. of Pennsylvania, on "Energy and the Poor."

Friday, Apr. 11 — Ecology, 9:30 a.m., Room 111 Tyson. Richard Eshelman on "Concept of Ion Activities in Soil-Plant Systems."

Friday, Apr. 10 — Physics and Astronomy joint colloquium, 3:35 p.m., Room 117 Osmond, Edward E. Harrison, University of Massachusetts, on "Recent Developments in Cosmology."

Friday, Apr. 10 — Chemistry, 12:45 p.m., Room 333 Whitmore. G. A. Somorjai, University of California, Berkeley, on "Elementary Steps of Catalytic Reactions on Metal Surfaces."

Friday, Apr. 10 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Floyd Elder, Cambria Center for Inland Waters, Burlington, Ontario, on "Contamination of Water Bodies by Air Pollution."

Friday, Apr. 10 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Harold Land, Laboratory of Biophysics, National Institutes of Health, on "Synthetic Excitable Membranes."

Friday, Apr. 10 — Microbiology, 1 p.m., Room S2 Frear, Katherine D. Thompson, on "The Defect in Translation of Poliovirus RNA at the Non-permissive Temperature;" and at 4 p.m., Room S2 Frear, Dr. Nat Sternberg, NIH, Bethesda, on "Packaging of DNA by Bacteriophage."

Friday, Apr. 10 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Ronald Abler, geography, on "Communication vs. Travel."

Friday, Apr. 10 — Statistics, 4 p.m., Room 62 Wise, Lawrence A. Klimko, on "Maximum Likelihood Estimation with the Weibull and Lognormal Models."

Friday, Apr. 10 — Mathematics, 4 p.m., Room 15 McAllister. Dr. G. Glauber, on "Innovations on Transportation Systems for New Towns."

Friday, Apr. 11 — Physical Chemistry, 4 p.m., Room 333 Whitmore. H. Handley, National Bureau of Standards, on "Molecular Dynamics of Calculation of the Thermodynamic Properties of Fluids."

Friday, Apr. 11 — New Communities, Architecture, 2 p.m., Room 322 Sackett. Dr. John Dickey, Director of Center for Urban and Regional Studies, Virginia Polytechnic Institute and State University, on "Innovations on Transportation Systems for New Towns."

Friday, Apr. 11 — Genetics, 3:55 p.m., Room 111 Tyson. Gordon Buswell on "Techniques for Studying Anthocyanin Inheritance in Plants."

Friday, Apr. 11 — Horticulture, 12:45 p.m., Room 10 Tyson. Franz A. Blazich on "Cold Resistance and Injury in Woody Plants."

Tuesday, Apr. 15 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Rick Latton on "Estimation of Yield Loss Due to Disease."

Tuesday, Apr. 15 — Geosciences, 4 p.m., Room 26 Mineral Sciences. John M. Denison, University of North Carolina, AAPG Distinguished Lecturer, on "Influence of Eustatic Sea-Level Changes on Oil and Gas Accumulations in the Appalachian Basin."

Tuesday, Apr. 15 — Operations Research, 3:45 p.m., Room S-131 Human Development. Dr. E. Emory Ensore, on "An EOQ Model when Production Standstards are Assumed to be Non-distributed."

Tuesday, Apr. 15 — Agricultural Communications, 7:30 p.m., Room 301 Agricultural Communication. Sue Benedetti and Gary Nugent, Extension Service-U.S.D.A., on "Youth/4-H Information and News."

Tuesday, Apr. 15 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. J. E. Lane, CSIRO, Australia, on "A Short History of Surface Science."

Tuesday, Apr. 15 — Solid State, 3:45 p.m., Room 250 MRL. Dr. E. W. Mueller, physics, on "Observations of Surfaces by Field Ion Microscopy."

Tuesday, Apr. 15 — Solid Waste Manage-

ment, 2:20 p.m., Room 140 Fenske. Joseph Bern, Vice President for Research and Development, U.S. Utilities Corp., Monroeville, on "Hazardous and Industrial Wastes: Telling It Like It Is."

Wednesday, Apr. 16 — Fuel Science and Acoustics joint seminar, 4 p.m., Room 301 Mineral Industries. Dr. Leonard G. Austin, fuel science, on "Mechanical Properties of Coal."

Wednesday, Apr. 16 — Remote Sensing, 2:30 p.m., Room 225 Electrical Engineering West. Film, "To Water by Air," a demonstration of the use of remote sensing techniques to prospect for water.

Thursday, Apr. 17 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Charles Hoppe, U.S. Railway Association, on "USRA's Planning for Passenger Service."

Thursday, Apr. 17 — Physics and Nuclear Engineering joint colloquium, 3:35 p.m., Room 17 Osmond. Alvin M. Weinberg, Director, Energy Research and Development Office, Washington, D.C., on "Is Nuclear Energy Acceptable?"

Thursday, Apr. 17 — Agronomy, 8:30 a.m., Room 111 Tyson. Joe Smith on "A Source of Male Sterility in Mating Barley."

Films

Thursday-Sunday, Apr. 10-13 — Centre Cinema, "Jonathan Livingston Seagull," 7:30 and 10 p.m. Thursday, Simmons lounge, Friday-Sunday, Room 105 Forum.

Monday, Apr. 14 — French Department film series, "Ophuls' 'La Ronde,'" 7 and 9 p.m., Room 112 Kern.

Wednesday, Apr. 16 — Commonsplace Theatre, "Citizen Kane," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, Apr. 17 — Centre Cinema, "Last Tango in Paris," 7:30 and 10 p.m. Thursday, Simmons lounge, Friday-Sunday, Room 102 Forum.

MEETINGS

Monday, Apr. 14 — USG Senate, 7 p.m., HUB assembly room.

Monday, Apr. 14 — Education Student Council, 7 p.m., Room 123 Chambers.

Monday, Apr. 14 — OTIS, 6:30 p.m., Room 20 HUB.

Monday, Apr. 14 — APES (Anthropology Promotion and Enrichment Sodality), 7 p.m., Room 113 Social Science. Speaker Dr. Eugene Borszta, history, on "The Reality of Planets."

Tuesday, Apr. 15 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.

Tuesday, Apr. 15 — Senate Committee on Academic Affairs, 8 a.m., Room 101 Kern.

Tuesday, Apr. 15 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Tuesday, Apr. 15 — Central Pa. Chapter of the Association of Computing Machinery, 7:30 p.m., Room 26 Mineral Sciences. Carl P. Palmer on computers in photography.

Wednesday, Apr. 16 — USG Academic Assembly, 7:30 p.m., Room 351 Willard.

Wednesday, Apr. 16 — A.P.E.S. (Anthropology Promotion and Enrichment Sodality), 8 p.m., HUB Reading Room. "Cultural Perspectives on Women" series, with speaker Dr. Warren Morril, anthropology.

Thursday, Apr. 17 — Faculty women of College of Education, coffee, 10 a.m., Room 101 Kern. Speaker, 11 a.m., Room 112 Kern.

Thursday, Apr. 17 — Department of Economics faculty, 2 p.m., Room 101 Kern.

Friday, Apr. 18 — AIAA Central Pennsylvania Section, 4 p.m., Room 232 Hammond. Professor Iorio Tanki, Professor Emeritus, University of Tokyo, on "Some Application of Weakly Nonlinear Stability Theory to the Problems of Boundary-Layer Transition."

Lecture

Interdisciplinary Colloquium on The Medieval World April 10-12, Room 402 Keller.

Thursday, Apr. 10 — Brian Tierney, Cornell University, "Medieval Constitutional Ideas and Realities," 10 a.m.

Thursday, Apr. 10 — David Herlihy, Harvard University, on "What We Know about Medieval Marriage," 3 p.m.

Friday, Apr. 11 — John Layer, University of Toronto, on "The Game and Play of Courtly Love," 10 a.m.

Friday, Apr. 11 — Harry Boker, New York University, on "The Imagery of Mysticism and Mystical Revelation in a Gothic Illuminated Manuscript," 3 p.m.

Saturday, Apr. 12 — Edward Sydnor, The Pontifical Institute, Toronto, on "Love of Wisdom in the Middle Ages," 10 a.m.

Tuesday-Thursday, Apr. 15-17 — Health Planning and Administration, 4 p.m., Room 117 Human Development, Dr. John Dewdney, University of New South Wales. Tuesday on "New Guinea: With Doctors or Which Doctors?" Wednesday on "The Fed vs. the States: Australian Health Services." Thursday on "Australia's Health Services — Non-socialized Medicine."

Thursday, Apr. 17 — Dottener Lecture, 8 p.m., Room 112 Kern. John N. Findlay, professor of philosophy, Boston University, on "The Good, the Mind, and the Soul in Platonic Teaching."

Exhibits

Museum of Art — Works by Will Barnett, Gallery A. Selections from the Permanent Collection, Gallery B. Lee Krasner, Collages and Works on Paper, Gallery C.

Zoller Gallery — "Invisions 1975" — faculty-student portfolio. Edwardward Mui-bridge, a traveling exhibition, until April 12. April 14-26, photographs and American paintings of Steven Dohanos.

Pattee Library — Photographs, "Faces of Prague," by Cynthia Begnal, through April 18.

Chambers Gallery — Brent Wilson, Leon Altieri, art education, Painting and Sculpture.

Photography Gallery, 212A Arts Bldg. — Walker Evans Portfolio.

Kern Gallery — Prints, Drawings, Photographs by graduate students.

HUB Gallery — "French Cheeses and Wine," French Embassy Exhibit.

Pollock Lounge — Origami, through April 15. Design Class Projects, opening April 16.

Dohanos show

One of Steven Dohanos' many Saturday Evening Post covers is this painting of two cool heaters; it is among the 60 works by Dohanos to be displayed April 14-26 in Zoller Gallery. A public reception followed by a talk by the artist, will be held at 7 p.m. Monday (April 14) in the Zoller Gallery.

SENATE —

(Continued from page one)

ture in order to improve coordination among the geographic units of the University. Its name would be changed to that of a commission.

The proposed organization calls for a Senate Cabinet composed of chairmen of the standing committees, which would be increased to 12; the chairman of the Commission on Intra-University Relations, and the Senate officers. The Cabinet's function would be to initiate and review progress of the charges to the committees.

The new structure would include the Faculty Advisory Committee and Committee on Committees and Rules, both previously established by the Senate; the Commission on Intra-University Relations, and 12 standing committees: Undergraduate Instruction; continuing education; extended degrees; admissions, records, and scheduling; curricular affairs; academic and athletic standards; libraries; research and graduate study; faculty affairs; student affairs, awards, and scholarships; external affairs, and planning and development.

The committee structure proposal is to come up for a vote at the May Senate meeting.

In other action, the Senate defeated, by a 69 to 57 vote, a motion to revise proposed guidelines on use of the University mailing system. The proposal was tabled at the March meeting.

Eco-Action meeting

Eco-Action, the student sponsored organization concerned with environmental problems, is sponsoring a conference which will include lectures, discussions and a major talk by Walter Hickel, Secretary of the Interior, 1969-1970, and former governor of Alaska.

Mr. Hickel will speak Friday, April 25, at 8 p.m. in the HUB ballroom, on the subject, "Our Social Values and the Environment — A Conflict?"

Registration and a reception will be held April 24, 7-10 p.m. in the HUB Reading Room. Sessions will be held Friday and Saturday mornings, and tours of the Nuclear Reactor and The Living Filter project will be held.

Dotterer lecture

John N. Findlay, professor of philosophy at Boston University and formerly of Yale University, will deliver the sixth annual Dotterer Lecture on Thursday, April 17, at 8 p.m. in Kern Graduate Bldg., on the subject, "The Good, The Mind and the Soul in Platonic Teaching."

A Fellow of the British Academy and a former president of the Aristotelian Society, Professor Findlay delivered the Gifford Lectures at St. Andrews University from 1964 to 1966.

Among his many books are "Values and Intentions," "The Discipline of the Cave," "The Transcendence of the Cave," "Ascent to the Absolute" and his most recent work, "Plato: The Written and Unwritten Doctrines." His book, "Hegel: A Reexamination" sparked the current revival of Hegel studies in the English-speaking world.

The Dotterer Lecture honors Dr. Raymond H. Dotterer, a member of the philosophy faculty at the University for many years. Dr. Dotterer retired in 1947 and died in 1967.

Harper poetry

Michael S. Harper, poet and professor of English at Brown University, will read his poetry today (April 10) at 8:00 p.m. in Room 112 Kern Bldg.

Harper is the author of six books of poetry. His first, "Dear John, Dear Coltrane" (University of Pittsburgh, 1970) was nominated for the National Book Award. He has received awards from both the Black Academy of Arts and Letters and the National Institute of Arts and Letters for his "grave, blunt poems (which) deal with human and black experience" simultaneously, welcoming white Americans into "their music as far as our imaginations and our hearts permit it and our history entitles us to go."

Harper was born in Brooklyn in 1938. He received an M.A. from the Writer's Workshop at the University of Iowa. He is now the director of the Writing Program at Brown.

His reading is sponsored by the Department of English, the Black Cultural Center, and the Graduate Student Association.

NEWS —

(Continued from page one)

Affairs, is underway with a use of man-craft, by three local craftsmen, Judy Kolenbraden, Sidne Lewis, and Marsha Thorsen.

Other exhibits scheduled for the future include Southeast Asia decorative fabrics, Marimekko designs from Finland, and photos showing the life style and activities of international students at Penn State. Future plans include the development of international exhibits featuring global concerns crossing national and cultural boundaries.

Anyone interested in participating in the exhibits program may call Mrs. Hadijah Ooregbu, assistant director for programs, Office of International Student Affairs.

LAST SKYWATCH

The last Operation Skywatch of the season, planned by the Department of Astronomy, is scheduled for Friday, April 11, weather permitting. The public is invited to the open house between the hours of 7:30 and 10 p.m. to see the crescent phases of Venus and Saturn and its rings. No tickets are needed. Come if you can see bright stars with the naked eye. The observatory is atop Davey Lab, on central campus.

Withholding Reminder — W-4E

The Controller's Office wishes to remind those employees who filed a Withholding Exemption Certificate — Form W-4E for 1974 that this certificate will expire on April 30, 1975 for taxpayers on a calendar year basis. The exemption claimed on Form W-4E must be renewed annually.

If you qualify and wish to continue your exemption, or if you are applying for the first time, you must file a new Form W-4E for 1975. You may claim the exemption from withholding if you had no income tax liability for 1974 and if you anticipate no income tax liability for 1975. Forms are available from the Payroll Department, 301 Shields Building.

In general the elimination of the withholding applies to only those working part-time. The principal advantage is that it will eliminate the need to file an income tax return at the end of the year to obtain a refund of money withheld.

Before Legislature committees

President comments on education bill

Following is the testimony presented April 1, 1975, concerning Senate Bill 224, before joint Senate and House Education Committees in Harrisburg, by President Oswald. The bill pertains to the proposed establishment of a Commonwealth University System which would include the present State Colleges and Indiana University of Pennsylvania.

I am John W. Oswald, President of The Pennsylvania State University. Some of you may recall that shortly after I arrived in Pennsylvania, I began meeting with a group of eleven college presidents, representing each segment of higher education in Pennsylvania. As a result of those meetings, the Pennsylvania Association of Colleges and Universities sent to the Master Plan Committee of the State Board their proposals for higher education in the 1970's. Many of the ideas set forth in that proposal were accepted as an integral part of the Master Plan for Higher Education in Pennsylvania adopted in May, 1971, by the State Board of Education. The basic assumption of the 1971 Master Plan was ultimately adopted by the State Board of Education as a single comprehensive program of higher education in Pennsylvania, emphasizing that what was done in one segment was of import to all segments.

Since those early meetings, I have taken an active role in PACU serving in a variety of capacities including chairing the recent PACU "Proposal for Financing Higher Education in Pennsylvania." I have also worked on a national level toward cooperation in higher education. Before I came to Penn State, I served as Chairman of the Government Relations Committee of the National Land-Grant Association. More recently, I chaired the Board of the American Council on Education, the national association of more than 1500 colleges and universities. Presently, I am Vice President and President-elect of the Association of American Universities, an organization of 46 of the Nation's major graduate and research universities.

I present this background to indicate my advocacy of coordination and cooperation among the various segments of higher education nationally and in Pennsylvania.

On page 1 of the 1971 Master Plan, the State Board of Education said about Coordination and Accountability: "Meeting the goals of higher education in Pennsylvania requires efficient organization and mission acceptance." The State Board further defined the mission of each segment of higher education. The Board assigned to the State-owned Colleges and Universities four goals:

1. To provide baccalaureate programs in the general arts and sciences and in education, with increasing emphasis upon upper division work to allow for community college transfer students.
2. To develop selective graduate programs at the master's level, with approval by the Secretary of Education, through established procedures. By this means the foundation should be laid for future selected and limited doctoral programs, as needed by the State.
3. To bring their resources to the people of the Commonwealth through programs of continuing education.
4. To operate established or approved branch campuses primarily as lower division program feeder branches of the parent institution. Approval for founding these campuses, thus expanding them to grant baccalaureate degrees should come from the Secretary of Education in accord with regulations of the State Board of Education, based upon Commonwealth needs.

The role the State Board assigned to the three comprehensive Commonwealth Universities (Pitt, Temple, and Penn State) was quite different and avoided duplication by indicating that these institutions should assume a primary role in providing graduate programs, to maintain a primary responsibility for research, and to emphasize

education for advanced professional personnel needed for the Commonwealth's social and economic development.

As for Senate Bill 224, I see some value in the proposed administrative reorganization, including a single governing board with a closer working relationship with a similar mission in the State-owned college and university segment. I believe the reorganization could result in greater administrative efficiency without lessening accountability. These institutions deliver a crucial service to their respective geographic areas. They are appropriately recognized in character and perform a major mission as part of a total State program of higher education as defined in the Master Plan.

In my review and discussion regarding this proposed legislation, however, I have felt and understood the purpose was to reorganize the administration to provide more institutional autonomy and administrative flexibility, and to improve the coordination and management. I was somewhat surprised and concerned to note the present language in Senate Bill 224, Section 2003A, appears to redefine the mission of the State Colleges and depart with the language or concept of the 1971 Master Plan. There appears to be a danger that duplication of mission and programs and less coordination may result.

My chief concern is with the section beginning with Line 27, Page 4. "To accomplish its objectives, the University shall consist of institutions throughout the Commonwealth which together shall offer instruction in the State-owned Colleges and Universities, in the applied fields, and in the professions, graduate studies, research, and such other pursuits as the Board may determine." This would appear to authorize 14 additional comprehensive universities, apparently identical to those in the existing Commonwealth Universities.

At a time when enrollments are leveling and State funds inevitably more difficult to secure and at a time in which duplication of costly programs must be avoided, this bill appears to ignore the Master Plan of the State Board and to redefine and significantly expand the mission of the State-owned institutions.

The one further objection to the bill, is the name, "Pennsylvania Commonwealth University at . . ." My concerns are three-fold. First, the proposed name, the Pennsylvania Commonwealth University, is misleading — not just because of the use of the term "University," but because the language of the bill appears to define a broad and comprehensive mission.

Second, the proposed name will be potentially confusing within Pennsylvania. There are already 14 Commonwealth Universities, defined as such in terms of mission, in the Master Plan. Is the proposal to enlarge this group? If so, how would this redefinition influence the efficiency and efficiency of the total State system?

Third, the proposed name will be confusing outside of Pennsylvania. The terms "state" and "commonwealth" are used interchangeably both inside and outside of Pennsylvania. The proposal could cause confusion, especially outside of Pennsylvania, between The Pennsylvania State University and The Pennsylvania Commonwealth University, is in my view, generally a real disadvantage. The purpose of the new legislation is the establishment and organization, not of a University, but a system of higher education institutions, each of which is already in existence. There is no proposal for a common curricula, common faculty or other characteristics normally associated with a single institution or university. Indeed the legislation refers to each campus as an institution. Therefore, the bill should avoid the confusion and the implication of a new institution with a new broader mission being established. The new entity should be entitled what it really is — The State College and University System of Pennsylvania. It would be made up of Bloomsburg State College of Pennsylvania, Lock Haven State College of Pennsylvania, and Indiana University of Pennsylvania.

In summary, Senate Bill 224 is not more than a reorganization of structures as now stands. It is also, Section 2003A, a revision of mission of such magnitude that it deserves extensive review as to its long term impact on all segments of higher education in Pennsylvania and not just the 14 State-owned Colleges and Universities. The scope of the proposed change — including the proposed change in mission — any needs to be more clearly defined. The impact of those proposals on the total State structure thoroughly explored. Finally, the confusion in name should be minimized and eliminated if possible.

PENN STATE intercom

Volume 4, Number 31

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Dr. Trotter, HEW official, to speak

Henderson Building dedication set

A dedication program for the Grace M. Henderson Human Development Building will be held Friday and Saturday, April 18 and 19 with tours of the building, a keynote address by Dr. Virginia Y. Trotter, three colloquiums, and a ceremony Saturday morning at 10 a.m.

Dr. Trotter, assistant secretary of education, U.S. Dept. of Health, Education and Welfare, will discuss "Voices of the Future" Friday, at 3 p.m. in Room S209 Human Development Bldg.

The three colloquiums will be held Friday evening, at 8 p.m. A session on "Community Health" will be held in Room 108, with Dr. Rae Sedgwick as coordinator. A session on "Community Service" will be

held in Room 117, with Dr. Robert Sebring as coordinator. And the third session, with Dr. Joseph Britton as coordinator, will be held in the Living Center, on the subject, "Life Span Development."

Dr. Henderson served as dean of the College of Home Economics for 15 years, retiring in 1966. The Board of Trustees took action to name the primary portion of the Human Development complex for her at a recent meeting.

Dr. Trotter, the first woman to hold the position she now has, will also speak to students and faculty of the College of Education Friday at 11 a.m. in Room 112 Kern on "A Briefing from the U.S. Office of Education: Issues and Concerns."

Vinie Burrowes to be featured

Black Arts Festival starts Friday

The annual Black Arts Festival, sponsored by the Cultural Center, will begin Friday, April 18, featuring a wide range of Black arts — including drama, music, communication workshop, a gospel concert, and an art exhibit. All events are free and open to the public.

On Friday, April 18, a student talent show will be staged at 7:00 p.m. in the Assembly Room of the Walnut Building.

On Saturday, April 19, a carnival for children will be held from 1:30 p.m. to 3:30 p.m. at the Cultural Center, and a Caribbean Festival will follow at 7:00 p.m., featuring the music, food, and the folkways of life in the West Indies.

Religious services will be conducted at 11 a.m. Sunday, April 20, in the Music Bldg. recital hall. The speaker will be Dr. Norman R. Dixon, associate professor of education, University of Pittsburgh. At 100 p.m., there will be a gospel concert and at 7:00 p.m. a fashion show, both in the Schuylab Auditorium.

Monday, April 21, there will be a communication workshop featuring Stan Latham, a Penn State graduate, nationally known for his work with Sesame Street. The public is invited to the general discussion and presentation at 7:00 p.m. in the Walnut Building.

Tuesday, April 22, Vinie Burrowes will be the one woman show, "Walk Together Children," the Black scene in poetry, prose,

and song. Clive Barnes of the New York "Times" called her "a magnificent performer." It will be held at 8:00 p.m. in Room 105 Forum.

"Walk Together Children" reopened in New York City last season and the new edition of the highly acclaimed program broke all existing records, its five-month run being the longest for a one-woman show in off-Broadway annals. The collage of poetry, prose and song, evoking the Black journey from auction block to new nationhood, uses the words of ex-slaves, historical figures, plus key works by June Jordan, Imamu Baraka, Robert Hayden, Don Lee and more than a dozen gifted Black writers.

Artists Series

Some tickets are still available for the performances by the Martha Graham Dance Co. on the Artists Series April 18 and 19 in University Auditorium, at 8:30 p.m. The company will also perform for an audience of largely season ticketholders April 17. Tickets that are available are being sold at University Auditorium and at the HUB.

The performances Friday and Saturday will include the famed "Appalachian Spring" dance but other dances will be quite different in the two programs and considerably different from the Thursday program.

Policy clarified on human subjects studies

A clarification of University policy regarding the protection of human subjects in conformance with regulations of the Department of Health, Education and Welfare has been issued by Dr. Richard G. Cunningham, vice president for research and graduate studies.

HEW regulations are applicable to research, development and related activities, irrespective of whether the activity is carried out through organized research, resident instruction or continuing education.

Research, instruction and continuing education activities by student groups are also subject to review by the appropriate University human subjects committee — i.e., Biomedical or Behavioral and Social Sciences.

University policy concerning human subjects is based on and is compatible with HEW regulations, so the above restrictions apply to all work in the University involving human subjects, whether or not it is sponsored by HEW.

Work is going forward to revise procedures and thus reduce the delay involved in obtaining committee clearances for a proposed activity. As an interim measure, persons may call the secretary to the two review committees, James W. Lundy (865-0512), if they have questions or wish to obtain a preliminary opinion as to whether or not a formal committee review bill will be necessary in a particular case.

A committee will also be appointed to draft a comprehensive policy and procedures document for release later this year.

Behrend seeks assistant dean

Behrend College is seeking to fill the position of Assistant Dean for Undergraduate Studies, and a search committee, headed by Dr. Michael Simmons, is currently accepting applications. The deadline for receipt of these applications, with resumes, is April 30, 1975. They should be addressed to Dr. Simmons at Behrend College, The Pennsylvania State University, Station Road, Erie, Pa., 16510.

The Assistant Dean for Undergraduate Studies is the Assistant to the Dean of the Faculty, serving as admissions officer and supervising the office of Academic Services, which he heads and which is responsible for student records, scheduling of courses, instructional services, computer center, auditing of students' academic progress, registrations, administering selected academic budgets, analytical studies on requests, and other tasks as assigned by the Dean of Faculty.

Candidates should have a doctoral degree, have had teaching experience at the university level, and have had experience in an administrative capacity in higher education. Experience in computer systems is also highly desirable.

Schulman speaks twice in Cuba

Ivan A. Schulman, graduate research professor of Latin American Literature at the University of Florida, will present two public lectures at 8 p.m. on Tuesday, April 22, and Wednesday, April 23.

One of the few United States scholars who has visited Cuba in recent years, Dr. Schulman will discuss "Cuban Society under Castro" at his first lecture, which will be held in 111 Chambers Bldg.

"Three Cuban Concepts of the Baroque" will be his topic in the second lecture, scheduled for 101 Kern Graduate Bldg. The first lecture is sponsored by the Latin American Studies Committee of the College of the Liberal Arts and the second by the Department of Spanish, Italian and Portuguese.

Dr. Schulman, who obtained his doctorate at the University of California at Los Angeles, is an expert on the Modernist Movement in Spanish-America and on 20th century Cuban letters. He is also one of the foremost scholars on the works of Jose Marti.

Officer elections by Faculty Club

Annual elections for the Board of Directors of the Penn State Faculty Club are being conducted, and ballots will be counted on April 28, when three officers and eight Directors-at-Large will be elected.

A Nominations and Elections Committee has submitted the following names for consideration for the various posts:

President: Donald R. Olson (current vice president).

Vice President: Peter D. Bennett (currently a Director-at-Large).

Treasurer: James R. Dungan.
Directors-at-Large: Catherine A. Carter, Ralph W. Condee, Vladimir deLissow, Della Durant, Marjorie East, Robert H. Gray, Helen A. Guthrie, Alexander Kalenak, Ross B. Lehman, Arthur O. Lewis, Jr., Robert F. Lima, R. William Millman, Wayne K. Murphy, Chalmers G. Norris, Howard B. Palmer, David C. Rice, Doris M. Seward, Thomas Smyth, Jr., William A. Steele, and Clarence O. Williams.

Eight Directors-at-Large will be elected from the 19 names submitted, and the elected officials will take office Sept. 1, 1975.

It is expected that groundbreaking for the new facility just north of the Nittany Lion Inn will take place shortly.

Any members of the faculty wishing to become a member of the Club may obtain further information at Room 109 Carnegie.

Council discusses student problems

Students frequently are confronted with classroom situations (exclusive of grades and grading) which cause them considerable anguish and inconvenience. University Council was advised at its last meeting.

A subcommittee, with Dr. Donald V. Josephson as chairman, identified scheduling of comprehensive examinations, failure to keep office hours, cancellation of classes and discrimination as the most seriously abused situations.

The subcommittee also found that most students do not know where to turn when confronted with classroom problems and that many do not consult their advisors or the office of their associate deans for various reasons, including fear of reprisal.

"There appears to be a real need for a 'visible' and well-publicized procedure that students can follow in reporting classroom problems," Dr. Josephson said. "Actually, the channels are now available but students either don't know they exist or avoid using them."

The subcommittee will continue to identify problems as well as to seek ways to inform all students of procedures they can follow in confidence to report classroom problems, procedures that are not now well-known.

Council also continued discussion on the condition of classrooms as it affects quality of instruction. Included were ventilation and cleanliness, especially late in the day, and it was recognized energy conservation needs as well as economy of operation are related to the problems faced.

Engineering clubs hold open house

Tours, films, demonstrations, and visual materials will "explain" the role of the engineer in the modern world in an open house program sponsored by the Engineering Undergraduate Student Council advised by the ten departments of the College of Engineering, Saturday, April 19, from 10 a.m. to 5 p.m.

About 50 attractions will be available for the public, ranging from a walking tour of the Nuclear Reactor (with transportation provided to the Reactor), to a laser machine tool, to a mock circulatory system for testing artificial hearts.

An information center will be set up in Hammond Bldg. near the Allen St. entrance, and this will serve as a good starting point.

Most of the laboratories of the College will be open, and students will be on hand to explain much of the equipment.

Appointments

Dr. Katsundo Hitomi, head of the department of mechanical engineering at Osaka University, Japan, is serving as visiting professor of industrial engineering, for a five-month period, and will conduct research in heat transfer characteristics in the die casting process. He was a graduate assistant at Penn State in 1959-61, receiving an M.S. degree. He is recognized internationally for writings on machine tool optimization.

Thomas Thorburn, professor of business administration, Stockholm (Sweden) School of Economics, is serving as visiting assistant professor in the Institute of Public Administration. He will be here until the end of June.

Dr. Richard A. DiCuspa, associate professor of Immunology, University of Connecticut, is currently serving as visiting professor of entomology. He will remain until the end of June. He has been at Connecticut since 1966 and previously was with the Bureau of Commercial Fisheries, U.S. Dept. of the Interior, and he has taught at Rutgers University.

Honors

Dr. Lowell L. Wilson, professor of animal science, has received a certificate of merit from the American Forage and Grassland Council, one of ten U.S. scientists to receive the award. He has conducted much of his work in animal science in cooperation with agronomists and agricultural engineers on research projects dealing with pastures, grass and corn silage, and hay feeding of beef cattle and sheep.

RESERVE LISTS

Reserve reading lists for Summer Term 1975 should be submitted to the Main Undergraduate Library on or before April 24, to allow ample time for processing. Lists received after this deadline will be accepted only if material requested is not needed until the beginning of the third week of classes. All reserve lists will be processed shortly in order received.

Only required readings which will circulate either for a two hour period or for an overnight loan period, will be placed on reserve.

Typewritten lists should be submitted on reserve forms which are available by mail or in person from the Undergraduate Library, W11 Patten Library.

LA VIE SEKS DIRECTORS

La Vie, the student yearbook, is seeking interested faculty or staff members with backgrounds in journalism, photography, art, marketing or other fields related to publication, to serve on its Board of Directors. Anyone who is interested should contact John Black, 105 Old Main, 685-6516, by April 25.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff consultant jobs listed below may apply by calling Employment Division, 685-1387 (Room Line 475-1387) or contact the person in the vacancy. Applications will be accepted until 4 p.m.

THURSDAY, APRIL 24, 1975

SENIOR RESEARCH ASST. COLLEGE OF

SENIOR RESEARCH ASST. COLLEGE OF

Supervise employees in seedbed preparation, fertilization, seeding, spraying, maintenance work on forage crop and pasture experiments. Instruct and assist graduate students in the practical aspects of forage crop harvesting, seeding, fertilization, seedbed preparation, etc. Design and establish field experiments to determine the effect of management variables on the performance of forage and pasture species and livestock. Bachelor's degree or equivalent in animal science or agronomy with minor or strong interest in the related area, plus one to two years experience, or an associate degree in animal science or agronomy with two to four years of directly related experience.

In addition to the above vacancies, there are positions that frequently are available because of the number of employees in them. They are listed below and will not be listed on an individual basis. Application for such positions may be made at any time and you are welcome to make inquiries any time now to the Employment Division for future consideration when vacancies occur. These positions are:

Registered Nurse, Practical Nurse, X-Ray Technologist, Medical Technologist, Computer Technician—HERSHEY MEDICAL CENTER.

In Writing

Dr. Mark R. Peattie, assistant professor of history, is the author of a new book, *Hiwara Kanji and Japan's Confrontation with West*, published by the Princeton University Press. In the book Dr. Peattie examines the career and thought of Gen. Ishiwara, one of the most brilliant strategists of the Imperial Japanese Army. He describes Ishiwara's central role in the three major crises of the 1930s — the Conquest of Manchuria, the Young Officer's Rebellion, and the China War — and explores Ishiwara's influential ideas concerning the preparation of Japan for total war with the United States. Dr. Peattie focuses on Ishiwara, the thinker, and his perceptions on the nature of war and Japan's place in Asia. Through analyses of Ishiwara's life and thought, the book pursues a number of major problems in pre-war Japanese history.

Hassler to serve at Staff College

Dr. Warren W. Hassler, Jr., professor of American history, will serve as a visiting professor in the Chair of Military History at the U.S. Army Command and General Staff College, Combined Arms Center, Fort Leavenworth, Kansas, for a year, beginning July 1. In the post, he will assist in upgrading the overall quality of the educational program at the Staff College. His responsibilities will include advising the commandant and faculty on educational matters related to military history, designing and teaching graduate courses and seminars, and supervising these. He will also aid in further developing evaluation procedures and curriculum, and he will direct the research in military history that is conducted by professional historians in support of the Department of Tactics and Strategy.

Two lectures on Sigma Xi program

Two lectures will be sponsored by the Society of Sigma Xi, the scientific research society of North America, as part of the Spring Lecture Series open to the public.

The first, on Thursday, May 1, will have Dr. Jean Carew, Harvard University, speaking on "Effects of Environments on Intellectual Development of Young Children." On Monday, May 12, Dr. Harriet A. Muckerman, Columbia University, will speak on "Age, Aging, and Age Stratification in Science."

Matson to lecture

Dr. Frederick R. Matson, Research Professor of Archaeology in the Department of Anthropology, recently elected president of the Archaeological Institute of America, will address the Central Pennsylvania chapter of the A.I.A. Tuesday, April 22, at 7:30 p.m. in Room 112 Kern Graduate Building. He will speak on "A Ceramic Archaeologist at Work in the Near East." The slide-illustrated talk, open to the public, will be followed by a public reception for Dr. Matson in the Nittany Lion Inn.

On the Artists Series today through Saturday, is the Mertha Gerhart Open House. Tickets for the performances at the HUG and at University Auditorium. All performances are at 8:30 p.m. in University Auditorium.

Ask nominations for Barash award

Nominations will be accepted until April 25 for the first Sy Barash Award, to be presented this spring to a member of the faculty, staff or student body of the University at University Park who has contributed most, apart from regular duties, to human causes, public service activities and organizations, or the welfare of fellow humans.

The Nominating Committee, chaired by Della Durant, includes Samuel Blazer, Jay Claster, Edward Ellis, David Ladd, Wendy Morris, Dr. Doris Seward, and Henry Yeaghy, Jr. Nominations may be sent to Miss Durant at Room 109 High Building, Barash, a 1950 graduate of Penn State, was a State College businessman who himself was very active in humanitarian and community and campus activities. The award was created by his family, and it is to be an annual award, carrying a stipend of \$1,000.

Ditch digging to aid utilities

The digging of a series of ditches on the University campus for the installation of a central monitoring and control system that will improve the reliability of the utilities systems and make possible reduction in the use of energy is underway or will be shortly.

The project, financed by the General State Authority, was authorized by the Legislature in 1970, following a request made in 1968 after several years of planning. The construction allocation for the entire project, designated as extension of utilities, was \$4,584,000, and included in the total program were the conversion of the boiler plant to make possible the use of oil and gas, in addition to the existing coal-burning capability. Oil storage was added and coal handling was improved. This phase of the program has been completed.

The control and monitoring system is basically a series of approximately 2,400 sensing points tied together by hard wire to a central processing computer which will gather and process data and print out

instructions, work orders, and required changes in the operating system.

To allow wire to be pulled from the central computer to each of the sensing points, the University will make use of existing utility tunnels and conduits where possible. The conduits will also provide for the expansion of the existing telephone and electric conduit system.

In addition to the existing tunnels, a number of ditches, 2½ ft. wide and 3 to 5 ft. in depth, will be dug in which conduits encased in concrete will be laid. The ditches will be closed as rapidly as possible after the conduit is installed, then seeded and landscaped.

It is pointed out that plans for the ditch locations have been carefully drawn by landscape personnel of the Office of Physical Plant to insure that trees will not be damaged and that disturbance to the existing landscape will be held to a minimum.

G. M. McCrossin, Inc., of Bellefonte, holds the General State Authority contract for the project.

Funding Opportunities

For procedural and funding source information, call 685-1372.

(1745) With the broad field of "original research of international import," the NATO Committee on Scientific Cooperation will give priority to: (1) environmental impacts related to energy; (2) solid waste disposal and recycling; (3) care and well being of older citizens; and (4) noise pollution. Committee fellowships range from 6 to 12 months, and pay up to 200,000 Belgian Francs in the currency of the host country. Applicants must have bachelor's degree and usually must have completed graduate studies. Applications should be sent to the NATO Committee on Challenges in Modern Science, c/o NSF, Div. of Higher Education in Science, Washington, D.C. 20550.

(17470) The systematic study of population policy issues of social scientists is jointly supported by the Ford and Rockefeller foundations to better understand the relationship between population variables and law, economic policy, and social and political change. Nearly 100 awards have been made since 1971. Thirty or so additional projects will be supported this year. Total program funding will be about \$650,000. (Ref. Ford Foundation Letter, 4/1/75).

(17411) Proposed rules for a Clinical Cancer Education Program have been issued by the National Cancer Institute. The Institute wishes to encourage the development of interdisciplinary educational programs aimed at achieving optimal care of cancer patients and wants to help health profession students to acquire basic knowledge of neoplastic diseases and the principles, measures and diagnostic and therapeutic skills necessary to the provision of such care. Eligible applicants include schools of medicine, public health, and allied teaching hospitals. NIH information has been distributed. (Ref. 40FR-12999-13001, 3/24/75).

(17412) Matching funds for public programs in the humanities have been made available by the Public Committee for the Humanities in Pennsylvania (PCHP) which has \$530,000 remaining to be awarded in FY 1975. The opportunity deadlines for funds are May 5 and August 15, 1975. Community-oriented programs which apply to the humanities problems of contemporary life will be considered. Some grants in amounts less than \$10,000 may be made by matching local "seed money" services. (This information has been distributed.) The program contact is Robert M. Giannetti, Executive Director, PCHP, Duquesne University, Lewisburg, Pa. 17837 (717-624-1333).

(1751-1) The National Institutes of Health (NIH) has several programs for which the next three deadline dates are June 1, Oct. 1 and Feb. 1. The programs are: Research Project Grants — contact Dr. Luis Angelone (201-455-7747); General Clinical Research Centers — Dr. William R. Oe Cesare (201-455-6503); Biotechnology Resource Grants — Dr. William Baker (201-455-5411); Projects to Support Animal Research and Research Manpower Development Program — Dr. Charles McPherson (201-455-5451); Nutrition Research Grants — Dr. Paul O. Frazer (201-455-7605); Clinical Cancer Education Grants — (NCI) Dr. Margaret A. Ed-

wards (201-455-7625); National Career Development Program — (NIOD) Dr. Thomas C. O'Brien (404-7684); Biomedical Publications Grants — (NLM) Dr. Jeanne L. Grand (201-455-6131); Resource Project Grants — (National Library of Medicine) Dr. Robert L. Taylor (201-455-6131); Research Project, Training Support, and Scientific Grants — (NLM) Dr. Roger Oshen (201-455-6131). Contact address for each of above is also available. (Ref. OIP deadline dates).

(1752) The National Institutes of Health has emphasized five programs for which funding is anticipated: (1) Research Career Development Program in which animal-research related areas including classroom management, use of research Project, Training Support, and Scientific Grants — (NLM) Dr. Roger Oshen (201-455-6131). Contact address for each of above is also available. (Ref. OIP deadline dates).

(1753) Regulations and a deadline date of May 9, 1975 have been issued by the Office of Education for its Right to Read Program. Upgrading the skills of teacher, paraprofessionals, administrators, and librarians is paramount in specific areas including classroom management, use of diagnostic and prescriptive reading materials, and continuous measurements of achievement. This information has been distributed. (Ref. 40FR-14726-64, 4/27/75) (GPOA 13-5323).

(1754) OE has announced a May 9, 1975 application closing date for its demonstration centers for extension and continuing education programs. Grants will be made, one grant each for: planned, a state-wide center, a center serving a sub-state or interstate region, and planning for a community or neighborhood center. This information has been distributed. (Ref. 40FR-14349-50, 3/31/75) (GPOA 13-5376).

(1755) Proposals for OE Educational Television Projects have a May 19, 1975 closing date. Program objectives are to assist in the process of eliminating reading, or other learning, ability gaps. Isolating and aiding school children in overcoming educational disadvantages of minority group isolation through multiethnic children's activities. This information has been distributed. (Ref. 40FR-14349-50, 3/31/75) (GPOA 13-5376).

(1756) Regulations for OE Research and Training, Exemplary and Curriculum Development programs in vocational education have been issued for FY 1975. Three components make up the priority area: guidance service, occupational preparation through coordinated school programs, and articulation of the cluster programs with ongoing programs. This information has been distributed. (Ref. 40FR-14349-51, 3/31/75) (GPOA 13-5376).

(1757) Funding opportunities for resource information for research, instruction, and continuing education projects is available through M. Kohler, Research Information Service, 685-3732. Research information covers Federal and state agencies, foundations and industry. Some of this information is released through this column, but is available including a searching process to be determined funding sources for project ideas. Agency contact information is also available and recent media events in the proposal process. Call (303-126-6, 116-4, 109-5, 603-79-2).

University Park Calendar

April 17-27, 1975

Special Events

Thursday, Apr. 17 — FSHE 410 dinner, "Japan," 5:30 p.m., Maple Room, Human Development. Reservations required, 865-7426.

Thursday, Apr. 17 — Food Science program, film, "Food: Green Growth and Profits" (ABC News Close Up), 2:20 and 7:30 p.m., Room 117 Borland Lab. Discussions follow.

Thursday-Saturday, Apr. 17-19 — Artists Series, Martha Graham Dance Company, 8:30 p.m., University Auditorium.

Thursday-Saturday, Apr. 17-19 — Penn State Aquatic Institute, Natarium.

Thursday-Saturday, Apr. 17-19 — University Theatre, "Jim Dandy," 8 p.m., University Theatre.

Thursday-Friday, Apr. 17-18 — Phi Delta Kappa and Pennsylvania Educational Research Association Conference, Conference Center.

Friday-Saturday, Apr. 18-19 — Dedication of Grace M. Henderson Bldg., various tours, three colloquiums Friday at 8 p.m., and talk by Virginia Y. Trotter, assistant secretary of Education, HEW, on "Voices of the Future" at 3 p.m. in Room S209 Human Development. Dedication ceremony 10 a.m. Saturday morning, in plaza.

Seminars

Thursday, Apr. 17 — Plant Pathology, 8 p.m., Room 213 Buckhout. Dr. John M. Sauer, Virginia Polytechnic Institute and State University, on "Annois Rot Rot of Lobloby Pine," and "Air Pollution Effects on Forest Tree Growth."

Thursday, Apr. 17 — Transportation Institute, 2:20 p.m., Room 169 Materials Research Lab. Charles Hoppe, U.S. Railway Association, on "USRA's Planning for Passenger Service."

Thursday, Apr. 17 — Physics and Nuclear Engineering joint colloquium, 3:35 p.m., Room 119 Osmond. Alvin M. Weinberg, Director, Energy Research and Development Office, Washington, D.C., on "Is Nuclear Energy Acceptable?"

Thursday, Apr. 17 — Agronomy, 8:30 a.m., Room 111 Tyson. Joe Smith on "A Source of Male Sterility in Matting Barley."

Thursday, Apr. 17 — Chemistry, 12:45 p.m., Room 333 Whitmore. J. Kochi, Indiana University.

Thursday, Apr. 17 — Microbiology, 4 p.m., Room 52 Frear. Dr. W. Munyon, Department of Medical Viral Oncology, Roswell Park Memorial Institute, Buffalo, on "Expression of the Herpes Genome in Transformed L Cells," and at 1 p.m., Room 52 Frear. Dr. Mary F. Notter on "Herpes Virus Non Virion Antigen: Diagnostic Significance."

Thursday, Apr. 17 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Margery Walker, U.S. Environmental Protection Agency, Boston, on "What It Is Like Working for a Federal Air Pollution Control Agency."

Thursday, Apr. 17 — Mathematics, 4 p.m., Room 115 McAllister. P. Enflo on Analysis.

Thursday, Apr. 17 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. J. O. Mackenzie, U. of California at Los Angeles, on "Glass and Ceramic Science at U.C.L.A."

Thursday, Apr. 17 — Anthropology, 3:30 p.m., Room 107 Social Science. Dr. Edward E. Hunt and Geza Teleki on "The Demography of Gombe Chimpanzees: Its Relevance to the Demographic Evolution of Man."

Thursday, Apr. 17 — Statistics, 4 p.m., Room 69 Willard. Professor Paul W. Holland, National Bureau for Economic Research, Cambridge, Mass., on "A Monte Carlo Study of Two Robust Alternatives to Least Squares Regression Estimation."

Friday, Apr. 18 — Ecology, 3:55 p.m., Room 101 Kern. Dr. Robert May, Princeton University, on "Biological Populations with Non-Overlapping Generations; Stable Cycles, Chaos."

Friday, Apr. 18 — Vocational Education, 1 p.m., Room 101 Kern. John F. Jennings, counselor and staff director of the Subcommittee on Elementary, Secondary and Vocational Education of the U.S. House Representatives, on "Contemporary Design in the Legislation of Vocational Education."

Monday, Apr. 21 — Entomology, 4 p.m., Room 204 Patterson. David Shetlar on "Systematics of the Ascalaphidae."

Friday, Apr. 18 — Erikson Fine Prints of Baltimore exhibition and sale of original graphics, 10 a.m.-5 p.m., HUB.

Friday, Apr. 18 — Sharon Brown, piano recital, 8:30 p.m., Music Bldg. recital hall.

Friday, Apr. 18 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Friday, Apr. 18 — Sports: Men's tennis, vs. Bloomsburg, 2 p.m.

Friday, Apr. 18 — Black Arts Festival, student talent show, 7 p.m., assembly room, Cultural Center.

Saturday, Apr. 19 — Black Arts Festival, carnival for children, 1:30-3:30 p.m. Caribbean Festival featuring music, food, and the folkways of life in the West Indies, 7 p.m., Cultural Center.

Saturday, Apr. 19 — Sports: Men's track, vs. Kent State, 1:30 p.m. Women's lacrosse, vs. Cornell, 10 a.m. Women's softball, vs. Ithaca, 1 p.m. Women's track vs. Pitt and Western Pa. Track Club. Women's softball, vs. Ithaca, 1 p.m.

Sunday, Apr. 20 — Kathryn Cowdrick, vocal recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Apr. 20 — Chapel Service, 11 a.m., Music Bldg. recital hall. Dr. Norman R. Dixon, professor of higher education, University of Pittsburgh.

Monday, Apr. 21 — New Communities, Architecture, 2 p.m., Room 322 Sackett. Roger Ralph, Chicago Association, Columbia, Md., on "Innovations in Community Management and Governance of New Towns."

Monday, Apr. 21 — Horticulture, 12:45 p.m., Room 10 Tyson. Katharine M. Browne, on "Orchid Radiant Energy Transfer."

Monday, Apr. 21 — Genetics, 3:55 p.m., Room 111 Tyson. S. F. Sheshtakov, Lomonosov Moscow State University, on "Mutagenesis and Recombination in Blue-Green Algae."

Monday, Apr. 21 — Physical Chemistry, 4 p.m., Room 333 Whitmore. J. W. Weare, University of California at San Diego, on "Helium Beams as a Probe."

Tuesday, Apr. 22 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond. Dr. R. A. Queeney on "Strength and Fracture Resistance of Metal-Infused Porous Ceramics."

Tuesday, Apr. 22 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. A. H. Weiss, Worcester Polytechnic Institute, on "Catalytic Hydrogenation of Cellulose to Sugars."

Tuesday, Apr. 22 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Robert Kuhl on "Energy and Agriculture."

Tuesday, Apr. 22 — Geosciences, 4 p.m., Room 26 Milner. Science, Robert B. Hargraves, Princeton University, on "Applications of Paleomagnetism to Geological Sciences."

Tuesday, Apr. 22 — Electrical Engineering, 2:20 p.m., Room 329 Electrical Engineering East. Dr. Roy Russo, I.B.M., on "Design Automation: Using Digital Computers to Design Digital Computers."

Meetings

Thursday, Apr. 17 — Faculty women of College of Education, coffee, 10 a.m., Room 101 Kern. Speaker, 11 a.m., Room 112 Kern.

Friday, Apr. 18 — Engineering Acoustics and the Central Pennsylvania chapter, Acoustical Society of America, 3:45 p.m., Room 101 Kern. Deikel, West, Bell Laboratories Acoustical and Behavioral Research Center, on "Electret Transducers."

Friday, Apr. 18 — AIAA Central Pennsylvania Section, 4 p.m., Room 232 Hammond. Professor Ilro Tani, Professor Emeritus, University of Tokyo, on "Some Application of Weakly Nonlinear Stability Theory to the Problems of Boundary-Layer Transition."

Monday, Apr. 21 — USG Senate, 7 p.m., HUB assembly room.

Tuesday, Apr. 22 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Tuesday, Apr. 22 — ARHS, 7 p.m., Room 203 HUB.

Tuesday, Apr. 22 — University Senate Council, 2:10 p.m., Room 101 Kern.

Tuesday, Apr. 22 — Undergraduate Philosophy Club, 7:30 p.m., Room 101 Electrical Engineering East. Alfonso Gomez-Lobo, Chile, on "Frege: A New Aristotelian — A Modern Approach to Language and Reality." Open to the public.

Sunday, Apr. 20 — Sports: Men's tennis, vs. East Stroudsburg, 2 p.m.

Sunday, Apr. 20 — Black Arts Festival, gospel concert, 3 p.m., fashion show, 7 p.m., Schwab.

Monday, Apr. 21 — Gregory Donovetsky, oboe recital 8:30 p.m., Music Bldg. recital hall.

Monday, Apr. 21 — Black Arts Festival, communication workshop featuring Stan Latham, 7 p.m., Black Cultural Center.

Tuesday, Apr. 22 — Black Arts Festival, Vinie Burrows will perform in her one woman show "Walk Together Children," 8 p.m., Room 105 Forum.

Tuesday-Saturday, Apr. 22-26 — University Theatre, "Jim Dandy," 8 p.m., Pavilion Theatre.

Tuesday, Apr. 22 — Sports: Men's tennis, vs. Pennsylvania, 3 p.m.

Tuesday, Apr. 22 — Chaim Potok, author, for Hillel, 8 p.m., HUB ballroom.

Tuesday, Apr. 22 — Women's Faculty Club spring fashion luncheon, 11:30 a.m., HUB ballroom.

Wednesday, Apr. 23 — "Noondays" devotional service, 12 noon, Eisenhower Chapel. Rev. Irmagot Soltau.

Wednesday, Apr. 23 — Thalia Trio, 8:30 p.m., Music Bldg. recital hall. Guest, Dorothy Pixley Rothschild.

Tuesday, Apr. 22 — Physiology, 3:45 p.m., Room 111 Life Science. D. Jensen, Graduate Student presentation.

Tuesday, Apr. 22 — Aerospace Engineering, 4 p.m., Room 322 Hammond. Donald S. Weir on "Thermodynamic Effects and Science in Design of Jet Cavity Flows."

Tuesday, Apr. 22 — Solid Waste Management, 2:20 p.m., Room 140 Fenske. Ronald D. Neufeld, civil engineering, University of Pittsburgh, on "Utilization of Biological Sludges for the Removal and Possible Reclamation of Heavy Metals from Wastewater."

Tuesday, Apr. 22 — Solid State, 1 p.m., Room 339 Davey. Dr. George Lang, physics, of "Molecular and Crystallographic Studies of Oxygen Binding in Hemoglobin."

Wednesday, Apr. 23 — Remote Sensing, 2:30 p.m., Room 225 Electrical Engineering West. Eva Tucker, geology, on "Determination of Water Quality and Erosion around Presque Isle, Using Remote Sensing Techniques."

Wednesday, Apr. 23 — Biochemistry, 4 p.m., Room 101 Altohouse. Dr. Thomas J. Kindl, Rockefeller University, on "Variable Regions of Rabbit Antibodies: Structure and Inheritance."

Thursday, Apr. 24 — Chemistry, 12:45 p.m., Room 333 Whitmore. John A. Osborn, Harvard University, on "Mechanistic Studies in Organometallic Chemistry."

Thursday, Apr. 24 — Physics, 3:35 p.m., Room 117 Osmond. David Sealer, Bell Telephone Laboratories, Murray Hill, N.J., on "Chaos Coupling."

Thursday, Apr. 24 — Agronomy, 8:30 a.m., Room 111 Tyson. Roy Sjoblad on

Tuesday, Apr. 22 — Central Pennsylvania chapter, Archaeological Institute of America, 7:30 p.m., Room 112 Kern. Dr. Frederick R. Matson, research professor of archaeology and national president of the A.I.A., on "A Ceramic Archaeologist at Work in the Near East." Reception follows at 9 p.m., Nittany Lion Inn.

Wednesday, Apr. 23 — Penn State Mining Engineering Society, 7:30 p.m., Room 203 HUB. Mineral Industries, H. E. Mauck, Consolidated Coal Co., on "Longwall Mining and the Future of the U.S. Coal Industry."

Lecture

Thursday, Apr. 17 — Dr. John Dewdney, University of New South Wales, 11:10 a.m., Room S108 Human Development, on "Australia's Health Services — Non-Specialized Medicine," sponsored by Health Planning and Administration.

Thursday, Apr. 17 — Richard Holmes, Country Officer for the People's Republic of China and Hong Kong Affairs, U.S. Dept. of State, on "U.S.-China Delicate: Prospects and Problems," 8 p.m., HUB assembly room, sponsored by East Asian Studies Committee. Also, in afternoon, as part of an "Open Arts Career Day program" on "Career Opportunities in the Foreign Service."

Thursday, Apr. 17 — Dotterer Lecture, 8 p.m., Room 112 Kern. John N. Findlay, professor of philosophy, Boston Univer-

Wednesday, Apr. 23 — Sports: Men's baseball, vs. West Virginia, 3 p.m. Women's softball, vs. East Stroudsburg, 3 p.m., Room 112 Kern.

Wednesday, Apr. 23 — Dairy Princess Contest, 7:30 p.m., Room 117 Borland.

Thursday-Friday, Apr. 24-25 — "Antonia," film about composer Antonia Bruckner, 8 p.m., Room 112 Kern.

Thursday-Saturday, Apr. 24-26 — Student Environmental Conference, sponsored by Eco-Action, sessions in HUB assembly room and HUB reading room. Thursday, 7:10 p.m., registration and reception, reading room. Friday, sessions morning and afternoon; keynote address, 8 p.m., HUB ballroom. Walter Hinkel, former Secretary of the Interior, on "Our Social Values and the Environment — A Conflict?" Saturday sessions, morning and afternoon.

Friday, Apr. 25 — Folk and Square Dance Roundup, 7:30 p.m., White Bldg. north gym.

Friday, Apr. 25 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Saturday, Apr. 26 — Penn State Singers concert, 8:30 p.m., Schwab.

Saturday, Apr. 26 — Sports: Men's baseball, vs. Pittsburgh, 2 p.m. Women's softball, vs. Brockport, 1 p.m.

"Transformation of Aromatic Compounds by Fungal Enzymes."

Thursday, Apr. 24 — Engineering Acoustics, 4 p.m., Room 166 Willard. John B. Ochs on "Transmissibility Across Simply Supported, Rectangular, Thin Plates with Localized or Rigid Supports."

Thursday, Apr. 24 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Irving Hand, state and regional planning, on "Land Use Controls and Travel Demand."

Thursday, Apr. 24 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Frank Schmelzer, RAPS, Creve Coeur, Missouri, on "Regional Air Pollution Study at St. Louis."

Thursday, Apr. 24 — Biophysics, 4 p.m., Room 617 Life Science I. S. V. Sheshtakov, Moscow State University, on "DNA Repair in Blue-Green Algae."

Thursday, Apr. 24 — Mathematics, 4 p.m., Room 115 McAllister. Maurice Auslander on Algebra.

Thursday, Apr. 24 — Statistics, 4 p.m., Room 60 Willard. David Harville, Wright-Patterson Air Force Base, on "Allocation of Experimental Units Using Observed Covariate Values."

Friday, Apr. 25 — Analytical Chemistry, 2:30 p.m., Room 333 Whitmore. Aubrey L. McIntosh on "Lasers in Analytical Chemistry."

Friday, Apr. 25 — Microbiology, 4 p.m., Room 52 Frear. Dr. F. O'Neill, University of Utah Medical School, on "Control of Nuclear Division in Normal, Neoplastic and Virus Transformed Cells."

ity, on "The Good, the Mind, and the Soul in Platonic Teaching."

Thursday-Wednesday, Apr. 22-23 — Dr. Ivan A. Schmalzer, graduate research professor of Latin American Literature, University of Florida, Tuesday, 8 p.m., 111 Chambers, on "Cuban Society Under Castro," sponsored by Latin American Studies Committee. Wednesday, 8 p.m., Room 101 Kern, on "Three Cuban Concepts of the Baroque," sponsored by the Dept. of Spanish, Italian and Portuguese.

Wednesday, Apr. 23 — Dr. James Lord, art history, on "Toucan and the Theme The Death of the Hero," 8 p.m., HUB assembly room.

Thursday, Apr. 24 — William E. Barksdale, Vice President of Cook Industries, Inc., Memphis, on "Changes in the World Food Complex."

Films

Thursday-Sunday, Apr. 17-20 — Centre Cinema, "Last Tango in Paris," 7:30 and 10 p.m., Thursday Simmons lounge.

Friday-Sunday, Apr. 17-20 — PSORML film, "Fantastic Planet," 7:30 and 9:30 p.m., Room 105 Forum.

Monday, Apr. 21 — Film Festival, "The Sporting Life in Silent Comedy," 7:30 and 9:30 p.m., Keller Bldg. M. Ellis Grove, associate professor of theatre arts and assistant director of general education in the arts, commentator.

Recital at Hazelton

At Hazelton Campus Saturday, April 19, Joseph Jumper, assistant professor of music (fourth from left) will sing works by Bach, Brahms, Moussorsky, Morley, Dowland and Hovhanness, accompanied by M. L. Shevel, assistant professor of physics. An ensemble group, playing a Bach work, will include Lucy Ann Santanaro, Jay Breckinridge (instructor of English), Chris Slovic, and Jarry Covert, assistant professor of biology, left to right.

Music event for week listed

Thalia trio

Guest violinist Dorothy Pixley Rothschild will join the Thalia Trio in a concert of music by women composers at 8:30 p.m. Wednesday, April 23, in the Music Bldg. recital hall at the University.

Miss Pixley will be at the University under

Singers concert

Madrigals, motets, and folk songs are among a variety of musical forms to be represented by works in a concert by the Penn State Singers at 8:30 p.m. Saturday, April 26, in Schwab Auditorium.

Directed by Raymond Brown, the 35-voice Singers will sing motets by Mendelssohn and Bach, British folk songs by Vaughan Williams, Holst and Williams, and the duet from Bach's "Cantata #28." Four settings of the Ave Maria by Kodaly, Bruckner, de Victoria, and Verdi will be performed, and madrigals by six English composers, including Purcell and Morley. Songs by the latter two composers featuring soloists Debra Fatula and Julia McKinstry will complete the program.

No tickets will be required for the free concert. Doors will open at 8:00 p.m.

Dorothy Pixley Rothschild who will perform as guest violinist with the Thalia Trio Wednesday, April 23.

the sponsorship of the Institute for the Arts and Humanistic Studies in conjunction with the course "Women and Creativity in the Arts."

The music to be performed will include works by Viollet Arhart, Cecile Chaminade, and Gitta Steiner.

The Thalia Trio is composed of Robert Batsley, pianist, Joanne Feldman, violinist, and Leonard Feldman, cellist.

Since returning to New York from Denmark in 1964, Miss Pixley has been a member of the American Symphony Orchestra and has performed as soloist in many other programs.

Altoona arts festival expands

The Altoona Campus is cooperating with the Blair County Arts Foundation, Pennsylvania Council on the Arts, National Endowment for the Arts and other local groups in presenting the 1975 Arts Festival show May 9-11, and this year, for the first time, the show will include entries from all across the state. Categories for competition include line arts, crafts, photography, and film video. Entries are being solicited, and entry blanks and more information may be obtained from the Arts '75 office in

the Mishler Theatre, 1208 Twelfth Ave., Altoona, 814-944-0434. A \$1,000 cash prize will be awarded in each category and some purchase awards will be made. Work must be hand-delivered to the Student-Faculty Commons at the Altoona Campus on May 4 between noon and 5 p.m. and May 5 between noon and 8 p.m. A fee of \$4 will be charged for each group of two entries (maximum permitted per person). There are both amateur and professional categories in the juried areas.

The program will include sonatas by Gordon Jacobs, Tedesco, and Handel, as well as Schumann's "Three Romances, Op. 94."

Exhibits at University Park

Museum of Art — Works by Will Barnett, Gallery A, through April 20. Selections from the Permanent Collection, Gallery B, Lee Krasner, Collages and Works on Paper, Gallery C.

Palitte Library — Photographs, "Faces of Prague," by Cynthia Begnal, through April 18.

Chambers Gallery — Brent Wilson, Leon Allers, art education, Painting and Sculpture, until April 25. Undergraduate Exhibition, all media, opening April 25.

Photography Gallery, 212A Arts Bldg. — Walker Evans Portfolio.

HUB Gallery — "French Cheeses and Wine," French Embassy Exhibit.

Pollock Lounge — Design Class Projects, Campaign and Slogan Buttons, opening April 24.

Hammond Gallery — "Black and White Progression Series," paintings by David Rubello, opening April 20, 2-6 p.m., daily.

KERN Gallery — Paintings, sculpture and ceramics by Zelko Kujundzic, associate professor of art, Fayette Campus.

Zelko Kujundzic, associate professor of art at Fayette Campus, whose exhibit of paintings, sculpture, and ceramics will open at Kern Gallery April 21, continuing through May 3.

News in brief

HUNGER DAY

An ecumenical service in observance of World Hunger Day will be held in the Helen Eakin Eisenhower Chapel today (Thursday, April 17) at 4 p.m., with the basic purpose of raising the general level of consciousness of the problem of hunger in the world.

Money received through voluntary contributions during the service will be turned over to UNICEF.

Dr. Donald Crider, assistant professor of rural sociology, will be the speaker, talking on world hunger and ecumenical service. Persons of five different religious faiths — Christian, Jew, Moslem, Buddhist, and Hindu — will read scripture passages relative to the common humanity of all religions.

Citizens Action Committee, a recognized campus group, is sponsoring the service.

ENGINEERING EDUCATION

Tickets for the luncheon meeting of the local branch of A.S.E.E. to be held Tuesday, April 29, may be obtained from Dr. John Samuels, 207 Hammond Bldg. or by phoning 865-7601, Ext. 28. The luncheon, to be held in HUB dining room "A," at noon, will feature as speaker Charles W. Yoder, who will discuss "Self Service and Society."

IN ORCHID SHOW

John E. Haag, associate professor of English, and Dr. Harrison T. Meserole, professor of English, will be active participants in the annual Orchid Show to be held Saturday, April 26, at the Leitzinger auto showroom at W. College Ave. and Whitehall Rd. Haag is show chairman, Meserole in charge of the sales and information table. The show will be open to the public Saturday from 1 to 10 p.m. and Sunday from 10 a.m. to 6 p.m.

FSHA DINNERS

Three FSHA 410 special dinners upcoming within the week will feature Japanese, Hawaiian, and Montreal, Canada, cuisine.

Today (April 17) at 5:30 p.m. in the Maple Room (Human Development Bldg.), the Japanese dinner will feature rice, clear soup, cucumber stuffed with crabmeat, fried shrimp, broiled chicken, beef with vegetables, pineapple boat, and green tea. The charge is \$4.75 and tax.

The Hawaiian dinner Wednesday, April 23, will be a buffet dinner with food, service, and customs of the Hawaiian luau. Among the foods will be flank steak with pineapple, roast pig, chicken, pork, rice, lobster, and baked bananas. Cost is \$5.25 plus tax.

Thursday, April 24, the 410 class will feature Montreal, the Island City of the St. Lawrence, and the menu will include bread and apple butter, Canadian asparagus soup, venison meat loaf, salmon steak, hush puppies, cream sauce, spiced carrots, potatoes and turnips, endive salad, apple dumplings with maple syrup. The charge is \$4.50 with tax.

More information and reservations may be obtained by calling 865-7441.

ORCHESTRIS CONCERT

Orchestris will present its annual Spring Dance Concert Thursday, Friday and Saturday, May 1, 2 and 3 at 8:30 p.m. with a 2:30 p.m. performance also on Saturday, in White Bldg. Dance Theatre.

Tickets for the four performances will go on sale April 21 at Room 105 White, and they will be available at the door before the performances. Tickets are \$1.50 for general admission and 50 cents for students.

The concert, under the artistic direction of Patricia Heigel Tanner, is titled "Opus 1975: An Evening of Dance." In all, ten dances will be performed, each representing the choreographer's preference in style.

SIGMA XI BANQUET

Sigma Xi, the honorary society for men and women in the natural sciences, will hold its initiation banquet Thursday, April 24, at 6:30 p.m. in the Nittany Lion Inn. The banquet speaker will be Dr. Raymond J. Seeger, director of the National Bicentennial Program for Sciences for Sigma Xi. He will speak on "The Humanism of Science."

SHOW DAY

Dr. Donald V. Josephson, head of the Dairy Science Department for 27 years, will have the 50th Annual Dairy Exposition dedicated to him. A major feature of the Exposition, which includes a banquet May 3 when Dr. Josephson will be honored, is "Show Day," in which a variety of contests is held, including titling and showing events and special competitions such as milk "chugging," and milking contests. Activities will be held at the Dairy Production Center.

PHI PSI BEER RACE

Entries are still being accepted for the annual Phi Psi Beer Race which will be run Saturday, April 26, starting from the Phi Kappa Psi fraternity house, 403 Locust Lane, at 2 p.m., and cover a 1.1 mile course through town, with stops at six bars where each participant drinks a beer or soft drink. Proceeds from the entries and from other contributions will go to the Centre County Day Care Center.

SONNEBORN VISITING

Dr. T. M. Sonneborn, noted geneticist and Distinguished Professor of Indiana University, will give a public lecture Monday, April 28, on "Aspects of the Biology of Aging" and will give a seminar talk Tuesday, April 29 on the subject, "Is DNA ALL?" The first talk is at 8 p.m. in Kern Auditorium, the second at 2:30 p.m. in Room 8 Life Science I.

ELM SPRAYING

The yearly spraying of American Elm Trees for control of Dutch Elm disease began this week and will continue probably through a two-week period, depending greatly on weather conditions. Spray that is deposited on leaves should be removed as soon as possible with detergent soap and water; the longer you wait, the more difficult to remove it. The operation will be carried on largely in the evening or central campus, although spraying of areas removed from congestion will be done in daytime. Signs will be posted early in the day in the general areas where spraying will be done so that drivers will have the option of parking their cars in one of the Open Areas if they think their cars will be in the path of the overspray. The spray is necessary to help protect these beautiful trees which add much to campus beauty, and which help to shade roads and buildings in hot summer months.

REGATTA BENEFIT

Staff members, students and faculty are eligible to take part in a regatta at Stone Valley, Sunday, April 27, which is being staged by Beta Sigma Beta fraternity and Alpha Chi Omega sorority to benefit the American Cancer Society, in the name of Sy Barash, State College businessman who died recently and who did much to aid the community in humanitarian work.

The day's events will include six types of skill and novelty races in boats of all kinds, a celebrity race, an assortment of picnic and country style food for sale, and a dozen fair-type booths with prizes.

For the boat competition, registration is going on now and will continue until April 25 in the basement of the HUB (between 10:30 a.m. and 2:30 p.m.) and will also be held at Stone Valley on the day of the races.

Barash was a member of Beta Sigma Beta, which last year sponsored a piano recital by Mike Reid, Penn State All-American and concert performer. That program netted \$1500 for the Cancer Society.

SAROYAN PLAY OPENS

Kelly Yeaton, professor of theatre arts, is director of the Pavilion Theatre production of William Saroyan's play, "Jim Gandy," which opens at Pavilion Theatre to day (April 17) and continues April 18-19 and 22-26. Curtain time is 8 p.m.

Yeaton says the Saroyan play "is not a story but a series of connected actions, it is like a dance or a group of poems. It is useless to ask what it is about, or what it means. . . . It is a sequence of actions set before you in a real space and real time. It operates like a mirror; or ink-blot, or a work of art. . . . It reflects man, his life, the world, the author and the spectator."

Reservations for seats may be obtained by calling 865-1884.

An internet communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the cless schedule

Alumni Fellows to give lectures

Five Alumni Fellows will visit the campus during the next week, and a number of public lectures will be given, including the following:

Allan W. Ostar, executive director of the American Association of State Colleges and Universities — Monday, April 28, 2 p.m., Room 101 Kern, on "The Higher Education Establishment in Washington"; Tuesday, April 29, 10 a.m., Room 101 Kern, on "Higher Education in Year 2000"; and Wednesday, April 30, 9 a.m., Room 101 Kern, on "Public Policy Issues in Higher Education."

Dr. John Bierl, president of the American Institute of Nutrition and Endocrinology, N.I.H. — Monday, April 28, 3:35 p.m., Room 112 Kern, on "Human Requirements of Vitamin E"; Tuesday, April 29, 2:45 p.m., Room 101 Altohouse Lab, on "The Alleged Role of Vitamin E in Enzyme Reactions." He will also be present for an informal, buffet lunch discussion Monday, April 28, at noon, Room 233 Human Development, on "Defining and Setting of Recommended Dietary Allowances."

Dr. Hugh F. Cline, executive director of the Russell Sage Foundation — Tuesday, April 29, 9:30 a.m., Room 307 Liberal Arts Tower, on "Design and Development of Research Programs"; and Wednesday, April 30, at 2:30 p.m., Room 101 Kern, on "Research on Civil Liberties."

In addition to the three named, Dr. George J. Bair, retired director of technical staff services for Corning Glass Works, and Charles Yoder, president of the American Society of Civil Engineers and head of a consulting engineering firm in Milwaukee bearing his name, will be on campus during the week.

Dr. Bair, past president of the American Ceramic Society is a 1955 Distinguished Alumnus of the University.

Dr. Eisenhower honorary alumnus

Dr. Milton S. Eisenhower, of Baltimore, Md., who served from 1950 until 1956 as the eleventh president of the University, will be awarded the title of Honorary Alumnus of the University.

The honor will be conferred on June 7 as a part of the annual Alumni Institute and Class Reunions weekend activities.

Dr. Eisenhower served as president of the State during the Centennial Year, 1955, when the June commencement exercises brought his brother, Dwight D. Eisenhower, then president of the United States, to the campus as commencement speaker and to receive an honorary doctor of laws degree. The year also marked the groundbreaking for the Helen Eakin Eisenhower Chapel, named for the deceased wife of the Penn State president.

At Johns Hopkins, Dr. Eisenhower served from 1956 until 1967, when he retired. He again was called to service as president, retiring again in 1971.

As the unanimous choice of Alumni Council members for the Honorary Alumnus designation, Dr. Eisenhower joins Dr. John W. Oswald, currently president of the University; Joe Paterno, football coach; and Mrs. Marie Underhill Noll, of Manheim, L.I., N.Y., and Boca Raton, Fla., widow of a distinguished alumnus, A. Robert Noll, for whom Noll Laboratory was named.

Hickel to give keynote speech Friday

Student environment conference opens; public invited

Eco-Action's "Student Environment Conference" will open this evening (Thursday, April 24) with registration and a reception in the HUB Reading Room, from 7 to 10 p.m.

Walter Hickel, Secretary of the Interior in 1969-70 and former governor of Alaska, will give the keynote address for the Conference Friday, at 8 p.m., in the HUB ballroom. He will discuss "Our Social Values and the Environment — A Conflict?"

In a variety of workshops and discussion groups, Friday and Saturday, topics ranging from environmental laws to ERTS will come under scrutiny, with the help of many faculty members and outside speakers, as well as student leaders. The program follows (all sessions are open):

Friday, April 25 — 9 to 10:15 a.m., SESSION A, "Organization of Local Groups and How They Can Influence the Government." (Leader, Peter Hamik, Eco-Action). SESSION B, "Recycling — a dis-

cussion of volunteer group recycling programs." Jim Frohner, leader, HUB reading room.

Friday, April 25 — 10:45 a.m. to noon, SESSION A, "Environmental Laws: What Are They and How Can We Affect Them." William Eichbaum (Dept. of Environmental Resources.) HUB assembly room. SESSION B, "The Environment: Movement — Five Years After the First Earth Day." (Leader, Tim Perkins. HUB reading room.

Friday, April 25 — 2:35 p.m., SESSION A, "Industry in the Environment." Dr. Patrick Atkins, ALCOA Dept. of Health and Environment, HUB assembly room. SESSION B, "Environmental Careers." Dr. George Pratt, EPA director of the Office of Education and Manpower Planning. HUB reading room.

Friday, April 25 — 3:45-5 p.m., SESSION A, "Will Economic Recession Lead to Environment Re-creation." Dr. Robert Latham, assistant professor of economics, HUB assembly room. SESSION B, "Student Environmental Groups." Mark Silverman, student. HUB reading room.

Saturday, April 26 — 9:10-11 a.m., SESSION A, "Energy and Resource Recovery from Solid Waste — Problems of Solid Waste Management." Donald Lazerchik, Bureau of Land Protection, HUB assembly room. SESSION B, "Energy Alternatives,"

student-led discussion, Bob Kleveland leader, HUB reading room.

Saturday, April 26 — 10:45 a.m. to noon, SESSION A, "Measuring the Quality of Life." Dr. J. F. Wohliw, professor of man-environment relations, HUB assembly room. SESSION B, "What Is SECO (Student Environmental Counseling Organization)." HUB reading room.

Saturday, April 26 — 2:35 p.m., SESSION A, "Formation of Giltzon Action Groups." Leonard Green, Pa. Citizens Advisory Council, HUB assembly room. SESSION B, Part 2 of Environmental Careers, Gary White, Dept. of Environmental Resource Management, HUB reading room.

Saturday, April 26 — 3:45 p.m., "Environmental Resource Selection and Mapping, Using the ERTS," by G. J. McMurtrie, associate professor of electrical engineering, HUB assembly room.

Literature on the environment will be displayed in the HUB reading room during the conference and environmental films, among them "The Living Filter" and "The Impact of Technology," will be shown in the HUB. Tours of the Breazeale Nuclear Reactor and the Living Filter will be available during the lunch break both days.

To resolve disagreements with faculty

Grad student guidelines established

Procedures for resolving disagreements that may arise between University faculty members and graduate students have been established.

The procedures, which will become effective July 1, 1975, exclude academic matters and are concerned with alleged violations of freedom, professional ethics, and procedural fairness and consistency.

Under the guidelines, developed with the cooperation of the Graduate Student Association, disagreements that cannot be resolved within the department or program may be referred in writing by a graduate

student or faculty member to the appropriate dean.

The dean will convene a hearing committee consisting of an equal number of graduate students and faculty members. The hearing committee, consisting of at least four persons, will hold hearings and then submit its findings and recommendations to the dean and to the aggrieved graduate student or faculty member.

The procedures provide for an appeal to the dean of the Graduate School on either the committee's decision or the action of the responsible dean.

Art education gets top ranking

In a survey conducted among members of the National Art Education Association, Penn State's art education graduate program was considered to be the best of 222 colleges and universities listed in the survey.

Responding to the question, "in your opinion, and from your personal point of view, what five universities, colleges or schools of art presently have the best graduate programs in your professional area?" the 212 responders listed Penn State's program 83 times, with Ohio State second, 61 times; Stanford 51, Indiana 41.

Council considers classroom problems

A preliminary report on smoking in classrooms and other public facilities of the University was presented last Thursday at a meeting of the University Council.

It is expected that the subcommittee will make a complete report at the next meeting of the Council, scheduled for May 1. Dr. Helen A. Guthrie, a member of the subcommittee, in making the report, said that the committee has been examining the problems from the standpoint of health, safety, visual appearance of facilities, personal discomfort, and custodial and maintenance problems.

She noted that the subcommittee has had extensive comments from many sources over the past few weeks and that the subcommittee, chaired by Dr. Walter H. Walters, has examined previous smok-

ing regulations, adopted in 1958 and 1964, which were conceived primarily with safety rather than health hazards or personal objections to smoking.

Council also continued its discussion of ventilation and other conditions in classrooms as they relate to the quality of instruction.

The matter of classroom smoking arose in this discussion and was blamed for some of the problems that result in classrooms where ventilation for one reason or another is limited.

Dr. Russell E. Larson, provost, presiding as chairman of the Council, said the University Division of Instructional Services is in the process of identifying classrooms where improper ventilation appears to be a serious problem.

Sonic meditation lecture Tuesday

Pauline Oliveros

"An Evening of Sonic Meditation with Pauline Oliveros" will be presented by the composer Tuesday, April 29, at 8 p.m. in Room 112 Kern Graduate Bldg. at the University.

An associate professor of music at the University of California's San Diego campus, Oliveros has been in the forefront of West Coast experiments with electronic and other forms of avant-garde music. She was graduated from San Francisco State College with a B.A. in music and was self employed as a teacher and professional musician for several years before becoming director of Mills College's Tape Center. She joined the San Diego faculty in 1967.

She has written numerous compositions, many of them on commission, for instruments ranging from the accordion to tape recorders.

Her appearance is being co-sponsored by the Graduate Student Association and the Institute for the Arts and Humanistic Studies.

News in brief

DANCE CONCERT

Ten dances, all choreographed by members of ORCHESTRIS, under the direction of Patricia Heigel Tanner, will be performed in a concert Thursday, Friday and Saturday, May 1, 2, and 3 at 8:30 p.m. and also Saturday at 2:30 p.m. in White Building Dance Theatre. Tickets are \$1.50 for gen-

(Continued on page four)

Downs, Williamson get Wilson awards

Hassler given Harry E. Truman Award

Dr. Tom Hickey, associate professor of human development and associate director of the Gerontology Center, has been elected president-elect of the Association for Gerontology in Higher Education. The group's members come from four-year colleges, community colleges with education and research programs in gerontology, and universities. Also included are interdisciplinary centers, conventional academic units, and institutions in the process of developing programs. The purpose of the association is to provide effective communication among the various institutions engaged in gerontology education programs. He will begin his term as president in the spring of 1976.

E. Truman Award

Death

In Writing

Barash Award

Friday, April 25, will be the final day for submitting nominations for the Barash Award for Human Service.

The first of the annual awards will be presented this spring to a member of the faculty, staff or student body at University Park who has contributed most, apart from regular duties, to human causes, public service activities and organizations for the welfare of fellow humans.

Nominations should be made to Della Durant, chairman of the nominating committee, 109 White Bldg., University Park.

Faculty volunteers in Cancer Society

Music has heavy schedule for week

Within the week, music programs to be offered at University Park include the Penn State Singers concert Saturday, April 26, at 8:30 p.m. in Schwab Auditorium; a song recital by student tenor Marlin Hubler Sunday, April 27, at 3:30 p.m. in the Music Bldg. recital hall; an Artists Series program by organist David Craighead on Monday, April 28, at 8:30 p.m. in the recital hall; a saxophone recital by faculty member William Dole, Wednesday, April 30, at 8:30 p.m. in the recital hall; a concert by Musica

da Camera, the University chamber orchestra, Thursday, May 1, at 8:30 p.m. in the recital hall; a concert by Symphonic Wind Ensemble Friday, May 2, at 8:30 p.m. in the recital hall; a flute recital by graduate student Nancy Ruffer, Saturday, May 3, at 8:30 p.m. in the recital hall; and a vocal recital by junior music major Anne Flaherty, Sunday, May 4, at 3:30 p.m. in the recital hall.

The Penn State Singers, directed by Raymond Brown, will sing four settings of the Ave Maria by Kodaly, Bruckner, de Victoria, and Verdi, as well as motets by Mendelssohn and Bach, songs by Vaughan Williams, Holst and Williams, and a duet from Bach's Cantata No. 28. Soprano soloists Debra Fatula and Julia McKinstrey will be featured in a set of madrigals by six English composers. No tickets are needed for this concert; doors of Schwab Auditorium open at 8 p.m.

William Dole, a member of the Claremont Woodwind Quintet, will include a sonata by Bach transcribed for saxophone in his program Wednesday. He will also play works by Charles Koechlin, in which flutist Overda Page and harpist Linda Thomas will join him. Pianist Philip Delta will assist Dole in works by contemporary composers.

• **Musica da Camera**, directed by Douglas Miller, in a program postponed from April 16, will play: Bartok's "Divertimento," a work by Schoenberg and Stravinsky's "Suite No. 2," in which several members of the young section of the University Symphony will join the chamber orchestra.

The program of the Symphonic Wind Ensemble, which is directed by Smith Toulson, on May 2, will include a work by Caspar and Fischer, and by Riegger, Persichetti (Symphony for Band), a sonata by Gabrieli, Schumann's "George Washington Bridge," Leonard Bernstein's "Dawn" from "Fancy Free," and Gustav Holst's "Suite in 5 Flat."

Pavilion play

At Pavilion Theatre, "Jim Dandy," the William Saroyan play, continues through Saturday.

Continuing at Pavilion Theatre through Saturday is the University Theatre production of "Jim Dandy," the William Safran play directed by Kelly Yeaton. A "mirror" company of players — each actor has a partner — has been used in producing the play. Two State College youngsters, Alan Finney and Larry Avey, play the role of Little Johnny. "Jim Dandy" tickets may be obtained at the box office.

University Public Calendar

April 24-May 4, 1975

Special Events

Thursday, Apr. 24 — ARHS Week: "An Evening of the Races," 5 p.m., "Mini races" at East Halls; at 7 p.m., "Steeplechase '75" at East Halls; at 10:30 p.m., fireworks, Intramural Fields, near stadium.

Thursday, Apr. 24 — Agricultural Leadership Workshop 7 p.m., Room 301 Ag Administration. Dr. Robert Howell on "Team Skills and Interpersonal Relationships."

Friday-Friday, Apr. 24-25 — "Antonia," film about composer Antonia Brico, 8 p.m., Room 112 Kern.

Thursday-Saturday, Apr. 24-26 — Student Environmental Conference, sponsored by Eco-Action, sessions in HUB assembly room and HUB reading room. Thursday, 7-10 p.m., registration and reception, reading room. Friday, sessions morning and afternoon; keynote address, 8 p.m., HUB ballroom. Walter Hickel, former Secretary of the Interior, on "Our Social Values and the Environment — A Conflict?" Saturday sessions, morning and afternoon.

Friday, Apr. 25 — Folk and Square Dance Roundup, 7:30 p.m., north gym White Bldg.

Friday, Apr. 25 — Nittany Halls talent show, 6 p.m.; at 8:30 p.m., free movies outdoors; at midnight, Record Hop — all events in Pollock Quad in ARHS Week.

Friday, Apr. 25 — Commonsplace Coffeehouse, 2 p.m., Room 112 Kern.

Saturday, Apr. 26 — Penn State Singers concert, 8:30 p.m., Schwab.

Saturday, Apr. 26 — Sports: Men's baseball, vs. Pittsburgh, 2 p.m. Women's softball, vs. Brockport, 12:30 p.m.

Saturday-Sunday, April 26-27 — Phyrst Cup Rugby Tournament, sponsored by Penn State Rugby Club, 12 noon both days, fields east of flower gardens.

Saturday, Apr. 26 — From noon to midnight, a Day of Music, HUB or ballroom, to benefit Volunteer Service Center in ARHS Week.

Sunday, Apr. 27 — Marlin Hubler, tenor recital, 3:30 p.m., Music Bldg. recital hall.

Sunday, Apr. 27 — Sports: Men's tennis, vs. Colgate, 2 p.m.

Sunday, Apr. 27 — Chapel Service, 11 a.m., Eisenhower Chapel. Charles Lupton, Executive Director, Office of Gifts and Endowments.

Sunday, Apr. 27 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, Apr. 28 — Pat Paulsen, comedian, and Terry Beard, 8 p.m., University Auditorium, as part of Residence Hall Week. ARHS. Tickets, \$1.50 at HUB desk.

Monday, Apr. 28 — Jack Bieri, Alumn Fellow, Laboratory of Nutrition and Endocrinology, NIH, President, American Institute of Nutrition, on "Human Requirements of Vitamin E," 3:35 p.m., Room 112 Kern.

Tuesday, Apr. 29 — Sports: Women's lacrosse, vs. Maryland, 4 p.m.

Tuesday, Apr. 29 — Agricultural Leadership Workshop, 7 p.m., Room 301 Ag Administration. Dr. Joan Thompson and Dr. Daryl Heasley on "Leadership Skills and Group Communication."

Tuesday, Apr. 29 — Artists Series film, Ingmar Bergman's "The Silence," 8:30 p.m., University Auditorium.

Tuesday, Apr. 29 — Paulo Oliveira, composer, "An Evening of Solo Meditation with Pauline Oliveros," 8 p.m., Room 112 Kern.

Tuesday-Wednesday, Apr. 29-30 — Alpha Phi Omega Bloodmobile, 9 a.m.-5 p.m., HUB ballroom.

Wednesday, Apr. 30 — ARHS Week, Centennial Halls, 6:30 p.m., front lawn of McEwen Hall. Mattress Show, 8 p.m., HUB ballroom. Coffee House with Sunday Drive and Stan Shepherd, 11 p.m. Terror Films, HUB ballroom.

Wednesday, Apr. 30 — "Noondays" devotion service, 12 noon, Eisenhower Chapel. Rev. Ned Weller.

Wednesday, Apr. 30 — University Theatre student preview, "Dracula," 8 p.m., Playhouse Theatre.

Wednesday, Apr. 30 — William DeLo, saxophone recital, 8:30 p.m., Music Bldg. recital hall.

Wednesday, Apr. 30 — Sports: Men's baseball, vs. Juniata, 3:30 p.m. Men's lacrosse, vs. Loyola, 8 p.m.

Thursday, May 1 — GSA workshop, 7:30 p.m., Room 101 Kern.

Thursday-Saturday, May 1-3 — University Theatre, "Dracula," 8 p.m., Playhouse Theatre.

Thursday, May 1 — Musica da Camera, 8:30 p.m., Music Bldg. recital hall.

Thursday-Saturday, May 1-3 — Orchestral annual Spring Dance Concert, 8:30 p.m., and matinee Saturday, 2:30 p.m., White Bldg. Dance Theatre.

Friday, May 2 — PSU Symphonic Wind Ensemble, 8:30 p.m., Music Bldg. recital hall.

Friday, May 2 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Friday, May 2 — Sports: Women's golf, vs. Ithaca, 3:30 p.m. Women's lacrosse, vs. Ithaca, 3:30 p.m.

Friday-Saturday, May 2-3 — "Teaching Conference" sponsored by Inter-Varsity Christian Fellowship, Black Christian Fellowship, and Campus Crusade for Christ, with Larry Tomczak and C. J. Mahaney; sessions Friday at 7:30 p.m.,

Saturday at 10 a.m. and 2 and 7:30 p.m., University Auditorium.

Saturday, May 3 — "New Perspectives" program by Returning Women Students organization, all day, Room 101 Kern. Registration at 9 a.m., principal speakers, Dr. Jane Berry, LaGuardia Community College, N.Y., at 9:45 a.m.; Jean Swenson, Temple University, 1:30 p.m.; panel discussion at 2:45 p.m. on "Adults and Learners: Myths and Facts."

Saturday, May 3 — Nancy Ruffer, flute recital, 8:30 p.m., Music Bldg. recital hall.

Saturday, May 3 — Sports: Men's tennis, vs. Kent State, 2 p.m. Men's Golf Invitational Tournament, 1 p.m.

Saturday-Sunday, May 3-4 — Chess Tournament, 9 a.m. — midnight, HUB main lounge.

Saturday, May 3 — Returning Women Students Conference, all day, Rooms 101 and 102 Kern.

Saturday, May 3 — Penn State Dairy Exposition "show day," Dairy Barns, 8 a.m.

Sunday, May 4 — Anne Flaherty, soprano, 3:30 p.m., Music Bldg. recital hall.

Sunday, May 4 — Sports: Golf invitational Tournament, 1 p.m.

Sunday, May 4 — President's reception for international students, 3 p.m., Room 101 and 102 Kern.

Sunday, May 4 — GSA Interest night, 7:30 p.m., Room 102 Kern.

Sunday, May 4 — Open-Air Art Show, 1-4 p.m., Pollock Quad.

Sunday, May 4 — Chapel Service, 11 a.m., Music Bldg. recital hall. Dr. James Cone, Professor of Theology, Union Theological Seminary.

Sunday, May 4 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, Apr. 24 — Engineering Acoustics, 4 p.m., Room 166 Willard. John B. Dohc on "Transmissibility Across Simply Supported Rectangular Thin Plates with Loading Masses or Ribs."

Thursday, Apr. 24 — Chemistry, 12:45 p.m., Room 333 Whitmore. John A. Osborn, Harvard University, on "Mechanistic Studies in Organometallic Chemistry," 2 p.m., Room 112 Kern.

Thursday, Apr. 24 — Physics, 3:35 p.m., Room 117 Osmond. David Sealer, Bell Telephone Laboratories, Murray Hill, N.J., on "Charge-Coupled Devices."

Thursday, Apr. 24 — Agronomy, 8:30 a.m., Room 111 Tyson. Roy Sjoholm on "Transformation of Aromatic Compounds by Fungal Enzymes."

Thursday, Apr. 24 — Transportation Institute, 2:20 p.m., Room 168 Materials Research Lab. Irving Hand, state and regional planning, on "Land Use Controls and Travel Demand."

Thursday, Apr. 24 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Frank Scholmeier, RAPS, Greer, Coeur, Missouri, on "Regional Air Pollution Study at St. Louis."

Thursday, Apr. 24 — Biophysics, 4 p.m., Room 617 Life Science I. S. V. Sheshadri, Moscow State University, on "DNA Replication in Blue-Green Algae."

Thursday, Apr. 24 — Mathematics, 4 p.m., Room 115 McAllister. Maurice Auslander on Algebra.

Thursday, Apr. 24 — Statistics, 4 p.m., Room 50 Willard. David Harville, Wright Patterson Air Force Base, on "Allocation of Experimental Units Using Observed Covariate Values."

Friday, Apr. 25 — Physical Chemistry, 4:30 p.m., Room 115 McAllister. H. L. Strauss, University of California, on "Intermolecular Forces in Liquids from Spectroscopic Studies."

Friday, Apr. 25 — Analytical Chemistry, 2:45 p.m., Room 333 Whitmore. Aubrey L. McAllister on "Lasers in Analytical Chemistry."

Friday, Apr. 25 — Microbiology, 4 p.m., Room 52 Frear. Dr. F. O'Neill, University of Utah Medical School, on "Control of Nitrogen Division in Neural, Neoplastic and Virus Transformed Cells."

Friday, Apr. 25 — Computer Science, 4 p.m., Room 325 Whitmore. Dr. Harold S. Stone, electrical engineering, University of Massachusetts, on "The Structure and Use of Array Computers."

Friday, Apr. 25 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Robert E. Day, engineering, University of Missouri-Rolla, on "Alkali Ion Move-

ment in Single and Mixed Alkali Glasses."

Monday, Apr. 28 — New Communities, Architecture, 2 p.m., Room 322 Sackett. James Alcott, Real Estate Research Corp., New York, on "Planning of a New Community: The Case of Minnesota Experimental City."

Monday, Apr. 28 — Inter-Science, 4 p.m., Room 333 Whitmore. Roberta Colman, chemistry, University of Delaware, on "Studies on the Mechanisms of Isocyanate Dehydrogenase." At 11 a.m., Room 333 Whitmore, Helmut Beinert, University of Wisconsin, on "Respiratory Chain" 1975: The Impact of ERP Spectroscopy on Our Present Picture.

Monday, Apr. 28 — Genetics, 3:55 p.m., Room 111 Tyson. Elizabeth Specht on "Robertsonian Translocations in Animals."

Monday, Apr. 28 — Horticulture, 12:45 p.m., Room 101 Tyson.

Tuesday, Apr. 29 — Geosciences, 4 p.m., Room 26 Mineral Sciences. John C. Griffiths on "Exploration for and Evaluation of Natural Resources."

Tuesday, Apr. 29 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Evan Gustow on "Mechanism of Resistance in Helminthosporium Eyspot Disease of Sugarcane."

Tuesday, Apr. 29 — Physiology, 3:45 p.m., Room 111 Life Science I. Dr. R. H. Hamerstedt, biochemistry, on "Changes in Energy Metabolism of Bovine Sperm During Epididymal Transit."

Tuesday, Apr. 29 — Solid Waste Management, 10 a.m., Room 145 Fenske. Donald Berman, Director, Department of Works, Allegheny County, on "Solid Waste Management, Past, Present, and Future, Allegheny County, Pennsylvania."

Tuesday, Apr. 29 — Philosophy, 4 p.m., Room 273 Willard. Max F. Fish, Emeritus Professor of philosophy, University of Illinois, on "The Proof of Pragmatism."

Tuesday, Apr. 29 — Biochemistry, 2:45 p.m., Room 101 Althouse. Jack Bieri, Alumn Fellow, NIH Laboratory of Nutrition and Endocrinology, on "The Alleged Role of Vitamin E in Enzyme Reactions."

Tuesday, Apr. 29 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond. Dr. Katsunari Shimada, Jet Propulsion Lab., California Institute of Technology, on "Thermionic Engineering Conversion."

Tuesday, Apr. 29 — Solid State, 3:45 p.m., Room 250 MRL. Dr. D. R. Frankl, physics, on "Physical Adsorption."

Wednesday, Apr. 30 — Biochemistry, 4 p.m., Room 101 Althouse. Jack Bieri, Bradshaw, Washington University Medical

School, St. Louis, on "Structural, Functional and Revolutionary Aspects of Nerve Growth Factor and Insulin."

Wednesday, Apr. 30 — Fuel Science, 4 p.m., Room 301 Mineral Industries. Dr. Leonard G. Austin on "Mechanical Properties of Coal."

Wednesday, Apr. 30 — Remote Sensing, 2:30 p.m., Room 225 Electrical Engineering West. Donald L. Henninger on "Floodplain Delineation Using ERTS Multispectral Scanner Data."

Wednesday, Apr. 30 — Community Consultation Laboratory, 2 p.m., Room S-130 Human Development. Edward D. Hollander, Robert R. Nathan Associates, Washington, on "The Perils and Pleasures of Consultation."

Thursday, May 1 — Agronomy, 8:30 a.m., Room 111 Tyson. Bill Stout on "Soil Factors Affecting Milk and U uptake by Corn."

Thursday, May 1 — Mathematics, 4 p.m., Room 115 McAllister. B. Johnson on Analysis.

Thursday, May 1 — Biophysics, 4 p.m., Room 617 Life Science I. Dr. Donald Crick, New York Medical College, on "Intestinal Absorption of Compounds Injected into the Amniotic Cavity of Mammalian Fetuses."

Thursday, May 1 — Air Pollution Control, 3:45 p.m., Room 145 Fenske. David S. Natus, chemistry, University of Illinois, on "Physico-Chemical Factors Influencing the Health Impact of Airborne Particles."

Thursday, May 1 — Chemistry, 12:45 p.m., Room 333 Whitmore. Daniel E. Martire, Georgetown University, on "Theory of Solute Retention and Selectivity in Gas and Liquid Chromatography."

Thursday, May 1 — Water Pollution Control, 10 a.m., Room 145 Fenske. EPA, National Eutrophication Program, 2:30 p.m., Room 105 Mech. Eng., on the Program.

Thursday, May 1 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Dr. Beacher, Director of Marketing and Communications, Port Authority of Allegheny County, on "Marketing Transit."

Thursday, May 1 — Computer Science, 4 p.m., Room 101 Althouse. Webb Miller, on "Automatic Verification of Numerical Correctness."

Thursday, May 1 — Man-Environment Relations, 4 p.m., Room 5-131 Human Development. Dr. Mark Glass, University of Texas, on "Behavioral Antecedents of Coronary Heart Disease."

Thursday, May 1 — Statistics, 4 p.m., Room 69 Willard. Dr. Victor L. Wallace, University of North Carolina, "Numerical Markov Analysis of Computer Models."

Lecture

Thursday, Apr. 24 — Guillaume de la Fuente, architect in charge of the French embassy project in Brasilia, on "Recent Work in Brasilia," 7:30 p.m., Room 64 Willard, sponsored by department of architecture.

Thursday, Apr. 24 — William E. Barksdale, Vice President of Cook Industries, Inc., Memphis, on "Changes in the World Food Complex."

Monday-Friday, Apr. 28-May 1 — Priestley Lectures, Dr. Michael Boudart, Stanford University. Time and place to be announced.

Thursday, May 1 — Sigma Xi Spring Lecture Series, 8:30 p.m., Room 112 Kern. Dr. Jean Carew, Harvard University, Laboratory of Human Development, on "Effects of Environment on Intellectual Development of Young Children."

Meetings

Monday, Apr. 28 — USG Senate, 7 p.m., HUB assembly room.

Monday, Apr. 28 — Education Student Council, 1 p.m., Room 123 Chambers.

Monday, Apr. 28 — OTIS, 6:30 p.m., Room 203 HUB.

Tuesday, Apr. 29 — ARHS, 7 p.m., Room 101 Kern.

Tuesday, Apr. 29 — American Society for Engineering Education, 12 noon, Dining Rooms A-B HUB. Charles W. Yoder on "Self Service Society."

Tuesday, Apr. 29 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.

Wednesday, Apr. 30 — Penn State Mining Engineering Society, 7:30 p.m., Room 26 Mineral Sciences. Joe B. Alfaro, American Institute of Mining, Metallurgical and Petroleum Engineers, on "The AIME Today — the Value to Students in Materials Disciplines."

Films

Thursday-Sunday, Apr. 24-27 — Centre Cinema, "The Sugarland Express," 7:30 and 10 p.m. Thursday, Simmons; Friday-Sunday, Room 105 Forum.

Wednesday, Apr. 30 — Commonsplace Theatre, "A Streetcar Named Desire," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday-Sunday, May 1-4 — Centre Cinema, "Dr. Zhivago," Thursday and Sunday, 7 p.m., Friday and Saturday, 6:45 and 10:15 p.m. Thursday in Simmons, Friday-Sunday, Room 102 Forum.

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

(Continued from page one)

erial admission may be purchased now at 105 White Bldg. or later at the door before each performance. Ballet, modern dance, and jazz dance techniques will be used.

Allie Rogers and Barbara Schutte prepare for the program of dance by Orchesta May 1, 2 and 3 in White Bldg.

AT PLAYHOUSE

A 19th century classic of gothic horror, "Dracula," will be the University Theatre production in Playhouse Theatre May 1-3 and 6-10, with a special student preview April 30. Directed by William Kelly, the play is adapted from the novel by Bram Stoker which made the Dracula synonymous with horror stories. Tickets may be purchased at the box office now, or seats may be reserved by calling 865-1884.

RETURNING WOMEN

A program on "New Perspectives" will be held Saturday, May 3, in Room 101 Kern Building by the organization, Returning Women Students, which is open to all with no registration fees.

The meeting will have as a morning speaker, at 9:45 a.m., Dr. Jane Breier, professor of social science at La Guardia Community College, N.Y., who will speak on "Returning — Relating — and Creative Coping." Small group discussions will follow the talk.

At 1:30 p.m., Jean Swenson, director of continuing education for women at Temple University, will be the speaker, and at 2:45 p.m., a panel discussion on "Adults as Learners, Myths and Facts," will be held with Dr. Ray Bornier, professor of human development; Ruth Fine, graduate student in human development; and Myrtle Williams, undergraduate.

TEACHING CONFERENCE

Black Christian Fellowship, Campus Crusade for Christ, and Inter-Varsity Christian Fellowship are sponsors of a "Teaching Conference" on the theme of "The Unshakable Kingdom," Friday and Saturday, May 2 and 3, in University Auditorium. The Friday session is at 7:30 p.m., and sessions will be held Saturday at 10 a.m., 2 p.m. and 7:30 p.m.

The conference will be led by Larry Tomczak and C. J. Mahaney, both of whom have been involved in a large teaching ministry in Washington, D.C., called "Triumphantly Abiding in God." Tomczak is author of "Clap Your Hands" and is considered to be the first full-time Roman Catholic lay evangelist in the U.S. Both he and Mahaney were here earlier in the year in Schwab Auditorium and Grace Lutheran Church in town.

The conference is open to everyone in the area.

HEALTH FAIR

Thirty local and state organizations will take part in the third annual Health Fair in the Hetzel Union Building Ballroom May 7 and 8. Examinations of various kinds, demonstrations, and films will be featured, and much literature of interest to the general public about health matters will be distributed. Everything is free.

Some 3,500 people witnessed last year's fair, open to everyone in the area, students and residents.

RUGBY TOURNAMENT

The annual "Phyrst Cup Rugby Tournament" will be staged by the Penn State Rugby Club Saturday and Sunday, April 26 and 27, in the fields east of the Flower Gardens (north of East Halls), with activity beginning at 12 noon each day. There is no admission charge for spectators to watch not only local teams but teams from Eastern U.S. and Canada.

FSHA 410 DINNER

An Oregon Pioneer menu and motif will feature the FSHA 410 class special dinner Wednesday, April 13, in the Maple Room of the Human Resources Bldg. The menu will include cranberry juice, hot spinach salad, homemade White House bread with strawberry preserves, baked stuffed rainbow trout, Indian stew, buttered peas with mushrooms, hot apple pie, fruit bowl. The cost is \$4.50 including tax. For reservations, call 865-7441.

FREE-U TENNIS

Free-U is organizing a second group of "Tennis Partners," so that when anyone feels the urge to exclaim, "Tennis, Anyone!" he will have a list of "anyones" to refer to. Free-U maintains a listing of persons who occasionally or frequently need a tennis opponent or partner for doubles, with phone number, address, relative skill, and approximate times when the person is available to play. Anyone on the list may obtain a copy by just sending a self-addressed, stamped envelope to Free-U in the HUB, or through Campus Mail. Considering a very large list unmanageable, Free-U is starting a second group to supplement the partners' list of 80 persons already established and working well. You can join the new list by calling Free-U, 863-0038.

Artists series has organist

Lancaster-born organist David Craighead, who has been recruited, teacher, and church organist for 33 years, will give a program Monday, April 28, at 8:30 p.m. in the Music Bldg. recital hall, as a special feature of the Artists Series.

His program will include a concerto by Vivaldi arranged by J. S. Bach; a chorale fantasia by Dietrich Buxtehude; Mozart's Andante in F major, K. 616; a Bach prelude and fugue; Hugo Dietler's "Orgel-sonata," Op. 18, No. 2; and a triptych, No. 51, by Marcel Dupre.

Craighead is current co-chairman of the newly organized keyboard department of the Eastman School of Music.

Exhibits

Museum of Art — Lee Krasner: Collages and Works on Paper, Gallery C, until April 27. Selections from the Permanent Collection, Gallery B. Ancient Peruvian Ceramics from the Collection of Dr. and Mrs. Kehl Markley, Gallery A, opening May 4.

Chambers Gallery — Brent Wilson, Leon Altier, and Education, Painting and Sculpture, until April 25. Undergraduate exhibition, all media, opening April 25.

HUB Gallery — "French Cheeses and Wine," French Embassy Exhibit, until April 27. "African Arts," Smithsonian Institution Exhibit, opening April 28.

Hammond Gallery — "Black and White Progression Series," paintings by David Rubelo, 2-6 p.m., daily.

Kern Gallery — Paintings, sculpture and ceramics by Zeko Kujundic, associate professor of art, Fayette Campus, thru May 3.

Pollock Lounge — Campaign and Slogan Buttons, until April 30.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, MAY 1, 1975

PUBLIC RELATIONS ASSISTANT — Hershey Center

Responsible to the Director of Public Relations for establishing job procedures and developing graphic designs for publications. Bachelor's degree or equivalent preferably in Art plus up to one year of directly related experience.

THE UNIVERSITY IS AN EQUAL OPPORTUNITY EMPLOYER

Check hospital insurance coverage

Faculty and staff members of the University should review periodically the deduction being taken from their paychecks for their hospital coverage, to be certain that they are paying for the correct coverage.

The reason the review should be made is that changes in family status may affect your costs and your coverage. For example, when you get married, when you have a first child, or when your spouse stops working for the University, you run the risk of having inadequate dependent coverage unless you do something about it.

You should check your coverage if any of the following circumstances arise:

1. Your spouse or child begins working for the University as a regular employee.
2. Your spouse or only child dies.
3. You are divorced.
4. Your only dependent child enters military service or reaches his 19th birthday (or 23rd birthday in the case of a full-time student).
5. Your only dependent child gets married.
6. Your spouse reaches age 65.

How do you know if you have the right coverage or are paying the right amount?

Compare the amounts shown on your salary check stub with the amount you should be paying as shown in the following table:

INSURED PERSONS	MONTHLY	BI-WEEKLY
Employee, only	None	\$6.00
Employee, child, children	\$1.75	\$3.50
Employee, spouse	\$2.60	\$5.20
Employee, spouse, child	\$5.00	\$10.00

(These rates apply when all insured persons are under age 65. Persons over age 65 are insured in a different plan at no cost.)

If a change should be made, call, write or visit the Employee Benefits Division, 133 Willard, 865-1473. The University has no way of knowing whether a change should be made, so it is the employee's responsibility to keep the records up to date and accurate. No refunds for overpayment will be made unless it is shown the University was in error.

Bland cites burn center's value

Wheeler fund needs continuing help

There will be a continuing need for community help through the Todd Wheeler Burn Fund to aid the young man who was seriously burned and has lost a leg as the result of an accident while he was trying to help put out a brush fire.

Richard E. Bland, associate professor of engineering research at the Applied Research Laboratory, a national figure in the fire prevention and control aspects of safety and locally active in the drive to aid the Wheeler family through the obviously difficult financial problems, found out that costs may exceed \$350 per day for young Wheeler's stay at the special burn center where he is currently being treated.

"Here is a young man epitomizing all the good things we try to teach our young people about helping those in need and

sacrificing for others," Bland says, "and as a result of a kind of accident that could happen to anyone, he will be married for life. We must learn something from such accidents, but now we must think of helping Todd and his family as much as we can. University people have a stake in Todd's battle and what we do as a result of what happened."

Bland explains further that the Crozer-Chester Burn Unit, in Chester, Pa., is one of only 20 such units in the country. By help to meet the huge financial costs, and Pennsylvania to be of service to everyone here who might suffer a severe enough burn, whatever the cause, that cannot be handled adequately by local facilities. He says the area is fortunate to have the center, but he points out that such centers always must get help in major cases to pay for the care because this is an area of very costly treatments.

"Insurances seldom cover nearly enough of the total costs of treatments, which often extend for years," Bland says. "Community help is frequently the only practical way to meet the huge financial costs, and fortunately communities usually do give for special cases like this. Most people wouldn't know, however, that severe burn cases require many months and years of hospital treatment, even after the patient has gone home. Nor do they realize the family adjustments that are always needed."

Todd's father, Nelson, was once a design draftsman at the Ordnance Research Laboratory (now Applied Research Lab) and is now employed at HRS-Singer.

(Contributions to the fund will be accepted for as long as they are needed, even though the main thrust of the drive was made two weeks ago. Faculty and staff members may help by sending checks to the Todd Wheeler Burn Fund, Alpha File Co., State College, Pa. 16801, or they may be left at any office of the Peoples National Bank.)

The accident focuses attention, Bland asserts, on the special problems fire fighters face, but also should re-emphasize everyone the responsibilities to prevent fires. Few communities, he believes, do enough in the line of education related to fire prevention, but he admits he is at a loss to understand fully what "educational" really means. Pointing out potential dangers doesn't seem to be enough, he declares. In spite of the many different ways now used to get that story across. Human nature being what it is, people will do things in spite of knowing about the potential danger — brush fires being only one example.

The cooperation of many, many people was needed, and given, in Todd Wheeler's case, and more cooperation is still required. The doctors at the Burn Center have praised the Mt. View Hospital staff for its skill in "stabilizing" the condition of the young man before he was transferred to the Center. Prior to that, many others had a hand in providing assistance. Bland hopes that spirit will continue, and that other burn victims in the future will get the kind of special help they will require. It could happen to anyone.

Retirement option deadline nears

Regular full-time University faculty and staff members who joined the State Employees' Retirement System prior to September 1, 1974, are reminded that May 31, 1975, is the final day by which all changes from the State retirement system to the new optional alternate retirement plan, TIAA, may be made. This option is provided by Act. 31 of the 1974 session of the Legislature and was first made available to all University faculty and staff members on September 1, 1974.

Anyone considering a change to TIAA should contact his or her Personnel Representative, the Business Manager if employed at one of the Commonwealth Campuses, the Personnel Office for those employed at the Hershey Medical Center, or the Employee Benefits Division, 133 Willard Building. The proper applications, including the application to withdraw contributions from the state system, may be obtained from any of these areas.

Because of continuing efforts to conserve energy, University buildings that have air conditioning will not be as cool this summer as in past years.

Raymond E. Zilly, vice president for business and chairman of the Executive Energy Conservation Committee, says that the target for personal comfort cooling this summer will be 78 degrees F. The new standard, however, will not apply where animal facilities, laboratory equipment, or computer installations dictate other temperatures.

The new target was determined after consultation with Dr. Elsworth R. Buskin, professor of applied physiology and director of the Laboratory for Human Performance Research, and Everett R. McLaughlin, professor of engineering research.

A program to hold cold-weather temperatures at 68 degrees F. and at 55 degrees F. in storage areas and other areas not regularly used by personnel has effected substantial savings in fuel since it became effective more than a year ago, Mr. Zilly said. He expects the higher temperatures in air-conditioned buildings to result in substantial savings also while not greatly affecting the comfort of personnel.

Science, technology, society symposium May 8

A symposium for faculty and students, sponsored by the faculty of the Science, Technology and Society Program at University Park, will be held Thursday, May 8, on the subject: "Studies in Science, Technology and Society at Penn State." The symposium's objectives are: to provide a forum for faculty and students to examine relationships among science, technology, the society; to enable people interested in the subject to meet and exchange views; and to further individual scholarship, courses of instruction, and student interest in the general subject.

The morning session, in Room 101 Kern, will be chaired by Robert J. Helms, mechanical engineering, and after opening remarks, Donald P. Verene, philosophy, will discuss "Technology and Myth" at 9:15 a.m. At 10:30, Robert G. Price, philosophy, and Barbara R. Price, law enforcement and corrections, will discuss "Are Neighborhood Values Technologically Obsolete?" At 11:15 a.m., Gordon N. Fleming, physics, will talk on the subject, "Mathematics as an Obstacle in the Communication of Science to the Nonscientist." The afternoon session, also in Room 101

Kern, will open at 1:30 p.m., with John E. Tilton, mineral economics, speaking on "The Future Adequacy of Non-Fuel Minerals: The Nature of the Challenge for Science, Technology and Society." At 2:15 p.m., "Societal Issues on Energy and Nuclear Power" will be discussed by Edward H. Kleban, nuclear engineering. At 3 p.m., Michael R. King, political science, will discuss "Sources and Uses of Scientific and Technological Information in State Legislatures."

A general discussion of papers will conclude the program.

Convocation

Both President John W. Oswald, and Dr. Helen I. Snyder, outgoing Chairman of the University Faculty Senate, will address the faculty of The Pennsylvania State University at the second University-wide Faculty Convocation, to be held at 4:00 p.m. on Tuesday, May 13, in University Auditorium.

Faculty members are invited to attend the convocation, as schedules permit. To accommodate faculty at other locations, a simultaneous broadcast will be made to each of 21 other locations where faculty may gather in an area convenient to them.

President Oswald will discuss current issues of importance and of broad concern to the University community; and Chairman Snyder will highlight the activities for the entire faculty of the actions of the University Faculty Senate. Both Dr. Oswald and Dr. Snyder invite faculty who have questions they would like to have addressed to send these in advance of the convocation date.

Faculty publications data due

Members of the faculty who wish their publications and professional activities listed in the University's annual bibliographies should send this information to their department heads and deans.

Detailed instructions for the submission of these listings are given in a May 1 memo from Dr. R. G. Cunningham, Vice President for Research and Graduate Studies. Copies of this memo are available from your department head or research dean.

Commonwealth Campus faculty should send their listings to the respective department head at University Park with an informal copy to their campus director and Commonwealth Campus dean.

Contributions should be in the department head's hands in sufficient time to

reach the Office of the Vice President for Research and Graduate Studies by July 31.

The bibliography will be split into two publications, "Research Publications and Professional Activities" and "University Publications and Reports to Agencies." To be included are research papers and articles, books reviewed and printed by established publishers, substantive and/or final reports sent to state and federal agencies, informational materials (articles and reports printed in non-standard journals), and novels, short stories, musical compositions, exhibits of fine arts, inventions, patents and any other activity that meets recognized standards of excellence in its field.

See the May 1 memo for complete information.

Dr. Michel Boudart

Priestley talks by Dr. Boudart

Dr. Michel Boudart, professor of chemical engineering and chemistry at Stanford University and an expert on chemical reactions, is the 1975 Priestley Lecturer and will give four seminar lectures next week to which the public is invited.

The four lectures are: "Titration of Surface Sites," Monday, May 5, 8 p.m. Room 115 Electrical Engineering West; "Turnover Numbers of Catalytic Sites," Tuesday, May 6, at 8 p.m., Room 115 Electrical Engineering West; "Geometric or Structural Effects," Wednesday, May 7, at 8 p.m., Room 333 Whitmore Lab; and "Electronic or Ligand Effects," Thursday, May 8, at 3 p.m., in Room 112 Kern.

Mu Chapter, Phi Lambda Upsilon, chemical honorary society, sponsors the annual lecture series along with chemistry-related departments of the University.

Last year Dr. Boudart, who is considered to be one of the most outstanding scholars in this country in the field of chemical catalysts and techniques for increasing the rates of chemical reactions, received the H. Wilhelm Award for Chemical Reaction Engineering, sponsored by the Mobile Oil Corp.

Seminar on women in management

A seminar to explore the problems of career-minded women on the personal, professional and societal levels will be held Friday and Saturday, May 9-10, sponsored by the Master of Business Administration Association, an organization of graduate students in the MBA program at Penn State.

Caroline Bird, author of "Everything a Woman Needs to Know to Get Paid What She's Worth" and of the 1968 book, "Born Female," will give the principal address to the seminar Friday, May 9, at 8 p.m. in Room 112 Chambers. She will speak on the seminar topic, "Women in Management."

Saturday's program will consist primarily of workshops led by both professional and academic experts on women's status in business. They will be held in Room 101 Kern, according to the following schedule:

Workshop A — 9:10-10 a.m., "Things Mother Never Told You About Life in the Corporate System."

Workshop B — 10:45 a.m. to noon, "The Corporate Door: 'Getting In.' The Organizational Elevator: 'Going Up?'"

Workshop C — 1:15-2 p.m., "The Private Life of the Woman Manager."

A plenary session will follow the third workshop.

SENATE: special meeting on committee structure

The University Faculty Senate will hold a special meeting Monday, May 5, to consider recommendations on Senate committee structure.

The special session is scheduled for 7 p.m. in Keller Bldg. auditorium. If time permits at the special meeting, the Senate also will consider a report from its Subcommittee on Student Evaluations.

The regular monthly Senate meeting on Tuesday, May 6, will begin earlier than usual. It is scheduled to start at 1 p.m. in Room 112, Kern Graduate Bldg.

At 2:30 p.m. during the regular meeting, the Senate will resume discussion of a report from the Subcommittee on Rank and Tenure.

Following the rank and tenure discussion, the Senate is scheduled to

hear reports from the Academic Affairs subcommittees on Physical Plant Planning and Resident Education — Continuing Education, the Academic Admissions Standards Committee, and the Faculty Affairs Subcommittees on Fringe Benefits and Salary Policies.

Also scheduled are reports from several special committees, including the Pass-Fail Committee, Student Academic Rules Committee and the Faculty Rights and Responsibilities Committee.

Results of the 1975-76 voting unit elections will be reported, while the Nominating Committee will present its reports on nominees for Senate officers, Faculty Advisory Committee, and the Faculty Rights and Responsibilities Committee.

If the agenda business is not concluded by 5:30 p.m., the Senate will recess and reconvene at 7 p.m. to complete its business.

News in brief

ARMED FORCES BAND

The U.S. Armed Forces Bicentennial Band will give a concert in University Auditorium at 8 p.m. Wednesday, May 7. Free tickets may be obtained from the Department of Music Education, Room 217 Chambers, or they may be ordered by mail by including a stamped, self-addressed envelope. The band and accompanying chorus were organized to celebrate the nation's bicentennial, and are touring the country, visiting all 50 states. The organizer and director is Lt. Col. Hal J. Gibson. Musicians and singers from all branches of the armed services are included, augmented by civilians from top music schools.

BUSINESS AWARDS

Alumni Achievement Awards will be presented by the College of Business Administration Alumni Association to two prominent alumni at a ceremony Friday, May 9, in the Penn State Room of the Nittany Lion Inn, at 5:30 p.m. At the same ceremony, the alumni group makes awards to faculty and students. The alumni to be honored are Robert W. Moore, BA 1948, who is controller of Consolidated Natural Gas Co., and Ronald G. Lench, 1954 graduate in accounting and a University of Pittsburgh Law School graduate, who is currently State Secretary of Property and Supplies.

(Continued on page four)

Conference on child abuse legislation

Speakers for a conference May 15 at University Park on the subject of "Child Abuse" will include the following:

State Senator Michael A. O'Pake, who was instrumental in amending legislation to deal with child abuse in the state.

Mrs. Sharon Raney Palone, founder and state director of the Arkansas Suspected Child Abuse and Neglect Volunteer Service, Inc.

Joseph L. Spear, child welfare specialist, Pennsylvania Department of Public Welfare, Office of Children and Youth.

John D. Lloyd-Still, M.D., assistant professor of pediatrics, Milton S. Hershey Medical Center.

Dr. Vladimir deLisovsky, professor of child development and family relationships, who is conference chairman.

Faculty members who may wish to hear these speakers may obtain further information concerning the schedule of the talks by calling Mrs. Patricia Bodman, conference coordinator, 865-7557.

The intention of the conference is to discuss current child abuse legislation in Pennsylvania and its significance to those who work with children in the private and public sectors.

The conference is a continuing education service of the College of Human Development.

Special Events

Thursday, May 1 — Musica da Camera, 8:30 p.m., Music Bldg. recital hall.
Thursday-Saturday, May 1-3 — University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
Thursday-Saturday, May 1-3 — Orchestral annual Spring Dance Concert, 8:30 p.m., and matinee Saturday, 2:30 p.m., White Bldg. Dance Theatre.
Friday, May 2 — PSU Symphonic Wind Ensemble, 8:30 p.m., Music Bldg. recital hall.
Friday-Saturday, May 2-3 — African Studies Colloquium on "The South African Glimma," Friday, 7:30 p.m., Room 112 Kern; Saturday, 10 a.m., 112 Kern. Reception and film, afternoon and evening.
Friday, May 2 — Sports: Women's golf, vs. Ithaca, 3:30 p.m. Women's lacrosse, vs. Ithaca, 3:30 p.m.
Friday-Saturday, May 2-3 — "Teaching Conference" sponsored by Inter-Varsity Christian Fellowship, Black Christian Fellowship, and Campus Crusade for Christ, with Larry Tomczak and C. J. Mahaney; sessions Friday at 7:30 p.m., Saturday at 10 a.m. and 2 and 7:30 p.m., University Auditorium.
Saturday, May 3 — Guitar workshop, conducted by William Matthews, 3 p.m., Room 110 Music Bldg.
Saturday, May 3 — "New Perspectives" program by retiring Women's Students Organization, all day, Room 101 Kern. Registration at 9 a.m., principal speakers, Dr. Jane Berry, LaGuardia Community College, N.Y., at 9:45 a.m.; Jean Swenson, Temple University, 1:30 p.m.; panel

discussion at 2:45 p.m. on "Adults and Learners: Myths and Facts."
Saturday, May 3 — Nancy Ruffer, flute recital, 8:30 p.m., Music Bldg. recital hall.
Saturday, May 3 — Sports: Men's tennis, vs. Kent State, 2 p.m. Men's Golf Invitational Tournament, 1 p.m. Women's softball, vs. West Chester, 1 p.m.
Saturday-Sunday, May 3-4 — Chess Tournament, 9 a.m.-midnight, HUB main lounge.
Saturday, May 3 — Penn State Dairy Exposition "show day," Dairy Barns, 8 a.m.
Sunday, May 4 — Anne Flaherty, soprano, 3:30 p.m., Music Bldg. recital hall.
Sunday, May 4 — Sports: Golf Invitational Tournament, 1 p.m.
Sunday, May 4 — President's reception for International students, 3 p.m., Room 101 and 102 Kern.
Sunday, May 4 — GSA interest night, 7:30 p.m., Room 102 Kern.
Sunday, May 4 — Open-Air Art Show, 1-4 p.m., Pollock Quad.
Sunday, May 4 — Chapel Service, 11 a.m., Music Bldg. recital hall. Dr. James Cone, Professor of Theology, Union Theological Seminary.
Sunday, May 4 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.
Monday, May 5 — "Miss Black PSU" pageant organizational meeting, 7 p.m., Walnut Bldg.
Monday, Wednesday, and Friday, May 5, 7, 9 — "A Goody Theatre Troupe" in "The Gospel According to a Fool," 12:30 p.m., on the Mall in front of Pattee.

Monday, May 5 — Dr. James H. Cone, Union Theological Seminary, lecture on "Christian Faith and Political Liberation," 10 a.m., Room 112 Kern.
Monday, May 5 — Evening of Student Chamber Music, 8:30 p.m., Music Bldg. recital hall.
Monday, May 5 — Alice Neel, portrait painter, slide-lecture, 8 p.m., Room 112 Kern.
Monday, May 6 — Gallery talk, in connection with exhibit of ancient Peruvian ceramics, by Alan Sawyer, University of British Columbia, on "Communications from the Past," 10:30 a.m., Gallery A, Museum of Art, sponsored by the Friends of the Museum.
Tuesday, May 6 — Sports: Women's lacrosse, vs. Lock Haven, 3:30 p.m. Women's softball, vs. Lock Haven, 3:30 p.m.
Tuesday-Saturday, May 6-10 — University Theatre, "Dracula," 8 p.m., Playhouse Theatre.
Wednesday, May 7 — U.S. Armed Forces Bicentennial Band concert, 8 p.m., University Auditorium.
Wednesday, May 7 — Claremont Woodwind Quintet, 8:30 p.m., Music Bldg.
Wednesday, May 7 — Sports: Men's baseball, vs. Buffalo (2), 3 p.m.
Wednesday, May 7 — FSHA 401 "Rose of Switzerland" dinner, Maple Room, Human Development Bldg. For reservations, call 865-7441.
Wednesday-Saturday, May 7-10 — Penn State Theatrics, "Camelot," 8:30 p.m., Schwab. Saturday matinee, 2 p.m.
Thursday, May 8 — Panel discussion on "Grade Inflation: Its Relationship to

the Educational Process," 3:30 p.m., Room 121 Sparks. Sponsored by the Liberal Arts Student Affairs Committee.
Thursday, May 8 — Phi Delta Kappa, "Foreign Sabbatical Scholar's Report," 8 p.m., Room 101 Kern.
Friday, May 9 — Sports: Men's tennis, vs. Pittsburgh, 2 p.m. Women's golf, State Spring Invitational, 9 a.m.
Friday, May 9 — College of Business Administration Assn. Awards Ceremony, 5:30 p.m., Penn State Room, Nittany Lion Inn, Alumni, faculty and student awards.
Friday, May 9 — Russel Shipley, clarinet recital, 8:30 p.m., Music Bldg. recital hall.
Friday, May 9 — Commonsplace Coffee-house, 8 p.m., Room 112 Kern.
Friday, May 9 — Classical Guitar and Chamber Music Concert, 8:30 p.m., Room 112 Kern.
Saturday, May 10 — P. S. Model R.R. Club auction, 2 p.m., Room 203 HUB.
Saturday, May 10 — Sports: Golf, Women's Penn State Spring Invitational, 9 a.m. Men's golf, vs. Army and Colgate, 9 a.m. Women's tennis, vs. Ohio State, 9 a.m. Men's lacrosse, vs. Lafayette, 8 a.m. White football game, 2 p.m.
Sunday, May 11 — Penn State Glee Club Annual Mother's Day Concert, 3 p.m., University Auditorium.
Sunday, May 11 — Chapel Service, 11 a.m., Eisenhower Chapel. Rev. Charles Cokely, Program Director of Religious Affairs.
Sunday, May 11 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Seminars

Thursday, May 1 — Agronomy, 8:30 a.m., Room 111 Tyson. Bill Stout on "Soil Fertility: Affecting Mg and K Uptake by Corn."
Thursday, May 1 — Mathematics, 4 p.m., Room 115 McAllister. B. Johnson on Analysis.
Thursday, May 1 — Biophysics, 4 p.m., Room 617 Life Science I, Dr. Donald Olick, New York Medical College, on "Intestinal Absorption of Compounds Injected into the Amniotic Cavity of Mammalian Fetuses."
Thursday, May 1 — Air Pollution Control, 3:55 p.m., Room 145 Fenske. David S. Natusch, University of Illinois, on "Physico-Chemical Factors Influencing the Health Impact of Airborne Particles."
Thursday, May 1 — Chemistry, 12:45 p.m., Room 333 Whitmore. Daniel E. Marlier, Georgetown University, on "Theory of Solute Retention and Selectivity in Gas and Liquid Chromatography."
Thursday, May 1 — Water Pollution Control, Kenneth M. Mackenhus, EPA, National Application Program, 2:30 p.m.
Room 105 Mech. Eng., on the Program.
Thursday, May 1 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Ed Beacher, Director of Marketing and Communications, Port Authority of Allegheny County, on "Marketing Transit."
Thursday, May 1 — Computer Science, 4 p.m., Room 101 Altohouse. Webb Miller, on "Automatic Verification of Numerical Computations."
Thursday, May 1 — Man-Environment Relations, 4 p.m., Room 5-313 Human Development. Dr. David Glass, University of Texas, on "Behavioral Antecedents of Coronary Heart Disease."
Friday, May 2 — Statistics, 4 p.m., Room 69 Willard. Dr. Victor L. Wallace, University of North Carolina, "Numerical Markov Analysis of Computer Models."
Friday, May 2 — Ceramic Science, 9:45 a.m., Room 301 Mineral Industries. Hiroaki Yanagida, University of Tokyo, on "Texture Sensitive Electrical Properties of Ceramic Materials."
Friday, May 2 — Bioengineering, 11 a.m., Room 329 Electrical Engineering East. Robert M. Neren, Ohio State University, on "Hot-Film Anemometer Velocity Measurements in the Cardiovascular Systems."
Friday, May 2 — Analytical Chemistry, 2:30 p.m., Room 333 Whitmore. Dan H. Waugh, on "Peak Enthalpimetry and Thermometric Titrations of Thiols."
Monday, May 5 — New Communities, Architectural, 12 p.m., Room 322 Sackett. Dr. Edward A. Tullis, Human Ecology

Center, Room 101, on "Innovations in Educational Methods for Young People and Adults in New Towns."
Monday, May 5 — Horticulture, 12:45 p.m., Room 10 Tyson. William R. Faber on "Rejuvenation of the Greenhouse Rose."
Monday, May 5 — Genetics, 3:55 p.m., Room 111 Tyson. Ko Harada on "Recent Research on Differential Staining of Chromosomes."
Monday, May 5 — Inter-Science, 4 p.m., Room 333 Whitmore. Gustavo Gudkowicz, M.D., pathology, State University of New York at Buffalo Medical School, on "Immunities of the Hemopoietic-Histocompatibility (H-H) System in Mice: A Mechanism for Controlling Hemopoietic and Leukemia Cell Proliferation."
Monday, May 5 — Air Environment Studies, Room 145 Fenske. Dr. Cord Tjellen, Research Triangle Institute, Office of Humus Management, Federal Research Station for Agriculture, Braunschweig, West Germany, on "Land Treatment of Municipal Waste Water, Sludge Disposal and Compost Research, Braunschweig, W. Germany."
Tuesday, May 6 — Clinical Psychology, 1:15 p.m., Room 351 Moore. Dr. Douglas N. Jackson, University of Western Ontario, on "The Measurement of Personality."
Tuesday, May 6 — Electrical Engineering, 2:20 p.m., Room 329 Electrical Engineering East. Dr. M. A. Saifi, Western Electric, on "Industrial Applications of Lasers."
Tuesday, May 6 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Mark Bookbinder on "Weather Control in Agriculture."
Tuesday, May 6 — Solid State, 1 p.m., Room 330 Dave. Dr. J. E. Rowe, Bell Telephone Laboratories, Murray Hill, on "Photoemission from Semiconductors."
Tuesday, May 6 — Solid Waste Management, 2:20 p.m., Room 140 Fenske. George Aitkin, Jr., Resident, Northwest Engineers, Inc., Tidoups, on "Should Public Acceptance Imply Compbat Pay for Consulting Engineers?"
Tuesday, May 6 — Physiology, 3:45 p.m., Room 111 Life Science. L. Wolinsky, Nutrition Program Human Development, on "Adaptation to Low Dietary Calcium Intakes in Rodent Species."
Tuesday, May 6 — Chemical Engineering, 3:45 p.m., Room 140 Fenske. J. M. Prausnitz, University of California, on "Some Applications of Molecular Thermodynamics for Chemical Process Development and Design."
Tuesday, May 6 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond. Dr. Douglas L. Jones, civil, mechanical and environmental engineer-

ing, George Washington University, on "Investigation of the Edge Sliding Mode in Fracture Mechanics."
Wednesday, May 7 — Biochemistry, 4 p.m., Room 101 Altohouse. Dr. William Held, Rosewell Park Memorial Institute, on "Assembly of Bacterial Ribosomes."
Wednesday, May 7 — Remote Sensing, 2:20 p.m., Room 225 Electrical Engineering West. Dr. Robert L. Cunningham, soil genesis, and Larry Hepper, agronomy, on "Computer Augmentation of Soil Surveying."
Thursday, May 8 — Physics, 3:45 p.m., Room 117 Osmond. Carl W. Wernitz, Catholic University, on "Puzzles in Plon-Nucleus Reactions."
Thursday, May 8 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Eric Hirst, Director of Office of Transportation Research, Federal Energy Administration, on "Energy Policy and Transport Demand."
Thursday, May 8 — Agronomy, 8:30 a.m., Room 111 Tyson. Wesley Mason on

"Genetic Variation of Protein, IMVD, and Morphological Traits of Orchardgrass."
Thursday, May 8 — Microbiology, 1 p.m., Room S2 Frear. Dr. Vernon F. Kalb on "A New Method for Measuring Protein Concentration." At 4 p.m., Room S2 Frear, Dr. S. V. Shestakov, M. V. Lomonosov, Moscow State University, on "Cell Division Mutants of Blue Green Algae."
Thursday, May 8 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Heinz Engbrecht, Technical Director, Wheelabrator-Frye, Inc., Pittsburgh, on "Electrostatic Precipitator Technology."
Thursday, May 8 — Mathematics, 4 p.m., Room 115 McAllister. D. A. Marlin on Logic.
Friday, May 9 — Physical Chemistry, 4 p.m., Room 333 Whitmore. K. Canerio (temporarily at Brookhaven National Lab.), on "Neutron Scattering from Adsorbed Gases."
Friday, May 9 — Analytical Chemistry, 2:30 p.m., Room 333 Whitmore. Dr. Arthur F. Findeis, N.S.F.

Lecture

Thursday, May 1 — Sigma Xi Spring Lecture Series, 8:30 p.m., Room 112 Kern. Dr. Jean Carver, Harvard University, Laboratory of Human Development, on "Effects of Environment on Intellectual Development of Young Children."
Thursday, May 1 — German Studies Lectures, 7 p.m., Room S207 Human Development. Dr. Dan P. Silverman, history, on "Power versus Ethics: The German Dilemma."
Tuesday, May 6 — "The Violence in Ireland, What Next?" by Alan J. Ward, Willard and Mary College, 7:30 p.m., HUB assembly room.
Monday-Thursday, May 5-8 — Annual Priestley Lectures, Dr. Michel Boudart, professor of chemical engineering and chemistry Stanford University. Monday, May 5, 8 p.m., Room 115 Electrical Engineering West, on "Titration of Surface Sites." Tuesday, May 6, 8 p.m., Room 115 Electrical Engineering West, on "Turnover Numbers of Catalytic Sites." Wednesday, May 7, 8 p.m., on "Geometric or Structural Effects," in Room 333 Whitmore. Thursday, May 8, 3 p.m., Room 112 Kern, on "Electronic or Ligand Effects."

Official

Monday, May 5 — First day for signing NDSL, SEOG, BEOG, and University Long Term Loans, Room 108 Shields. Last day, Wednesday, May 7.

Meetings

Monday, May 5 — Special meeting, University Faculty Senate, 7 p.m., auditorium, J. O. Keller Bldg to consider the report on Senate Committee Structure.
Monday, May 5 — USG Senate, 7 p.m., HUB assembly room.
Tuesday, May 6 — ARHS, 7 p.m., Room 203 HUB.
Tuesday, May 6 — University Faculty Senate, 1 p.m., Room 112 Kern. (Note earlier starting time.)
Wednesday, May 7 — Engineering Undergraduate Council, 7:30 p.m., Room 207 Sackett.
Tuesday, May 6 — GSA Council, 7 p.m., Room 101 Kern.
Tuesday, May 6 — College of Education faculty luncheon, 12:30 p.m., Room 101 Kern.
Wednesday, May 7 — Graduate Council, 2:30 p.m., Room 101 Kern.
Wednesday, May 7 — USG Academic Assembly, 7:30 p.m., Room 351 Willard.

Films

Thursday-Sunday, May 1-4 — Centre Cinema, "Dr. Zhivago," Thursday and Sunday, 7 p.m., Friday and Saturday, 6:45 and 10:15 p.m. — Friday in Simmons, Friday-Sunday, Room 102 Form.
Wednesday, May 7 — Commonsplace Theatre, "Glant," 7:30 and 9:30 p.m., Room 112 Kern.

Alice Neel to give illustrated talk

Portraitist Alice Neel will present an illustrated lecture at 8 p.m. Monday, May 5, in Room 112 Kern Graduate Bldg. at the University. She is one of the resource persons of the "Women and Creativity" course.

Neel, who last winter had a one-woman show at the Whitney Museum of American Art, has recently won the Childe Hassam Award, the National Endowment Award, the Benjamin Altman Award and the American Academy of Arts and Letters Award.

Born in Philadelphia, she was graduated from the Philadelphia School of Design in 1925 and worked as an artist on a series of W.P.A. projects throughout the 1930s. During this period, her subjects included Kenneth Fearing, the novelist and poet, and Joe Gould, Greenwich Village's most picturesque character.

She has painted everyone from Andy Warhol to Linus Pauling, and her work lives in private collections and museums throughout the country.

Neel's lecture, which is open to the

Alice Neel, portraitist, to lecture.

public, is sponsored by the Institute for the Arts and Humanistic Studies and the Graduate Student Association.

NEWS —

(Continued from page one)

37 the author of four books translated into five languages, will visit the University Park campus Sunday and Monday, May 4-5, giving a chapel service sermon and two lectures.

At 3 p.m. Sunday, Dr. Cone will give a talk on "The Religious Dimension of the Spiritual and Blues: An Interpretation" in the large lounge of the Helen Eakin Eisenhower Chapel.

Monday, May 5, at 10 a.m., he will give a public lecture on "Christian Faith and Political Liberation" (with special emphasis on women's liberation, Asian, and South American) in Room 112 Kern.

Sunday evening he will meet informally with faculty of religious studies and guests at the home of Charles L. Coleman, program director in religious affairs.

MEDEX ACCREDITED

The MEDEX Pennsylvania program at the Hershey Medical Center has been accredited by the American Medical Association Council on Medical Education. The program has held provisional accreditation since its establishment in 1973 and became eligible for full accreditation with the graduation of its first class in 1974. The program consists of 15 months of classroom and clinical training at the Medical Center and with physician preceptors. It is designed to train students as physician extenders.

RETIRED STAFF CLUB

The 170th meeting of the Penn State Retired Staff Club will be held Thursday, May 8, at 8:30 p.m. in the St. Andrews Episcopal Church Parish Life Center. Reservations for the buffet dinner should be made with Mr. and Mrs. F. H. Leuschner, 237-3393, by May 5. Dr. Robert Patrick will speak on "Hobbies."

BEAVER EXHIBIT

The annual Spring Art Exhibit and Sale, the tenth, will be conducted May 3-4 at Beaver Campus. Ribbons will be awarded to winners in each media category, and a best-of-show award will be made. The program also includes musical performances by a classical guitarist and folk guitarist Saturday afternoon, a concert by a recorder ensemble featuring 14th and 15th century chamber music Saturday evening, and a brief concert by the Beaver Campus Choral to complete the day. A reception for the artists will be held Sunday from noon to 5 p.m.

CAPITOL SUMMER

A summer education course that includes a two-week trip to England will be given by Capitol Campus, beginning June 9. The trip will take place June 16 through July 1. Students will explore British teaching methods for possible use in American classrooms by observing and participating in classes at Nottingham. The six-credit course, taught by Dr. David Onghiri, assistant professor of education, is limited to 40 people.

STUDENT ART

The third annual Art Student Show, the product of a year's work by students in the Department of Art, will be exhibited from May 5 to 24 in Zoller Gallery. The

end-of-the-year exhibit contains work done in all of the eight areas of art instruction, including ceramics, foundation design, graphic design, painting, photography, drawing, print-making, and sculpture. Faculty in each field make the selections from submission by students for inclusion in the show. Some 100 works are expected to be on view in the exhibition, open weekdays from 8 a.m. to 5 p.m. and weekends from noon to 5 p.m. in the gallery opposite the Museum of Art in the Visual Arts Bldg.

BERKS FOLK ART

Students at the Berks Campus will sponsor a Folk Art Festival May 10, with a book sale, music, games, art and crafts exhibits, astrology reading, films and caricature sketching. All these events are free and open to the public, but the "pot luck" supper at 6 p.m. will require a contribution of food to feed four to six people. Following supper, the Berks Campus Penn Players will present their melodrama, "Ten Nights in a Barroom."

AFRICAN ARTS

A panel exhibition of silk-screen reproductions of examples of the plastic arts of Africa south of the Sahara is currently on display on the first floor of the Hetzel Union Bldg. and will remain until May 25. The HUB Arts and Crafts Committee is sponsoring the exhibit.

The exhibition looks at the history and development of art across the diversity of the African continent. Research for the exhibit was conducted by three experts on African Art: Mme. Jacqueline Delange, formerly head of the African section of the Musee de l'Homme, in Paris; Philip Fry, curator of the Winnipeg Art Gallery, in Canada; and Manga Bekombo, of the French National Centre for Scientific Research.

On 34 panels, there are 132 individual illustrations.

DRACULA OPENS

William Kelly, formerly a producer/director for WPSTV and now a graduate student in theatre arts, is directing the legendary "Dracula the Vampire Play," based on the novel by Bram Stoker, which opens at Playhouse theatre today (May 1) and continues May 2-3 and 6-10. Curtain is at 8 p.m. The play deals with legend (or fact) surrounding Dracula, the Vampire, or VIOVODE VLAD TEPEȘ. Tickets may be reserved by calling 865-1884 or at the Playhouse box office.

BEHREND PLAYERS

The spring production of the Behrend (College) Players will be the Lansford Wilson play, "The Rimers of Eldritch," to be performed May 7-10 and 14-17 in the Studio Theatre. This is Wilson's award-winning play which gained the Drama Desk-Venue Rice Award for Best Play of 1967. It was first performed at the La Mancha Experimental Theatre Club in New York in July 1966, subsequently being performed at the Cherry Lane Theatre. The cast and crew for the play are all Behrend students. Arno Selco, instructor in theatre and film, directed and designed the production.

Grade Inflation Panel discussion

A panel discussion on "Grade Inflation: Its Relationship to the Educational Process" will be held at 3:30 p.m. Thursday, May 8, in Room 121 Sparks Bldg.

The program is sponsored by the Liberal Arts Student Affairs Committee, and all interested persons are invited to attend.

Dr. Eloise C. Snyder, professor of sociology and chairperson of the Student Affairs Committee, will open the meeting, which will be moderated by Dr. Robert S. Friedman, professor and head of the Department of Political Science.

Panel members include Dr. James B. Bartoo, dean of the Graduate School; Dr. Eugene N. Borza, associate professor of history; Frank Muraca and Kathleen Pavello, student representatives; and Dr. William Rabinowitz, professor of educational psychology.

Before House Committee

President argues for appropriations

Dr. John W. Oswald, president of the University, last week argued approval of the 1975-76 appropriation request of the University, including a restoration of the 20 per cent cut in the research appropriation proposed in the Governor's budget.

He emphasized at the hearing before the House of Representatives Appropriations Committee that Penn State's request for \$114.5 million is designed to achieve six major objectives, essential for the continued effective operation of the University.

The objectives are to:

—Cope with the inflated costs of operation.

—Provide equitable salary increases.

—Meet mandated State Retirement and Social Security costs.

—Keep Penn State open to the average Pennsylvania family by holding down tuition increases.

—Improve the medical education per capita reimbursement which has gone four years without an increase.

—Restore research and extension program levels.

"We are deeply aware of the difficult financial problems faced by you and the several to the present," President Oswald emphasized to the House. "We are attempting to do everything we can to deal with the fiscal realities."

"Nevertheless, it is especially critical that we communicate to you the serious problems for Penn State that would be created by an appropriation at the level proposed in the Governor's budget document."

The amount recommended is \$14 million short of the appropriation requested.

President Oswald expressed special concern over the potential impact of the recommended reduction of 20 per cent (\$3.4 million) in the 1975-76 research appropriation. He emphasized that the cut would actually mean a 30 per cent reduction in the organized research program when inflation is considered.

"This cut is a direct assault on one of the most important purposes and strengths of the University—strengths which are essential to Penn State's unique mission among the public institutions in Pennsylvania, including support of agriculture, mineral industries and industrial development."

Variety of music programs in offering

The Annual Mothers' Day Concert by the Penn State Glee Club will feature a guest soloist, the Hi-Lo's, and two barbershop quartets at 3:00 p.m. on Mothers' Day, Sunday, May 11, in the University Auditorium.

Directed by Bruce Trinkley, assistant professor of music, the group will perform Brahms' "Alto Rhapsody" for alto and men's voices with soloist Kathryn Cowdick, a senior in speech pathology and audiology from Allentown. Miss Cowdick will also sing the Brahms' "Lullaby."

Religious songs by such composers as Billings and Persichetti, "Desolation" by Richard Victor, graduate student and assistant Glee Club director, and a selection from Thompson's "Testament of Freedom," with text by Thomas Jefferson, will be performed.

The Hi-Lo's, 12 selected voices from the group, and two barbershop quartets made up of Glee Club members will sing traditional favorites.

One of the few original wind quintets written in the Romantic period will be among works performed in concert by the Claremont Wind Quintet at 8:30 p.m. Wednesday, May 7, in the Music Bldg. recital hall at the University.

"It comes at a time when the needs for research to solve the problems facing Pennsylvania and the Nation are more demanding than ever. To cut programs now would be a questionable economy. Indeed, in some cases, it could make meaningless several years of intensive investigation which is not yet complete and impair long-range prospects for needed technological breakthroughs. Such cuts could also damage the economic stability and weaken the basic academic strengths of the University."

Emphasizing the need to keep Penn State open to the people of Pennsylvania, Dr. Oswald noted that his appropriation request was based on a strong policy intention to avoid a tuition increase in 1975-76. He reminded the Committee that Penn State tuition is already among the highest in the Nation for a state university.

"With the University primarily dependent on two sources of revenue, State appropriations and tuition, a substantial tuition increase will be unavoidable if appropriation amounts are under the amounts considered essential," Dr. Oswald said.

Turning to the University's costs for State Retirement and Social Security benefits for employees, President Oswald said that the cost for the coming fiscal year is expected to rise \$4.8 million.

The requested increase in appropriation for medical programs, \$2.4 to \$3.4 million, is based on an increase in per capita rate, which has not changed in four years, although the per capita amount of 1971-72 has less than 83 per cent of the purchasing power today because of inflation.

An inadequate appropriation presents critical problems in other areas, too, Dr. Oswald emphasized. These include:

—Nursing programs, a high priority item which should be at least commensurate with those received by personnel in other educational institutions, government, and private industry in the Commonwealth.

Costs for additional fuel and utilities, up \$2 million in the past year, and increased conservation efforts now in effect.

Cost of goods and services necessary for departmental operations, a problem becoming more critical because most departmental budgets have been reduced in recent years and cannot be further cut without seriously affecting the University's programs.

Contemporary quintets by Dutch composer Henk Badings and Brazilian Heitor Villa Lobos will also be performed.

William Matthews, an international musician who performs on the lute and the guitar, will conduct a guitar workshop at 3:00 p.m. Saturday, May 3, in Room 110 Music Bldg.

Active as a tree-lance guitarist in New York City, Matthews has appeared with the Metropolitan Opera and the Contemporary Chamber Ensemble under such conductors as Pierre Boulez and Karl Bohm. He has taught at Columbia University and the Manhattan School of Music.

The workshop at the University, sponsored by the Department of Music and open to all interested persons, will feature discussions of various aspects of guitar technique and performance demonstrations of these techniques.

PENN STATE intercom

Volume 4, Number 34

May 8, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Elaine de Kooning, lectures May 13.

Painter lectures

Elaine de Kooning, a noted abstract painter, will give a slide-illustrated lecture Tuesday, May 13, at 8 p.m. in Room 112 Ken Graduate Bldg.

She is the last speaker to be brought to campus under the auspices of an experimental "Women and Creativity" course, and her appearance is co-sponsored by the Graduate Student Association and the Institute for the Arts and Humanistic Studies.

Currently lecturing at Parsons School of Fine Arts in New York City, Ms. de Kooning has held professorships at a number of institutions, including the University of New Mexico, Yale, Pratt Institute, the University of California at Davis, Carnegie-Mellon — where she held the Mellon Chair — and the University of Pennsylvania. She taught at Penn State in 1960.

Although Ms. de Kooning is perhaps best known as an abstract artist, she has also painted a number of portraits. She spent five weeks in Palm Springs, Fla., in 1962-63 sketching the late President John F. Kennedy from life. Her subjects have ranged from Allen Ginsberg and Joseph Hirschhorn to Casey Stengel.

McKay Donkin Award nominations are sought

The Committee appointed by President Oswald for the purpose of recommending candidates for the McKay Donkin Award requests assistance in nominating persons eligible for the award.

The award was established in 1969 in honor of the late McKay Donkin, who served as Vice President for Finance and Treasurer of the University from 1957 to 1968. It is to be awarded to the full-time member of the faculty, staff or retiree who has contributed most to the "economic, physical, mental or social welfare of the faculty" of the University.

The contribution of the nominee should be for duties or services which are above and beyond his regularly assigned duties. The award consists of \$500 and a certificate. Previous awarders have been William G. Mather, Ernest B. McCoy, Samuel C. Blazer, Eugene Wettstone, and Kenneth L. Holderman.

Recommendations for the award should be sent to any member of the Committee by Monday, May 19, 1975. Included with any recommendation should be information supporting the basis for the recommendation.

Committee members are Ray T. Fortunato, 108 Willard Building; G. Edward Phillips, 409A Business Administration Building; Stuart Forth, 505A Pattee Library.

HEALTH FAIR NOW IN SESSION — One of the current attractions at the 1975 Health Fair going on in the Hazel Union Building bathroom (concluding today, May 8) is this booth on Nutrition, in the charge of (seated) Dr. Simone Adams, assistant professor of medical dietetics, and (standing) Kelly Hamechek, graduate student in nutrition, Marion Hammond, instructor in nutrition, and Twila Zahner, graduate student. The Fair provides many services and much printed information on a broad range of health subjects. It is open to the general public, without charge, made possible by the cooperation of many health organizations, student groups, and University departments, including the Rittenour Health Center.

Renaissance fund needs faculty aid

The special problems of Penn State's Renaissance Scholars are probably better understood by A. M. Wellington, director of this special financial aid fund that helps the scholars, than by any other one person except the scholars themselves. So when he says this year, more than ever, the Renaissance Scholars Fund needs new help, he has good reasons for saying so.

Some of those reasons will show up in a special article in the Centre Daily Times tomorrow (May 9) featuring some of the scholars and information about the program. It will also say that Penn State people generally have a big stake in the Fund — faculty, staff, students, and alumni as well as some friends who have no other connection with the University than a desire to help needy students.

There are two very essential qualities for a student to become part of the Program — demonstrated scholarship and documented need. Pennsylvania has many who can qualify, and with economic conditions at their lowest in many decades, the number of students applying to the Program for help is increasing fast.

"And it is easy to demonstrate their scholarship," Wellington says. "The current group of scholars has a grade point average of over 3.00. Nineteen made the dean's list in the Winter Term and one girl was graduated with a 3.89 All-University average and a perfect score for all of her final nine terms."

College expenses, Wellington points out, will be up 10 to 20 per cent next year; the Renaissance Scholars are affected by rising costs just the same way other students are.

For 1975-76, a realistic goal, in terms of need, is \$100,000; in terms of supply, the University community will have a big part in determining the Fund's success. Con-

For one year only

Calendar announced for '76-'77

An academic calendar for 1976-77, continuing the present four-term system for one additional year, was announced this week by Dr. John W. Oswald, president of the University.

"Any permanent change in the basic academic calendar that might emerge from the recommendations of the Calendar Commission will not take place before the Fall of 1977," Dr. Oswald said, explaining that more study and consultation are necessary.

In extending for another year the present academic calendar, Dr. Oswald noted that it has been modified so as to implement a change adopted by the University Faculty Senate on March 4 with regard to final examinations.

The Senate had asked the President to implement the following action beginning with the Fall Term, 1976:

"An examination shall be given in the final examination period for each undergraduate course (including 400 level) except for practicum or laboratory courses. In no case may an examination covering the entire course be given outside the final examination period. For examinations of a more limited scope, an exception to this rule may be granted by the head of the Department or Division offering the course

for justifiable academic reasons. Such actions shall be reported to the dean of the College."

"Because six days are needed for scheduling final examinations for all courses, it was not possible to begin the Fall Term after Labor Day and end the Spring Term by June 1," Dr. Oswald said. "Therefore, I chose the option of beginning a week before Labor Day rather than ending in the middle of June."

A calendar for Summer Term, 1977, will be published later, when a long range decision about the calendar beginning with Fall, 1977, is made, President Oswald said.

The detailed calendar for June, 1976, through May, 1977, follows:

Summer Term 1976

Sunday, June 6 — Arrival Date (ten-week term)
Monday, June 7 — Orientation and Advising (ten-week term)
Tuesday, June 8 — Registration (ten-week term)
Wednesday, June 9 — Classes begin, 8 a.m. (ten-week term)
Monday, July 5 — Independence Day Recess, no classes (ten-week term)

Tuesday, July 6 — Arrival Date (six-week session)
Wednesday, July 7 — Registration (six-week session)
Thursday, July 8 — Classes begin 8 a.m. (six-week session)
Wednesday, August 14 — "Classes End 9:55 p.m. (ten-week term and six-week session)
Thursday-Saturday, August 19-21 — Final Examinations (ten-week term and six-week session)
Saturday, August 23 — Commencement (*Monday, July 5, 1976, classes will meet according to schedule on Wednesday, August 16, 1976)

Fall Term 1976

Monday, August 30 — Arrival Date
Tuesday, August 31 — Orientation and Advising
Wednesday to Friday, September 1-3 — Orientation and Advising
Wednesday to Friday, September 1-3 — Registration
Monday, September 6 — Labor Day Holiday (No classes)
Tuesday, September 7 — Classes Begin 8:00 a.m.
Monday, November 15 — Classes End 9:55 p.m.
Tuesday to Monday, November 16-22 — Final Examinations
Thursday, November 25 — Thanksgiving
Saturday, November 27 — Commencement

Winter Term 1977

Sunday, November 28, 1976 — Arrival Date
Monday, November 29 — Orientation and Advising
Tuesday, November 30 — Registration
Wednesday, December 1 — Registration
Thursday, December 2 — Classes Begin 8:00 a.m.
Wednesday, December 22 — Winter Term (Christmas-New Year's) Recess begins 9:55 p.m., (continues to Sunday, January 2, 1977)
Monday, January 3 — Winter Term Classes Resume 8:00 a.m.
Saturday, February 19 — Classes End 12:25 p.m.
Monday to Saturday, February 21-26 — Final Examinations
Saturday, March 5 — Commencement

Spring Term 1977

Tuesday, March 8 — Arrival Date
Wednesday, March 9 — Orientation and Advising
Thursday and Friday, March 10-11 — Registration
Monday, March 14 — Classes Begin 8:00 a.m.
Saturday, May 21 — Classes End 12:25 p.m.
Monday to Saturday, May 23-28 — Final Examinations
Saturday, June 4 — Commencement

Honors

When this picture was taken, it was Major Robert C. Fischer (center), officer-in-charge of the R.O.T.C. Training Corps Unit at the Altoona Campus, receiving an award given by the Freemason Foundation, Valley Forge, from Col. C. T. Kirkwood, professor of military science at University Park (left) and Jack Zubrod, Altoona Campus interim director. A few days later, he was promoted to lieutenant colonel in the U.S. Army. The award was given to Col. Fischer for his entry in the Foundation's Armed Forces letter-writing contest on the theme, "Human Goals: The Advancement of Human Dignity." In 1973, he won a George Washington Honor Medal and cash award in the same contest.

Jack G. Zubrod, interim director of the Altoona Campus, and Joyce Kipp, assistant professor of speech, were honored by the Altoona Student Government Association in a ceremony April 27 on the campus in which 23 students also received honors. Zubrod, who joined the Central Extension staff in 1946 as instructor at the DuBois Campus, was named assistant professor of botany in 1951 and in 1957 added the title of assistant administrative head of the Altoona Campus to his title. The students honored him with the Outstanding Administrator Award.

Mrs. Kipp, who was given the Outstanding Faculty Award, has been a member of the Altoona Campus faculty since 1965, teaches speech and theatre arts courses and is responsible for many dramatic productions on the campus.

Dr. Peter G. Fishburn, research professor of management science, has been elected as a Fellow of The Econometric Society, an international society for the advancement of economic theory in its relation to statistics and mathematics. He has been an associate editor of the society's journal "Econometrica" since 1972.

Dr. Gerard J. Brault, professor of French, has been informed of his promotion to Officer in the Ordre des Palmes Academiques. The decoration was awarded by decree of the French Ministry of Education dated February 14, 1975, for services rendered to French culture. Dr. Brault is the author of numerous books and articles dealing with French language and literature.

ture and is internationally known for his research in the medieval field. In 1972, he was elected to the Academie Internationale d'Heraldisque; in 1973, he was elected vice president of the Societe Rencessaux, an international society devoted to the study of the medieval Romance epic; and, in 1974, he was elected a Fellow of the Society of Antiquaries of London. Earlier he had held the rank of Chevalier in the Ordre des Palmes Academiques.

Edward A. Sukowski, who has served as an athletic trainer at Penn State since 1948 and was Penn State's last boxing coach before the sport was dropped as an intercollegiate activity, has been named to the Athletic Trainers Hall of Fame. He will be inducted at the annual banquet of the National Athletic Trainers Association on June 10. He is assistant professor of health and physical education.

Death

Mrs. Marion S. McDowell, who retired from the University in 1952 as associate professor of family relations after 24 years of service, died in Bridgeport, Conn., April 27. She was born in Warren, Pa., in 1887. She began her teaching career in 1924 as assistant to the superintendent of the Donora, Pa., public schools and taught also at Indianapolis Teachers College. In her years at Penn State she was director of the nursery school in addition to teaching. After retiring from the faculty, she taught at the University of Kentucky for five years and at Murray College, in Kentucky, for another year.

Mrs. Lemabel C. Parry, who retired in 1970 from the Agricultural Extension staff as Susquehanna County Extension home economist, died April 26; she was 71. She served as Millville County home economist from 1954 to 1957 before transferring to Susquehanna County. A native of Massachusetts, she was graduated from Framingham State College, with a B.S. in education.

In Writing

Dr. Robert Brubaker, professor of speech communication, is one of the authors of "Comparative Studies Between Normal and Language Disturbed Children," Supplement 323, Acta Otolaryngologica, Stockholm, Sweden, a 32-page monograph report on the perceptual processing of language-related stimuli by normal and language-handicapped children. The research was conducted at the St. Gallen Medical Academy in Switzerland with Drs. F. Aftoller and W. Bischofberger under a grant from the Swiss National Foundation for Scientific Research. Drs. Aftoller and Bischofberger are associated with the St. Gallen Medical Academy.

"Assess Training Competencies." This information has been distributed. (Ref. 40 FR 17393-17403, 4/18/75) (CFOA 13.563)

(17-7) The Office of Education has issued rules and regulations for its Fellow Through Program aimed at researching experimental community services that spur child development. Included in the program are provisions for grants and contracts for technical assistance and for demonstration. Technical assistance is aimed primarily at local follow-through projects and demonstrations for approaches to the education and development of handicapped children which can serve as a model. This information has been distributed. (Ref. 40 FR 17711-21, 4/21/75) (CFOA 13.433)

(17-7) Facilities in non-compliance with clean air and water standards may not be used for federal contracts, grants, or loans according to regulations issued by the Environmental Protection Agency. This information has been distributed. (Ref. 40 FR 17723-26, 4/16/75)

(17-7) As a point of information to Penn State faculty, an important part of foundation and corporate resource information is obtained through the PSI Office of Gifts and Endowments. OGE subsidizes to all current foundation and corporate funding source information including the Total Information System; The Foundation Directory; S & P Register of Corporations and GFAC Cookbook; Corporate Support of Higher Education. Many funding source information requests are processed through OGE and the Office of Federal Programs in Washington depending upon the type of funding needed.

(17-7) Rural community fire protection will be the focus of the most recent round of funding grants for rural fire protection (training and equipment). This information has been distributed. (Ref. 40 FR 17508-67, 4/21/75)

(17-7) The Fulbright-Hays Grants for University Lecturing and Research Abroad by American programs for 1976-77 have been announced by the Council for International Exchange Scholars. Applications should be made by July 1, 1975. Travel only grants should also be filed by that date except for Israel (Sept. 1, 1975)

Service Award for Dr. Matson

Dr. Frederick R. Matson (second from left) was the first person, in a manner of speaking, to have to wear the 25-Year Service Award plaque and Penn State Chair. Dr. Matson, who is research professor of archeology, had delivered a lecture to the Central Pennsylvania Society of the Archaeological Institute of America on April 24 just before those assembled retired to the Hillary Lion Inn for a reception and award ceremony. Presenting the plaque to Dr. Matson is Dr. Warren Morrill, head of the anthropology department, with Dr. Stanley Paulson, dean of the College of the Liberal Arts, (left) and Dr. Margaret Matson, professor of sociology and social welfare, adding to the ceremony. Dr. Frederick Matson joined the faculty in 1948 as professor of ceramics, coming from the Armstrong Cork Co., where he headed the glass section of the research laboratories. Earlier he had served as assistant curator of ceramics at the Museum of Anthropology, University of Michigan. A graduate of the University of Illinois, he received advanced degrees from the University of Michigan. In 1953, he was named professor of archeology, and in 1957 he was appointed assistant dean for research, College of the Liberal Arts, and administrative director of the Social Science Research Center. He has done extensive archeological work in the Near East and Egypt, and much of his research has been directed to the field of ceramics in archeological studies. His most recent honor, of the great many that he has received, was his election as President of the Archaeological Institute of America for a two-year term. The Institute, with a membership of over 6,000, has affiliated schools in Serie Fe, Rome, Athens, Ankara, and Tahrer. He is currently a research collaborator at the Brookhaven National Lab, working on neutron activation analysis of clays and pottery.

Music is in the air this week

James Benshoff, assistant professor of music, will conduct the Penn State Brass Choral in a program of music ranging from 16th century to contemporary in origin, Wednesday, May 14, at 8:30 p.m. in the Music Bldg. recital hall. A Gabrieli sonata will be followed by Samuel Barber's "Mutations." A graduate student in organ, Yasuko Koya Ohmoto, will join the brass for Daniel Pinkham's "Concertante for Organ and Brass." Compliments of the program will be contemporary works by Otto Ketting, Walingford Riger, Walter Hartley, and Eugene Bozza.

On Saturday, May 17, the University Symphony Orchestra, directed by Dr. D. Douglas Miller, assistant professor of music, will play Beethoven's Eighth Symphony, Wagner's overture to the Ring Cycle, "Evening Prayer and Dream Panitome" from Engelbert Humperdinck's Hansel and Gretel opera, and Rimsky-Korsakoff's "Capriccio Espagnol." The summer concert work will be conducted by Ronald Scholer, assistant conductor of the Symphony and also graduate student in music education. He is conductor of the Harrisburg Youth Symphony. The program is at 8:30 p.m. in University Auditorium.

As part of the program on Mother's Day, May 11, by the Penn State Glee Club, The Uncellad Four, barbershop quartet, will sing. The quartet consists of Anthony De Marinis, Bill Anderson, Jerry Zingler, and James Goldin. The program will also feature the Hi-Lo's, a glee soloist, and a variety of vocal music by the Glee Club directed by Bruce Trimbly. The program is at 3 p.m. in University Auditorium.

Provisional information is available from CIES, 2101 Constitution Ave., NW, Washington, D.C. 20018 (202-383-6627). Other Fulbright-Hays programs for which application may be made are: Graduate Study and Predoctoral Research Abroad (see 17-5 and Teaching in Elementary and Secondary Schools and Summer Seminars Abroad (202-245-2553) plus Doctoral Dissertation and Faculty Research Award (202-453-2556) (Contact: U.S. Office of Education, OHEW, Washington, D.C. 20002) (Ref. CIES announcement) . . . Criteria for funding Fulbright-Hays Training Grants have also been released (Doctoral Dissertation and Faculty Research Abroad, Group Projects Abroad, and Foreign Curricular Consultants). This has been distributed (Ref. 40FR18020, 2/24/75) (CFOA 13.438-439-441)

(17-2) The Office of Education (Right to Read) Reading Academy Program has a June 3, 1975 deadline date. Grants for these programs are made to provide exemplary reading assistance and instruction for functionally illiterate out-of-school youths and adults not reached through other reading programs. This information has been distributed. (Ref. 40FR18551-56, 18575-76; 4/29/75) (CFOA 13.533)

(17-3) Rules and regulations for Office of Education Staff Adult Education Programs have been issued since information about special experimental demonstration projects and teacher training. This information has been distributed. (Ref. 40FR1749-60, 4/23/75) (CFOA 13.400)

(17-4) A major meritoric education conference "Successful Experiences in Teaching Mathematics" will be held at the Commerce Department's National Bureau of Standards (NBS), Gaithersburg, Md. on May 20-21, 1975. For more information contact the Math Education Office, NBS, Washington, D.C. 20234 (201-921-2600). This has been distributed. (Ref. CBO 4/2/75) (OPF Notes 4/21/75)

REMINDER AND DEADLINE DATES

May 15/Apr. 15: 1975 15th NIA Public Media Program (March 20 INTERCOM 17-12) . . . May 16 for OGE Prestegation of Public Education (April

3 INTERCOM 17-13) . . . May 19 for OGE Educational Television Projects (April 17 INTERCOM 17-5) . . . May 22 for NSF/RANN Energy Storage Research (April 24 INTERCOM 17-6) . . . June 1 for Exxon Education Foundation (April 24 INTERCOM 17-6) . . . June 1, Oct. 1, Feb. 1 for several NIH programs (April 17 INTERCOM 17-1) . . . June 1 for HRA Research projects (April 24 INTERCOM 17-6) . . . June 1 for HVA projects (April 24 INTERCOM 17-6) . . . June 1 for NEH Consultants Grant Program (May 1 INTERCOM 17-2)

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 885-1387 (Network Line 401-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, MAY 15, 1975
PROGRAMMER A — Harshay Medical Center
Responsible to the Manager of the Medical Computer Center for analyzing the requirements of various systems and for the development of computer programs to fulfill these requirements. Bachelor level of technical training plus over two years of directly related experience. BUILDING SUPERINTENDENT, STUDENT AFFAIRS — University Park
Responsible to the manager, Hatzel Union Building, for supervising the maintenance of the Hatzel Union Building physical facilities and equipment and for providing technical support services for student activities. Broad training in recognized trades (or credits) equivalent to the Associate Degree level of technical training plus over two years, up to and including four years of directly related experience in the maintenance of physical plant systems is required. Must have demonstrated ability to supervise, train and direct other employees. The University is an Equal Opportunity Employer.

Funding Opportunities

For procedural and funding source information, call 865-1372.

May 8, 1975

(17-7) The National Institute of Mental Health (NIMH) has five programs with June 1 deadline dates (followed by October 1 and February dates) . . . Studies of Crime and Delinquency — contact Dr. Edwin L. Nichols (202-442-3556) . . . Metropolitan Mental Health Problems — contact Dr. Elliott Liebow (201-443-3731) . . . Mental Health of Children and Families Research Areas — contact Dr. Edwin L. Nichols (202-442-3556) . . . Mental Health of the Aging — contact Dr. Thomas Anderson (201-443-3726) . . . Mental Health Epidemiology — contact Dr. Shirley Reif-Margolis (201-443-3731) . . . Addresses are also available for all the above contacts. (Ref. OPP deadlines)

(17-7) Help in planning and evaluating humanities programs is available from the National Summer Seminars Program for 1976 in order to design program makes available \$2500 grants for a 20-day effort. The program deadline is July 1, 1975. For additional information contact: Assistant to the Director, Division of Educational Programs, NEH, Washington, D.C. (202-382-5891).

(17-7) The National Endowment for the Humanities announces a continuation of its NEH Summer Seminars Program for 1976 in order to support teachers who wish to work with scholars at larger institutions and utilize library facilities. Needed are scholars to direct seminars. This information has been distributed. (Ref. NEH)

(17-7) Proposed rules for Community Education Programs have been issued by the Office of Education. Included are training projects in institutions of higher education to (1) train people planning and operating these programs, (2) train state educational agency personnel, and (3)

University Park Calendar

May 8-18, 1975

Special Events

Thursday, May 8 — Phi Delta Kappa, "For-
giving Sabbatical Scholars' Report," 8
p.m., Room 101 Kern.
Thursday, May 9 — Panel discussion on
"Grade Inflation: Its Relationship to the
Educational Process," 3:30 p.m., Room
121 Sparks, is sponsored by the Liberal
Arts Students' Affairs Committee.
Thursday-Saturday, May 8-10 — Play-
house Theatre, "Dracula," 8 p.m., Play-
house Theatre.
Thursday-Saturday, May 8-10 — Penn
State Thespians, "Camelot," 8:30 p.m.,
Schwab. Saturday matinee, 2 p.m.
Friday, May 9 — Sports: Men's tennis,
vs. Pittsburgh, 2 p.m. Women's golf,
Penn State Spring Invitational, 9 a.m.
Friday, May 9 — Russell Shipley, clarinet
recital, 8:30 p.m., Music Bldg. recital
hall.
Friday, May 9 — Commonsplace Collee-
gehouse, 8 p.m., Room 102 Kern.
Friday, May 9 — Classical Guitar and
Chamber Music Concert, 8:30 p.m.,
Room 112 Kern.
Friday-Saturday, May 9-10 — "Women in
Management," sponsored by the Master
of Business Administration Association
on problems of career-minded women,
Friday, Caroline Bird, author and femi-
nist, on "Women and Management,"

8 p.m., Room 112 Chambers. Saturday,
workshops led by professional and aca-
demic experts on women's status in
business, starting at 9 a.m., Room 101
Kern.
Saturday, May 10 — P. S. Model R.R. Club
auction, 2 p.m., Room 203 HUB.
Saturday, May 10 — Sports: Golf, Wo-
men's Spring Invitational 9 a.m., Men's
golf vs. Army and Colgate, 1 p.m. Wo-
men's tennis, vs. Ohio State, 9 a.m. Men's
lacrosse, vs. Lafayette, 8 p.m. Blue-White
football game, 2 p.m. Women's lacrosse,
West Chester, 2 p.m.
Sunday, May 11 — Penn State Glee Club
Annual Mother's Day Concert, 3 p.m.,
University Auditorium.
Sunday, May 11 — Chapel Service, 11
a.m., Eisenhower Chapel. Rev. Charles
Coleman, Program Director of Religious
Affairs.
Sunday, May 11 — Black Christian Fel-
lowship worship service, 11 a.m., Black Cul-
tural Center.
Monday, May 12 — Vincent Nola, tenor
recital, 8:30 p.m., Music Bldg. recital
hall.
Tuesday, May 13 — FACULTY CONVOCA-
TION, 4 p.m., UNIVERSITY AUDITORIUM.
**SPEAKERS: PRESIDENT
WALD AND DR. HELEN I. SNYDER**,
outgoing chairman of the University Fac-
ulty Senate.

Tuesday, May 13 — Artists Series film,
Ingmar Bergman's "Persona," 8:30 p.m.,
University Auditorium.
Tuesday, May 13 — Sports: Men's golf, vs.
Bucknell, 1 p.m. Women's tennis, vs.
West Chester, 1 p.m.
Tuesday, May 13 — Elaine de Kooning, ab-
stract painter, slide-lecture, 8 p.m., Room
112 Kern.
Wednesday, May 14 — "Noonday's" devo-
tional service, 12 noon, Eisenhower
Chapel. Rev. Robert Boyer.
Wednesday, May 14 — Penn State Brass
Chorale, 8:30 p.m., Music Bldg. recital
hall.
Wednesday, May 14 — Artists Series film,
Ingmar Bergman's "Cries and Whispers,"
8:30 p.m., University Auditorium.
Wednesday, May 14 — Sports: Men's base-
ball, vs. Bucknell, 8 p.m.
Thursday, May 15 — GSA Workshop, 7:30
p.m., Room 101 Kern.
Thursday, May 15 — Sports: Men's base-
ball, vs. Indiana, 3 p.m.
Thursday, May 15 — FSMA 401 dinner,
Cena Puertorriquena cuisine of Puerto
Rico, 5:30 p.m., Maple Room, Human
Development. Reservations, 865-7441.
Friday-Sunday, May 16-18 — Conference
on "Recent Research in Byzantine and
Western Medieval Manuscript Illumina-
tion," Keller Bldg.

Friday, May 16 — Sports: Men's Track
and Field Invitational, 1:30 p.m. Wo-
men's Track Pennsylvania Open, 9 a.m.
Friday, May 16 — Peggy Horner, vocal
recital, 8:30 p.m., Music Bldg. recital
hall.
Friday, May 16 — Folk and Square Dance
Roundup, 7:30 p.m., north gym, White
Bldg.
Friday, May 16 — Commonsplace Collee-
gehouse, 8 p.m., Room 102 Kern.
Friday, May 16 — Bike show sponsored
by Hetzel Union Board, 10 a.m.-4 p.m.,
HUB ballroom.
Friday, May 16 — Pennsylvania Wheel
Chair Games Championships, Nator-
lum.
Saturday, May 17 — PSU Symphony Orche-
stra, 8:30 p.m., University Auditorium.
Saturday, May 17 — Sports: Men's base-
ball, vs. Temple (2), 1 p.m.
Sunday, May 18 — PSU Symphonic Wind
Ensemble Annual Pops Concert, 3:30
p.m., Arts Courtyard.
Sunday, May 18 — Hetzel Union Board
College House, 8 p.m., Patio, HUB, (Ball-
room in case of rain).
Sunday, May 18 — Chapel Service, 11
a.m., Music Bldg. recital hall. Univer-
sity Choir's Spring Program.
Sunday, May 18 — Black Christian Fel-
lowship worship service, 11 a.m., Black
Cultural Center.

Seminars

Thursday, May 8 — Physics, 3:45 p.m.,
Room 117 Osmond. Carl W. Wertz,
Catholic University, on "Puzzles in Pion-
Nucleus Interactions."
Thursday, May 9 — Transportation Insti-
tute, 2:20 p.m., Room 189 Materials Re-
search Lab. Eric Hirst, Director of Of-
fice of Transportation Research, Federal
Energy Administration, on "Energy Pol-
icy and Transport Demand."
Thursday, May 9 — Agronomy, 8:30 a.m.,
Room 111 Tyson. Wesley Mason on
"Genetic Variability of Protein, IMyD,
and Morphological Traits of Orchard-
grass."
Thursday, May 9 — Microbiology, 1 p.m.,
Room 52 Frear. Dr. Vernon F. Kalb
on "A New Method for Measuring Pro-
tein Concentration." At 4 p.m., Room
52 Frear, Dr. S. V. Sheshtakov, M. V.
Lomonosov, Moscow State University,
on "Cell Division Mutants of Blue Green
Algae."
Thursday, May 8 — Air Pollution Control,
2:20 p.m., Room 145 Fenske. Heinz
Englebrecht, Technical Director, Wheel-
abrator-Frye, Inc., Pittsburgh, on "Electro-
static Precipitator Technology."
Thursday, May 8 — Mathematics, 4 p.m.,
Room 115 McAllister. D. A. Martin on
Logic.
Friday, May 9 — Physical Chemistry, 4
p.m., Room 333 Whitmore. K. Carlier
(temporarily at Brookhaven National
Lab.), on "Neutron Scattering from Ad-
sorbed Gases."

Tuesday, May 13 — Solid State, 3:45 p.m.,
Room 250 MRL. Dr. K. Vedam, Materials
Research Lab., on "Characterization of
Defects in Surfaces by Optical Methods."
Tuesday, May 13 — Plant Pathology, 8:45
a.m., Room 213 Buckhout. Dr. D. R.
McKenzie on "Predicting Vascular Perfor-
mance."
Tuesday, May 13 — Philosophy, 4 p.m.,
Room 273 Willard. Corinna Delkeskamp
on "How to Make Sense of Making
Sense Out of Nonsense: Concerning the
Philosophical Justification of Consider-
ing Hume, on the Occasion of Book 1
in 'A Treatise of Human Nature.'"
Tuesday, May 13 — Electrical Engineer-
ing, 2:20 p.m., Room 325 Electrical En-
gineering. Dr. R. Y. Huang, TRW, on
"Communications and Digital System En-
gineering at TRW."
Tuesday, May 13 — Solid Waste Manage-
ment, 2:20 p.m., Room 140 Fenske. Dr.
Paul Zalteeman, civil engineering, Uni-
versity of West Virginia, on "Science
Fiction and Solid Wastes."
Tuesday, May 13 — Physiology, 3:45 p.m.,
Room 111 Life Science. Dr. A. Zarkow,
veterinary science, on "The Effects
of Silica and Carbon Inhalation on
Immune Responses of Mice."
Tuesday, May 13 — Chemical Engineering,
3:45 p.m., Room 140 Fenske. R. Eversen,
University of Natal, South Africa, on
"Characterization of Methanation Cat-
alysts Following Sintering."

Tuesday, May 13 — Engineering Science,
4 p.m., Room 215 Hammond. Dr. R. M.
Haykin, Karlsruhe on "Analysis of Tor-
sion Data."
Tuesday, May 13 — Clinical Psychology,
3 p.m., Room 101 Chambers. Dr. Arthur
Cron, Professional Affairs Office, Am-
erican Psychological Association, on
"Current Status of Federal Legislation
Affecting Psychologists and Related Pro-
fessions."
Wednesday, May 14 — Fuel Science and
Acoustics Lab. joint seminar, 4 p.m.,
Room 301 Mineral Industries. Dr. T. A.
Brzustowski, Vice President, Academic
University of Waterloo, Ontario, on "Tur-
bulent Diffusion Flames in a Cross
Wind."
Wednesday, May 14 — Remote Sensing,
2:30 p.m., Room 225 Electrical En-
gineering West. George May, agronomy,
and Seon Chung, electrical engineering,
on "Land Use Mapping of Selected
Watersheds in the Susquehanna River
System."
Thursday, May 15 — Transportation Insti-
tute, 2:20 p.m., Room 189 Materials Re-
search Lab. Jack Hiding, Director of
the Office of Transportation and Land
Use Policy, Environmental Protection
Agency, on "Environmental Policy and
Transport Demand."
Thursday, May 15 — Chemistry, 12:45
p.m., Room 333 Whitmore. Heinz G.
Floss, Purdue University.

Thursday, May 15 — Microbiology, 4 p.m.,
Room 52 Frear. Dr. W. Dobrogosz,
North Carolina State University, on "Ef-
fect of Cyto AMP on the Synthesis and
Function of the Escherichia coli Mem-
brane System."
Thursday, May 15 — Microbiology, 1
p.m., Room 52 Frear. David P. Labeda
on "Electron Microscopic Observations
of Bacteria in Soil."
Thursday, May 15 — Agronomy, 8:30 a.m.,
Room 111 Tyson. Frosty Long on "Poa
annua Control in Turfgrass," and Tom
Turner on "Soil Testing for Turfgrass
Areas."
Thursday, May 15 — Air Pollution Control,
2:20 p.m., Room 145 Fenske. Kenneth
Schere, meteorology and air pollution
control, on "Measurements of the Aero-
sol Structure over St. Louis."
Thursday, May 15 — Biophysics, 4 p.m.,
Room 617 Life Science. Dr. R. E. Ben-
veniste, Viral and Leukemia Branch, Na-
tional Cancer Institute, NIH, on "Trans-
fer of Type C Viruses between Species."
Friday, May 16 — Physical Chemistry, 4
p.m., Room 333 Whitmore. Clifton Dra-
per on "100th Anniversary of Controversy
over Crookes Radiometer."
Friday, May 16 — Analytical Chemistry,
2:30 p.m., Room 333 Whitmore. Chih-
Yuan C. Ting on "Electrode Kinetics of
Cyclochrom C Models."

Friday, May 9 — Analytical Chemistry, 2:30
p.m., Room 333 Whitmore. Dr. Arthur F.
Findeis, National Science Foundation,
on "Predicting the Future to Avoid Cata-
strophic Failure."
Monday, May 12 — New Communications,
Architecture, 2 p.m., Room 322 Sackett.
Donald Cameron, The Irvine Co., New
York, on "Innovations in Design and
Planning Methods of New Towns."
Monday, May 12 — Physics and Mathe-
matics joint colloquium, 3:45 p.m., Room
117 Osmond. Irvin Segal, mathematics,
Massachusetts Institute of Technology,
on "Mathematical Cosmology and Ex-
tragalactic Astronomy."
Monday, May 12 — Horticulture, 12:45
p.m., Room 10 Tyson. William R. Faber
on "Rejuvenation of the Greenhouse
Rose."
Monday, May 12 — Genetics, 3:55 p.m.,
Room 111 Tyson. Dennis Pettley on
"Biochemical and Genetic Aspects of
Restriction and Modification of DNA."
Monday, May 12 — Inter-Science, 4 p.m.,
Room 333 Whitmore. Alexander Rich,
biology, Massachusetts Institute of Tech-
nology, on "Transfer RNA — Molecular
Structure."
Monday, May 12 — Entomology, 4 p.m.,
Room 204 Patterson Bldg. Richard S.
Stark on "Aspects of Resistance by the
Germanium, *Perlaemonium X hortorum*, to
the Two-spotted Spider Mite, *Tetranychus
urticae*."

Exhibits

Museum of Art — Ancient Peruvian Cer-
amics from the Collection of Dr. and
Mrs. Mark Markley, Gallery A. Selec-
tions from the Permanent Collection,
Gallery C, opening May 11.
Zoller Gallery — Art Student Show.
Chambers Gallery — Undergraduate Ex-
hibitions.
HUB Gallery — "African Arts," Smithson-
ian Institution Exhibit.
Kern Gallery — Art Alliance of Central
Pennsylvania Multi Media Exhibition,
through May 16. Jeannette Foner, oils
and prints, opening May 17.
Pattie Library — An exhibit in conjunction
with the course "Women and Creativity,"
Main Floor and Fourth Floor East. Archi-
tectural models by second-year archi-
tecture students, East Corridor Gallery.

Lecture

Thursday, May 8 — Priestley Lecture, 3
p.m., Room 112 Kern. Dr. Michel Bou-
dard, professor of chemical engineering
and chemistry, Stanford University, on
"Electronic or Ligand Effects."
Monday, May 12 — Sigma Xi Spring Lec-
ture Series, 8 p.m., Room 105 Forum.
Dr. Harold A. Zuckerman, sociology,
Columbia University, on "Age, Aging,
and Age Stratification in Science."

Meetings

Monday, May 12 — Gamma Pi Epsilon,
women's premedial society, 8 p.m.,
McElwain piano lounge. Dr. Robert Mit-
chell on the biology of aging. The pub-
lic is invited.
Monday, May 12 — OTIS, 6:30 p.m., Room
203 HUB.
Monday, May 12 — USG Senate, 7 p.m.,
HUB assembly room.
Monday, May 12 — Education Student
Council, 7 p.m., Room 123 Chambers.
Tuesday, May 13 — College of Liberal Arts
faculty, 3:30 p.m., Room 121 Sparks.
Tuesday, May 13 — College of Agriculture
faculty, 4 p.m., Room 301 Agricultural
Administration.
Tuesday, May 13 — College of Education
faculty luncheon, 12:30 p.m., Room 101
Kern.
Tuesday, May 13 — ARHS, 7 p.m., Room
203 HUB.
Thursday, May 15 — Department of Ec-
onomics faculty, 2 p.m., Room 101 Kern.
Thursday, May 15 — English Department
faculty meeting, 3:45 p.m., HUB assembly
room.

WPSX highlights

Sunday, May 11 — An hour-long biographical docu-
mentary on Noel Coward, at 6 p.m.
Sunday, May 11 — "Upstairs, Downstairs" returns
at 8:30 p.m. This 13-part series on life in the
Edwardian era may also be seen at 8:30 p.m.
Fridays.
Monday, May 12 — "Anxiety, The Endless Crisis,"
is highlighted on the series, "The Thin Edge,"
at 8 p.m.
Monday, May 12 — At 10 p.m., Anthony Burgess,
author of "A Clockwork Orange," is guest on
"Talkback."
Tuesday, May 13 — Music at Penn State features
Karen Cain, instructor in music, in a half-hour
song recital of music by Schubert and Beethoven,
at 8 p.m.

Films

Thursday, May 8 — Commonsplace The-
atre, "Giant," 7 p.m., Room 112 Kern.
Monday, May 12 — Department of
French film series, Clement's "Forbidden
Games," 7 and 9 p.m., Room 112 Kern.
Wednesday, May 14 — Commonsplace
Theatre, "Some Like It Hot," 7:30 and
9:30 p.m., Room 112 Kern.

Dr. Harriet A. Zuckerman, Sigma Xi lecturer.

Sigma Xi lecture

Dr. Harriet A. Zuckerman, associate professor of sociology at Columbia University and a national Sigma Xi lecturer, will speak on "Age, Aging, and Age Stratification in Science," on Monday, May 12, at 8 p.m., in Room 105 Forum.

The Penn State chapter of Sigma Xi,

the scientific research society of North America, is co-sponsoring the talk with the Gerontology Center of the Institute for the Study of Human Development.

A graduate of Vassar College, Dr. Zuckerman received her Ph.D. from Columbia University in 1965 and was named assistant professor of sociology at Columbia and project director in the Bureau of Applied Social Research. Previously she had served as a research assistant and associate at Columbia and as a lecturer in sociology at Barnard College. In 1971-72 she was a visiting scholar at the Russell Sage Foundation.

The subject of Dr. Zuckerman's talk is also the subject of a chapter, of which she was co-author, in "A Theory of Age Stratification," published by the Russell Sage Foundation in 1972. She is also co-author of a book in press, "Women in American Science: The Principle of the Double Penalty," with Jonathan Cole. She has another book in press, "Scientific Elite: Studies of Nobel Laureates in the United States," to be published by the University of Chicago Press.

News in brief

HELP FOR HANDICAPPED

The Office of Physical Plant has begun a program of constructing curb cuts and ramps at various locations on campus for handicapped persons who must move from place to place in a wheelchair. The program is designed to provide a means for handicapped persons to reach any location on central campus following selected routes provided for by the new construction. A map will be developed to guide persons using the routes. The project is being undertaken in an effort to assist in making handicapped persons as self-sufficient as possible during their stay at the University Park Campus. A President's Commission on the Physically Handicapped Student presently is studying the overall University-wide considerations of the physically handicapped.

CHAMBERS SHOW

Jewelry, drawings, prints, sculpture, weavings, photography, and ceramics, the work of undergraduate art education students, is currently on display in the Chambers Building gallery, to continue there until May 21. Student members of the local chapter of the National Art Education Association aided in developing the show.

ORAL INTERPRETATION

The 17th annual Oral Interpretation Festival at the Hazleton Campus will be held this evening (Thursday, May 8) at 7 p.m., conducted by the Belles Lettres Society. Andrew Kefauver, Free tickets are available from him.

ENGINEERING ALUMNUS

The 1975 Outstanding Alumnus of the College of Engineering is Marvin J. Kudroff, vice president of the Los Angeles engineering end architecture firm of Daniel, Mann, Johnson and Mendenhall. He will receive a certificate at the annual Honors Day luncheon of the College today (May 8). He is a 1946 architectural engineering graduate, and he has had management responsibilities for many government and industrial projects since joining the firm in 1947. He has been active in many professional societies and has been honored by other organizations on many occasions.

RENAISSANCE —

(Continued from page one)

tributions from outside sources are dwindling, Wellington says, because of economic pressures at the same time that the Fund's needs are increasing.

In the near future, the Fund will send additional information to Commonwealth Campus faculty and staff members, who they too have a stake in the Fund. In the 1975-76 Renaissance Scholars group already accepted, 16 of the 73 will be enrolled at campuses other than University Park. Of the total group, 54 different towns and cities are represented, in all segments of the Commonwealth. All nine colleges will have Scholars.

One way the Fund may be helped is through contributions from Federal Income Tax rebates, Wellington conjectures, and he's hopeful faculty and staff members will think of the Fund. Checks may be made payable to The Renaissance Fund and sent to Room 100 Old Main.

FESTIVAL THEATRE

The 1975 Penn State Festival Theatre will begin its summer program July 11 and the season will include two plays and two musicals. As in the past four summers, the Festival is committed to American theatre, and the season includes "Awake and Sing," by Clifford Odets; "You Know I Can't Hear You When the Water's Running," "Girl Crazy," the musical by George and Ira Gershwin; and "Wonderful Town," with music by Leonard Bernstein and book by Jerome Chodorov and Joseph Fields, which is the season opener.

OPEN HOUSE

Friends of Dr. Donald Josephson, head of the dairy science department who has announced his retirement effective July 1, have planned an open house for Dr. Josephson and his wife, Ada, for Friday, May 23, from 2 p.m. to 4 p.m. in Borland Laboratory (Dairy Bldg.) on the top floor. The entire University community is invited to come and express their thanks for the Josephsons' 34 years of service to Penn State.

ALTOONA ARTS FESTIVAL

An arts festival that literally has something for nearly everyone will take over the Altoona Campus from noon Friday, May 9, to 6 p.m. Sunday, May 11, with no admission charge to any of the events and exhibits. The Campus is cooperating with The Altoona Arts Foundation, the Pennsylvania Council on the Arts, and the National Endowment for the Arts to stage the festival, which is attracting artists and arts and crafts work from all over the State. In addition to the paintings, drawings, photography, ceramics and sculpture that will be judged in professional and amateur categories, there will be non-juried categories of dance, theatre, musical groups, puppets, and art works of high school, elementary school and college students on display. One of the newer categories is that of news media film. Prizes totalling \$1000 will be awarded in the various categories. Among the unusual events will be a performance by the Jack-in-the-Box Players, a display by the Railroad Museum, and a puppet show.

HOT DIGGIDY DOGS

Children of all graduate students at University Park are invited to "Hot Diggidy Dog Day" Saturday, May 17, from 10 a.m. to 3 p.m. in the Kern Graduate Commons. There will be a free hot dog buffet, with entertainment. Tickets are now being distributed and may be obtained, without charge, at Kern Book.

CHARITY GOLF EVENT

The Sigma Pi Open, a better ball of partners golf tournament for the benefit of the Centre County Home Health Service, will be held Saturday, May 17, at the University White Course. Entries are limited to 75 teams and applications will close Wednesday, May 14, at 6 p.m. More than \$500 in merchandise will be given as prizes for the top ten teams; Calloway System of handicapping will be used. The entry fee is \$10 plus greens fee. Application blanks are now available at the HUB, at area golf courses, and at Sigma Pi fraternity. Starting times, in the morning of May 17, will be given to each team as close to the time desired as possible.

Change in Federal Income Tax Withholding

As a result of the Tax Reduction Act of 1975, the Internal Revenue Service has issued new withholding tax tables to reflect the reduced amounts to be withheld from employees' wages after April 30, 1975. Withholding is being reduced to coincide with certain tax reduction provisions which will apply when 1975 tax returns are filed next year.

The Internal Revenue Service has suggested that there are certain situations where individuals may be underwithheld. This may occur if —

1. You and your spouse are both employed.
2. You currently claim additional withholding allowances due to large itemized deductions.

For these individuals we suggest that you review your income tax withholdings after your next payroll check.

To make a change in withholding status file a new Employee's Withholding Exemption Certificate, Form W-4, with the Payroll Department, 301 Shields Building.

W-4 forms are available at the Payroll Department or through department heads and supervisors.

Commencement speaker chosen

William T. Coleman, Jr., who has had a distinguished career in law, business, and public service and in March became the nation's fourth Secretary of Transportation, will deliver the commencement address on May 31, President Oswald has announced.

More than 5,000 graduates will receive degrees at the May 31 exercises, scheduled for 10:30 a.m. in Beaver Stadium.

President Oswald said that the invitation to Secretary Coleman was extended in consultation with the advisory committee composed of Thomas M. Switzer, president, Organization of Town Independent Students; Wendy L. Morris, president, Association of Residence Hall Students; Patricia A. Wesner, president, Panhellenic Council; Stuart A. Williams, president, Interfraternity Council; Dr. Barnes W. McCormick, Jr., University marshal; David R. Schuckers, director of University relations; and Dr. Doris M. Seward, executive assistant to the President.

Secretary Coleman began his law career in 1947 as law secretary to Judge Herbert F. Goodrich of the U.S. Court of Appeals for the Third Circuit. The next year he became a U.S. Supreme Court law clerk.

William T. Coleman, Jr.

serving on the staff of the late Justice Felix Frankfurter.

An ardent defender of civil rights, Secretary Coleman was one of the authors of the legal brief that persuaded the Supreme Court in 1954 to outlaw segregation in public schools. In 1965, he was retained by former Governor Scrantom of Pennsylvania to assist in removing racial restrictions at Girard College in Philadelphia. He has served as a member of the national legal committee, director, member of the executive committee and president of the NAACP Legal Defense and Educational Fund. He has also served as a board member and president of the Earl Warren Legal Training Program.

U. Council approves smoking report

A report on smoking in classrooms and other public facilities of the University was given unanimous approval by University Council last week and will be forwarded as a recommendation of the Council to the President of the University.

The report was made by Dr. Walter H. Walters, chairman of the sub-committee that has been studying the matter since last December, when the matter was referred to the Council by the President of the University.

Council also discussed a preliminary report of a sub-committee concerned with classroom situations, other than grading, which cause anguish and inconvenience for students.

Special Education stipends available

The Department of Special Education has announced two tax free stipends of \$3500 (each for six months) for post doctoral study.

The stipends will be available from a Program Assistance Grant awarded to Penn State by the Bureau of Education for the Handicapped, U.S. Office of Education. (Awards will be contingent upon final negotiations of the grant with the University.)

Recipients will be selected on the basis of the compatibility of goals they hope to achieve on the Penn State Campus with

our capability to help them arrive at these goals. Preference will be given to individuals who have earned their doctoral degree 10 or more years ago, who are employed in institutions with less senior faculty in Special Education, and who may have a sabbatical leave to supplement the stipend available through this grant.

Persons interested in this post-doctoral fellowship should forward by June 30, 1975 an autobiographical sketch and statement of the goals they hope to achieve at Penn State to: Dr. J. L. French, head of the department of special education, Room 102 Cedar, University Park, Pa. 16802.

New purchase order forms explained

The following information is provided by Accounting Systems and Procedures for the new Purchase Order procedures to go into effect with ALL new year purchases. Please refer to the April 3rd issue of the "Intercom" and "Reporter" for initial information and Purchase Order exchange delo.

New year orders MUST be on new Purchase order forms. Current year orders must be on current forms. Keep current year forms on hand to finish the current year's purchasing.

University Park departments may obtain the new Purchase Order forms from General Stores by submitting a Requisition Invoice as in the past.

Commonwealth Campuses must use an Interpersonal Transfer (IOT) directed to Systems and Procedures at 225 Shields Building, University Park, to obtain new Purchase Order forms.

Partial Receiving Reports are available by calling Systems and Procedures (865-9558). They are provided with 120 sheets per pad.

General Forms Usage Guide Instructions for the new forms will be released in Mid-May. If you have any questions after reading the release, please contact Systems and Procedures.

It is the responsibility of the originating department, UPON RECEIPT OF MATERIAL, to initiate a Receiving Report or Partial Receiving Report to the Department of Purchases.

The Voucher Jacket will NOT be used for any new year changes.

PENN STATE intercom

Volume 4, Number 35

May 15, 1975

An internal communications medium for the ecedemic community of The Pennsylvania State University published weekly during the four terms of the cless schedule

As part of a ceremony of groundbreaking for the new Faculty Club facility, north of Nittany Lion Inn, Dr. Marjorie East welded the shovel to heap soil around a tree, planted to take the place of some which will be removed. Dr. East was chairman of the committee which planned the ceremony, and Dr. Robert O. Schein, current president, Dr. Donald R. Olson, president-elect, and University President Oswald Iani moral support in the tree planting.

Olson elected Faculty Club president

Dr. Donald R. Olson, professor and head of the department of mechanical engineering, was elected president of the Penn State Faculty Club in the elections concluded April 28.

Dr. Peter D. Bennett, professor of marketing, College of Business Administration, was elected vice president; and Dr. James R. Dungan, director of the institutional research and planning division of Budget and Planning, treasurer. The secretary, elected last year for a two-year term, is Dr. Robert L. Clewett, professor of business administration.

Members of the Club also elected the

following Directors-at-Large: Dr. Ralph W. Condee, Dr. Vladimir de Lissovsky, Dr. Marjorie East, Dr. Helen A. Guthrie, Ross B. Lehman, Dr. Arthur O. Lewis, Jr., Chalmers G. Norris, and Dr. Doris M. Seward. All officers and directors will take office Sept. 1, 1975. Dr. R. D. Schein remains on the Board as Immediate Past President.

A groundbreaking ceremony for the new Club facility north of the Nittany Lion Inn was held May 2.

Anyone desiring information on membership in the Faculty Club may obtain it in Room 109 Carnegie.

Commencement plans listed

Twenty Spring Term commencement exercises will be conducted by the University between May 23 and June 8 or, if rain forces the University Park ceremony indoors, the number will reach 24. The schedule for all the campuses and colleges, with speakers and numbers of degrees is:

Friday, May 23:

Hazleton Campus, 7:30 p.m. on campus. George R. Miller, president of the Hazleton Educational Council, will speak. Forty-nine degree candidates.

Saturday, May 24:

The Milton S. Hershey Medical Center, 10 a.m. in Founders Hall of The Milton S. Hershey School. Dr. Wesley Posvar, chancellor of the University of Pittsburgh, will speak. Sixty-five candidates for medical degrees and live for graduate degrees.

Sunday, May 25:

Behrend College, 2 p.m. in Erie Hall. Dr. Jan S. Prybyla, professor of economics at the University, will speak. Forty-seven associate degree candidates; 23 baccalaureate degree candidates, and 17 master of engineering degree candidates.

Schuylkill Campus, 2 p.m. in The Field House. About 45 degree candidates.

Wilkes-Barre Campus, 2 p.m. on campus. Pennsylvania Rep. Fred P. Shupnik, will speak. A total of 107 degree candidates.

Thursday, May 29:

Ogontz Campus, 7:30 p.m. in Lores Bldg. Dr. Robert G. Quinn, dean of academic instruction for Commonwealth Campuses, will speak. Sixty-two degree candidates.

Friday, May 30:

DuBois Campus, 2 p.m. in the Multi-Purpose Bldg. Dr. David H. McKinley, associate dean emeritus of the College of Business Administration, will speak. Eighty-five degree candidates.

York Campus, 8 p.m. in the Gymnasium. U.S. Rep. William Goodling will speak. Approximately 40 associate degree candidates and 10 certificate candidates.

Saturday, May 31:

McKeesport Campus, 10 a.m. in Buck Student Union Bldg. Dr. Ernest R. Weld-

(Continued on page four)

will be held at 10:30 a.m. and 2 p.m., according to these arrangements:

At 10:30 a.m.

Recreation Building — Main service with academic procession, President Oswald presiding, and Commencement speaker, William T. Coleman, Jr., at this service only. Graduates of the colleges of The Liberal Arts, Human Development, and Arts and Architecture, and their families and friends. Processional, as customary.

University Auditorium — Dr. Russell E. Larson, Provost, in charge. College of Education graduates, families and friends. No procession.

Schwab Auditorium — Dr. James B. Bartoo, Dean of the Graduate School, in charge. All master's and doctoral candidates, families and friends. No procession.

2:00 p.m.

Recreation Building — President Oswald presiding. Colleges of Business Administration, Engineering, and Science, families and friends.

University Auditorium — Dr. Russell E. Larson, Provost, presiding. Colleges of Agriculture, Earth and Mineral Sciences, and Health, Physical Education and Recreation, families and friends.

If the weather is cooperative, the ceremony will be held at Beaver Stadium, as customary, and a processional party, in academic dress, will form under the west stands at 10:15 a.m.

The decision as to whether to hold the ceremonies indoors, if weather is threatening early in the day, will be announced over local radio stations.

ate officers and chairmen of the standing committees, should be considered as an amendment to the Senate by-laws. The Senate in the proposal to "tenure in the degree granting units and University libraries."

MEETING OF MAY 6, 1975

The University Faculty Senate, reversing a decision made last month, has voted to remove geographic distinctions from proposed promotion and tenure policies.

At the same time, the Senate also approved having the president of the University continue to make the ultimate decision on promotion and tenure.

The proposed policies, as developed by a Senate subcommittee, would have linked tenure and promotion to live entities within the University — University Park, the Commonwealth Campus System, the College of Medicine at Hershey, the Capitol Campus and the Behrend College. This proposal was upheld by a 12-vote margin at the April Senate meeting.

At the May 6 session, however, the Senate approved, by a 78-47 vote, an amendment from Senator Wayne K. Murphy which changed all reference to geographic

(Continued on page four)

Senate acts on promotion-tenure policies

MEETING OF MAY 5, 1975

The University Faculty Senate has established a new committee system that more closely parallels the University administrative structure.

The Senate, in a special three-hour session May 5 approved an amended version of a plan developed by a special subcommittee. The proposal stems from recommendations of the Governance Committee calling for a committee structure that is strengthened in functions and possesses more delegated authority.

Under the plan, there are 13 standing committees, including three former subcommittees of the Academic Affairs Committee. An amendment that these three — Undergraduate Instruction, Continuing Education, and Extended Degrees — be retained as subcommittees of Academic Affairs was defeated.

Other standing committees under the new structure are Intra-University Relations; Admissions, Records, and Scheduling; Curricular Affairs; Academic and Athletic Standards; Libraries; Research; Faculty Affairs; Student Affairs, Awards, and Scholarships; External Affairs, and Planning

and Development. The Senate previously had approved establishment of a Faculty Advisory Committee and Committee on Committees and Rules.

Many of the amendments made on the Senate floor during the special session dealt with makeup of the committee mem-

berships. Approved was a proposal by Senator Dion Stewart that non-student senators may sit on committees after all student senators have been assigned.

Also approved was a motion made by Nunzio J. Paladino that establishment of a Senate Cabinet, to be made up of Sen-

Senate officer nominations listed

Nominations for 1975-76 officers of the University Faculty Senate are as follows:

Chairman — Dr. Barnes W. McCormick, Jr., professor and head of the department of aerospace engineering; **Sally S. Small**, senior assistant librarian and head of the Berks Campus library; **Murray S. Martin**, associate dean of the Libraries and librarian; **Dr. G. Edward Phillips**, professor of accounting; and **Dr. Winston A. Richards**, associate professor of mathematics and statistics at Capitol Campus.

Chairman-Elect — Dr. John J. Coyle, professor of business administration and head of the department of business logistics; **Dr. Lee N. Saperstein**, associate professor of mining engineering

and chairman of the mining section; and **Dr. Thomas E. Daubert**, associate professor of chemical engineering.

Secretary — **Martha A. Adams**, professor of physical education and assistant dean for resident instruction, College of Health, Physical Education and Recreation; **Gordon Bowker**, associate professor of engineering, Mont Alto Campus; and **Dr. Stuart H. Mann**, associate professor of operations research, College of Human Development.

Election of members of the new Faculty Advisory Committee and the Committee on Faculty Rights and Responsibilities will also be conducted. Balloting will be done by mail, and the names of the new officers will be announced at the June 3 meeting.

Dr. Harmer A. Weeden, professor of civil engineering, has been named this year's "Outstanding Adviser" in the College of Engineering. He received a certificate and a \$500 stipend May 8 at the College's 14th annual Honors Luncheon.

Dr. Weeden, a member of the faculty since 1955, has taught both undergraduate and graduate courses at the University, ranging from basic engineering surveying to engineering construction management, a graduate civil engineering course. His research, which is presently conducted through the Office of Remote Sensing of Earth Resources, is concerned with the evaluation of soil and rock conditions as well as land use through computer processing of multi-spectral scanning data to produce thematic maps.

Helene J. Puskar, associate professor of home management Extension and home furnishings Extension, retired May 6 after 14 years on the Cooperative Extension Service. A graduate of Indiana University of Pennsylvania, with an M.S. degree from Florida State University, Mrs. Puskar taught home economics in the Mercer (Pa.) Joint Consolidated High School, Mercer County, and Findlay Top High School in Allegheny County before joining the Extension staff in 1961, as Indiana County home economist. She was named home furnishings Extension and assistant home furnishings Extension specialist in 1973. She has been active in providing educational information to help people solve home furnishings problems and has written and researched many publications and educational materials.

Raymond H. Brown, professor of music and University choral director, has received the Distinguished Service Award given annually by the local chapter of Alpha Phi Omega to a member of the University faculty or staff who has rendered outstanding service to the student body. Alpha Phi Omega is a national service fraternity. Previous winners of the Award were President Oswald, former President Eric A. Walker, Joseph V. Paterno, head football coach, Dr. James W. Dunlop, professor of music education and conductor of the Penn State Blue Band, and Dr. Ralph G. Aschaf, associate professor of chemistry and pre-medical advisor.

Alan B. Brownstein, as research assistant, Center for the Study of Environmental Policy. He received both bachelor's and master's degrees from Penn State and was a teaching assistant for the department of economics. He also served as a graduate research assistant for the Institute for Research on Human Resources and the Center for the Study of Environmental Policy.

The conference will have as principal speakers Dr. Loretta C. Ford, dean of the School of Nursing, University Medical Center, University of Rochester, and Alan Berg, deputy director for nutrition, Population and Nutrition Projects Department, World Bank, Washington, D.C., and also visiting professor of nutrition, Massachusetts Institute of

Members of the Penn State faculty may obtain subscriptions to the Journal at a very much reduced price. Inquiry should be made at the University Press, Room 215 Wagner Bldg., University Park.

(178-6) Research Corporation (Allin. C. H. Schaur, 405 Lexington Ave., New York, New York 10017) offers pre-doctoral and post-doctoral fellowships in cyrogenetics of important agricultural food crops. The deadline for applications for 1976 is November 3, 1975. Inquiries should be sent to the address given above. They should include a brief statement of the nature and purpose of the proposed research, applicant's academic status and background, current affiliation and where and with whom work will be performed. Post-doctoral

rules are available" (Ref. HANN brochure).

(179-2) **National Research Service Awards.** Federal research and regulations have been issued by the Public Health Service. **Direct awards** are for individuals for medical and biomedical research and training at NIH and ADAMHA in diagnosis, prevention and treatment of disease and for research and training at non-federal public and private institutions. **Institutional grants** are to enable institutions to make these awards to individuals selected by them for research and predoctoral and postdoctoral training to undertake research in the cause, diagnosis, prevention, and treatment of disease. This information has been distributed (Ref. 40FR19313).

18. 5/2/75)

(179-7) A schedule of NSF Programs for Education in the Sciences for FY 1976 has been released, containing information for fellowship applicants and institutions and for institutions submitting proposals including program announcement dates, closing dates, award dates, and publication dates.

REMINDER AND DEADLINE DATES

May 22 for NSF/RANN Energy Storage Research
(April 24 INTERCOM #176-3) . . . June 1 for Exa-
Education Foundation (April 24 INTERCOM #176-3)
 . . . June 1, Oct. 1, Feb. 1 for several NIH pro-
grams (April 17 INTERCOM #175-1) . . . June 1
for five HRA research programs (April 24 INTER-
COM #176-6) . . . June 1 for five NIMH programs
(May 1 INTERCOM #177-1) . . . June 3 for GE
Reading Academy program (May 8 INTERCOM #178-
2) . . . July 1 for NEH Consultants Grant pro-
gram (May 1 INTERCOM #177-2)

University Park Calendar

May 15-25, 1975

Items to be included in this calendar should be sent to the editor, Room 312 Old Main, by Thursday of the week preceding publication.

Special Events

Monday, May 15 — FSHA dinner, Cena PuertoRiquena cuisine of Puerto Rico, 5:30 p.m., Maple Room, Human Development Bldg. Reservations, 865-7441.

Thursday, May 15 — Conference on Child Abuse.

Thursday, May 15 — Screening of film produced by Department of Theatre and Film, 8 p.m., HUB assembly room.

Thursday, May 15 — GSA Workshop, 7:30 p.m., Room 101 Kern.

Thursday, May 15 — Sports: Men's baseball, vs. Indiana, Pa., 3 p.m.

Friday, May 16 — Sports: Men's Track and Field Invitational, 1:30 p.m. Women's Track Pennsylvania Open, 9 a.m.

Friday, May 16 — Peggy Horner, vocal recital, 8:30 p.m., Music Bldg. recital hall.

Friday, May 16 — Folk and Square Dance Roundup, 7:30 p.m., north gym. White Bldg.

Friday, May 16 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern. Tussey Mountain String Band.

Friday, May 16 — Bike show sponsored by Hertz Union Board, 10 a.m.-4 p.m., HUB ballroom.

Friday-Sunday, May 16-18 — Pennsylvania Wheelchair Games, Friday, swimming, Natatorium, weightlifting, Ice Rink, start at 7 p.m. Saturday, archery and track and field, parking lot 80 and Beaver Stadium, 9 a.m.; table tennis, Ice Rink, 6 p.m. Finals in archery and track, Sunday, Beaver Stadium and parking lot 80, 9 a.m.

Friday-Sunday, May 16-18 — Conference on "Recent Research in Byzantine and Western Medieval Manuscript Illumination." Keller Bldg.

Saturday, May 17 — Penn State Grand Prix Go-Kart Race, 1:15 p.m., Parking Lot 80.

Saturday, May 17 — "Hot Digdig Dog Day," for children of all graduate students, 10 a.m.-3 p.m., Kern.

Saturday, May 17 — Sigma Pi Open charity golf tournament for the benefit of the Centre County Home Health Service. University White Course. Applications will close May 14, 8 p.m.

Saturday, May 17 — PSU Symphony Orchestra, 8:30 p.m., University Auditorium.

Saturday, May 17 — Sports: Men's baseball, vs. Temple (2), 1 p.m.

Sunday, May 18 — PSU Symphonic Wind Ensemble Annual Pops Concert, 3:30 p.m., Arts Courtyard.

Sunday, May 18 — Hertz Union Board Coffee House, 8 p.m., Patio, HUB, Ballroom in case of rain.

Sunday, May 18 — Chapel Service, 11 a.m., Music Bldg. recital hall. University Choir's Spring Program.

Sunday, May 18 — Black Christian Fellowship worship service, 11 a.m., Black Cultural Center.

Monday, May 19 and Wednesday, May 21 — Concert of new music by student composers, performed by Aard Quartet, Claremont Quintet, Musica da Camera, and faculty and student musicians, 8:30 p.m., Music Bldg. recital hall.

Tuesday, May 20 — Sports: Baseball, vs. Delaware (2), 3:30 p.m.

Wednesday-Friday, May 21-23 — Conference on Potential for Health in a Community Setting, Conference Center.

Friday, May 23 — Open House for Don and Ada Josephson, 2-4 p.m., Borland Lab., top floor.

Seminars

Thursday, May 15 — Anthropology, 3:30 p.m., Room 107 Social Sciences. Dr. Louis Dupree, on "Ethnographical Research in Afghanistan."

Thursday, May 15 — Microbiology, 1 p.m., Room 52 Frear. David P. Labeda on "Electron Microscopic Observations of Bacteria in Soil."

Thursday, May 15 — Agronomy, 8:30 a.m., Room 111 Tyson. Frosty Long on "Poa annua Control in Turfgrass," and Tom Turner on "Soil Testing for Turfgrass Areas."

Thursday, May 15 — Air Pollution Control, 2:20 p.m., Room 145 Fenske. Kenneth Scherer, meteorology and air pollution control, on "Measurements of the Aerosol Stratosphere over St. Louis."

Thursday, May 15 — Biophysics, 4 p.m., Room 617 Life Science. Dr. R. E. Benveniste, Viral and Leukemia Branch, National Cancer Institute, NIH, on "Transferrin Type C Virus between Species." **Thursday, May 15** — Statistics, 4 p.m., Room 69 Willard. M. V. Ratnaparkhi on "Certain Damage Models and Related Characterizations of Statistical Distributions."

Thursday, May 15 — Transportation Institute, 2:20 p.m., Room 189 Materials Research Lab. Jack Hildinger, Director of the Office of Transportation and Land Use Policy, Environmental Protection Agency, on "Environmental Policy and Transport Demand."

Thursday, May 15 — Chemistry, 12:45 p.m., Room 333 Whitmore. Heinz G. Floss, Purdue University.

Thursday, May 15 — Microbiology, 4 p.m., Room 52 Frear. Dr. W. Dobrogos, North Carolina State University, on "Effect of Cyclic AMP on the Synthesis and Function of the Escherichia coli Membrane System."

Friday, May 16 — Linguistics Program, 11:10 a.m., Room 5-108 Human Development. Dr. O. L. Chavarria-Aguilar, City College of New York, on "Deep and Surface Structure in Parin?"

Friday, May 16 — Analytical Chemistry, 2:30 p.m., Room 333 Whitmore. Chih-Yuan C. Ting on "Electrode Kinetics of Cytochrome C Models."

Friday, May 16 — Physical Chemistry, 4 p.m., Room 333 Whitmore. Clifton Draper on "100th Anniversary of Controversy over Crookes Radiometer."

Monday, May 19 — Inter-Science, 4 p.m., Room 333 Whitmore. Samuel Tove, biochemistry, North Carolina State University, on "Biodegradation of Unsaturated Fatty Acids."

Monday, May 19 — New Communities, Architecture, 2 p.m., Room 322 Sackett. Dr. Jerome Collins, New York State Environmental Facilities Corp., Albany, on "Innovations in Solid Residuals Management and Processes for New Towns."

Monday, May 19 — Horticulture, 12:45 p.m., Room 10 Tyson. P. Ravindran on "Growth Responses and Nutrient Uptake of Snapbeans as Affected by Fertilizer Treatments."

Monday, May 19 — Entomology, 4 p.m., Room 204 Paterson. Rickalson Hopes on "Linnephilus (Trichoptera) Linnephiliidae of Pennsylvania."

Tuesday, May 20 — Plant Pathology, 9:45 a.m., Room 213 Buckhout. Dr. G. E. Brandon, agricultural economics, on "The Future's Market."

Tuesday, May 20 — Solid State, 1 p.m., Room 339 Davey. Dr. J. E. Rowe. Bell Telephone Laboratories, Murray Hill, on "Photoemission from Semiconductors."

Tuesday, May 20 — Physiology, 3:45 p.m., Room 111 Life Science. Dr. P. Wangness, animal science, on "Physiological and Genetic Factors in the Regulation of Energy Balance."

Tuesday, May 20 — Solid Waste Management, 2:20 p.m., Room 140 Fenske. Dr. Paul Zaltsman, civil engineering, University of West Virginia, on "Science Fiction and Solid Wastes."

Tuesday, May 20 — Engineering Science and Mechanics, 4 p.m., Room 215 Hammond. Dr. Robert E. Green, Jr., Johns Hopkins University, on "Ultrasonic Detection of Fatigue Damage."

Tuesday, May 20 — Philosophy, 4 p.m., Room 273 Willard. Professor Walter Blum, Philosophical Institute, Rheinisch-Westfälische Technische Hochschule, Aachen, on "Heidegger and Phenomenology."

Wednesday, May 21 — Biochemistry, 4 p.m., Room 101 Altitude. Terence R. By, chemistry, on "Microwave Emission Detector for Gas Chromatography."

Wednesday, May 21 — Remote Sensing, 2:30 p.m., Room 225 Electrical Engineering West. Edsel G. Gresham, electrical engineering, on "The New Penn State Orser Color Display System for Remote Sensing Data."

Thursday, May 22 — Microbiology, 1 p.m., Room 52 Frear. Stephen D. Miller on "Experimental Sclerosis — Effects on T and B Lymphocyte Immunocompetence and Macrophage Function."

Thursday, May 22 — Microbiology, 4 p.m., Room 52 Frear. Dr. F. Lilly genetics, Albert Einstein College of Medicine, New York, on "A Genetic Analysis of Leukemia in Mice."

Friday, May 23 — Mathematics, 4 p.m., Room 115 McAllister. P. Hinman on Logic.

Exhibits

The nationally-known Samuel H. Kress Memorial Collection is on view in Gallery C of the Museum of Art at the University, on loan from the Allentown Art Museum through October 1.

The twenty fragile paintings on wooden panels, dating from the fourteenth century, are on exhibit in the University museum while the Allentown facility undergoes renovation and expansion.

The valuable collection of rare paintings is the only memorial collection for the late Mr. Kress, a wealthy merchant and extensive art collector. Upon his death, the Kress Foundation presented the majority of his collection to the National Gallery of Art, Washington, D.C., with the remainder distributed to twenty major museums in the United States.

Because Kress was born near Allentown, this collection was the sole group to receive the memorial designation. The extreme delicacy of the paintings made the University Museum of Art with its atmospheric controls the choice for the display of the works during the time the Allentown museum was closed. This is the last time the paintings will be seen en masse away from Allentown.

Among the panel paintings are Giovanni del Biondi's "Mystic Marriage of St. Catherine," c. 1380; Bartolomeo Vivarini's "St. Bartholomew," c. 1490; Quentin Massys's "St. Christopher," c. 1490; "Madonna and Child," c. 1510, Follower of Andrea del Sarto, and Giuliano Bugiardini's "Madonna and Child with St. John," c. 1510.

Museum and store hours are noon to 5 p.m. daily except Mondays, when the facilities are closed.

Museum of Art — Ancient Peruvian Ceramics from the collection of Dr. and Mrs. Kehl Markey. Gallery A. Twenty paintings on wood panels, dating from the 14th century, Samuel H. Kress Memorial from the collection of the Allentown Art Museum in Gallery C.

Zoller Gallery — Art Student Show, through May 24.

Chambers Gallery — Jewelry, drawings, prints, sculpture, weavings, photography, and ceramics, undergraduate exhibition, until May 21.

Capitol Campus — Murray DePillars, paintings, until May 16.

Kern Gallery — Jeannette Foner, oils and prints, opening May 17. Art Alliance of Central Pa. multi media exhibition, through May 16. Decorative fabrics from Mode.

HUB Gallery — "African Arts" Smithsonian Institution Exhibit, Lee Colfer, paintings, until May 23. "Penn State Equestrian Team Exhibit," until May 23.

Pattee Library — An exhibit in conjunction with the course "Women and Creativity," Main Lobby and Fourth Floor East. Architectural models by architecture students, East Corridor Gallery.

HUB Ballroom — Palestine Day Exhibit sponsored by Arab Club, Thursday, May 15 only.

Films

Thursday, May 15 — International Council Film, "Emilia" (Senegalese), 7:30 p.m., Room 112 Kern.

Official

Wednesday, May 21 — Last day for signing Spring Term Emergency Loans, Room 108 Shields.

Wednesday, May 21 — Classes end. **Thursday-Saturday, May 22-24** — Final exams.

Meetings

Monday, May 19 — Department of Economics faculty, 2 p.m., Room 101 Kern. **Thursday, May 15** — Department of English faculty, 3:45 p.m., HUB assembly room.

Thursday, May 20 — ARHS, 7 p.m., Room 203 HUB.

Thursday, May 20 — Senate Council, 2:10 p.m., Room 101 Kern.

Thursday, May 20 — College of Education Equity luncheon, 12:30 p.m., Room 101 Kern.

HUB specials

Monday, May 19 — Lunch, brased beef with noodles, \$1.14; dinner, beef stroganoff, \$1.34. **Monday, May 20** — Lunch, hot sausage hoagie, \$1.30; dinner, spaghetti with meatballs, \$3.

Monday, May 21 — Lunch, chicken rarebit, \$1.30; dinner, roast beef and pork, \$1.14.

Monday, May 22 — Lunch, pork pie, \$1.30; dinner, Canadian bacon and hot potato salad, \$1.34.

Monday, May 23 — Lunch, lunaburger, soup, \$1.34; dinner, French fried perch, \$1.15.

Monday — Closed until lunch, June 8.

Dr. O. Douglas Miller will direct the University Symphony Orchestra in a program Saturday, May 17, at 8:30 p.m. in the University Auditorium, playing Beethoven, Wagner, Engelbert Humperdinck and Rimsky-Korsakoff. The program is free and open to the public.

The Senate also approved other Murphy amendments concerning documentation of a faculty member's assignment. One provides that every faculty member "must be informed by the appropriate officer at least annually as to the faculty member's responsibility in regard to teaching, research and/or scholarly activities."

The action to retain promotion and tenure decision in the hands of the University president came after the Senate had approved an earlier amendment which provided for a University review committee to forward its recommendations to the University provost for transmittal to the appropriate college dean. The dean would make the tenure decision after appropriate consultation with the provost.

The proposal submitted by George Andrews, co-chairman of the sub-committee which developed the original report, calls for the University review committee to forward its recommendations to the provost. "On recommendation of the provost, the president of the University may authorize the award of tenure or promotion in rank on behalf of the University."

Speaking in support of the proposal, Dr. John W. Oswald, University president, said, "because of the importance of tenure decisions and the long-range implications, the award should be made at the highest level of the University," noting that this is the case in most major universities.

Calling the University-wide review mechanism "an excellent one," he said, "simple organizational logic suggests that, following University-wide review, one does not send it back to 14 colleges for final action. The recommendations should be sent to the provost and the president."

In other action, the Senate amended a recommendation of a Subcommittee on Student Evaluations to provide for establishment of a technically competent commission to "receive, review and comment on suitability of evaluation programs of each College." Each College is to submit an evaluation program by May 1, 1976.

The subcommittee recommendation called for the commission to develop a specific evaluation program for the entire University in cooperation with students, faculty, and administration.

The Senate also deleted recommendations calling for the design, administration and use of evaluation questionnaires to be a student activity and providing for individual faculty members to utilize methods of assessment they feel would be helpful.

A recommendation that surveys of student responses "must not by themselves be regarded as official judgments of faculty competence nor as an adequate assessment for the purpose of improving instruction" was passed.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 855-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, MAY 22, 1975
OFFICER — Capitol Campus

Responsible for supervising the academic records and associated data processing function of the Capitol Campus. Bachelor's degree or equivalent with two to three years of directly related experience in an academic setting or management systems.

ADMINISTRATIVE ASSISTANT (POLITICAL SCIENCE), COLLEGE OF THE LIBERAL ARTS — University Park

The Administrative Assistant is responsible to the head of the Department. Major duties include participation in general academic and administrative planning, course scheduling, the administration of the budget, and the handling of a variety of matters which arise from the day-to-day operation of departmental operation. The Administrative Assistant is responsible for writing letters, memoranda, and major reports, examples of which are new course and new program proposals. In addition, the Administrative Assistant is responsible for the operation of the office and the supervision of the office staff. Bachelor's degree or equivalent, and the ability to take delegation and work independently, to write clearly, and to exercise discretion and maturity in dealing with the problems of the job. One to two years directly related experience in administrative work.

LIBRARY ASSISTANT, CIRCULATION — Hershey Medical Center

Responsible to an Assistant Librarian for the supervision of the circulation process and stacks of the Milton S. Eshelman Medical Center Library. Bachelor's degree with three years total library experience or library school graduate with two years' library experience or high school with seven years appropriate library experience.

The University is an Equal Opportunity Employer.

Wheelchair Games, which will attract more than 200 athletes, the weekend at University Park.

Wheelchair games this weekend

The Eighth Annual Pennsylvania Wheelchair Games, attracting more than 200 handicapped athletes, will be held this weekend (May 16-18) at University Park, making use of Penn State facilities in Beaver Stadium, Natatorium, Parking Lot 80, and the Ice Rink. Admission to all of the events is free, and the general public is not only invited but urged to see some of the top handicapped athletes in the nation in competition.

"This is an opportunity for able-bodied people to see what handicapped people can do, when they work at something as hard as these athletes have," says John A. Doolittle, associate professor of physical education, who is coordinating the games. "But it is also an opportunity for many handicapped people to gain encouragement from others who have physical problems, perhaps like their own."

Many of the athletes will be competing to qualify for national games later in the year, and some of them are looking toward the Olympics for Handicapped next year.

In the weight lifting event, for example, four of the five national record holders will be on hand.

"There will be athletes from 14 states, representing 23 teams, in the track and field events and other sports," Doolittle adds. "We have received entry blanks from the University of Illinois, Southern Illinois University, and Kent State, in addition to many Eastern colleges. We have always called these the Pennsylvania games, but in reality they have become regional and constitute one of the biggest wheelchair sports events in the nation."

On Friday, May 16, competition will begin in swimming at the Natatorium, and weight lifting in the Ice Rink at 6 p.m.

Saturday, May 17, track and field preliminaries will begin at 9 a.m. in Parking lot 80 and Beaver Stadium. Archery also begins at 9 a.m. Table tennis will be held in the Ice Rink at 6 p.m.

Sunday's events include track and field finals in Beaver Stadium and Parking Lot 80 at 9 a.m.

Art historians meeting this weekend

A three-day conference on recent research in Byzantine and Western Medieval manuscript illumination will be held Friday through Sunday, May 16-18, at the Conference Center, sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Prominent art historians from eight universities across the United States, including authors of important standard works in the literature of the field, will give presentations, among them Dr. Hugo Buchthal, New York University, author of "The Miniatures of the Paris Psalter," a text on the most famous Byzantine manuscript of the tenth century. Also speaking will be Dr. Joachim Gaehde, Brandeis University, author of the facsimile edition of "The Bible of San Paolo fuori le Mura," and Dr. David H. Wright, author of "The Vespasian Psalter," the facsimile edition of a notable eighth century English manuscript.

Others offering presentations will be Dr.

John W. Williams, University of Pittsburgh, Dr. Martin Werner, Temple University, Dr. Annemarie Weyl Carr, Southern Methodist University, Christine Havice Pearce, University of Kentucky, Dr. Anthony Cutler and Dr. Bertram Davezac of the faculty, Leslie Brubaker and Judith Cave, graduate students.

An exhibit of manuscript facsimiles and rare books on Byzantine and Early Medieval Art is on display in the Rare Book Room of Pattee Library in conjunction with the conference.

Members of the University community are welcome to attend sessions of the conference. No admission will be charged, but those wishing to attend should register at the Conference Center before 2:00 p.m. on Friday, May 16.

For further information, interested persons may contact Ronald Avallone, conference coordinator, at the Conference Center, 865-7557.

At 62, under certain conditions

SS benefits for idle summer period

University employees age 62 or older who will not be working during the summer months may qualify for social security benefits for one or more of the summer months provided certain conditions are met. This provision of the Federal Social Security Act covers situations such as faculty and staff members whose contracts do not require service during the summer term or other employees placed on summer layoff. An employee does not have to be retired to qualify and may still be receiving salary payments.

All employees age 62 and over who will not be working during the summer may wish to contact their closest social security office to determine whether or not they qualify.

Deadline nears for changing to TIAA

In 16 days, the provision permitting members of the State Employees' Retirement System (SERS) to change their retirement plan membership to the Teachers' Insurance and Annuity Association (TIAA) will end.

This option was first made available on September 1, 1974 and will no longer be available after May 31, 1975. The one exception to the absolute deadline date of May 31 applies to SERS members with less than 10 years of retirement credit who may wish to remain in SERS until attaining 10 years of credit to qualify for a paid-up annuity under the vesting provision. Within 60 days after reaching 10 years of SERS credit, a member may then vest his or her SERS account and switch to TIAA.

General information and all required forms are available in the offices of personnel representatives, business managers, and personnel officers.

News in brief

HONORED BY THESPIANS

Kenneth L. Holderman, who retired as vice president for Commonwealth Campuses in 1974, and George L. Donovan, who retired in 1968 as assistant to the vice president for student affairs, were honored by Penn State Thespians May 10, just before the final performance of Thespians' annual spring show. They were cited for their distinguished service to the organization over a long period of years. Also honored was Grace Baer Holderman, who assisted in producing the organization's 50th anniversary revue and was chairman of the alumni committee that planned the 75th anniversary revue. Receiving the Thespians' Award for Distinguished Contributions to the Performing Arts was professional theatre costume designer Carrie Fishbein Robbins.

WELSH RECEIVES BARASH AWARDS

Robert (Bob) Welsh, who is a senior in marketing and is widely known for his antics as the Penn State Nitary Lion for the past two years, has been named to receive the first Barash Award for Human Service. President Oswald said he was selected to receive the award not only because of the outstanding spirit he brought to the athletic teams but also because of his willingness to participate in many community and campus projects. In all, 22 nominations of students, faculty and staff members were made for the award.

COMMENCEMENTS —

(Continued from page one)

haas, assistant dean for Commonwealth Campuses, College of Engineering, will speak. Thirty-three degree candidates.

University Park Campus, 10:30 a.m. in Beaver Stadium. William T. Coleman, Jr., Secretary of Transportation, will speak. More than 5,000 degree candidates.

Berks Campus, 10:30 a.m. on the South Quadrant Parking Area, Broadcasting Road. Dr. Theodore E. Kiffer, director of the General Education Program of the University and former assistant director for resident instruction at the Berks Campus, will speak. 141 degree candidates.

Delaware County Campus, 11 a.m. in the general administration building. Dr. Harold J. O'Brien, associate dean for Commonwealth Campuses in the College of The Liberal Arts, will speak. Thirty-five degree candidates.

Mont Alto Campus, 11 a.m. outdoors on campus. Dr. Maurice K. Goddard, secretary of the Pennsylvania Department of Environmental Resources, will speak. A total of 113 degree candidates.

Worthington Scranton Campus, 2 p.m. on campus. Donald D. Moyer, executive director of the Greater Scranton Chamber of Commerce, will speak. 75 degrees.

Sunday, June 1:

Shenango Valley Campus, 1:30 p.m. in the Auditorium. Joseph Douglas, associate dean of academic instruction for Commonwealth Campuses, will speak. Fifty-three degree candidates.

Beaver Campus, 2 p.m. in the gymnasium. The Rev. Henry J. McAnulty, president of Duquesne University, will speak. Seventy-four degree candidates.

New Kensington Campus, 2 p.m. in the Little Theatre. Dr. Stanley O. Kenworthy, senior vice president for University development and relations, will speak. Sixty degree candidates.

Fayette Campus, 2 p.m. in the Fayette Campus Auditorium. The high honor student in the graduating class will speak. Seventy-eight degree candidates.

Altoona Campus, 2:30 p.m. in Adair Physical Education Complex. Dr. Henry J. Hermanowicz, dean of the College of Education, will speak. 196 degrees.

Sunday, June 8:

Capitol Campus, 2 p.m. in the Hershey Community Theatre. Pennsylvania Representative Steven Reed will speak. A total of 47 baccalaureate degree candidates and 77 masters degree candidates.

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Faculty convocation: Budget and the Senate

President Oswald:

Serious economic problems in the State and in the Nation related to inflation and recession present serious problems for higher education and for Penn State, President John W. Oswald said at the second annual Faculty Convocation May 13.

He spoke in University Auditorium, and the program, which also included a talk by Dr. Helen I. Snyder, chairman of the University Faculty Senate, was broadcast by a telephone network to assembly areas on each of the University's 22 campuses.

The initial appropriation request for 1975-76 was for \$18.5 million more than the \$94 million received for the current year. This was increased to \$19.5 million more, or a total of \$114.5 million, in January when it was learned there would be another increase for State retirement costs. Over 90 percent of the increase over last year was necessitated by inflationary costs and rising retirement costs.

"We are working closely with legislators on our appropriation needs," Dr. Oswald said, and he emphasized that "we are not unaware of the very serious fiscal problems the State, as well as other states, now face."

In spite of the bleak economic picture, Dr. Oswald said we are not planning wholesale cutbacks in Penn State programs and he specially mentioned newer programs, including the Educational Opportunity Program and the Developmental Year Program, which he said he does not consider "a social experiment" but a part of the University.

He said the State budget proposal in the area of research is very disturbing, with the budget calling for a direct 20 percent cut in research funds.

There is no question but what we will have salary increases for employees, he continued, noting that there is a question as to what level we can achieve and as to when they will be made because there is a need to have some indication as to the action the Legislature may take on the University appropriation request.

He also said that some budget actions, such as action on tuition, may have to be delayed beyond the May meeting of the Board of Trustees until there is more indication of action on the University appropriation by the Legislature, which will be in recess until early June.

Over the last four years, Dr. Oswald said, we have reallocated \$9 million from less critical to more critical parts of the University and recently we leveled assessments on each unit, including all administrative units, to make more funds available for recycling. We are collapsing some 240 vacant positions, he said, among them the vacant Vice-President for Public Affairs position, to make funds available for use elsewhere.

President Oswald said he was especially concerned about a tuition increase that State budget recommendations would indicate would result in a change in the mix of our student body. While there may be funds available to help those most in need, those in the lower middle income group may have problems.

He mentioned that more than 33,000 applications for admission for next year

Dr. Helen Snyder:

The following is a verbatim report of the talk given by Dr. Helen Snyder, outgoing chairman of the University Faculty Senate, for the Faculty Convocation May 13.

It is an occasion both for modest rejoicing and sober reflection when the Senate chairman has the opportunity to review for the faculty the status of shared governance with respect to Senate actions for the academic year just ending. I shall not calendar the entire spectrum of activities by the Senate; you have sampled these through the appropriate sections in INTERCOM and in your own meetings with your Senators. Instead, I shall focus on only two sets of activities which have, I believe, singularly important implications for the future of the Senate and of shared governance as a concept in a collegial setting. The first is the Senate's legislation on relevant recommendations from the so-called Governance Report; the report of the Joint Senate-Administrative Select Committee on Faculty Participation in University Governance. The second is the amalgam of impressions, information and tentative recommendations that I have gleaned as I have visited each of the Commonwealth Campuses, the Capitol Campus and Behrend College. I have been invited to one college caucus on the University Park campus and gained valuable information there, as well.

SENATE ACTIONS ON THE GOVERNANCE REPORT

Recommendations bearing on faculty peer review procedures for tenure and promotion:

The general thrust of the recommendations was that such procedures should be codified, readily available for scrutiny by the faculty, and provide for inclusion of appropriate representatives from the relevant sections of the faculty in such review committees as are established in departments, colleges and campuses and at the university-wide level.

Senate action was completed at the May 6 meeting on the so-called Rank and Tenure report from the Senate Faculty Affairs Committee. In amended form, which I shall summarize briefly, the document was approved with only four dissenting votes in the Senate. I take this as evidence of a well-thought-out consensus of the overwhelming majority of Senators.

Following are key provisions in the document. The Senate recommends to the President:

1. Tenure be granted by degree-granting unit. That is, a faculty member achieves tenure in a college, whether one of the ten centered at University Park, the Hershey Medical School, the Capitol Campus or the Behrend College. In addition, by explicit provision, the University libraries may grant tenure. Notice that this is a refinement, and in my opinion, an improvement over the earlier dichotomy of University-wide tenure versus "split" tenure between University Park and the Commonwealth Campus system. Tenure resides within the academic unit wherein the faculty member practices his profession; in most cases, that means within the discipline with which he is identified.
2. The decision, in the final analysis, as to whether a faculty member is to be

awarded tenure be moved from the college dean or cognizant administrative officer to the President of the University. The authority for granting tenure, therefore, now parallels that for granting promotion to the ranks of associate and full professor.

3. The procedure by which a faculty member is recommended for both promotion and for tenure must reflect the unique context in which he works. Thus for a faculty member working on one of the Commonwealth Campuses, that committee within the relevant college shall be comprised of a majority of members from the Commonwealth Campuses.

4. At least annually, each faculty member shall receive from his department head, along with other administrative officers as are appropriate, a projection of the proportion of his time expected to be devoted in the coming year to teaching, research, and other scholarly activities, community service and service to the department, college, campus or University. Decisions as to promotion and attainment of tenure are expected to rely heavily on such documented statements of duties.

Another set of Governance recommendations bears on the reassessment and realignment of Senate committees vis a vis the administrative structure of the University. Action addressing that charge was completed at the special Senate meeting on Monday evening, May 5, 1975.

The general focus of the governance recommendations was that the Senate should be the sole voice of the faculty on matters specified in its constitution as advisory to the President. The need as therein described was that a Senate advisory committee should exist for each major administrative officer; he should be a member on the committee and the advisory role of the Senate should include the provisions for adequate deliberation time, full access to data, opportunity to explore alternatives and reports back on administrative actions subsequently taken.

The Senate approved the creation of fourteen committees. Although some have the same titles as existing committees, most have had some changes in duties and occasionally in membership. I shall, therefore, list the committees and comment briefly on each:

Committee on Committees and Rules: selects members for all other committees except the Intra-University Relations Committee and provides the central administration with lists of nominees for certain non-Senatorial committees. The Committee is charged with monitoring the actions of the Senate to assure that violations of the basic documents: constitution, bylaws and standing rules do not pass unnoticed.

Intra-University Relations Committee: retains responsibility for assessing the impact of projected Senate actions on the geographically dispersed units of the University.

Committee on Admissions, Records and Schedules: self-evident from title but now includes some duties formerly under Academic Affairs.

Committee on Curricular Affairs: duties essentially the same as in the past: scrutiny of all courses and pro-

TIAA reminder

Faculty and staff members participating in the State Employees' Retirement System (SERS) are again reminded of the upcoming May 31 deadline date for switching to the Teachers Insurance and Annuity Association (TIAA).

Each plan has distinctive features which may suit the particular needs of certain individuals. A comparison of the basic provisions of both systems was provided to SERS members with the initial announcement letter issued in September, 1974. Copies of the comparison fact sheet are still available in the Office of Employee Benefits, 133 Willard Building.

No action is necessary when a member decides to remain in SERS but forms must be completed by May 31 if a member elects to switch to TIAA. Changes will not be accepted after that date except for those members who elect to remain in SERS until completing the vesting requirement of ten years of service credit.

Calendar

May 22-31, 1975

Special Events

Friday, May 23 — Open House for Don and Ada Josephson, 2-4 p.m., Borland Lab., top floor

Monday, May 26 — Sports: Baseball, vs. Navy (2), 1 p.m. Men's tennis, vs. Navy, 3 p.m.

Friday, May 30 — Phi Beta Kappa Initiation, 5 p.m., Room 112 Kern. Dinner, 6 p.m., Nittany Lion Inn. Dr. Ernest Pollard, speaker, on "Science and Creation of Literature."

Official

Thursday-Saturday, May 22-24 — Final exams.

Saturday, May 31 — Commencement, 10:30 a.m., Beaver Stadium. In case of rain, indoor ceremonies at 10:30 a.m. and 2 p.m., Recreation Bldg., and University Auditorium, and at 10:30 a.m. in Schwab Auditorium.

Seminars

Thursday, May 22 — Microbiology, 1 p.m., Room S2 Frear. Stephen D. Miller on "The Great Silicosis — Effects on T and B Lymphocyte Immunocompetence and Macrophage Function."

Thursday, May 22 — Microbiology, 4 p.m., Room S2 Frear. Dr. F. Lilly, genetics, Albert Einstein College of Medicine, New York, on "A Genetic Analysis of Leukemia in Mice."

Friday, May 23 — Mathematics, 4 p.m., Room 115 McAllister. P. Hinman on Logic.

Friday, May 23 — Biology and Microbiology joint seminar, 9:30 a.m., Room 333 Whitmore. Hal Hoffman, National Cancer Institute, NIH, on "Gene Regulation of Murine Catalse."

Exhibits

Museum of Art — Ancient Peruvian Ceramics from the collection of Dr. and Mrs. Kahl Markley, Gallery A. Twenty paintings on wood panels, dating from the 14th century, Samuel H. Kress Memorial from the collection of the Allentown Art Museum.

Zoller Gallery — Art Student Show, through May 24.

Kern Gallery — Jeannette Foner, oils and prints. Decorative fabrics from Mode.

HUB Gallery — "African Arts," Smithsonian Institution Exhibit. Lee Collier, paintings, until May 23. "Penn State Equestrian Team Exhibit," until May 23.

A variety of faculty honors

Dr. E. Willard Miller, left, professor of geography and associate dean for resident instruction, College of Earth and Mineral Sciences, received a citation from Gov. Milton P. Shapp, for his work in producing "Socioeconomic Patterns of Pennsylvania: An Atlas." Dr. Miller displays the citation, Gov. Shapp a copy of the publication. Recently the Pa. Dept. of Commerce gave Dr. Miller a meritorious service award for the publication, which reveals differences and similarities in the spatial organization of the state, providing a measure of some of the social and economic contrasts between counties and regions.

Dr. Yoshio Fukuyama, professor of religious studies, received an honorary doctorate of divinity degree Monday, May 19, during commencement exercises at Doane College, Crete, Neb. He also delivered the baccalaureate address to the graduates. A 1943 graduate of Doane, where he received his baccalaureate degree in economics, Dr. Fukuyama earned a bachelor of divinity degree and a doctorate in the sociology of religion from the University of Chicago.

Prior to joining Penn State's faculty in 1967, he taught at the American school in Talas, Turkey, and was an instructor at the Union Theological Seminary. He was associate director of the Church Federation of Greater Chicago's Bureau of Research and Planning and served as director for research for the United Church Board for Homeland Ministries in New York City. Last year, he was visiting professor of the sociology of religion at the Doshisha University, Kyoto, Japan, and a research fellow at the Center for the Study of Japanese Religions in Kyoto.

Retirement

Harold J. Herbein, associate professor of engineering at Berks Campus, was honored May 2 at a retirement dinner given by faculty and staff members of the Cam-

Harold J. Herbein received a Penn State Mittylin Nite statuette among other gifts at a retirement dinner May 2 at Berks Campus. Joseph F. Ougli, associate dean for Commonwealth Campuses, added his congratulations for Herbein's 26 years of service to the University.

pus. He joined the University faculty as instructor in engineering extension, Central Extension, in 1947 at the Allentown Center. A Penn State graduate in 1931 in electrical engineering, he received an M.S. the following year. He was in industry for many years before joining the faculty, and in 1941-42 was a technician with the Philadelphia Ordnance District. He was named assistant professor in 1949 and associate professor in 1956 while still at the Allentown Center. As an author, he wrote "Rotating Machinery," a textbook for students of electronic technology, published in 1971. He has served as a member of the University Senate ever since Commonwealth Campuses have had representation.

Oliver S. Holt, chief of the Serial Department of University Libraries, has been named to receive the Award for Outstanding Contribution to the University Libraries and will receive the award at a ceremony Wednesday, May 28, at 2 p.m. in the courtyard of Pattee Library.

A reception will be held following the ceremony, and friends of Mrs. Holt are invited to attend.

Mrs. Holt served in the Library from September, 1933, until October, 1942, when she left for family reasons. In 1951, she rejoined the staff on a part-time basis. In 1965 she was appointed Serials Catalog Librarian and in July, 1972, was named to her present post.

Charles Mann, head of Special Collections, received the first award under this program last year. The annual award goes to the person who has made a significant professional contribution which affects the operations or professional standing of the University Libraries or who has exhibited excellence of service.

William Davis, assistant director of exhibitions in the Museum of Art at University Park, was a double winner in the program, "Arts '75" at Altoona Campus May 9-11. The State-wide Arts and Crafts Festival attracted artists from many distant places and crowds which were estimated to total 12,000 to see the juried art show, works of many performing artists, and a variety of other programs.

Davis won an award for distinction in the Professional Fine Arts category for a pencil drawing, "Boys Room Floor" and also for "Tree House."

A. Mark Battaglia and Donald Leslie, both assistant professors of landscape architecture, were presented with plaques by the senior class in landscape architecture recently for "outstanding contributions through the teaching profession."

President Oswald will be conferred the doctor of humane letters degree by Gettysburg College at a commencement exercises on Sunday, June 1.

Joseph V. Paterno, professor of physical education and head football coach, has received the 1975 Liberty Bell Award of the Young Lawyers' section of the Pennsylvania Bar Association. The award is made in "recognition of outstanding community service which strengthens the effectiveness of the American system of freedom under law."

Dr. Daniel P. Knievel, assistant professor of agronomy, recently received a certificate of recognition from The Crop Science Society of America for presenting the best paper at the 6th session of Division C-3 (Crop Ecology, Production and Management) at its 1974 annual meeting in Chicago. The paper entitled "Carbon Translocation in Blue Grama, Buffalograss, and Western Wheatgrass" reported research results obtained in cooperation as part of the research effort in the grassland biome of the International Biological Program.

Berks board

Mrs. Ruth F. Kitzmiller, of Wyomissing, has been elected chairman of the advisory board of the Berks Campus, the first woman to hold the post there. She has been a member of the board since 1971, and she served as the chairman of the board's fine arts committee during the past year.

A graduate of New York University, Mrs. Kitzmiller taught art and physical education at Berks Campus on a part-time basis from 1960 to 1969, when she was appointed instructor of art on a full-time basis.

Very active in community affairs, she was on the Wyomissing School Board for 12 years and its president for three years. She also served on the Wyomissing Recreation Board and was its president for two years.

Elected vice president was Robert A. Kline, vice chairman of a Reading advertising agency, and elected treasurer was John K. Kooker, Jr., a Blanton, Pa., dairy farmer.

Deaths

Margaret I. Brennan, who retired in 1966 as associate professor of Romance languages and speech after serving on the faculty for a total of 20 years at Pottsville Center, Hazleton, and finally Schuylkill Campus, died April 25 in Shenandoah, Pa. She was born in 1897 in Shenandoah. A graduate of Columbia University with a B.S. degree in French, she obtained an M.A. in French in 1936, also at Columbia, and studied further at Penn, New York University, Bucknell, West Chester, and Penn State. She taught in the secondary level before joining the Central Extension staff in 1946, as assistant professor of liberal arts.

William G. Edwards, who served on the faculty in Forestry from 1914 until retirement with emeritus rank in 1948, died May 17 at the age of 87. He received a B.S. degree from Geneva College in 1910 and a B.S. in forestry from Penn State in 1914. He also obtained a master's degree in botany from Penn State in 1915 and an M.S. in forestry from University of California in 1925. He was an assistant in forestry and botany in 1914-16, instructor in 1916-17, served with the 10th and 20th Engineers of the U.S. Army in 1917-19, and was named assistant professor of forestry in 1919. He was promoted to professor of lumbering in 1924. Following retirement he was active as a consultant for several lumbering companies. He was very active in community affairs and a member of a number of professional societies.

Funding Opportunities

For procedural and funding source information, call 865-1372.

May 22, 1975
(160-1) Funding criteria for the Career Education Program have been issued by the Office of Education. These criteria include providing opportunities for counseling guidance, and career development for children and youth. The concept of the education program beyond the school into areas of employment and the community; and eliminating any distinctions between education for vocational purposes and academic education. This information has been distributed. (Ref. 40FR20333-36, 5/9/75) (CFOA 13,554)

(160-2) Grant guidelines for the Architecture and Environmental Arts Program have been issued by the National Endowment for the Arts (NEA). June 2, 1975 is the deadline date for the public Education and Awareness" (also Jan. 2), "Academic and Professional Research" (also Jan. 2), and "Assistance to State Arts Agencies." Nov. 3, 1975 is the deadline for "National Theme: Cityscapes and American Landscapes," "Design and Cultural Facilities" and Jan. 2, 1976 for "Services to the Field" and "Design Fellowships." "General Programs" have no deadlines. For information and application forms, contact John Kerr, Director, Architecture and Environmental Arts Program, NEA, Washington, D.C. 20506 (202-634-4276).

... Artists in Schools guidelines have also been issued by NEA with a July 1, 1975 deadline for the 1975-77 school year. For information and application forms, contact John Kerr, Director, Education Program, NEA, Washington, D.C. 20506 (202-634-4276). This information has been distributed. (Ref. 40FR20333-36, 5/9/75)

(160-3) The Environmental Protection Agency (EPA) has issued general grant regulations and procedures effective June 15, 1975. Federal EPA grants awarded after that date. This information has been distributed. (Ref. 40FR20333-36, 5/9/75)

(160-4) Rules and regulations for Cooperative Education Programs have been issued by the Office of Education including funding criteria for institutional programs, training, development, and research projects. This information has been distributed. (Ref. 40FR20333-36, 5/9/75)

(160-5) The Robert Wood Johnson Foundation is interested in improving health care in the United States. It supports improvements in access to health care, performance of health care services, and the development of mechanisms for the objective analysis of public policies in health. Applications should consist of a letter stating objectives, needs, resources, personnel, organization and individuals, mechanisms for evaluating results, a budget, and tax exempt status. Applications should be addressed to Miss Margaret E. Mahoney, Vice President, The Robert Wood Johnson Foundation, P.O. Box 2316, Princeton, N.J. 08540. (Ref. RWJF Annual Report 1974).

(160-6) The Woodrow Wilson International Center for Scholars announces its residential fellowship program of advanced research and communication. Eligibility is limited to the post doctorate level. These divisions comprise the organization and individuals, mechanisms for evaluating results, a budget, and tax exempt status. Applications should be addressed to Miss Margaret E. Mahoney, Vice President, The Robert Wood Johnson Foundation, P.O. Box 2316, Princeton, N.J. 08540. (Ref. RWJF Annual Report 1974).

Dr. Samuel O. Pritchard, Jr., a member of the faculty since 1967 and assistant professor of speech communication at Hazleton Campus since 1970, died May 13 at his home in Lyons, Pa., at the age of 51. He was graduated from the University of Redlands, California, with a degree in history, and received an M.A. in speech from the same university. He received the Ph.D. from Penn State in speech. Prior to joining the University Park faculty, he had taught at Bloomsburg State College, SUNY at Albany, Dana College in Blair, Neb., Lehigh University, University of Iowa, and the University of Maine.

Dr. Vernon M. Albers, who retired in 1967 as professor emeritus of engineering and was chief scientist and assistant director of the Ordnance Research Laboratory (now Applied Research Laboratories), died May 15. He was born in 1902 in Minnesota. He was graduated from Carlton College and received advanced degrees from the University of Illinois. Prior to joining the O.R.L. staff in 1945 he served as research physicist with the C. F. Kettering Foundation at Antioch College, as a National Science Foundation Fellow at Princeton University, and as head of the physics department at Eastern Kentucky State Teachers College. He was widely known for his work on the propagation and transmission of sound in the ocean and was author of "Underwater Acoustics Handbook," published in 1960. In 1961, he directed a nine-nation NATO Institute on underwater acoustics in London, England, and planned a similar institute in Denmark in 1966.

at Smithsonian Institution Building, Washington, D.C. 20560. (Ref. WJFWS announced)

(160-7) The Oanhon Foundation has invited us to nominate four students for Oanhon Fellowships. Interested students should contact Oanhon, c/o F. H. Howell, 317 Kern Graduate Bldg., State University of New York at Stony Brook. Applicants must demonstrate (1) flexible, broad, superior intellectual ability; (2) personal characteristics contributing to effective teaching and constructive interaction with students; evidence of a concern for the relation of ethical and religious values to disciplines, the educational process, and social development; and (3) demonstrated leadership in a field commensurate with a liberal arts curriculum, be under 35, not yet have started graduate work, be planning to undertake graduate work in the U.S. in the fall of 1976. Fellowship pays \$2275/year plus dependency allowance and tuition for up to 4 years. Requests for nomination should be addressed to: Oanhon Foundation, 317 Kern Graduate Bldg., and should include copies of transcripts, three letters of recommendation, and a vita detailing the qualifications of the applicant for the fellowship. Including evidence (not just claims) showing that the applicant has the qualifications sought by the Oanhon Foundation. These materials must reach 317 Kern Graduate Bldg., State University of New York at Stony Brook, by May 15, 1976 (application deadline is Sept. 17) and have the scores sent to the Oanhon Foundation, 222 S. Central Ave., St. Louis, Mo. 63105.

(160-8) A limited number of applications for Department of Housing and Urban Development (HUD) research fellowships are available to interested students in 317 Kern Graduate Bldg., Stony Brook planning research on housing or urban studies are urged to apply. The deadline for application is May 15, 1975. The award provides up to \$10,000 including a \$4000 stipend to the student. Each application must be submitted through the University office of Grants and Contracts using standard clearance data forms. The next application deadline is Oct. 1, 1975. Obtaining University clearance means that the application must start from the appropriate departmental office by approximately Sept. 16. The deadline is Oct. 1, 1975.

(160-9) National Endowment for the Arts, Grants Office, Washington, D.C. 20506, has set a June 2, 1975 as the next application deadline for its Oanhon Fellowships. For further information write to the address given above.

(160-10) The Office of Education has announced funding criteria and a June 6, 1975 deadline for the Federal Education Study Center program. Assistance will be provided for a maximum of 14 centers in East Asia, the Middle East, the Soviet Union, and Eastern Europe. Two types of centers are funded: undergraduate centers to train students for continuing study and for direct entrance into a profession and comprehensive centers for advanced study, research, and training and research. This information has been distributed. (Ref. 40FR20343-44, 5/13/75) (SFOA 13,435)

REMINER AND DEADLINE DATES
May 22 for NSF/NRF Energy Storage Research (April 24 INTERCOM #17-63). • June 1 for NSF/NRF Energy Storage Research (April 24 INTERCOM #17-63). • June 1, Oct. 1, Feb. 1 for several NSF programs (April 17 INTERCOM #17-61). • June 1 for the HRA research programs (April 17 INTERCOM #17-61). • June 1 for the HRA research programs (April 17 INTERCOM #17-61). • June 1 for the availability of NEI RFPs on RAO in Education (April 17 INTERCOM #17-61). • June 1 for NEH Consultants Grant Program (April 17 INTERCOM #17-61). • June 1 for Fulbright-Hays Program (April 17 INTERCOM #17-61).

Service award for Coach Boyle

Joseph E. Boyle, center, had his first contact with Penn State as a student, just after World War II service in the U.S. Navy. A major in agronomy, Boyle became one of the golf team's outstanding players and was captain of the 1949 team. In April of 1950 he became Penn State's assistant golf coach, to handle the national golfers and to aid Robert B. Rutherford, Jr., head coach. In 1958, Rutherford retired, and Boyle became only the third Penn State golf coach in history. In 1957, Boyle was appointed an instructor in physical education. He received the 25-Year Service Award recently from Dr. Robert J. Scenell, dean of the College of Health, Physical Education and Athletics, right, with an assist from Edward M. Czakka, director of athletics. Boyle's golf teams have won better than three-fourths of their matches in his 16 years at the helm. Boyle has served as president of the U.S. Golf Coaches Association and as chairman of the NCAA athletic II selection committee. He is administrative assistant for golf course operations.

10,000 received associate degrees

Penn State leads the Nation in graduating students from associate degree engineering technology programs accredited by the Engineers' Council for Professional Development.

According to Ernest R. Weidhaas, assistant dean for Commonwealth Campuses in the College of Engineering, since 1955 more than 10,000 University students have received associate degrees in engineering technology after completing two-year programs.

And the graduates of these programs have had a "very good" success rate in finding jobs and are "well received by business and industry," reports the University's Career Development and Placement Office.

There are 12 majors in engineering technology which lead to the associate degree: aerospace engineering technology, air pollution control engineering technology, architectural engineering technology, biomedical equipment technology, chemical engineering technology, electrical engineering technology, highway engineer-

ing technology, materials technology-metallurgy option, mechanical engineering technology (drafting and design), mining technology, nuclear engineering technology and surveying technology. These programs are offered at various Commonwealth Campuses of the University.

Dean Weidhaas also points out that Penn State ranks first nationally in graduating students from ECED-accredited engineering technology programs when programs leading to both associate and baccalaureate degrees.

The rankings are based on a survey by John Alden, executive secretary of the Engineering Manpower Commission of the Engineers' Joint Council.

DR. SNYDER —

(Continued from page one)

grams in the university with respect to their academic soundness. Committee on Academic and Athletic Standards: largely as in the past.

These are modified forms of familiar committees. The "new" committees: those paralleling administrative offices are as follows:

Committees expected to be advisory on policy matters to Admin. officers: Committee on Undergraduate Instruction: the cognizant central administrative officers are the Vice President for Undergraduate Instruction and the Academic Dean for Instruction at the Commonwealth Campuses. These officers or their designated representatives are expected to attend all meetings of the committee. The same proviso exists for each of the remaining committees.

Committee on Continuing Education: cognizant administrative officers are the Vice President for Continuing Education, representation from the Council of Academic Deans and from the Dean for Academic Instruction at the Commonwealth Campuses.

Committee on Extended Degrees: advisory on policy matters to the Vice President for Undergraduate Instruction and the Academic Dean for Instruction at the Commonwealth Campuses.

Committee on Libraries: consultation to the Dean of University Libraries.

Committee on Research: advisory on policy matters to the Vice President for Research and Graduate Study.

Committee on Faculty Affairs: former duties but also advisory on policy matters to the Provost.

Committee on Student Affairs: former duties but also advisory to the Vice President for Student Affairs on policy matters. Adds Awards and Scholarships to the duties of the Committee.

Committee on External Affairs: as before but also advisory to the Vice President for Public Affairs.

Committee on Planning and Development: advisory on policy matters to the Senior Vice President for Development and Relations, the Director of Planning and Budget Officer of the

By purchasing season tickets

Get good seats for Artists Series

The sale of season tickets for the 1975-76 Artists Series is underway and will continue through the summer as long as seats last.

Why buy a season ticket now? 1. Assuring yourself of a better selection of seats, because orders are honored in the sequence that they are received. Your seats will be assigned as close as possible to the area you have indicated your preference for. 2. Save money — anywhere from \$3 to \$15 over individual ticket prices. 3. Eliminate the need to stand in long lines for the tickets, only to find the "sold out" sign up. 4. To be given the privilege of purchasing tickets for special events before the general sale goes on.

For information, a brochure, order card, or assistance, just call 865-1871, or visit the Artists Series office, 203 Schwab between 9:30 a.m. and 3:30 p.m.

Canadian officials offer services

Two Canadian officials, Richard Seaborn of the Canadian Embassy in Washington, D.C., and Pierre Duchesnel, of the Consulate in Philadelphia, have offered materials and services to Penn State faculty members who might have interests in Canada for themselves or for their students.

The two made the offer of their help after a visit to the University recently that was arranged by Dr. Henry S. Abinski, professor of political science, so they could learn first hand of the instructional research activities in progress here touching on Canada. During their visit, they met with Dr. Stanley O. Ikenberry, senior vice president for University development and relations; Dr. Stuart Ford, dean of Libraries, and members of the faculties of economics, education, French, political science, and speech communication.

Any faculty member interested in taking advantage of the kind offer should address inquiries to Mr. Seaborn, c/o Embassy of Canada, Office of Information, 1771 N. Street, N.W., Washington, D.C. 20036; or to Mr. Duchesnel, c/o Canadian Consulate, Suite 1310, Three Parkway, Philadelphia, Pa., 19102.

Military leave policy explained

This is the time of year when military reservists and National Guard members may be making requests for leaves of absence for annual military training duty.

The University, in accordance with the law, grants leaves of absence without salary for annual training duty, regardless of an individual's length of regular University service. In addition, University policy provides that if a regular faculty member or employee has six months of regular University service prior to the date of the requested leave, the leave is granted according to the provisions of PS-20 (Leave of Absence for Annual Military Training Duty).

PS-20 provides that a regular faculty or staff member on a 12-month basis, whose military base pay is less than his or her University salary would be for the same calendar period, will be paid the difference by the University for a period of active duty of at least seven calendar days up to a maximum of fifteen calendar days, upon request by the faculty or staff member.

A faculty or staff member may elect to charge the ENTIRE period of training to accumulated vacation. In such instances, the individual continues to receive full salary from the University.

University, the Vice President for Business and the Dean of Academic Instruction for Commonwealth Campuses.

Finally, in action in December, the Senate created an Advisory Committee made up of the four officers of the Senate and three faculty members elected by the Senate to serve the advisory committee to the President.

In another series of actions, the Senate resigned internal duties of officers and committee chairmen to speed consideration of issues and to facilitate smooth transition from one set of officers to another. In summary, only one of the Governance Committee's recommendations, the expediting of which was charged to the Senate, remains to be done. That deals with the constituency of the Senate; a number of groups not now represented in the election units of the Senate are requesting inclusion. The Committee on Committees and Rules expects to bring a recommendation to the Senate in June on that matter.

Effectively, I believe it is fair to say that the Senate has acted upon the Governance recommendations seriously, debated them in depth, and achieved a very substantial consensus in the actions it has taken to implement the recommendations.

The second topic on which I wish to talk is, in fact, another of those recommendations. The 33rd charges the Senate chairmen with visiting the several campuses of the University, as I said earlier, I have done so. Only the Hershey Medical School and the King of Prussia graduate center were omitted from my itinerary — not because they are of no interest but because a visit there was not as immediately germane to the concerns of the Senate as others and time was limited. On most of the visits, Executive Secretary of the Senate Oscar Barkman accompanied me. We found this an effective sharing of duties since he could talk with the relevant staff about recording and communication problems and in our talks with faculty and students, he could describe the role of the Senate office while I explored the academic concerns and expectations of each group. We were treated with that courtesy that is rare, as equals among equals. Talk was frank, open, and per-

ceptive. We spent a full day with each group and could have spent much longer with profit.

As many of you know, I have been at Penn State for quite a good many years, but I must say that I now have a clearer understanding of the complexity of the Penn State System, and the tremendous potential that exists in our very diversity for adapting to the changing conditions of higher education than I could have attained in any other way.

I am left with three concerns on which it seems to me action is needed:

1. Departments must accept responsibility for incorporating those members who serve on other campuses than University Park into the decision structure of the department. Further, the nurturing of faculty and guidance in their career development is a vital role of the department head and the senior faculty, regardless of the campus on which the young faculty member is working. We cannot afford to waste the potential of bright, ambitious faculty members whether or not they are housed at University Park.

2. The Senate must seriously assume its role with respect to delegating authority for developing unique educational programs within colleges and campuses. The Senate must take the issue with which I predict the 1975-76 Senate must deal: how it can bring itself to loosen its grip on the academic programs whose operations do not infringe on the prerogatives of other programs in the University.

3. The Faculty as a whole, and the Senate as its forum, must decide how to balance quality control of academic programs against bureaucratic stifling of educationally meaningful but unorthodox programs. Student evaluations of courses and instructors, grade inflation, pass-fail options — these are but symptoms of an underlying vagueness. We must decide how to attain quality education without mandating lock-step procedures.

In the final analysis, it is not appropriate for me to tell you that the Senate has been responsible, has not evaded tough issues, has acted sensibly and decisively. We are your forum; you are the ones who must decide whether we have discharged the stewardship to which we were elected in such a manner as to serve your intentions.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, MAY 28, 1975

AUDITING ASSISTANT, CONTROLLER'S OFFICE —

University Park
Responsible to the Assistant to the University Auditor for auditing the various University and bank transactions, securities and certificates of deposits and for any discrepancies that might occur in this audit. An associate degree in Accounting or business school graduate or equivalent in training plus over one year and up to and including two years of directly related experience.

UNIVERSITY SCHOLARSHIP AID

COORDINATOR, STUDENT AFFAIRS —

University Park
Responsible to the Director of Financial Aid for the development and maintenance of the University Scholarship Program. The position is responsible for the initiation, development, and coordination of all University Scholarship relationships. The position carries the major University responsibility for the development of a comprehensive program of scholarships and loans including the surveying of financial resources, planning for future needs and facilities at the Olympic Campus. Supervise maintenance and Operations employees. High School graduate with advanced education in mechanical or electrical trades plus four to eight years related experience.

MAINTENANCE FOREMAN —

University Park
Responsible for the maintenance, operation, repair, and preventive maintenance of the mechanical and utilities installations, building systems, and facilities at the Olympic Campus. Supervise Maintenance and Operations employees. High School graduate with advanced education in mechanical or electrical trades plus four to eight years related experience.

COUNSELOR (CAREER DEVELOPMENT AND PLACEMENT) —

University Park
Responsible to the Dean of Student Affairs for individual and group counseling, focusing primarily in educational/vocational concerns. Assists with placement testing. Summer counseling and orientation. Provides consultation to other members of the Student Affairs staff and campus community. Master's degree in Counselor Education or related field or equivalent plus a minimum of three years applicable experience.

The University is an Equal Opportunity Employer.

English teachers' load unchanged

During spring term 1974, a large number of college English teachers, perhaps a majority, "never had it so good," concludes Dr. David H. Stewart, professor of English, after analyzing the results of a survey of 342 colleges and universities which he conducted.

Dr. Stewart undertook his study for the Association of Departments of English to determine compliance with ADE guidelines on class size and workload. He was also a member of the committee which drew up the guidelines.

DR. OSWALD —

(Continued from page one)

have been received, an increase of 1,800 more than last year. A University Park enrollment of 30,300 students was projected for last year, freshman admissions were on target, but enrollment climbed to 31,300, an increase that it was felt was related to economic conditions.

Noting that back in the good old days of higher education, the early 1960's, State and Federal funds seemed almost unlimited, Dr. Oswald said today we don't have enough dollars for what we consider even minimal support. Dollars, however, do not insure quality and we can have quality if funds are properly spent.

"We must have quality in whatever we undertake," he said. "What we do we must do well."

Dr. Oswald praised the work of Dr. Snyder and the University Faculty Senate during the year for their accomplishments, including the action in placing a joint faculty-administration governance report into effect. Of 22 recommendations in the report directed partially or totally to the President, Dr. Oswald said, 20 have been implemented or are in process of implementation.

He said he welcomed the appointment of a Faculty Advisory Committee to work with him on problems he faces.

Tennis club plans junior tourney

The Penn State Tennis Club and the College of Health, Physical Education and Recreation will sponsor the first PSU Tennis Club Junior Tournament July 1-4 at the Tennis Club (varsity) courts at the University.

The tournament, sanctioned by the Middle States section of the United States Tennis Association, will feature singles competition for both boys and girls in the 16 and under, 14 and under, and 12 and under divisions. Doubles for boys and girls will be held in the 16 and under and 14 and under categories.

Some of the best junior players from Pennsylvania, Delaware, New Jersey and West Virginia are expected to play in the event.

Trophies will be provided by McLanahan Drug Stores.

Tournament director is Dr. James White-side; Helen Magnuson is assistant director; and Mike Shapiro is the official referee.

Capital has art works of students

An art exhibit featuring the work of students, faculty, and staff at Penn State-Capital Campus in Middletown, will be shown in the Gallery/Lounge through Monday, June 9.

According to Maxine Lewis, coordinator of art shows at Capital Campus, the exhibit features paintings, drawings, graphics, sculpture, crafts, and photography. All work shown has been created by members of the Penn State-Capital Campus community.

Ms. Lewis commented, "The purpose of this event is to bring together the creative talent at Penn State-Capital Campus."

The Gallery/Lounge is open from 8:00 a.m. to 9:00 p.m. weekdays, but closes at 5:00 p.m. on Fridays. The Student-Faculty Staff art exhibit is sponsored by the Student Activities Office.

Commenting on the trends which the survey reveals, Dr. Stewart notes a decline in upper level (major) enrollment, an increase in freshman enrollment, and stabilized or reduced numbers of faculty.

"Together, these add up to more teachers assigned to composition sections with larger enrollments per section," he writes in the May "ADE Bulletin." "As of spring 1974, total workload seems not to have changed much since 1967. . . . What has happened is that there is a gradual reallocation of faculty. We seem to be adjusting internally to meet changing enrollment configurations.

"In spring term 1974, relatively few departments had begun this reallocation; hence many teachers of English, especially in large institutions, had small literature classes; composition was taught by part-time faculty and graduate assistants."

The ADE guidelines suggest that college teachers spend no more than 12 hours weekly per semester in undergraduate instruction and nine hours in combined graduate and undergraduate teaching and that composition sections be limited to 25 students, remedial or advanced creative writing sections to 15 and literature classes to 35. It is also suggested that teachers not have to teach more than three sections of a single course nor prepare more than three different courses a semester.

In his survey, Dr. Stewart included four classes of schools: doctoral-granting institutions, comprehensive colleges and universities, liberal arts colleges and two-year schools.

In terms of guideline compliance, he found:

—Faculty in 173 departments were teaching more than 12 hours per week; 83 percent of this number were at two-year colleges.

—In only 62 of the departments reporting did faculty teach more than three sections of a single course; 141 departments asked their instructors to teach more than three different courses. Again, two-year colleges were most likely to be out of compliance.

—Measuring workload in terms of class size, two-year and comprehensive schools were most likely to be out of compliance.

"Departments out of compliance are concentrated in the two-year colleges, with the comprehensive colleges running a distant second," Dr. Stewart reports. "Since 27 percent of all regular faculty teach in two-year colleges and 31 percent in comprehensive colleges, we can conclude that, according to the guidelines, over a third of our colleagues teach too many students or too many courses or both."

However, Dr. Stewart notes, the disparity between two-year colleges and other schools is reduced when faculty time spent in research and supervising graduate students is calculated into workload.

Other study findings include:

—There are well over 50,000 college level English teachers, including part-time personnel, graduate assistants and interns.

—In doctoral-granting schools, only 13.3 percent of all teachers are part-time, but 48 percent are graduate assistants. Comprehensive and liberal arts colleges employ mostly full-time faculty. However, at two-year schools, 66.8 percent of the faculty have part-time or intern appointments.

—32.1 percent of the full-time faculty at all four classes of institutions is female; minorities constitute 8.8 percent. Two-year institutions employ the most women (45.3 percent), followed by liberal arts colleges, comprehensive colleges and doctoral institutions. Liberal arts colleges employ the largest number of minorities; doctoral-granting institutions the fewest.

—At doctoral-granting institutions, 38.2 percent of the full-time faculty will reach age 65 by 1994; at two-year institutions, the figure is only 29.8 percent. By 1994, the figure for all institutions — and thus the potential number of job opportunities created by retirement from the profession — will be approximately 12,000.

—In 1974, student evaluation of faculty and peer visiting had become more common.

Baker refutes student charges

Michael Baker, Jr., president of the Board of Trustees of the University, on Wednesday, May 14, related allegations made against Dr. John W. Oswald, University president, by a group of students who called for Dr. Oswald's resignation. At a press conference, Mr. Baker said the charges against Dr. Oswald, detailed to members of the Board of Trustees in a letter signed by some 30 students, were based on misinformation.

In refuting the charges, item by item, he pointed out that they were either false, based on misinformation or the result of misunderstanding or misinterpretation.

Stating that no university is better managed or more accountable to the public than Penn State, he said the University is, and will continue to be, with the leadership of Dr. Oswald, one of the most prestigious universities in the Nation.

"I can assure you," he added, "that there will be no response on the part of the Board of Trustees to consider in any manner or even dignify letters of the kind that have been presented by this particular group of students."

Dr. Oswald, who appeared at the press conference with Mr. Baker, described his reactions to the letter as "much surprise, some disappointment, but certainly no anger."

Council accepts classroom report

A final report of the Subcommittee on Student Recourse to Classroom Problems was approved by University Council on Thursday and the recommendations of the Committee will be forwarded to President Oswald.

The Committee, headed by Dr. Donald V. Josephson, since early in March has been studying the matter of classroom problems and what recourse a student has for the problems, which are aside from those of grades and grading.

Two new members of the Council, representing administrative units, attended the meeting for the first time on Thursday. They are Dr. James M. Beattie, dean of the College of Agriculture, and Dr. Robert J. Scannell, dean of the College of Health, Physical Education, and Recreation. They will succeed Dr. Charles L. Hostler, dean of the College of Earth and Mineral Sciences, and Walter H. Walters, dean of the College of Arts and Architecture.

Council members voted to suspend meetings during the summer months, unless a call for a meeting is made by a member of the Council with an agenda item to be discussed.

Dr. Russell E. Larson, chairman of the Council, presided at the Thursday meeting.

New Ken theatre

Auditions will be held at the New Kensington Campus May 31 and June 1 and 2 for the summer theatre series which will open at the campus June 24 and run until Aug. 16.

The schedule of productions is: June 24-July 5, "Play It Again Sam"; July 9-19, "Marigolds"; July 23-Aug. 2, "Twigs"; and Aug. 6-16, "Six Rms Riv Vu."

Arno Selco, instructor of theatre and film at Behrend Campus, will direct the New Kensington summer program.

Additional information about auditioning may be obtained from Mrs. Shirley Rowe, 412-339-1031, Ext. 45.

WPSX highlights

Friday, May 23 — An hour-long documentary on the nursing home scandals in New York at 10 p.m.

Monday, May 26 — "The Thin Edge" focuses on sexual identity, at 8 p.m. May also be seen Saturday, May 31, at 3 p.m.

Monday, May 26 — Stan Lushin, award-winning television and film director and 1967 Penn State graduate, discusses the development of his career, on "Talkback," at 10 p.m. Also Tuesday, May 27, at 3 p.m.

Tuesday, May 27 — A half-hour program on the University's Surrealism celebration last November, at 8 p.m.

Wednesday, May 28 — "Stalin," a two-and-a-half hour documentary biography of the Soviet leader, at 9 p.m.

News in brief

SWIMMING

Stall and faculty members and their families can begin to use the outdoor swimming pool, south of the Natatorium, Saturday, May 24. Admission is 50 cents per person, or a member may purchase a special rate swim ticket costing \$5 for 15 swims. An identification card must be presented on request, and all guests must be accompanied by a member, who is responsible for them. The guest fee is 50 cents daily, and all guests must be college age, except when the pool is open to members and their families. Starting May 26, the pool will be open from 10:30 a.m. to 8 p.m.; until then, the hours are noon to 6 p.m.

VOLUNTEERS FOR CHAMP

Free-U is seeking adults who will volunteer to serve as counselors or "big brothers" for the youngsters from Harlem and Manhattan who will attend the "CHAMP" camp August 17-25 near Petersburg. Especially needed are those who can teach water sports or arts and crafts. Any adults who can spend a day or longer at the camp should contact the Volunteer Service Center, 865-3431.

HUB CLOSEDOWN

The Hub Terrace Room will close for a short period between terms after dinner Friday, May 23. The Lion's Den will close at 5 p.m. the same day. The food service at the HUB will resume with lunch Sunday, June 6, in the Terrace Room. The Lion's Den will open the next day.

AUCTION FOR CHAMP

Centre County's contribution to giving hope to some youngsters who need it includes a project called "CHAMP" which involves bringing children from Harlem and Manhattan each summer for a week or two of camp. To raise funds each year, Free-U, the student organization, stages an auction of furniture supplied by any area people, including many students who are leaving the area permanently and have no further use for the furniture in their local apartments. But such furniture also comes from local residents, and Free-U is currently asking for contributions to the auction; their volunteers will even pick up the furniture. If you want to do it yourself, take the items to the Hoy Transfer Co., 1801 North Atherton St. and tell them they are for CHAMP. The auction will be held May 31. If you need someone to pick up the furniture, call Betsy, at 238-0783, or Linda, at 364-9217.

OPEN CLASSROOM WORKSHOP

In mid-August, Capitol Campus Continuing Education will conduct a six-day workshop on open classroom techniques and materials for elementary schools, intended for in-service teachers planning to initiate "open" education methods. Dr. David Ongiri, director of the workshop and assistant professor of education at the Campus, says that participants will focus on special areas of teaching such as reading and language skills, and expression in movement. The workshop will be held Aug. 18-23.

WTJW WANTS HELP

The commercial television station in Altoona, WTJW, invites the help of anyone in its viewing area — roughly from Johnston to Lewisport and from the southern to the northern border of the state — in a program of "Keystone Country Bicentennial Minutes." Anyone with a comment on local history, which need not be of Revolutionary times, who would like to appear in a 45-second segment of broadcast time, should send the comment to the program director of the station at 5000 Sixth Ave., Altoona, Pa., 16602. The taped features of the individual, perhaps with a drawing or pictures of the event itself, will be a highlight of the station's efforts to observe the nation's Bicentennial.

Fleet Operations says that faculty or staff members having trouble in making use of the credit cards for fuel and other supplies when using university vehicles should call 865-7571 or 865-7572 immediately to have the matter resolved.

Senate Council commends president

The Senate Council of the University Faculty Senate, at its regular meeting Tuesday, May 20, unanimously passed the following resolution:

"At the end of the 1974-75 academic year, the Senate Council affirms its support of President Oswald and commends him for his dedication to the maintenance and advancement of excellence throughout the University.

"On the basis of many hours of common effort with President Oswald in Senate committees, in the Senate Council, and in the Senate itself, the Council also affirms its appreciation of his support in developing and implementing policies which we believe to be educationally, humanely and fiscally sound."

Behrend plans national conference

Leading college educators and administrators from across the country will gather next month when Behrend College of Penn State hosts the National Invitational Conference for Regional-Branch Campus Deans and Directors.

The assemblage is expected to be the largest educational conference ever held in Erie, and invitations have been issued to more than 250 institutions from every state, according to Irvin H. Kochel, director of Behrend.

"The branch campus system is a significant part of higher education today," Kochel notes, "and issues of the programs will be addressed to this formerly silent, now increasingly important aspect of college and university administration."

The program opens Tuesday, June 24, and concludes Thursday, June 26. Noted branch campus system administrators as well as prominent Erieites will take part in the daily sessions.

Theme of the first two days of the program, which has national significance, is "Community-Campus and Campus-Community Relations," and of the concluding day, "Internal Relations of Contemporary Significance."

The keynote address, "Quality and Quantity in Higher Education," will be given by Ralph K. Hult, executive director, National Association of the State Universities and Land-Grant Colleges, Washington, D.C.

A panel of noted Erieites will focus on "Community Expectations." Participants in the forum will be Donald M. Alstad, president, Lord Corp., Erie, and member of the Behrend Advisory Board; Robert F. Heltman, manager, professional relations and human resources training, General Electric Co., Erie; and Gregory G. Gibson, executive director, Arts Council of Erie.

Also speaking during the three-day conference are:

Dr. Robert G. Quinn, dean, Academic Instruction for Commonwealth Campuses, Penn State; Ted R. Robinson, assistant vice president for Regional Branch Campuses, Ohio State; John J. Duffy, association vice president for Regional Campuses, University of South Carolina.

Also, Dr. Stanley O. Ikenberry, senior vice president for University Development and Relations, Penn State; Harold A. Miller, dean of Continuing Education and Ex-

All faculty and staff members participating in the State Employees' Retirement System are hereby given a final reminder about the option of switching to TIAA-CREF before May 31, 1975. Contact your area personnel representative, business manager, personnel officer, or the Employee Benefits Division if you need additional information.

ension, University of Minnesota; Willard Davis, vice president for Regional Campuses, Continuing Education and Research, University of South Carolina; Albert J. Kuhn, provost, Ohio State University; Daniel K. VanEyck, assistant chancellor for Academic Affairs, University of Wisconsin System; and Dr. John W. Oswald, president, Penn State.

Kochel has been active in the group for three years and has served on the planning committee since the second conference. He and William E. Mosso, assistant director for Continuing Education at Behrend, are serving on this year's committee.

Traffic one way for commencement

A one-way traffic pattern near Beaver Stadium will be in effect for commencement exercises at University Park on Saturday, May 31.

Park Avenue will be one-way east from North Atherton Street to the stadium and Park Road will be one-way east from Bigler Road to the baseball field from 9 a.m. to 10:45 a.m.

During the same period, University Drive will be one-way north from the College Avenue overpass to the stadium. Curtin Road will be closed to all traffic from Shortlidge Road to University Drive from 9 a.m. to 10:45 a.m. and from University Drive to Porter Road from 9 a.m. to 1 p.m.

Following the commencement exercises, the one-way traffic pattern will be reversed and will be in effect until 1 p.m.

In case of constant rain, commencement ceremonies are to be moved to the University Auditorium, Recreation Bldg., and Schwab Auditorium and the one-way traffic pattern will not be in effect. If the program is moved indoors, traffic is expected to be heavy on all campus roadways.

PBK initiates

On Friday, May 30, the Phi Beta Kappa, Lambda, of Penn State will initiate its newest members into the organization. They will be inducted at 5 p.m. in 112 Kern. This event is open to the public.

The banquet, at which the speaker will be Dr. Ernest Pollard, professor emeritus of biophysics, whose topic will be "Science and the Creation of Literature," will be held at 6 p.m.

All Phi Beta Kappas who wish to attend should make reservations by calling Dr. Doris Seward, secretary, at 865-1855. The banquet will be held at the Nittany Lion Inn.

Senate meeting to start early

In order to complete a lengthy agenda, the University Faculty Senate will hold its regular June Meeting an hour earlier than usual — at 1 p.m. Tuesday, June 3, in Room 112 Kern Bldg.

Senators are asked to bring the May 6 meeting agenda to the session since a number of reports held over from the May meeting will not be reprinted in the June agenda.

Held-over reports that will be acted on include those from the Subcommittee on Physical Plant Planning, Louis Inerra, chairman; Subcommittee on Resident Education-Continuing Education, John Kavanaugh, chairman; and Academic Admissions Standards, Mary McCammon, chairman.

Action on a report from the Pass-Fall Committee has been deferred until September. Arthur O. Lewis, committee chairman, is seeking input on the report.

Action will be deferred until the July meeting on a report from the Student Academic Rules Committee. Thomas Daubert is committee chairman. Richard Craig, chairman of the Faculty Rights and Responsibilities Committee, will present an informational report.

In other business, the Senate will act on a report from its Subcommittees on Transfer Policies, Academic Standards, and Faculty Rights. Committee chairmen are Donald Epp, Barnes McCormick, and Dwight Younklin, respectively. Ruth Ann Wilson, chairman of the Subcommittees on Athletic Standards and Scholarships, will make an informational report.

New Senate offerings for 1975-76 will be instated at the meeting.

Portrait exhibit planned for '76

"Portraits USA/1776-1976," an exhibit of sixty paintings by some of the finest American portraitists of two centuries, will help to celebrate the Nation's Bicentennial at the Museum of Art.

One of five major projects selected for support by the University Bicentennial Committee, the exhibit is planned for April through early June, 1976, on two of the Museum's three floors. Paintings will be drawn from public and private collections across the country.

Planning for the exhibition was begun over two years ago by William Hill, director of the Museum of Art, and Dr. Harold E. Dickson, professor emeritus of art history, both at Penn State. Selections were made on artistic merit, with consideration for subject and historical interests, diversity, and special appeal.

Portraiture was chosen as the general category for the exhibition, according to Dr. Dickson, because of the range of artistic treatments observable in many artists' handling of a similar subject.

"There is no more effective way of indicating quickly the range of potentials of the representational arts than by showing faces," he said.

Many widely known artists are represented in the exhibit, ranging from Gilbert Stuart and John Copley, of the Revolutionary era, to contemporary artists such as Andy Warhol and Andrew Wyeth. Nine-

(Continued on page two)

Library space assignments

Members of the faculty who wish to obtain "Study Space Assignments" in Pattee Library for the Summer Term should note that the assignments will be made on a first-come, first served basis Monday, June 2, beginning at 8 a.m. in Room 108 Central Pattee. There are only 47 such spaces. Further questions should be directed to Cordelia Swinton, 865-5420.

Calendar

May 29—June 11, 1975

Special Events

Friday, May 30 — Phi Beta Kappa initiation, 5 p.m., Room 112 Kern. Dinner, 6 p.m., Nittany Lion Inn. Dr. Ernest Pollard, speaker, on "Science and Creation of Literature."

Tuesday, June 10 — Karate lecture and demonstration of Tae Kwon Do techniques, 7 p.m., HUB Ballroom.

Official

Saturday, May 31 — Commencement, 10:30 a.m., Beaver Stadium. In case of rain, indoor ceremonies at 10:30 a.m. and 2 p.m., Recreation Bldg. and University Auditorium, and at 10:30 a.m. in Schwab Auditorium.

Sunday, June 8 — Arrival date for new students, Residence Halls open at 8 a.m.

Monday, June 9 — Orientation and advising.

Tuesday, June 10 — Registration.

Wednesday, June 11 — Classes begin, 8 a.m.

Meeting

Tuesday, June 3 — University Faculty Senate, 1:00 p.m., Room 112 Kern.

Seminars

Friday, May 30 — Joint Physical and Analytical Chemistry, 4 p.m., Room 333 Whitmore. Edwin Sehnke, National Bureau of Standards, on "Application of Fluorescence to Spectrophotometry and Spectrofluorimetry."

Exhibits

Museum of Art — Twenty paintings on wood panels, dating from 14th century, Samuel H. Kress Memorial from the collection of the Allentown Art Museum. Chambers Gallery — Lawrence von Baran, paintings, drawings, and prints, opening June 9.

Kern Gallery — Jeannette Foner, oils and prints, until May 31.

HUB Gallery — Renaissance Gallery Crafts Display, opening June 9.

News in Brief

MINERAL MUSEUM

A summer schedule of hours for the Mineral Museum of the College of Earth and Mineral Sciences (in the Mineral Industries Bldg.) has been announced. The schedule for special exhibits in the separate rooms of the Museum Gallery will be 1-5 p.m. Tuesday through Sunday. Gallery talks and demonstrations are available for groups by appointment, however, and additional information on these services may be obtained by calling David Snell, curator, at 865-6427. Exhibits in the corridors, of course, may be viewed during normal working hours as well as the Museum's weekend hours.

MILITARY CHANGE

Effective June 1, Colonel Clifford Kirkwood, professor of military science, assumes the position of Joint Service Co-

(Continued on page two)

Honors

Lumley, Burnham elected fellows

Dr. C. Wayne Burnham, head of the department of geosciences and professor of geochemistry, has been elected Fellow of the American Geophysical Union, one of 14 to be honored by the Union at its mid-June national meeting in Washington, D.C. Dr. Burnham is also a Fellow of the Geological Society of America and the Mineralogical Society of America. He has been a member of the Penn State faculty since 1955 and was named professor in 1965. He was appointed department head last year. He is a past treasurer, past vice president, and president of the Geochemical Society.

Dr. John L. Lumley, Evan Pugh professor of aerospace engineering, has been elected Fellow of the American Academy of Arts and Sciences, which was founded in 1780 by John Adams and which currently has about 2,500 Fellows and more than 400 honorary foreign members. Dr. Lumley is also a Fellow of the American Physical Society and last year was a Fulbright Senior Lecturer in Belgium and a Guggenheim Fellow in France. Recognized internationally for his work in the field of turbulence he was the technical editor for two volumes of an encyclopedic work translated from the Russian and published

by the Massachusetts Institute of Technology Press under the title "Statistical Fluid Mechanics."

Four members of the College of Agriculture faculty were honored for exceptional service by Gamma Sigma Delta, honor society of agriculture, at its recent annual banquet: Dr. Louis T. Kardos, professor of soil physics; Dr. William E. Sopper, professor of forest hydrology; Dr. John H. Ziegler, associate professor of meat science; and Dr. John E. Baylor, professor of agronomy extension. Drs. Kardos and Sopper were honored for their research, Dr. Ziegler for teaching, and Dr. Baylor for Extension programs.

Initiated into the Society at the same banquet were Glenn R. Keen, professor of animal science; Ben Morgan, associate professor of animal science extension; Dr. Louis T. Kardos, associate professor of veterinary science; and Glenn W. Goss, associate professor of agricultural extension.

Dr. Harold J. O'Brien, associate dean for Commonwealth Campuses in the College of the Liberal Arts and former debate coach, has been chosen to receive the 1975 Lion's Paw Award, to be presented to him formally during Alumni Class Reunion Weekend activities June 5-7. The honor is given to persons who have contributed notably to the University and fostered its traditions. The award was established in 1965, and previous winners were John Henry Frizzell, Bob Higgins, Robert W. Ostermayer, Sr., Burke M. "Dutch" Hermann, Joe Paterno, Dr. Hummel Fishburn, Ridge Riley, Robert Galbraith, Wilmer E. Kenworthy, and Harold E. Dickson.

Walter A. Sowa, associate professor of engineering at Wilkes-Barre Campus, has received the Western Electric Fund Award consisting of a certificate and a check for \$1,000, "for excellence in the instruction of engineering students." The Awards Committee of the Middle Atlantic Section, American Society for Engineering Education, selected Sowa for the honor. As recipient of the award, he will serve on the Western Electric Fund Awards Committee of the Section for two years. Two years ago, Sowa received the Penn State Engineering Society Award for Commonwealth Campus Faculty as outstanding teacher. He has been a member of the Wilkes-Barre faculty since 1956 and is a Penn State graduate with a degree in electrical engineering. He received a master's degree from Wilkes College.

NEWS

(Continued from page one)
ordinator at the University, serve as the focal point for matters concerning the three Military Departments. He replaces Col. A. J. Grill, professor of aerospace studies, who will become the University Faculty Senator for the combined military departments, a position that was held by Capt. Charles Bolan, USN, who is retiring July 1.

Capt. Bolan's position as professor of naval science will be assumed by Capt. Howard A. Shartel, who will arrive at the University in mid-July after completing his present tour of duty as Director of Student Research at the Industrial College of the Armed Forces.

DELAWARE TENNIS

Delaware County Campus will stage a two-day workshop for beginning, intermediate and advanced tennis players June 1-8, taught by Penn State physical education instructors. Videotape will be used for instant replay look at a player's faults. There is a registration fee of \$18.

ALUMNI CHIEF

J. Lloyd Huck, a 1943 graduate of the University and president of Merck Sharpe and Dohme Division of Merck and Co., Doylestown, was installed as president of the 33,000-member Penn State Alumni Association at the May meeting of the Alumni Council. He will serve a two-year term. The president-elect is William J. Breese, vice president of Industrial relations for Scott Paper Co.

LaGrone work at Worthington Scranton

Dedication of a bronze sculpture by Oliver LaGrone (at right of center in photo) was held at the Worthington Scranton Campus May 18. Title "The University as a Family," the sculpture was commissioned by the Campus with support from the Office of Gifts and Endowments, the Pennsylvania Council on the Arts, the Campus Advisory Board, and the LaGrone Sculpture Committee, which is represented in the picture above by Christiana Oronskij, left, left, and Marlene Pilcick, left, right. Others in the photo are LaGrone, Trust, student representative, second from left; Donald Scheuer, Advisory Board member; Dr. Edward K. Traybill, Campus director; (at LaGrone's left) Peter Caron, executive director of the Pe. Council on the Arts; and Joseph Douglas, associate dean of academic instruction for Commonwealth Campuses.

LaGrone, who was special assistant to the Vice President for Undergraduate Studies of the University and artist-in-residence to the Campus, presented a smaller sculpture, "The Gancer," to the Campus as a gift prior to the dedication ceremony. Also of bronze, it will be displayed in the library.

Funding Opportunities

For procedural and funding source information, call 865-1372.

MAY 29, 1975

(181-1) Young Investigator Pulmonary Research Grant Applications are being sought by the National Heart and Lung Institute (NHLI) to foster these research interests among young scientists and physicians by providing modest, independent support for a project of their own design. Anyone now a principal investigator on an NIH project is not eligible. Applicants must be below age 35 and hold a doctorate in a relevant field. Applications must be received by Nov. 1, 1975. Award beginning dates will be between May 1, 1976. For applications and information contact: Manager, Manpower Program, Div. of Lung Diseases, NHLI, NIH, The Westwood Building—Room 5A15, 5323 Westbard Ave., Washington, D.C. 20516 (201-495-7171) (Ref. NIH Guide Supplement, 5/15/75).

(181-2) Guidelines are available for two of the three NSF Student Oriented Programs for 1975-76. Undergraduate Research Participation has a Sept. 10, 1975 closing date and is to bring undergraduate students into the membership of a research team leading to their increasing independence, to foster an open approach to educating young scholars, and to provide a modest amount of financial assistance to sustain faculty-student research. The Student Training Program has an Oct. 10, 1975 closing date and is to provide talented students with science (including social and engineering) learning opportunities beyond those normally available. Special advanced courses, research participation and combinations of the two are supported. Student Oriented Studies guidelines will be available in about a month. (Ref. NSF 87-041 and 87-043).

(181-3) Higher education is expected to play a growing role in the resettlement of Vietnamese refugees. The ASCU is planning to survey its member institutions for English teaching program location possibilities, adaptability of campus living space for refugees, and college interest in community service programs. Scholarship support of the \$2505/year for refugee college students is being proposed by Rep. Paul Simon (Ill.) (Ref. Chronicle 5/19/75).

(181-4) It has been estimated that as much as \$40 million in basic research funds may be available to universities in FY1976 because of a shifting of Inhouse Air Force funds to outside university support. Further, the primary emphasis of Air Force Research should preserve and enhance

the university capability to provide insight into the basic sciences and to train students in these scientific disciplines critical to the Air Force, according to a memorandum from the Secretary of the Air Force. This information has been distributed. (Ref. AF memo - CLH).

(181-5) Because of the unexpected demand to attend RANN Regional Seminars May 15-16, INTERCOM 2179-1, a twelfth seminar, has been added to take place in Washington, D.C. on June 26, 1975. The one-day seminars describe and discuss objectives of the RANN program, 1975-1980, and procedures for participation in RANN programs. Current RANN (Research Applied to National Needs) interest areas are: energy, environment, productivity, resources, explosives, search, technology assessment, and utilization. There is no registration fee. For the Washington seminar contact: Jack Mansfield, Continuing Engineering Studies, Room 536, New Library Building, George Washington University, Washington, D.C. 20056 (Ref. RWE - R. T. Tibbitts, NSF).

(181-6) The Public Health Service (PHS) has proposed rules for Project Grants for Health Services Development. In addition to general provisions, the proposed rules cover grants for community health services projects and grants for family health center projects. This information has been distributed. (Ref. 40FR21627-35, 5/16/75).

(181-7) June 10, 1975 is the deadline for

OE Bilingual Education Fellowships (March 27

INTERCOM 2172-8). (Ref. 40FR21508-09, 5/16/75) (CFDA 13-1403)

(181-8) Rules and regulations for environmental education practice have been released by the Office of Education (OE). Funding objectives and areas of special interest include: general policies for development of effective environmental education practices, resource material development, personnel development, community development, elementary and secondary education, and minority studies. This information has been distributed. (Ref. 40FR21907, 5/20/75) (CFDA 13-322) (181-9).

(181-9) Amendments to the rules and regulations for OE ethnic heritage studies program have been released. This program is to provide assistance designed to afford students opportunities to learn about the nature of their own cultural heritage and study the contributions of other ethnic groups of the nation. Training and development of curriculum materials under the program had a March 21, 1975 deadline date (Jan. 16 INTERCOM 2162-1). This information has been distributed. (Ref. 40FR21954, 5/20/75) (CFDA 13-3404)

(181-10) The funding priorities proposed for the OE Foreign Language and Area Studies Research Program April 13 INTERCOM 2173-3 have been released. This information has been distributed. (Ref. 40FR22018, 5/20/75) (CFDA 13-1406)

Radioactive material procurement policy

University personnel contemplating procurement of radioactive material at University Park or the Commonwealth Campuses are reminded that the possession, use, and transfer of such material must have the prior approval of the University Isotopes Committee.

Purchase orders for radioactive material must have a copy of form HP-10 attached. This information on this form (a yellow 3 x 5 card) includes the name of the person ordering the material and the serial number of the University Isotopes Committee authorization to obtain the material. Prior arrangements should be made with the Health Physics Office for the transfer of radioactive material from one experimenter to another or for the procurement of radioactive material without using a purchase order.

All shipments of radioactive material are to be received at or shipped from the Health Physics Office. Incoming shipments are inspected, assigned an inventory number, and delivered to the purchaser. Outgoing shipments must be packaged according to U.S. Department of Transportation regulations and can only be shipped by air. Personnel with the proper license to receive the material. There are additional regulations for the procurement, use, and transfer of special nuclear material because of the accountability and security requirements.

Persons desiring additional information about the procurement and use of radioactive material at the University Park Campus or Commonwealth Campuses should contact the Health Physics Office, 220A University Building, University Park, phone 865-3458. Similar procedures are also available at the Hershey Medical Center and additional information may be obtained by contacting the Health Physics Office there. In room H-16B, phone 534-8027.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1387). Do not contact the areas having the vacancy. Applications will be accepted until filled.

THURSDAY, JUNE 5, 1975

UNDERGRADUATE STUDIES CONSULTANT,
COLLEGE OF HUMAN DEVELOPMENT —
University Park

Responsible for the planning and management of the Undergraduate Studies Academic Information Center within the College of Human Development. Provide professional advising assistance to the Division of Undergraduate Studies during registration and pre-registration counseling program periods. Master's degree or equivalent plus one to two years experience directly related to the programs and opportunities of the College of Human Development is desired.

NUTRITION ASSISTANT, YOUTH, COLLEGE OF

AGRICULTURE — Lockswane County

Coordinate programs in foods, nutrition, and related subjects for youth in low income areas. Identify, recruit, and train volunteers to work with youth. Plan, organize, and direct special nutrition education projects with volunteers and staff in other agencies. Maintain close working relationships with all Extension workers in ENEP. This may include the training and management of the related aides. An undergraduate or equivalent plus two years directly related experience required in working with food and nutrition programs or other related fields.

ASSISTANT HEAD, LIBRARY SYSTEMS DEVELOPMENT DEPARTMENT, UNIVERSITY LIBRARIES —
University Park

Responsible for management and implementation of computer-based library systems, including both systems and operational programming. Requirements are a Bachelor's degree or equivalent plus four to seven years of experience in the field. Experience is required in a time-share computer environment, as well as in the management of computer systems. A part of this experience must be gained in an academic or research library application.

HEALTH CENTER BUSINESS MANAGER —
Hershey Medical Center (Middleburg)

Responsible for the business management and administration for the fiscal, administrative and personnel policies and functions of the Evelyn G. Frederick Health Center. Responsible for the Medical Center for the day-to-day operations. Bachelor's degree or equivalent in Accounting plus two to four years of effective experience.

The University is an Equal Opportunity Employer.

PORTRAIT

(Continued from page one)

teenth and early 20th century paintings will include portraits by James Macneil Whistler, Thomas Sully, Mary Cassatt, and George Bellows.

Subjects of the portraits in the exhibition vary from celebrated figures such as George Washington, painted by both Adolph Wuttmiller and Alfred Maurer, to anonymous representations such as Cecilia Beaux's "New England Woman" and John C. Cooper's "Evelyn Watkins" "Lady with a Setter Dog."

Dr. Dickson is completing a catalog in which all sixty works will be reproduced in full-page color plates, accompanied by his notes on the subject, artist, and material nature and aesthetic significance of each portrait. He has also written an introduction to the exhibition for the catalog.

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Board acts on PIRG funding

Trustees of the University at their Friday, May 31, meeting authorized officers of the University to proceed with negotiating and executing a contract under policies set by the Board with students organizing a Pennsylvania Public Interest Research Group, designated as PennPIRG.

President Oswald then designated Dr. Raymond O. Murphy, vice-president for student affairs; Steve A. Garban, controller and staff assistant to the senior vice-president for finance and operations; and Delbert J. McQuaide, University counsel, to meet with the student organizers and develop a contract.

The action, recommended by President Oswald and the committees on Educational Policy and Finance of the Board, set the following policies, among others, to govern any contract:

—The University will place on the term bill of each student a clearly identified statement that permits the student to indicate voluntarily his or her desire to add \$2.00 to the term bill for transfer to PennPIRG. This is known as a "positive check-off."

—The University will be reimbursed for the

Dr. Natalie Isser, history (Gontz)

Dr. Edward R. Johnson, associate librarian

Harold H. Johnson, general engineering (Mont Alto)

Dr. Joyce D. D. Isler, psychiatry (Hershey)

Dr. Owen D. Keane, poultry science extension

Dr. Michael King, political science

Dr. Daniel P. Knievel, crop physiology

Dr. Roland L. Larson, mathematics (Behrend)

(Continued on page four)

President reports to Board on Penn PIRG

The following is a report by President Oswald to the Committee on Educational Policy of the Board of Trustees of the University, given May 29, 1975, regarding the proposed student organization, PennPIRG, which received considerable attention during Spring Term. It is a student-oriented "Public Interest Research Group" and the "Penn" in the title refers to Pennsylvania.

From the outset, I have indicated my belief that there is educational merit to the participation of Penn State students in an activity such as PIRG, and therefore, the University should consider, if a substantial number of students indicate their interest, some form of relationship to assist PIRG. Indeed, in the first discussions before the Committee on Educational Policy of the Trustees, I made the motion which was passed declaring that the Committee found educational merit in PIRG and directed the administration to work with the student organizers of PIRG toward some appropriate form of relationship.

Basically the Trustees have five policy options before them as they consider the possible relationship between The Pennsylvania State University and PennPIRG.

1. No relationship between the University and PennPIRG.

2. The University develop opportunities for a voluntary internal collection process; for example, collection tables at registration, in the Student Union, and possible collection at the Spring Term.

3. The University would agree to place on the term bill of each student a clearly identified statement that permits the student to indicate his/her desire to add \$2 to the term bill for transfer to PennPIRG. This is commonly referred to as positive check-off.

4. The University would assess each student on each term bill \$2 in addition to all other fees — with the opportunity made clear on the bill that the students could refuse to pay the \$2 to PIRG and the further indication that if they refuse the \$2 to PIRG they could get a refund within a specified period. This is commonly referred to as the negative check-off.

5. The University assess each student \$2 per term in addition to other fees with the opportunity for the student to receive a refund but not to refuse to pay the \$2 at the time of paying his/her bill. This is referred to as the mandatory refundable program.

Of the five policy options listed above, my position is to recommend for consideration Option 3.

Just as I spoke favorably of the purposes of PIRG in involving students constructively with public issues, I spoke against any relationship that would cause students who were not interested in PIRG to be assessed a fee. Indeed, I indicated, and still feel, that the Trustees should not use their power to establish tuition and fees, to set and collect fees for programs for which the Board has no responsibility nor accountability. Therefore, I told the students early that I opposed a mandated fee (Option 5), which our counsel questions as to legality, and I opposed any other means of collecting fees (Option 4) that were not voluntary. My proposal, which was sent to the students and later to the Trustees in the document describing a relationship and funding mechanism which would recognize the value of PIRG but would not increase Penn State fees to fund PIRG (Option 3). Rather it would enable students interested in PIRG to indicate their support by adding \$2 a term to their tuition to go to PIRG, and the University would collect it (positive check-off). This is a voluntary method but would provide a means of collection that no other student organization has ever been privileged to have at Penn State. I am prepared to recommend this option for PIRG because of the number of students who have shown interest via petitions.

Those students organizing and promoting PIRG have indicated their belief that this funding mechanism will not assure either sufficient funds or the stability of funds for PIRG to operate. Thus, the student organizers request the Board of Trustees to increase the charges to students by \$2 a term and place this charge on every bill. The organizers then suggested that the University provide in its bill a refund system and an opportunity for a student to

refuse to pay the \$2 for PIRG (negative check-off). These funding mechanisms, they say, would develop more funds than the positive check-off method which I am prepared to propose. It is for this precise reason that I oppose assessing every student for a purpose that is not a University program. The additional student fees, beyond those achieved by the positive and voluntary check-off, it seems to me, will probably be from students who didn't understand their right to refuse to pay or to obtain a refund; or those students who are apathetic and don't care; or those who didn't read the bill and its instructions. Ralph Nader at a speech on PIRG at Penn State said, "Murphy and the administration are trying to substitute a positive check-off where students would pay only if they wanted to in the first place." His statement of my position is correct — I have questions about an organization apparently dedicated on the one hand to improving the lot of the consumer, but on the other hand seemingly pushing for a funding system which will collect from students (consumers) who may be misinformed or uninformed, apathetic, etc. If PIRG has the educational merit I believe it has, then the organizing students should be able to educate other students as to its values to the point that they will voluntarily assess themselves the \$2 fee. If enough funds cannot be achieved in this voluntary way even though assisted by the University placing it as an option on the term bill, then I question any formal relationship to PIRG.

Any effort by the student organizers to place me in the position of blocking PIRG by opposing the negative check-off is, of course, simply not the case. I wish to assist those students who wish to participate in PIRG — without establishing a funding means which will collect from students who are not advocates of PIRG.

I have taken this opportunity to express my view because of the original charge to the President to pursue with the organizing students the matter of a possible relationship. The administration is, of course, prepared to implement whatever decision the Trustees make on this matter.

Grove, Shellenberger receive Lindback awards

Shellenberger

Grove

M. Ellis Grove, associate professor of general education in the arts, and Dr. Paul R. Shellenberger, associate professor of dairy science, were given the Christian R. and Mary F. Lindback Awards for Distinguished Teaching at commencement ceremonies last Saturday. Both received plaques and a check for \$1,000.

A graduate of Ursinus College, Grove earned his master of arts degree in theatre arts from Penn State and served as a temporary instructor in theatre arts from

1960 to 1962 and again in 1964. He then joined the faculty of the University's Behrend Campus as an instructor in English.

As a theatre arts instructor, he directed several plays at the University, including "Summer and Smokey," "Paint Your Wagon" and "Once Upon a Mattress." He also directed "Little Mary Sunshine" for the State College Community Theatre.

He returned to University Park in 1970 to assist in the teaching of Arts 1 and to develop a course in the popular arts. Against a broad background that included professional acting, theatre management, limmaking and playwrighting, as well as teaching and directing, Grove has built up a large body of information relating to the popular arts.

In his course, Theatre 100, he touches on film, radio, television, folk music, dance and comic books, and the course is always filled well in advance of registration.

Dr. Shellenberger first came to Penn State in 1953 to earn bachelor of science and master of science degrees in dairy science production. He received a doctor

of philosophy degree from Iowa State University in animal nutrition. After working as a dairy specialist for the Texas Agricultural Extension Service and teaching agriculture at Tarleton State University, Stephenville, Texas, he returned to Penn State in 1967.

Dr. Shellenberger's principle teaching assignment is Animal Science 1, an introductory course in animal agriculture in which basic concepts of the biological sciences are applied to the field of animal production.

Dr. Shellenberger also advises one or two master of science degree candidates and occasionally teaches an advanced level special topics course. His research interests are in dairy call management and feeding practices, and he is currently studying the preparation and feeding of sour colostrum to young dairy calves.

He is a member of the University Faculty Senate and of the Division of Animal Science and Industry Course of Study Committee and serves as an advisor to Alpha Zeta fraternity.

Trumbo, Landy are Hallowell fellows

Two members of the Department of Psychology, Dr. Don A. Trumbo, professor, and Dr. Frank J. Landy, associate professor, have been designated H. Thomas Hallowell Jr., Faculty Fellows at the University.

Their appointments, as recommended by Dr. John W. Oswald, president of the University, help to implement a policy approved last year by the University's Board of Trustees to assist outstanding faculty members in making further contributions in the areas of teaching, research or public service, by establishment of endowed chairs, professorships and faculty fellows.

A grant from H. Thomas Hallowell, Jr., of Jenkinson, chairman of the board of Standard Press Steel Co. and a trustee of the University since 1950, will enable the Department of Psychology to expand its services to the business community in the Commonwealth.

Dr. Trumbo and Dr. Landy will attempt to develop a program, which they hope will eventually become self-sustaining, to assist industry with such human behavior problems as improving selection and promotion policies for personnel, devising improved training programs, and increasing job satisfaction.

At the same time, funds will be made available through Mr. Hallowell to permit augmented training of psychology graduate students in industrial statistics so they may confront practical problem-solving activities as an integral part of their education.

Dr. Trumbo, a member of the faculty since 1967, obtained his undergraduate degree in psychology from Western Michigan University and his master of arts and doctor of philosophy degrees from Michigan State University. He served on the faculty of Kansas State University for 10 years before coming to Penn State.

Dr. Landy has specialized in industrial psychology and measurement in such areas as job satisfaction, work motivation and multivariate statistics. He earned three degrees in psychology, a bachelor of arts from Villanova University and a master of arts and doctor of philosophy degree from Bowling Green State University. His appointment at Penn State began in 1969.

Coe provost to head Altoona

Dr. Carson W. Veach, provost and dean of Coe College, Cedar Rapids, Iowa, has been named director of the Altoona Campus.

His appointment was approved by the Board of Trustees last Friday on the recommendation of President Oswald. The appointment is effective July 1, 1975.

Dr. Veach, who was nominated for the position by a search committee comprised of faculty members and University administrators, succeeds Dr. John L. Leathers, who was promoted last July to the post of administrative director of the University's Commonwealth Campus System. Jack G. Zubrod, assistant director for resident instruction at the Altoona Campus, has been serving as interim director.

A native of Poughkeepsie, N.Y., Dr. Veach was appointed dean of Coe College in 1970 and was named to his present position in 1974. He holds the academic rank of professor of English.

During his tenure at Coe, the College has undergone innovative programming, including the free choice curriculum, independent study, work service, internships and interdisciplinary concentrations.

A cum laude graduate of St. Anselm's College, Manchester, N.H., he received his master of arts degree at Harvard University, where he was a Woodrow Wilson Fellow. His doctor of philosophy degree in 19th century American literature was awarded by Indiana University at Bloomington, Ind.

Dr. C. W. Veach

Dr. Veach served as a teaching assistant and teaching associate at St. Anselm's College and Indiana University and for three years was assistant professor of English and director of forensics at Colgate University.

In 1967, he was appointed academic dean and professor of English at Notre Dame College of Staten Island. He was responsible for preparing the College for evaluation by the Middle States Association and developed consortium projects with three other Staten Island colleges for disadvantaged college students and their parents.

While at Notre Dame College, he served as a consultant to the New York State Education Department and served on a state-wide committee for educational facilities inventory.

Equipment grant made by NSF

The University has received two National Science Foundation grants amounting to \$13,000 for instructional scientific equipment.

The equipment program is designed to help colleges and universities improve the quality of undergraduate science instruction by updating courses and teaching laboratories.

An NSF grant of \$6,200 to the Department of Geosciences is being used for equipment for the University's marine science program at Wallops, Va., according to Dr. Albert L. Guber, associate professor of geology.

The bioengineering program received the second grant of \$6,800. Dr. David W. Arnett, assistant professor of bioengineering, said that the funds will be used for the purchase of biomedical instrumentation such as transducers and display devices and for electronic apparatus for building biomedical devices.

U. Council to continue advisory role

University Council, established two years ago by the Board of Trustees as a part of the governance plan for the University, will continue to function primarily in an advisory role to the President.

The Board last Friday clarified the role of the Council in approving a recommendation of the President of the University which followed several reviews not only of the role of the Council, but also its name and membership.

The Joint Senate Administrative Committee on Faculty Participation in University Governance had expressed concern that University Council might become involved in activities that overlap those of the University Faculty Senate and had recommended a reconstitution of the name, membership, and function of the Council.

A student review, however, conducted through a subcommittee of the University

(Continued on page four)

Acoustics lecture by ASA president

Robert S. Gales, head of the Acoustics, Behavior and Communication Division at the Naval Undersea Center, San Diego, California, will present the fourth in a series of Fitzhugh W. Boggs Memorial Lectures in Acoustics today (Thursday, June 5).

"Engineering Applications and Psychoacoustics" will be the topic of Dr. Gales' presentation which will be held in Room 112 Kern Building at 2:00 p.m. An informal meeting and discussion with Dr. Gales will follow the presentation.

Dr. Gales is currently the president of the Acoustical Society of America and is a member of the National Research Council, Armed Forces Committee on Hearing and Biosciences. Presently, in the Acoustics, Behavior and Communication Division at the Naval Undersea Center, he is responsible for a broad program of research and development on noise and methods for its measurement and control, and studies of the behavior of humans and animals under acoustic stimulation.

The Fitzhugh W. Boggs Memorial Lectures in Acoustics were established by Dr. Boggs' wife, Elizabeth, friends and scientific colleagues upon his death in January, 1971.

Trustees approve distribution of \$87,120

Variety of projects receive aid of undesignated alumni funds

An allocation of \$87,120 in undesignated funds donated by alumni and friends of the University, has been approved by the Board of Trustees for a number of educational and campus developmental projects.

The projects were chosen from a number proposed and reviewed by a proposal evaluation committee, with the Provost of the University as committee chairman. The Board acted on the recommendation of President Oswald.

The funds have been allocated as follows:

- \$13,220 for enrichment of cultural offerings. \$4,500 will be used for a series of three public lectures on the American Revolution at the York Campus during the spring of 1976, and \$3,720 for retention of a scholar of Pre-Columbian Peruvian Ceramics to assist the Museum of Art staff in developing education materials on these ancient objects of art.

- \$25,000 for financial assistance to students. The funds will enable the Freshman Scholarship Committee to award Alumni Memorial Scholarships and/or loans to superior and needy entering freshmen.

- \$2,000 for improvement of the Hazleton Campus environment. Halt will be used for the construction of nature trails and the

purchase of plant materials, and half for landscaping and equipping a scenic overlook site.

- \$18,000 for new dimensions in instruction. \$2,500 will be used for a marine science field trip for 40 community high school seniors and instructors, sponsored by the Shenango Valley Campus; and \$3,000 to establish a photographic archive of paintings (Italian Renaissance and Baroque) for the Department of Art History and the University at large.

- The remaining \$12,500 in this category will be used for an interdisciplinary graduate program in the humanities; funds were requested in 1973 to match a grant of an additional \$50,000 from the National Endowment for the Humanities, and this is the third allocation of one-fourth of the total in each of four years.

- \$3,000 for stimulation of faculty research and scholarship. The amount will be used to identify and locate the publications issued by the University at University Park and to compile a directory of units issuing publications.

- The remainder of the funds will be used for other special projects:

- \$10,000 for a burn-tank at the Hershey Medical Center to provide for present and future needs in treating burn victims.

- \$3,500 for support of the certification program in sports medicine; Penn State has been selected as a site for the first certification program for physicians, exercise physiologists and physical educators involved in cardiac intervention and exercise rehabilitation programs.

- \$300 for color photographs of Penn State in China, 1915-1922, now in the Penn State Room of the University Libraries.

- \$250 for an informational brochure on the historical background of campus buildings, streets, and other names in the Centre Region.

- \$1,100 for the job placement program; funds will be used to assist unemployed June graduates to identify potential employment sources.

- \$4,800 for the purchase of new instruments for the Penn State Blue Band.

- \$2,450 for Bicentennial exhibits, "Then, Now and Tomorrow in Agriculture," to be displayed in College of Agriculture buildings.

- \$3,500 for transportation for the Volunteer Service Center. A van to transport volunteers (primarily students) would be purchased by VSC and routine maintenance and insurance would be covered by the University.

Summer Term 1975 Calendar

University Park Campus

The Pennsylvania State University

WEEK OF JUNE 8

Sunday, June 8
Residence Halls open for all new students, 8 a.m.
Arrival of new students.
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom it rain).

Monday, June 9
Orientation and advising.

Tuesday, June 10
Registration.
Karate lecture and demonstration of Tae Kwon Do techniques, 7 p.m., HUB ballroom.

Wednesday, June 11
Classes begin, 8 a.m.
Outdoor Concert, Silent Way (local jazz group), 7 p.m., Fisher Plaza.

Friday, June 13
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

WEEK OF JUNE 15

Monday, June 16
Free U registration, 7-10 p.m., HUB ballroom.

Tuesday, June 17
University Faculty Senate Council meeting, 2:10 p.m., Room 101 Kern.
Free U registration, 10 a.m.-4 p.m., HUB ballroom.

Wednesday, June 18
Artists Series Musicals of the '30's, "The Great Ziegfeld," 8:30 p.m., University Auditorium.
Commonspace Theatre, "The Mouse That Roared," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, June 19
Artists Series Musicals of the '30's, "Forty-Second Street," 8:30 p.m., University Auditorium.

Friday, June 20
Deadline for filing Course Adds for 10 Week Summer Session.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, June 21
Penn State Chess Club Tournament, 8:30 a.m.-12 p.m., HUB ballroom.

Exhibits

MUSEUM OF ART

Gallery A — Ancient Peruvian Ceramics from the collection of Kehl and Nena Markley, through June 22, Bellefonte Courthouse, June 29-Sept. 10.

Gallery B — Central Penna. Festival of the Arts Juried craft exhibition, July 10-25. Five Pennsylvania Painters, in conjunction with Nittany Mountain Summer, July 27-Sept. 7.

Gallery C — Twenty paintings on wood panels, from Allentown Museum of Art Samuel H. Kress Collection, through Oct. 5. (Note: Hours, 12 noon to 5 p.m., Tuesday-Sunday, closed Monday. Free tours each Thursday at 1:30 p.m. and also at 1 p.m. Aug. 1, 2, 3, 8, 9, 10, 15 and 16).

ZOLLER GALLERY

Central Pennsylvania Festival of the Arts Invitational Art Exhibition, July 12-Aug. 9.

CHAMBERS GALLERY

Lawrence von Barran, paintings, drawings, prints, June 9-27. Betsy Suhey and Virginia Kopacz, metalwork and jewelry, June 30-July 24.

HUB GALLERY

Resurgence Gallery Crafts display, June 9-31. Central Pennsylvania Festival of the Arts, Children's art display, July 14-Aug. 6. Hours — Monday-Thursday, 7 a.m. to 11 p.m. Friday-Saturday, 7 a.m.-12:30 a.m. Sunday, 8 a.m.-11 p.m.

HAMMOND GALLERY

Central Pennsylvania Festival of the Arts, July 17-20. Rosalie Staley, doctoral candidate in art education, Aug. 2-10.

WEEK OF JUNE 22

Sunday, June 22
Penn State Chess Club Tournament, 8:30 a.m.-7 p.m., HUB ballroom.
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom it rain).

Wednesday, June 25
Artists Series Musicals of the '30's, "Footlight Parade," 8:30 p.m., University Auditorium.
Commonspace Theatre, "The Loved One," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, June 26
Artists Series Musicals of the '30's, "Roberta," 8:30 p.m., University Auditorium.

Friday, June 27
File for Pass/Fall Option for 10 Week Summer Session.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

WEEK OF JUNE 29

Monday, June 30
File for Pass/Fall Option for 10 Week Summer Session.

Tuesday, July 1
University Faculty Senate, 2:10 p.m., Room 101 Kern.
File for Pass/Fall Option for 10 Week Summer Session.
PSU Tennis Club Junior Tournament, varsity courts.
Deadline for filing Course Drops for 10 Week Summer Session.

Wednesday, July 2
PSU Tennis Club Junior Tournament, varsity courts.
Graduate Council meeting, 2:30 p.m., Room 101 Kern.
Commonspace Theatre, "Bedazzled," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, July 3
PSU Tennis Club Junior Tournament, varsity courts.

Friday, July 4
PSU Tennis Club Tournament, varsity courts.
Independence Day recess. No classes; ten-week program classes will be made up Wednesday, Aug. 20.

WEEK OF JULY 6

Sunday, July 6
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom it rain).

Monday, July 7
Commonspace Theatre, "Putney Swope," 7:30 and 9:30 p.m., Room 112 Kern.

Friday, July 11
Penn State Festival Theatre, "Wonderful Town," 8 p.m., Playhouse Theatre.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, July 12
Penn State Festival Theatre, "Wonderful Town," 8 p.m., Playhouse Theatre. Matinee 2 p.m.

WEEK OF JULY 13

Sunday, July 13
Penn State Festival Theatre, "Wonderful Town," 7:30 p.m., Playhouse Theatre.
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom it rain).

Monday, July 14
Alumni Vacation College, theatrical performance, 9 p.m., Room 112 Kern.

Tuesday, July 15
Deadline for filing Course Adds for 6 Week Summer Session.

Wednesday, July 16
College of Education Lecture, Henry Hermonowicz on "The Social Ecology of Education," 11:10 a.m., Room 112 Kern.
Commonspace Theatre, "Those Fearless Vampire Killers," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, July 17
College of Education Lecture, Ralph Heimer on "The Future of Our Schools." Central Pennsylvania Festival of the Arts slide talk and presentation, 7 p.m., Room 101 Kern.

Friday, July 18

File for Pass/Fall Option for 6 Week Summer Session.
Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
Department of Sociology Lecture, Governor Shapp, 1:30 p.m., Room 112 Kern.
Central Pennsylvania Festival of the Arts, slide talk and presentation, 7 p.m., Room 101 Kern.

Saturday, July 19

Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
Central Pennsylvania Festival of the Arts, slide talk and presentation, 2 p.m., Room 101 Kern.

WEEK OF JULY 20

Sunday, July 20
Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 7:30 p.m., Pavilion Theatre.
Central Pennsylvania Festival of the Arts, slide talk and presentation, 2 p.m., Room 101 Kern.

Monday, July 21
File for Pass/Fall Option for 6 Week Summer Session.

Tuesday, July 22
File for Pass/Fall Option for 6 Week Summer Session.
Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
College of Education Lecture, Jane Singh on "Equality Issues in Children's Literature," 12:45 p.m., Room 112 Kern.
Deadline for filing Course Drops for 6 Week Summer Session.

Commonspace Theatre, "At the Circus" and "The Pharmacist," 7:30 and 9:30 p.m., Room 112 Kern.

Wednesday, July 23

Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
College of Education Lecture, Dale Harris, psychology and human development, on "The Place of Fantasy in Psychological Development," 7:30 p.m., Room 112 Kern.

Thursday, July 24

Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
College of Education Lecture, David Carter on "The Courts and the Schools" 3:55 p.m., Room 112 Kern.

Friday, July 25

Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.
Commonspace Coffeehouse, 8 p.m., Room 112 Kern.

Saturday, July 26

Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.

WEEK OF JULY 27

Sunday, July 27
Public opening reception for Nittany Mountain Summer and the "Five Pennsylvania Painters" Exhibit, 3-5 p.m., Museum of Art.
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom if rain).

Tuesday, July 29

College of Education Lecture, Lester Golub on "Education in the Subcultures," 9:35 a.m., Room 112 Kern.

Wednesday, July 30

Pennsylvania Orchestra Shirt-Sleeve Concert, 8 p.m., University Auditorium.
College of Education Lecture, M. Eloise Murray on "Insights about World Population," 7:30 and 9:30 p.m., Room 112 Kern.
Commonspace Theatre, "What's New Pussycat," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, July 31

College of Education Lecture, Harold Mittel on "A Structure for Education," 7:30 p.m., Room 112 Kern.

Friday, August 1

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.
Pennsylvania Ballet, "Madrigrasico," "Concerto Grosso," "After Eden," "American Rhapsody," 8 p.m., University Auditorium.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, August 2

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.
Pennsylvania Ballet, "Madrigrasico," "Concerto Grosso," "After Eden," "American Rhapsody," 8 p.m., University Auditorium.
At Ease with the Pennsylvania Ballet, "The Making of a Dancer," 4 p.m., University Auditorium.

WEEK OF AUGUST 3

Sunday, August 3
Penn State Festival Theatre, "Girl Crazy," 7:30 p.m., Playhouse Theatre.

Monday, August 4

Outdoor Concert, The Dance Band, 7 p.m., Fisher Plaza.

Tuesday, August 5

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.

Wednesday, August 6

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.
Pennsylvania Orchestra Shirt-Sleeve Concert, 8 p.m., University Auditorium.
Graduate Council meeting, 2:30 p.m., Room 101 Kern.

Commonspace Theatre, "A Funny Thing Happened on the Way to the Forum," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, August 7

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.

Friday, August 8

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.
Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.
Behind the scenes of "Girl Crazy," 3 p.m., Playhouse Theatre.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.
Pennsylvania Ballet, "Recital for Cello and 8 Dancers," "In Retrospect," "Raymond Variations," 8 p.m., University Auditorium.

Saturday, August 9

Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre. Matinee, 2 p.m.
Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.
Pennsylvania Ballet, "Recital for Cello and 8 Dancers," "In Retrospect," "Raymond Variations," 8 p.m., University Auditorium.
At Ease with the Pennsylvania Ballet, "The Choreographer's Craft," 4 p.m., University Auditorium.

WEEK OF AUGUST 10

Sunday, August 10
Penn State Festival Theatre, "Girl Crazy," 7:30 p.m., Playhouse Theatre.
Penn State Festival Theatre, "Awake and Sing," 7:30 p.m., Pavilion Theatre.
Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom if rain).

Tuesday, August 12

Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.

Wednesday, August 13

Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.
Pennsylvania Orchestra Shirt-Sleeve Concert, 8 p.m., University Auditorium.
Commonspace Theatre, "The Magic Christian," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday, August 14

Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.

Friday, August 15

Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.
Behind the scenes of "Awake and Sing," 3 p.m., Pavilion Theatre.
Pennsylvania Ballet, "Adagio Hammerklavier," (Premiere to be announced), "Scotch Symphony," 8 p.m., University Auditorium.
Commonspace Coffeehouse, 8 p.m., Room 102 Kern.

Saturday, August 16

Penn State Festival Theatre, "Awake and Sing," 7:30 p.m., Pavilion Theatre.
Pennsylvania Ballet, "Adagio Hammerklavier," (Premiere to be announced), "Scotch Symphony," 8 p.m., University Auditorium.
At Ease with the Pennsylvania Ballet, "Rehearsal Studio to Stage," 4 p.m., University Auditorium.

Wednesday, August 20

Classes end, 9:55 p.m.

Sunday, August 24

Residence Halls close for Summer Term, 3 p.m.

Saturday, August 30

Commencement, 10:30 a.m.

E. L. Keller dies; retired vice president

Edward L. Keller, who retired in 1969 as vice-president emeritus for public affairs at the University, died Saturday, May 31, after an extended illness. He served on the Penn State staff for 43 years, joining the Industrial engineering faculty in 1926, a year after he had received his bachelor of science degree in industrial engineering at Penn State. He was named head of the engineering extension program in 1935, director of General Extension, now Continuing Education, in 1953, and vice president for public affairs in 1964.

Mr. Keller served in 1949-50 as president of the National University Extension Assn., an organization that later honored him with a Distinguished Service certificate, Key of the Association, and in 1966 its highest honor, the Julius M. Nolte

Award for "meritorious services rendered to the cause of extension education."

The National Assn. of State Universities and Land-Grant Colleges in 1967 honored him for his leadership and personal efforts toward Federal legislation on behalf of adult education. He had served the Association as chairman of the Council on General Extension.

Mr. Keller had served as chairman of the Pennsylvania Heart Assn. and in the community served seven years on the State College Borough Council, five of them as Council president. He was campaign chairman of the United Fund—College Area in 1968 and was a past president of Centre Hills Country Club. He was a member of Alpha Tau Omega, social fraternity, and for many years headed the local alumni group of the fraternity.

PIRG —

(Continued from page one)

all administrative costs involved in the collection and transfer of funds for PennPIRG. The University's function is one of a conduit and not of an agent of PennPIRG.

—The initial contract between the University and PennPIRG will be for one or two years. Before any renewal of a contract, there will be a review by administrative officers of the University and the Board of Trustees of PennPIRG's activities and the degree of participation by students.

The resolution adopted by the Board, with one negative vote, recognizes the potential educational merit of PennPIRG and provides that the group will take all necessary steps to make it clear that its activities are not a part of the programs of the University.

The Board established a "negative check-off" system of funding. Under such a plan, the University would have assessed each student on each term bill \$2.00 in addition to all other fees—with the opportunity made clear on the bill that the students could refuse to pay the \$2.00 to PIRG, and further indication that if they paid the \$2.00 they could get a refund within a specified period.

PROMOTIONS —

Dr. Karl E. Spear, ceramic science
Dr. Joseph Stach, electrical engineering
Dr. Wladystaw A. Strumillo, architecture
Roger L. Sweeting, physical education
Dr. G. Thomas Tait, physical education
Dr. James G. Thompson, physical education
James S. Toothman, agricultural economics extension

Coleman urges responsive government

U.S. Secretary of Transportation William T. Coleman Jr. last Saturday urged graduates at University Park Commencement Exercises to demand a responsive government that is flexible enough to adapt its policies to new conditions.

Expressing concern over the growing rate of governmental spending, Coleman said, "we must find a proper balance between meeting our social needs and maintaining the fiscal stability necessary to our nation's survival."

He also urged the graduates to be con-

cerned about integrity in government, noting that the abuses of executive power in the Watergate scandal did not demonstrate the weakness of the presidential office—only of a man and his assistants.

"Law and morality should play a major role in the conduct of the affairs of government," he said. "Political power or majority rule cannot be the only moving force. The true guide to policy in a civilized, democratic society has to be integrity and honesty mixed with courage and intelligence."

U. COUNCIL

(Continued from page one)

Advisory Board, did not endorse major changes which would involve reconstitution of membership of the University Council. Also, the Council itself reassessed its purpose and membership and unanimously recommended no change in membership but indicated a strong preference to identify its principal purpose as being advisory to the President in a recommendation endorsed by the President.

The Council is composed of the provost; deans of two Colleges; the director of one Commonwealth Campus; four tenured members of the faculty, three from Univer-

sity Park and one from a Commonwealth Campus; two students with the status of seventh term or above representing the undergraduate students at University Park; one graduate student; and one undergraduate representing the students at Campuses other than University Park.

It now is recognized as "a broad advisory group to the Office of the President, involving administrators, faculty, and students, providing a means of communication between the administration offices of the University, the faculty and the students, and bringing together the leaders of the University community to consider and review in depth significant matters."

Two new members elected to Board

J. Luther Snyder, of Camp Hill, and Kenneth L. Holderman, of State College, along with five incumbents, have been elected to three-year terms on the Board of Trustees.

Mr. Snyder, master of the Pennsylvania State Grange, was named by delegates from Agricultural Societies, meeting here, and succeeds A. Wayne Reindinger of Fleetwood, who has been a member of the Board since 1969 and was not a candidate for re-election.

Mr. Holderman retired a year ago as vice president emeritus for Commonwealth Campuses of the University and succeeds Charles P. Neldig, of Haverford, who has served on the Board since 1972. He was elected by alumni of the University balloting by mail.

Delegates from Agricultural Societies also re-elected Harry R. Ulrich, Hummelstown poultry farmer, who has served on the Board since 1969, while delegates from Industrial Societies re-elected Samuel F. Hinkle, of Hershey, retired president and chairman of the Hershey Foods Corp., first named to the Board in 1963, and G. Albert Shoemaker, of Pittsburgh, retired president of Consolidation Coal Co. and a Board member since 1957. He had served as president of the Board from 1970 to 1973.

Re-elected by alumni were Dr. Helen Dickinson Wise, of State College, a junior high school social studies teacher, and Jesse Arnette, San Francisco attorney, both have been serving on the Board since 1969.

Don Klias, physical education (McKees-

port)

Calendar

June 5—15, 1975

Special Events

(Note: the following are in addition to the items listed in the Summer Term Calendar.)

Seminars

Thursday, June 5—Astronomy, 4 p.m., Room 445, David L. Acoustics, 2 p.m., University of Oklahoma, on "Carbon Abundances in G and K Stars."

Thursday, June 12—Ceramic Science, 11 a.m., Room 301 Mineral Industries, James R. Varner, University of Erlangen, Germany, on "The Relationship between Surface Flaws and Glass and Strength."

Lecture

Thursday, June 5—Fitzhugh W. Boggs, Cornell Lecture on Acoustics, 2 p.m., Room 112 Kern, Robert S. Gales, Naval Undersea Center, San Diego, on "Engineering Applications of Psychoacoustics."

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 665-1387 (Network Line 478-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, JUNE 12, 1975

MANAGER OF MEDICAL RECORDS — Hershey Medical Center

Responsible for the planning, organizing, and development of a medical records system to fulfill the medical record requirements of Hospital Administration, Medical Policy Board, State and Federal regulations, and the joint Commission on Accreditation of Hospital Facilities. Bachelor's degree or equivalent in Medical Record Science, Business Administration or related field, plus five to seven years management experience preferably in a university teaching hospital.

SENIOR SYSTEMS PROGRAMMER, UNIVERSITY LIBRARIES — University Park

Responsible for providing direction and assistance in the systems programming group. Responsible for participation in evaluation, development, and implementation of programs undertaken for the Library Information Access System. Bachelor of Science degree in computer science or equivalent, plus two to four years of directly related experience is required. Systems programming experience in a time-share environment of state-of-the-art computer hardware is desirable. Demonstrated supervisory ability is desirable.

MANAGER OF PATIENT ACCOUNT SERVICES — Hershey Medical Center

Responsible to the Director of Fiscal Services for establishing and directing patient account functions. Includes billing, credit, collection, and related activities involving third party and billing problems. Bachelor of Science or equivalent in accounting or business administration plus five to seven years of experience in hospital-patient accounts area including crediting, collection.

ASSISTANT HOSPITAL DIRECTOR — Hershey Medical Center

Responsible to the Hospital Director for the administrative functions of the out-patient care program and other various departments of the Teaching Hospital. Participates in the planning, organizing, directing, staffing, reporting, budgeting, and controlling activities in these areas as assigned. Masters degree in Health Care Administration or equivalent with one to two years directly related experience in a hospital or other health organization.

AREA REPRESENTATIVE, CONTINUING EDUCATION — Delaware County Campus

Responsible for the functions of development, organization, operation, and administration of Continuing Education programs and services within an assigned geographical district. Bachelor's degree or equivalent with two to three years effective experience in business, industry or education.

The University is an Equal Opportunity Employer.

Officers for new year installed

Senate acts on admissions policies

Sally S. Small, associate librarian at the Berks Campus, is the new chairman of the University Faculty Senate.

Other new officers installed at the June 3 Senate meeting are Dr. John J. Coyle Jr., professor and head of the Department of Business Logistics, chairman-elect, and Martha S. Adams, assistant dean for resident instruction in the College of Health, Physical Education, and Recreation, secretary.

Elected to the new Faculty Advisory Committee, which includes officers of the Senate, were Dr. William Rabinowitz, professor and head of the Department of Educational Psychology; Dr. Margaret B. Matson, professor of sociology and social welfare; and Dr. Guy E. Rindone, professor of ceramic science.

New members of the Faculty Rights and Responsibilities Committee are Dr. Victor L. Dupuis, professor of education; Dr. Richard T. Tomasic, assistant professor of psychology at Behrend College, and Dr. James B. Bartoo, dean of the Graduate School.

In other action at the session, the Senate adopted new admissions procedures and policies.

Dr. Mary L. McCammon, chairman of the Committee on Academic Admissions Standards, said a major thrust of the policies is to emphasize that anyone with a high school degree may enroll in credit courses. The policies provide for three classifica-

tions of undergraduate students — degree candidate, provisional degree student and non-degree student.

The provisional degree student, a new category, is one who does not meet the normal admissions requirements but may enroll in credit courses. Both the provisional degree and non-degree students may be admitted as degree candidates if they meet a specified grade-point average.

Also approved by the Senate was a report from the Subcommittee on Continuing Education-Resident Education Definition which eliminates the University-wide residency requirement.

It also provides that academic administrators and faculty of each College or program "must have a control mechanism for assuring that high academic standards are maintained in all instructional offerings regardless of their delivery system."

A proposal of transfer policies was sent back to committee for further study after some senators expressed concern over a recommendation that students arriving in a major would be required to maintain the same grade point average required of students who transfer into the program.

The Senate rejected a subcommittee recommendation calling for deletion of a student rule requiring students in academic difficulty to consult with the Division of Undergraduate Studies to determine if some other program of studies should be undertaken.

Bicentennial projects approved

The University's Bicentennial Commission has approved support for five major projects in observance of the nation's two hundredth birthday, and various colleges and departments are planning other projects. They are all listed below so that others may be aware of them if they wish to develop still other projects. These should be reported as early as possible to David R. Schuckers, 304 Old Main, so that the Commission is aware of plans in progress. The report should include the name of the project, a brief description, the group in charge, the name of the person to contact, the proposed date(s) of the project, and the location of the event.

MAJOR PROJECTS APPROVED:

PENNSYLVANIA 1776 — a commemorative book about Pennsylvania during 1776, written by a large number of faculty and staff of the Pennsylvania State University. The book attempts to give a picture of the life and times of the Pennsylvania colonies in 1776. It will serve as a valuable addition to the historical record, as a colorful new teaching aid, and as a lasting remembrance of the Bicentennial celebration.

PORTRAITS U.S.A. 1776-1976 — A special exhibit of the prime works of approximately sixty American portraitists. The two hundred years span chosen to coincide with the period of American independence includes a stellar range of artists from Benjamin West and John Copley in the eighteenth century to contemporary giants such as Andrew Wyeth. Special efforts are being designed to reach uncommon visitors to the Museum of Art such as secondary school students, handicapped and senior citizens. (Apr. 18-June 6).

FREEDOM: THEN, NOW, AND TOMORROW — a state-wide program of approximately 1,000 "town meetings" focusing public discussion upon

the historical significance and changing nature of freedoms (guaranteed by the U.S. Constitution and the Amendments).

BE GLAD THEN AMERICA — a work for orchestra and chorus composed by Pulitzer Prize winner John LaMontaine, dealing with the period immediately preceding the American colonists' revolt. This original work will be performed at University Park in February, 1976 by the Pittsburgh Symphony and will feature prominent guest artists appearing with the University Chorus. Material for the libretto has been drawn exclusively from "period" sources. With additional funding, the production could be taped by the University's television facilities for widespread distribution.

BICENTENNIAL LECTURE SERIES, "AS OTHERS SEE U.S. (USP)" — a series of internationally recognized speakers appearing on the University's campuses during each academic term in 1975-76 for a special, week-long program of discussion and debate centering on the problems, challenges, failures, successes, and social changes in the United States since the time of the American Revolution, with particular emphasis upon the third century of American independence.

In addition, other Bicentennial events have been planned by various colleges and departments:

COLLEGE OF AGRICULTURE

Even Pugh talk by Dr. J. K. Pasto, on science in agriculture about 1860, with slides of Dr. Pugh's activities.

Slide show, "Progress of Agriculture," to be made available to all counties of the state.

Small exhibits in central Agriculture buildings.

As Progress Days — old farm equipment in operation.

Colonial Garden, summer, 1976, with herbs, vegetables, flowers.

Hort Show, Pennsylvania horticulture, past, present, future, by Hort Club. Also for Homecoming Weekend, 1975 and 1976.

Antique farm tools on display.

ART
Kern Building Gallery display of Bicentennial Art Exhibit, after display by William Penn Museum, Harrisburg. 76 watercolors by Nick Ruggieri, Harrisburg Patriot News.

BLACKS
Booklet tracing path of black woman across the state through underground railroad. Oliver Ladrons.

MEDICINE
Evolution of Medicine and Health Sciences, 1776-1976, exhibits, cinematic works, traveling exhibits. Hershey Medical Center.

THEATRE
Penn State Festival of American Theatre, July 9-Aug. 14, 1976. American plays and musicals, continuing program initiated for summer in 1971.

National meeting of SDE on Campus

An exchange of scientific ideas, combined with transaction of business of the organization, will feature the annual national meeting of "Graduate Women in Science," also known as Sigma Delta Epsilon, at University Park, June 13-14. Most of the scientific sessions will be held in the Conference Center of the J. O. Keller Bldg.

Dr. Jessie Price, national president, will preside at the banquet luncheon on noon Saturday, June 14, at the Nittany Lion Inn. Sigma Delta Epsilon members who wish to attend and have not made reservations may still do so. Additional information about all aspects of the meeting may be obtained by calling 865-7557.

The executive council of the organization will meet Thursday evening and a reception and registration for the members and others interested in attending the sessions

SENATE REPORT

The following are the remarks by outgoing Faculty Senate chairman Dr. Helen Snyder and newly elected chairman Sally S. Small, given at the Senate meeting of June 3.

DR. HELEN SNYDER

It is customary for the outgoing Chairman of the Senate to speak briefly on the year's work and to offer some comments on the shape of things to come; I welcome the opportunity to become a part of that custom. Although some of what I will say was foreshadowed in the comments I made at the Faculty Convocation on May 13, there are internal matters which seem to me worthy of comment also.

I hope that you feel some satisfaction with the accomplishments of the year. It seems to me that we have accomplished what we set out to do: move the 35 recommendations of the Joint Administrative-Faculty Committee on Governance into the working procedures of the Senate and Faculty and further the sense of unity among the several branches of this large and very complex University by fostering through personal visits the flow of ideas, problems-discussed, and problems-solved that are of concern to all. Since we are the stewards of the entire faculty, it is immodest for us to suggest that we have created a new heaven and a new earth. That faculty must ultimately decide whether we have done what they intended us to do. But we may, I think, properly assess our own efforts as modestly successful. I feel sure that under the leadership of your new officers, the next year will be satisfying to you and that the faculty as a whole will find the Senate responsive to its wishes.

The sober reflection that is occasioned by the drawing to a close of the 54th year of the Senate at The Pennsylvania State

University, in my case focuses on two matters that I believe we must address directly with the best wisdom we can summon in the next year.

Whether we would wish it or not, I believe the clarification of the Senate's intention when it delegated authority to its committees and proffered it to the college and campus faculty organizations will be necessary. The matter is complex, emotion-ridden, and likely to be an evolving understanding rather than a neatly wrapped definition that can be written into the by-laws and therefore used to solve all questions about delegated responsibility and authority. The import of that evolution is of crucial importance, I believe, to the capability of this University to adapt to the rapidly changing milieu in which higher education must function for the remainder of most of our professional careers. It seems to me that the Senate should reassess its role with respect to both its own committees and the campus and college faculty organizations to decide whether the dogma of "in loco parentis" is any less anachronistic for faculty organizations' relationship to each other than it is for the relationship of the University to the students.

My second concern is not unrelated to the first: the further evolution of the faculty Senate's capability for judging excellence in the education we offer the students of the Commonwealth and the Nation — indeed, the World. We have dealt with the matter in a piecemeal way: grade infla-

(Continued on page three)

Sally S. Small, new chairman.

SALLY S. SMALL

This Senate owes Dr. Helen Snyder a deep debt of gratitude for her leadership this year. In particular, she has pushed and pulled us through the legislation for implementation of many recommendations of the Governance Report in just one year. This feat is no small accomplishment. Thank you, Dr. Snyder.

Fellow Senators and guests. It is with humility that I accept this highest elective office of the Pennsylvania State University Faculty. The office bears an awesome responsibility. I will endeavor to be worthy of this honor.

The Senate has spent two introspective years examining the faculty's role in the governance of this University. This coming year the few remaining loose ends of

(Continued on page two)

President Dwight (right) and Dr. Erwin E. Mueller, Evan Pugh Professor of Physics, were in a jovial mood as the President introduced Dr. Mueller to members of the Board of Trustees. The occasion was the meeting of the Board May 30-31 when the President cited eight members of the faculty to the Board for special recognition. Dr. Mueller was cited for his election to the National Academy of Sciences.

Eight faculty cited by president

Eight members of the faculty were cited by President Oswald for recognition by the Board of Trustees of the University May 30, among them Dr. Erwin W. Mueller, Evan Pugh Professor of Physics, for his recent election to the National Academy of Sciences, the highest distinction in Dr. Mueller's profession. Earlier this year, he was named to the National Academy of Engineering. Dr. Mueller and his wife were guests of the trustees at a dinner.

Other faculty members cited by President Oswald include:

—Dr. John L. Lumley, Evan Pugh professor of aerospace engineering, elected a member of the American Academy of Arts and Sciences.

—Dr. Vladimir S. Stubican, professor of ceramic science, elected a fellow of the American Ceramic Society.

—Dr. William R. Schmalstieg, professor and head of the Department of Slavic Languages, invited by the president of the

Vilnius State University (Lithuanian SSR, Soviet Union) to read a paper at the Third Conference on Current Problems of Baltic Linguistics in September.

—Dr. Peter Gould, professor of geography, recipient of a Meritorious Contribution Award from the Association of American Geographers.

—Dr. John A. Lucas, professor of physical education, elected a fellow in the American Academy of Physical Education.

—Dr. Eugene Kelley, dean of the College of Business Administration, invited to serve as one of the two U.S. delegates to the CENTO Second Conference of University Rectors, in Ankara, Turkey, in September.

—Dr. Ernest J. Harrison, Jr., associate professor of chemistry at the York Campus, joining an eight-year project at the National Institute of Health on medicinal alternatives to morphine.

Other faculty distinctions noted

Ralph Carmode, assistant professor of speech at the Wilkes-Barre Campus, was presented with the Hayfield Award for 1974-75, given annually by the Student Government Association of the campus to the faculty member who has contributed most to the student body through excellence in teaching and participation in co-curricular programs.

Dr. William L. Harkness, professor and head of the Department of Statistics, has been elected a Fellow of the American Statistical Association (ASA). He is among 26 members of the Association selected this year for the honor. The new Fellows will receive certificates citing their accomplishments at the group's annual meeting Aug. 26 in Atlanta, Georgia. Dr. Harkness has served on the ASA National Council, the executive committee of the Section on Statistical Education, and as president of the State College Chapter.

Dr. David B. Geselowitz, professor of bioengineering, has been elected Fellow of the American College of Cardiology, one of four engineers in the world to have received the honor. The College is a non-profit organization chartered and incorporated in 1949 as a teaching institution in Washington, D.C., and is composed largely of physicians and scientists who are dedicated to promoting and developing the life sciences pertaining to the circulatory system in health and disease. It has an international membership of 6,300.

Dr. Harner A. Weeden, associate professor of civil engineering, has been honored by the Pennsylvania Society of Professional Engineers which presented him with the 1975 Surveyor of the Year Award, "in recognition of outstanding contributions to the profession of surveying and service to mankind." The award was given at the 40th annual convention of the Society in Hershey.

Paul N. Reber, associate Montgomery County agent, has been declared the state winner of the Eighth Annual Public Information Awards Contest, sponsored by the National Association of County Agricultural

Agents. The contest is designed to recognize excellence in the use of mass media approaches in Extension teaching and information programs, and it is conducted with the cooperation of Amchem Products, Inc., by the Pennsylvania Association of County Agricultural Agents.

The College of Business Administration Alumni Association and Student Council has honored Benjamin Henszey, assistant professor of business law, and Dr. G. Kenneth Nelson, professor and head of the Accounting Department. Achievement awards were given to Henszey as outstanding teacher and to Dr. Nelson as outstanding advisor.

Donald V. Joyce, instructor in recreation and parks at the University, is the author of an award-winning article in "Social Agency Management," professional social work magazine. He received a fourth place award for the article, "Foundation Funding," which details specific steps to be taken in seeking capital and operating funds from philanthropic sources for more and better services and facilities.

The article appeared in the February issue of "Parks and Recreation" and in the winter issue of the "Pennsylvania Journal of Health, Physical Education and Recreation." It has been reprinted in the "West Virginia Recreation and Parks Review" and is scheduled for publication in a forthcoming issue of "DCA Reports," published by the Pennsylvania Department of Community Affairs.

Appointed

Dr. George H. Grenier, who since 1969 has been dean of the college of engineering at Detroit Institute of Technology, has been appointed division head of the engineering and technology programs at Capital Campus. During the past year, Dr. Robert Conover has been acting head of the program. Dr. Grenier is a graduate of Cooper Union Institute, New York, earned a master's degree at New York University, and was granted a Ph.D. by Montana State University. For seven years he was on the faculty of the University of Toledo and has held positions in industry.

Five department heads named

Speech communication

Dr. Robert S. Brubaker, a member of the faculty since 1952 and currently professor of speech communication, will become head of the Department of Speech Communication July 1, succeeding Dr. Herman Cohen, who is resigning to devote full time to research and teaching.

Dr. Brubaker has already served three terms as acting head of the department, in 1969, 1970 and 1974.

A graduate of the University of Illinois with a B.A. in speech pathology, he received an M.A. and Ph.D. in speech science, with a minor in psychology, also from Illinois. Following receipt of his Ph.D., he was awarded an American Speech and Hearing Association Travel Grant to Italy.

Dr. Brubaker is nationally known for research in speech science and psycholinguistics and acoustics. He is co-author of "Oral Communication in the Classroom" and was co-editor of the book, "Speech Pathology." He is associate editor of the Journal of Communication Disorders and is a member of the board of editors of the Journal of Psycholinguistic Research.

Mineral economics

Dr. William A. Vogely, professor of mineral economics, will succeed Dr. John D. Ridge as head of the Department of Mineral Economics, effective July 1, when Dr. Ridge will be retired as professor emeritus of economic geology and mineral economics.

Before joining the faculty last year, Dr. Vogely was acting deputy assistant secretary for energy and minerals in the U.S. Dept. of the Interior. He was in federal government service in Washington, D.C. from 1952 until last year and from 1948 to 1952 in New Jersey and Ohio. He was at one time chief economist and assistant director for mineral resource evaluation with the U.S. Bureau of Mines.

A 1945 graduate of Kenyon College, Dr. Vogely was acting deputy assistant secretary-Princeton University.

In 1954-60, Dr. Vogely was professor in the Department of Agriculture's Graduate School, teaching evening courses in economic theory. From 1962 to 1974 he was a professorial lecturer at George Washington University, teaching graduate-level courses. He was at Penn State as a visiting professor of mineral economics in the 1969 Spring Term.

He received the Interior Department's highest service award in 1965. In 1972, Kenyon College awarded him an honorary doctor of laws degree.

SMALL —

(Continued from page one)

the reorganization must be connected as expeditiously as possible. Committees need to be organized early and set to work with firm target deadlines that will help to eliminate crowded agendas next Spring. Many committees will be functioning for the first time in an advisory capacity to administrative officers.

The revision of the student rules, the pass-fail system, and delegation of responsibility are among the major carry-over items that must receive careful deliberation.

I will make full use of the proposed cabinet for assigning new items of business.

I am not a loner, but a worker. I cannot carry this heavy load alone, but will need the help of each Senate Officer, each Committee Chairman, and each Senator to help make this Senate productive and responsive to the needs of the University Community. The success of an organization depends not on the structure of that organization, but on the people who wish the organization to succeed. Thank you.

PROMOTION LIST

In last week's INTERCOM, the name of Aubrey D. Vose was missed in the list of faculty promotions; he was promoted to associate professor of agricultural economics extension. It should also be noted that Arthur B. Daugherty was promoted to assistant professor (adjunct) of agricultural economics.

English

Dr. Robert W. Frank, Jr., authority on medieval literature and culture and a member of the English department faculty since 1958, will become head of the department July 1.

He will replace Dr. Arthur O. Lewis, associate dean of the College of the Liberal Arts, who has been acting head of the department.

Dr. Frank has had administrative roles in the past; he was, in 1956-57, the acting chairman of the Department of Language, Literature and Philosophy, at Illinois Institute of Technology, and at Penn State he was director of graduate studies in English from 1962 to 1965, acting chairman of the department in 1966, and associate head 1966-71.

A graduate of Wabash College, where he was Phi Beta Kappa, he earned an M.A. in English at Columbia University, and Ph.D. at Yale. He taught at Lafayette College, University of Rochester, Princeton, and Northwestern before coming to Penn State.

The author of "Chaucer and the Legend of Good Women," published by Harvard University Press, and "Piers Plowman and the Scheme of Salvation," published by Yale University Press, Dr. Frank has prepared many articles for professional journals and was co-editor of "The Critical Question: An Approach to the Problem of Critical Reading and Critical Writing" and "The Responsible Man: The Insights of the Humanities," with colleague Dr. Harrison T. Meserole. He was also co-founder in 1961 of the journal, "The Chaucer Review," and since 1971 has been sole editor.

German

Replacing Dr. Stanley R. Townsend, who will retire after 10 years at the University, in the position of head of the Department of German will be Dr. Richard K. Seymour, currently chairman of the department of European languages and literature and professor of German at the University of Hawaii. The change is effective July 1.

Dr. Seymour was an assistant instructor at Penn State in 1954, then served as an instructor at Princeton University. In 1958 he joined the Duke University faculty, resigning as associate professor to accept the Hawaii post.

The University of Michigan conferred both B.A. and M.A. degrees in German on the new department head; the Ph.D. was granted by the University of Pennsylvania in 1956, in German linguistics.

Now in his seventh year as national secretary-treasurer of Delta Phi Alpha, Dr. Seymour served as executive secretary of the South Atlantic Modern Language Association from 1962 to 1967. He has been active in the development of a materials center for German for the State of Hawaii.

Ag education

Dr. Gene M. Love, professor and coordinator of agricultural education at the University of Missouri, will become head of the agricultural education department August 15, succeeding Dr. David R. McClay who retired Dec. 31 after 29 years on the faculty.

A 1949 graduate of the University, he received an M.S. in 1953 and a Ph.D. in 1954, all in agricultural education.

Before accepting the post at Missouri in 1967, Dr. Love was associate professor at Penn State for nine years, and previously he had served on the faculty of Stanford University with assignment in The Philippines. He was a visiting professor at Penn State in 1969 and at Colorado State University in 1972. Earlier he had taught on the secondary level at East Donegal H.S., 1948-51, and briefly at West Chester high school in 1954 before entering the U.S. Air Force and serving until 1956 as first lieutenant at Stewart Air Force Base.

Honored on a number of occasions, he received the Education Research Award of The American Institute of Cooperation, Washington, D.C. in 1971. He has authored a great many articles and papers and developed with others a long series of manuals for teachers.

Biological sciences reorganized; three departments

The number of administrative units in biological sciences in the College of Science will be reduced from four to three as part of a reorganization plan developed by the faculty in the College.

The new plan was presented to the University's Board of Trustees May 30, and committees are being appointed to implement the necessary changes.

The four existing biological departments — biochemistry, biology, biophysics and microbiology — are to be supplanted by three new units. These include a Department of Biochemistry and Biophysics, a Department of Biology, and a Department of Microbiology and Cell Biology.

Mineralogy change through merger

The graduate program in mineralogy has been merged with that in petrology and geochemistry.

The merger followed recommendations of the Graduate Program Review Committee and approval by the Graduate Council, trustees of the University were advised recently.

The combined program will be known as the geochemistry and mineralogy program. The merger of the two programs, which are closely inter-related scientifically, will result in administrative economy, simplification of catalogue listings and scheduling, and will offer a greater variety of courses to the master's degree candidate.

Dunne memorial

The Howard W. Dunne Memorial Award has been established at the University by the family of the late Dr. Dunne, professor of veterinary science, who died on Sept. 10, 1974. A native of Omaha, Neb., Dr. Dunne served on the Penn State faculty for 21 years. Internationally known for his work on swine diseases, he was recognized for significant contributions to international understanding of veterinary medicine and at the time of his death was serving as president of the International Porcine Veterinary Society with 600 members in 27 different countries. He was a graduate of the School of Veterinary Medicine at Iowa State University and held a doctor of philosophy degree from Michigan State University.

The awards will be made to one or more full-time undergraduate students enrolled in the College of Agriculture who have been admitted to an accredited school of veterinary medicine. The number and amount of the awards will be determined by the Selection Committee.

SNYDER —

(Continued from page one)

...method of requesting new courses, pass-fail options, and so on — but we have not yet thought through what the essential components of academic excellence are. I will suggest two aspects of the academic enterprise that seem to me of overweighing importance in the establishment of academic excellence, not so much because I believe I have any special disbursement of wisdom on the subject but to provide a reference point for the possible future consideration of the matter.

The excellence of the academic program rests in the final analysis on two components: the quality of the faculty and the quality of the students.

If that seems a persuasive approach to the concept of excellence, two relatively "hot" foci of the Senate follow:

More sustained involvement in career development opportunities for all faculty and in recruitment of new faculty. More deliberation of the criteria for admission and advancement of students in the University programs as a whole.

Let me conclude with an expression of my thanks to the officers, the Council and the Parliamentarian for their very great help this year. And let me thank you for giving me the opportunity to be your Chairman for the year now ending.

One of the anticipated consequences of the organizational change, according to Dr. Thomas Wartik, dean of the College, is a regrouping of faculty to allow for optimal matching of the disciplinary thrust of the new departments with the individual faculty members' specialized teaching and research interests.

Cell biology, an area which in recent years has been accorded increasing emphasis in several of the existing departments, will now be recognized by name in the new Department of Microbiology and Cell Biology. Approximately half of the members of this department will be identified with the new subdiscipline.

Dr. Alec D. Keith, associate professor of biophysics, was chairman of the committee which drew up the reorganization plan after almost two years of study and consultation with College faculty.

Other committee members were Dr. Carl O. Claggett, professor of biochemistry; Dr. John J. Docherty, assistant professor of microbiology; Dr. Charles R. Hartzell, assistant professor of biochemistry; Dr. Wesley C. Hymer, professor of biology; Dr. Jean W. MacCluer, associate professor of biology; Dr. Paul W. Todd, associate professor of biophysics; Dr. James E. Wright, Jr., professor of genetics; and Dr. Leonard N. Zimmerman, professor of bacteriology.

Additional trustee actions noted

Among actions taken by the Board of Trustees recently were the following:

Approved affiliation agreements between The Milton S. Hershey Medical Center and two community hospitals. One accord, with Harrisburg Hospital at Harrisburg, establishes the first combined residency program between the Medical Center and a community hospital. It merges the general surgery programs of the Medical Center and Harrisburg Hospital into one program under the auspices of the College of Medicine of the University.

The residency program will be known officially as The Pennsylvania State University Affiliated Surgery Residency Program. Dr. John A. Waldhausen, professor and chairman of surgery at Hershey, will be the director of the residency program. He will work in consultation with Dr. Robert P. Duttlinger, director of surgical education at Harrisburg Hospital, in the selection of residents and operation of the program.

A second agreement makes the Clearfield Hospital at Clearfield the ninth community hospital affiliated with the Medical Center for the joint planning and operation of a variety of undergraduate and postgraduate educational programs for students and staff.

Under this agreement, medical students will be able to take elective educational experiences at Clearfield and the University will provide consultation end aid for scheduling, accreditation, facilities and speakers for continuing education activities for Clearfield Hospital staff. Physicians on the Clearfield Hospital staff who make significant volunteer teaching efforts for medical students will receive clinical appointments to the College of Medicine.

English as second language offered

Teaching assistants at the University, for whom English is a second language will benefit from a special Speech Communication course which began yesterday (Wednesday, June 11) with instruction provided by a team headed by Dr. Paul Holtzman, director of the Graduate School Language Testing Center for International Students. He is also supervisor of instruction in English as a Second Language in the Department of Speech Communication.

Authorized the employment of an architect to plan the airconditioning of certain guest rooms in the Nittany Lion Inn. The firm approved is Harbeson Hough Livingston and Larson, of Philadelphia. The airconditioning project is listed as Phase II of a general improvement program at the Inn. The first phase, now in progress, included conversion of the coffee shop into a function room and improvements to the assembly room and other public areas in the basement. On the main floor, the project included improvements to the lobby, including a new north entrance, conversion of the peacock alley area into private dining rooms, and redecoration of the Penn State Room. Earnings of the Inn will finance all improvements.

Authorized the employment of the firm, Environmental Planning and Design, architects, of Pittsburgh, to design a site development plan for West Central Campus. The area involved includes the site of the Environmental Sciences Bldg. along North Atherton St., as well as the campus entrance at Pollock Road and North Atherton St., and extending east to Burrows Rd. Development of a plan will be financed with gift funds.

Approved designation of the Student Recreation Bldg., now under construction along Curran Road, north of Shields Bldg., as "Intramural Bldg." The building, a General State Authority project, is expected to be completed by the opening of the Fall Term.

Approved final plans for an addition to the Dairy Breeding Research Center, to provide facilities for small animals used in the dairy breeding research program. The building will be of concrete block and will be 26 ft. by 26 ft. square.

The course is in response to concerns expressed by both faculty and undergraduate students and has been designed to focus on all aspects of the communication situations which arise between teacher and students. Dr. Holtzman says.

Aiding in the course instruction will be graduate assistants Deborah Baker and Walter Matreyek, both of whom have had experience in teaching English as a second language in foreign countries.

Greenhill photo exhibit at Kern

Leslie P. Greenhill, assistant vice president for academic affairs, whose photographic exhibit is currently on display in Kern Graduate Bldg., takes Kern Graduate Commons secretary Nancy Jordan on a tour of the exhibit. Twenty-five photos of buildings and landscapes from around the world comprise the exhibit, a very small part, indeed, of a much excellent "show" he has made in a quarter-century of travel. Greenhill is a Fellow of the Royal Photographic Society and an Overseas Corresponding Member of the Society's Council. He is also a member of the International Editorial Board of the Encyclopedia Cinematographica. The exhibit, which will be displayed for another week, may be seen Monday through Friday, 8 a.m. to 11 p.m., Saturday 8 a.m. to 5 p.m., and Sunday noon to 11 p.m.

Calendar

June 12-22, 1975

SPECIAL EVENTS

Friday, June 13 — Commonsplace Coffee house, 8 p.m., Room 102 Kern.
Monday-Tuesday, June 16-17 — Free-U registration, HUB ballroom. Monday, 7-10 a.m., Tuesday, 10 a.m.-4 p.m.
Wednesday-Thursdays, June 18-19 — Artists Series Musicals of the '30's, 8:30 p.m., University Auditorium. Wednesday, "The Great Ziegfeld," Thursday, "Forty-Second Street."

Friday, June 20 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.
Saturday-Sunday, June 21-22 — Penn State Chess Club Tournament, HUB ballroom. Saturday, 8:30 a.m.-12 p.m., Sunday, 9:30 a.m.-7 p.m.

Sunday, June 22 — Interlândia Folk Dance Club, 7:30 p.m., HUB terrace (ballroom in case of rain).

OFFICIAL

Friday, June 20 — Deadline for filing Course Adds for 10 Week Summer Session.

FILM

Wednesday, June 18 — Commonsplace Theatre, "The Mouse That Roared," 7:30 and 9:30 p.m., Room 112 Kern.

SEMINARS

Thursday, June 12 — Astronomy, 4 p.m., Room 445 Davey. David Branch, University of Oklahoma, on "Carbon Abundances in G and K Stars."

Thursday, June 12 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. James R. Varner, University of Erlangen, Germany, on "The Relationship between Surface Flaws and Stress in Strength."

Thursday, June 19 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Sila Ray, on "Crystal Structure and Oxygen Transport in Nonstoichiometric CeO_2 ."

EXHIBITS

Museum of Art — Ancient Peruvian Ceramics from the collection of Kehl and Ann Martini, Gallery A. Twenty paintings on wood panels from the Museum of Art Samuel H. Kress Collection. Gallery C. Selections from the Permanent Collection. Note: Hours from 12 noon to 5 p.m., Tuesday-Sunday, closed Monday. Free tours Thursdays at 1:30 p.m.

Chambers Gallery — Lawrence von Barran, paintings, drawings, prints.

HUB Gallery — Renaissance Gallery Crafts display.

Kern Gallery — Furniture and other wood crafts of Christopher Wendland, M.Ed. candidate in art education, continuing through June. Gallery C. The world by L. P. Greenhill — Architectural Engineering student work, models, drawings, and award-winning thesis projects, until June 30.

Cultural Center, Walnut Building — Marc Levey, photography, June 4-17.

WPSX highlights

Monday, June 16 — An hour program, hosted by Congressman Peter Rodino, focusses on the problems faced by families not poor enough to qualify for free legal aid but not rich enough to afford private counsel, at 8 p.m.

Tuesday, June 17 — An investigative report, at 8 p.m., on the funeral industry in America, titled "The American Way to Obit," which was a highly controversial book about the ethics of the industry about a decade ago. In this program, Jessica Milford, who wrote the book, interviews a British funeral director, and reports on an undercover reporter who attended a management seminar of funeral directors.

Wednesday, June 18 — Attorney General Levi discusses and debates with Georgetown University law students on critical moral and professional issues that the graduates will face in the legal world, at 8 p.m.

Thursday, June 19 — Beginning at 7:30 p.m., with a half-hour look at what the family should know about emergencies in the home, a three-part program on emergency medical services in the state is featured. At 8:20 p.m., Kevin Tighe of "Emergency" hosts a dramatized documentary that uses a simulated traffic accident to illustrate the kinds of emergency services that are — and aren't — available to Pennsylvanians. At 9:00 p.m., a panel of professionals in many areas of emergency medical care services provide their perspectives on how to solve Pennsylvania's emergency care problems. "A Stitch In Time" is followed at 9:30 p.m. by a WPSX-TV followup program that examines the history of services presently available in Central Pennsylvania, the inherent geographical problems of serving a large and small town area, and some possible solutions. Dr. Arnold Mueller, assistant professor of medicine at the Hershey Medical Center, served as an advisor for the statewide project.

Honorary degree for President Oswald

Gettysburg College conferred an honorary Doctor of Humane Letters degree on President Oswald at the 143rd commencement of the College June 1. Dr. C. A. Herman (left), president of Gettysburg, conferred the degree along with Ralph W. Cox, chairman of the Board of Trustees. The college also conferred honorary doctor's degrees on two Lutheran ministers, a pediatrician, an insurance executive, and an attorney at the same ceremony. President Oswald also holds honorary degrees from DePaul University, University of Louisville, Centre College, University of California at Davis, Temple University, and Jmuia.

News in brief

BERKS THEATRE

Berk's Summer Theatre at the Berks Campus will have directors for two of its productions this year who have wide experience in musical theatre, Franco Gentilella and Peter R. Strain, both from New York. Gentilella, who has gained recognition for his work in operatic productions, will direct "The Desert Song," which will play Aug. 13-23. Strain, who in 1973 won the Theatre Managers Association Award for best musical for his production of "Fiddler on the Roof" in a summer theatre, will direct "My Fair Lady." Last year he directed the show "Anything Goes" for Berks Summer Theatre.

FREE-U REGISTRATION

Registration for Summer Term courses offered by Free-U will take place Monday and Tuesday, June 16-17, in the HUB ballroom. On Monday, the hours are 7 to 10 p.m. and Tuesday, 10 a.m. to 4 p.m. The registration is for courses which are limited in number; others require no registration.

tion. Booklets listing the 45 or so courses being offered during the summer are now available in Room 203C HUB. Four courses not listed but which will be offered are Free Hand Drawing, Meditation, Massage, and Field Trips in Nittany Valley, which includes a study of the geology, geography and natural aspects of the valley. A Group Poetry Reading course will also be held, one of a number of common interest groups which are structured around group participation rather than direct guidance. At present, Free-U hopes to obtain volunteers to teach life saving, water safety, and basic auto repair. More information may be obtained by calling 863-0038.

BUILDING CONVERSION

The Agricultural Education Bldg., now vacant, will undergo alterations to convert it into a facility for use of the Department of Art Education.

The conversion includes the construction of an enclosed area for ceramics work as well as other changes.

The building, constructed in 1888 as the Agricultural Experiment Station Bldg.,

term. Awards will be announced about Nov. 12.

Jan. 5, 1978 — See comments under preceding listing of Oct. 3 for procedures and documents required for applications for spring term tuition grants-in-aid. Applicants wishing to apply for summer renewals may do so simultaneously.

Feb. 3, 1978 — Applicants by PSU graduate students for Graduate School and Pennsylvania Research Fellowships and ERG Traineeships. Each applicant must be nominated by his graduate major. Not more than three nominations per major (exclusive of ERG Traineeships) are allowed.

Applications will be supported by three letters of recommendation and complete transcripts. Awards will be announced about March 29. Applicant must be admitted to work for a doctoral or MFA degree. GRE verbal and quantitative scores or the equivalent of all applicants who are not already doctoral candidates. Stipend is currently up to \$325/month for twelve months for Pennsylvania Research Fellowships, up to \$310/month for nine months for Graduate School Fellowships. Tuition or dissertation fee is also provided. . . . Feb. 17, 1978 — applications by incoming graduate students for Eric A. Walker and Graduate School Fellowships. Fellowship Supplement. Grants-in-aid and ERG Traineeships. Stipend is currently up to \$250/month for up to nine months, plus tuition. Applicants must be nominated by his graduate major. Limit of three nominations per major (in addition to three already enrolled nominees, but no more than three total awards to any one major). Applicants must be supported by complete transcripts, at least three letters of recommendation, and GRE verbal and quantitative scores or the equivalent. Awards will be announced about March 29. . . . April 12, 1978 — See note under preceding Oct. 3 listing for procedures and documents regarding applications for summer term grants-in-aid. All fall term renewal applications must be submitted simultaneously. Awards will be announced about May 21. . . . April 26, 1978 — See note under preceding Oct. 3 listing for procedures and documents required for applications for fall term grants-in-aid from students who did not apply for summer term. Renewal applications will not be accepted from summer term applicants at this time. Awards will be announced about May 30. (Ref. FO 75-15).

REMINDER AND DEADLINE DATES

June 26 for RANN Regional Seminar in Washington, D.C. May 29 INTERCOM #181-53. . . . July 1 for NEH Consultants Grants Program (May 1 INTERCOM #177-2). . . . July 1 for Fulbright-Hays Lecturing and Advanced Research Abroad (May 8 INTERCOM #175-1). . . . July 1 for NEA Arts in Schools Program (May 22 INTERCOM #180-2). . . . Aug. 15 for NASA Life Sciences Program in Space (May 15 INTERCOM #179-10). . . . Sept. 10 for NSF Undergraduate Research Participation (May 29 INTERCOM #181-2).

Lancaster, Townsend to retire

Dr. Otis E. Lancaster, retiring for a second time July 1, will have the title of associate dean emeritus in the College of Engineering and George Westinghouse professor emeritus of engineering education. In June, 1974, he retired as associate dean for instruction in the College of Engineering, but he remained on the faculty as George Westinghouse professor, and during the past year has continued studies for the development of engineering faculty, conducted his annual seminar on effective teaching, and improved his system of faculty evaluation. He also taught courses in industrial and aeronautical engineering.

A graduate of Central Missouri State College, he received an M.S. in mathematics from the University of Missouri, Ph.D. in math from Harvard, and the degree of aeronautical engineer from California Institute of Technology.

A member of the faculty here since 1957, Dr. Lancaster had previously held various positions in the Navy Department, Internal Revenue Service, Post Office Department and had taught at University of Maryland and Harvard.

will make available facilities to replace those lost on West Campus where the Environmental Sciences Bldg. now is under construction.

ALUMNUS ELECTED

A 1936 graduate of the University has been elected the 1975-76 president of the National Society of Mining Engineers. He is Robert L. Llewellyn, who received his degree in mechanical engineering from Penn State. He is now vice president of Roberts and Schafer, Chicago-based designers and builders of coal handling and preparation plants. The S.M.E. has 15,000 members concerned with metallic and non-metallic ores and coal.

MILLERSBURG STAFF

The first staff members of the new Evelyn G. Frederick Health Center in Millersburg, Pa., will include two graduates of the family medicine residency program at the Hershey Medical Center and a member of the family of physicians which has served the community since 1902. The new center was developed by the Hershey Medical Center staff and the Evelyn G. Frederick Trust. Dr. William D. Hakkarinen, former chief resident in family medicine at Hershey, and Dr. Rodney K. Hough, current chief resident, will be on the staff along with Dr. Henry G. Hottenstein, Millersburg physician for 40 years, who was instrumental in bringing together the Hershey staff and the Trust to establish the new center.

Staff vacancies

University faculty or staff members who are interested in any of the staff openings or staff non-exempt jobs listed below may apply by calling Employment Office, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, JUNE 15, 1978

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS — Aloana Campus

Responsible to the Dean of Student Affairs for the development and maintenance of a positive living-learning environment and to the academic programs in the men's residence hall. Supervises men's residence hall staff, and advises area government. Responsibilities include: supervision of all academic programs related to new student programs and the cultural arts. Master's degree or equivalent in Student Personnel, Counselor Education, or related field with one to two years directly related experience.

ADMINISTRATIVE ASSISTANT FOR ACADEMIC AFFAIRS — McKeesport Campus

Responsible to the Associate Director for Academic Affairs for establishing course timetables, coordinating academic offerings, data processing services for the campus, working with Division Representatives and faculty on day to day operations, monitoring and coordination of academic budgets and general administrative duties related to the academic operations of the campus. Master's degree or equivalent in an area such as Higher Education, Administration or a teaching discipline with two to three years directly related experience in an educational capacity or teaching in an institute of higher education.

PROGRAMMER, MANAGEMENT SERVICES — University Park

Responsible to participate in analysis, program design, coding, documenting and other programming tasks required to produce reports, make mathematical computations or maintain information files. Bachelor's degree or equivalent in Computer Science or related field plus one or two years directly related experience. Knowledge and/or experience concerning applications is desirable though not required.

The University is an Equal Opportunity Employer.

Dr. Stanley R. Townsend, professor and head of the Department of German since 1965, will retire July 1 with professor emeritus rank. He came to the University from Michigan State University where he was chairman of the Department of Foreign Languages and professor of German from 1959 to 1964. A graduate of the University of Rochester, Dr. Townsend earned his master of arts and doctor of philosophy degrees at Northwestern University. He saw service as a Navy lieutenant during World War II, and in 1946 joined the faculty of the University of South and Baltimore as a visiting assistant professor of German. In 13 years there, he became a professor of German and from 1950 to 1956 was assistant dean of the Graduate School. While at Penn State, he instituted the concept of comparative criticism and was instrumental in starting the "Yearbook of Comparative Criticism," which is published by Penn State's Press.

In addition to being a search for intercultural, universal literary values, comparative criticism allows a literary work under analysis to determine itself the method by which it should be evaluated. After his retirement, Dr. Townsend plans to devote more time to further refinement and definition of the concept.

Knerr succumbs

Dr. Henry W. Knerr, who retired in 1968 as associate dean of the Graduate School and professor of physics, died June 6 in State College. He had joined the Penn State faculty in 1936 after teaching at University of Michigan and Georgia School of Technology. Born in Fisher, Ill., he was graduated from the University of Illinois and received his master of arts degree from Harvard and doctor of philosophy degree from University of Michigan.

NATIONAL —

(Continued from page one)

will be held Friday evening at the Nittany Lion Inn. The scientific session will be held Saturday, June 14, at 8:30 a.m. in the Conference Center, with the following speakers:

Dr. Mary Willard, professor emerita of chemistry, on "Analysis of Drugs Such As Marijuana, Barbiturates in Criminal Investigations."

Dr. Sylvia Stein, research associate of microbiology, on "Growth Control — Factor of Human Cells in Cell Culture."

Janice Perlen, graduate assistant, Materials Research Laboratory, on "The Crystal Chemistry of Some Salts."

Patricia Sanders, on "Sex Bias in Public Schools and Its Impact on the Selection of Careers in Science for Girls."

Catherine E. Prock, graduate assistant in physics, on "Thermionic and Photoemission from Tantalum and Nickel Oxides."

Teresa-Torres Hoffman, graduate assistant in physics, on "Electric Measurements of Beta-Gamma Crystals."

Elizabeth L. White, graduate student in civil engineering, on "Flood Hydrology in Carbonate Terrains."

Following the banquet luncheon, the grand chapter meeting will be held in the Conference Center. At 6 p.m., a barbecue supper will be held at the picnic area near East Halls. Tickets for the buffet will be \$4.50, for the luncheon, \$6.00.

The Nu chapter, of which Elizabeth Bonczar, graduate student in mineral economics, is president, invites everyone to attend the scientific sessions, which will be chaired by Dr. Indu Mulay, professor of solid state science. The delegates will be welcomed by Mrs. Bonczar and Sarah Ann Gallagher, secretary of the chapter and graduate student in solid state science.

Hazardous waste

A small building for storage of hazardous waste materials will be constructed in the chemical storage area, north of the Salvage Warehouse.

It will be used for protected storage of hazardous waste materials until they can be properly removed by an authorized contractor. It was expected. The project will enable the University to comply with regulations of the Department of Environmental Resources and other Federal and State agencies.

News in Brief

WEIDHAAS FUND

A memorial fund to honor his father has been set up by Ernest R. Weidhaas, professor of engineering graphics, and the fund will aid needy disadvantaged students enrolled or planning to enroll as full-time associate or baccalaureate degree candidates in the College of Engineering. The fund will be known as the Ernest Weidhaas Memorial Fund.

STUDENT HOUSING HELP

To help students of the University looking for off-campus housing during the Fall Term, the Office of Student Affairs in cooperation with the Organization of Town Independent Students, has opened a housing locating service which maintains current listings of facilities available in the area. The office is located in Room 335, Boucke Bldg., with the telephone number, 865-3491. Office hours are 8 a.m. to 5 p.m. on weekdays and 8 a.m. until noon on Saturday. The office works closely with the State College Area Chamber of Commerce, 129 W. Beaver Ave., (Telephone 237-7644), which also maintains listings of facilities available in private homes in the State College area.

FFA HERE

The horde of young people on campus (in addition to the regular students) is the Future Farmers of America, which meets here every year, for educational sessions, contests in judging, public speaking, mechanical tests, and a host of others. They will also make tours and there is a crowning ceremony, for Pennsylvania FFA Princess.

ARTISTS SERIES FILMS

The Artists Series Films of musicals of other years include "Forty Second Street" today (June 19); "Footlight Parade" (with James Cagney) next Wednesday, (June 25) and "Roberta," next Thursday, (June 26). All begin at 8:30 p.m. in University Auditorium, and tickets will be available at the door.

Calendar—June 19-27, 1975

Special events

Thursday, June 19 — Artists Series Musicals of the '30's, "Forty-Second Street," 8:30 p.m., University Auditorium.
Friday, June 20 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.
Saturday-Sunday, June 21-22 — Penn State Chess Club Tournament, HUB ballroom, Saturday, 8:30 a.m.-12 p.m., Sunday, 8:30 a.m.-7 p.m.
Sunday, June 22 — Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom in case of rain).
Sunday, June 22 — Black Christian Fellowship worship service, 11:15 a.m., Helen Eakin Eisenhower Chapel.
Wednesday-Thursday, June 25-26 — Artists Series Musicals of the '30's, 8:30 p.m., University Auditorium, Wednesday, "Footlight Parade," Thursday, "Roberta."
Friday, June 27 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.

Seminars

Thursday, June 19 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Siba Ray on "Crystal Structure and Oxygen Transport in Nonstoichiometric CeO₂."
Thursday, June 19 — Plant Pathology, 8 p.m., Room 213 Buckhout. Dr. Samuel Smith on "Meristem-tip Culturing for the Production of Virus Indexed Planting Stock."

Griffith to head Black Studies

Dr. Cyril E. Griffith, assistant professor of history, has been appointed director of the University's Black Studies Program.

His appointment, effective July 1, was announced by Dr. Robert E. Dunham, vice president for undergraduate studies.

Citing the importance of Black Studies among the University's undergraduate offerings, Dr. Dunham said the inter-college program is designed to provide all students with an understanding about the black person's culture and progress in Africa, the Caribbean and the United States; to make students aware of the contributions Afro-Americans have made to the American culture, and to enrich black students with appreciation of this heritage.

A Penn State faculty member since 1970, Dr. Griffith has been serving as chairman of the Black Studies Committee. The student-faculty group was established as the academic program committee for Black Studies as part of a continuing effort to recognize and strengthen the program.

A graduate of Wilberforce University with a bachelor of arts degree, Dr. Griffith received his master of arts degree in history from Bowling Green State University and his doctor of philosophy degree, also in history, from Michigan State University. He was an instructor in African and Afro-American history at St. Paul's College, Lawrenceville, Va., from 1965 until joining the Penn State faculty.

TV series on aging has wide response

A series of three television programs prepared by WPSX-TV and the Gerontology Center of the College of Human Development brought wide public response as well as a commendation by Governor Milton Shapp.

The series, "To Age is Human," was broadcast in May by WPSX as a continuing education and community service of the College. The total project also involved special editions of the Pennsylvania Public Television Network's programs, "Pennsylvania Magazine" and "Pennsylvania Town Meeting," and the development by the Gerontology Center of statewide community service activities designed to take the programs into the local community and to generate a productive response to the concerns raised by the series.

Some 11,000 requests for materials have been made as a result of the project, which also included production of a 28-page booklet, "New Beginnings: A Guide to Community Organization for Older Pennsylvanians," authored by Dr. Frederick

Eisele, associate director of the Center, and Robert Quarteroni.

Dr. Eisele served as content specialist for the television broadcasts and developed the community service aspects of the total project.

WPSX also developed promotional materials used statewide by PPTN's seven member stations and coordinated various community activities.

Videocassette copies of the three WPSX specials are available for non-broadcast use through Audio-Visual Services.

Hershey appointment

Dr. William A. Weidner, professor and chairman of radiology at the Hershey Medical Center, has been given the additional title of associate dean for health care in the College of Medicine. He came to the Medical Center in 1971 from the University of Oklahoma, where he had been professor of radiology and associate professor medicine.

A graduate of the University of Wisconsin, which also granted him the M.D. degree, he served his internship at the Medical College of Virginia Hospitals, in Richmond, and had residencies in general surgery at the Veterans Administration Hospital in Seattle and in radiology at Los Angeles County General Hospital. He held faculty positions at the University of Southern California School of Medicine, UCLA, and the Medical College of Virginia before going to Oklahoma.

Outstanding

From one Smith to another — Charles J. Smith, left, director of the Opentex Campus, presents the 1975 Outstanding Teaching Award to Dr. James S. Smith, assistant professor of English, an honor bestowed annually on a faculty member selected by a faculty committee from nominations submitted by both students and faculty. Earlier this year, Dr. Smith received the annual award for outstanding advising, also presented by faculty and students. He is the youngest member of the Opentex faculty, but in addition to teaching and advising, he has chaired several faculty committees, is Opentex representative to the University Faculty Senate, and is engaged in research on the relationships between popular media and cultural history.

Faculty notes

Dr. Francis M. Dwyer, Jr., senior research associate of education in the College of Education, and senior research associate and coordinator of instructional evaluations in the University Division of Instructional Services, gave 17 lectures in one month in Japan recently, on a variety of topics and to a variety of groups. He also gave a three and a half hour instructional lecture which was videotaped and was to have been broadcast nationwide June 11.

Dr. Dwyer, since 1965, has been involved in innovative research programs aimed at identifying the types of visual materials which would be most effective in facilitating student achievement of specific educational objectives when the content is presented via different instructional formats. More than a hundred papers have resulted from this research, and Dr. Dwyer has presented his findings at a number of national conventions.

In Japan, Dr. Dwyer served in the Visiting Professorship Programme at the invitation of the Japan Society for the Promotion of Science. The area of his lecturing

Official

Friday, June 20 — Deadline for filing Course Adds for 10 Week Summer session.

Friday, June 27 — File for Pass/Fail Option for 10 Week Summer Session.

Films

Wednesday, June 25 — Commonsplace Theatre, "The Loved One," 7:30 and 9:30 p.m., Room 112 Kern.

Exhibits

Museum of Art — Ancient Peruvian Ceramics from the collection of Kehl and Nena Markley, Gallery A, through June 22. Twenty paintings on wood panels, from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Selections from the Permanent Collection, Gallery C. (Note: Hours from 12 noon to 5 p.m., Tuesday-Sunday, closed Monday. Free tours Thursdays at 1:30 p.m.).
Chambers Gallery — Lawrence von Baran, paintings, drawings, prints, through June 27.
HUB Gallery — Renaissance Gallery Crafts display; Mode Fabrics display. Both through July 11.

Kern Gallery — Furniture and other wood crafts of Christopher Weiland, M.Ed. candidate in art education. Photos from around the world by L. P. Kernhill.

Freedom survey

One of the University's Bicentennial activities is a series of local meetings throughout Pennsylvania on the subject of "Freedom: Then, Now and Tomorrow." To provide background for the series, Planning Studies in Continuing Education is conducting a newspaper survey of attitudes about Freedom and has asked that faculty and staff members be given the opportunity to participate in the survey through INTERCOM and Penn State REPORTER. The survey questions are:

1. WHAT IN YOUR OPINION IS THE GREATEST THREAT TO YOUR PERSONAL FREEDOM TODAY?

2. WHAT IN YOUR OPINION IS THE GREATEST THREAT TO THE FREEDOM OF ALL AMERICANS TODAY?

3. DO YOU THINK THERE ARE GROUPS THAT ENJOY MORE FREEDOM THAN OTHERS? Yes or No. . . . If yes, would you care to name a group that, in your judgment, is often denied the constitutional freedoms as you understand them?

In the four freedoms listed below rate, from zero (in ten terms being the lowest, ten the highest) the extent to which you think those freedoms exist for Americans today and the extent to which you think they should exist.

Freedom of:	Does Exist (0-10)	Should Exist (0-10)
4. religion		
5. speech		
6. the press		
7. assembly		

(Please clip the questionnaire and send to Room 219 Grange Building, University Park, Pa. 16802.)

WANTED

Dr. Thomas W. Benson, of the Department of Speech Communication, has been asked to edit a scholarly journal, "Communication Quarterly," and is seeking a part-time secretary and office manager for typing, filing, and editorial chores, beginning July 1. He would prefer someone who will be able to stay with the job and preferably someone with a bachelor's degree. The work would involve about ten hours per week. Anyone interested should contact 865-3461, 865-4201, or 238-5277.

Death

Dr. Abram M. I. Fiskin, a member of the faculty since 1967, associate professor of English, died June 8 in St. Charles, Mo. He was 59. He was a graduate of the University of Manitoba, receiving advanced degrees from the University of Minnesota. His specialty was the field of business and technical writings and drama and the history of English literature. He taught previously at Manitoba, Northern University of Denver, and Drake University.

FACULTY—

(Continued from page one)

was the effective and efficient use of educational technology in the teaching-learning process. His lecture topics ranged from "Organizing and Managing Educational Technology" to "Visual Literacy" to "Open University." He lectured at six universities, including Tokyo University and Kyoto University of Education, the Nippon Telegraph and Telephone Corp., Sony Corporation, the Nippon Hoso Kyokai Japan Broadcasting Corp., and the Tokyo Science Center for Youth.

Extremely anxious to advance their educational methods, the Japanese, Dr. Dwyer reports, have tended to emphasize the traditional methods of teaching, but now recognize the merits of using visual instruction to a greater degree. He was impressed, however, by the genuine concern for improving instructional methods in general and their willingness to work long hours to accomplish their goals, but with a team, rather than individual, approach to research and study.

One of the unexpected pleasures in the nine-week tour of Asia taken by Dr. Samuel S. Dubin, professor of psychology in the Department of Planning Studies, Continuing Education, at the behest of the U.S. Information Agency, was that he found Penn State graduates, usually high placed officials in government or business, in such far-flung regions as The Philippines, Bombay and Saigon.

The purpose of the tour, which followed Dr. Dubin's year's leave to serve as a UN/ILCO consultant in Iran, was to give a series of lecture-seminars on such topics as Managerial Obsolescence, The Psychology of Keeping Up-to-Date, Implementing Change in Organizations, Organizational Climate, Organizational Development, and the Expectancy Theory of Motivation.

The audiences at the seminars were drawn from graduate schools of business, colleges of engineering, national institutes of labor, and staff of Productivity Centers. The tour took him to nine cities in India, Nepal, Thailand, Indonesia, Singapore, and Saigon. Two days were spent in the Mekong Delta, and two in the Central Highlands, obviously before military conditions changed there. He was also two days in Manila and conducted a seminar in Hong Kong.

Experiences of a professional and personal nature were, Dr. Dubin says, both exciting and enlightening, but wherever he went he found a welcome and a genuine desire to learn.

Dejaiffe feted at retirement dinner

A "dedicated teacher" is applied over and over to Ernest DeJaiffe (in the middle in photo above), and the appreciation related to the 18 years he taught math in the Altoona High School and the 23 years in general engineering at the Altoona Campus. So when the Altoona Campus held a retirement party for him in May, it was natural that the talk about him covered his teaching career, including the fact that he taught in the War Manpower Training Program in the 1940s, was instrumental in developing the first associate degree curricula in engineering technology at what was then the Altoona Undergraduate Center, Inc. They presented him with several gifts, including a miniature Nittany Lion being given in photo by Robert M. Blackston, chairman of the faculty senate, and Dr. Altheen Stere (left), past chairman of the senate. At Ernest's left is his wife Rena, and at far right is Ernest B. Weinbaum, assistant dean of the College of Engineering. DeJaiffe was the first person to attain the rank of professor in the Commonwealth Campus system when he was promoted in 1967. He started as instructor in 1953, although in 1948-49 he taught engineering drawing for two semesters. A 1933 Penn State graduate in civil engineering, he received an M.S. in industrial education in 1947. He had earlier received a teaching certificate through study at Juniata College. In Altoona, he served as resident engineer in summers for a number of years, and was very active in community affairs.

Retirements

Dr. Donald V. Josephson, professor and head of the Department of Dairy Science, who first came to Penn State in 1935 to work for his master's degree, returned after working in industry to earn his doctor's degree, left again to serve on the Ohio State faculty from 1945 to 1948, returned finally to remain on the faculty for 27 years, will retire with emeritus rank June 30.

A native of Minnesota and a graduate of the University of Minnesota, Dr. Josephson will return there to live on the farm pioneered by his grandparents.

In addition to serving as department head, Dr. Josephson was the first chairman, and is the current chairman, of the Division of Food Science and Industry established in the College of Agriculture in 1966. He has served on a variety of committees in his 26 years on the University Faculty Senate and he also serves on the University Council. In research, he has studied the quality and flavor of dairy products and dealt with world food problems. He has been given many awards, including the American Dairy Science Association's highest honor and the American Chemical Society's Borden Award for Dairy Chemistry. He has been very active in professional societies, including the highest offices of the American Dairy Science Association. He is a Fellow of the American Association for the Advancement of Science.

Wesley P. Winter, associate professor of industrial engineering, has been honored by the Foundry Educational Foundation which established a scholarship in his name to be awarded to a Penn State student this fall. Winter is retiring June 30 after 28 years on the industrial engineering faculty, and for many of those years he was secretary-treasurer of the student chapter of the FEF, which is an educational group encouraging technical students to become interested in the industry, through scholarships and technical courses.

Winter's associations with Penn State are close; he is a State College native and he received both bachelor's and master's degrees from the University. He was gone from here in 1935-47 to teach in a Connecticut high school, but returned as an instructor, to remain.

Aside from teaching, especially in metal casting courses, he has participated in small industry research and has helped set up and conduct workshops and seminars in such areas as maintenance management and programs related to Occupational Safety and Health Act.

Richard N. Diller, associate professor of psychology and member of the Management Development staff of Continuing Education, will retire June 30 with nearly 25 years of service. A graduate of Millersville State College with a master's degree in education from Penn State, Diller took other advanced work at Temple University

and studied classical voice at the National Conservatory of Music, Paris, France; the Russian Conservatory of Music, also in Paris; and the Conservatory of Music, at Marseilles. In his Management Development position, he was involved in management analysis, curriculum construction, lecturing, leading conferences and workshops, and evaluating management programs. He has served a great many companies principally in Southeastern Pennsylvania as consultant, lecturer, and conference leader on subjects such as human relations, industrial communications, employee selection and training, and employee and personnel methods.

Dr. Preston C. Hammer, professor of computer science, who for the past year has been on leave at Grand Valley State College of Allendale, Mich., will retire June 30, after ten years on the faculty. He came to Penn State as professor and first head of the new computer science department in 1965, having served previously at the University of Wisconsin, Los Alamos Scientific Laboratory, the University of California, Lockheed Aircraft Corp., Oregon State College, and the University of Michigan. He left the administrative post in 1973 to give full time to research and teaching.

Dr. Hugo Ribeiro, professor of mathematics, plans to return to his native Portugal to continue to do research and teach at the University of Porto, when he retires June 30 with emeritus rank.

A member of the Penn State faculty since 1961, Dr. Ribeiro held posts previously at the University of Nebraska and at Berkeley. As a specialist in mathematical logic, he served as a visiting lecturer for the Mathematical Association of America in 1962-63 and 1963-64.

A 1931 graduate of the University of Lisbon, he received the doctoral degree from the Swiss Federal Institute of Technology. He speaks five languages and has written papers on mathematical topics in most of them. He was co-founder of the Mathematical Society of Portugal and of its journal.

Dr. H. Clark Dalton, professor of biology, a member of the faculty since 1967, will retire August 15 with the rank of professor emeritus, to move with his wife to the island of Kauai, Hawaii, continuing his interests in all aspects of natural history.

A graduate of Wesleyan University, which also granted him the master's degree, Dr. Dalton earned the Ph.D. at Stanford University. He taught at Bates College, Brown University, and the University of Rochester before joining the faculty of New York University where he served for 17 years prior to coming to Penn State.

Dr. Dalton's research has been directed toward the area of gene control development, and he has studied the effect of mutant genes on the development of pigment cells in salamanders.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

JUNE 25, 1975

GRAPHIC ARTIST, COLLEGE OF EDUCATION — University Park

Responsible to the Manager of Operations, Computer Assisted Laboratory, for the design, construction of art and lettering in the production of visual aids and displays, as requested. Associate degree, a graduate of a two year program with an art or graphic arts background, and over one year of experience in any of the above fields. Knowledge of audio-visual aids and techniques is helpful.

ASSISTANT AREA COORDINATOR — Behind College

Responsible to the Dean of Student Affairs through the Assistant to the Dean of Student Affairs, Community Coordinator for assisting in carrying out the mission of the Office of Student Affairs by providing administrative, educational, cultural, and personal services to the total student body. Requires a bachelor's degree, or equivalent, in college student personnel or related field of study or Bachelor's degree, or equivalent, in relevant undergraduate major with at least one year of residence hall supervisor experience.

GRAPHIC ARTIST — Hershey Medical Center

Responsible to the Department Head of Medical Illustration for the design and production of graphics as requested by clients. Associate degree or equivalent, from an art or drafting trade school and one to two years of directly related experience.

SENIOR INSTRUCTIONAL SERVICES SPECIALIST — Fayette Campus

Responsible to the Assistant Director for Resident Instruction to provide and encourage the use of a wide range of instructional materials by faculty, students, and staff, to evaluate and implement innovations and instructional methods and media; and to provide input concerning instructional media for a long-range planning. Requires a Bachelor's degree or equivalent preferably in education, instructional media, and work progressing toward a Master's degree, with at least two years directly related experience. Supervisory experience highly desirable.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS — Altoona Campus

Responsible to the Dean of Student Affairs for the area of student activities and chapel programming. Responsible for Union Building scheduling and advising student union board. Master's degree, or equivalent, in Student Personnel or Counselor Education or related field with one to two years of directly related experience.

In addition to the above vacancies, there are positions that frequently are available because of the number of employees in them. They are listed below and will not be listed on an individual vacancy basis. Applications for such positions may be made at any time and you are welcome to make your interests known now to the Employment Division for future consideration when vacancies occur.

These positions are:

Resident Hall Coordinator, Student Affairs — University Park.

Assistant Coordinator, Student Affairs — University Park.

The University is an Equal Opportunity Employer.

Employment of minors policy

It is especially important at this time of year to keep in mind the state and federal regulations and the University policy on the employment of minors.

The law defines a minor, for employment purposes, as anyone under 18 who has not been graduated from high school. (There is an exception to this. If the chief administrator of the school district determines that an individual under age 18 has attained his or her academic potential and declares that a high school graduation is not required, that person no longer is considered a minor for purposes of employment.)

University policy (PS-2, Employment of Minors) a person under 16 years of age is not permitted to work for the University under any circumstances. In addition, by law, no minor age 16 or 17 may be employed by the University, even for one hour, unless he or she obtains a certificate of employment (commonly called "working papers").

The certificate of employment is issued by the public school authority in which the minor resides. (Certain special arrangements for obtaining certificates can be made for minors who attended school a long distance from the area in which they are being employed). The employment certificate must be on file in the University's Employment Office (or appropriate business or personnel office at facilities away from University Park) before a minor begins to work. The certificate is issued for a specific job, and a minor cannot be transferred from one job to another unless a new certificate is obtained for a new job. Also, the Employment Division must be notified when the minor terminates, so that the certificate can be returned to the issuing school district.

Where there is any doubt about the age of an applicant for a position, the applicant must submit a proof of age card. This card is also issued by the minor's school district.

Please refer to policy PS-2 if you are contemplating employing a minor. Any questions concerning the policy or the employment certificate procedure should be directed to the Employment Division 865-1387 (Network number 475-1387).

PENN STATE intercom

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Senate bill would cut research

Senate Bill 771, as introduced in the Legislature last week, would provide \$101,662,000 as the appropriation for the University for the 12-month fiscal year, 1975-76. The amount is the same as that recommended in the Governor's budget for the 12-month fiscal year.

In the appropriations bill, introduced by Sen. Henry J. Cianfrani, chairman of the Senate Appropriations Committee, funds for Research are listed as \$15,361,000, an amount below the \$17,064,000 appropriated for research during the current year. In his budget, the Governor had recommended \$13,651,000 for research, a drastic 20 per cent cut from the amount appropriated last year and an amount far below the \$20,549,000 that had been requested by the University.

The sharp cut in research funds recommended by the Governor is viewed as critical by University administrators, especially at this time when the needs for research to help solve many pressing problems are most demanding.

The appropriations bill, in addition to listing \$15,361,000 for Research, includes \$72,250,000 for Instruction, excluding medical programs; \$1,760,000 for Student Aid; \$9,626,000 for Extension and Public Service; and \$2,665,000 for Medical Programs. The amounts for Instruction and Extension and Public Service in the appropriations bill are reduced from the amounts recommended by the Governor to make possible the Research increase in the appropriations bill.

The appropriations bill also calls for a mandatory 5 per cent reduction in faculty and administrative staff and would abolish programs of tuition remission for employees of the University.

Following introduction of the bill, President Oswald sent a letter to each member of the Senate urging removal of the language requiring the 5 per cent reduction of personnel and also directing discontinuance of tuition reduction for employees.

There were later indications that both provisions would be eliminated from the bill, and State Sen. Joseph S. Ammerman, of Curwensville, was reported to have said that in all probability the research funds would be increased to the 1974-75 level, on his recommendation, in committee.

Interim Affirmative Action plan is sought

University officials are hopeful that a satisfactory Interim Affirmative Action Plan can be agreed upon this week after they learned the plan filed last November with the Department of Health, Education, and Welfare had not been approved.

Dr. Russell E. Larson, provost, after a meeting on June 19 with Deway E. Dodds, director of Region III, Office for Civil Rights, said work will start immediately on analyzing and responding to the entirely new and additional guideline requirements now being imposed upon the University by the Office for Civil Rights. The awarding of Federal contracts to the University depends on the acceptance of an Affirmative Action Plan.

The Thursday meeting followed receipt on Wednesday of a "show cause" letter which alleges the University has not met all of the requirements of an acceptable Affirmative Action Program and asks the University to show cause as to why Federal contracts should not be withheld.

The letter threatens the signing of a

\$2.8 million Federal contract for coal research with the Energy Research and Development Administration, scheduled to be executed on June 27, 1975.

President Oswald had filed the University Affirmative Action Plan on Nov. 15, 1974, with an understanding from the Philadelphia regional office that a reply could be expected by Jan. 15, 1975. A letter of Jan. 4, 1975, from the regional office advised that they considered the plan to be "quite adequate" but that more time would be required to review the entire plan, consisting of three volumes. Through a public news release on June 15, 1975, it was learned that the plan had not been accepted. Immediate arrangements were then made with Mr. Dodds to meet with University officials to outline the additional guidelines now essential to the plan.

Although the Philadelphia regional office makes clear that their "determination" should not be interpreted to imply any lack of good faith on the part of University officials," the added requirement

A total of \$4,431 given this year

Hershey cancer fund aids four families

The Four Diamonds Fund has awarded grants totalling \$4,431 to four families of children who have been treated for cancer at The Milton S. Hershey Medical Center.

Dr. D. Lee Backenstose, regional chairman of the fund, said that the grants were allocated to families living in Centre, Cumberland, Lebanon, and Schuylkill Counties, and raise the total allocated from the fund to \$14,531 to 15 families. To date, he noted, 112 young persons from 21 Pennsylvania Counties have received treatment for leukemia or other cancers at the Medical Center.

The allocations ranged from \$733 to \$1,570 and were used to reduce out-of-pocket costs for medical care not covered by insurance. Two of the families had been assisted by previous allocations.

"This emphasizes the long-term continuing kind of expensive patient care that most of these families face as they try to be self-supporting," Dr. Backenstose said. The Four Diamonds Fund was established in 1973 at the Medical Center by the University for the purpose of providing relief from the extraordinary financial burdens for families of children with cancer.

It was suggested by Mr. and Mrs. Charles L. Millard of Elizabethtown whose son, Christopher, died of cancer in December 1972. Through the interest and support of his parents, relatives, and friends, the fund was started.

The name of the fund was the title of an essay Chris wrote for an eighth grade English class. In it, he symbolically describes a young man's characteristics of courage, wisdom, honesty and strength in his fight for survival.

Support for the Four Diamonds Fund comes from private contributions, profits from special programs such as concerts, bake sales and athletic events conducted by church, school, and civic groups and from gifts in memoriam. Gifts are processed and the fund is coordinated by the office of gifts and endowments at the Medical Center.

Persons interested in fund raising activities or in contributing directly to the Four Diamonds Fund should contact the office of gifts and endowments at the Medical Center, 717 534-8497.

Dr. Backenstose cited some details about the new recipients. One of the recent grants is to a mother who supports three children on approximately \$4,100 per year, with numerous bills to loan companies, rent and other household expenses. Her child, a leukemia patient, is not currently covered by insurance, has an account at the Medical Center of \$900 and each outpatient visit increases her bill regularly.

Another child who died of leukemia last year was hospitalized several times. The family had insurance, yet owed over \$1,500 on their account. The Four Diamonds allocation paid the remaining bill.

The Fund also paid the remaining bill for one child who had been admitted as a leukemia patient eight times within three years prior to his death. In December, the Fund contributed \$1,500 toward the outstanding account.

A \$1,227 allocation eliminated the debt of another family whose child died of cancer. Her mother and step-father are both employed as factory workers, and owe money for a mortgage, car and household payments, in addition to a cemetery plot.

Alumni return for taste of college

It's a dream come true for those "old grads" who have wished they could recapture their college days — Penn State is offering its alumni the chance to return to their alma mater July 13-19 for a taste of college life a la 1975.

The University's inaugural Alumni Vacation College will offer "a learning experience without the exams" to approximately 120 alumni — ranging from members of the Class of 1921 to students graduated in the 1970s — who have registered during the past few months. And many alumni are bringing their families to live in the residence halls with them.

The main feature of the Vacation College will be classes taught by University faculty members. The subjects will include science and technology, sleep and dreams, the American family, and drama.

(Continued on page four)

News in Brief

ROTC AT CAPITOL CAMPUS

Beginning the fall semester, Capitol Campus will offer an ROTC program for the first time in the nine-year history of the school. In the last few years Capitol students have been participating in the ROTC offered at Dickinson College.

VISITOR

Dr. Brian E. Launder, reader in fluid mechanics at the Imperial College of Science and Technology, London, England, is spending five months as a visiting professor in the Department of Mechanical Engineering at the University. During his stay at the University, Dr. Launder is working with Dr. John L. Lumley, Evan Pugh professor of aerospace engineering, on developing models of turbulence, and with Dr.

Frank W. Schmidt, professor of mechanical engineering, on numerical methods for recirculating. He also is teaching a graduate course in turbulence modeling during the Summer Term.

FOOTBALL TELEVISION

You can order tickets now for two closed-circuit television broadcasts of Penn State football games next fall — Ohio State on Sept. 20 and Iowa on Sept. 27. Athletic Department officials announced the plan to show the games in Recreation Bldg. on those days, after the television network broadcasting college football games revealed its 1975 schedule, omitting both from their lineup.

The showings in Rec Hall will be on a wide screen, presented in cooperation with Total Communications, of Pittsburgh. All seats are unreserved.

Tickets may be ordered through the

Penn State Ticket Office, 237 Recreation Bldg., University Park, Pa. 16802. They are priced at \$13 for the two games for the general public and \$10 for Penn State students; mail orders should include \$1 for mailing and handling charge, and checks should be made out to "Penn State University."

GOLF LESSONS

A golf clinic for boys and girls will be conducted by Penn State golf coach Joseph Boyle, at the Blue Golf Course, starting during the first week in July. Please call the Blue course pro shop, 865-7462, for more information.

HUB FOOD SERVICE

Food service at the Hetzel Union Bldg. will be closed down after dinner July 3 until breakfast Monday, July 7.

(Continued on page three)

Eugene Myers, Walter Ferree to retire

Dr. Eugene A. Myers will retire as emeritus professor of economics July 1 after serving on the faculty for 28 years. A native of Lebanon, he came to this country at age 11, attending school in Latrobe. He was graduated from the University of Pittsburgh with a B.A. degree and also obtained advanced degrees from Pitt, where he was an instructor for four years. He joined the Penn State faculty in 1947 after serving during World War II in the Office of Price Administration, the National War Labor Board, the Wage Stabilization Board,

and the Office of Housing Expeditor. He has served as a labor arbitrator and fact-finder and is an authority on labor economics and fiscal policy. He is the author of "Wage and Collective Bargaining Theory: a Bibliography." He has always maintained an interest in Arabic culture, and is author of the book, "Arabic Thought and the Western World." He was instrumental in helping to establish the Middle East Option in the College of the Liberal Arts and to promote the study of foreign languages.

Dr. Walter L. Ferree, professor of American history at the Ogoniz Campus, will retire July 1 with the rank of professor emeritus of American history. He has served as a member of the Ogoniz Campus faculty for 24 years and previously had taught at the former Penn State center in Swarthmore and in the Ridley Park School District. A specialist in the middle period of American history, Dr. Ferree has been engaged since 1969 in collecting and accessioning the papers and documents of Martin Van Buren, eighth president of the United States. "The Papers of Martin Van Buren" will be published in letterpress editions by The Pennsylvania State University Press and are expected to run to 25 volumes. To date over 12,000 copies of Van Buren documents have been acquired from more than 250 sources. Still to be accessioned is the bulk of materials housed in the National Archives. Overall, the microfilm edition of the papers will fill approximately 75 reels of 35 mm microfilm. He is the author of "Barbours and Hunkers: The New York Democracy, 1846-50," which is soon to be published by the University of Kentucky Press. A native of Oak Hall Station, Dr. Ferree attended high school in State College and

Dr. W. L. Ferree

earned both bachelor's and master's degrees at Penn State. He received his doctorate from the University of Pennsylvania.

Faculty notes

Dr. William Bradley, associate professor of art education, has been invited to present a paper at the 22nd World Congress of La Societe Internationale Pour L'Education Artistique, in Paris July 7-12. His paper, a report of research with the deaf, retarded, and addicted regarding the relation between learning, self-image construction, and aesthetic development, is titled "Leisure and Self-Image."

Dr. Robert W. Olt, assistant professor of art education, currently on leave for post-doctoral study at the Institute of Education of the University of London, England, has given two lectures at the University, the first on his research on art museum education programs and the second on "Art Education in the U.S.A.: Innovations at The Pennsylvania State University." He has been doing field research education at the Tate Gallery, the Victoria and Albert Museum, and the National Portrait Gallery.

Dr. S. M. Farouq Ali, professor of petroleum and natural gas engineering, will give an intensive course in Russian on "Oil Recovery by Thermal Methods and Their Mathematical Simulation" while visiting the Petroleum and Chemical Institute of Azerbaijan, in Baku, this fall. Thermal oil recovery methods have been the subject of research at Penn State for many years, but such methods were first employed in Azerbaijan in the 1930s and are being used extensively in the U.S., Canada, and Venezuela now.

Dr. George W. Brindley, professor emeritus of mineral sciences, will give a series of lectures on the subject of clay mineralogy in Brazil recently while on a month-long series of lectures, field trips, and laboratory visits. His clay mineralogy lectures were given at a symposium sponsored by Sudene, an organization for the development of the northeast provinces of Brazil. He was honored by the Brazilian Ceramic Association, of which he is the only non-member, for his contributions to the study of Brazilian clay minerals.

Dr. Norman Freed, associate professor of physics, will do research in the field of intermediate energy nuclear theory and

lecture while in Denmark and Sweden in August. He will be at the Niels Bohr Institute, University of Copenhagen, and at the Institute of Theoretical Physics, University of Lund, and the Royal Institute of Technology, Stockholm.

Dr. Joseph Paternost, associate professor of Slavic languages, and **Dr. William R. Schmalstieg**, head of the department, will do summer study in Yugoslavia as the result of receiving American Council of Learned Societies grants. Dr. Paternost will do research in the Croatian language, Dr. Schmalstieg in Slovene.

Dr. Stuart Patton, Evan Pugh Professor of Agriculture, lectured on "The Milk Fat Globule as a Model in Membrane Lipid Research" at the Eighth Scandinavian Lipids Symposium, June 8-11, in Helsinki, Finland. The symposium was sponsored by Scandinavian universities and industries concerned with oils, fats, and lipids, and Dr. Patton was one of two U.S. scientists to attend.

Dr. Sam Zamrik, associate professor of engineering mechanics, is attending the Fourth Inter-American Conference on Materials Technology in La Guaira, Venezuela (June 29-July 4) to present a paper on "The Application of Fracture Mechanics Analysis to Crack Growth Rate in a Biaxial Stress Field." Sponsors of the meeting include A.I.D. and the Organization of American States, and it brings together specialists in the field of materials research, development, and education.

Dr. Ronald Glaser, associate professor of microbiology at Hershey Medical Center, has been named a Fellow of the Franco-American Scientific Exchange Program, sponsored jointly by the Fogarty International Center at the National Institutes of Health and the Institut National de la Sante et de la Recherche Medicale. Dr. Glaser will work July 1 through September 30 of this year with Dr. Guy de The, chief of the unit of biological carcinogenesis at the International Agency for Research in Cancer in Lyon, France. The agency is a branch of the World Health Organization and Dr. de The is an internationally known cancer epidemiologist. Dr. Glaser will be studying the role of the Epstein-Barr virus in the development of naso-pharyngeal carcinoma tumors.

Service award for Prof. Paterno

Joseph V. Paterno, was a recent graduate of Brown University, with an A.B. in English literature, when he came to Penn State as an instructor and as assistant to head football coach Charles A. "Big" Engel, in May, 1950. His aim, then, was to try football coaching for a few years, with the alternative of heading for law school if he didn't like coaching. Recently Dr. Robert J. Scannell, dean of the College of Health, Physical Education and Athletics, and Joe took a few minutes out of busy schedules for a milestone photograph, one of many Paternos has had, but to him a very significant one, too — his 25-Year Service Award. The photographer couldn't begin to get into the picture all of the trophies Paterno has earned or his teams, so they settled for one of the Cotton Bowl statues, along with the Service Award Plaque. Paterno's football coaching success needs no rehashing; he has to his credit many equally noteworthy accomplishments outside the athletic field, and especially in the matter of helping youth in a variety of ways. Certainly one of his high points in 25 years was in serving as Commencement Exercises speaker in June, 1973. Another was his promotion to full professor in 1969.

Retirements

Janelle M. Burns, associate professor of speech at the DuBois campus, was given a retirement farewell dinner by faculty and staff of the Campus when Donald S. Hiller, director, expressed his appreciation for her 16 years of University service at DuBois and three years at the Altoona Campus. In all, she has been a teacher for 44 years, including 12½ at Slippery Rock State College, 7½ years at State College High School, and five years at Youngsview High School in Warren County. She received both bachelor's and master's degrees from Penn State and in her career has taught English, speech, Spanish, theatre and arts. At DuBois she has worked closely with the students in extracurricular projects and was responsible for developing and guiding the Mansion Readers, who did literary and dramatic readings of many kind. During the past year, she has been writing a history of theatre at Penn State from 1920 to the present, to be published this year by the College of Arts and Architecture which provided her with a grant for the project.

Honors

Barbara L. Bleau (Mrs. Max Bleau), assistant professor of mathematics at Capitol Campus, was presented with the fourth annual James A. Jordan Jr. Memorial Award for Teaching Excellence at Capitol Campus commencement exercises June 8. The award was established in memory of Dr. James A. Jordan, Jr., a member of the faculty who died in a boating accident in 1971.

Mrs. Bleau has been at Capitol Campus since 1972, and previously had taught at Baldwin-Wallace College, Marshall (W.Va.) University, and in high schools. She is a native of Ohio and was graduated from Ohio Wesleyan University, receiving a master's degree in mathematics and education from Case-Western Reserve University. She has also done graduate work at the University of Illinois.

Her name will be inscribed on a plaque, along with those of previous winners, which was designed by Oliver LaGrone and which has a bust of Dr. Jordan.

A lithograph created by Linda Plotkin, assistant professor of art at the University, under a grant from the Institute for the Arts and Humanistic Studies at Penn State, has been awarded a purchase prize in the Invitational Exhibition of American Graphics at Hope College, Holland, Michigan. The print, titled "In-

HOTLINE

Have a suggestion on how to save energy at the University? Then call the "Energy Conservation Hotline," — 855-1117 — any time of the day or night, any day of the week. But use the Hotline for making suggestions to save energy, not for registering complaints about problems.

tersection," also was selected for inclusion in the Miami Graphics Biennial, Miami, Fla.; the Ninth Dulin National Print and Drawing Competition, Knoxville, Tenn., and the LaGrange National Print Competition, LaGrange, Ga.

Dr. James V. Biggers, assistant professor of ceramic science, has been named a Fellow of the American Ceramic Society, one of 28 new fellows honored at the annual meeting of the Society in Washington, D.C., recently. He has been a member of the Penn State faculty since 1969.

Dr. Joseph L. French, professor and head of the Department of Special Education, has been elected president-elect of the Pennsylvania Psychological Association, to assume the presidency next year at the convention of the Association in Hershey.

Dr. Stanley O. Kenberny, senior vice president for University Development and relations and professor of education, was initiated into the national scholastic honor society, Phi Kappa Phi, at the annual initiation banquet of the Society recently. He was speaker at the banquet, attended by 581 students who were also initiated.

Porter W. McDonnell, professor of engineering at Mont Alto Campus, has been made a lifetime honorary member of the Southwest Chapter, Pennsylvania Society of Land Surveyors. The honor was given in recognition of his service to the Society, which includes editing the Society's newsletter, since its inception, and authoring a manual, "Simplified Tables for the Pennsylvania Coordinate System." He is head of the Surveying Technology Program at Mont Alto.

Penn State artists Robert Fisher, Dorothy Rennie and George Zorelich (left to right) display the works they have donated to the Central Pennsylvania Festival of the Arts raffle, to be held July 20.

Faculty donates work for arts raffle

Three University faculty members have contributed works of art to be awarded in the Arts Raffle sponsored by the Central Pennsylvania Festival of the Arts on Sunday, July 20.

George S. Zorelich, professor of art, has donated an abstract watercolor, which he calls "Landscape," done in tones of purples and gold. Zorelich, who has exhibited widely in both one-man and group shows across the country, is a long-time faculty member. He taught at the DuBois Campus from 1946 to 1950 and has been at University Park since 1952.

Dorothy Rennie's pencil drawing, "Chameleon Chant," explores the aspects of women's personalities revealed by dancers in the work of that name which was com-

missioned for last summer's Festival. Rennie has taught art at the University Park and DuBois Campuses as well as in the Continuing Education program.

A visiting lecturer and artist-in-residence at Penn State, sculptor Robert Fisher created "Electric Flower," a lighted fiber glass and plexiglass blossom especially for the Festival Art Raffle. He is perhaps best known locally for his sculptured fountain on the Lock Haven State College campus and for his "Papilio-icarus," a large fiber glass and plastic resin figure.

Tickets for the drawing will be available at State College stores in advance of the Festival and at a booth on the Mall from July 17 through 20.

WPXS Highlights

Monday, June 30 — "Vaudville, in the story of 'Rico Le Cubano,'" is the PBS Special of the Week, at 8 p.m. Sal in Cuba, the show features music of German composer Hans Werner Henze.

Monday, June 30 — "The Bicentennial in Pennsylvania," is a discussion by Dr. Frederick R. Mason, professor of archaeology, and Dr. John Fronts, associate professor of history. Also televised Tuesday, July 1, at 3 p.m. and Saturday, July 5, at 1:30 p.m.

Tuesday, July 1 — "Special one-hour program, 'In Search of a Maestro,'" follows the twenty young conductors in the Baltimore Symphony competition through a series of written tests and performances with his orchestra, at 7 p.m.

Tuesday, July 1 — "Music at Penn State" features the Hi-Los, on a copolla of the Penn State Glee Club, at 8:30 p.m.

Wednesday, July 2 — An hour-length documentary on "Notes on a Community Hospital," looks at the operations of the Lewistown Community Hospital, at 9 p.m.

HUB Specials

Monday, June 30 — Lunch, seafood paella with hot sauce, \$1.19; dinner, beef stew, \$1.69.

Tuesday, July 1 — Lunch, barbecue on a bun, \$1.85; dinner, spaghetti with meat balls, \$1.39.

Wednesday, July 2 — Lunch, Teriyaki Beef Burger and soup, \$1.40; dinner, corned beef with cabbage, \$1.49.

Thursday, July 3 — Lunch, lasagne, \$1.30; dinner, beef bordelaise, \$1.39.

Closed July 4 & 5; reopen July 7.

ALUMNI —

(Continued from page one)

A special course, "Imparting — the Arts of Man," will give student-alumni an opportunity to try their luck at painting, sketching, and film making. All classes will be followed by formal and informal discussions.

Throughout the "term," University and regional recreational facilities will be open to participants and their families, and the dates of the Vacation College coincide with the Central Pennsylvania Festival of the Arts, held at State College and University Park, and the Summer Festival of the American Theatre, held at the University.

A complete program for the children, including participation in appropriate classes for the older children, is planned. A professionally staffed nursery school will be provided for younger children.

The Vacation College will begin with a reception hosted by President and Mrs. John W. Oswald. The Penn State Alumni Association is sponsoring the week's events.

He learned to cook in mother's kitchen

Chinese cookbooks displayed

The entire main lobby of the Patten Library is currently Oriental in keeping with the Chinese furniture in the adjacent Penn State room. Six display cases are filled with 100 cookbooks and magazine articles chiefly on Chinese cooking for Americans, from the collection of Dr. Alfred R. Bobrowsky, who is senior research associate in the Materials Research Laboratory.

The exhibit is titled "Mostly Chinese Cookbooks" because there are one or two books on Japanese cooking also. Two or three books are in Chinese only, such as "100 Chinese Snacks," but several are in both Chinese and English. One book with facing pages in English and Japanese is intended to tell Japanese housewives how to cook Western style dishes.

Mingled among the books are Chinese foods such as dried shrimp, Szechuan peppers (not as hot as chili peppers, Dr. Bobrowsky informs us), and tree ears. There are also displayed labels from containers of Chinese food, as well as Chinese cooking and eating utensils.

In keeping with modern trends, there are publications on health foods, on vegetarian Chinese cooking, and on weight-loss diets with Chinese food ("Fast must go with Wok and Wo").

Dr. Bobrowsky is an amateur chef with strong interests especially in Chinese gas-

tronomy. He prepares meals for groups of friends chiefly, and in April, 1973, outdid himself by preparing a 40-dish meal to accompany a talk to 35 members of the Lemont Women's Club. Nine women assisted in the preparation. His talent springs from a childhood in the occasional kitchen company of his mother who thought nothing of preparing a different main dish (Western style) for each member of the family at dinner.

Dr. Bobrowsky is emphatic that he is an epicure, not a gourmet. "An epicure is someone who eats the best food available at the moment even if it is a fast-food hamburger, but a gourmet will starve rather than eat mediocre food," he says.

Through the Faculty Resource List, he offers a talk entitled "Chinese Restaurants, Cookery, and Some Food Customs in the U.S.A.". Elsewhere, he was offered "Chinese Cooking and Eating for America Males (Females Welcome)" because "... Chinese males make a strong interest in food. It is not uncommon to find more males than females as customers in a Chinese grocery store." And, he does comparison shopping before buying in Chinese groceries in the larger cities.

The covers of the cookbooks on exhibit show a variety of colorful cooked dishes. One book written by a Chinese chef in Japan shows what appears to be a plate with a beautiful bird in full plumage as part of the ceramic material of the plate; on close examination the bird is seen to be made of food, as are the branches and flowers which are part of its background. Another book, also by a chef in Japan but written on Chinese food, displays a stylized dragonfly made only from red radish and green cucumber.

Chinese food is the most popular food, next to American food, in the U.S.A. New York City alone has 3,000 Chinese eating places (one book in the exhibit is only on Chinese restaurants in New York City). It also includes "noodle shops," equivalent to coffee shops in Europe, where one can dawdle over coffee and the few interesting food offerings which are the specialty of any one noodle shop. Different from the noodle shops are places serving "dim sum," snacks such as dumplings, beef suet, steamed dough balls with meat filling, and meats which are eaten in mid-morning.

"Chinese food takes on the character of the country where it is served," says Dr. Bobrowsky. "In Johannesburg, where many shopkeepers are of East Indian descent, the Chinese dishes have curry in them. In London, one can find both the most tasteless Chinese food and food more Oriental than in the U.S.A. The cookbooks of the country reflect that country's alterations to Chinese cuisine."

Press issues book on Ben Franklin

"Benjamin Franklin and the Zealous Presbyterians" by Melvin H. Bauxbaum is the latest publication of The Pennsylvania State University Press.

The book traces Franklin's half century of controversy with the Calvinists, his evolution from a teenage pamphleteer lampooning the New England clergy to a letter written at age 73 urging his grandson's education "for a Presbyterian as well as a republican."

Along the way, Dr. Bauxbaum, a member of the English Department of Baruch College, reveals two sides of Franklin. On the one hand, there is the promoter conveying positive images of himself and his nation as models of toleration in the "Autobiography." On the other is the polemicist, inveighing against alleged offenses of the American Calvinist Establishment.

In his pre-1776 years, Franklin, an Enlightenment devotee, was deeply mistrustful of Presbyterian zeal, engaging in overt religious-political hostility among Presbyterians, Anglicans and Quakers. As elder statesman of the Revolution, he became converted to the use of zeal, including the Calvinist variety.

An organ arrives for Auditorium

The Penn State Class of 1950 has presented the University with a portable organ, for use in the University Auditorium, and William Allison, representing the Auditorium management, left, and June Miller, organist and associate professor of music, were on hand to receive the gift from class representative John Domagala, right. The organ, to be used in performances of chamber music and in religious services, can be wheeled from storage to stage. It is a Holtkamp organ, seven feet in height, with an oak case.

PENN STATE intercom

Volume 4, Number 42

July 3, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Calendar

July 3-13, 1975

SPECIAL EVENTS

Thursday-Friday, July 3-4 — PSU Tennis Club Tournament, varsity tennis courts.
Sunday, July 6 — Interlandia Folk Dance Club, 7:30 p.m., HUB terrace (ballroom if rain).
Friday, July 11 — Commonsplace Coffee-house, 8 p.m., Room 102 Kern.
Friday-Saturday, July 11-12 — Penn State Festival Theatre, "Wonderful Town," 8 p.m., Playhouse Theatre.
Sunday, July 13 — Black Christian Fellowship service, 11:15 a.m., Eisenhower Chapel.

Films

Wednesday, July 9 — Commonsplace Theatre, "Putney Swope," 7:30 and 9:30 p.m., Room 112 Kern.
Thursday-Sunday, July 10-13 — ARHS film "The Paper Chase," 8 and 10 p.m., Findlay Rec Room.

OFFICIAL

Friday, July 4 — Independence Day recess. No classes; ten week program classes will be made up Wednesday, August 20.
Wednesday, July 9 — Registration for six week Summer Term, lobby of Shields.
Thursday-Tuesday, July 10-15 — Add period for six week Summer Term.
Thursday, July 10-Tuesday, July 22 — Drop period for six week Summer Term.

EXHIBITS

Museum of Art — Linda Plotkin, "Bellonie Counthouse: Evolution of a Print," Gallery A. Twenty paintings on wood panels from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Selections from the Permanent Collection, Gallery C. Central Pennsylvania Arts Festival Juried Crafts Exhibition, opening July 10, Gallery B.
Kern Gallery — Central Pennsylvania Festival of the Arts Juried Art Exhibition. Emerson and Roslyn Horze, Navajo and Hopi Indian jewelry, Functional and non-functional ceramics by Jean Stevens-Sollman and Toshiko Fukuyama.
Zoller Gallery — Central Pennsylvania Festival of the Arts Invitational Art Exhibition, opening July 12.
Chambers Gallery — Betsy Suhey and Virginia Kopacz, metalwork and jewelry, opening June 30.
HUB Gallery — Renaissance Gallery Crafts Display, until July 11.
Hammond Gallery — Architectural Engineering student work, models, drawings, and award-winning thesis projects, until July 12.

Reach agreement

An agreement between the University and the Office of Civil Rights which would release a hold on the completion of a \$2.6 million contract for coal research, to be funded by the Energy Research and Development Administration, was signed June 24 by President Oswald, and forwarded to the regional office of the Office for Civil Rights, Philadelphia.

In the short-form agreement signed last week, it is agreed that the Office for Civil Rights will provide further guidelines for a revised Affirmative Action plan; after University and Office of Civil Rights personnel again meet to discuss the new guidelines, there will be a 30-day period until a deadline for completion of the plan, the period to be negotiable; and that in signing the agreement, the University has not waived any rights to raise objection to the authority of the Office for Civil Rights to require specific corrective actions.

REQUIRED TRAVEL ASSISTANCE

To help reduce the cost of required travel by University personnel, the Purchasing Department investigated discount rates to motels across the country and found some major chains who offer a discount upon presentation of a "preferred card" or University identification. Local motels may also offer special rates but each has its own policy.

The Purchasing Department has limited information and "preferred rate cards" of staff members who travel on University business are interested. Please call 865-7561 and ask for Joan Everhart.

PHONE CHANGE

The Pennsylvania Network telephone number for the Hazleton Campus was changed recently; the new number is 486-2285. This Network is a special system which connects state government offices, along with state colleges and Penn State. The special number cannot be reached from telephones not connected with the system, of course.

RETIRED STAFF CLUB

The 171st meeting of the Penn State Retired Staff Club, which has a membership open to all retirees of the University, will be held Thursday, July 10, at 7:30 p.m. in the Saint Andrews Episcopal Church Parish Life Center, Elwood G. Williams, chief of the State College Police Department, will speak on "Police Activities and Problems in State College." Reservations for this meeting must be made by July 7; call Mr. and Mrs. Alice Buchan, 237-3344.

SUMMER THEATRE

Opening the Festival of American Theatre program for the summer July 11 at Pavilion Theatre will be the hit musical, "Wonderful Town," which is based on the "My Sister Ellen" stories and has music by Leonard Bernstein, with lyrics by Betty Comden and Adolph Green. The show runs also July 12 and 13, July 15-20, with a 2 p.m. matinee performance Saturday, July 19, in addition to the regular evening performance. Tickets can be obtained now (for any summer theatre show) at the box office in Arts Building or may be reserved by calling 865-1684 (or for out-of-town patrons, call collect 814-863-0182).

In producing the Bicentennial Wagon Train show, a brainstorming session brought together Don Tucker, consultant (at piano); Bruce Trinkley, assistant professor of music, who wrote the music; Monst Duque, assistant professor of theatre and film, responsible for staging; Douglas Modrow, associate professor of theatre and film, who planned the technical details; and Roger Cornish, assistant professor of theatre, lyricist.

Second wagon train on way

The second Bicentennial Wagon Train in which Penn State has a very considerable role left its point of departure — Carson City, Nevada — this week, and if the reaction of crowds that will see the show along the way to Valley Forge, Pa., can be judged by the small group that saw a preview last week in Pavilion Theatre, then the young people putting on the show will be a huge success.

Wagon Trains like this, alive of them in

all involving eventually wagons from every state in the nation, are Pennsylvania's way of calling attention to the State's vital part in the birth of the nation. Valley Forge, as the final goal of the trains on or before July 4, 1776, is a natural.

The first train left Blaine, Washington, in early June; other trains will leave from widely scattered points in the fall, gathering wagons as they move across the country. Each caravan will have small troupes to give a forty-minute show calling attention to the Bicentennial through songs and words. The Departments of Music and of Theatre and Film have been responsible for putting the shows together, producing songs about the ordinary people of the Nation, not the easily recognized heroes like Washington and Jefferson. Topics such as immigration, parades, and other emotion-stirring ideas are the feature. The shows generally will be performed in cow pastures, Little League ball fields, shopping centers, state fair grounds, or wherever the train stops at night. Staging

(Continued on page two)

Stage has backdrop of two wagons and the sky.

Ways suggested to reduce toll phone costs

To effect maximum savings in campus operations, the University is sludging ways to reduce costs in such expenses as long distance telephone calls. The amplitude of the problem can be demonstrated easily. Here are the toll costs for University Park Campus for the past three fiscal years:

1972-73 — \$281,208.33

1973-74 — \$323,030.26

1974-75 — \$352,261.15

Not only is the rate of increase (25 per cent) extraordinary, but so also is the absolute value. It represents a charge of more than a thousand dollars per working day, and therefore worthy of serious study for ways to reduce it.

Rising costs of telephone toll service result from: increased telephone rates; increased general use by University faculty and staff of the long-distance service; failure to use the service in the most economical ways. The University isn't in a position to change telephone rates, and it is assumed that faculty and staff do fil-

tle long-distance calling unless it is warranted. However, with additional information, faculty and staff may help to reduce these costs by using the service in the most economical way:

1. Place operator-assisted calls only when absolutely necessary. This includes credit card calls, person-to-person, third number, and collect calls.
2. Use direct dialing wherever possible.
3. Use the new WATS service where it is available.

A comparison of costs for placing a call, of five minutes duration, to several cities from University Park will illustrate the first point.

City	Direct Dial Cost	Operator-Assisted Cost	
		(a)	(b)
Philadelphia	\$1.60	\$2.68	\$2.08
Pittsburgh	\$1.50	\$2.44	\$1.95
Chicago	\$1.85	\$3.33	\$2.43

(a) — Person-to-Person; (b) — credit card, third number, collect.

Direct dialing, of course, includes the Pennsylvania Network system through

which calls can be placed to Commonwealth Campuses, state government offices, and some Federal offices.

The WATS service was placed into service during May and the University realized a 10 per cent reduction of long distance toll expenses in a two-week period. The cost of each call placed outside of Pennsylvania with WATS during that period was \$1.99, 12 cents cheaper than the average call from University Park placed on long distance lines to phones outside of the State during May. The cost of calls within Pennsylvania placed via WATS was 70 cents, compared to \$1.29 per call for calls placed on the regular long distance lines. As more calls can be placed each day (after callers and operators became more familiar with it), it is expected that cost per call will come down.

The use of credit cards by some departments has been an aid to accounting procedures. R. E. Zilly, vice president for business, asks that this practice (for example, charging contract calls to a credit card) be seriously weighed against the extra costs of the system.

Honors

Dr. Hans A. Neuberger, professor emeritus of meteorology at Penn State, has been given emeritus ranking by the University of South Florida, especially unusual in view of the fact that Dr. Neuberger taught at the University of South Florida for only three and a half years after retiring from Penn State, and as a visiting professor. He received a plaque from President Cecil Mackey which cites him as "eminent scholar, distinguished teacher, admired scientist, humanist, musician and poet." The honor came a year after Dr. Neuberger had "retired" from teaching at South Florida, but was no less appreciated.

Funding Opportunities

For procedural and funding source information, call 865-1375.

JULY 3, 1975

(186-1) Predoctoral and postdoctoral fellowships and support policy has been issued by the National Institutes of Health, National Research Service Awards (NRSA) for Individuals (F-32's, postdoctoral fellowships) and Institutions (F-32's, pre- and post-institutes) are currently awarded. This information has the same deadline date as the NRSA Grants, Vol. 4 No. 5, 6/3/75.

(186-2) A Sept. 1, 1975 deadline date for NIH Research Career Development (RCD) Award Program applications. Funding through FY 1975-76 has been announced. RCD awards are limited to one 5-year period with salary based on a full time appointment. Salary limit from NIH is \$25,000. Also announced with the same deadline date are NIH Special Research Career Programs. Awards are made to the Institution on behalf of the candidate. The NIH awarding units include: National Eye Institute, National Heart and Lung Institute, National Institute of Allergy and Infectious Diseases, National Institute of Arthritis, Metabolism, and Digestive Diseases, and National Institute of Neurological and Communicative Disorders and Strokes. This information has been distributed. (Ref. NIH Guide, Vol. 4, No. 5, 6/3/75).

(186-3) Publication guidelines for Federal agencies in reference to this Privacy Act of 1974 (PL93-579) have been released by the Federal Register. Public use of the materials is to be determined by the agency which include a model outline of the regulations. This information has been distributed. (Ref. 40 FR 25987(3), 6/19/75).

(186-4) Federal stratigraphic research on bioenergetics is coordinated through the Interdepartmental Committee for Atmospheric Sciences (ICAS). Agencies which fund such research include the Departments of Commerce, Defense, Transportation, ERDA, NASA, EPA, and NSF. Current FY funding is \$14 million and is expected to increase in future years. Research on agriculture, biological, and human health effects of ozone reduction is supported by the U.S. Dept. of Agriculture, National Institute of Environmental Health Sciences, and the Environmental Protection Agency. (Ref. IMOS News, 6/12/75).

(186-5) An Office of Consumer Education has been established within the Office of Education. The office is to be located in the Division of Higher Education. Program goals are in support of research, demonstration, and pilot projects designed to provide consumer education to the public. This information has been distributed. (Ref. 40FR25939-40, 6/19/75).

(186-6) Rules and regulations for Emergency Relief Act of 1962 have been issued by the Office of Education. The regulations include educational television projects (contract), special arts projects (fairs, councils), special needs, concerns projects (internship), and other projects (contract or grant). This information has been distributed. (Ref. 40FR25711-86, 6/12/75) (CFR45-1355-135532).

(186-7) The U.S. Department of Transportation (DOT) in its recent issue of "Awards to Academic Institutions . . ." covers contracts and grants for research and training. Awards are grouped in six categories including DOT objectives: (1) improved capacity and service, (2) reduced costs, (3) protect the environment and conserve energy, (4) improve safety, (5) provide technical assistance, (6) improve research, and (7) improve R&D project. The contract/grant title, award amount, and university name is provided. This publication is on file at the Pennsylvania Transportation Board, Room 500, Building B, or Resource Information Service, Room 5 Old Main (Ref. Rep. No. DOT-T-73-75).

(186-8) NASA has issued a reminder that Aug. 15, 1975 is the deadline date for receiving proposals for the Sept/Oct. review cycle for lunar scientific research. Proposals include lunar surface analysis and mapping, lunar surface research (Sample), and lunar support research and technology (SRAT). Guidelines for participating in lunar programs are enclosed with the reminder letter. This information has been distributed. (Ref. NASA letter, 6/7/75).

REMINER AND DEADLINE DATES
July 14 for Graduate School Financial Awards (June 15 INTERCOM 218-9)
Aug. 1 for NEA Artists in Schools Program (May 22 INTERCOM 218-02)
Aug. 15 for NASA Life Sciences Program in Space (May 15 INTERCOM 218-07)
Aug. 15 for O.R.-W.W. Cancer Fund fellowship grant program (June 26 INTERCOM 218-4)
Sept. 10 for NSF Undergraduate Research Participation (May 29 INTERCOM 218-13)
Sept. 10 for IIE Graduate Study and Predoctoral Research Award (May 29 INTERCOM 218-7)
Oct. 1 for John Simon Guggenheim Memorial Foundation Fellowship (May 12 INTERCOM 218-57)
Oct. 10 for NSF Student Science Training Program (May 29 INTERCOM 218-2)
Nov. 1 for NHLI Young Investigator Program (May 29 INTERCOM 218-1)

All-America's here too

Flower gardens an attraction

Penn State's famous flower gardens are now in the charge of Marvin H. Runner, assistant professor of horticulture, above, who has the help of Penn State's Miss Noll and other Grove, who are using a wheelbarrow to mark places for the plants, headed by Ann Glover, Miss Allison, Janet Cole, and Margie Shamonsky. Grove is Runner's assistant, and the others are students who help at the peak of the work.

Since 1937, with the exception of two years when building construction interfered, the University Flower Garden has been helping commercial seedsmen and pleasing thousand of campus visitors, particularly in mid-August.

In the intervening years, only three men have had charge of these gardens, where All-America Flower selections and All-America Roses are tested. Earle Wilde, professor of ornamental horticulture, initiated the gardens when they were in the area east of Tyson Building. Wilde continued the project through the 1948 season, retiring Jan. 1, 1949, and Robert P. Meahl took over. The gardens were designed

all-America Test Gardens in that year for the annual flower show. Meahl was in charge when the gardens were moved to their present location north of the East Halls area after the two years (1964-66) of inactivity, until he retired in 1972.

Marvin H. Runner, assistant professor of horticulture, is now in charge, and on a not June day he was there in the four-acre, fenced-in fields at Park and Bigler Rds. helping to plant some 750 flower selections (half of them experimental, the other half "control" specimens).

These are annuals that we started in our greenhouses four to six weeks ago," he

theatre and film, was responsible for the technical details of the show, designing and supervising the construction of the portable stage carried with each show. Along with assistants Jeffrey Quinn and Pam Cheslek, he was also responsible for the technical and support elements connected with the train.

Costumes, designed to blend with the train and surroundings, were the work of Monter King, costumer at the Theatre Arts Production Studio. An old-fashioned look, with a color scheme of red, yellow, and brown, in prints and gingham, boots and jeans, were selected.

Douglas Cook, head of the Department of Theatre and Film, produced the show. Rich features at Penn State students in the train leaving Washington but will also in other trains include professional performers.

Sometime in the future one of the trains will pass through State College, one of 1100 such encampments by the five trains during the next year. The trains will take such well known trails as the Oregon and California Trails, Mormon, Santa Fe, Natchez Trace and Lancaster Pike. The performers won't have to live in the wagons, fortunately; mobile homes accommodate the performers and staff, equipment and horses have vans. Outriders on horseback will spread out from the train to collect signatures on scrolls reaffirming faith in the principles of the Declaration of Independence.

(Continued from page one)

shows for such circumstances to interest all kinds of American tastes, was a tremendous task for the producers, made more difficult because only three months' time was available to "put the show on the road," which includes writing, organizing, designing and making costumes, planning and building staging, etc. Manuel Duque, assistant professor of theatre and films, was responsible for the staging, with the task of unifying the various elements of the show.

Conestoga wagons will in general be the backdrop for each performance, but with constantly changing locales, the planning of the production had to recognize the different effects the scenery behind would have. Audiences, generally, will stand slightly below the level of the performers, whose voices will be amplified and carried through strategically placed speakers to the crowd which conceivably vary from a couple hundred people to thousands. The performers themselves along with the stage manager handle the details of setting up the stage.

The show was written by W. Bruce Trunkley, assistant professor of music, and Dr. Roger N. Cornish, assistant professor of theatre, with Don Tucker, Broadway lyricist and composer, serving as consultant for the project.

Douglas Maddox, associate professor of

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or full-time exempt jobs listed below may apply by calling Employment Division, 865-1387 (working hours 475-1387). No contact is to be made with the office. Applications will be accepted until 5 p.m.

THURSDAY, JULY 10, 1975
ASSISTANT ACCOUNTANT, CONTROLLER'S OFFICE
University Park

Responsible for various accounting personnel for assistance in a wide variety of duties, working toward the overall goal of obtaining a well rounded accounting experience in all areas assigned within the Controller's Office. Bachelor's degree or equivalent, preferably in accounting or related field and over three months of directly related experience.

RESEARCH AIDE, COLLEGE OF SCIENCE —

University Park
Responsible for the separation, purification, and analysis of proteins and enzymes. Prepare, process, and maintain cultures of microorganisms for experimental use. Prepare culture media and reagent solutions as needed. Separate and purify subcellular fractions by ultracentrifugation. Operate a visible-ultraviolet spectrophotometer, liquid scintillation spectrometer, and amino acid analyzer. Determine enzyme activities and reaction products by radiochemical analysis. Utilize processes such as electrophoresis, chromatography, and gel filtration for the analysis and purification of proteins.

Bachelor's degree or equivalent in Biochemistry, Chemistry, or Biology with one to two years directly related experience plus some knowledge of Biochemical technique and instrumentation.

EEG TECHNICIAN — Hershey Medical Center
Responsible to the director of the Visual Electrophysiology Laboratory for the performance of electrophysiologic examinations, etc. Bachelor's degree with patients, electronics and computer academic administrative duties. Also act as liaison with other departments, organizations, and various research institutions and centers as well as with federal and state agencies. Responsible for writing letters, memoranda, and major reports. College or University graduate with a Bachelor's degree and budgeting involving internal and external funding. Must be able to take delegation and work independently, to write clearly, and exercise discretion in dealing with the problems of the job.

ADMINISTRATIVE ASSISTANT, DEPARTMENT OF ECONOMICS, COLLEGE OF THE LIBERAL ARTS — University Park

Responsible to the Head of the Department of Economics for various administrative functions to include administration of the office, accounting and control of various budgets, financial management, personnel functions as well as various academic administrative duties. Also act as liaison with other departments, organizations, and various research institutions and centers as well as with federal and state agencies. Responsible for writing letters, memoranda, and major reports. College or University graduate with a Bachelor's degree and budgeting involving internal and external funding. Must be able to take delegation and work independently, to write clearly, and exercise discretion in dealing with the problems of the job.

The University is an Equal Opportunity Employer.

says, "and they include species generally grown by the public in home gardens or landscape—people in public gardens or governmental institutions, in other words, the more common flowers, although we do have a few of unusual species. But they aren't just ordinary flowers, either, because the 'test' flowers represent the hopes of the seed companies to develop and market something new, and especially something attractive, so that gardeners will want to buy their seeds. An All-America selection is a coveted title and the seedsmen make positive use of the title in their advertising."

"But I think it is also important to point out that other studies are being made concurrently with the tests. For example, right now we are studying the response of these flowers to the use of mulches and herbicides."

"When we look at the individual plants, we are examining their general vigor, growth uniformity, disease resistance, and desirability as garden plants."

"We will make note of color, early bloom, dwarf or semi-dwarf characteristics and uniformity as a bedding plant."

The plants are now mulched with a plastic cover, and Runner used, for the first time, a bulb planter to cut holes in the plastic and fill soil where the plants were to be placed by his helpers. The process has speeded up the planting many times over.

By the end of August, when the "show" is largely over, the gardens will have accommodated perhaps eight to ten thousand visitors, many of whom are avid gardeners and will make note of the new varieties tested, although they may not see them on the market for several years, and perhaps never.

"Ours is one of the 24 test gardens, for All-America selections," Runner points out, "and if a selection hasn't done well elsewhere, the seed company may not market it even if it has been outstanding here."

In the second week of August, seed company representatives will be here to see for themselves how their varieties are doing in comparison with others. Then, also, the committee of All-America judges, including Runner, will make their choices. Some of the visitors may be from abroad, because in recent years a number of seed producers, particularly in Europe and Japan, have sent seeds to be tested.

"We have had to begin charging the companies for a test," Runner points out, "because of our increasing costs, and last year the number of selections was reduced about fifty per cent, but this year the number has again increased, although not to the previous level."

Runner works with a relatively small crew, which includes his foreman, William Grove, five young women and two young men, some of whom are back for their third summer.

Many of the visitors, who include members of garden clubs, group tours of the campus, and flower hobbyists, come back year after year simply because they find the colorful display. They bring friends from out of town, and so the gardens are well known nationally.

Runner, and the Department of Horticulture, are pleased that the public shows its enthusiasm for the plantings. There is only one caution: please don't pick the daisies, or marigolds, or aliums, or cleome, or etc. This is research work first, and exhibition second.

PENN STATE intercom

Volume 4, Number 43

July 10, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Also discusses appropriations bill

President affirms to Senate commitment on hiring policies

President Oswald reaffirmed Penn State's commitment to development of a strong affirmative action plan that assures good faith efforts in all its hiring policies.

Speaking at the regular meeting of the University Faculty Senate, July 1, Dr. Oswald outlined the University's development of a plan over the last several years, noting that to date four separate affirmative action plans have been submitted but the Federal government has changed its guidelines and requirements.

"Throughout this process," he said, "we were always informed that the University was not in a state of non-compliance."

According to Dr. Oswald, the first plan was submitted in 1971 and, after establishment of the University's Affirmative Action Office, a broad consolidated plan for the entire University was submitted in July, 1973, to the regional office of the Office for Civil Rights, Department of Health, Education, and Welfare, in Philadelphia.

"The HEW response was that the plan was a consolidated report, and we were told that a plan for each campus, or 22 separate plans, were needed. In February, 1974, the University submitted 22 separate plans, but the HEW response was such that the units were so small that they should be clustered."

Dr. Oswald said that in October, 1974, the University administration felt "some real progress" was made when a new affirmative action plan was filed and a memo of understanding signed with the regional office with a commitment for a response by Jan. 15, 1975.

A letter of Jan. 14, 1975, from the regional office advised that they considered the plan "quite adequate" but that more time would be required to review the entire plan, consisting of three volumes. Through a public news release on June 15, 1975, it was learned that the plan had not been accepted.

HEW officials then delivered a 42-page document of new standards that if not

signed threatened the execution of a \$2.8 million Federal contract for coal research with the Energy Research and Development Administration.

"We found we were unable to sign it,"

Dr. Oswald said, "and, as a result of mutual discussions on June 26, HEW withdrew the 42-page document and replaced

"I think it is very important that the University community and particularly the academic community understand that this institution through its administration has been making a genuine effort to attempt to develop a workable Affirmative Action plan which would have as its basis good faith efforts. We are as determined now and as committed now to pursuing these civil rights and to root out discriminatory policies or actions within this University as we were in the first place . . ."

President Oswald, at University Faculty Senate meeting, July 1, 1975.

it with a three-page document which provides for us to meet and discuss a new affirmative action plan."

After University and HEW officials met again to discuss the new guidelines, there will be a 30-day period until a deadline for completion of the plan. The short-term agreement also provides that the University has not waived any rights to raise objection to the authority of the HEW Office for Civil Rights to require specific corrective actions.

"It's very important that the University community understand what we were faced with — not only we but some 31 other institutions — in the last couple of weeks and where we stand now."

Concerning the University's appropriation bill status and the 1975-76 budget, Dr. Oswald said he was pleased that the decision was made to abandon the 15-month fiscal year and to remain on the 12-month fiscal year. He said he also was very pleased that the bill before the Senate Appropriations Committee restores the research funding level to that of the past year.

"It is our hope that this bill will ultimately prevail. It is our intent at the July Board of Trustees meeting to have tuition level, room and board charges, and the operating budget, including levels of salary increments, acted upon. Whatever is done on salary increments will be retroactive to July 1."

In other action, the Senate approved a recommendation providing that completion of requirements for options and non-major options in a program of study be entered on the student's official academic record. The action also prohibits issuance of certificates for baccalaureate degree programs unless approved by the Senate, the University administration and the Board of Trustees.

The Senate also:

—Approved a report on definitions and program presentation from the Subcommittee on Catalog, but returned to the committee a proposal for creation of an Academic Program Guide that would provide detailed, up-to-date information on programs of study.

—Extended for two years a special admissions policy that permits veterans dropped from other colleges and universities for poor scholarship to enroll at Penn State as provisional degree students.

—Deferred action on a new set of student rules until the Sept. 9 meeting.

—Approved establishing faculty seminars to examine methods for achieving the goals of Penn State which call for lifelong experiences of learning.

Environmental policy center has added role

Effective July 1, the Center for Study of Environmental Policy has taken on the additional and auxiliary function of serving as the University's contact point, by mail and telephone, for those who have questions concerning environmental programs both from within and outside the University. Previously this function was performed by the Office of Environmental Quality Programs, directed by Dr. R. D. Schein, who is currently on leave.

Dr. Terry A. Ferris is the director of the Center for Study of Environmental Policy, with office in Room 401 Grange and telephone (814) 865-1442.

Children's art classes

Three special art classes for children will be offered during the Summer Term by the Department of Art Education.

The classes will begin on Thursday, July 24, and continue each Tuesday and Thursday, from 10 to 11:30 a.m. through Thursday, Aug. 14.

(Continued on page 20)

Rung is named to head mathematics

Dr. Donald C. Rung, professor of mathematics, has been named head of the Department of Mathematics, effective on July 1. He succeeds Dr. Paul Axt, who has served as head of the Department since 1971. Dr. Axt is leaving the administrative post to return to full-time teaching and research as professor of mathematics.

A member of the Penn State faculty since 1961, Dr. Rung was associate head of the department from 1968 to 1970 and supervisor of graduate studies in mathematics from 1965 to 1967 and again from 1970 to the present.

Active in the University Faculty Senate, he has served as vice chairman of the Committee on Admissions and as chairman of the Subcommittee on Fringe Benefits. He has also been a member of the Graduate School Committee on Fellowships and Awards, the College of Science Committee on Disadvantaged Students, the Faculty Senate Faculty Affairs Committee, the Graduate School Council, and the Faculty and Graduate Affairs Committee of the Graduate School Council.

A specialist in complex analysis and potential theory especially in the area of boundary behavior, he was senior Fulbright lecturer in mathematics at Tsing Hua University, Taiwan, Republic of China, while on leave in 1967-68. During the past academic year, he was on leave at Carleton University, Ottawa, Canada, where he served as visiting senior research scientist.

Musical to open theatre season

Professional actors Cathy Brewer-Moore, Virginia Gregory, and Steve James, complemented by other Equity actors, students, and community volunteers, star in the Penn State Festival of American Theatre production of the hit musical, "Wonderful Town," which opens at Playhouse theatre tomorrow (July 11, curtain 8 p.m.) and will also be performed July 12-13, and July 15-20, with a Saturday (July 19) matinee at 2 p.m.

Knox Fowler, professor of theatre and film, is directing the show, which is based on the "My Sister Eileen" stories and features the music of Leonard Bernstein. The show opened on Broadway in 1953 and was an instant hit, with such tunes as "It's Love" and "A Quiet Girl." Betty Comden and Adolph Green wrote the lyrics.

Tickets for this show, and the other three on the summer schedule, may be purchased in the Arts Building (daily except Monday, 10 a.m. to 9 p.m.) or reserved by calling 865-1884. The remainder of the schedule for the summer includes:

"You Know I Can't Hear You When the Water's Running," a quartet of short comedies by Robert Anderson, at Pavilion Theatre, July 18-20, July 22-26.

"Girl Crazy," the melodious musical with music by the Gershwins and book by Guy Bolton and Jack McGowan, Playhouse Theatre, Aug. 1-3, Aug. 5-10 with a matinee Saturday, Aug. 9.

"Awake and Sing," the powerful Clifford Odets drama, Pavilion Theatre, Aug. 8-10 and Aug. 12-16.

Senior citizens and University students may obtain discounts on ticket purchases.

Seek advice from insurance agent

No-fault insurance questions raised

With all of the information being presented to the public recently on the provisions of Pennsylvania's "no-fault" automobile insurance, questions have been raised about the effects of the University's medical and disability plans on the premium-reducing options of "no-fault."

One of the options permits a motorist to designate his or her group medical insurance plan (such as the University's UNICARE plan) as the primary plan for paying medical expenses resulting from an automobile accident and, in doing so, to receive a small decrease in the automobile insurance premium. This reduction in premium is very minimal normally and will vary from policy to policy and from company to company. Your automobile insurance agent can provide actual figures to you.

To qualify for this discount, the group medical plan must be a qualified plan within the meaning of the legislation. The University has contacted its insurance company, its Insurance consultant, and the Pennsylvania Insurance Department seeking answers to specific questions. None of these sources has provided definite answers to our questions. Therefore, the University cannot recommend that employees exercise the discount option which would designate UNICARE as the primary plan. This is not to say that the University's plan doesn't qualify. It simply means that since the University is unable to get definitive answers, it cannot make a positive recommendation.

Another "no-fault" premium discount is available to motorists who are covered by a disability income plan (such as the University's sick leave plan) and who elect to have that plan be primary when an accident results in an absence from work and resultant loss of income. It appears that a University employee may claim that discount if his or her sick leave allowance is (and will continue to be) sufficient to continue salary for at least 90 consecutive days (approximately 64 workdays).

The Employees Benefits Division will attempt to answer questions about the University's benefits plans as they may relate to "no-fault" automobile insurance. The personnel in Employee Benefits are not available, however, to influence or advise employees on any other aspect of the new legislation. That responsibility remains with each employee in consultation with his or her own automobile insurance agent.

Ridge, McGrew, Margaret Hager retire

Dr. John D. Ridge, head of the department of mineral economics, has retired as professor emeritus of economic geology and mineral economics after serving on the faculty for 28 years. On July 1, he became adjunct professor of geology at the University of Florida, Gainesville, Fla. Dr. Ridge holds three degrees in geology from the University of Chicago. Prior to serving in World War II for four years, he worked as a petrographer for the U.S. Steel Corp. and the National Park Service, and as a geologist for the Pasco Copper Corp. Leaving the Army with the rank of lieutenant colonel in 1945, he worked as a geologist with the New Jersey Zinc Co. before joining the Penn State staff as associate professor of economic geology in 1947.

In 1951, he was named chief of the division of mineral economics, which later became the Department of Mineral Economics, and was given the title of associate professor of mineral economics. In 1953, he was advanced to professor and named assistant dean for resident instruction in the then College of Mineral Industries, while continuing to serve as department head.

In 1964, he relinquished the post of assistant dean and became professor of economic geology and mineral economics as well as continuing as head of the department.

The author of a variety of publications, he was also active in a number of professional organizations and served as vice president and an organizer of the International Association on the Genesis of Ore Deposits. He is a Fellow of the Geological Society of America and the Mineralogical Society of America. In 1972 he received the Mineral Economics Award of the American Institute of Mining, Metallurgical and Petroleum Engineers, in which he was most active.

Margaret W. Hager, assistant professor of clothing and textiles in the College of Human Development, has retired, effective July 1. A graduate of the University of Wisconsin with a bachelor of science degree in clothing and textiles, she taught clothing and related subjects at Huntington College, Montgomery, Ala., from 1950 to 1954. She received her master's of science degree in clothing and textiles from Penn State in 1962 and served as part-time instructor until her appointment as assistant professor in 1966.

Miriam E. McGrew, home related arts specialist and associate professor of home management extension, retired June 30 with 23 years service to the University. Miss McGrew has been with the Extension Service at Penn State since 1963 but from 1950 to 1962 she taught in the College of Home Economics, now the College of Human Development. A native of Nebraska, she received a bachelor of arts degree from Peru State College, Peru, Nebraska, and a master of arts degree from Colorado State College, Greeley, Colorado. She has also done post graduate study at the University of Nebraska, Lincoln; University of Colorado, Boulder; and Penn State. She began her teaching career in the Dunbar, Nebraska public schools. Later she taught art in the public schools of Lincoln, Nebraska, and the Hockaday School for Girls, Dallas, Texas. She also taught crafts at the Art Center, Des Moines, Iowa. She has taught art education at the University of Nebraska and Portland State College, Portland, Oregon, and home related art at West Virginia University. In Home Economics here, she taught design, crafts, flower arrangement and furniture design. She acted as building chairman during the building and renovation of the home economics building. She was acting chairman of the home related arts section for one semester.

Calendar—July 10-20, 1975

SPECIAL EVENTS

Friday, July 11 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Sunday, July 11-13, Tuesday-Sunday, July 15-20 — Penn State Festival Theatre, "Wonderful Town," Playhouse Theatre, Friday-Saturday at 8 p.m., Sunday at 7:30 p.m.

Sunday, July 13 — Black Christian Fellowship—worship service, 11:15 a.m., Eisenhower Chapel.

Sunday, July 13 — Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (ballroom in case of rain).

Thursday, July 17 — Central Pennsylvania Festival of the Arts, Sonata Recital, Raymond Page and Phyllis Triolo, 4 p.m., Schwab.

Thursday, July 17 — Central Pennsylvania Festival of the Arts, Rockview Men's Glee Club, 7 p.m., Schwab.

Thursday, July 17 — Central Pennsylvania Festival of the Arts, State College Music Guild and State College Choral Society, 8 p.m., Music Bldg., recital hall.

Thursday-Sunday, July 17-20 — Central Pennsylvania Festival of the Arts side talk and presentation, Room 101 Kern, Thursday-Friday at 7 p.m., Saturday-Sunday at 2 p.m.

Friday-Sunday, July 18-20 — Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," Pavilion Theatre, Friday-Saturday, 8 p.m., Sunday, 7:30 p.m.

Friday, July 18 — Central Pennsylvania Festival of the Arts, Will Stults in "An Evening with Mark Twain," 8 p.m., Schwab.

Saturday, July 19 — Central Pennsylvania Festival of the Arts, Contemporary Dance Company Concert 1 and 7 p.m., Schwab.

Saturday, July 19 — Central Pennsylvania Festival of the Arts the Choral Society of Central Pennsylvania and the State College Symphony Orchestra, 8 p.m., Music Bldg., recital hall.

Sunday, July 20 — Central Pennsylvania Festival of the Arts, concert by Barbara Sonies, accompanied by Elizabeth Keller, 8 p.m., Music Bldg., recital hall.

News in brief

SUBMARINE TOUR

Free-U is organizing a trip to New London, Conn., for the purpose of seeing one of the U.S. Navy's nuclear submarines. The group would leave University Park Sunday, July 27 about 5 p.m., camp or find accommodations near New London, and tour the submarine base and the boat itself July 28. In the air, the tour lasts eight hours, and lunch would be obtained at the base cafeteria. The return trip would be made that evening. A meeting to provide additional details will be held Wednesday, July 16, at 7:30 p.m. in Room 60 Willard Bldg. The current plan is to charge passengers in the car only for the gasoline. Cars and drivers are needed also at present.

CHAMBERS EXHIBITS

Drawings, collages, jewelry and Columbian artifacts are currently on display in the Chambers Gallery, to remain until July 24. A future candidate in art education, now living in New York, Richard Hamwi, is displaying pen and ink drawings and paper collages dealing with serial imagery. Also, jewelers Bonnie Deutsch, Betsy Suhey, and Leslye Bloom are exhibiting their most recent works. The Columbian artifacts in the exhibit are from the collections of several members of the art education faculty.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Extension Division 865-5987 (network Line 478-1387). Do not contact the area having the vacancies. Applications will be accepted until 5 p.m.:

THURSDAY, JULY 17, 1975
ASSOCIATE HEALTH PHYSICIST, INTERCOLLEGE RESEARCH PROGRAMS — University Park
Responsible for conducting the radiation safety program. Outlines include the performance of applied radiation safety tasks such as radiation and contamination surveys, instrument calibration, doseometry, bioassay, radioactive waste management, disposal, and record keeping. Master's degree or its equivalent in radiological health, health physics, public health with a major in health physics or radiological science, plus one to two years related experience. Bachelor's degree in chemistry or physics preferred.

The University is an Equal Opportunity Employer.

LECTURES

Thursday, July 10 — Department of Meteorology, a debate on the proposition: "Meteorology Has Reached Its Useful Limit," between Dr. Richard S. Scorer, professor of theoretical mechanics, Imperial College, University of London, and Dr. C. L. Hosler, dean of the College of Earth and Mineral Sciences. Dr. A. K. Blackadar, head of the Department of Meteorology, will serve as moderator, 9:35 a.m., Room 22 Delke.

Friday, July 11 — Department of Meteorology, Dr. Richard S. Scorer, professor of theoretical mechanics, Imperial College of Science and Technology, University of London, on "Hazards to the Atmosphere — Are They Real?" 2:20 p.m., Room 21 Delke.

Wednesday, July 16 — College of Education, Henry Hermonowicz on "The Social Ecology of Education," 11:10 a.m., Room 112 Kern.

Thursday, July 17 — College of Education, Dr. Richard S. Scorer, professor of theoretical mechanics, Imperial College Schools, 2:20 p.m., Room 112 Kern.

Friday, July 18 — Department of Sociology, Governor Shapp, 1:30 p.m., Room 112 Kern.

OFFICIAL

Thursday, July 10 — Tuesday, July 22 — Drop period for six week Summer Term.

Friday, July 18 — Tuesday, July 22 — File for Pass/Fail Option for six week Summer Term.

EXHIBITS

Museum of Art — Linda Plotkin, "Bellonci Collage: Evocation of Print." Gallery A. Twenty paintings on wood panels from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Central Pennsylvania Festival of the Arts Crafts Exhibition, Gallery B. Kern Gallery — Central Pennsylvania Festival of the Arts Juried Art Exhibition, Emerson and Roslyn Horace, Navajo and Hopi Indian jewelry. Functional and non-functional ceramics by Jean Stevens-Soliman and Toshiko Fukuyama. Zoller Gallery — Central Pennsylvania Festival of the Arts Invitational Art Exhibition, opening July 10.

Chambers Gallery — Betsy Suhey and Virginia Kopacz, metalwork, and jewelry.

HUB Gallery — Central Pennsylvania Festival of the Arts children's art and young adults' arts and crafts.

Hammond Gallery — Central Pennsylvania Festival of the Arts young adults folk crafts and poetry composition.

Pattee Library — Central Pennsylvania Festival of the Arts, Arts and Religion.

Films

Wednesday, July 16 — Commonsplace Theatre, "The Fearless Vampire Killers," 7:30 and 9:30 p.m., Room 112 Kern.
Thursday-Sunday, July 17-20 — ARHS film, "Take the Money and Run," 8 and 10 p.m., Findlay Rec Room.

FILM SCHEDULE FOR CENTRAL PENNSYLVANIA FESTIVAL OF THE ARTS

THURSDAY, JULY 17
7:00 p.m. — "SALT OF THE EARTH," EMS Auditorium.
9:30 p.m. — 5 SHORT FILMS + "CAT BALLOU," Old Main Lawn (in case of rain: Schwab Auditorium).
FRIDAY, JULY 18
4:00 p.m. — "FILMS AS ART program," 209 Human Development.
7:00 p.m. — "BED AND SOFA" + "ANTONIA," EMS Auditorium.
9:30 p.m. — 6 SHORT FILMS + "HIS GIRL FRIDAY," Old Main Lawn (in case of rain: Schwab Auditorium).
SATURDAY, JULY 19
1:00 p.m. — "THE PRODUCERS," EMS Auditorium.
4:00 p.m. — "THE KNACK," EMS Auditorium.
7:00 p.m. — "NO LIES" + "A FREE WOMAN," EMS Auditorium.
9:30 p.m. — 3 SHORT FILMS + "HIS GREAT RACE," Old Main Lawn (in case of rain: Schwab Auditorium).
SUNDAY, JULY 20
1:00 p.m. — "LA BELLE AMERICAIN," EMS Auditorium.
4:00 p.m. — "YESTERDAY, TODAY, AND TOMORROW," EMS Auditorium.
7:00 p.m. — "SALT OF THE EARTH," EMS Auditorium.
9:30 p.m. — 4 SHORT FILMS ON FILM-MAKING + "SINGING IN THE RAIN," Old Main Lawn (in case of rain: Schwab Auditorium).

Honors

Waller L. Baker, associate professor of engineering research in the Applied Research Laboratory at the University, has been presented the Navy Meritorious Public Service Citation for his work on a weapon system for the Navy. He was cited "for exceptional and meritorious personal contributions to the development of the Torpedo Mark 48 Weapon System." By his invaluable technical contributions to the development of the most advanced and effective anti-submarine torpedo in existence today, Mr. Baker has immeasurably contributed to the readiness of the United States Force and the security of the United States," the citation read. "His outstanding technical leadership, judgment and devotion to torpedo development have been exemplary, and are in keeping with the highest traditions of the Navy."

Dr. Herberta W. Lundegren, professor of physical education, has been installed as president of the Eastern Association for Physical Education of College Women, for 1975-76. This is one of five regional branches of the National Association for Physical Education of College Women. Dr. Lundegren has been a member of the faculty since 1960.

Frank W. Peikert, professor and head of the department of agricultural engineering, has received the 1975 Massey-Ferguson Educational Award which is presented annually by the American Society of Agricultural Engineers to honor those whose dedication to the spirit of learning and teaching in the field of agricultural engineering has advanced agricultural knowledge and practice. He joined the A.S.A.E. in 1939 and was elected a Fellow in 1955.

Dr. Floyd W. Hicks, professor and chairman of poultry science extension, received the Pennsylvania Poultry Federation's 1975 Allied Industryman of the Year Award at the federation's recent annual meeting in Gettysburg. The honor is based on leadership and dedication to the nation's fourth largest poultry industry, and results from a variety of programs Dr. Hicks has been involved in during his 12 years on the staff.

Faculty notes

Dr. Alfred R. Bobrowsky, senior research associate in the Materials Research Laboratory about whose Chinese cookbook display in Pattee Library INTERCOM of June 26 reported, is currently teaching a five week course, "Cooking and Eating Chinese Food for American Meals (Ladies Welcome)" at Bucknell University. In a class of 17, of faculty members and wives as well as some undergraduates, he is lecturing and demonstrating a variety of menus of Oriental origin at The Scullery student union building. One laboratory experience will include an excursion to New York City, to benefit from the skills of one of the city's most famous Chinese restaurants.

Dr. Raymond W. Regan, assistant professor of civil engineering, will give a paper at an international conference in Copenhagen, Denmark, Aug. 18-22, on "Nitrogen Oxidation and Removal Rates Using Activated Algae," based on research on activated algae he has conducted, as well as a special investigation he will conduct at the University of Kansas. He leaves tomorrow (July 11) to conduct the study on the use of activated algae to upgrade the operation of a stabilization pond to advanced wastewater treatment levels.

CHILDREN'S

(Continued from page one)

Classes to be offered are Creative Arts for Children, ages 6 to 7; Drawing and Painting for Children, ages 8 to 12; and Arts and Crafts for children, ages 8 to 12.

All classes will be held in the studio laboratories of the Department of Art Education in Chambers Bldg., and will be coordinated with the Art festivals, galleries, exhibitions, Museum of Art exhibitions, and arts at the University during this summer.

Classes are instructed by advanced art education majors and are supervised by Dr. Barbara J. Hodik, of the Department of Art Education.

Registration for these classes, which are limited in enrollment, can be made by calling the Department of Art Education (865-6570) from 9 a.m. to 5 p.m. any time until Friday, July 18. No registrations can be accepted after July 18.

PENN STATE intercom

Volume 4, Number 44

July 17, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Award won by faculty planning team

A Penn State faculty team has won an award in an international planning competition sponsored by the Portuguese Ministry of Public Works with the sanctioning of the International Union of Architects.

Members of the team, one of just two American teams to place, are Wladyslaw Strumillo, associate professor of architecture, Daniel Jones, assistant professor of landscape architecture, and Dr. Eugene Bajan, assistant professor of environmental planning in the Department of Man-Environment Relations. Consultants were, for agriculture, Dr. Robert Cunningham, associate professor of soil genesis and geomorphology in the Department of Agronomy, and, for technology, Dr. Louis Summers, associate professor of architectural engineering.

The Penn State proposal, which won a cash award of 53,000 Portuguese escudos, was among few entries not originating with a professional design studio.

Entrants were requested to submit a program of ideas and a physical master plan for development of Porto Santo Island and the Madeira Archipelago in the Atlantic Ocean. The plan included ecological and agricultural restoration, with efforts to provide for tourism while improving the standard of living for the native population of some 4000.

Among jurors for the competition were architects and engineers from Poland, Portugal, Great Britain, Spain, and the

United States. Along with the University group, winners included teams from The Netherlands, England, Sweden, Denmark, and Australia.

The jury commended the Penn State entry for presenting a variety of ideas for the development of the island in a systematic and clear manner, a deep concern for native/tourist co-existence, and the granting of priority to self-sufficiency.

Center gets contract

The Center for the Study of Environmental Policy at the University has been awarded a \$24,000 contract from the Governor's Energy Council for the investigation of resource recovery processes in the Capitol Complex of buildings.

Co-principal investigators are Dr. Stuart H. Mann, associate professor of operations research, and Dr. Craig R. Humphrey, assistant professor of sociology. Assisting in the six-month study are Glenn R. Harris and Deborah M. Kaplan, graduate and undergraduate student, respectively, in the Division of Man-Environment Relations, and Timothy Jewell, graduate student in sociology.

Objective of the study is to determine whether or not a resource recovery system should be established in the Capitol Complex. A cost-benefit analysis of alternative resource recovery systems, including both material and energy recovery systems, will be completed.

MRL gets study contract from Congress

The Office of Technology Assessment of the U.S. Congress has awarded a contract to the Materials Research Laboratory to conduct a study of the nature and potential utilization of a National Materials Information System in Congressional decisions on Research and Development.

The study is to be conducted by Dr. Huston Roy, director of the laboratory, and G. G. Johnson, associate professor of computer science. Dr. Roy serves on the National Materials Advisory Board of

the National Academy of Sciences and on the Advisory Committee to the Division of Materials Research of the National Science Foundation, and Prof. Johnson serves on the WDATA committee of the National Data Board of the National Academy of Sciences. The Office of Technology Assessment is the new arm of the Congress chartered to provide studies on various aspects of national policies in the area of science and technology.

President replies to tuition exemption criticism

Responding to comments of Rep. William R. Shane (D.—Indiana) quoted in newspapers earlier this week President John W. Oswald yesterday took strong objection to Mr. Shane's criticism of tuition reduction benefits for Penn State employees.

President Oswald pointed out that programs for partial reduction of tuition for University employees and their dependents have been in effect at Penn State and other colleges and universities for many years and for good reasons. He emphasized the following:

1. Tuition benefits for University employees and their dependents are part of an overall compensation package and have historically enabled Penn State and other universities to attract and retain well-qualified employees in all categories. This, in turn, has had a direct bearing on the quality of the University and the quality of the service it is able to render to the Commonwealth.

2. Legal as well as moral implications must be considered in any change in these tuition benefit policies. They represent a commitment to current employees and are a significant part of employee financial planning for the future. Any precipitous change in this fringe benefit to employees could involve the University and the Common-

wealth in potential breach of contract litigation.

3. The benefits of the University tuition reduction policies are available to all classes of fulltime employees, not just faculty members as is frequently implied. Indeed, the majority of those benefiting from this program are not faculty members but clerical, technical service, and staff employees.

4. The tuition benefits policy is but one part of a total University compensation plan and cannot be dealt with in isolation.

5. Programs providing educational benefits to employees are available to agencies of state government as well as business and industry, and are intended not only as a fringe benefit but as part of an overall effort to upgrade and maintain the qualifications of employees.

"Questions regarding University policies of tuition reduction were never raised during the time of our hearings before the Appropriations Committees of the House of Representatives, including Mr. Shane, and the Senate," President Oswald said. "It is critical that Penn State and other colleges and universities be given the opportunity to resolve this matter with the pertinent legislative committees during the coming year."

Tuition amendment may be unconstitutional

Concern has been expressed by many University faculty about an amendment passed last week by the House of Representatives to Senate Bill 362 which would end fringe benefits of reduced tuition for University employees by September, 1976, at the State Colleges and the Commonwealth Universities, including Penn State.

In a letter sent on Friday to University administrative officers for dissemination to faculty, staff, and other employees, President Oswald explained that the original bill, which is not related to Penn State or to higher education, is one which would amend the Administrative Code of 1929, increasing

the membership of the Industrial Board in the Department of Labor and Industry. "The tuition amendment," he said, "is believed by many to be of dubious constitutionality since it is not relevant to the intent of the original bill. A previous attempt to include such a provision in the General Appropriation Bill of the Commonwealth failed in June of this year."

Leaders in the State Senate, including State Senator Joseph S. Ammerman, of Centre and Clearfield counties, have stated their opposition to the House amendment and have indicated their belief that the Senate will not approve the amendment.

Calendar—July 17-27, 1975

SPECIAL EVENTS

Thursday-Sunday, July 17-20 — Penn State Festival Theatre, "Wonderful Town," Playhouse Theatre, Thursday-Saturday at 8 p.m., Saturday also at 2 p.m., Sunday at 7 p.m.

Thursday, July 17 — Central Pennsylvania Festival of the Arts, Sonata Recital, Raymond Page and Phyllis Tricla, 4 p.m., Schwb.

Thursday, July 17 — Central Pennsylvania Festival of the Arts, Rockview Men's Glee Club, 7 p.m., Schwb.

Thursday, July 17 — Central Pennsylvania Festival of the Arts, State College Music Guild and State College Choral Society, 8 p.m., Music Bldg., recital hall.

Thursday-Sunday, July 17-20 — Central Pennsylvania Festival of the Arts, slide talk and presentation, Room 101 Kern, Thursday-Friday at 7 p.m., Saturday, Sunday at 2 p.m.

Friday-Sunday, July 18-20 — Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," Pavilion Theatre, Friday-Saturday, 8 p.m., Sunday, 7:30 p.m.

Friday, July 18 — Central Pennsylvania Festival of the Arts, Will Sluts in "An Evening with Mark Twain," 8 p.m., Schwb.

Friday, July 18 — Children's play for Central Penna. Festival of the Arts 11 a.m., Room 112 Kern. Also Saturday at 2 p.m. and Sunday at 1 p.m.

Saturday, July 19 — Central Penna. Festival of the Arts Fiddlers Competition, 1 p.m., Old Main lawn; in case of rain, HUB ballroom.

Saturday, July 19 — Central Pennsylvania Festival of the Arts, Contemporary Dance Company Concert, 1 and 7 p.m., Schwb.

Saturday, July 19 — Central Pennsylvania Festival of the Arts, The Choral Society of Central Pennsylvania and the State College Symphony Orchestra, 8 p.m., Music Bldg., recital hall.

Sunday, July 20 — Central Pennsylvania Festival of the Arts, concert by Barbara Sonies, accompanied by Elizabeth Keller, 8 p.m., Music Bldg., recital hall.

Sunday, July 20 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

Tuesday-Saturday, July 22-26 — Penn State Festival Theatre, "You Know I Can't Hear You When the Water's Running," 8 p.m., Pavilion Theatre.

Friday, July 25 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Sunday, July 27 — Public opening reception for Nittany Mountain Summer and the "Five Pennsylvania Painters" Exhibit, 3-5 p.m., Museum of Art.

Sunday, July 27 — Interlaria Folk Dance Club, 7:30 p.m., HUB terrace (in case of rain, ballroom).

OFFICIAL

Friday-Tuesday, July 18-22 — File for Pass/Fail Option for six week summer term.

Tuesday, July 22 — Deadline for filing Course Repeat and Course Drops for six-week summer term.

LECTURES

Thursday, July 17 — Slide talk and presentation by L. P. Greenhill for the Central Penna. Festival of the Arts, 7 p.m., Room 101 Kern. Also Friday at 7 p.m., and Saturday and Sunday at 2 p.m., same place.

Tuesday, July 22 — College of Education, Jane Singh on "Equality issues in Children's Literature," 12:45 p.m., Room 112 Kern.

Wednesday, July 23 — College of Education, Dale Harris, psychology and human development, on "The Place of Fantasy in Psychological Development," 7:30 p.m., Room 112 Kern.

Thursday, July 24 — College of Education, David Carter on "The Courts and the Schools," 3:55 p.m., Room 112 Kern.

FILMS

Thursday-Sunday, July 17-20 — ARHS film, "Take the Money and Run," 8 and 10 p.m., Findlay Rec Room.

Tuesday, July 22 — Commonsplace Theatre, "Alone Circus," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday-Sunday, July 24-27 — ARHS film, "Play It Again, Sam," 8 and 10 p.m., Findlay Rec Room.

Thursday-Sunday, July 24-27 — PSORML film, "Fantastic Planet," animated cartoon, 8:00 p.m., Room 105 Forum.

EXHIBITS

Museum of Art — Linda Plotkin, "Bellefonte Courthouse: Evolution of a Print," Gallery A. Twenty paintings on wood panels from Allenston Museum of Art Samuel H. Kress Collection, Gallery C. Selections from the Permanent Collection, Gallery C. Pennsylvania Festival of the Arts Juried Crafts Exhibition, Gallery A, until July 20.

Zoller Gallery — Central Pennsylvania Festival of the Arts Invitational Art Exhibition. Chambers Gallery — Betsy Suhey and Virginia Kopacz, metal work and jewelry, until July 24.

Kern Gallery — Central Pennsylvania Festival of the Arts Juried Art Exhibition, until July 20. Emerson and Roslyn Horace, Navajo and Hopi Indian jewelry. Functional and non-functional ceramics by Jean Stevens-Solomon and Toshiko Fukuyama. Ernest Beinart, photography, opening July 22.

Kilgus Gallery — Central Pennsylvania Festival of the Arts exhibition of children's art and young adults' arts and crafts.

Hammond Gallery — Central Pennsylvania Festival of the Arts young adults folk crafts and poetry competition, until July 20.

Pattie Library — Central Pennsylvania Festival of the Arts, Arts and Religion.

Deaths

Dr. Raymond W. Swill, who served on the faculty from 1923 until retirement in 1960 and who was head of the department of animal nutrition for 14 years, died July 11. He was 80. Widely known for his work in the field of nutrition and senior author of a textbook on energy metabolism and nutrition, he was a Fellow of the American Institute of Nutrition. A graduate of Massachusetts State University, he received an M.S. from Penn State and a Ph.D. from the University of Rochester. He was born at East Longmeadow, Mass., June 12, 1895. Memorial gifts may be made to the American Cancer Society.

Dr. Joseph T. Sullivan, who retired in 1969 as director of the U.S. Regional Pasture Research Laboratory based on campus and was professor of biochemistry, died July 3 at the age of 75. He had been with the U.S. Dept. of Agriculture for 32 years until his retirement and previously held positions with Boyce Thompson Institute and the Indiana Agricultural Experiment Station. A 1922 graduate of the University of Massachusetts with a B.S. in chemistry, he received an M.S. degree in 1924 from the University of New Hampshire and a Ph.D. in biochemistry from Purdue University in 1935.

In writing

A book, "Deformation of Ceramic Materials," edited by **Dr. Richard C. Bradt**, professor of ceramic science, and **Dr. Richard E. Tressler**, assistant professor of ceramic science, has just been published by Plenum Publishing Co. The book comprises the proceedings of an international conference held at Penn State last year. The conference focused on the basic phenomena pertinent to physical and chemical processes involved in deformation mechanisms in ceramic materials. The book includes chapters on single crystal studies, polycrystalline materials, and many oxide and non-oxide ceramics such as refractories, glass, glass-ceramics, carbides, and nitrides. Also included in the volume is a comprehensive series of articles on deformation processing including ferrite texturing, superplastic ceramics, and the strengthening of alkali halide laser windows.

Dr. Gordon Golany, professor of urban and regional planning and chairman of the graduate program in the Department of Architecture, is the editor of a new book dealing with all aspects of urban planning, including land use, development, financing, and legislation. The 293-page "Strategy for New Community Development in the United States" contains twelve essays by leading authorities in the new towns movement across the country. Dr. Golany has contributed two essays to the collection. The volume is an outgrowth of the inter-disciplinary seminar on new community development held annually at Penn State and is intended to analyze the many dimensions of new town planning. Also contained in the book is an extensive selective bibliography on the subject with some 1,000 entries compiled by Dr. Golany. The new text is published by Dowden, Hutchinson, and Ross, Inc., and distributed by Halsted Press.

Dr. Robert D. Arbuckle, associate director for academic affairs at New Kensington Campus, analyzes the career of one of the nation's most enthusiastic land speculators in a recent book published by the University Press. It is titled "Pennsylvania Speculator and Patriot: The Entrepreneurial John Nicholson 1757-1800." Although he died in a debtor's prison, Nicholson at one time controlled more than four million acres of Pennsylvania land. He helped to establish the Capital, in Washington, D.C., and built many of the early houses and manufacturing enterprises there. In addition to his speculative ventures, Nicholson was a controversial comptroller-general of Pennsylvania, helping to stabilize the State's fiscal position after the Revolution. Some space in the book is given to Nicholson's partner, Robert Morris, "the financier of the American Revolution," who also died in debtor's prison.

Dr. Patricia A. Ward, associate professor of French and comparative literature, is the author of "The Medievalism of Victor Hugo," which is part of the Penn State Studies series published by the University Press. Focusing on medieval elements in Hugo's language and style, Dr. Ward resolves the apparent contradiction between Hugo's participation in the Romantic medieval revival and his dislike of medieval institutions. Hugo's works and values are examined developmentally in a history of ideas framework.

Like other 19th century Romantics, Hugo felt at odds with the established order of his world, and his participation in the medieval revival of the 1820s and 1830s illustrates his desire for social reform as well as his relations to contemporary society. Hugo's attitude toward the Middle Ages became increasingly ambivalent, and medieval elements in his works were used to highlight the theme that the dark feudal past must give way to a golden future.

Medical experimentation on prisoners may result more from economic than social or moral factors, according to **Dr. Peter B. Meyer**, assistant professor of economic planning.

In "Medical Experimentation on Prisoners," a monograph published by the Correctional Economics Center of the American Bar Association, Dr. Meyer explores the issues of prisoner exploitation and adequate safeguards and subjects to economic analysis claims that an inexpensive, homogeneous pool of prisoner-subjects is necessary to hold costs of pharmaceutical experimentation to reasonable levels.

Dr. Meyer's study finds that prisoners, by virtue of their incarceration, are willing to participate in experiments and incur risks at rates in excess of five times the voluntarism exhibited by free persons, and will submit to such risks at rates of pay as low as one-tenth what nonprisoners demand.

The constraints under which prisoners exist, as well as the correctional institution's execution of its obligations to feed, clothe and house its inmates, combine to provide a subsidy in lowered costs of experimentation to pharmaceutical companies and other outside experimenters which is estimated to be a minimum of \$26.05 per subject-day at current costs.

Honors

Dr. Guy E. Rindone, professor and chairman of the ceramic science section in the Department of Material Sciences, has been elected a Fellow of the Society of Glass Technology, which, based in Sheffield, England, has membership from more than 50 nations and is recognized as the leading glass technology organization in the world.

The American Council of Learned Societies has awarded a grant of \$9,320 to **Dr. Alex Simirencu**, professor of sociology, for a research project on ethnic identity in inter-ethnic marriage. The study will focus on individuals who are products of ethnically mixed families and are, therefore, confronted with various combinations of ethnic identity. While there have been some studies of what happens to children of religiously mixed marriages, the social process at work in the inter-ethnic marriage is still largely unknown. The grant reflects the growing interest of scholars in social change among American ethnic groups.

Promotions

Dr. William A. Decker has been promoted to assistant professor of psychosocial science and psychology, Capitol Campus.

Dr. Lemuel Molovsky has been promoted to assistant professor of American studies and history, Capitol Campus.

Vol. 4, No. 44 is a weekly publication for the academic community at Pennsylvania State University, published each Thursday when classes are in session. General information for the time of publication should be sent to the editor by Thursday of the week preceding publication date, Room 212 Old Main. Editor: W. F. Ackerman Phone 865-7517

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Network Line 475-1887). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

JULY 24, 1975

Therapeutic Dietitian — Hershey Medical Center

Responsible to the Patient Nutritional Care Coordinator for maintenance of the nutritional status of patients by interpreting diet prescriptions, individualizing menu plans, evaluating food consumed and counseling in the application of the principles of nutrition to the selection of food. Bachelor of Science degree or equivalent in Foods and Nutrition or related field, preferable an ADA membership. Over one and up to two years of related experience.

Associate Hospital Administrator — Hershey Medical Center

Responsible to the Hospital Administrator of the Teaching Hospital of the Hershey Medical Center for the administration, implementation and coordination of various departments of the Teaching Hospital, particularly in the areas of medical, nursing, and other health services and various programs as assigned. Master's degree in

Funding Opportunities

For procedural and funding source information, call 865-1372.

JULY 17, 1975

(184-5) The OHEW Social and Rehabilitation Service supports public assistance research to discover, test, demonstrate, and promote utilization of new social service concepts.

Grants will be used to develop and test innovative and vulnerable populations such as the poor, the aged, children and youth. Project grants and research grants are supported. Unsolicited applications may be submitted at any time. Grants and contracts have ranged from \$10,000 to \$300,000. Individual project grants average about \$65,000 a year. (HR 4532)

(187-1) The Office of Education has issued proposed rules for the new Special Projects Act. Priority programs of grants and contracts will include: the metric education program, program of education for gifted and talented children, community education, career education, consumer education, women's educational equity, and arts education program. Discretionary funds will be used for contract research and testing of disadvantaged children of limited English-speaking ability, educational television programming, and career education. (HR 40872035-38, 6/25/75)

(187-2) The Office of Education has issued proposed criteria for the Arts Education Program. In addition to local education agency applications, the education agency may request supplemental and technical assistance to local education agencies. This information has been distributed. (HR 4087486-91, 6/30/75)

(187-3) The Office of Health Service (PHS) has issued rules and regulations for its Minority Biomedical Support (MBS) Program. An eligible institution must have a student enrollment with a disproportionate percentage of minority students (but not necessarily more than 50%) and must have a demonstrated commitment to ethnic minority faculty and students. This information has been distributed. (HR 40872561-62, 5/30/75)

(187-4) Head Start Program Performance Standards have been issued by the OHEW Office of Human Development. Included are education, health, social services, and parent involvement objectives. This information has been distributed. (HR 40872561-62, 5/30/75)

(187-5) The National Endowment for the Arts encourages early application under the Fellowships for Creative Writers program. (FY1976). Fellowships are for published writers of exceptional talent enabling them to set aside time for writing, research, and travel to advance their careers. Fellowships may be \$10,000, \$15,000, or \$20,000, marked by Sept. 1, 1975. Awards will be announced by May 1976. Guidelines are available. (The NEA Literature Program, Guidelines . . . FY1976)

(187-6) Funding opportunity resource information for research, instruction, and continuing education projects is available through R. Kohler, Resource Information Service, at 865-1372. Resource information covers Federal and State agencies, foundations, associations, and industry. Some of this information is released through this column, but more is available including a searching process to determine funding sources for project ideas. Agency contact information is also available. (For more information on the proposal process, call the above number for more information. (HR 1757-133, 1246, 1184, 1095, 80-3, 79-2).

(187-7) The Gerald Marshall Fund of the U.S. Dept. of State (Washington, D.C. 20505) invites applications for post-doctoral fellowships on contemporary and emerging problems connected to industrial societies, particularly their comparative political, social, and economic aspects involving U.S. and European interests. There is special interest in urban affairs, employment, conditions of work, land use, economic development, media, justice/crime prevention, comparative social policies. Application deadline is Nov. 1, 1975. Policy is to supplement sabbatical benefits up to normal salary. Fellowships for up to one year of research. Travel funds including travel costs by jet-coach for accompanying spouse and children are appropriate. For further information and application forms write to the address given above. (HR 75-10) (133-6).

Health Care Administration, or its equivalent, with four to seven years related experience as Assistant Hospital Administrator.

ROCKSTONE MANAGER Delaware County Campus

Responsible for purchasing, merchandising, inventory control, financial, and retail operation of the retail Rockstone Associates. Degree or equivalent with three to four years of related experience.

MAINTENANCE FOREMAN — Hazelton Campus
Responsible to the Business Manager for planning, scheduling, and supervising maintenance, repair, and up-keep activities of the Hazelton Campus physical plant and facilities. Supervise staff of maintenance workers. Associate in the performance of their assigned duties. High School diploma or equivalent with two years of trades training. Experience in maintenance of physical plant, building and grounds maintenance and construction. Supervisory experience highly desirable.

COUNSELOR (CAREER DEVELOPMENT AND PLACEMENT) — Beaver Campus

Responsible to the Dean of Student Affairs, to individual and group counseling, focusing primarily on educational/vocational concerns. Assist in career counseling and orientation. Provide consultation to other members of the staff, to campus and community. A Master's degree in Counselor Education or related field, with a minimum of two years of applicable professional experience.

(188-1) The Energy Research and Development Administration (ERDA) has issued rules and regulations for special methods of procurement. Procedure for program opportunity notices and unsolicited proposals for commercial development of energy resources are described. This information has been distributed. (HR 40872068-70, 7/3/75)

(188-2) OHEW rules and regulations will become effective August 6, 1975. Rules on discrimination in health-related training programs. The regulations have been distributed. (HR 40872871-76, 7/7/75)

(188-3) A Joint Canadian-U.S. Communications Technology Satellite (CTS) to be launched Dec. 1975 will be available for experimental application of communications problems. The National Library of Medicine (NLM) will receive one week per health-related applications, including education, communicating research results, teleconferencing, and professional consultation. Solicited health-related applications will be solicited with a July 31, 1975 deadline. . . NLM is also currently accepting Medical Library Resource Grants. (NLM Information Contact, Div. of Biomedical Information Support, Extramural Programs, NLM, 8600 Rockville Pike, Bethesda, MD 20814 (301-466-6221) (HR NIH Guide, Vol. 4, No. 6, 7/3/75)

(188-4) Proposed rules for grants to state educational agencies for programs to meet the special educational needs of migrating children has been issued by the Office of Education (OE). Rules include responsibilities, amounts available, and program requirements. This information has been distributed. (HR 40872062-28, 7/7/75)

(188-5) The Health Services Administration (HSA) has issued a statement of organization and function for the HSA Office of Child Development including the Head Start and Children's Bureau. This information has been distributed. (HR 40872657-59 7/8/75)

(188-6) Sept. 30, 1975 is the deadline date for "study fellowships" and "grants-in-aid for non-maternal research" of the American Council on Learned Societies (ACLS). Grants-in-aid will not exceed \$12,000 and are normally for 10 to 15 weeks under 36, who have taught two or three years after graduation. The purpose is to provide aid to students of humanities disciplines from the faculty member's present specialization. Grants-in-aid up to support significant humanistic research. Study fellowships will exceed \$3,000. (ACLS contact is Ms. Helen Goldsmith, Office of Fellowships and Grants, ACLS, 345 E. 46th St., New York 10017 (212-966-7333) (HR OEP deadline)

(188-7) Cooperative research and grant applications in social security provide financial support for research in income maintenance and health insurance. There are several suggestions for research under both programs. The deadline date is Sept. 10, 1975. The program contact is: Dr. Henry Brem, Chief, Research Grants Staff, Office of Research and Statistics, Social Security Administration, 400 North Capitol Street, LSHOE, P.O. Box 2361, Baltimore, Md. 21203 (301-594-0474).

(188-8) In its resolution on peer review information the National Science Foundation used two procedures: (1) an annual list of reviewers used by each Division, and (2) the availability of reviewer comments at the discretion of the Division. Unchanged are the procedures of broad representative participation of qualified reviewers and provision of reasons for the decision on proposals. (For NSF Important Notice No. 36, 6/20/75).

(188-9) Technological innovation in education (TIE) is supported by the National Science Foundation. Descriptive of innovative computer and electronic technologies and systems designed to improve the quality and efficiency of education. The program is open to all. NSF is provided for exploration, development, and evaluation. Preliminary proposals and letters of inquiry should be directed to TIE Group, NSF, 400 North Capitol Street, LSHOE, Baltimore, Md. There are no proposal deadlines but four months should be allowed for processing formal proposals. (HR NSF E76-6, June 1975)

REMINER AND DEADLINE DATES
Aug. 15 for NASA Life Science Program in Space (May 15 INTERCOM #170-10) . . . Aug. 15 for O.R.W.W. Cancer Fund fellowship grant program (NSF E76-6, June 1975).
Sept. 15 for NASA lunar scientific research proposals (July 15 INTERCOM #186-8) . . . Sept. 1 for NIH Research Career Development Grants (NSF E76-6, June 1975).
Sept. 19 for NIH Research Career Development Grants (May 20 INTERCOM #181-2)

AMITY program seeks families

The Office of Religious Affairs at the University is seeking area families to serve as "host families" for incoming freshmen students as part of its AMITY program.

The program, instituted two years ago, helps integrate Penn State freshmen into the larger community as well as into the campus community and provides the students with opportunities to become acquainted on a personal level with residents of the community.

It also is designed to provide residents with opportunities to participate in the life of the University and to create a climate of understanding and trust between students and community residents.

Under the program, families or individuals offer to serve as host families for freshmen, with each family becoming acquainted with at least one student.

The family may invite the student into the home, invite the student to participate in community activities, help celebrate special occasions such as a birthday, and help work out a problem or many other things that are normally done within a family.

The Office of Religious Affairs is coordinating the AMITY programs on a community-wide basis, obtaining and providing names and other relevant information about incoming freshmen as well as providing other materials and services to facilitate the program.

Area residents who wish to volunteer as host families may obtain registration forms by calling 865-6348. The form should be completed and returned to 105 Eisenhower Chapel at the University as soon as possible.

Effects on children in Philippines

Guthries make film on malnutrition

The effects of malnutrition on children in two Philippine villages are shown in a film, "Big Problems for Little People," prepared by Dr. George M. Guthrie, professor of psychology and Dr. Helen A. Guthrie, professor of nutrition.

Running 22 minutes in color with sound, the film surveys dietary habits in a country where even though plants grow year round as many as half the children have inadequate diets. This is the second film the Guthries have made for showing to University and other audiences. The first was called "Peasant Ecology in the Rural Philippines," and both are available from Audio-Visual Services of the University.

The first village is located in the mountains and grows rice on its spectacularly terraced hillsides. Sweet potatoes are produced on land unfit for rice.

Rice cultivation is depicted as the fishing methods used in a second seaside village located on an island in Manila Bay. Its population suffers almost entirely on fish.

The Guthries illustrate the lack of sanitation in the two villages, which, by exposing the children to repeated infections, may be a factor in arresting cognitive and physical development. There is some evidence that malnutrition also is an important contributing factor.

Infants who are breast fed do not exhibit the disorders affecting their older brothers and sisters. But after weaning, growth slows dramatically, skin disorders frequently appear, and the children may become lethargic.

The conclusion of the film shows three cases of malnutrition so severe that the children have been hospitalized.

Undergrad nursing students in clinics

A group of Penn State's undergraduate nursing students will begin receiving selected clinical experiences in Pennsylvania hospitals beginning with the Fall term.

Agreements between the Department of Nursing at the University and Hamot Medical Center in Erie and Geisinger Medical Center in Danville will enable the students to spend a ten-week term in one of the centers under the supervision of professional nurse preceptors who are members of the nursing staffs of the hospitals.

Faculty of the Department of Nursing, in collaboration with the preceptors, will work closely with the students prior to their

clinical experiences to establish their individual program objectives and outline areas of training. Nursing faculty will maintain contact with the students through the course of the training.

According to Dr. Janet Williamson, professor in charge of the Undergraduate Program in Nursing at the University, the program is expected to be expanded to involve more Penn State nursing students and other hospitals in the near future.

Hospital coordinators for the program are Mrs. Emma Jean Knapper, Director of Nursing at the Geisinger Medical Center and Perry Mahaffy, Director of Nursing Affairs at the Hamot Center.

Zubrod promoted at Altoona Campus

Jack G. Zubrod, who has been serving as interim director of the Altoona Campus since July, 1974, has been appointed associate director for academic affairs by the new director, Dr. Carson W. Veach.

Dr. Veach's appointment, effective July 1, was announced in late May after ap-

proval by the Board of Trustees.

A member of the faculty since 1946, when he was named instructor of botany and zoology at DuBois Center, then part of General Extension, Zubrod was appointed assistant administrative head of the Altoona Campus as well as assistant professor of botany in 1957.

Literally something for everyone is included in this year's Central Pennsylvania Festival of the Arts which begins today (Thursday) and continues through Sunday. One of this year's additions to the Festival is a Fiddlers' Competition, which will be held Saturday at 1 p.m. on the Old Main lawn (HUB ballroom in case of rain). The three musicians above, while not entered in the contest, have a significant role in it. Graduate students Matthew Guntzberg (left) and Bob Boyle (right) received a grant from the Pennsylvania Council on the Arts, for studies in comparative literature, and among the studies they are making is that of folk music. It happens that Samuel P. Bayard, professor emeritus of English, has been interested in folk music for four decades, and knows how to play a fiddle in appropriate folk style, so he has been made an honorary judge of the competition, which is expected to attract fiddlers from all over the state, and perhaps outside, as well.

To learn more of culture

Capital tour of Penna. German areas

A one week study-tour of Pennsylvania German Culture will be conducted by Capitol Campus from August 17 through 23.

The tour will begin on Sunday evening the 17th with a visit to a 19th century German home in Bambridge, and to St. Peter's Church in Middletown. The church was built in the 18th century by Henry Muhlenberg, father of American Lutheranism.

Meals will feature Pennsylvania Dutch cooking. Among the scheduled eating places are Groff's Farm Inn, Mt. Joy; Plain and Fancy Farm and Dining Room, near Intercourse; and the Shartlesville Hotel in Bethlehem.

The tour will visit Ephrata Cloister, an

18th century Protestant monastic community; the Pennsylvania Farm Museum at Landis Valley; three private 18th and 19th century homes; Bethlehem, the center of Moravian culture in America; and the Mennonite Historical Society.

During the tour three talks will be given: Dr. John Frantz, associate professor of American history at Penn State, will speak on "The German Church People"; Dr. Irwin Richman, chairman of the American studies program at Penn State-Capitol Campus will discuss "Pennsylvania German Architecture"; and a lecture-demonstration of "Pennsylvania German Furniture and Crafts," will be given by Claudia and Carroll Hopf. Mr. Hopf is director of the Pennsylvania Farm Museum.

Education summer lecture series open

The College of Education Summer Lecture Series was opened yesterday (July 16) by Dean of the College, Dr. Henry J. Hermanowicz. Other lectures in the series, which is scheduled for the benefit of both students and faculty, include:

- Dr. Ralph T. Heimer, professor of education, **Thurs., July 17**, at 2:20 p.m.
- Dr. Jane M. Singh, associate professor of education, **Tues., July 22**, at 12:45 p.m.
- Dr. Dale B. Harris, professor of psychology and human development, **Wed., July 23**, at 7:30 p.m.
- Dr. David G. Carter, associate professor of education, **Thurs., July 24**, at 3:55 p.m.
- Dr. Lester S. Golub, professor of education, **Tues., July 29**, at 9:35 a.m.

—Dr. M. Eloise Murray, assistant professor of home economics education, **Wed., July 30**, at 8:00 a.m.

—Dr. Harold E. Miltz, associate dean for research, **Thurs., July 31**, at 7:30 p.m.

All the lectures to be given in the Kern Bldg. auditorium are open to all interested persons. Those planning to attend are asked to obtain free tickets from Trudy Bodkin, 163 Chambers Bldg., or reserve them by telephoning her at 865-1808.

The series is sponsored each summer by the faculty and students of the College of Education, Phi Kappa and Phi Lambda Theta, education honor societies, and the Pennsylvania School Study Council.

President elected to association post

President John W. Oswald has been elected to a one-year term as president of the Pennsylvania Association of Colleges and Universities.

Dr. Oswald, who has been serving as vice president of PACU, began his term as president on July 1, succeeding Dr. Arthur L. Schultz, president of Albright College.

The Association, founded in 1896, represents 119 public and private institutions of higher education in the Commonwealth and provides a forum where college and university leaders can discuss common concerns.

PACU also is the agency through which the State's higher education community speaks on matters of public policy.

Other officers elected for one-year terms are Dr. Allen T. Bonnell, president of the Community College of Philadelphia, vice president, and Dr. Frederick P. Sample, president of Lebanon Valley College, secretary-treasurer.

New executive committee members elected to three-year terms are Dr. Lawrence Park, president of Mansfield State College, and the Rev. Sean Sullivan, president of St. Francis College.

Dahir, Henry gain research contract

Dr. Sabir Dahir, associate professor of engineering at Penn State-Capitol Campus, and Dr. J. J. Henry, associate professor of mechanical engineering at University Park, have won a research award from the United States Department of Transportation.

The award will sponsor research on friction and wear of highways. The specific program is entitled "Alternatives for Optimization of Aggregate and Pavement Properties Related to Friction and Wear Resistance."

The DOT award is for \$99,250 and extends from July 1, 1975 through March 31, 1977.

HUB Specials

- Monday, July 31** — Lunch, grilled ham and cheese, soup, \$1.20; dinner, chicken Brunswick, \$1.30.
- Tuesday, July 22** — Lunch, baked meatloaf, \$1.14; dinner, sweet-sour pork, \$1.39.
- Wednesday, July 23** — Lunch, barbecue-on-bun, \$.85; dinner, Salisbury steak with blue cheese sauce, \$1.39.
- Thursday, July 24** — Lunch, lasagne, \$1.39; dinner, stuffed flank steak, \$1.74.
- Friday, July 25** — Lunch, fishwich, soup, \$1.10; dinner, shrimp scampi, \$1.84.
- Saturday, July 26** — Lunch, chili con carne, \$1.74; dinner, spaghetti with meat balls, \$1.39.
- Sunday, July 27** — Dinner, pork chop Hawaiian, \$1.64; supper, apple trifles with sausage, \$.95.

In support of a transportation scholarship in the College of Business Administration, the ALCOA Co., represented by Charles A. Kelly (center) who is manager of transportation research and analysis, presented a check in the amount of \$750 to another Kelly, Dr. Eugene J. Kelly, dean of the College. Also present with the scholarship aid is Dr. John H. Coyle, head of the Department of Business Logistics.

College of Arts and Architecture dean Dr. Weller H. Weller (right) and Louis Silvi, manager of the Nittany Mountain Summer festival, examine the Nittany Mountain Summer poster, which is the area behind the reception desk. The poster, designed by Lanny Sommers, associate professor of art, activities for the special program begin Sunday, July 27, with a public reception in the Museum of Art and subsequent events will include performances by the Pennsylvania Ballet, Pennsylvania Orchestra, the Penn State Festival Theatre, the special "Five Pennsylvania Painters" exhibit in the Museum, and informal sessions with artists almost daily through August 16.

Ballet tickets on sale at festival

Advance sale of tickets for the Pennsylvania Ballet performances on Aug. 1 and 2, 8 and 9, and 15 and 16, will be offered at a special Nittany Mountain Summer booth in front of Schwab Auditorium during the Central Pennsylvania Festival of the Arts.

The Ballet will dance three different programs in six performances in University Auditorium during its summer residency at Penn State, presenting the same program on Friday and Saturday evenings and changing each week.

Only mail orders will be accepted by

the University Auditorium box office prior to this advance. The box office will open for general ticket sales for Nittany Mountain Summer on Monday, July 21, with daily hours from 10:30 a.m. to 4 p.m. Monday through Saturday, reopening at 6:30 p.m. on performance nights.

Hours for the Festival booth on the mall, which will also sell cotton tee shirts silk-screened with the Nittany Mountain Summer logo, will be 1 p.m. to 7 p.m., Thursday and Sunday, July 17 and 20, and 11 a.m. to 7 p.m., Friday and Saturday, July 18 and 19.

Women on increase in graduate studies

The number of women in graduate programs increased by nine percent last year at the University Park campus.

Among the 5,170 graduate students here, male enrollees declined by about five percent.

Overall, total Graduate School enrollment at the five graduate campuses rose slightly over the previous year to 6,300 students. Education and the social sciences experienced the largest growth, with 18 percent apiece. Sixteen percent elected the physical sciences.

Changes from Fall Term 1973 graduate enrollment figures show interest in the humanities and engineering decreasing slightly. These two areas have 12 and 11 percent of the total number of graduate

students respectively. The physical sciences registered slight gains, and the biological science remained the same with 11 percent.

Compared to the 1972-73 academic year, fewer doctoral degrees and more master's degrees were granted in 1973-74. In the latter year, 376 doctoral degrees and 1,582 master's degrees were conferred as compared to 424 doctoral degrees and 1,533 master's degrees in 1972-73.

The physical sciences accounted for 25 percent of the doctoral degree total, and education attracted 24 percent. The largest percentage of master's degrees were awarded in education with 29 percent and the social sciences with 21 percent.

While Wonderful Town continues

Anderson comedy opens at Pavilion

In "Wonderful Town" currently at Playhouse Theatre, Ruth (left) is played by Cathy Brewer-Moore and Eileen by Virginia Gregory.

While "Wonderful Town" is concluding its run at Playhouse Theatre, with performances Thursday through Sunday with a Saturday (July 19) matinee, a Robert

Anderson comedy, "You Know I Can't Hear You When the Water's Running," is opening tomorrow Friday, July 18, at Pavilion Theatre.

It's really a show of four plays, all presenting a tongue-in-cheek look at sex. The four plays are titled "The Shock of Recognition," "The Footsteps of Doves," "I'll Be Home for Christmas" and "I'm Herbert."

One of the featured players is a Penn State graduate, Edward Binns, who will also direct "Awake and Sing," which is part of the Festival Theatre program later in the summer. Binns has appeared in more than 900 television roles and has been on various stages for nearly two decades. His Broadway debut was in "Command Decision," in 1947-1949, following that up with a role in "Detective Story," which starred Ralph Bellamy. His most recent stage role was in "The Championship Season," performed in Florida. The cast for the four plays will also include Donald Buka, Carol Don, Anna Minot and Linda Alperst. Tickets are available at the Playhouse box office (in the Arts Building) or may be reserved by calling 865-1884.

"You Know I Can't Hear You When the Water's Running" will be performed Friday-Sunday, July 18-20 and July 22-26, at Pavilion Theatre.

Campus-community relations explored

Behrend meeting had education leaders

Institutions of higher learning do, and must, have much to offer the communities in which they are located — not only educationally, but culturally and socially.

These were among the main points brought by Eriettes in a panel discussion on "Community Expectations" during the recent National Invitational Conference of Regional and Branch Campus Deans and Directors.

The conference, hosted by Behrend College, drew more than 100 leading educators and administrators from major colleges across the country.

Overall theme of the June 24-26 conference was "Community-Campus and Campus-Community Relations."

Members of the local panel included: Donald M. Alstad, president, Lord Corporation, Erie, and a member of the Behrend Advisory Board; Robert F. Hellman, manager, professional relations and human resources training, General Electric, Erie; and Benjamin A. Lane, dean of student affairs at Behrend.

Alstad pointed out that industry is a large consumer of educated people who must be able to move useful knowledge into products and services.

He emphasized that industry wants people who are "learners not knowers . . . who are goal-oriented, not problem-oriented . . . who are tough-minded, able to make tough and disagreeable decisions . . . who are opportunity-oriented . . . with physical and mental vitality."

Colleges and universities have a primary responsibility to provide a continuous educational opportunity. They must provide their graduates with "quality, not quantity" education, with a well-rounded and broad education so they can make decisions, can see themselves and their responsibilities. And they must continue to offer this educational opportunity to those in their community.

"Give me learners . . . with the intent to learn as long as they live — or work; give me a graduate who will never cease to be a student," he concluded.

Communities have several expectations, Hellman noted, and he urged colleges to fulfill them to increase understanding and cooperation.

Colleges must participate in vitally need-

ed community involvement, and he suggested obtaining the best local people for boards and advisory committees. He encouraged faculty and administrators to mix with others in the community.

He advised "need" surveys to ascertain a better understanding of the community, what makes it tick, what will keep it growing and surviving, and what the college can do to assist.

He also suggested "exchange programs" between faculty and businessmen, each going to the other's place of work to talk and observe.

Colleges should teach certain fundamentals necessary to succeed in business, he emphasized, including courses in speed reading, writing (brevity) techniques, public speaking, group dynamics, and the ability to listen with distractions.

The college's chances for success are greater in a community-oriented program, he commented.

Dean Lane, a long-time contributor and supporter of the arts in the Erie community, brought out the growing responsibilities that colleges have to the arts.

"If the arts are to survive, then colleges may be the answer," he said.

Colleges have responsibility to the consumer of the arts, the artists themselves, and to posterity.

He pointed out that in Erie, for example, a large portion of live theater is provided by colleges. Throughout the country, colleges maintain some of the finest galleries, and offer some of the best cultural entertainment. The high cost of arts often prohibits this elsewhere.

The conference opened with a keynote address, "Quality and Quantity in Higher Education" by Ralph K. Hutt, executive director of the National Association of State Universities and Land-Grant Colleges, Washington, D.C.

He noted that the most important job facing college administrators today is "to hold on to what is old and good, while at the same time reach for new ideas in education." He also emphasized that while branch campuses have increased the quantity of education, the quality must not be overlooked.

Other Penn State participants included President Oswald, banquet speaker, Dr. Robert G. Quinn, and Dr. S. O. Ikenberry.

Baroque trumpet and organ in recital

Music for Baroque trumpet and organ will be performed by guest musicians Donald Smithers and William Neil at 8:30 p.m., Monday, July 21, in the Music Bldg. recital hall, sponsored by the Music Department.

Ten works will be presented by such composers as Frescobaldi, Stanley, Blow, Torelli, and Cazzati. The program will open with a fanfare by Reiche and will include Bach's "Prelude and Fugue in D Major," Handel's "Concerto in B Flat," and two Bach chorales and chorale fantasia.

The Baroque trumpet will be heard in

Monday's concert is a forerunner of the modern trumpet. It is smaller, higher in pitch, and it has a different valve system than today's instrument.

Donald Smithers is widely known as a specialist in the performance of Baroque and Renaissance music, both as a performer and a scholar.

William Neil is a graduate of Penn State and Syracuse universities and has studied organ with Leonard Raver, Arthur Polster, and Anthony Newman. He is devoted to the performance of early music and has performed recitals on both organ and harpsichord throughout the eastern U.S.

Alard quartet chamber music workshop

More than half a hundred musicians from New York, Maryland, Virginia, Washington, D.C., and Pennsylvania attended a Chamber Music Workshop recently led by the Alard Quartet, whose members are all associate professors of music. Directing and coaching for the workshop were Joanna Zegall and Donald Hopkins, violinists, Raymond Page, violist, and Leonard Feldman, cellist. As a continuing education service of the College of Arts and Architecture, assisted by the State College Symphony Orchestra, the event was planned to provide chamber music players an opportunity to meet in a stimulating atmosphere to play works from the chamber music literature under the guidance of experienced teachers and performers.

PENN STATE intercom

Volume 4, Number 45

July 24, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Tuition rise, \$311 million budget approved

Room, board charges are also increased

Increases in tuition and in room and board charges at the University, effective with the Fall Term in September, were approved last Friday by the Board of Trustees of the University.

The tuition increase for residents of Pennsylvania at the University Park Campus is \$45 per year, or \$135 per academic year. For Pennsylvania residents at the Commonwealth Campuses; Behrend College at Erie; Capitol Campus at Middletown; and at the Graduate Center at King of Prussia, the increase is \$30 per term or \$90 per academic year. The increase for Pennsylvania students enrolled in the College of Medicine is \$167 per term or \$501 per academic year for medical students and \$45 per term or \$135 per academic year for graduate students enrolled at Hershey. Commenting on the tuition increase, President John W. Oswald said that in requesting a \$114.5 million appropriation for 1975-76, the University did so on the basis that there would be no tuition increase.

"When it became apparent the amount of the appropriation would be considerably under that requested, emphasis was placed on what was not raised, emphasis was placed on the study of opportunities for increase at the other State-related institutions and in determining where expenditures need be reduced without seriously cutting the quality of our programs. Realization of this became an important part of this program."

Dr. Oswald noted also that the percentage of increase approved at Penn State is similar to the percentages with increase at the other State-related universities, although the amount of increase at the others was greater. The University of Pitts-

burgh increase was \$140 per year and the Temple increase was \$150 per year. Both have higher tuition than Penn State for Pennsylvania students although tuition for medical students is nearly the same.

The new tuition rates for Pennsylvania residents for an academic year total \$1,095 for students at University Park and for non-medical students at Hershey; \$1,005 for students at the Commonwealth Campuses, Behrend College, Capitol Campus, and the King of Prussia Graduate Center; and \$2,001 for medical students at Hershey.

Tuition for non-Pennsylvania students will be \$2,295 per academic year at all locations except that out-of-state tuition for medical students at Hershey will be \$4,002.

The increase in room and board rates amounts to \$50 per term, including \$40 for room and board and a \$10 increase in the residence hall counseling fee. The rate for a student sharing a double room now becomes \$1,389 for an academic year, including the \$60 counseling fee. Single room rates are higher.

The trustees also approved a meal service providing 14 meals per week to benefit students who had requested but could not be assigned rooms at the University Park Campus. The rate for a ten-week term was set at \$25.

In addition to the increased tuition rates for full-time students, the trustees approved increased rates for part-time students. The cost per credit for Pennsylvania residents at University Park will increase from \$40 to \$45 and at other campuses from \$35 to \$36 with the rate for non-Pennsylvania students increasing from \$61 to \$56 per credit. For medical students, the rate per credit was increased from \$62 to \$83 for Pennsylvania residents and \$125 to \$167 for non-Pennsylvania residents. Rates for unit courses offered by Continuing Education services were increased from \$23 to \$25 per credit for Pennsylvania students and from \$24 to \$29 per credit for non-Pennsylvania students.

Revised patent policy approved

The Board of Trustees last Friday approved revisions of the University's policy regarding patents. The original policy, dated Jan. 18, 1926, has been revised from time to time. The latest revision is intended to encourage the development of commercially valuable inventions.

Among the provisions of the new policy is an increase in the inventor's share of royalties, which previously amounted to 15 percent of gross royalties. The increase would provide 50 percent of the first \$3,000; 25 percent of the next \$10,000; and 15 percent over \$13,000 of cumulative gross royalties.

Also approved are invention incentives that provide for The Pennsylvania Research Corporation (representing the University) and Research Corporation each to pay \$100 to the inventors for each invention accepted for patenting at the time of filing the first patent application. The Research Corporation, located in New York City, is a non-profit corporation founded in 1912, which promotes and supports scientific research, and also provides invention administration services for educational institutions. Penn State is one of 260 universities and colleges utilizing the services of Research Corporation.

The revision provides also that with the consent of the inventor, inventions having primarily governmental utilization are to be released directly to the Government agency for patenting to enhance the relationship with Research Corporation, since it will eliminate processing of invention disclosures which have little nongovernmental value.

The new policy provides also for a University Inventions and Patent Committee with representation from the faculty, administration, and active University inventors. The Committees will review the oper-

ation of the University Patent Policy and related procedures and render advisory opinions in the event of invention-related disputes.

Also an invention processed by the University and not accepted for patenting by Research Corporation will be released promptly to the inventors upon their request unless a conflict with sponsor provisions exists.

The trustees also authorized revision of the agreement between the University and The Pennsylvania Research Corporation and approved the proposed new agreement between The Pennsylvania Research Corporation and Research Corporation to implement the new policy adopted.

Also approved at the board meeting was a Trademark Policy. There has been no formal trademark policy in the past.

The new policy is based on the fact that the University has developed a reputation for established quality in the limited areas which relate to "trade," "origin of goods," and/or "services" and provides that the general policy shall be not to develop and register trademarks, but to use the name and/or seal of the University to indicate "origin of goods." Further, the best descriptive generic name for the "goods" will always be used also in order to describe accurately both the goods and their origin.

There is provision for development and registration of trademarks in special cases, with such exceptions to be approved by the Senior Vice-President for Finance and Operations.

The use of trademarks, coined words, designations of compounds and similar terms by faculty and staff members — which do not need trademark registration with either the Commonwealth of Pennsylvania or the U.S. Patent and Trademark Office shall be governed by the dean or administrative officer concerned.

Operations, maintenance to cost \$30 million more

The Board of Trustees has approved the 1975-76 maintenance and operating budget for the University, which amounts to \$311,252,000, an increase of \$29,382,000 over the \$281,870,000 budget, as adjusted, for the 1974-75 fiscal year.

Much of the increase reflected in the budget is related either to inflation or to partial provision for some increase in enrollments and operation of new facilities, said President John W. Oswald. The increase in the cost for fuel and utilities, for example, is estimated at \$2,950,000.

Proposed salary increases and mandated costs such as the escalating costs for retirement and other fringe benefits for employees also are major items of the increase.

Reminding that sources of income for the University are limited and many expenses are mandated, President Oswald said the University has tried to meet a part of the essential expense requirements, while minimizing necessary tuition rate increases, by the collapse of a substantial number of positions. This has resulted in budget reductions exceeding \$2,500,000.

He pointed out that the new budget, determined after careful analyses of all sources of revenue and of reduction in expenditures, wherever possible, is based, in part, on the anticipation of a State appropriation of \$103,365,000, the amount specified in the amended Senate Bill 771. Should the final appropriation amount differ from that projected in the budget approved July 18, the budget will be revised as appropriate, it was explained.

The Board at its May 30 meeting, in the absence of an appropriation bill for the new fiscal year, had authorized expenditures for the month of July at the 1974-75 budget level.

The authorized overall average salary increase will amount to approximately 8 per cent of the general fund salaries. It will be retroactive to July 1. A portion of the salary increase will be used for across-the-board basic increases to enable employees to cope with rising inflationary costs they face, while the remainder will be used for merit increases to recognize outstanding performance.

Costs for fringe benefits for employees, one of the items showing a major increase in the new budget, include the University's share of retirement costs, which has increased by \$4,540,000; Social Security costs increased by \$80,000; and group hospital and medical coverage costs, increased by \$819,000.

The budget lists additional revenues of \$5,987,000 from tuition increases, \$1,032,000 from projected enrollment increases, both at all campuses, and \$1,725,000 from the room and board charge increases, which supports the residence hall operations.

In the new budget, University funds, which include tuition and fees, department earnings, indirect costs, and revenues from the State appropriation as well as special Federal appropriations, increase from \$199,369,000 to \$224,455,000. Research funds increase from \$41,002,000 to \$41,951,000 while the budget for auxiliary enterprises moves from \$40,699,000 last year to \$44,846,000. The \$311,252,000 budget provides \$48,756,000 for operation of The Milton S. Eisenhower Medical Center, including the College of Medicine, and \$262,496,000 for all other University operations.

In approving the budget, the Board acted on recommendations from the Finance Committee of the governing body.

TIAA-CREF CONTRIBUTION RATE

On behalf of each faculty or staff member who joins TIAA-CREF, the University makes a contribution based on the maximum amount permitted by law. This amount is determined each year by the State Employees' Retirement Board based on an actuarial evaluation.

For the period July 1, 1974 through June 30, 1975, it was fixed at 7.6% of salary. The University has been notified officially by the Retirement Board that for the fiscal year 1975-76 the rate shall be 8.64%.

Calendar

July 24—August 3, 1975

SPECIAL EVENTS

Thursday-Saturday, July 24-26 — Penn State Festival Theatre, "You Know I Can't Hear You When the Waters're Running," 8 p.m., Pavilion Theatre.

Friday, July 25 — Commonsplace Coffeehouse, 8 p.m., Room 112 Kern.

Sunday, July 27 — Public opening reception for Nittany Mountain Summer and the "Five Pennsylvania Painters" Exhibit, 3-5 p.m., Museum of Art.

Sunday, July 27 — Interludia Folk Dance Club, 7:30 p.m., HUB terrace (in case of rain, ballroom).

Sunday, July 27 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

Wednesday, July 30 — Pennsylvania Orchestra Shiri-Sieve Concert, 8 p.m., University Auditorium.

Friday, August 1 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, August 1-2 — Pennsylvania Ballet, "Madrigalesco," "Concerto Grosso," "After Eden," "American Rhapsody," 8 p.m., University Auditorium.

Friday-Sunday, August 1-3 — Penn State Festival Theatre, "Giri Grazy," 8 p.m., Playhouse Theatre.

Saturday, August 2 — At Ease with the Pennsylvania Ballet, "The Making of a Dancer," 4 p.m., University Auditorium.

Sunday, August 3 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

SEMINARS

Friday, July 25 — Mineral Processing, 4 p.m., Room 301 Mineral Industries. Dr. John C. Williams, chemical engineering department, University of Bradford, England, on "Problems in the Handling and Storage of Particulate Solids."

Thursday, July 31 — Agronomy, 3 p.m., Room 301A Agricultural Administration. Dr. C. E. Marshall, University of Missouri, on "Solution Equilibria in a Soil Profile."

LECTURES

Thursday, July 24 — College of Education, David Carter, educational administration, on "The Courts and the Schools," 3:55 p.m., Room 112 Kern.

Friday, July 25 — Department of Material Sciences, Professor A. R. Ubbelohde, chemical engineering and chemical technology, Imperial College, London, on "Liquid Organic Salts — A Novel Class of Molten Crystals," 11 a.m., Room 301 Mineral Industries.

Friday, July 25 — College of Education, Lester Golub, education, on "Education in the Subcultures," 9:30 a.m., Room 112 Kern.

Wednesday, July 30 — College of Education, M. E. Murray, home economics education, on "Insights about World Population," 8 a.m., Room 112 Kern.

Thursday, July 31 — College of Education, Harold Mitzel, associate dean for re-

(Continued on page two)

Death

Dr. Herbert A. Wahl, who retired in 1966 as professor emeritus of botany, died July 16; he was 75. Born in Rochester, Pa., he was graduated from Penn State in 1925 with a degree in horticulture and the following year joined the faculty as instructor. He obtained advanced degrees in botany from Penn State also. He was away from the campus only for a year while pursuing his doctorate and in the late forties spent three years at the University of Pennsylvania where he collaborated with a colleague there in research on wild life plants of the state. For most of his career he was absorbed in studies of Pennsylvania flora and wrote extensively on the subject. He taught general botany and taxonomy.

Retirement

Arthur I. Marindale, associate professor of engineering at the University's Delaware County Campus, retired July 1 after eight years of service. He was among the first seven full-time faculty members hired at the campus when it began operations in 1967, and is the first person at the campus to retire. He was group leader for the Mechanical Engineering Technology program and also taught baccalaureate-level engineering courses at the campus. He received a bachelor of arts degree in mathematics, a bachelor of science in civil engineering, and a technical degree of civil engineering, all from the University of Pennsylvania. Prior to joining the University, Marindale was a staff construction engineer for the School District of Philadelphia, a plant manager for Eastern Schokete Corporation, Brandywine, Md., and chief engineer for the Warner Company.

Faculty Notes

Dr. G. W. Burnham, head of the department of geosciences and Dr. Arnulf Muan, professor of mineral sciences, attended a special meeting on earth sciences at the White House this week. Dr. Burnham represented the Geochemical Society as its immediate past national president and Dr. Muan represented the Mineralogical Society of America of which he is now national president. The meeting was organized through the American Geological Institute to bring together earth scientists and high government officials to discuss national concerns about future shortages of critical materials and means of making the U.S. less dependent on foreign suppliers.

Dr. Richard Herman, associate professor of mathematics, has been awarded a research fellowship by the Alexander von Humboldt Foundation of the Federal Republic of Germany and will spend the 1975-76 academic year conducting research in mathematical physics at the Universitat Bielefeld. These fellowships enable scholars to lecture and conduct research in Germany, and about 20 are awarded worldwide in mathematics.

Dr. L. E. Cross, professor of electrical engineering and associate director of the Materials Research Laboratory, is in Japan as part of the U.S. delegation in a Joint Japan-U.S. Seminar on electrical and magnetic ceramics, sponsored by the National Science Foundation. While in Japan he will lecture at the University of Hokkaido, the Hitachi and Toshiba companies, the Research Laboratories of Nippon Telegraph Co., and the Tokyo Ceramic Society.

Honors

Dr. John E. Baylor, professor of agronomy extension, has received the 1975 Extension-Industry Award of the Northeastern Branch, American Society of Agronomy. He was given a plaque at the association's annual meeting in Guelph, Ontario. A member of the Extension staff since 1957, he was previously awarded the Merit and Medallion Awards of the American Forage and Grassland Council, the Zur Craine Award of the National Silo Association, and the Gamma Sigma Delta Extension Award.

At the same American Society of Agronomy meeting, Dr. Louis T. Kardos, professor of soil physics, was given the research award of the Society. He has been coordinator of the wastewater renovation and conservation research program at Penn State.

Fukuyama to head religious studies

Dr. Yoshio Fukuyama, professor of religious studies, has been named head of the Department of Religious Studies.

A member of the faculty since 1967, Dr. Fukuyama replaces Dr. Luther H. Harshbarger, who has resigned to devote full time to teaching and research.

Author of numerous articles in professional journals, Dr. Fukuyama also has written two books, "The Ministry in Transition: A Case Study of Theological Education," and with Thomas Campbell, "The Fragmented Layman: An Empirical Study of Lay Attitudes."

This spring he received an honorary doctor of divinity degree from his alma mater, Doane College, where he earned a baccalaureate degree in economics in 1943. Dr. Fukuyama holds a bachelor of divinity degree and a master's degree in the sociology of religion from the University of Chicago.

He was an instructor at Union Theological Seminary and served as associate director of the Church Federation of Greater Chicago's Bureau of Research and Planning. He also was director for research for the United Church Board for Home Land Ministries in New York City.

During 1973-74, Dr. Fukuyama was visiting professor of the sociology of religion at The Doshisha University, Kyoto, Japan, a research fellow at the Center for the Study of Japanese Religions in Kyoto.

At Penn State, he has been a special adviser to the Educational Opportunities Program as well as serving on the East Asia Studies Committee and the Social Science Council. He also has served as graduate officer in the Department of Religious Studies.

CALENDAR —

(Continued from page one)

search and graduate study, College of Education on "The New Structure for Research in Education," 7:30 p.m., Room 112 Kern.

FILM

Thursday-Sunday, July 24-27 — ARHS film, "Play It Again, Sam," 8 and 10 p.m., Findlay Rec. Room.

Thursday-Sunday, July 24-27 — PSORM film, "Fantastic Planet," animated cartoon, 8 p.m., Room 105 Form.

Wednesday, July 30 — Commonsplace Theatre, "What's New Pussycat?" 7:30 and 9:30 p.m., Room 112 Kern.

Thursday-Sunday, July 31-August 3 — ARHS film, "The Great Gatsby," 8 and 10:30 p.m., Findlay Rec. Room.

EXHIBITS

Museum of Art — Linda Plotkin, "Bellefontaine Glasshouse: Evolution of Print" Gallery A. Twenty paintings on wood panels from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Selections from the Permanent Collection, Gallery C.

Zoller Gallery — Central Pennsylvania Festival of the Arts Invitational Art Exhibition.

Kern Gallery — Emerson and Roslyn Horace, Navajo and Hopi Indian jewelry. Functional and non-functional ceramics by Jean Stevens, and Shoshko Fukuyama. Ernest Beinhart, photography, opening July 21.

HUB Gallery — Central Pennsylvania Festival of the Arts exhibition of children's art and young adults' arts and crafts.

Pattee Library — Central Pennsylvania Festival of the Arts, Arts and Religion.

Purchases cries help!

HELP! An avalanche of requests for information and "preferred rate cards." It was not anticipated Purchases would receive hundreds of requests. We are attempting to be of assistance, primarily with chains who offer required or business travel discounts. Independent motel information is unavailable. Purchases is unable to provide a full fledged travel service — much as we'd like to. "Preferred rate cards" are for individual chains — they are not a single University card honored by all who give rates. Please be patient! As additional cards are received, they will be distributed. Address all future requests in writing to Joan Everhart, Department of Purchases, 219 Shields Bldg. (No phone requests).

RESERVE LISTS

Faculty are encouraged to submit their Fall Term Reserve Reading Lists as soon as possible, since lists are processed strictly in the order in which they are received. Only required readings, which will circulate either for a two hour period or for an overnight loan period, will be placed on reserve.

Typewritten lists should be submitted on reserve forms which are available by mail or in person from the Undergraduate Library, W11 Pattee Library.

Other Board of Trustees actions noted

In other actions, the Board of Trustees at its meeting last Friday:

—Authorized awarding of contracts for landscaping the Allen Road entrance to the campus at the Business Administration Building. Private gifts, of which a substantial amount has already been given by Herman G. Fisher, Distinguished Alumnus of the University, will finance the project.

—Approved preparation of a development plan of wooded areas, including a nature trail, at Berks Campus, Reading. The development will include a 21-acre site at the northern end of the campus, and will include a limited outdoor educational and recreational program.

—Authorized purchase of ten acres of land adjacent to the Rock Springs Experimental Farm, currently owned by Pearl E. and Anna K. Leidy.

—Announced the sale at public auction of 1.49 acres of the Hill tract in College Twp., along the old Housserville Rd.

—Approved a joint educational program for training respiratory therapy students between St. Joseph Hospital of Lancaster and the Hershey Medical Center. The agreement is similar to those providing training

for physical therapy students now in effect with the University of Pennsylvania, University of Pittsburgh, and Temple University.

—Approved a combined residency program to train specialists in obstetrics and gynecology involving the Hershey Medical Center and the Harrisburg Hospital and Harrisburg Polyclinic Hospital. The action merges existing residency programs at the three hospitals and will be known officially as the Penn State University Affiliated Obstetrics and Gynecology Residency Program.

—Authorized the President of the University or the President of the Board to invite a student representative and a faculty representative to participate in the discussion of agenda items at future Board meetings.

—Authorized the Beaver County Commissioners to construct on the Beaver Campus an outdoor amphitheatre and other facilities to be known as the Brodhead Cultural Center. On a 5.4 acre tract at the southeast corner of the campus, an unoccupied five-room building will be converted to a museum, enlarging the facilities of the Millcreek Valley Historical Association, which will be available to the general public.

Nittany Mountain Summer arrives

Music, ballet, theatre, exhibits featured

Penn State's annual celebration of the visual and performing arts, Nittany Mountain Summer, opens Sunday (July 27) when a free public reception will be held in the Museum of Art to mark the opening of the exhibit, "Five Pennsylvania Painters."

Also within the next week, the Pennsylvania Orchestra will give one of its three Wednesday evening public performances called "shirt sleeve" concerts at 8 p.m. in University Auditorium. Last year the orchestra played before a jam-packed Schwab Auditorium and many were turned away. Free tickets for the performances this year may be obtained ahead of time at the box office of the larger Auditorium between 10:30 a.m. and 4 p.m. daily except Sunday.

In its second season, Nittany Mountain Summer will again combine professional theatre, dance, concerts, and exhibitions for almost daily events through August 16. All of the programs during the three weeks will be open to the public, except the evening performances of the Pennsylvania Ballet and the plays in the Penn State Festival of American Theatre.

Returning to its summer home at Penn State will be the highly acclaimed Pennsylvania Ballet to perform contemporary and classical dance on Friday and Saturday evenings, August 1 and 2, 8 and 9, and 15 and 16, at 8:00 p.m. in University Auditorium.

The Museum of Art, "Five Pennsylvania Painters" will be represented by works drawn together for the first time for Nittany Mountain Summer. The show will exhibit a wide variety of styles, techniques,

and interpretations by five established artists on the current Pennsylvania art scene.

Penn State's Festival of American Theatre is again staging a season of classic American plays in its fifth year of a Bicentennial commitment to the nation's theatre heritage.

At the heart of Nittany Mountain Summer is the series of informal contains between the artists and visitors provided in afternoon sessions in the theatres, auditoriums, and galleries. Behind the Scenes with the Festival Theatre will be held at 3:00 p.m. on Friday, August 8, in the Playhouse for "Girl Crazy" and on Friday, August 15, for "Awake and Sing."

At Ease with the Pennsylvania Ballet will introduce the audience to Benjamin Harkavy, Pennsylvania Ballet artistic director, as he leads informal sessions with dancers to illustrate choreography, rehearsal, and performance at 4:00 p.m. on August 2, 9, and 16 in University Auditorium. In Museum tours, guides will discuss the artists and their work in a tour of current exhibits at 1:00 p.m. every Friday, Saturday, and Sunday during Nittany Mountain Summer.

Nittany Mountain Summer is made possible by grants from the Penn State Office of Gifts and Endowments, the Pennsylvania State Council on the Arts, and the National Endowment for the Arts, a federal agency.

Applications for the Pennsylvania Ballet performances are available at the University Auditorium box office from 10:30 a.m. to 4 p.m. daily except Sunday.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 885-1387 (Network Line 475-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, JULY 31, 1975
DIRECTOR OF NURSING SERVICES — Hershey Medical Center

Responsible to the Hospital Director for the efficient operation of the Nursing Department. Responsibilities include planning, organizing, staffing, in-service and budget. Position requires a Master's degree or equivalent in Nursing Administration and a minimum of five years progressively responsible administrative experience. Experience in a university hospital is desired.

WAGE/SALARY CLASSIFICATION ANALYST — Hershey Medical Center

Confer with Department Chairmen, Department Heads, Supervisors, and employees to gather information for the review and evaluation of existing position or evaluation of new position. De-

velop job descriptions based upon compiled data to reflect duties and responsibilities to be performed. Classify position descriptions under provisions of Fair Labor Standards Act to determine exempt or non-exempt status and appropriate evaluation plan. Determine salary and grade within the college, technical, and professional scales. Give three years applicable experience. Determine degree or equivalent or a minimum of two years administrative experience is required, preferably in job evaluation and classification activity.

COUNSELOR, STUDENT AFFAIRS — University Park

Responsible to the Director of the Career Development and Placement Center for providing assistance and/or consultation to any student who requests help in planning or implementing a career plan. Assist in the development and delivery of life/career education and outreach programs. Master's degree or equivalent in counseling psychology or related field and, plus three years applicable experience (educational/vocational counseling).

The University is an Equal Opportunity Employer.

PENN STATE intercom

Volume 4, Number 46

July 31, 1975

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Instruction cut by \$657,000 in final bill

Legislature approves \$102.7 million

The Legislature on July 24 approved an appropriation of \$102,708,000 for the University for the 1975-76 fiscal year and sent the bill to the Governor who has ten days to act on it.

The bill, originating as Senate Bill 771, provided for an appropriation of \$103,365,000. In the House, the amount for instruction was reduced by \$657,000 and the Senate on Thursday concurred in the House action, moving the bill to the Governor for signature.

The reduced amount will necessitate some revision in the 1975-76 budget approved on July 18 by the Board of Trustees, which was based on the \$103,365,000 amount, but the basic budgetary guidelines in regard to salary adjustments for employees and to tuition will not change. Salary increases will be retroactive to July 1, and it is expected the Aug. 29 and Aug. 31 checks will reflect the increases. A check for the retroactive pay should be available early in September.

As now approved by the Legislature, the bill provides \$71,593,000 for instruction; \$1,760,000 for student aid; \$17,064,000 for research; \$9,626,000 for extension and public service; and \$2,665,000 for medical programs. It allows for 5 per cent flexibility in transferring funds from one line item to another.

Provisions to prohibit tuition remission for University employees and their dependents and also to require a five per cent retrenchment of personnel which appeared in the original version of the appropriation bill were dropped from the legislation as finally approved by the General Assembly.

Calendar—July 31 to August 10, 1975

SEMINAR

Thursday, July 31 — Agronomy, 3 p.m., Room 301A Agricultural Administration. Dr. C. E. Marshall, University of Missouri, on "Solution Equilibria in a Soil Profile."

LECTURE

Thursday, July 31 — College of Education, Harold Mitzel, associate dean for research and graduate study, College of Education, on "A New Structure for Research in Education," 7:30 p.m., Room 112 Kern.

Monday, Aug. 4 — Material Sciences, Prof. John Thomas, University College of Education, "Characterization and Consequences of Defects in Organic Solids," 11:00 a.m., Room 301 Mineral Industries. Monday, Aug. 4 — Material Sciences, Prof. H. P. Boehm, University of Munich, Germany, "Molecular Sieve Carbons from Carbides," 4:00 p.m., Room 301 Mineral Industries.

Tuesday, Aug. 5 — Material Sciences, Prof. Erich Fritzer, Karlsruhe University, Germany, "Silicon Carbide Fibers and Composites Made Therefrom," 9:30 a.m., Room 301 Mineral Industries.

Thursday, Aug. 7 — Material Sciences, Dr. Kazuo Kobayashi, National Industrial Research Institute of Kyushu, "Summary of Research Activities on Carbon," 11:00 a.m., Room 301 Mineral Industries.

Friday, Aug. 8 — Material Sciences, Dr. Kazuo Kobayashi, National Industrial Research Institute of Kyushu, "Summary of Research Activities on Carbon," 11:00 a.m., Room 301 Mineral Industries.

Friday, Aug. 8 — Material Sciences, Dr. Theodore Davidson, Xerox Corporation, Rochester, New York, "Micromechanics of Deformation Yielding and Texture Development in PTFE," 2:00 p.m., Room 244 Deike.

SPECIAL EVENTS

Friday, Aug. 8 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, Aug. 1-2 — Pennsylvania Ballet, "Madrigalesco," "Concerto Grosso," "After Eden," "American Rhapsody," 8 p.m., University Auditorium.

Friday-Saturday, Aug. 1-2 — Play, "You're A Good Man, Charlie Brown," by Graduate Student Association, 7 p.m., both days, and 1 p.m. Saturday, outdoors, Fisher Place. Rain date, Aug. 3, 1 and 7 p.m.

Friday-Sunday, Aug. 1-3 — Penn State Festival Theatre, "Girl Crazy," 8 p.m., Playhouse Theatre.

Saturday, Aug. 2 — At ease with the Pennsylvania Ballet, "The Making of a Dancer," 4 p.m., University Auditorium.

Sunday, Aug. 3 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

Monday, Aug. 4 — Outdoor concert, The Dance Band, 7 p.m., Fisher Place.

Tuesday-Sunday, Aug. 5-10 — Penn State Festival Theatre, "Girl Crazy," Playhouse Theatre, Tuesday-Saturday at 8 p.m., Saturday matinee, 2 p.m., Sunday at 7:30 p.m.

Wednesday, Aug. 6 — Pennsylvania Orchestra Shirt-Sleeve Concert, 8 p.m., University Auditorium.

Friday, Aug. 8 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday, Aug. 8 — Behind the scenes of "Girl Crazy," 3 p.m., Playhouse Theatre.

Friday-Sunday, Aug. 8-10 — Penn State Festival Theatre, "Awake and Sing," Pavilion Theatre, Friday-Saturday at 8 p.m., Sunday at 7:30 p.m.

Friday-Saturday, Aug. 9 — Pennsylvania Ballet, "Recital for Cello and 6 Dancers," "In Retrospect," "Raymonda Variations," 8 p.m., University Auditorium.

Saturday, Aug. 9 — At ease with the Pennsylvania Ballet, "The Choreographer's Craft," 4 p.m., University Auditorium.

Sunday, Aug. 10 — Interludia Folk Dance Club, 7:30 p.m., HUB terrace (in case of rain ballroom).

Sunday, Aug. 10 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

FILMS

Thursday-Sunday, July 31-Aug. 3 — ARHS film, "Romeo and Juliet," 8 and 10:30 p.m., Findlay Rec Room.

Wednesday, Aug. 6 — Commonsplace Theatre, "A Funny Thing Happened on the Way to the Forum," 7:30 and 9:30 p.m., Room 112 Kern.

Thursday-Sunday, Aug. 7-10 — ARHS film, "Monkey Business," 8 and 10 p.m., Findlay Rec Room.

EXHIBITS

Museum of Art — Linda Plotkin, "Bellefontaine Courthouse: Evolution of a Print," Gallery A. Five Pennsylvania Painters, Gallery B. Twenty paintings on wood panels from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Selections from the Permanent Collection, Gallery C.

Zoller Gallery — Central Pennsylvania Festival of the Arts Invitational Art Exhibition, until Aug. 7.

Kern Gallery — Ernest Beinhardt, photography, until Aug. 9. Nabil El Hussein, multi-media, opening Aug. 10.

HUB Gallery — Central Pennsylvania Festival of the Arts exhibition of children's art and young adults' arts and crafts, until Aug. 8.

News in Brief

CATASTROPHIC CARE FUND

At the Hershey Medical Center, the Catastrophic Care Fund has helped seven families, with grants totalling \$12,265 and individual grants ranging from \$600 to \$3,000. The families aided live in Centre Clinton, Franklin, Lebanon and York Counties. Last November five other grants, totally \$5,500, were made. The Fund is an accumulation of gifts made by area businessmen, industries, and individuals to provide financial relief from extraordinary burdens resulting from care and treatment at the Center. One heart patient, for example, whose wife is a cancer victim, was aided; another was the family of a premature baby who was in the Center's infant intensive care unit for nearly two months.

STUDENT WORK STUDY PROGRAM

The University has received \$238,000 in additional Federal funds to give employment to students under the Federal College Work Study Program. To qualify for the Work Study Program, students must be financially needy, and the program provides a work experience related to the student's area of study. The University adds to the Federal funds by allocating 20 per cent of the student's wages.

DEGREES AWARDED

The University awarded a total of 11,014 degrees during the academic year just con-

cluded; since the University began, as the Farmer's High School in pre-Civil War days, 192,567 degrees have been granted, nearly half of them since 1964. Of this year's total, 7,756 were bachelor's degrees, 1,263 were associate degrees, 1,526 were master's degrees, and 469 were doctorates.

LOAN FUND

A new student loan fund has been established for College of Medicine students at the Hershey Medical Center. The new fund has been developed with reserve funds made available through the University's withdrawal from the United Student Aid Loan Fund. Noting a concern over possible decline in financial aid for medical and health profession students, University officials said the new fund will develop into a larger loan program for these students... Under the plan, approximately \$200,000 will be available in the loan program to provide financial assistance for medical students.

EXHIBITION AND SALE

An exhibition and sale of approximately 600 original prints from the Ferdinand Roten Galleries collection will be held from 10:30 a.m. to 5 p.m. on Friday, Aug. 1, in the main lounge of the Hetzel Union Bldg. at the University. Presented along with prints by Picasso, Goya, Renoir, and Hogarth will be works by many contemporary artists. The show is sponsored by the Hetzel Union Bldg. arts and crafts committee.

Music, dance, painting featured

Arts continue in campus spotlight

Athletics from soccer to karate are the subject of "Concerto Grosso," one of four dances to be performed by the Pennsylvania Ballet at 8:00 p.m. Friday and Saturday, August 1 and 2, in University Auditorium during Nittany Mountain Summer.

The lighthearted, balletic look at sports by Charles Czorny, a choreographer whose works are in international demand, is set to Handel's "Concerto Grosso, Opus 6, No. 5" and features dancers engaged in such other athletic pursuits as boxing, skating, and warm ups.

Also on the program for the first weekend performances are "Madrigalesco," choreographed by Pennsylvania Balletistic director Benjamin Harkavy to music by Vivaldi, Butler's "After Eden," and "American Rhapsody."

Ballet tickets for performances on Aug. 1 and 2, 8 and 9, and 15 and 16 are available at the University Auditorium box office from 10:30 a.m. to 4:00 p.m. Monday through Saturday. The box office will reopen at 6:30 p.m. on performance nights.

The Pennsylvania Orchestra, which is here for three weeks during the Nittany Mountain Summer program, will give two more short-season concerts in University Auditorium, August 6 and 13. The first concert was given yesterday, July 30.

Maurice Kaplow, who is music director for Pennsylvania Ballet for which the orchestra provides music in performance, will conduct the orchestra in its concerts and will also give informal comments on the selection of music, ranging from medieval to contemporary.

Seating is on a first-come basis; tickets (free) are available at no cost at the

University Auditorium and Festival Theatre box offices, and if any remain on the day of the performance, they will be available at the door of the auditorium.

Grants from the Pennsylvania Council on the Arts, the National Endowment for the Arts, and Penn State's Office of Gifts and Endowments make possible the free concerts.

An exhibition of the works of "Five Pennsylvania Painters" opened last Sunday in the Museum of Art.

Each of the painters — Neil Anderson, Morris Berd, Elizabeth Osborne, Lois Kaufman, and Donald DeMauro — is showing six to nine works. Anderson is at Bucknell University, Berd at the Philadelphia College of Art, Miss Osborne at the Pennsylvania Academy of Fine Arts, DeMauro at Hargreaves College, SUNY at Binghamton, and Mrs. Kaufman at Duquesne University.

The painters' work varies in style from the abstract to the literal representation. Subjects in the show include a wide range of subjects, from DeMauro's self-portraits and Osborne's landscapes to Kaufman's "Yellow Squares." Among Berd's paintings will be his "Pennsylvania Barn," with Anderson exhibiting a series of seven works, each titled "Ground Painting."

"Five Pennsylvania Painters" is the first joint exhibition by the five painters, all of whom have exhibited extensively and are represented in numerous public and private collections.

Free tours of the exhibition will be conducted every Friday, Saturday, and Sunday at 1:00 p.m. through Nittany Mountain Summer ending August 16. "Five Pennsylvania Painters" will be on view through September 7.

Mueller honored

Dr. Erwin W. Mueller, Evan Pugh research professor of physics, has been awarded a honorary doctorate from Claude-Bernard University, Lyon, France, to his already long list of international honors.

The doctorate was conferred on Prof. Mueller June 24 as part of a special program to mark the 200th birthday of physicist Andre-Marie Ampere.

Prof. Mueller, a member of the National Academy of Sciences, was cited as "the inventor of the field ion microscope which enabled him to see the individual atoms of metal surfaces for the first time" and as "the originator of almost all the techniques and applications of his microscope."

Due to an illness, Prof. Mueller was unable to attend the ceremonies. The insignia of the honor, a scroll, medal, and emerald-trimmed ceremonial stole, were accepted for him by Kenneth W. Burke, a representative of the American Consulate General in Lyon.

Pivot Published

The 25th anniversary edition of "Pivot," the poetry magazine founded by Joseph L. Grucci, retired associate professor of English at the University, has just been published.

A non-subsidized, self-supporting "little magazine," "Pivot" has printed not only student work but also poetry written by many University faculty and staff as well as by such distinguished outsiders as former Senator Eugene J. McCarthy.

"Pivot" grew out of the successful Poetry Workshop which Grucci conducted at Penn State. The current issue includes both new poetry and reprints from earlier editions. Among Penn State contributors are John A. Balaban, assistant professor of English; Jack B. McManis, assistant professor of English; Hans Neuberger, professor emeritus of meteorology; and Stanley Rosen, professor of philosophy.

Also Jo C. Searles, assistant professor of English (Altoona); John E. Haag, associate professor of English; Deborah S. Austin, professor of English; G. Brant Shoemaker, Jr., associate professor of English (Gogotz); and Robert F. Lima, Jr., professor of Spanish and comparative literature.

In writing

"Buddhism: A Modern Perspective," edited by Dr. Charles S. Prebish, assistant professor of religious studies, is the latest publication of The Pennsylvania State University Press. An attempt to supply a comprehensive introductory text for students with no prior knowledge of Buddhism, the book also includes several topics previously untouched by introductory volumes on Buddhism. These include a separate treatment of Buddhist councils, a section on Hinayana sects, and a full discussion of the Tripiṭaka or Buddhist canon. Buddhism outside India is treated in chapters on China, Japan, Ceylon, Tibet, Southeast Asia and Korea. In addition, Buddhism and the West is considered, and an appendix has been compiled with a partial listing of representative Buddhist groups in the United States. In addition to editing, Dr. Prebish prepared nine of the book's 45 chapters and helped assemble the appendix. A member of the faculty since 1971, he also is the author of "Buddhist Monastic Discipline," published earlier this year by the Press.

GSA stages outdoor play this weekend

Three performances of "You're A Good Man, Charlie Brown" will be staged by the Graduate Student Association Aug. 1 and 2 outdoors in the Herman G. Fisher Plaza courtyard between Kern and Chambers Bldgs.

Evening shows at 7 p.m. will be held both days and a Saturday matinee, to which students are especially invited, will be held Saturday at 1 p.m. There is no admission charge for any performance. Rain dates are 7 p.m. and 1 p.m. Sunday, August 3.

This is a musical play based on the Peanuts characters of the Charlie Schultz comic strip. Charlie Brown will be played by Sam Rudy, a student majoring in English who is past president of Penn State

Appointment

Dr. Gary Mullen, as assistant professor of mathematics at the Shenango Valley Campus. He received both advanced degrees from Penn State, the Ph.D. only last year. While obtaining the degree, he taught math and was a graduate assistant.

Dr. Robert E. Weber, as assistant professor of mathematics at the Shenango Valley Campus. He has been assistant professor of mathematics as Indiana University Southeast and previously had served as lecturer in mathematics at Southern Illinois University. His Ph.D. degree was granted by Indiana University.

Dr. Samuel Kotz, professor of mathematics at Temple University, is visiting the University this summer as an adjunct professor of statistics. A specialist in statistical distribution theory, Dr. Kotz is working with Dr. G. P. Patil, professor of mathematical statistics, on the contents of a new course to be called The Art of Guessing — Statistical Thinking.

John C. Cosgrove, Jr., a 1938 Penn State graduate in mining engineering with an extensive background in the mining industry abroad, has been named coordinator of the new two-year associate degree program in mining engineering technology at the Altoona Campus. Since 1948, Cosgrove has been associated with the Goodman Manufacturing Co. of Chicago, most recently as product sales manager in charge of marketing gold mining machinery and hard rock tunneling equipment. Previously he had surveyed gold fields in South Africa and had served as an engineering lieutenant in the South African army.

Faculty notes

Dr. Joseph Jordan, professor of chemistry, will spend the 1975-76 academic year traveling and on leave in Paris where he will conduct research at the French National Center for Scientific Research in cooperation with the staff of the analytical chemistry laboratory. In the spring of 1976, he also will serve as visiting professor at the University of Paris where he will teach two courses in the doctoral program. Before going to Paris, he will present a research paper at the fourth International Conference on Chemical Thermodynamics sponsored by the International Union of Pure and Applied Chemistry (IUPAC) in Montpellier, France. The paper is reported on by the doctoral student with Dr. Raymond Bury, a former post-doctoral scholar from the University of Paris who worked with Dr. Jordan at Penn State. In the fall, Dr. Jordan will go to Madrid, Spain, for the 28th IUPAC conference Sept. 2-11.

From Oct. 27-31, he will attend the third International Symposium on Bioelectrochemistry in Jülich, West Germany, where he will present a paper with Prof. Maurice Gross of Louis Pasteur University, Strasbourg, France. Prof. Gross also holds the position of adjunct professor of chemistry at Penn State where he and Dr. Jordan conduct a NATO-sponsored study of biochemical modelling. The NATO grant also provides for Drs. Jordan and Gross and their students to exchange visits throughout the year.

Dr. Jordan also will serve as the official IUPAC representative at the symposium and will present greetings from the Union at the opening meeting.

Thespians and appeared in a number of shows on campus.

Other roles include those of Lucy, played by Jody Brinley, a graduate student in music education; Peppermint Patty by Mia Dillon, a graduate of theatre arts; Linus, by Joel Gori, current graduate student in theatre arts; Snoopy by Jim Reed, an undergraduate in theatre arts.

The music director of the show is Ron Byron, undergraduate in music education, who also handles the role of Schroeder. Marc Field, a graduate student in theatre arts who has worked on a number of University Theatre productions, directs the show. And the choreographer is Janie Giotte, a theatre arts dance major.

In two decades at Hazleton, Kafka acquired many friends

He served campus and community

One of the pleasant hazards of retiring, for someone like Andrew K. A. Kafka, is the banquet. It's pleasant because the comments and speeches bring out the finer points of the honored guest; it's a hazard to the waistline.

Prof. Kafka has served the Hazleton Campus and the community of Hazleton for twenty years. He's acquired a host of friends and the respect of colleagues and students. The natural result was that when his plan to retire July 1 was made known, various groups began organizing a way to recognize and honor him, and usually it meant that a dinner was to be the occasion. Here is a partial list of groups that held banquets at which he was honored:

At the Hazleton Campus, colleagues, administrators, members of the staff, and representatives of the Hazleton Area Community.

At University Park, colleagues from all the Commonwealth Campuses and University Park, and deans of the College of the Liberal Arts.

By the Nursing School faculty of the State General Hospital at Hazleton, where he taught speech communication, reading, listening, and writing for ten years.

By the Greater Hazleton Alumni Club.

By the students at the Honors Awards banquet.

By the Great Books Society of the Lower Luzerne County where he has been moderator for nineteen years.

By the Student Parnassus chapter of the Keystone Society.

The list only serves to point up the involvement of a faculty member, especially one at a Commonwealth Campus, in a

Solar astronomer Hagen has retired

Dr. John P. Hagen, professor and head of the Department of Astronomy, retired July 1 with the rank of professor emeritus of astronomy. One of the world's leading solar radio astronomers, Dr. Hagen joined the Penn State faculty in 1962. Previously he was associate director for long-range planning of NASA; director of the Project Vanguard satellite program, the first major U.S. space effort; and Division Superintendent at the Naval Research Laboratory, Washington, D.C. He came to Penn State to initiate a graduate program in radio astronomy in the Department of Electrical Engineering. By 1965, he had established a full Department of Astronomy which offered bachelor of science, master of science, and doctor of philosophy degree programs.

In addition to the department structure, Dr. Hagen also planned and established the astronomical facilities at the University which are second to none in the state. The facilities include the Radio Astronomy Observatory with its 30-foot antenna, the optical observatory at Black Moshannon where there are 60-inch and 24-inch telescopes, and a 16-inch and two smaller telescopes for undergraduate instruction at Drey Laboratory.

Active in research as well, Dr. Hagen has used the facilities along with faculty and students to conduct a long series of observations and studies of the sun. These observations have yielded information on the nature of the solar chromosphere, the nature of solar flares and bursts, the relation between radio and optical effects, and the source of disturbances in the sun's atmosphere. In addition, he has led expeditions to Mexico and Mauritania to study solar eclipses. The expeditions produced new and surprising information about the sun and the solar atmosphere.

For his service to the nation, he has received the Presidential Certificate of Merit and the Distinguished Service Medal of the Navy. He has also received honorary doctoral degrees from Adelphi College, Boston University, Fairleigh University, Loyola University, and Mount Allison (in his native Canada).

He was graduated with a bachelor of science degree in physics and astronomy from Boston University, received his master of science degree from Wesleyan University and the doctor of philosophy degree in astronomy from Georgetown University.

At his last commencement at Hazleton Campus, Andrew Kafka, (right) as faculty marshal presided over the degree-granting authority to Campus Director Dr. William J. David.

variety of activities useful to the campus and community, in addition to classroom instruction. He taught many students in speech communication and English who ultimately became outstanding majors in those fields at University Park and in graduate schools. He was Campus Director to students both in their majors and in their extracurricular activities, and he worked with alumni.

"It's one of my pleasures that I still receive much mail from former students, widely scattered now throughout the country and the world," he declares.

Prof. Kafka was founder and advisor of the annual TruCounty Senior High School Oral Interpretation Festival, and he founded the Hazleton Campus festival for the campus students. He also founded and was advisor to the Hazleton Campus Library and Cultural Society, as well as the Students for a More Creative Society organization that publishes the campus literary magazine. He is faculty advisor and parliamentarian for the Penn State Alumni Club of Greater Hazleton.

Also in the community, Prof. Kafka was moderator of the Great Books Society, an adult community group, for 19 years, and was coordinator and frequent participant in the dramatics readings given by the group. (This is an activity he plans to continue in retirement.)

The Theatre of the Nine Muses, a regional group of the area's Arts League, has used him as literary and speech consultant, in producing such plays as Jean Giraudoux's "The Mad Woman of Chaillo" and "Media" by Euripides.

The list of speeches he has made to a wide variety of groups ranges from "What Makes Drama Dramatic" to "What Is The Reading Process?" And to help students develop their speaking skills, he conducted a campus Student Speech Bureau, so that undergraduates could line up (on invitation) talks before community groups like Kiwanis.

Various county and community speech and essay writing projects relied on him as judge, such as the National Forensic League, P.T.A., Penna. High School Speech League, Junior Chamber of Commerce, Soroptimist Society, Recreation groups, various women's auxiliary groups, National Association of Broadcasters, and many more.

In service on the campus, he was secretary for the Campus-Community Relations Committee, member of the Faculty-Tenure Evaluation Committee and of the Faculty Promotion Evaluation Committee, and was Faculty Marshal for Commencement Exercises for many years.

For Continuing Education, Prof. Kafka taught master's level courses and conducted one-day workshops for secretaries and other personnel on "The Role of Oral Communication in a Variety of Social Situations." And he taught nursing students through Continuing Education for a decade.

Prof. Kafka got to Hazleton via Boston University, University of Wisconsin, and Rider College. He earned his bachelor's degree at New York University, with a major in English, and was granted M.A. degrees by both Columbia University (educational guidance, and Brooklyn College, in English).

And now, having survived the banquet circuit, he will continue to live in Hazleton and continue to see students on the campus, through the various literary and speech organizations.

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

News in Brief

BEHREND ROTC

An Army Reserve Officers' Training Corps program will be offered at Behrend Campus for the first time starting with the Fall Term, Dean of Students Dr. Thomas G. Fox has announced. Behrend is the sixth Penn State campus to offer the program, which is also given at Altoona, Delaware County, Ogontz, Schuylkill and University Park. Major Robert Morrell, instructor at University Park for three years, is organizing and directing the program.

MEDEX PROGRAM

Certificates were awarded to 19 students at the Hershey Medical Center last week signalling successful completion of the MEDEX program, a 15-month curriculum for physicians' assistants enabling them to carry out the work of a physician's extender. They had three months of classroom and clinical instruction at the Medical Center and 12 months of training with physician preceptors. This is the third MEDEX program, and it brings to 48 the number that have been trained at Hershey. Currently, 26 more are in training. The department of family and community medicine directs the program, which is funded by contracts from the National Institutes of Health. These assistants are trained to take patients' histories, perform physical exams, assist in laboratory studies, give injections, suture wounds, and perform other procedures, to give the physician preceptor more time to concentrate on more sophisticated diagnosis and treatment needs.

SHENANGO GRANT

A federal grant from the Office of Education in the amount of \$7,648 has been awarded to the Shenango Valley Campus to conduct two seminars to acquaint collegiate financial aid personnel with the latest information concerning grants and scholarships to students. The program is designed to serve the state of Ohio, Maryland, Pennsylvania and Western New York. The grant will be administered by Robert Tormin through the office of Continuing Education, Robert Hummer, assistant professor of business administration, will act

as Project Director and Clifton Sando, campus financial officer, will serve as basic resource person.

FOOD HANDLING WORKSHOP

With the aid of a National Science Foundation grant, the Agricultural Engineering Department is conducting a workshop on "Design Applications of Mechanical Properties of Solid Food Materials," today (Aug. 7) and tomorrow.

Thirty specialists in the design of machinery and equipment related to the handling of food materials from the field to the processing plant are taking part in the workshop, in which the mechanical properties of various foods and their applications to design of machinery will be discussed in 15 papers. Those attending are from 20 states and Canada.

HERSHEY STAFF

Fifty-five physicians have joined the house staff — to take further specialized training while helping to provide patient care — at the Hershey Medical Center. Seven are May graduates of the College of Medicine and two are alumni. In total, 137 physicians are currently on this staff. Nearly three-fourths of the new residents received M.D. degrees outside of the state.

FOLKLORE OPTION

A Folklore Option will be added to the program of the College of the Liberal Arts, complementing several existing majors and departments, including Comparative Literature and African, Slavic and American Studies.

Students entering the option will be able to choose a minimum of 24 credits from previously existing courses and one new offering.

The program will provide practical training for students entering such fields as social work, black studies, ethnic studies, anthropology, museum administration, and other professions relating to specific ethnic groups. The option is also intended to help preserve the folklore and cultural heritage of Pennsylvanians.

Retirees Doggett, Weyl die

Leonard A. Doggett, who served on the faculty in electrical engineering for 26 years until his retirement in 1949, died Saturday, July 26, in Monroe County where he has resided in recent years. He received an A.B. degree in 1908 and an M.E.E. degree in 1910 from Harvard University, and in 1930 he received an E.E. degree from Penn State. He was an instructor at Harvard and later professor of electrical engineering at the post-graduate school of the U.S. Naval Academy for ten years before coming to Penn State. After his retirement, he served for four years at Bucknell University and the University of Florida. From 1950 to 1967 he was a senior and later staff engineer at Haller, Raymond and Brown, Inc. He was born in Boston in 1888. Among his many publications were three textbooks. He served on the State College Borough Council in 1939-41.

Dr. Waldemar A. Weyl, research professor emeritus of physical science, died Wednesday, July 30, in Centre Community Hos-

pital, State College. He was born in Darmstadt, Germany, June 13, 1901. He received the Diploma Ingenieur in 1929 from Darmstadt Technical University and doctorate in chemical engineering from Aachen Technical University in 1931. From 1926 to 1936 he was head of the department of glass research at what is now the Max Planck Institute. In 1936 he came to Penn State as a visiting professor of ceramics, for a year, returning then to Germany, but in 1938 he accepted the permanent position of professor of glass technology in the department of ceramics. In 1943 he became a U.S. citizen. From 1948 to 1960 he was chairman of the division of mineral technology, and in 1960 was named Evan Pugh Research Professor in Physical Science. He did research in solid state physics and chemistry, and his work led to a hundred papers and 14 patents, as well as a book on "Coloured Glasses," and contributions to other volumes. After his retirement in 1966, he served as distinguished visiting professor at American University, Cairo, for six months.

Smoking policy in effect Sept. 1

The following policy regarding smoking in University facilities concurs with the recommendations to President John W. Oswald by the University Council. The policy takes effect September 1, 1975.

The policy on smoking is applicable to all facilities of The Pennsylvania State University except the Milton S. Hershey Teaching Hospital, the Ritenour Health Center, the J. Orvis Keller Building, and the Nittany Lion Inn, each of which has special smoking regulations.

The general purpose of the University policy on smoking is to protect the rights of nonsmokers, to provide ample arrangements for smokers, and to take into consideration the appearance and maintenance of University facilities. In order to achieve this purpose, it is necessary to prohibit smoking on certain premises while at the same time providing designated areas in public facilities where a person can engage in smoking as set forth in the following regulations:

Smoking is permitted in the following areas:

1. Hallways where receptacles have been provided and where no contrary instructions have been posted.
2. Specially designated study areas, dining facilities, and public lounges.
3. Private offices and private laboratories, at the discretion of the assigned occupants.
4. Designated foyers and lobbies.

Smoking is not permitted in the following areas:

1. Classrooms and seminar rooms.
2. Study areas, dining facilities, and public lounges except in special segregated areas provided for smokers.
3. Auditoriums, museums, and exhibition galleries.
4. Laboratories.
5. Elevators and stairwells.
6. Indoor recreational areas.
7. Committee meeting and conference rooms.

Violations of the University Policy on Smoking are to be submitted to the scheduling officer of the campus concerned who will route the information to the administrative officer or to the academic dean of the unit against which the complaint is lodged. It is the responsibility of the appropriate administrative officer or academic dean to ensure that the policy on smoking is observed and to take corrective actions where violations occur.

Calendar—August 7-17, 1975

SPECIAL EVENTS

Thursday, Aug. 7 — Graduate Student Association outdoor program by the Buffalo Chipsticks, 7:30 p.m., Fisher Plaza at Kern Bldg.

Thursday-Sunday, Aug. 7-10 — Penn State Festival Theatre, "Giri Crazy," Playhouse Theatre, Tuesday-Saturday, at 8 p.m., Saturday matinee, 2 p.m., Sunday at 7:30 p.m.

Friday, Aug. 8 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday, Aug. 8 — Behind the scenes of "Giri Crazy," 3 p.m., Playhouse Theatre.

Friday-Sunday, Aug. 8-10 — Penn State Festival Theatre, "Awake and Sing," Pavilion Theatre, Friday-Saturday at 8 p.m., Sunday at 7:30 p.m.

Friday-Saturday, Aug. 8-9 — Pennsylvania Ballet, "Recital for Cello and Eight Dancers," "In Retrospect," "Raymonda Variations," 8 p.m., University Auditorium.

Saturday, Aug. 9 — At ease with the Pennsylvania Ballet, "The Choreographer's Craft," 4 p.m., University Auditorium.

CALENDAR DEADLINE

Information is being collected now for the Fall Term calendar, to appear in the Sept. 4 issue of INTERCOM. The deadline for receipt of such information is August 20; send to INTERCOM, Room 312 Old Main. The calendar is related only to the University Park campus but a very limited number of events of unusual interest at other campuses may be included. A generalized seminar calendar is listed if departments plan weekly or bi-weekly programs, but only the day of the week, time and place will be listed, for reasons of space. Special events, including conferences of particular interest to the faculty, are welcomed.

Sunday, Aug. 10 — Interlandia Folk Dance Club, 7:30 p.m., HUB terrace (in case of rain, ballroom).

Sunday, Aug. 10 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

Tuesday-Saturday, Aug. 12-16 — Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.

Wednesday, Aug. 13 — Pennsylvania Orchestra Shirt-Sleeve Concert, 8 p.m., University Auditorium.

Friday, Aug. 15 — Behind the Scenes of "Awake and Sing," 3 p.m., Pavilion Theatre.

Friday, Aug. 15 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, Aug. 15-16 — Pennsylvania Ballet, "Adagio Hammerklavier," (Premiere to be announced), "Scotch Symphony," 8 p.m., University Auditorium.

Saturday, Aug. 16 — At ease with the Pennsylvania Ballet, "Rehearsal Studio to Stage," 4 p.m., University Auditorium.

Sunday, Aug. 17 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

LECTURES

Thursday, Aug. 7 — Material Sciences, Dr. Kazuo Kobayashi, National Industrial Research Institute of Kyushu, "Summary of Activities on Composite Studies," 11:00 a.m., Room 301 Mineral Industries.

Friday, Aug. 8 — Material Sciences, Dr. Kazuo Kobayashi, National Industrial Research Institute of Kyushu, "Summary of Recent Research Activities on Carbon," 11:00 a.m., Room 301 Mineral Industries.

Friday, Aug. 8 — Material Sciences, Dr. Theodore Davidson, Xerox Corporation, Rochester, New York, "Micromechanics of Deformation Yielding and Texture Development in PTFE," 2:00 p.m., Room 244 Deike.

(Continued on page two)

Council's gavel changes hands

Outgoing chairman, Oscar E. Fox (York Campus, second from left), of the Council of Assistant Directors for Residential Assistant Associate Directors for Academic Affairs, passes the gavel to incoming chairman Anthony J. Helt (Brewer Campus) with Dr. Robert G. Quinn (left), dean of academic instruction for Commonwealth Campus, and Joseph F. Douglas (far right, standing, looking on). The Council, composed of 10 to 12 members, is charged with maintaining clear lines of communication in academic affairs for the Campuses, held monthly or bi-monthly to establish methods for reducing problems related to scheduling, registration, class section size, student transfer, and faculty evaluation. The committee includes either an assistant or associate director for each of 15 campuses, and at its meeting invites staff members from University Park for consultative purposes. Dean Quinn and Dean Douglas meet regularly with the Council, some of whose members are in the background of the picture.

Rhodes stars in Ballet concerts

Lawrence Rhodes, universally acknowledged to be one of ballet's leading male dancers, will perform in two of the three dances by the Pennsylvania Ballet at 8:00 p.m. Friday and Saturday, August 8 and 9, in University Auditorium.

The program for the second Nittany Mountain Summer weekend will feature Mr. Rhodes in Robert Rodham's "In Retrospect" and "Recital for Cello and Eight Dancers" by Benjamin Harkavy, Pennsylvania Ballet artistic director. Completing the program will be George Balanchine's "Scotch Symphony."

In "In Retrospect," Mr. Rhodes, probably best known as a dramatic dancer, appears in a dramatic role, that of a man examining his past and reflecting on the relationships he has had with five different women.

CALENDAR

(Continued from page one)

FILMS

Thursday-Sunday, Aug. 7-10 — ARHS film, "Monkey Business," 8 and 10 p.m., Findlay Rec Room — GSA sponsored, outdoors, Fisher Plaza, 9 p.m. "War of the Worlds."

Wednesday, Aug. 13 — Commonsplace Theatre, "The Magic Christian," 7:30 and 9:30 p.m., Room 112 Kern.
Thursday-Sunday, Aug. 14-17 — ARHS film, "Go West," 8 and 10 p.m., Findlay Rec Room.

WPSX highlights

Monday, Aug. 11 — Water for the urban population is discussed on "Men Build, Man Destroys," at 7:30 p.m.

Monday, Aug. 11 — At 8 p.m., "Essence," a 90-minute film taken in an Anglican monastery in the Middle West, dealing with Christianity in the context of contemporary society.
Tuesday, Aug. 12 — At 8:30 p.m., the Kansas City Philharmonic performs Tchaikovsky's "Romeo and Juliet Overture" in an unusual setting, the Kansas City rock palace, for an audience of young people.

Wednesday, Aug. 13 — Robert Rimmer's drama, "The Ceremony of Innocence," based on the story of King Ethelred II, stars Richard Kiley, James Broderick and Larry Gates, on "Theatre in America," at 9 p.m.

Auditorium makes changes for large audiences

To accommodate large audiences attending performances at University Auditorium, Auditorium Management will open the Main Lobby one hour prior to curtain time. To facilitate the flow of traffic around University Auditorium, the driveway on the north side of the Auditorium serving Shortridge Road and the parking area at the rear of University Auditorium will be one-way entering the parking area, and the driveway on the south side of University Auditorium will be a one-way exit during performance times.

When the Auditorium parking facility is full, signs indicating the situation will be posted, and a series of directional signs will direct patrons to an alternate parking facility (Blue B) at the rear of the Agricultural Administration Building. Since the University Auditorium parking facility accommodates only 300 vehicles, it is suggested that patrons arriving at the University Auditorium as late as fifteen minutes prior to curtain time proceed directly to the alternate parking facility where ample parking space is available. This system is being instituted to avoid a last minute rush at the box office and to alleviate the inconvenience of late seating at the auditorium.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (ext. 1076, line 425-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, AUGUST 14, 1975 UNDERGRADUATE STUDIES — DIVISION OF UNDERGRADUATE STUDIES — University Park

Assist with the conduct of the academic advising, informational support and counseling programs and services of the Division of Undergraduate Studies. Ph.D. with over 1 year advising experience or M.A. with 2 to 3 years advising experience plus some college teaching experience highly desirable.

CLINICAL NURSING SPECIALIST — Hershey Medical Center

Responsible to the Director of Nursing for providing expertise in a clinical specialty to the various patient units. Function as a model to other nursing personnel and students and improve clinical decision making and nursing practice. A Master's degree or equivalent in one of the fields of Nursing Clinical Specialties plus one to two years directly related experience.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS Mont Alto Campus

Responsible to and assists the Dean of Student Affairs, Commonwealth Campuses, with the general administrative duties of his office. On assignment, prepare special administrative and liaison tasks relating to Student Affairs programs, relating to Commonwealth Campuses. Coordinates student activities. Master's degree or equivalent plus one to two years of directly related experience.

ASSISTANT DIRECTOR OF NURSING FOR IN-SERVICE EDUCATION — Hershey Medical Center

Responsible to the Director of Nursing for the overall effective planning and administration of the In-service Education Program of the Department of Nursing. Master of Science degree or equivalent plus two to three years directly related experience.

Funding Opportunities

For procedural and funding source information, call 865-1372.

(185-1) Grants for education programs in occupational safety and health are supported by the Public Health Service (PHS). Both long-term and short-term training grants and direct traineeships are available. This information has been distributed. (Ref. 40FR 2070-6, 7/10/75)

(186-2) The Veterans Administration supports grants to assist in the education and training of professional and technical allied health personnel and to improve and expand health manpower distribution and utilization. Grant funds may be used for salaries, wages, supplies, and alterations and renovations of existing buildings for effective program purposes. Funds may not be used for ongoing operations, student assistance, construction of facilities, and research. The next deadline is Sept. 1, 1975. Proposals are accepted on a continuing basis. Program contact is Mrs. Martha Phillips, Director, Department of Medicine and Surgery, Manpower Grants Section, VA Medical Center, Washington, D.C. 20420 (202-688-8350). (VA program guidelines) (CFA 64-0003) (OPF deadlines)

(186-3) Proposals for the stimulation and support of research relating to the dissemination and productive use of scientific and technical information (STI), as defined by the Office of the National Science Foundation. About \$11 million will be available for the program. Proposals will be accepted in such ten categories: (1) STI for crisis management, (2) use of information files, (3) "data flagging and tagging," (4) resource sharing by abstracting and indexing services, (5) STI resource inventory, (6) STI to be selected for work, (7) computer assistance in use of STI, (8) innovative communications systems for small scientific communities, (9) video image transfer for STI dissemination, and (10) STI for cooperative education innovation. The proposal closing date for categories 1 through 7 is October 14, 1975, and for categories 8, 9, and 10, December 2, 1975. This information has been distributed. (Ref. NSF 75-23, July 1975, National and International Research, Office of Science Information Service)

(186-4) The United States-France Exchange of Science Program, funded by the National Science Foundation, has a 6-month deadline for 1975 application period. Program contact for information, guidelines and application forms is: Mr. Henry K. Schmitt, Program Manager, Office of International Programs, NSF, 1800 L Street, N.W., Washington, D.C. 20550 (202-632-5755) (Ref. OPF deadlines) (CFA 47-014)

(186-5) Advance notice of tentative priorities for exemplary programs and projects in vocational education has been given by the Office of Education. These priorities are: (1) demonstration of the NIE experience-based career education program, (2) further development and implementation of the NIE program in conjunction with an in-school cluster structure designed for occupational exploration, beginning preparation, and (3) expanding, improving, or newly developing cooperative vocational education and work experience programs (excluding those funded under PL 90-576). In addition, continuation costs may be provided for second or third-year demonstration projects. This information has been distributed. (Ref. 40 FR 30497, 8/18/75) (CFA 13-502)

(186-6) The Office of Education has set a Dec. 15, 1975 deadline for applications for Corps project preproposals and applications. Corps thrusts are emphasized competency-based teacher education, interdisciplinary training approaches, the training complex, training for implementing other

tailed experience plus graduation from an accredited school of nursing and current licensure in the state of Pennsylvania, or proof of application for licensure is required.

PROGRAM SUPERVISOR (STONE VALLEY RECREATION AREA, COLLEGE OF HEALTH, PHYSICAL EDUCATION AND RECREATION — University Park)

Responsible to Associate Director of Stone Valley for the coordination and direction of the year-round operation of the concession office, boat rentals, public use of a waterflood, lake cabins, etc. for public recreation purposes. Assist in selecting and training wage payroll personnel. Assist in performance appraisal, discipline and dismiss if necessary. Will be required to work Saturdays, Sundays and holidays. Associate will prepare or equivalent, preferably in Recreation and Parks, plus two to two and a half years directly related experience with the public. An understanding of outdoor recreation is necessary and knowledge of the operation of ground facilities is highly desired.

ASSISTANT EDITOR, PENN STATE ALUMNI ASSOCIATION — University Park

Responsible to the Executive Editor and Editor of the Penn State Alumni Association for the editing and illustrating of articles for various alumni publications, brochures, programs, solicitations and special meetings; handle advertising, special distribution of publications and files; supervise work of part-time editorial staff. Bachelor's degree or equivalent in Journalism or related area plus two to four years directly related experience in writing, editing, plus one year of experience in editing for print magazine or newspaper is required.

RESIDENCE HALLS AIDE — Capital Campus

Responsible to the Residence Living Program Director and the Residence Halls Supervisor for promoting the welfare of resident students, and overseeing the operation of the Residence Halls. High school graduate or equivalent study or training, plus one year of experience in residence halls, plus two years of directly related experience in business, or residence hall activity.

The University is an Equal Opportunity Employer.

native school designs, and training for the systematic adaptation of research findings. This information has been distributed. (Ref. 40 FR 3028, 7/18/75) (CFA 13-489)

(186-7) Undergraduate and Graduate

Security Act, grants are made to educational institutions for curriculum development, classroom instruction, and related field instruction and direct financial assistance to students enrolled in long-term training grants to institutions are available at the 75% rate for agency personnel, volunteers, service and other personnel, and for preparing for employment. Grant periods may be extended for three years. This information has been distributed. (Ref. 40FR 2551-16, 7/27/75) (Sec. 1102, 49 Stat. 67, 42 USC 1202)

(186-8) Proposed regulations for exemplary programs and projects to meet the educational needs of gifted and talented children and youth are being issued by the Office of Education. The regulations cover: scope and procedural information including preapplications; information development and dissemination; assistance in planning, development, operation, and improvement of programs operated by state and local agencies; training of state and local educators; leadership personnel training; and model projects. Comments on the proposed regulations should be submitted to the Office of Education by August 15, 1975. This information has been distributed. (Ref. 40FR3062-0, 7/22/75) (Sec. 404, PL 93-380, 20 USC 1662)

(187-1) The Emergency Energy Cooperative Administration Program of the OHEW Community Services Administration (CSA) is designed to support activities, technical assistance, assessment studies, alternate energy supplies, outreach activities, and demonstration of innovative and new technologies and related programs. This information has been distributed. (Ref. 40 FR 3162-04, 7/28/75) (Sec. 602, 78 Stat. 530, 42 USC 2942)

(191-2) Proposed regulations for OE's Modern Foreign Language Training and Area Studies programs have been issued by the Office of Education. The proposed rules cover: general provisions, doctoral dissertation research abroad, faculty research abroad, group projects abroad, foreign research, and consultation. This information has been distributed. (Ref. 40 FR 3167-24, 7/28/75) (CFA 13-438, 439-440-441)

(191-3) Student Originated Studies (SOS) program guidelines have been issued by the National Science Foundation. The program is a part of the three-part NSF Student Originated Program series and: (1) provides talented students with science (incl. eng. & social) learning opportunities, (2) increases the variety of instructional modes and student responsibility for planning, and (3) encourages students to apply technological expertise to societal problems. Guidelines for proposals is Nov. 10, 1975 to a March 1976 award date. Projects may be scheduled for a 10-12 week period between April 15, 1975 and May 31, 1977. The program is open to students in the 29 INTERCOM (181-2) are Undergraduate Research Program (URP) and Student Science Training (SST). Under the program, students may receive up to three programs have been distributed. (Ref. NSF 75-641, URP, 67-43, SST, 67-42, 67-43)

(191-4) National Endowment of the Arts (NEA) is sponsoring a program, Washington, D.C. 20506, to encourage the development of fellowships in jazz, folk and ethnic music. Awards will be made to composers and arrangers who are creating new works, or to artists who are developing, to instrumentalists and singers for career development, and to young musicians who wish to arrange tours. Grants are also available for institutions. For program information, contact performers. The application deadline is Oct. 1, 1975. For further information, write to address given above.

An internal communications medium for the academic community of The Pennsylvania State University published weekly during the four terms of the class schedule

Calendar

August 14-24, 1975

Leatrice Rhodes will be featured in the dance, "Adagio Hummerklavier," by Hans van Manen in the final performances of Pennsylvania Ballet at University Auditorium Friday and Saturday, Aug. 15 and 16, at 8 p.m. Tickets are still available at the Auditorium box office.

SPECIAL EVENTS

Thursday-Saturday, Aug. 14-16 — Penn State Festival Theatre, "Awake and Sing," 8 p.m., Pavilion Theatre.

Friday, Aug. 15 — Behind the scenes of "Awake and Sing," 3 p.m., Pavilion Theatre.

Friday, Aug. 15 — Commonsplace Coffeehouse, 8 p.m., Room 102 Kern.

Friday-Saturday, Aug. 15-16 — Pennsylvania Ballet, "Adagio Hummerklavier," (Premiere to be announced), "Scotch Symphony," 8 p.m., University Auditorium.

Saturday, Aug. 16 — At ease with the Pennsylvania Ballet, "Rehearsal Studio to Stage," 4 p.m., University Auditorium.

Sunday, Aug. 17 — Black Christian Fellowship worship service, 11:15 a.m., Eisenhower Chapel.

SEMINARS

Friday, Aug. 15 — Material Sciences, 11 a.m., Room 341 Deike. Dr. Harry Marsh, University of Newcastle, England, "The Origins and Industrial Relevance of Misophase in Carbonization and Graphitization."

Tuesday, Aug. 19 — Aerospace Engineering, 4 p.m., Room 232 Hammond. Robert A. Friday on "Teleoperator Dynamics and Control During Satellite Passivation."

Friday, Aug. 22 — Ceramic Science, 11 a.m., Room 301 Mineral Industries. Dr. Trevor F. Page, University of Cambridge, on "Deformation of SiC and SiN."

FILMS

Friday-Sunday, Aug. 14-17 — ARHS film, "Go West," 8 and 10 p.m., Findlay Rec. Room.

Saturday, Aug. 16 — Graduate Student Association outdoor film, "The Point," 9 p.m., Fisher Plaza (next to Kern Bldg.).

OFFICIAL

Wednesday, Aug. 20 — Classes end, 9:55 p.m.

Thursday-Saturday, Aug. 21-23 — Final examinations.

Sunday, Aug. 24 — Residence Halls close for Summer Term.

Saturday, Aug. 30 — Commencement, 10:30 a.m. Recreation Bldg.

For Exhibits, see page two.

ANS to celebrate 20th anniversary in meetings Aug. 17-20

The 20th anniversary of the American Nuclear Society (ANS), whose first meeting was held at Penn State in 1955, will be celebrated at the University Aug. 17-20.

Sponsored by the education division of ANS, the main feature of the celebration will be a meeting on "Nuclear Engineering Education — The Past and the Future." Purpose of the meeting is to place in perspective the development of nuclear engineering education, to reflect on past achievements, and to examine the role of nuclear engineering education in such areas as controlled fusion, non-power-producing advanced technologies, application of radiation and radioisotopes, public acceptance of nuclear power, and environmental aspects of advanced nuclear power systems.

ANS is the first wholly professional organization of scientists and engineers working in the atomic energy field. One of the group's major purposes is to foster the integration and advancement of nuclear science and technology through an inter-

change of information and dates in all branches of research.

The 30 members of the original ANS organizing committee included the late Dr. William M. Breazeale, professor of nuclear engineering at Penn State and designer of the reactor on campus which is named for him. Dr. Breazeale hosted the first annual meeting and was elected the first interim secretary of the society by the board of directors. Dr. Warren W. Miller, professor of chemistry and humanities, was local chairman of the first meeting.

Mortimer A. Schultz, professor of nuclear engineering at the University who worked for Westinghouse Electric Corporation when the society was begun, also was a member of the organizing committee. After being on the board for two years, he served as treasurer of the society. The charter membership included the directors of national and private laboratories engaged in the Atomic Energy Commission's five-year program of nuclear reactor development.

Penn State nuclear engineering faculty members who will be involved in the meeting include: Dr. Nunzio J. Palladino, dean of the College of Engineering, who will speak on the "Current Status of Nuclear Engineering Education," Dr. Edward S. Kenney and Dr. Alan M. Jacobs, whose paper on "Radiation Imaging—An Interesting Utilization of Nuclear Engineering Methodology" will be presented; Dr. Edward Klevans, who will serve as co-chairman of the "Controlled Fusion and Nuclear Engineering Education" session; Dr. William Jester, who will be co-chairman of the session on "Instructional Programs and Career Opportunities in the Application of Radiation and Radioisotopes," and Dr. Warren Witzig, head of the Department of Nuclear Engineering, who will speak on "American Nuclear Society Public Information Activities." Dr. Jester and Dr. Forrest J. Remick, assistant to the vice president for research, are on the technical program committee.

News in Brief

FOOD WORKSHOP

A workshop with the purpose of giving members of the University community — faculty, staff and students — a broad overview of current food-related issues, will be held Sept. 30-Oct. 1 at University Park, with speakers from many segments of the University discussing such topics as "Animals and Plants: Optimizing Life on a Small Planet," and "Are Food Shoppers Being 'Ripped Off' by Middle Men?"

All of the sessions will be held in the Kern Bldg. auditorium and will be open to everyone. The program is a continuing education extension program of the various Colleges of the University and will involve administrators, faculty members, and staff members in the discussions.

The overall theme of the workshop, the second to be held, is "Food and Your Future" and individual sessions have titles such as Food for Thought; Food and Your Environment; Food and Energy; Food and Your Income; Food and Your Health; and Food and Your Ethical Values.

BALLET, THEATRE

Nittany Mountain Summer activities conclude this weekend with performances by the Pennsylvania Ballet in University Auditorium Friday and Saturday at 8 p.m.; performances of "Awake and Sing" at Pavilion Theatre, Thursday through Saturday at 8 p.m.; the informal Behind-the-Scenes discussions of "Awake and Sing" Friday at 3 p.m. in Pavilion Theatre; and the discussion "Rehearsal Studio to Stage" with the Pennsylvania Ballet Saturday at 4 p.m. in University Auditorium.

STATISTICS LECTURE

Dr. C. A. Rao, director of the Indian Statistical Institute, president of the Biometric Society, and President-elect of the Institute of Mathematical Statistics, is currently at Penn State for a series of lectures which began Monday (Aug. 11) and will continue until August 21.

All lectures, which are sponsored by the Department of Statistics, are given in Room 217 Willard Bldg. at 1 p.m. on the following dates: Friday, August 15 and Monday,

(Continued on page two)

Oswald in Moscow

President John W. Oswald will present an invited paper dealing with graduate employment at the Sixth General Conference of the International Association of Universities on Thursday, Aug. 21, in Moscow. He will be one of approximately 330 chief executives from universities around the world attending the conference, which will meet from Aug. 19 to Aug. 25.

"Higher Education at the Approach of the 21st Century" is the general topic of the meeting. Dr. Oswald will discuss "Graduate Employment in Countries with Market Economies or Partially Planned Economies" at a session which will also hear a representative from a Communist-bloc nation with a centrally planned economy.

The International Association of Universities is the major international organization for institutions of higher education, and its Moscow meeting will be the largest and most representative in the history of the organization. About 40 American universities will be represented by their chief executives.

Artists series

Demand for season tickets for the Artists Series of 1975-76 is unusually heavy, and choice seats are nearly gone, so the Artists Series office advises those who intended, and put off, ordering season tickets to do so now. (For further information on tickets, brochures, or events call 814-865-1871 or stop in Room 203 Schwab Auditorium Monday through Friday, 9 a.m. to 3:30 p.m.)

The season opener, Friday and Saturday, Sept. 19-20, will be the moving, humorous and inspiring musical, "1776," which depicts the struggle of the architects of the Declaration of Independence. The performance Friday is for season ticket holders and the Saturday show is for the general public. Should any tickets for the Friday performance remain after the season ticket sale is concluded, they will be put on sale one week before the performance.

James Dunlop Dies

Dr. James W. Dunlop, professor of music education, died August 7 while serving as a guest director of bands at the University of Utah-Snowbird Summer Arts Institute near Salt Lake City. Conductors of Penn State's famed Blue Band for 29 years, Dr. Dunlop was former president of the American Bandmasters Association and gained many honors in his field during his tenure at Penn State, including the Citation of Excellence by the National Band Association in 1972 for "an outstanding contribution to bands and band music." He served as president of the Pennsylvania Music Educators Association and president and secretary-treasurer of the Pennsylvania Collegiate Bandmasters Association. Born in Tiooga County, he was a graduate of Mansfield State College, with a B.S. in public school music. He received an M.M. degree from the University of Michigan, in 1939, and was awarded an honorary doctor of music degree (hon. Sc.D.) from Penn State in 1964. He served in various capacities in high schools in Mt. Jewett, Emporium, and Farrell before being appointed assistant professor of music education at Penn State in 1947. He served in the U.S. Navy in 1944-46. He was 61.

Honors

Dr. Marshall W. Raffel, professor of health administration, was recognized recently by the Association of University Professors in Health Administration for his "distinguished service to education for hospital and health administration" while he served as director of the College of Human Development's Health Planning and Administration Program.

Dr. James L. Knestrick, assistant professor of social science and psychology at Capitol Campus, has been elected president-elect of the Division of Community Psychology of the Pennsylvania Psychological Association. He is coordinator of the master's degree program in community psychology at the Campus.

HUB Specials

Monday, August 16 — Lunch, knockwurst and salad, \$1.29; dinner, Chinese steak and peppers, \$1.39.
Tuesday, August 17 — Lunch, stuffed pepper, \$1.19; dinner, chicken, chili, \$1.39.
Wednesday, August 18 — Lunch, lasagne, \$1.39; dinner, veal, chicken, \$1.39.
Thursday, August 19 — Lunch, chicken reuben, \$1.29; dinner, beef, crock, \$1.64.
Friday, August 22 — Lunch, seafood croquettes, \$1.95; dinner, Italian shrimp and macaroni, \$1.39. The Terrace Room will close after dinner, Friday, August 22, and reopen in its new location in the HUB addition Tuesday, Sept. 2 for lunch.

EXHIBITS

Museum of Art — Linda Piotkin, "Belmont Court House" (copy of a Print), I. Gallery A. Five Pennsylvania Painters, Gallery B. Twenty paintings on wood panels from Allentown Museum of Art Samuel H. Kress Collection, Gallery C. Paintings from the Permanent Collection, Gallery C.

Kern Gallery — Nabil El Husseni, multimedia.

Hammond Gallery — Art exhibit by Rosalie Staley.

University Auditorium — Photographs of the Pennsylvania Ballet, by Richard Bitting. "Climbing Nittany Mountain Summer events, in lobby area.

Sackett Gallery (third floor) — First-year architecture student projects, "Systems," until Sept. 15.

Staff vacancies

University faculty or staff members who are interested in any of the staff exempt or staff non-exempt jobs listed below may apply by calling Employment Division, 865-1387 (Room Line 476-1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.

THURSDAY, AUGUST 21, 1975
FLEET TRAINING SPECIALIST, DEPARTMENT OF CONTINUING EDUCATION — University Park

Responsible for planning, promoting, and conducting courses for supervisors of the motor fleet duty in the areas of loss prevention, personnel, training and maintenance. Bachelor's degree (Master's degree preferred) or equivalent in related course of study; experienced supervisor from motor fleet or related industry with demonstrated experience in safety and training.

The University is an Equal Opportunity Employer.

Appointment

Dr. Timothy G. Vesonder, as assistant professor of English, Shenango Valley Campus. He is a graduate of St. Meinrad College in Indiana, received his master's degree from Carnegie-Mellon University, and obtained his Ph.D. from Penn State. He has taught at the Baden, Pa., high school and at Youngstown (Ohio) State University.

Dr. Jeffrey A. Kurland, as assistant professor of anthropology. He is a Cornell University graduate in philosophy and received his Ph.D. in anthropology from Harvard, holding a Woodrow Wilson Fellowship and a Harvard Graduate Fellowship. He is a specialist in primatology.

Three new assistant professors, all currently candidates for Ph.D. degrees, have been appointed by the Department of Economics. Gordon S. Bengtson, a graduate of the University of Washington at Seattle, is a doctoral candidate at Berkeley, where he obtained his master's degree. In 1967-68, he was in the Peace Corps in Brazil. Carol A. Leisenring is an Albion College graduate in mathematics and obtained her M.A. in economics at Michigan State, where she is currently working on her Ph.D. In 1968-70 she was a research assistant in the Federal Reserve Bank in Philadelphia. Willard E. Witte, a doctoral candidate at the University of Wisconsin, did his undergraduate work at the Madison campus of that university and also obtained his M.A. degree in economics there. He also has an M.A. in political science from Yale University.

Dr. Donald P. Lookingbill, as assistant professor of medicine, College of Medicine, and staff dermatologist at the Hershey Medical Center. A native of York, he served for the past year as chief resident in the department of dermatology at the Harvard Medical School and affiliated hospitals. He is a graduate of Lehigh University with a B.S. in chemistry, receiving the M.D. degree from the University of Pennsylvania School of Medicine. He was intern and resident at Strong Memorial Hospital in Rochester, N.Y., before serving two years in the U.S. Army.

Dr. Gerald J. August, as assistant professor of psychology at Shenango Valley Campus. He is a graduate of Central Connecticut State College, received his master's degree in educational psychology from Southern Connecticut State College, and was granted his Ph.D. in developmental psychology by Fairleigh University. He was a research assistant at Purdue.

Dr. Stephen J. Wallner, as assistant professor of horticultural physiology. A graduate of South Dakota State University, where he also obtained a master's degree in botany, he received his Ph.D. in plant physiology from the University of Wisconsin. He has been plant physiologist with the U.S. Army Natick Laboratory, Natick, Mass.

HOST CONFERENCE

The 20th annual National Public Policy Education Conference, to be held at Ciymer, New York, Sept. 8-12, will be co-hosted by Penn State and Cornell University, with Dr. Wesley R. Kriebel, professor of agricultural economics extension, and Dr. William Vegeley, head of the department of mineral economics, as speakers from Penn State. The conference is sponsored by the Farm Foundation, colleges of agriculture at state universities, and the U.S.D.A., will take up domestic food and farm policy issues and alternatives, world food issues and alternative U.S. responses, issues in energy and transportation, and the U.S. economic system. Participating in the workshops will be Dr. John W. Malone, head of the department of agricultural economics and rural sociology; William F. Johnston, professor of agricultural economics; and Peter H. Norton, assistant professor of agricultural economics extension, William M. Carroll, professor of agricultural economics extension, is a member of the 1975 Program and Conference Committees.

SCORE

Penn State students have submitted four entries in this year's Student Competitions on Relevant Engineering (SCORE) contest in Albuquerque, N.M. now in progress (Aug. 13-16).

About 40 teams from 30 colleges and universities throughout the United States and Canada will enter in this year's contest on the theme of "Energy Resource Alternatives (ERA)." The ERA competition was organized by SCORE to challenge the nation's top engineering college students to develop innovative energy conversion and power generating systems for homes and light industry using solar, synthetic gas, wind and other non-conventional energy sources.

SCORE, which focuses on significant contemporary problem areas where technological solutions are possible, was established in 1971 by the academic engineering community to encourage interdisciplinary design-hardware fabrication competitions to improve engineering education. SCORE is a non-profit corporation consisting of representatives from university, government, and industry. The organization previously sponsored the Urban Vehicle Design and Students Against Fires competitions. In the latter contest, a fireman's portable microfilm data retrieval system from Penn State was judged top entry.

Penn State's four entries in this year's competition will be: a wind rotor, a solar reflector, a solar collector, and a heat storage system.

(192-2) An index of the programs, resources and contact points at the federal level published to assist in transferring technology and knowledge is available in the directory of Federal Technology Transfer. Included are descriptions of each federal program, its research base, technology transfer policy and objectives, areas of responsibility, methods of dissemination, accomplishments, and user organizations. (Ref. Directory — NSF 75-402).

(192-3) Revised application instructions for research grants have been issued by the National Endowment for the Humanities. The instructions that research emphasizes importance of the work and the end product compared to fellowships granted solely for research and developmental goals. NEH requests that this information be noted by faculty. Research loans and editing have a Nov. 10, 1975 deadline for a July 1, 1976 start; general research grants, Oct. 1, 1975 deadline for a July 1, 1976 start; and centers for research a March 8, 1976 deadline for a Dec. 1, 1976 start. All these programs are on a semi-annual cycle for subsequent deadlines.

(192-4) Proposed rules for the Supplemental Education Opportunity Grant (SEOG) Program, the College Work Study (CWS) Program, and the National Direct Student Loan (NDSL) Program have been issued by the Office of Education. These proposed rules are the first on the new "annual-review" needs — analysis basis. This information has been distributed. (Ref. 40 FR 35359-44, 8/1/75) (CFDA 13.418, 13.463, 13.471).

(192-5) The Department of Defense's OMB Catalog of Federal Domestic Assistance is available from Dept. of Documents, U.S. Gov. Printing Office, Washington, D.C. 20540. This year's price is \$17.00 (not including a binder). CFDA binders are no longer available from either GPO or OMB. The OMB catalog is a good basic reference for all domestic federal programs and is highly recommended for use where funding source refer-

Firearms policy

President Oswald has directed that no change be made in the current University policy in regard to arming officers of the campus security force. He also asked those responsible to prepare for his review a report, including the following:

1. A review of the current security situation on the campus including the various safety problems encountered.
2. A study of the public safety policies at other universities of similar type, including the Ivy League, and the other State-Related Universities in Pennsylvania.
3. A review of the types of circumstances under which a change in policy should be considered.

The President at the same time expressed his appreciation, which he believes is shared by members of the University community, for the high quality of services provided by the Department of University Safety and for the understanding and respect they have engendered under the leadership of David E. Stormer, director.

In Writing

A research monograph of studies related to the physical training of mentally retarded children has been published by the College of Health, Physical Education and Recreation. The monograph, edited by Dr. Herbert M. Lundgren, professor of health and physical education, is entitled "Physical Education and Recreation for the Mentally Retarded." Included in the monograph are 10 studies conducted by physical educators and recreation therapists in the public schools, special schools, and institutions for the exceptional in the Commonwealth of Pennsylvania.

A study of "Henri Evenepoel: Book Painter in Paris, 1892-1899" by Dr. E. E. Hyslop, professor emeritus of art history, has been published by the University Press. Dr. Hyslop previously edited Evenepoel's correspondence. This book contains 52 illustrations which show the wide range of the short-lived artist's work. A student of Gustave Moreau and a classicist and friend of H.P. Adams, Evenepoel tried his hand at poster design, book illustration and printmaking in addition to painting.

Dr. Richard L. Gordon, professor of mineral economics, is author of "U.S. Coal and the Electric Power Industry," just published by The Johns Hopkins University Press for Resources for the Future, Inc.

In the book, Dr. Gordon surveys what is described as a neglected sector of the energy market, examining current theories of coal economics in the light of extensive discussions he had with both coal consumers in the electric power industry and with representatives of the coal industry itself.

Information is needed. In addition to program descriptions, purpose, and eligible applicant funding, past funding and contact information is provided.

(192-6) The National Science Foundation has announced a Dec. 15, 1975 deadline for its Scientists and Engineers in Economic Development Program. AIO funds will continue to support U.S. scientists and engineers who wish to apply their experience to economic development in developing countries. Research and education projects are supported, long-term collaborative research and development projects are encouraged, and increased capability at scientific and technical institutions sought. The program is administered by the Office of International Programs, NSF Washington, D.C. 20505 (202-625-7846) (Ref. NSF 75-220).

REMINER AND DEADLINE DATES

Sept. 10 for NSF Undergraduate Research Participation (May 29 INTERCOM #181-2) — Sept. 10 for SEA research in income maintenance and health insurance (July 17 INTERCOM #187-1) — Sept. 15 for NEA Programming in the Arts (March 29 INTERCOM #171-2) — Sept. 30 for IIE Graduate Study and Research Awards (March 29 INTERCOM #178-3) — Sept. 30 for AGLS study fellowships and grants-in-aid for humanities research (July 17 INTERCOM #186-6) — Oct. 10 for NSF Student Science Training Program (May 29 INTERCOM #181-2) — Oct. 1 and 15 for OE Student and Research Grants (Aug. 2 INTERCOM #181-8) — Oct. 15 for OE Cooperative Education Program (May 29 INTERCOM #185-1) — Nov. 10 for NSF Student Originated Studies Program (July 7 INTERCOM #191-3) — Oct. 15 for NSF Graduate Research and Research fellowships and applications (July 31 INTERCOM #192-2).

suggestion for others from the campuses

Wolfs combine camping and arts at U.P.

Where can a family of five enjoy a weekend of quality theatre, dance, music, art and camping fun, all for \$87.45? Dr. Melvin Wolf and his family found the answer last weekend at Nittany Mountain Summer.

On Friday morning, Aug. 8, Dr. Wolf, professor of humanities and English at Capitol Campus, meticulously loaded the family trailer at his Mechanicsburg home, near Harrisburg, and set out for State College.

With his wife, Joan, and children, Mike, and Elaine, 10, Wolf pulled into Bellefonte KOA campground at noon. An

son, Stephen, a freshman at University Park, had no time in plunging into the weekend's activities. First stop was a

the Playhouse theatre to attend and the Scenes with "Girl Crazy." He joined the audience listening to and asking questions at the show's producer, choreographer, lighting designer and stage manager and were delighted when the entire cast of the show topped off the session with a run-through of "I've Got Rhythm."

The Wolfs appreciatively sampled the cuisine at Findlay Hall with son, Steve, and then, after returning Mike and Elaine to see a movie at the campground, proceeded to a performance of "Awake and Sing" — a production they hailed as "absolutely first-rate."

After a Saturday morning at the campground's swimming pool, the entire family took in a matinee of "Girl Crazy." At intermission, they spotted Jeremy Lawrence, whom they had seen on stage the previous evening as Ralph, and offered their congratulations on his performance.

"After he thanked us," Dr. Wolf recalls, "the lady standing beside him said, 'And the mother thanks you, too.'" She was enjoying a Nittany Mountain weekend herself.

The afternoon was capped by a visit to the Museum of Art to see the exhibit of Five Pennsylvania Painters."

Searching for one word to describe their weekend, Dr. Wolf comes up with "serendipitous." Their experience on Saturday evening at the Pennsylvania Ballet was certainly just that.

Elaine, Mike and Melvin Wolf and in doorway of trailer, Joan.

"When we took our seats in the center of the balcony," Wolf explains, "Joan commented that they were so good that she was certain that they would be where the President would sit if he attended the ballet. At that moment, Dr. and Mrs. Oswald came in and sat next down to us."

At intermission, the Wolfs were introduced to Dean Walter Walters, producer of Nittany Mountain Summer, who invited the entire family to meet the ballet company at a reception after the performance. The Wolfs were particularly eager to meet Robert Rodham, choreographer of "In Retrospect," which was on the program that night since they had greatly enjoyed his "An American Rhapsody" at a performance in Lancaster last year. The reception also gave them a chance to express their delight in the company to its artistic director, Benjamin Harkavy.

"Somehow, out of costume and off the stage, the dancers seemed much younger than when they were performing," Wolf notes.

Sunday the Wolfs took a respite from the arts to enjoy the campground and then a final lunch with son Steve before returning home that night.

Looking back, Dr. Wolf enthusiastically recommends a Nittany Mountain Summer weekend to other faculty families from the Commonwealth Campuses.

"The cost of this entertaining, edifying and educational weekend for our family of five was only \$87.45," he concludes. "The value was priceless."

AMITY seeking faculty response

Faculty and staff members wishing to participate in the AMITY program for incoming freshmen students are urged to return registration forms to the Office of Student Affairs as soon as possible so that students can be matched with host families.

The program, instituted two years ago, helps integrate Penn State freshmen into the larger community as well as into the campus community and provides the students with opportunities to become acquainted on a personal level with residents of the community.

Under the program, families or individuals offer to serve as host families for freshmen, with each family becoming acquainted with at least one student.

Persons who have received registration forms are urged to complete and return them to 105 Eisenhower Chapel. Others wishing to volunteer as host families may obtain registration forms by calling 865-6548.

Committee is named for Bicentennial project

An Academic Resources Committee of 14 faculty members has been named to aid Dr. Norman Graebner, project director for a major Bicentennial project entitled "Freedom: Then, Now, and Tomorrow."

Representing academic disciplines that relate to the project, especially those in the humanities, the committee will aid in providing Pennsylvanians with an opportunity to examine the nature of freedom in American society.

Specific duties of the committee are to assist Dr. Graebner in identifying distinguished scholars, humanists, and other personnel from Penn State as well as other colleges and universities who will participate in the project to assist in the development of a research instrument for determining public perception of freedom, and to assist the project director through advice and counsel on other aspects of the program.

Members of the committee include Dr. Kent Forster, professor of history and head of the Department of History; Dr. Roy C. Buck, professor of sociology and social science; Dr. John B. Frantz, associate professor of American history; Dr. Edward Keynes, associate professor of political science; Dr. Philip S. Klein, professor emeritus of American history; Dr. Ernest B. Lovric, assistant professor of religious studies; Dr. Harrison T. Meserole, professor of English; and Dr. Carl G. Vaught, associate professor of philosophy. All are faculty in the College of the Liberal Arts.

Also on the committee are Elmore Brown, director of the Cultural Center; The Reverend Charles L. Coleman, program director of religious affairs, the Eisenhower Chapel; Walton J. Lord, associate professor of history, the College of Arts and Architecture; and Charles H. Ness, librarian and assistant dean of public services.

Dr. Irwin Richman, program head of social sciences and professor of American studies and history at the Capitol Campus; and Martin Pernick, instructor of history in the Department of Humanities at the Milton S. Hershey Medical Center, complete the committee.

The project, a continuing education pro-

(Continued on page two)

Library study space

Members of the faculty who wish to obtain "Study Space Assignments" in Pattee Library for the Fall Term should note that the assignments will be made on a first-come, first-served basis Tuesday, Sept. 2, beginning at 7:45 a.m. in Room 106 Central Pattee. There are only 46 such spaces. Further questions should be directed to Cordelia Swin-ton, 865-5420.

Newcomers plan welcoming coffees

The Newcomers Club of the Faculty Women's Club at University Park is again planning a series of fall desserts to welcome new faculty and administration women and wives of new faculty and administration, and the cooperation of departments on campus to inform new faculty members of this organization and its welcoming program will be very much appreciated by Newcomers Club officers.

A complete schedule of these informal "desserts" and "coffees" will be issued later.

The Club wishes to introduce particularly that the invitation to new women on the faculty and staff and to wives of new faculty members applies equally to those transferring from one of the Commonwealth Campuses to University Park.

At these introductory programs, newcomers will learn a great deal about the community, the University, local organizations, and places of interest that will help the newcomer to get settled.

Further information may be obtained by newcomers already here by contacting Charlotte Murphy, 234-1405; Betsy Vogler, 237-5530; or Kathie Zeugner, 238-8501.

Theatre schedule set for 1975-76

The University Theatre's schedule of plays for 1975-76 will open with the Tennessee Williams' drama, "Summer and Smoke," in Pavilion Theatre, Oct. 9-11 and 14-18.

In all, six major plays plus the annual Jazz Dance Theatre concert next May will be supplemented by Five O'Clock Theatre Productions, Experimental Theatre, and Second Season Productions, all of which will be announced soon.

The schedule of major plays includes: Oct. 9-11, 14-18 — "Summer and Smoke," by Tennessee Williams, directed by Christopher Barnes, Pavilion Theatre.

Oct. 30-Nov. 1, Nov. 4-8 — "The Caucasian Chalk Circle," by Bertolt Brecht, directed by Knox Fowler, Playhouse.

Jan. 22-24, 27-31 — "Hay Fever," by Noel Coward, Playhouse Theatre.

Feb. 13-15, 19-21 — "Norton I the Emperor of the United States," a children's play by Thomas Splay and Helen Manfull, directed by Helen Manfull, Pavilion Theatre.

April 8-10, 13-17 — "The Balcony," by Jean Genet, directed by Manuel Duque, Playhouse Theatre.

April 29-May 1, May 4-8—Roger Cornish will direct a new theatre event celebrating the State's contributions to the Bicentennial, Pavilion Theatre.

May 12-15—Jazz Dance Theatre in Concert, directed and organized by Jean Sabatino, Playhouse Theatre.

Curtin Road closing begins

A one-block section of Curtin Road on the University campus, between Shortridge and Bigler Roads, will be closed to motor vehicle traffic, beginning Friday, Aug. 22.

David E. Stormer, director of University Safety, said the action is being taken to provide a pedestrian corridor for East Halls students to move from their residence halls to academic areas on central campus.

Closing of the one-block section to motor vehicles will eliminate traffic from one of four directions at the intersection of Curtin and Shortridge Roads, described as the worst on campus for pedestrian-motor vehicle conflicts.

University maintenance personnel have constructed necessary openings and roadways for parking areas affected by the Curtin Road closing.

A major change involves the Ag Administration parking area, Blue K, which no longer will be accessible from Cur-

tin Road. An access opening has been provided from Blue K to Blue A parking area at the rear of Animal Industries. Faculty and staff will be able to exit through the new access opening onto Shortridge Road and through the large Lot 80 parking area onto Bigler Road.

—Limiting access to the front of Pasture Research Lab. Persons will have to enter the parking area from the Computer Center.

—Limiting access to the loading dock of the Computer Center only from Bigler Road.

—Limiting access to Greenhouses from the University Auditorium parking area.

Stormer said that persons coming to work on University Drive who normally use Curtin Road to reach central campus should now continue on University Drive and enter the campus at Shortridge Road.

News in brief

GRAD IS JUDGE

For the first time in the 43-year history of the All-American selections, a woman has been chosen as a vegetable judge. She is a Penn State graduate, Lois A. Stringer, who is a horticulturist and vegetable breeder for the W. Atlee Burpee Seed Co., stationed at Burpee's Fordhook Farms, Doylestown. She will be evaluating the vegetable entries in the All-America Trials at Doylestown. She has been with Burpee Seed Co. for 18 years. All-America Selections is an educational, non-profit organization for testing seeds for prospective new varieties of vegetables and flowers.

RETIRED STAFF CLUB

The Penn State Retired Staff Club will hold its 172nd meeting Thursday, Sept. 4, at the Forestry Lodge at Stone Valley, with supper at 5 p.m., rain or shine. The cost is \$2.00. New retirees are welcome to come. Reservations must be made at least three days prior to the meeting; call Mr. and Mrs. Wilford Mills, 238-6278.

APPOINTED

The new insurance manager for the University, succeeding Wilson M. Carr,

who retired July 1, is James R. Gallivan, former manager of insurance and employee benefits at the University of Illinois. The insurance manager is part of the Office of the Vice President for Fiscal Affairs.

Gallivan, graduate of Illinois Wesleyan University, was a district representative for Sinclair Refining Co., and from 1956 to 1959 was administrative assistant to the director of health services at the University of Illinois.

SMALL CRAFT

The Recreation and Parks Program will offer a one-credit course for small craft safety instructors in the Fall Term.

Objectives of the course include teaching progressions, class organization and leadership, care and repair of equipment and facilities, analysis of student skills, demonstration of safe skills, safe supervision of classes and groups afloat, and technical knowledge researching small craft.

The course will include seminar presentations of material and laboratory application of skills and techniques.

Donald Jarrell, instructor in recreation, will serve as instructor for the course to be

(Continued on page two)

SEMINARS

Tuesday, Sept. 2 — Chemistry, 12:45 p.m., Room 333 Whitmore. Ivar K. Ugi, Technical University, Munich, Germany, on "Computers as a Deductive Aid in Synthetic Organic Chemistry."

Tuesday, Sept. 2 — Aerospace Engineering, 4 p.m., Room 232 Hammond. Dr. J. C. R. Hunt, Colorado State University, on "Turbulent Flow Round Bluff Obstacles — Theory and Experiment."

EXHIBITS

Pattee Library, Circulation Lobby — Art Education graduate students graphics. East Corridor Lobby, Cartoons; drawings by Harry Miller.

Cultural Center, Walnut Bldg. — Opening Sept. 2, exhibit of mixed media from "Natural Feelings," a group of Washington, D.C. artists.

Sackell Gallery — "Systems," works of first-year architecture students, through Sept. 15.

Museum of Art — Five Pennsylvania Painters, concluding Sept. 7.

WPXS highlights

Next week's WPXS-TV programming features the return of the popular TV Quarterbacks program for the fall season.

Each Wednesday, starting Sept. 3, Fran Fisher, Jim Tarnan and Joe Palumbo will be on hand (at 7 p.m.) to discuss last week's game, next week's opponents, and players and coaches. A new feature will be a report on the teaching duties of the assistant coaches.

A weekly feature is the answering of questions from viewers. Questions may be sent to TVOB, 201 Wagner Bldg., University Park, Pa. 16802.

Other WPXS highlights for the week include:

Soprano Beverly Silts on "Speaking Freely," Saturday, Aug. 30, at 6 p.m.

"The Creative Faculty," Sunday, Aug. 31, at 9:30 p.m., has Abram Sachar.

"The Life of Adolf Hitler," Tuesday, Sept. 2, at 10 p.m., includes extensive use of contemporary film footage and archive photos, in a 90 minute documentary.

Ruby Dee stars as Lorraine Hansberry in "Theatre in America" production of "Lorraine Hansberry: To Be Young, Gifted, and Black" Wednesday, Sept. 3, at 9 p.m.

Long before Kevin H. Tesdale (seated left) was born, John Henry Fritzell (center) had retired from the University faculty, having served a total of 38 years in two different periods, 1902-1920 and 1925 to 1945. So it was certainly an unusual event when Tesdale received the John Henry Fritzell Award from the man whom it honors. The award of \$500 is given annually to an outstanding undergraduate student enrolled in the field of liberal arts by the Pennsylvania Lambda Educational Foundation of Phi Kappa Psi fraternity. The recipient is chosen on the basis of scholarship, extra-curricular activities, and need. Helping in the ceremony were Dr. Stanley F. Paulson, dean of the College of the Liberal Arts, seated right, and in back row, state College Mayor Joe Hays, and another faculty retiree Frederick H. Leuschner, and Dr. John J. Romano, assistant dean for undergraduate studies in Liberal Arts. Mayor Hays and Leuschner represented Phi Kappa Psi Fraternity. Fritzell, who will be 94 in October, was speech department head and chaplain for many years; he continues to write a daily prayer for publication in the Centre Daily Times.

Oswald discusses education in Moscow

Long-range educational planning to meet America's manpower needs is largely futile, partly because of the "churning" nature of the economy, observed President John W. Oswald at an international meeting of educators in Moscow, U.S.S.R., last Thursday. He spoke as vice president of the Association of American Universities. He is also a former chairman of the American Council on Education.

More than 300 college presidents and other education officials attend the Sixth General Conference of the International Association of Universities and heard Dr. Oswald explain the way American schools and colleges feed graduates into the work force — by voluntary action.

"We continue to believe that free choice of individuals and diversity of approaches to education are basically efficient," he said, "and with minor exceptions efforts to set detailed patterns at this level would not be productive."

Japanese added to language offerings

With the aid of a grant from the Japan Foundation, classroom instruction in the Japanese language will be added to the curriculum of the East Asian Studies major this Fall. This will be the first time Japanese is taught on a regular basis at Penn State. Together with the program in Chinese it completes the offerings in the two major languages of East Asia in this program leading to a B.A. degree.

The courses will be taught by Miss Hisako Tanaka, who has been appointed assistant professor of Japanese. A U.S. citizen who had obtained both her pri-

(Continued on page two)

The debate that rages in the United States over education, Dr. Oswald indicated, is over the question of whether education should be work-oriented or knowledge oriented.

That debate tends to overshadow interest in the development of educational policy to meet current or anticipated manpower needs.

Furthermore, Dr. Oswald pointed out, there are factors in America's always changing life-style that make long-range educational planning exceedingly difficult if not impossible.

The content of jobs shifts rapidly and unpredictably, and retraining is basic to every trade and profession.

"We are convinced that we must educate people for change and be equipped to deal with change productively."

Even when imbalances of skilled people crop up — as shortages in the health care professions and engineering, or surpluses in the legal profession — America's response is to rely on an interplay of market forces rather than direction from a centralized body.

"Our traditional approach is to encourage voluntary action," Dr. Oswald said, and "to rely on price mechanisms set in a free market to adjust supply and demand for highly trained persons."

Nevertheless, Dr. Oswald acknowledged, the United States is moving, in some educational areas, toward a greater degree of planning than has heretofore obtained.

Especially in research, "universities will not be free to design readjustment without influence from the States and from the Federal Government . . . To accomplish this without introducing an unwelcome degree of governmental influence and control . . . will unquestionably be difficult."

(Continued on page two)

Calendar

Aug. 28—Sept. 7, 1975

SPECIAL EVENTS

Saturday, Aug. 30 — Commissioning exercises for R.O.T.C. programs, 8:30 a.m., Helen Eakin Eisenhower Chapel. Dr. Frederick H. Russell, speaker.

Saturday, Aug. 30 — Summer Term Commencement, 10:30 a.m., Recreation Bldg.

Tuesday, Sept. 2 — President Oswald addresses parents of incoming freshmen, 3 p.m., University Auditorium.

Tuesday, Sept. 2 — New Student Day, arrival of new freshmen, transfers, and other students coming for first time to University Park.

Tuesday-Friday, Sept. 2-5 — Orientation and advising.

Wednesday-Saturday, Sept. 3-6 — Registration, new intramural Building.

Wednesday-Friday, Sept. 3-5 — Tours of Pattee Library at various hours, meeting in Pattee Library lobby.

Thursday, Sept. 4 — Birmingham game, vs. University of Birmingham (England), 7 p.m., Jeffrey Field.

Thursday, Friday Sept. 4-5 — College of Human Development Nutrition Program, 4 p.m., Room 204, Human Development. Dr. Karl V. Guggenheim, Hebrew University, Thursday, on "Body Image of Adolescents and the Problem of Juvenile Obesity," and Friday, "Nutritional Health in a Changing Society — Studies from Israel."

Thursday, Sept. 4 — "Music of Black America," by Pearl Williams Jones, singer, pianist, and concert artist, 8 p.m., Schwab.

Friday, Sept. 5 — Introduction program for black students, 6:30 p.m., Cultural Center, Walnut Bldg.

Friday, Sept. 5 — Pre-season soccer tournament, 7 p.m., Jeffrey Field Union Bldg.

Saturday, Sept. 6 — HUB ballroom.

Saturday, Sept. 6 — Penn State Outing Club annual Mt. Nittany hike and supper, meeting at 1:30 p.m., HUB lawn.

Saturday, Sept. 6 — Graduate Student Association social, 8 p.m., Room 102 Kern.

Sunday, Sept. 7 — Free-U free movies and pizza, 9-11 p.m., HUB lawn.

Sunday, Sept. 7 — Outing Club circuit hike and State Trail System, 9 a.m.

Sep. 7 — Black Christian Fellowship service, 11 a.m., Cultural Center. Elder Gerald G. Loyd.

Death

Joseph T. Law, who served on the faculty in political science for 35 years before retiring in 1960, died August 17, in Olney, Md. He taught courses in American and state government, political parties, and constitutional government in his long career here. Previously he had taught at the University of New Hampshire and in high schools of Texas and Missouri. He served in the U.S. Army in 1918-19. He received a B.S. degree in education from Springfield (Mo.) State Normal in 1915 and an A.B. in history from Drury College the same year. He also received an M.A. in political science from the University of Wisconsin in 1921.

J. Martin Fry, retired director of Cooperative Extension Service, died August 16 in Lake Worth, Florida. He was 87. He retired June 30, 1953, after serving 35 years on the Extension Service staff. After teaching school and working in a bank, he enrolled at Penn State and was graduated in 1917, with a major in agronomy. He was named first agricultural agent in Northumberland County in 1918 where he served until 1924, when he became acting assistant director of Agriculture Extension work. The following year he assumed the position of assistant director. His duties at that time included college fair exhibits and Extension publicity. On October 1, 1942, Mr. Fry was appointed director of Extension, and continued until his retirement in 1953. As director he gave strong and tireless leadership to the many activities of the wartime Extension program, including Emergency Farm Labor, and to the postwar program. From 1928 until 1946, he served as secretary of the Pennsylvania Farm Show Commission. While director of Extension, he served for many years as a member of the committee of Extension Organization and Policy of the Land Grant College Association.

OSWALD —

(Continued from page one)

Dr. Oswald said that the problem of adjusting the output of educational systems to the needs of the people is world-wide and solutions hinge on prevailing social values in a given nation.

Thus, the aforementioned national debate, which touches almost every American family, is a play-out in microcosm of the debate that all societies face.

Are public needs best served by individuals who are broadly educated in response to their own desires and choices, or by individuals who are trained in practical, vocational skills?

In the United States, this debate, plus the "churning" nature of American technology, largely relies on long-range detailed planning, Dr. Oswald said.

Dr. Oswald spelled out American attitudes and practices on the employment of graduates as typical of nations with market economies.

But he pointed out that there are no clear lines separating the planning nations from the market nations. The former tend to rely on manpower forecasts; the latter on "personal choice enlightened by forecast information."

JAPANESE —

(Continued from page one)

many and secondary schooling in Japan, she is at present completing her doctoral dissertation with Tokyo University with the title "Traditional Japanese Ethical Thought and Women Writers of Meiji Japan."

Miss Tanaka comes to Penn State with a wide range of professional experiences. Since 1949 she has taught Japanese at such U.S. institutions as the University of California (Berkeley), Stanford University, the Overseas Program (Tokyo) of the University of Maryland, University of Illinois (Urbana), and University of Chicago. She also served 1957-60 as a translator with the U.S. Security Forces in Tokyo, and is currently Chicago Representative of the Japan-America Cultural Society, Inc. with headquarters in Tokyo.

Miss Tanaka is the author of several works in translation, both from English into Japanese and from Japanese into English, and has also published extensively in Japanese and English-language professional journals in the field of Japanese literature and society.

Hager retiring

Dr. Cyril F. Hager, associate dean for continuing education and director of the Center for Continuing Liberal Education in the College of the Liberal Arts, will retire Sept. 1 with the rank of professor emeritus of social studies. The Center was established in 1960 as a result of a proposal by Dean Hager to the Ford Foundation's Fund for Adult Education and a resulting grant of \$350,000.

Prior to his appointment to the Penn State faculty in 1958, Dean Hager was assistant director of the Foreign Service Institute of the U.S. Department of State and dean of its School of Foreign Affairs. A native of Marshfield, Wis., he received his bachelor of arts, master of arts, and doctor of philosophy degrees from the University of Wisconsin and also did post graduate work in classics at Cornell University. He began his academic career as an instructor in English and

offered at 3:55 p.m. Thursdays and one period by appointment.

Additional information about the course is available from Jarrell, Room 267 Rec-Bldg., 865-1851.

MCKEESPORT PHONE

McKeesport Campus has acquired a new Pennsylvania Network number, 675-6930. This number is not generally available but can be reached from phones having the Network connection.

CAPITOL GETS GRANT

The Master's program in Public Administration at Capitol Campus has received a grant of \$49,346 for the school year 1975-76.

According to Dr. Daniel Poore, chairman of the program, the grant is from the U.S. Office of Education to establish or improve graduate public service programs. The money can be used to strengthen faculty, to expand programs of study, to cooperate with other graduate and professional schools, and to purchase or rent instructional equipment and materials. Already from the grant funds the program has hired Robert Munzinger as coordinator of the field-study program.

Such grants are given as part of the Public Service Education Portions of the Higher Education Act. For the coming year, the institutions of higher learning received awards.

SPORTS TENETS TO OPEN

As early as Penn State's football opener with Temple is this year (Sept. 6), it is not the first event on the Fall Term sports calendar. Thursday, Sept. 4, the University of Birmingham (England) soccer team will oppose Penn State at Jeffrey Field in a game at 7 p.m., then take part in a pre-season tournament the following evening, also at 7 p.m. The tournament, which will feature two other college teams, will be conducted with one-hour games, involving

speech at Utah State College in 1937-38 and then served as an assistant professor from 1940 to 1942 at Eastern Kentucky State College. During World War II, he was a director with the American Red Cross in India, Ceylon and China. Later he was commissioned a lieutenant colonel in the United States Air Force and served regular tours of active duty from 1950 to 1962. He joined the faculty of Michigan State University in 1944 as an assistant professor of communications and social science. The following year he accepted an associate professorship at Syracuse University where he became chairman of the Department of Public Address. From 1949 to 1956, he served as director of international studies and educational advisor to the commandant of the Air War College at the Air University in Montgomery, Ala.

Dean Hager is listed in "Who's Who in America" and since 1970 has been vice-president of the Axe-Houghton Foundation of New York City.

the first and second teams of Penn State and Birmingham as well. There is no admission charge, and this is a good chance to see a lot of fine soccer early.

COMMISSIONING PROGRAM

Eleven graduating seniors will also receive commissions in military services in a program Saturday, August 30, at 8:30 a.m. in the Helen Eiken Eisenhower Chapel. Col. Gerald F. Russell (ret.), assistant to the dean of the College of Health, Physical Education and Recreation, will give the commissioning address and the oath of office will be administered by the professors military, naval, service, and aerospace studies. One student will receive a regular commission as second lieutenant in the U.S. Army, four will receive commissions as second lieutenants in the U.S. Army Reserve, five will be commissioned as ensigns in the U.S. Navy, and one will be commissioned as ensign in the U.S. Navy Reserve.

PHYSICS PAPERS

Several faculty members and students from the Department of Physics presented papers this week at the 22nd International Field Emission Symposium at the Georgia Institute of Technology in Atlanta, Georgia.

Dr. Erwin W. Mueller, Evan Pugh research professor of physics, presented the opening paper on "Imaging in Field Ion Microscopy." He is also co-author of two other contributed papers with Dr. S. V. Khramov, a research associate, and S. Brooks McKelvey.

Dr. T. Tsong, associate professor of physics, is serving as chairman at the session of Field Desorption and Field Evaporation, and presented two papers with his students, doctoral candidates Gary L. Kellogg and Paul L. Cowan.

Dr. Osamu Nishikawa, associate professor of physics, and his students, Michael Martinka and Reza Saadat, doctoral candidates, also contributed a paper.

The annual symposium, which focuses on a field founded by Dr. Mueller, was held at Penn State in 1965 and 1973.

Funding Opportunities

For procedural and funding source information, call 665-1372.

August 28, 1975

(19-18) Award cycle of Office of Education funded research and demonstration grants have been announced. Field initiated studies applications are due by October 31, 1975 and student research has two cycles to Project, Written March 1, 1976. (Info 730) (FCSA 13-443).

(19-13) The NSF program Clinical and Human Value Inquiry of Science and Technology (EHVIST) has a Jan. 15, 1976 closing date for other projects. The EHVIST program supports research, education, public understanding projects in (1) impact of new developments in science and technology in the value of society, (2) impact of societal values on the development of science and technology, and (3) value leaders which unite with science and technology. Priorities include in-depth case studies, experimental summer workshops or Institutes, and national conferences or workshops. (Ref. 75-15-19)

(19-42) The Office of Federal Programs (OFFP) Washington, D.C. has issued a revised Proposal Development Handbook, updating the information for the past several years. The new handbook outlines items recommended for inclusion in proposals and mentions pitfalls to be avoided. The information is intended for use in conjunction with proposal writing information available through each campus research and development office. The handbook includes sections on:

preparatory steps, letter of intent, preliminary proposal, bid proposal, and bibliography. This information has been distributed (Ref. AASCU Proposal Development Handbook).

(19-43) Applications for the 1976-77 White House Fellowship program are due by Nov. 10, 1975. The program offers one year of full-time, high-level experience. Selection criteria include: leadership, intellectual and professional ability, high energy, and commitment to community and country. The program is administered by the President's Commission White House Fellowships, Washington, D.C. 20415. (Ref. CAU Rpts. 8/11/75)

(19-45) Ford Foundation (Inochina) Fellowship Awards, 1975 E. 42nd St., New York 17-1077 offers research and training fellowships to scholars who have left Cambodia, Laos or Indochina in 1975. The program is designed to support cultural sciences, humanities, and agricultural sciences. Applicant must be 25 or older, have at least a master's degree or its equivalent and must have been in the United States since 1975. Application deadlines are Aug. 23 and Sept. 15. For further information and application forms, write to address given above. (Ref. FO 75-21)

(19-46) National Science Foundation (NSF) - The National Science Foundation (NSF) 200 15th St., N.W., Washington, D.C. 20506 announces the availability

Staff vacancies

University faculty or staff members who are interested in any of the staff employ or staff non-employment jobs listed below may apply by calling Extension Division, 865-1857 (Network Line 43, 1387). Do not contact the area having the vacancy. Applications will be accepted until 5 p.m.:

THURSDAY, SEPTEMBER 4, 1975
RESEARCH AIDE, COLLEGE OF AGRICULTURE — University Park
Observe and collect data from department research projects, such as overseas egg collection, genetic classification of chicks, etc. Perform laboratory procedures, including incubation, pedigree hatching, classification of chicks, etc. Maintain records of procedures performed. A Master's Degree, or equivalent, in Zoology, Animal Biology or Statistics, and a minimum of laboratory experience, or a Bachelor's Degree, or equivalent in the above with less experience is required.

ASSISTANT HERDSMAN (HORSE HERDSMAN) — University Park
Oversee the feeding, watering and general care and maintenance of animals and livestock area supervising the mixing of feed, bedding of pastures and cleaning of stalls. Monitor and record feeding rates and management practices in accordance with individual animal performance. He is responsible for maintenance of health programs, attend to all parts of animal care, including stall or trail or refer sick animals to veterinarian, and administer proper preventative health program. A Master's Degree in animal science plus one or two years of experience is required.

COMPUTER OPERATOR, INTERCOLLEGE PROGRAMS — University Park
Operate computer console and input/output equipment; process computer jobs from submission by users; perform data backup operations; monitor system and maintaining alertness for error conditions. Two years of college mathematics is required. Familiarity with computer programming and operation of punched card equipment is desirable.

STAFF NURSE — HOSPITAL, STUDENT AFFAIRS — University Park
Responsible to the head Nurse, Hospital, for providing nursing care to patients in the hospital and emergency care to out-patients. High school graduation and formal accredited training and graduation from a nursing school is required. Good references must be obtained and have 5-12 months experience.

VETERANS OUTREACH ASSISTANT, STUDENT AFFAIRS — University Park
Responsible to the Coordinator of Veterans Affairs for implementing a publicity campaign designed to attract veterans to The Pennsylvania State University system and apprise veterans of the educational advantages of the Learning Support Program. Provide liaison for the Learning Support Center within University Park and among all Commonwealth Campuses. Bachelor's degree with one to two years effective experience in the field of Veterans Services. The employee should be an honorably discharged veteran with active duty status in the TEMPORARY university appointment.

COUNSELOR, STUDENT AFFAIRS — University Park
Responsible to provide various services to individual students to enable them to effectively adjust to the University environment socially, personally, and academically to the extent at which other services are indicated. A Master's degree in sociology or counselor education is required. Over 1 year up to and including 2 years of experience in the field of a directly related activity is necessary. TEMPORARY university appointment.

GRAPHIC ARTIST, UDIS — University Park
To prepare art work in the form of graphs, charts, illustrations, displays and technical drawings, and as slides, flipcharts, TV art, overhead transparencies, etc., for use primarily in the resident office. Associated with the Learning Support Program of a two year program from an art institute. Knowledge of electronic techniques and audiovisual aids is helpful.

The University is an Equal Opportunity Employer.

of \$2000 summer stipend awards for 1976. Applicants must be nominated by their college dean. Applications must be received at 317 Kern Graduate Bldg. by Sept. 30, 1975. Application forms and instructions may be obtained from college deans or at the address given above. Penn State is allowed to nominate one faculty member who is not a faculty member but has been in the field of research who received it in 1968 or later. Preference is given to individuals planning research on the history of science, technology, and society, and on social revolution. Fields covered include history, philosophy, languages, literature, archaeology and social science. The purpose of the awards is to foster research in the summer. For further information write to address given above. (Ref. FOTS-22)

(19-73) U.S. Department of Labor (U.S. Labor Dept.) Office of Secretary, Dept. of Labor, 200 W. Patrick Henry Bldg., Washington, D.C. 20301 announces deadlines for doctoral dissertation support grants: Sept. 1, Dec. 1, March 1, June 1. Average award is \$13,000/year. See also memo 75-13. For further information write to the address given above. (Ref. 75-22)

REMINER AND DEADLINE DATES
Sept. 10 to NSF undergraduate Research Participation (RPP) program. Sept. 15 to NSF grant for IIE Graduate Study and Doctoral Research Abroad (May 8 INTERCOM #178-5). Sept. 15 to ACLS study fellowships and grants-in-aid. November 1 to NSF grant for IIE Graduate Study and Doctoral Research Abroad (May 8 INTERCOM #178-5). Oct. 1 to NSF Student Science Research (NSF-20). Oct. 1 and Oct. 31 for OE Student Research and RAD Studies (Aug. 7 INTERCOM #191-8)
